PRICING/SHIPPING INFORMATION

List Prices Include Freight

One delivered price to all locations within the contiguous United States.

A minimum freight charge of \$100 will be added to orders less than 300 pounds.

Transportation

All orders shipped to any destination within the contiguous United States and port of departure, **F.O.B. origin freight prepaid**. Studio Q does not ship outside the contiguous United States.

Studio Q will select the furniture specialist carrier to be used on all shipments.

Additional Charges

Studio Q Furniture reserves the right to implement a fuel surcharge.

Non-dock, inside delivery, time delay, air freight, expedited shipments and installation are not included in the pricing shown and are the responsibility of the customer. These charges vary depending on weight, number of pieces, distance, etc.

Charges for delivery to locations not generally recognized as commercial locations such as but not limited to: private residences, apartments, churches, universities, schools, pre-schools, daycares, camps, farms, public storage facilities, business operating within the private residence, and other such locations are the responsibility of the customer. These charges can range from \$100 minimum up to \$500 per delivery. Studio Q reserves the right to adjust these prices if the selected carrier changes their published prices.

The customer will be billed and is responsible for all additional charges when they are incurred.

Charges resulting from late deliveries beyond our control are not the responsibility of Studio Q Furniture.

Storage

Studio Q ships all furniture upon completion. Storage of furniture beyond completion is the sole responsibility of the customer.

TERMS/CONDITIONS OF SALE

Terms

Net 30 days from date of invoice. Prepaid orders have net terms with no cash discounts. We do not ship C.O.D.

Possession of this price list does not constitute authority to sell or offer for sale Studio Q Furniture products.

Credit Approval

Each order you place is submitted for credit approval. All new accounts should submit a financial statement, credit and bank references upon placement of first order. We will notify you immediately if credit is not approved at which time a 50% deposit with the balance due before shipping is accepted, provided there are no past due Studio Q Furniture invoices.

Payment Methods

In addition to using a Factoring Agency, Studio Q accepts payment by Check, Certified Check, Wire Transfer, E-Check and Credit Card (American Express, Discover, Master Card, Visa).

Order Scheduling

Orders will be scheduled for production after:

- All COM's received.
- All special finishes received/approved.
- Ordering information is complete.
- Credit approval or pre-payment.

Order Acknowledgement

Studio Q Furniture will send an acknowledgement with exact pricing information and expected ship date. You should check each acknowledgement for accuracy and immediately notify Studio Q Furniture of any discrepancies. This acknowledgement is the final agreement between you and Studio Q Furniture, superseding all previous communications regarding the order. Your order will be processed as acknowledged.

Order Changes/Cancellations

We will not accept changes or cancellations, including fabric and finish changes once an order is in production.

PRODUCT/PARTS WARRANTY

Limited Lifetime Warranty

Studio Q Furniture warrants its products to the original buyer, for the originally intended purpose to be free from structural defects in materials and workmanship under normal use and service, and given normal care, for the lifetime of the product from the original invoice date after January 1, 2011. Normal use is defined as a single shift, forty (40) hour work week.

This warranty does not apply to:

- Damage resulting from freight damage, accident, alteration, misuse, tampering, abuse, negligence or improper cleaning.
- Upholstery, foam cushioning, and other parts subject to frictional wear.
- Failure to maintain products according to published Studio Q instructions and guidelines.
- Normal wear and tear such as dents, scratches, fading and improper maintenance and cleaning.
- Damages to wood/finishes caused by impact or abrasions.
- Studio Q does not guarantee any upholstery covers with regard to durability, colorfastness, shrinkage or stretching. Upholstery covers may carry warranties from the cover manufacturer or reseller.

The texture, color, and grain of the wood are not covered by this warranty. Natural color changes, variations or movements in lumber products, exposure to extreme temperature changes and direct sunlight may cause color changes and/or surface damage. These are circumstances beyond the control of Studio Q Furniture and are not warranty issues.

Certain chair styles with exposed wood require construction methods that accent color variations in light and natural stains. These variations are not considered product defects and are not warranty issues.

If any products are defective, please notify our customer service. You may submit claims via email to: **repairinfo@studioqfurniture.com**. In order for your claim to be valid, you may be required to provide a copy of the original invoice along with a photograph of the damaged furniture. Studio Q reserves the right to inspect the product prior to making a warranty claim determination. This may be done in the field by a Studio Q sales representative or at the Factory. The representative does not have the authority to bind Studio Q Furniture by a definite agreement. If you follow the above procedures and your claim is approved, Studio Q Furniture has the option of either repairing or replacing any defective product covered by this warranty. If the product has been discontinued, Studio Q will repair or replace with comparable product, at its option. **Service calls and all related expenses are the sole responsibility of the customer.**

All other expressed warranties are hereby excluded and implied warranties are limited as set forth above. This warranty is in lieu of all other warranties, and the implied warranty of merchantability and the implied warranty of fitness for a particular purpose shall not be part of any sale.

This warranty is applicable only to those parts actually manufactured by Studio Q. For purchased component parts, mechanisms, casters, foam and textiles, Studio Q will apply exactly the same warranty that is extended from the supplier. We exclude and will not pay consequential or incidental damages under this warranty.

Exceptions to Limited Lifetime Warranty include:

- Swivel bases or mechanisms - 5 years
- Casters (and inserts) - 1 year
- Gas Cylinders - 2 years
- Tablet Arms - 1 year

Returns /Repairs

No merchandise may be returned or repaired without prior authorization from the Studio Q Furniture factory. A Return Authorization (RA) number must be secured prior to the return of any product. The RA must be used within 30 days of issuance.

In the event that you receive furniture damaged in transit or shortages, do not refuse the shipment. Note all discrepancies on the bill of lading, retain all cartons, take pictures of the cartons and damaged product and immediately notify us at: **repairinfo@studioqfurniture.com**. You do not need to file a freight claim, we will handle the repair for you.

Freight damage returns must be picked up and redelivered to the original ship-to address. Charges related to redelivery to the final destination are not the responsibility of Studio Q Furniture.

Product being returned to Studio Q for repair or replacement will be thoroughly inspected on its return and the results compared to the reason for the return stated. Any discrepancies such as additional damage, signs of misuse, etc. will result in adjustment to the repair or replacement agreement previously agreed upon. These adjustments include but are not limited to re-imbursement to Studio Q for freight charges, labor and materials.

NOTE: We are only responsible for the pick-up and delivery to and from the original destination. We are not responsible for any additional charges you may incur from an installation company.

WOOD FINISHES AND LAMINATES

COF—Customer's Own Finish

- We match any finish
- No additional charge
- Available on all styles
- No minimum order

Ordering Custom Finishes

Please mark all COF (customer's own finish) purchase orders with the following information:

- Manufacturer's Name
- Style Number
- Color Name/Number
- Indicate Finish as COF
- If we have previously matched your finish sample, reference the acknowledgement or purchase order number.

Sending COF Finish Samples

The finish sample should be sent to us from you, rather than from the manufacturer.

Label all finish samples with the following:

- Your Purchase Order Number
- Manufacturer's Name
- Color Name/Number

A sample for approval of your custom finish will be sent only when requested on your purchase order. However, if your order is 15 pieces or more, we will automatically send a sample for approval.

We are not responsible for variations in other manufacturer's finish standards and cannot guarantee an exact match to furniture you receive from another manufacturer; however, the finish will be a commercially acceptable match to your sample.

When comparing a matched finish, please remember that large, flat horizontal desk surfaces will naturally appear lighter in tone than vertical surfaces on chairs. This is true even when there is an exact color match.

Wood is a natural product and differences in porosity, grain, mineral content, etc., can cause slight variations in finishes from one piece of furniture to the next. Studio Q Furniture does not guarantee the exact matching of grain, pattern and color. We match the overall color and sheen of your finish, but we cannot match the grain characteristics of the wood itself. This is particularly true with plastic laminate samples, clear finishes and lighter tones.

NOTE: Oak finishes are matched on oak wood. Other finishes such as cherry, mahogany, maple and walnut are matched on maple wood.

Studio Q Furniture Standard Finishes

Maple Wood

#22 Light Maple	#53 Natural Cherry
#23 Honey Maple	#58 Amber Cherry
#25 Grand Mahogany	#60 Siren Maple
#33 Cherry	#65 Blossom Cherry
#35 Brown Walnut	#70 Topaz Khayawood
#50 Medium Cherry	#99 Gloss Black

Oak Wood

#40 Light Oak	#45 Dark Oak
#42 Medium Oak	#95 Flat Black

NOTE: All items are available in maple wood. Consult the price list to determine if an item is available in oak.

Q Guard Finish

Studio Q Furniture products come standard with a Q Guard protective finish featuring antimicrobial silver ion technology. Silver ion technology inhibits the growth of mold, mildew, fungus and bacteria that can cause odors and stains. The Q Guard finish is a catalyzed conversion varnish making it highly durable, chemical resistant, UV resistant and moisture resistant. Under normal usage and cleaning conditions, the Q Guard finish will provide continuous antimicrobial protection and maintain durability for the useful life of the product.

As with any fine wood furniture, the natural grain characteristics will be clearly evident. Chemicals in rubber and some plastics (such as vinyl binders and rubber pads on accessories) may react with furniture finishes when they are left in contact for prolonged periods. Always place a non-reactive spacer of cloth, paper, cork, etc. between the furniture and any such chemically reactive materials.

Wood Cleaning Instructions

Wood should be cleaned with a clean cloth moistened with clean water and immediately dried using a soft cloth. Do not use oil or wax based products to clean Q Guard wood finishes as these products can create a barrier to the protective properties of the finish. The use of cleaners containing soap, oil, ammonia and solvent can soften, discolor and even destroy the integrity of the finish.

Selecting Light and Natural Maple Finishes

We will finish maple wood in clear, natural or light finishes at your request. Light and natural finishes will show the natural characteristics of the wood. Lighter finishes will not mask mineral streaks, the burl nature of maple wood or variations in color and tone from one part of a chair or table to another. The direction of the grain will also affect the perceived color of a particular part (i.e. comparing the top rail to the back leg of a chair). Merchandise will not be replaced because of these natural variations.

Oak Finishes On Maple Wood

We do not recommend using oak finishes on maple wood. An oak finish on maple wood does not yield the pleasing tones with which you are familiar. If using an oak finish on maple wood, we will send a sample for approval.

WOOD FINISHES AND LAMINATES

Tables With Combination Finishes

Wood table tops can be finished a different color from the base of the table at no additional charge. Please submit instructions with your purchase order.

Laminate Table Tops

All table collections are available with laminate tops. Refer to price list for style number of laminate top option.

Special Laminates

Additional laminates can be ordered from Formica, Laminart, Nevamar, Pionite and Wilsonart **at an upcharge**.

1 to 3 tables	\$150 list each
4 or more tables	\$85 list each

CONSTRUCTION/DESIGN OPTIONS

California Technical Bulletin 117

All upholstered Studio Q Furniture meets California code 117 at no additional charge.

California Technical Bulletin 133

Representative styles of Studio Q Furniture have been tested for compliance with California Technical Bulletin 133 using a barrier material between the foam and upholstery cover. California Technical Bulletin 133 is a full-scale fire performance standard — there are no individual components which by themselves can ensure compliance. See CAL 133 upcharge for each item in this price list.

If laboratory certification is required for a specific style and upholstery combination, the following costs apply:

- Cost of test sample including TB133 upcharge.
- \$1,000 net for transportation, test and video.

The same charges apply to COM/COL. Studio Q Furniture reserves the right to reject any COM/COL which we feel may compromise the integrity or safety of a piece specified for code compliance, or in cases where the barrier material shows through the fabric.

All code compliant furniture will carry the special labeling required.

Combination Upholstering

When a combination upholstery treatment is desired, price at the highest grade fabric used.

Contrasting Welt

Contrasting welt is available at an additional charge as follows:

Chair	\$50 list
Loveseat	\$60 list
Sofa	\$70 list

These charges apply for Studio Q Upholstery Selections, Graded In Fabrics, and COM/COL.

Tables

Tables are made from kiln-dried, beautifully finished wood veneer or laminate tops with solid wood edge bands. We use only high quality materials and construction standards. Tempered glass is used in all glass top tables. Good judgement of use and risk of breakage will be your sole responsibility.

Tablet Arms

Removable tablet arms are available on several styles. Tablet arms revolve 360 degrees. Please consult your price list for availability and pricing. Tablets are available in laminate or solid wood. Black is the standard laminate color for tablets, but you may select from any of our standard laminates listed above. Laminate is the most durable of the two surfaces. If you select wood tablet arms keep in mind that the wood may show scratches or markings from objects used for various tasks. Studio Q Furniture is not responsible for any markings or scratches that may occur.

NOTE: Tablet arms are not designed to be used for sitting, leaning, supporting heavy objects, etc. Good judgment of use and risk of breakage will be your sole responsibility.

CONSTRUCTION/DESIGN OPTIONS

Power Option

Power option is available at an upcharge on select lounge seating, benches and wood or laminate tables. The power unit lays flat when closed and offers fluid one touch accessibility to one electrical outlet rated 15A/125VAC and two USB-A connections for USB powered devices. A 6 ft. electrical cord comes with the unit. The power unit is positioned in the outside arm panel of a lounge unit, the end panel of a bench or the top of a table. For seating, specify position of power unit as Left (LSF) or Right (RSF) Side Facing when ordering. For tables, please specify location of power unit in table top or provide a drawing with your purchase order indicating position.

Placement Examples of Power Unit

Knee-Tilt Controls

The knee-tilt control allows you to tilt backward while keeping your feet on the floor. This control minimizes vertical knee movement and eliminates upward thigh pressure. These controls are standard on some of our chairs, and are noted in the price list descriptions.

Loose Seat Cushions

Loose seat cushions are secured with an elastic strap, snap and D-ring system. This allows you to remove the cushions when needed.

Permanently Attached Seat Cushions

Permanent attachment of seat cushions is available at an additional charge.

Chair	\$175 list each
Loveseat	\$275 list each
Sofa	\$375 list each

Comfort Wrinkles

Seating items are designed with flat upholstery surfaces. Comfort wrinkles or puddling may develop depending on the thickness and soft nature of batting and foam, contoured shapes of seats and backs, and memory of upholstery used. Leather and thick fabrics have a tendency not to spring back and may show indentations after use. Some fabrics even though upholstered with the correct amount of tension, may develop looseness or a draping effect when exposed to environments with higher than normal levels of humidity.

Dimensions / Specification Changes

All dimensions in our catalog are subject to slight variations due to the varying thickness of coverings and the individual upholstery technique of each craftsman. We assume no responsibility for variations in dimensions.

Technological advances are being reviewed regularly. Studio Q Furniture reserves the right to change specifications for the improvement of products at any time without notice.

Moisture Barrier

A moisture barrier is available on all upholstered styles at an upcharge. This barrier, applied between the upholstery material and the interior filling, is designed to prevent moisture from penetrating the foam and filling materials. Studio Q Furniture's moisture barrier is soft and pliable with properties that include: anti-fungal, anti-bacterial, and fluid proof. The moisture barrier meets California Technical Bulletin 117, Section E.

The moisture barrier upcharge is per unit (see unit examples below). Each style has a total number of possible units of moisture barrier; however, less units than the total, such as "seat only" may be ordered.

When ordering, specify which units of each style should receive the moisture barrier.

Upcharge: \$45 list per seat unit
\$45 list per back unit
\$45 list per arm (both arms = \$90)

Unit Examples:

- An open arm guest chair has 1 seat and 1 inside back = 2 possible units of moisture barrier.
- A sofa has 3 seat units, 3 inside back units and 2 inside arm units = 8 possible units of moisture barrier.

Adjustable Glides

Available on various tandem seating for an additional charge:

Chair	\$30 List
2-Seat	\$45 List
3-Seat	\$60 List

Contact customer service for available styles.

Bariatric Guest Seating and Benches

Bariatric chairs have successfully complied with the appropriate test clause of ANSI/BIFMA X5.4 1997. Base Test - Static: 1400 lbs and Modified BIFMA 5.4 - 2005, Section 14. Dynamic Load Test: 750 lbs.

Connector Tables

Although the connector tables are very durable and strong, the tables should not be used as seats. Connector tables are not designed to hold a person's weight whether sitting, standing or leaning. Damage to the connected chair or connector table due to improper use is not covered under warranty.

Assemble in final location. Do not pre-assemble and move. Disassemble units before moving. Failure to do this may result in damage to the connected units and is not covered under warranty.

CONSTRUCTION/DESIGN OPTIONS

How to Order Connector Tables

When ordering connector tables, **please provide a detailed configuration line drawing** which includes:

- Style #
- Indication of which styles are connecting and non-connecting
- Fabric name and placement
- Wood finish

We will custom build your order to your specifications and configuration. The configuration will NOT be inter-changeable; therefore, we cannot process your order without the configuration line drawing.

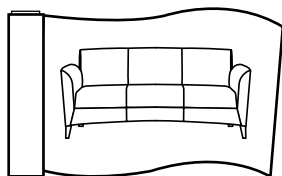

FABRICS/LEATHERS

Application of Fabrics

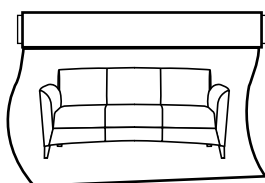

Studio Q will determine the proper direction to apply all fabrics as required for each style. This may vary from the direction the supplier's sample is swatched or shown on their website. Upon request, Studio Q will apply fabric in a specific direction. This must be submitted in writing with specific instructions as to how it is to be applied and with the agreement that the customer assumes all responsibility of the outcome of the application.

Examples of Fabric Placement

Railroaded

Up The Bolt

COM/COL Requirements

COM/COL (Customer's Own Material/Customer's Own Leather) requirements are found with each style in the price list. Requirements are based on plain 54" material. Some COM fabrics are considered directional that may not be considered directional by the fabric supplier, due to the upholstery process used by Studio Q. Yardage requirements are greatly affected by not only size of repeats, but also by the print or pattern.

More fabric is required to match stripes, plaids, and repeats. Use the chart shown below as a guide and add to the plain yardage requirements in the price list. For combination upholstery and large quantities, we will calculate the yardage for you— contact customer service for assistance. To calculate COL sq. ft. requirements, multiply the COM yardage required times 17.

Though every effort has been made to estimate extra yardage required for stripes, matches, irregular patterns and patterns that need to be centered, Studio Q Furniture takes no responsibility where additional materials must be ordered.

To Be Used as a Guide Only

Repeat	1/4-5"	5.25-9"	9.25-13"	13.25-20"	20.25-27"	27.25-34"
Add	10%	15%	20%	25%	30%	35%

COM/COL orders are scheduled upon receipt of COM/COL.

Please carefully select COM/COL fabrics and leathers with good wear and soil resistant characteristics as well as the proper weight/flexibility for Studio Q seating applications. This is important because some fabrics and leathers cannot be properly tailored on seating requiring tight radius curves or special welt and seam treatments.

Ordering COM/COL

Please mark all COM/COL purchase orders with:

- Style Number
- Pattern Name
- Color Name/Number
- Source Sending COM/COL
- Application Instructions
- Indicate items ordered as COM/COL

Shipping COM/COL

Please tag all COM/COL fabrics/leathers with:

- Your Company Name
- Purchase Order Number
- Style Number
- Pattern Name
- Color Name/Number
- Application Instructions

Send COM/COL Prepaid to:

**Studio Q Furniture
3060 Main Avenue, S.E.
Hickory, North Carolina 28602**

Fabrics/Vinyls/Leathers

We select fabrics, vinyls and leathers for their quality as well as appearance. We cannot guarantee these with regard to wearability, color fastness, stretching or shrinkage beyond that which the manufacturer extends to us. In some instances exact pattern matching cannot be achieved. There may also be instances where additional seams may be required. This also applies to COM/COL.

FABRICS/LEATHERS

Fabric Puddling

The content and construction of certain upholstery fabrics can make them more prone to puddling and wrinkling. In addition, humidity and other weather factors can also affect the appearance of certain fabrics. Studio Q Furniture has no control over these occurrences and will not assume any responsibility.

Caring For Leather

Leather is the easiest to maintain and most durable of all upholstery materials. Each leather hide possesses distinctive, natural grain and markings. Its useful life exceeds that of fabrics by a factor of four to six; and leather actually improves with age, taking on a patina which reflects the lifestyle and sophistication of its owners.

Protected Leather

Dust frequently with a clean dry cloth. Occasionally wipe with a soft, lightly-moistened cloth or mild Ph neutral soap and water solution. Repeat with a clean damp cloth and dry with a clean cloth to restore the beautiful patina of the leather.

Blot spills immediately with a clean white cloth or sponge.

For persistent stains, dampen the cloth with distilled water and carefully clean the area. Avoid hard rubbing. Oily stains will often dissipate in a few days. Should they persist, or if other difficult stains occur, seek the services of a professional cleaner.

DO NOT use saddle soap, polish, wax or any cleaning agents other than a mild soap and water solution. The use of any cleaning substance other than a mild soap and water solution will negate any warranties from the leather tannery.

Unprotected Leather

This is a natural leather that cannot be cleaned because it does not have a protective coating. This leather will fade if exposed to direct sunlight. Leather Masters has products available that may help the performance of this leather. You may contact Leather Masters for assistance at (800) 825-6551.

Never subject fine leather upholstery to:

- Harsh solvents or soaps
- Abrasive or sharp objects
- Artificial heat sources such as hair dryers
- Prolonged direct sunlight
