JSI Casegoods pricing is divided into three Price List Volumes:

Volume 1 - Contemporary/Transitional
Volume 2 - Vision Series
Volume 3 - Traditional

Vision Casegoods - Volume 2

Vision Laminate
Vision Veneer

Traditional Casegoods - Volume 3

Brogan
Walden
Wellington

Environmental Mission

Our vision and goal is a sustaining supplier, manufacturer and customer for the long term protection and preservation of our environment for future generations.

MISSION

To achieve this vision, we are dedicated to ensuring the health and wellbeing of all of our partners, reducing negative impact on the environment, and maintaining price structure by increasing efficiencies and reducing consumption.

The Jasper Group family of brands, including JSI, is an international manufacturer that has been an environmentally conscious organization for more than 80 years.

We are proud to use wood as our primary sustainable material resource and all corporate policies and procedures support the efforts to "recover, recycle, reuse, repurpose, reduce, refuse, and re-engineer". In doing this, we are committed to the conservation of the environment and its natural resources as well as encouraging our suppliers and customers to do the same. A goal of a "Sustainable Partnership", supplier, manufacturer and customer, is essential for the long term protection preservation and sustainability of our environment for future generations.

LOCATION

Our manufacturing facilities are located in Southern Indiana. With our diverse product offering and manufacturing capabilities, we provide a single source for all of your project needs allowing you to conserve our fossil fuels and reduce greenhouse gases.

PACKAGING

We place emphasis on the minimal use of disposable packaging while still providing adequate protection to the finished product. Our corrugated packaging is recyclable, reusable, and up to 100% recycled content. We reuse or recycle more than 125 tons of corrugated material annually.

REGULATORY

All of our manufacturing facilities are in compliance with applicable OSHA regulations and meet or exceed all applicable DEM and EPA regulations for air emissions, storm water and hazardous waste disposal.

MANUFACTURING FACILITIES

Our manufacturing facilities are geared toward eco-efficiency and are encouraged to continually improve and conserve. Solid wood not used in the direct manufacturing process is recovered for the operation of our dry kilns, thus reducing greenhouse gases, the use of fossil fuels, and the burden of waste placed on landfills. Composite panels not used in the direct manufacturing process are ground and sold for use as animal bedding. In addition to other energy savings techniques, our manufacturing facilities use high efficient lighting, make use of power factor capacitors, and encourage all to conserve and reduce energy consumption and water usage. Condensation pumps are used to aid in water conservation as well as extending boiler life.

MANUFACTURING PROCESSES

Our finish processes utilize efficient spray guns and proper spray techniques to reduce wasted material. Excess finish material, solvents, and waste are recycled. Many of the assembly processes use water based glues that contain no hazardous ingredients.

TEXTILES

Many of our fabric options utilize up to 100% recycled content. Our leather alternative program includes selections that contain no toxic materials, plasticizers, heavy metals, or formaldehyde and have a 100% biodegradable back cloth. Some of the available panel fabric used, if discarded is a biological nutrient for the soil. Most of the components (foam, batting, and polycord) used in upholstered products are recyclable and contain various percentages of recycled content. Excess fabrics and leathers not utilized in the upholstery process go to recyclers and local charities for additional use.

WOOD

Wood is the most diverse, most process friendly, and most widely utilized natural resource in mankind's history. No other natural resource can match the environmental advantages of wood, including being renewable, recyclable, natural, carbon negative, and biodegradable. Utilizing the sun's energy, trees grow and remove carbon dioxide from the air while giving off oxygen to benefit the entire planet. Approximately 49% of wood's dry weight is carbon and harvesting mature trees in a sustainable forest, which has slowed in the absorption of carbon dioxide, allows the photosynthetic cycle to continue at full optimization and allow for the carbon to remain sequestered. We are proud to use wood as our primary "sustainable" renewable resource.

WOOD OPTIONS

Many environmentally friendly solid wood and engineered wood options are available for quote, including: Lyptus®, Plyboo®, reclaimed woods, agricultural and post-consumer waste fiber products, soy-based resin bio-composites, etc.

INDOOR AIR QUALITY

Our goal is to reduce the impact our products will have on the indoor air quality. We practice the latest technologies and utilize a third party to assure we meet this goal. GreenGuard, one of the leaders in IAQ certification, continues to certify our product offering, awarding us the UL2818 - GreenGuard Indoor Air Quality standard.

Warranty (Casegoods)
JSI warrants, to the original purchaser that each piece of furniture will be free from defects in workmanship, given normal use for a period of fifteen (15) years of single shift service. Drawer suspensions carry a life time warranty. Fabric manufacturer's warranty will apply. Electrical items not manufactured by JSI are covered for a period of one (1) year. JSI will, at its option, repair or replace any defective merchandise with the terms of this warranty.

JSI makes no expressed or implied warranties to any product and, in particular, makes no warranty of merchantability of fitness for any particular purpose.

This warranty does not cover:

+ Natural variations in color, texture of wood, and covering materials over which JSI has no control.
+ Damage created by bottom loading file drawers. File drawers are manufactured for hanging folders only.
+ Normal wear, color fastness, shrinkage, wrinkling, stretching of leather, and textiles.
+ Damage caused by transportation or installation companies.
+ Damage created by any accident, user modification, misuse of product, or neglect of product care.
+ Damage resulting from extreme climate conditions.

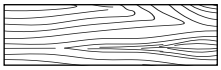
Unique Characteristic of Natural Woods and Veneers
JSI uses high quality wood and veneer harvested from sustainably managed forests. Every tree has unique and defining characteristics, like fingerprints. These characteristics can be defined by differences in color, grain configuration, and textures. These characteristics will be more noticeable if the product has a clear or lighter finish.

Maple and Cherry species have a higher degree of uneven distribution of grain, small color streaks, and pin knots.

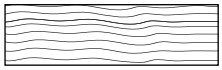
At JSI, we take care of selecting woods and veneers that are used in our products. With this in mind, we hope you appreciate the beauty of each tree's fingerprints. Products will not be replaced due to these natural characteristics.

Veneers can be sliced in a variety of ways to create unique patterns. JSI uses several different patterns, as shown below.

Flat (Plain) Cut as shown in diagram



Quarter Sliced as shown in diagram



Double Cut as shown in diagram

Double Cut
The Double Cut veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

JSI uses select beech, cherry, maple, oak and walnut cut wood products to produce the desired look of our furniture products.

Please reference the featured highlights of each product line to identify the species and grain patterns available for that product.

Laminates (Veneer Series)
HPL (Higher Pressure Laminate) laminates can be specified on most of our work surface tops in most of our product lines. Refer to the specification pages for each series. The specification pages will also list the available coordinating finishes. HPL is .050 thick for maximum durability.

Laminate Series
JSI laminate series offer a full laminated product with imprinted grain to hide finger prints and provide durability. The worksurface tops can be specified in either a matching HPL or TFL (Thermal Fused Laminate). TFL is used on the product's chassis. Please reference the featured highlights of each product for additional details.

Finish - Top Coat
To reduce hazardous formaldehyde emissions, we use our proprietary specially designed top coat, DuraTex™. It significantly reduces hazardous formaldehyde emissions and helps improve indoor air quality.

Finish - Color/Stains
A wide range of stains are available to bring out the beautiful characteristics of each wood species. We coordinate finish color between our veneer stains and solid lumber stains; however, not all may be a perfect match. The stains are continually reviewed for accuracy of color, as well as a constant monitoring of the latest color trends in the furniture market.

Finish - Matching
Due to the natural characteristics of wood, environmental effects, and material upgrades, JSI cannot guarantee exact finish matches on existing furniture previously ordered.

If an exact match is required to accompany existing furniture, it must be specified at the time of order placement, so specific internal procedures can be followed to ensure a proper and acceptable finish match. We reserve the right to change our finish formula at any time to improve safety, quality, and appearance. Unless a finish match for existing furniture is requested at the time of ordering, we accept no liability for finish that may not match the existing furniture from prior orders.

Solid lumber may inherently have mineral streaks, pits, and various other natural occurrences. Care is taken in selecting the solid lumber to coordinate with the requested finish on our veneer products. This internal selection process is subject to availability of solid lumber parts.

Custom/Special Finishes
JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of **$275 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Samples
Samples of standard wood finishes, paints colors, metal colors, and standard laminate are available upon request. The fastest way for requests to be filled is by using our website. See below for options to request samples.

Pricing
Prices found in this document or on our website are list prices in U.S. dollars for standard product delivery to one destination. Prices do not include storage, installation, or taxes. Possession of this price list does not constitute an offer to sell. Orders can only be received from approved authorized JSI dealers.

Prices and product information in this document, as well as our website, are subject to change without notice. Reference website for most up to date product offering and pricing.

Orders
Detailed specification pages are available in the price list at the beginning of each series.

Additional information may be obtained by consulting the Customer Service Department or our website.

Indicate shipping address if different from billing address.

Send Orders To:

US Mail – JSI
225 Clay Street
Jasper, IN 47546
Fax – 812-482-1548
Email – orders@jaspergroup.us.com

JSI reserves the right to make changes in dimensions, styles, or specifications if we believe these changes will improve the safety, quality, or appearance of the product.

Acceptance of orders will be subject to credit approval, barring any acts of governments, or any other causes beyond our control (e.g. strikes, fire, embargo of materials, etc).

Product Modifications
While we offer a wide range of products to accommodate many possible solutions, we also recognize the needs for our products to be modified from our standard offering.

In the series introduction section of each product, we address modification options for that series.

To see if the desired modification is possible, please contact our Customer Service Department for a quote. Note that order quantities and material availability can affect the quote. Additional information may be requested to fully quote modifications.

Order Acknowledgments
All orders will be acknowledged promptly, showing how the order was entered, shipping time, and other information pertinent to the order. It is the purchaser's responsibility to verify all the information on the acknowledgment carefully and notify us immediately, in writing, of any discrepancies.

Published ship dates are contingent upon adverse conditions; however, every effort is made to ship as acknowledged.

Order Cancellations
All cancellations must be made in writing. Administration and/or labor charges may be incurred by the purchaser depending upon the stage of the order. Orders cannot be canceled after the finish process has begun without incurring substantial re-stocking charges.

Once production has begun on product modifications or special finishes the orders cannot be canceled. Items purchased specifically from our vendors for the order, such as textiles or laminates, are subject to our vendor's cancellation terms and re-stocking fees.

Order Changes
All changes to an order must be in writing and dated. Order changes are subject to our ability to conform. Administration and/or labor charges may be incurred by dealer depending upon the stage of the order. No change can occur once production is started.

Quickship
Items indicated with a Quickship symbol NOW! ship within 10 business days of receipt of a clean, credit approved purchase order. Product for up to 10 offices or 10 tables can be selected from the Brogan, Finale or Vision series. See individual product pages for those models available on quickship. Available capacity is filled by orders as they are received. If normal 10 day Quickship is not available because capacity has been filled, you will be immediately notified. Changes and cancellations to Quickship orders are not allowed under any circumstances.

Delivery
Our freight policy consists of prepaid freight to the 48 contiguous states; all other shipments prepaid to port of exit ONLY. JSI reserves the right to select the appropriate carrier and shipment routes. Standard deliveries require docks that can accommodate 75 foot trucks. Pricing in this book is for standard delivery. Standard delivery does not include non-dock delivery, inside delivery, residential delivery, or installation of product. Special requests for delivery should be done at the time of ordering. See below for charges for special delivery.

Orders of less than $1,000 net will be accessed a handling charge of $75 net per order.

Charges for special delivery request (net pricing):
+ Lift Gate/Non-Dock Delivery – $75 per occurrence
+ Inside Delivery – 5% of order total with a minimum of $50
+ Residential Delivery - $75 per occurrence

Any charges arising from failure to meet shipment, re-routing while in transit, or carrier storage charges are the responsibility of the customer.

Contact Customer Service to inquire about skidding of products, special crating of products, blanket wrap services, and product installation. These requests must be made at the time of order.

Freight Damage
JSI products are packed in cartons and meet or exceed existing codes for furniture and seating products. All shipments are delivered to the carrier in good condition and our liability ceases thereafter. If delivery arrives short or damaged, contact the carrier immediately to file a claim. In the event of concealed damage, notify the carrier and request immediate inspection. Failure to file a claim within 15 days after receipt of merchandise constitutes acceptance and a waiver of any such claims. Please inspect merchandise immediately upon receipt, otherwise there is no recourse. Keep all cartons and packing material, discarding these materials may negate your claim.

Storage of product in areas of uncontrolled humidity and temperature may cause damage to the product and void the JSI warranty.

Repairs
JSI will not issue credit allowance for any type of repairs without prior written consent.

Sales order, product model numbers, and reason for repair will be expected in order to process the repair request. A digital photo will help to expedite the request. JSI reserves the right to recommend solutions for repair.

Returns
No merchandise may be returned to JSI without a signed Return Good Authorization (RGA) form issued by our Customer Service Department. Any authorized return not due to damage or defect will be accessed a restocking fee and all return freight charges must be prepaid. Additional restocking fees may apply for any modification, special or custom built product.

Liability for defective merchandise shall be limited to replacement or repair.

Under no circumstance can we accept COD (Cash On Delivery) returns. Any such shipment will be refused.

Replacement Parts
Obtain information and pricing on replacement parts by contacting Customer Service. Please have the model number available when requesting replacement parts. Additional information may be required to ensure proper replacement parts.

Care and Maintenance
Care of Upholstery Surfaces
Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and then wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Maintenance of Mechanical Parts
Clean any lint or debris from the moving parts of the base mechanisms. Mechanisms have been designed and tested to not require lubrication under normal conditions; however, lubricant can be used if needed.

Care of Wood Edges and Veneer Surfaces
Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. For an additional safeguard, use a protective surface pad. This will ensure a lasting finish by protecting your furniture from possible damage caused by pens, cups and sharp objects. Avoid exposure of furniture to extremes of heat and cold, or to wide humidity variances. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration. If using a protective glass top, place spacer pads under the glass top to allow the wood to breath.

Care of Metal Finishes
Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textiles metals with a soft, dry brush to remove dirt.

Fire Retardancy
At a minimum standard, all JSI upholstered products are manufactured to comply with Bureau of Electronics, Appliance Repair, Home Furnishings and Thermal Insulation-Technical Bulletin 117-2013 issued by State of California Department of Consumer Affairs. With a January 1, 2015 effective date, this standard was passed and requires upholstered furniture to be safer from the hazards associated with smolder ignition in all four (4) categories of materials, as applicable.

Compliance with more stringent codes may require special manufacturing considerations and upcharges.

California Technical Bulletin 133 (CAL 133)
JSI uses a barrier material between the foam cushioning and the upholstery cover in order to comply with CAL 133. The standard upcharge on products specified to comply with CAL 133 is $55 list per yard of textile.

JSI has performed a series of full scale fire tests on samples - representing a variety of product styles and worst case scenarios of upholstery covers - to comply with the requirements of the state of California Technical Bulletin 133 (CAL 133). Products in compliance will be labeled that they have been manufactured to meet the CAL 133 standard. Only products with internal test data can be labeled.

Some product designs and fabric cannot be combined to comply with CAL 133. Because of this, we reserve the right to reject any request for an upholstery cover, including COM, or product style that we feel may compromise the integrity or safety of a product specified to comply with CAL 133.

Contact Customer Service for a quote if you require laboratory certification that a specific product and upholstery combination WILL PASS CAL 133. The quotation will include testing, video, and transportation charges plus the list cost of the sample.

Our standard lead time will apply to products that do not require certification. Allow an additional six weeks over the standard lead time for products that need actual laboratory certification.

The end user, specifier and/or dealer have the responsibility to make sure all products specified will meet the flammability and safety codes of the jurisdiction where the products will be located and used.

Textile Carded Programs
JSI is proud to partner with Maharam, Momentum, Ultrafabrics and Wollsdorf Leather. Please refer to the respective pages in this pricer for each of these partners. Scan the QR codes on the back of the swatch card for latest grades and other information.

Textile Grade-In Programs
For the convenience of our specifiers, we have graded in the following suppliers:

Arc Com	Pallas Textiles
Designtex	Stinson
Maharam	Ultrafabrics
Mayer	Wollsdorf Leather
Momentum	

Please contact Customer Service for pricing grades on textiles and leathers not listed.

Indicate on purchase order if JSI is to order the fabric.

Grades and availability of fabric are subject to change without notice. Changes could include but are not limited to price increase, discontinued patterns, discontinued colors, etc. See jsifurniture.com for up to date information.

Many textiles have repeats and the additional yardage required has been factored in for textiles ordered through the JSI Carded and Grade-In Programs. We reserve the right not to match textiles with a horizontal or vertical repeat greater than 17". Additional charges may apply for textile being applied with special instructions.

Some fabric thickness may cause issue with proper upholstering of tackable wall panels or upholstery privacy screens. Please contact Customer Service, with concerns on the fabric thickness for these items.

COM Policy
Refer to the COM price column for list prices.

All yardage requirements listed in the price list, are based upon 54" plain non-directional material. The textile on most products is cut "up the roll"; refer to the check list pages for each individual series for further information.

Additional yardage may be required. Contact Customer Service for any of the following conditions to assure proper yardage:

+ horizontal repeats or vertical repeats greater than 3"
+ textile less than 54" wide off the roll
+ patterned textile to be applied a special way

To assure quick turn around and accurate calculation of yardage, please supply the following information:

+ supplier's name
+ pattern name and color name
+ the JSI model numbers and the order quantity
+ any special direction and/or special instructions

We cannot assume responsibility for defective COM delivery to us or for the tailoring quality issues some textiles may create. Bulky textiles, thin weight textiles or fiber content may not tailor well on some models.

COL Policy
Refer to the COL price column for list prices.

Customer's own leather requirements are based on an average hide of 50 square feet.

Contact Customer Service for requirements on any other sizes.

All square footage requirements are based upon usable footage. The shape of the hide and the usable footage may make it necessary for us to request additional leather.

Placing Orders with COM or COL
COM & COL orders must include the following:

+ model number where the COM or COL will be applied
+ textile/leather supplier's name
+ sample of the textile/leather attached to order
+ special application instructions

Ship COM/COL prepaid to the following:

JSI
Attn: COM Dept
12th & Vine Street
Jasper, IN 47546

Make sure the supplier tags the shipment with the customer purchase order number and sales order numbers if available.

All COM/COL orders will ship at standard lead time from the delivery of the COM/COL, except for orders requiring special custom matched finishes or special application of the COM/COL.

Specification Tools

JSI products are manufactured to order and provide a multitude of options to address your individual customer needs. As you process your order do not forget to include all the necessary information to allow the order entry process to be completed. Please see the order checklist at the beginning of every series.

JSI Customer Service edits every order for complete information. If details are not included with the purchase order, Customer Service will contact you to answer these questions. If information is not completed in a timely manner it will delay the entry process and could effect your product delivery date. To avoid delay in order entry and potential delay in delivery of your order, please double check the line items to ensure all selections have been completed.

To ensure completion of details on your purchase order, electronic catalogs and specification tools have been developed to aid in the process. These electronic tools include:

20-20 GIZA Studio and 20-20 CAP Studio software offers state-of-the-art design, specification, photo-realistic rendering and three-dimensional visualization capabilities for configurable products in the commercial interior design markets. 20-20 GIZA Studio and 20-20 CAP Studio are available for all JSI Casegood and Seating products, in 2D and 3D graphics and the Specifier Catalog.

ProjectMatrix, Inc. offers a full software solution for the contract furniture industry.
Their software can help you create space plans to specifications for ease of specifying our JSI Casegood and Seating product lines.

GSAdvantage is a Federal Government electronic catalog site offered to assist GSA customers in specifying and pricing JSI product. Listed at this site are all contract items and prices under GSA Contract # GS-28F-0030U.

Our JSI website **jsifurniture.com** provides many tools to assist in the design and order selection. Included in the site are downloadable images, typicals, product symbols, brochures, contact information, price lists, sales representative locations, warranty and environmental information.

GSA Terms and Conditions

GSA Contract Holder
Contract # GS-28F-0030U

In addition to the standard terms and conditions, the following terms and conditions apply to GSA contract.

Contract Number
GS-28F-0030U

Contract Period
September 23, 1999 - June 24, 2018

Statement of Intended Use
The furniture covered by special item numbers 711-8, 711-9, 711-11, 711-16, 711-17, 711-18, 711-19, and 711-95 is intended for use by Government executives (or equivalent military rank) in the executive, judicial, and legislative branches or armed forces of the federal government. To help customers make a good purchasing decision based on their needs and budget, GSA has established four grades of furniture: Grade (1) includes furniture that tends to be the most expensive on this schedule, Grade (2) furniture tends to be more moderately priced and Grades (3) and (4) furniture tend to be affordable pricing when compared to grades (1) and (2). The ordering agency or service is responsible for determining furniture appropriate for use in its offices which will fit within budget and comply with applicable federal or internal agency procurement regulations.

Description of Special Item Numbers SIN#

711-8	Executive office furniture
711-9	Executive conference room furniture
711-11	Tables, occasional and conference
711-16	Upholstered seating
711-17	Multiple seating
711-18	Multi purpose seating
711-19	Stacking chairs and dollies
711-95	Installation services (not to exceed 12% of net prices for projects where installation costs are $500 or less.) Installation costs over $500 are negotiated on a case by case basis.

Maximum Order

711-8	$500,000 *(five hundred thousand dollars)* net
711-9	$500,000 *(five hundred thousand dollars)* net
711-11	$500,000 *(five hundred thousand dollars)* net
711-16	$300,000 *(three hundred thousand dollars)* net
711-17	$200,000 *(two hundred thousand dollars)* net
711-18	$200,000 *(two hundred thousand dollars)* net
711-19	$200,000 *(two hundred thousand dollars)* net
711-95	$150,000 *(one hundred fifty thousand dollars)* net

Minimum Order
$100 (One hundred dollars) net

Duns #
00-636-7767

Notification Regarding Registration in SAMS Database
Name: Jasper Seating Company, Inc.
Cage code: 31881

Acceptance, Modification, Assignment
By placing this order for furniture, material or other products (sometimes collectively referred to as "goods"), customer agrees to these terms and conditions which shall prevail over inconsistent provisions in any other form or document of customer. No change or modification shall be applicable unless set forth in writing and signed by company. Neither this order nor any interest therein shall be assigned by customer except with the prior written consent of company.

Payment
Customer agrees to pay to company the amount indicated on the invoice, 1% 15 days, net 30 days from date of invoice (U.S.funds only), for goods ordered. Interest will be charged after 30 days from the date of invoice at the rate of one and a half percent (1.5%) per month. International sales will require additional payment arrangements. No goods shall be sold on consignment or conditional sales basis. Payment for the goods delivered hereunder shall constitute acceptance thereof.

Attorneys' Fees
Customer shall be responsible for all expenses and cost in connection with the enforcement by company of these terms and conditions and the cost of collection (including the fees of any collection agencies to whom the customer's account may be referred), plus reasonable attorneys' fees (which attorneys' fees shall not be less that 25% of the amount due, unless a lower amount is specified by applicable law).

Remedies
The remedies herein reserved shall be cumulative, and additional to any other or further remedies provided in law or equity. No waiver of a breach of any provision of these terms and conditions shall constitute waiver of any other breach or of such provision.

Insolvency
Company may forthwith cancel this order in the event of the happening of any of the following or any other comparable event: insolvency of the customer, the filing of a voluntary petition in bankruptcy, the filing of any involuntary petition to have customer declared bankrupt provided it is not vacated within thirty (30) days from the date of filing, the appointment of a receiver or trustee for customer provided such appointment is not vacated within thirty (30) days from the date of such appointment, or the execution by customer of an assignment for the benefit of creditors.

Limitation of Liability
The Company shall not under any circumstances be liable to the customer, owner of the goods or any third party for special, indirect, incidental, or consequential damages, including, without limitation, loss of profits or revenues, loss or damage to other property or equipment, cost of capital or of purchased or replacement goods, or expense, delay, or inconvenience cause by or arising from the purchase, sale, use, repair or inability to use the goods or by any performance or non-performance under, or breach of, these terms and conditions. The Company's sole liability for any defective goods shall be its repair or its replacement pursuant to the express warranties set forth above, or if amended, as applicable at the time of manufacture or repair of the goods. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to all customers. Any action resulting from any breach on the part of company as to the goods or services delivered here under must be commenced within one year after the cause of action has occurred.

Returns and Allowances
Reasonable touch-up and deluxing is the dealer's responsibility. The Company will not make allowances for trip or delivery charges, but will only make allowance for actual work performed to correct manufacturing defects. Allowances maybe authorized only by a company officer. It is the responsibility of the field sales representative to inspect any defective merchandise and make suggestions and recommendations as to the proper disposition. Field personnel cannot obligate or bind the company by definite agreement, without final authorization by a company officer. Company will not accept automatic charge backs which do not have prior authorization. All defects must be called to the company's attention upon arrival at the customer's "ship to" destination. To initiate any type of claim or request for parts, it is imperative to have the model number or fabric number, which may be located on the tag attached to the frame of the unit. Authorization for return to the company via a return goods authorization. Company will not issue credit allowances for any repairs without company's prior consent. Under no circumstances shall the company accept COD (cash on delivery) returns, and any such shipment will be refused.

GSA Terms and Conditions

Security Agreement
The Company may require and customer shall grant a security interest in goods sold pursuant to any credit the company may extend to the customer.

Governing Law
All disputes between the parties, whether or not arising out of these terms and conditions, will be governed by the laws of the state of Indiana. Customer agrees to submit to the jurisdiction of and agrees all lawsuits relating to any disputes between the customer and the company will be brought only in a state court located in Dubois County, Indiana or the United States District Court for the Southern District of Indiana. The customer hereby waives the right to a trial by jury in any action, proceeding, claim, or counterclaim whether in contract or tort, at law or in equity, arising out of or relating in any way to these terms and conditions and all other disputes between the parties.

Mitigation
If the company repossesses the goods prior to payment by the customer of all amounts due hereunder, the company may sell the goods, as is, where is, free and clear of all rights of the customer at either public or private sales, and apply the net proceeds (after deducting expenses of repossession and sale) to the obligation of customer hereunder. The customer may dispose of the goods in any commercially reasonable place and manner and the customer waives any notice of time, place and manner of sale.

Integration
This order for goods, including these terms and conditions, along with any credit application, invoice, statement, dealer contract, acknowledgment, bill of lading (and any exhibits, addenda or amendments thereto) of which this order may be a part, constitutes the sole and complete agreement between the company and the customer with respect to the purchase of the goods.

Dimensions/Specifications/Finishes
All dimensions are approximate and may vary due to the upholstery technique of each craftsman. If exact dimensions are required, it is necessary for the customer to state such specifications with the order. Detailed specifications sheets are available for each series of goods, and customer should consult the company's customer service department for these specification sheets. Company reserves the right to make changes in dimensions, style, or specifications if company believes these changes will improve the goods' quality or appearance. Company reserves the right to substitute hardwoods due to availability at production. Due to the natural characteristics of wood, environmental effects, and material upgrades, the company cannot guarantee exact finish matches on existing goods previously ordered from company. If an exact march to customer's existing goods is required, it must be specified so that the proper procedures can be followed to ensure an acceptable finish. Company will accept no liability for the finish if this procedure isn't followed. Company reserves the right to make changes in a finish formula if company believes the change will improve the quality or appearance of company's goods.

Company's Performance of Its Obligation
The production and delivery of the goods to the extent delayed or hindered or prevented from the performance by reason of natural disasters, acts of god, strikes, lockouts, labor troubles, inability to procure materials, casualties, failure of power, restrictive governmental laws or regulations, riots, insurrections, acts of terrorism, war or other reason of a like nature not the fault of the company shall excuse for the period of the delay the company's performance and the period for the performance shall be extended for a period equivalent to the period of such delay.

Apogee™ Product Information

Wood Materials
Exterior surfaces are made from the finest selected veneers. Matching solid lumber wood species are used to coordinate with the veneer. High quality MDF is used on the painted surfaces.

Apogee™ is available in quarter cut Walnut, quarter cut Maple, quarter cut Makore or Double Cut veneer.

Exterior Metal Materials
A custom shaped extruded anodized aluminum pull is used on the drawers and doors. The thin profile glass door frame is also anodized aluminum, along with the valance rail used with task lights on overheads.

Leg and Post frames are fabricated steel tubing finished with a Bright White or Arctic Silver powder coat. Shelf dividers, wire dividers, and other metal trims are fabricated and finished in a matching Silver powder coat.

Metal Finishes

ASL	Arctic Silver	BWH	Bright White

Worksurface Construction
All tops are 1 3⁄16″ thick with 3-ply construction and trimmed off with matching 1.5mm rims. Worksurface tops are only available in the Apogee™ veneer options. Requests for laminated tops will need to be reviewed for approval, contact Customer Service.

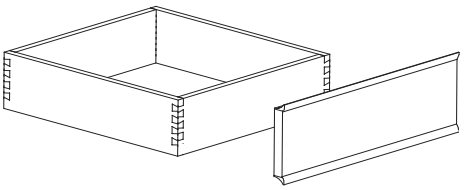
Case Construction
All cases are constructed with mortise, tenon, and dowels. Interior cases are reinforced with glued cleats and screws. Panels for cases are normally ¾″ thick with 3-ply construction. All pedestals have enclosed bottoms.

Plinth style bases are attached directly to the bottom of the cases. The metal glide housing inside the base provides for accurate leveling. Front and back glides in drawer pedestals can be adjusted up and down by removing the lower drawer and using the glide access hole located in the bottom of the case.

Cabinet doors have 110° swing hinges to allow adequate access into cabinets. Hinges are fitted with a soft close device, requiring only a soft push to close the door. Units taller than 18″ are fitted with an adjustable shelf.

Drawer Construction
Drawers are assembled using a four corner dovetail box and ¾″ thick drawer bottom panel construction. The exterior front is attached separately. Sides and backs are approximately ½″ thick solid hardwood. Drawer components have a UV finish to protect against shrinking, swelling, or warping and to provide a clean smooth feel and appearance. Lateral files have reinforced bottoms.

The exterior front panel is 3-ply and ¾″ thick. The front is attached to the assembled drawer box. The anodized aluminum pull runs along the top or bottom edge of the drawer front.



box drawer and front with pulls (middle drawer)
wood drawer box - DRW

Drawer Suspensions
Suspensions are black and carry a lifetime warranty. File and Box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear. Suspensions on utility, box and file drawers have a soft close device, allowing for an effortless closing of the drawer.

Filing Systems
All drawers intended for filing come with clips and metal stretchers to accommodate hanging folders.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Apogee™. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. Durabilty - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Apogee™ Product Information

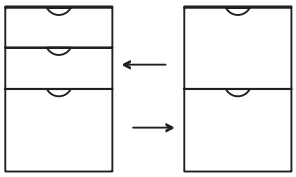
Product Modification

Special Finishes
Special finishes can be requested by following the instructions in the general introduction section, page 3. There is a one time charge of $275 list per order.

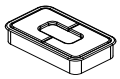
Premium Veneer
Upon request standard veneer can be changed to a special veneer contact Customer Service for availability and pricing.

Pedestal Configuration Change
Utility/Box/File configuration is standard on all desks and File/File configuration is standard on all return units.

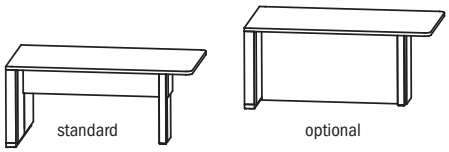
Apogee drawer configuration on pedestals 29½" high can be reconfigured to a Utility/Box/File or File/File configuration, but must be specified at the time of order with an additional 5% cost to the list price.



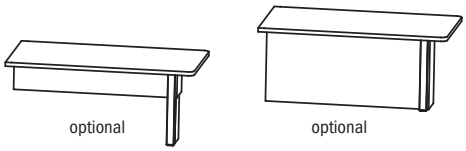
Grommets
Please see page 44 for location and placement availability. Add $75 list for each grommet.



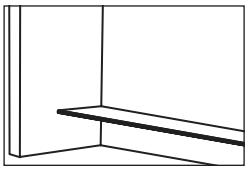
Modesty Panel
End Panel Desks are standard with a partial modesty. A full modesty is available as an option and should be ordered with the desk. See price list pages for availability and pricing.



Run-Off Desks are standard without a modesty. Optional partial or full modesty may be specified on the desk. See price list pages for availability and pricing.

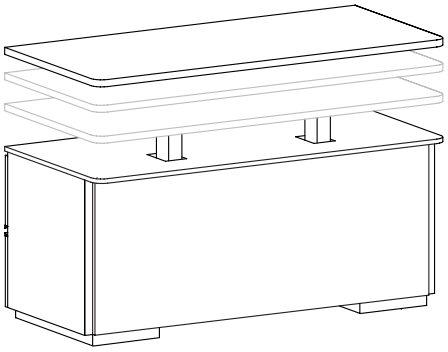


Mini Shelf
Aluminum mini shelf is optional on the insert panel overhead cabinets. This option needs to be specified with the overhead cabinet.



Special Sizes and Construction
Apogee has various modular units to create many popular applications. Please contact Customer Service if you need help in creating a particular layout.

Apogee™ Product Information



This mechanism requires a signed Liability Wavier prior to time of order specification.

Contact Customer Service or visit our Website at jsifurniture.com

Ergo Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Apogee.

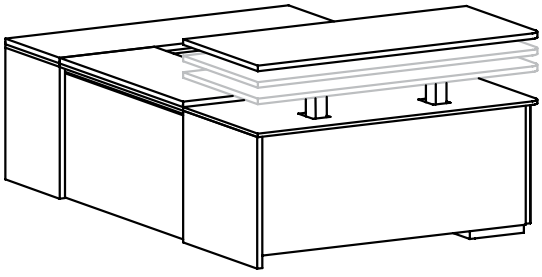
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button control activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that Ergo adds ¾" to the standard height of the desk and the installation will decrease kneespace depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When Ergo is added to a worksurface in an "L" or "U" group, all units in the configuration need to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the Ergo mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the Ergo mechanism.

Height adjustment starts at 30¼", to a standing height of 49¾", a range of 19½".

To specify the unit that has the mechanism add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add **ERGO ADJACENT** to the end of the model number.



Example

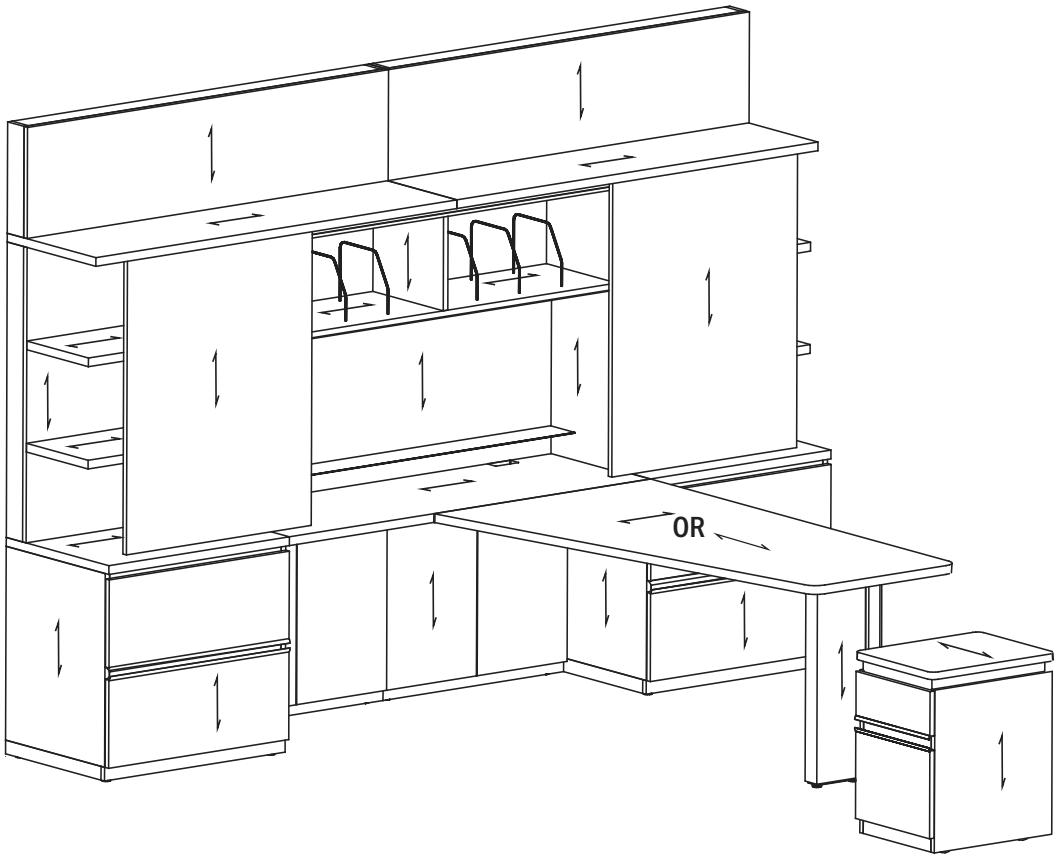
Connecting or Adjacent Units to Match Starting Height

All the units listed above can be specified as connecting or adjacent units. Other Apogee units could also be used as connecting units, please contact Customer Service for additional items and pricing. When specifying please add "**ERGO ADJACENT**" to the end of the model number.

Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $500 to the list price.
Tops 24" x 48" or smaller add $425 to the list price.

Apogee™ Product Information

Quarter Cut Veneer Grain Direction

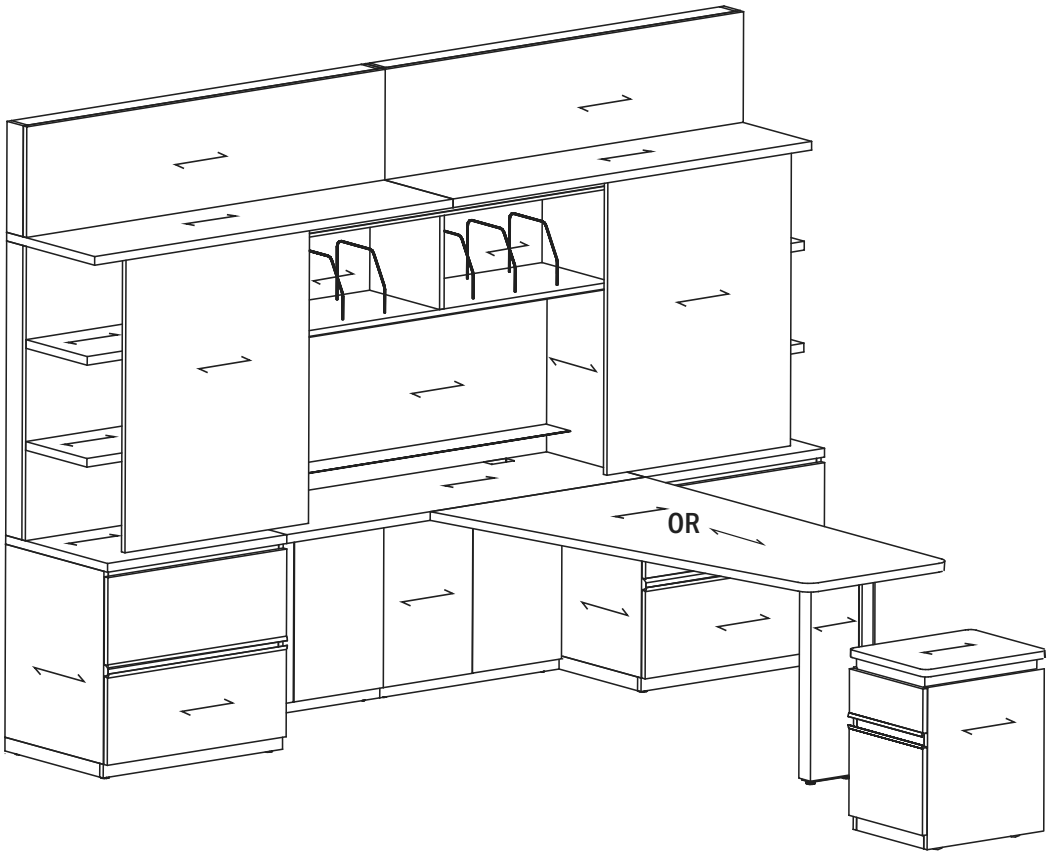


Quarter Cut Veneer
Standard direction for quarter cut veneer on Apogee™ is vertical.

The log is cut into quarters prior to slicing. This method bisects annual growth rings and results in a straight grain or ribbon-striped appearance.

Apogee™ Product Information

Double Cut Veneer Grain Direction



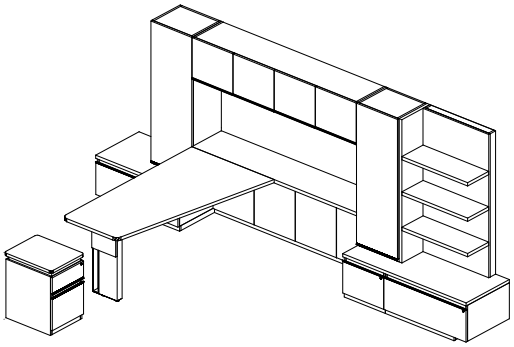
Double Cut Veneer
Standard direction for double cut veneer on Apogee™ is horizontal.

This veneer uses multiple layers of thin wood which is re-assembled, then re-cut in a factory, under controlled specifications. The veneer used in our program is a uniform straight grain pattern and is pre-stained for color consistency.

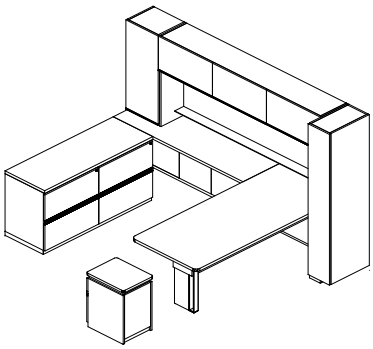
Apogee™ Product Information

Layouts

Two typical casegood layouts that can easily be created with Apogee™



Casegood layout made up of modular components, Trapezoid Run-Off Desk, One-High Lateral with Full Height Wall Access, Towers, Wall Mount Overhead, and Asymmetric Shelf



U-Group layout made up of built up, free standing casegood components, End Panel Desk, Full Height Access, Panel-Support Overhead, Tower, Wardrobe and Two-High Lateral

Casegoods feature modular wall components including: storage overhead cabinets, asymmetric shelves and back panels

Two heights & two depths of wall components
Wall-mount or Panel-supported Overheads
Casegood worksurface tops specified separately

1 **Overhead, Wall Mount**

2 **Wall Panel**
Available in veneer, magnetic glass marker board, paint or tackable fabric. Thin profile anodized aluminum frame is featured on the panels with the glass option.

3 **Wall Panel with Mini Shelf**
Available in veneer, magnetic glass marker board, paint or tackable fabric. Thin profile anodized aluminum frame is featured on the panels with the glass option. 5" Mini shelf is finished in anodized aluminum.

4 **Run-Off Desk**
Has an option for partial or full modesty panels in veneer or paint.

5 **Tops**
Modular items can be attached together with common worksurface tops. Refer to the items, some tops may be included.

6 **Low Storage: Two-High Lateral File**

7 **Low Storage: One-High Lateral File**

8 **Low Storage: Wall Access Panel (partial height)**
Allow for wiring to pass through to building wall.

9 **Storage Tower**

10 **Asymmetric Shelf**

11 **Accessories: Piling Shuttle (tops with shuttle tracks)**
Shuttle slides back and forth on the track.

Apogee™ Product Information

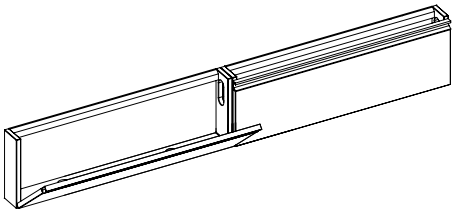
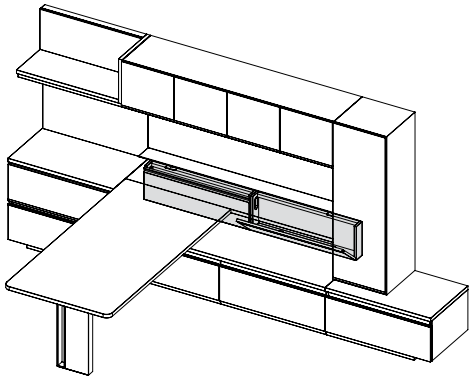
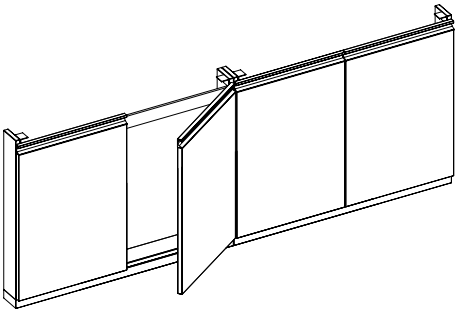
Access to Wall & Wire Management

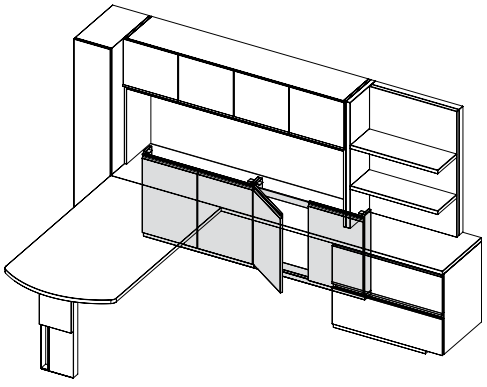
kneespace access panel, partial height
Doors flip down for access to building power and data outlets, use above one-high lateral.



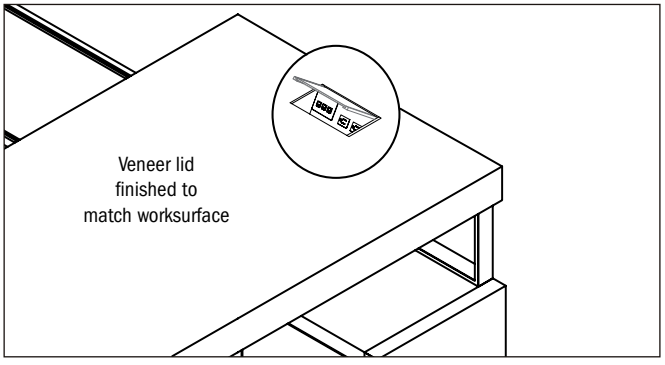


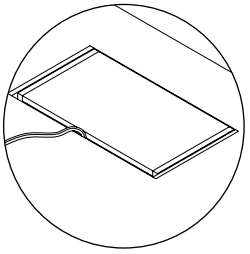
kneespace access panel, full height
Doors swing open for access to building power and data outlets

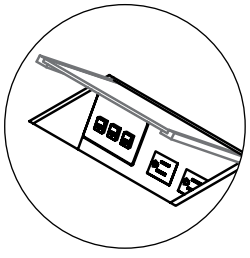




Power Unit



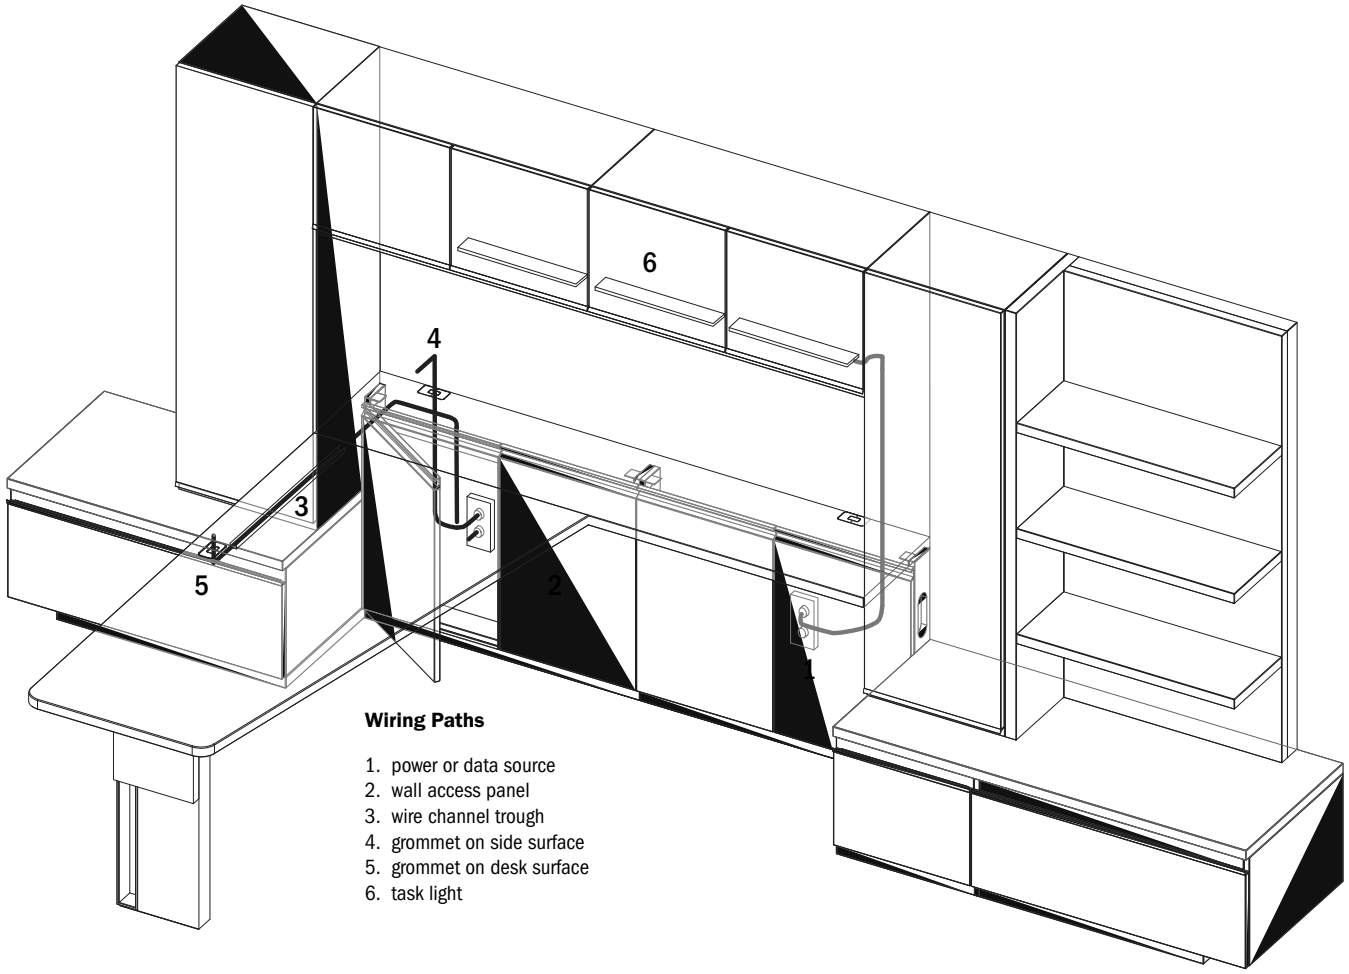




PU01 - power and data surface access
This accessory features two 110 device, one RJ12 jack and two CAT 6 jacks. This unit eliminates the need for a grommet, wires can easily pass thru to the underside of the top.

Apogee™ Product Information

Access to Wall & Wire Management

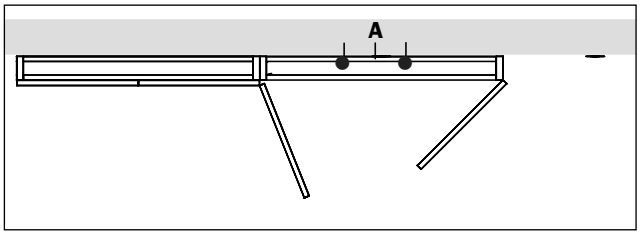


Wiring Paths

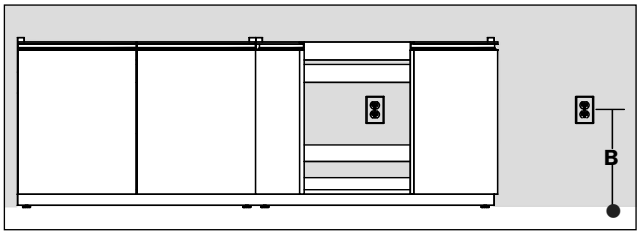
1. power or data source
2. wall access panel
3. wire channel trough
4. grommet on side surface
5. grommet on desk surface
6. task light

Power or Data Source - Recommended Location

AM7-PAP-1-0472

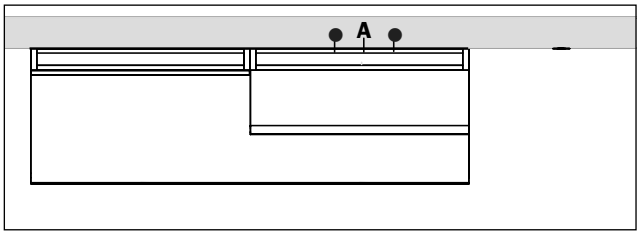


A - horizontal location + or - 5″ from door center

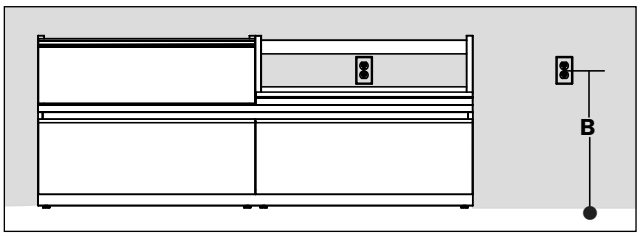


B - vertical location 15″ to 24″ AFF (above finish floor)

AM7-PAS-1-0472



A - horizontal location + or - 5″ from door center



B - vertical location **REQUIRED** to be 24″ AFF (above finish floor)

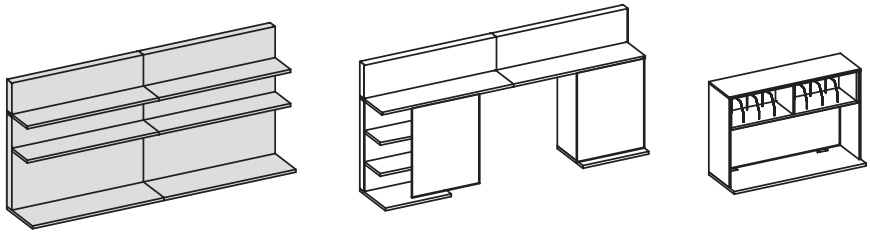
		lateral without top and wall access panel	28½″
overall*	86″		86″

** overall height is rounded up, consideration for leveling tolerance is included.*

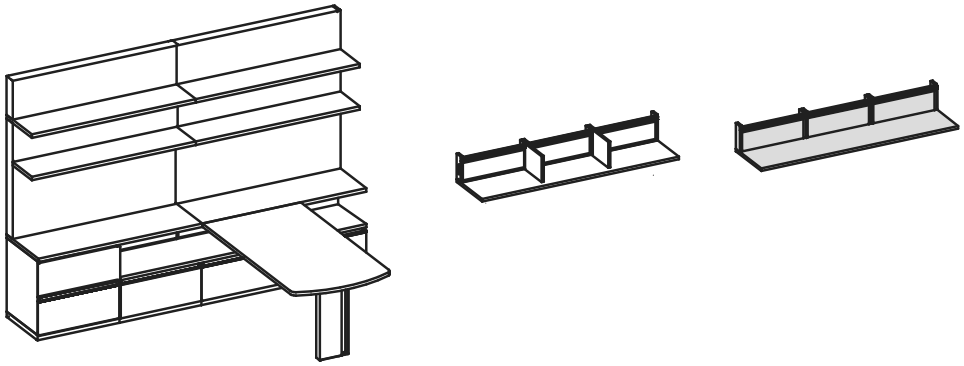
Apogee™ Product Information

- **1** Select an overall layout style (primary runoff, U grouping or freestanding table desk). Consider the overall width, Workwalls are available in 144″ or 120″ widths. Then determine the method of support for secondary workwall top, see page 53.

- **2** Choose the workwall, either full open shelves or units with an open center section and doors. When choosing the units with doors you must also select a workcenter, this is required and is specified as a separate model.

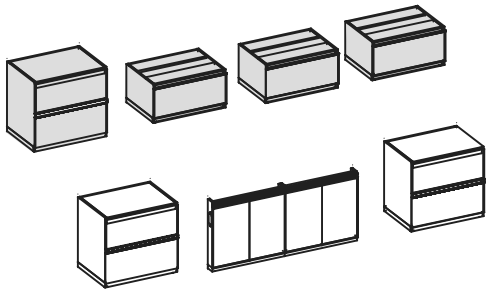


- **3** If using one-high storage/lateral, select the correct kneespace access unit. If side units such as wardrobe cabinets flank the workwall use the unit without the built in support extensions.

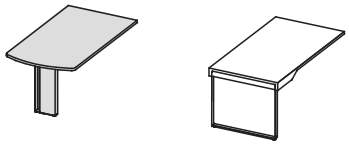


Note: These units are only needed when NOT using a workwall and without adjacent storage support

- **4** Choose the lower units to complete the workwall.



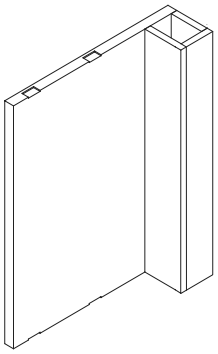
- **5** Choose run-off desk to finish the layout.

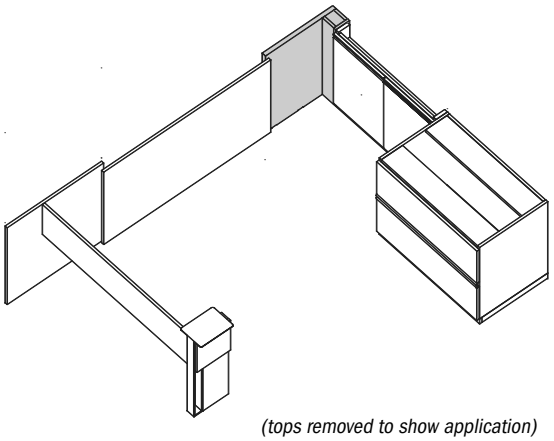


Apogee™ Product Information

End Panel Transition to Access Panel

End panel transition supports and creates a transition when using a standard end panel desk and bridge; turning the corner to a kneespace access panel. (This item can be flipped for left or right).

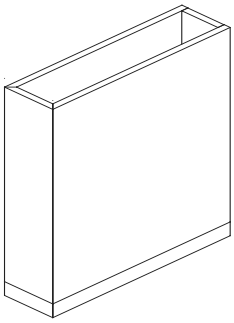


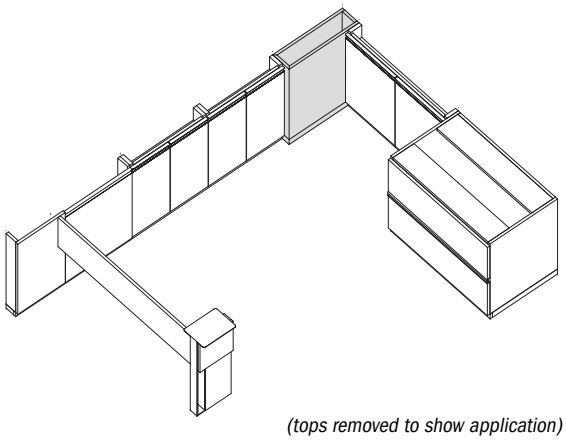


(tops removed to show application)

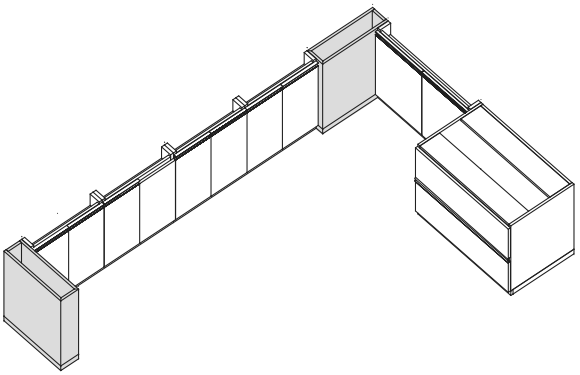
End Support

End support can be used to end a run of modular units or to turn the corner. Front corners are mitered.
(Unit can be used for left or right applications).





(tops removed to show application)



(tops removed to show application)

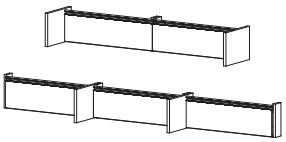
Apogee™ Product Information

Floating Top Appearance

Partial height kneespace access panels are used above one-high storage units to support floating workwall tops. Depending on adjacent storage and support, different types of wall access panels are required.

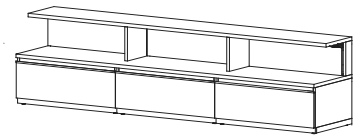
If you are using a Workwall or have top support on both sides, you can use the Wall Access Panel. If you are not using a Workwall and do not have top support on both sides, a Wall Access Panel with Support Panels is required.

Wall Access Panel with Support Panels



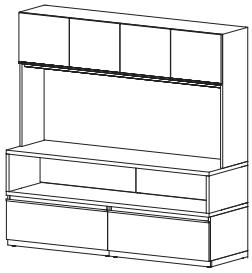
Use the partial wall access units with panel support when configuring examples 1, 2 & 3 see page 92.

Example 1



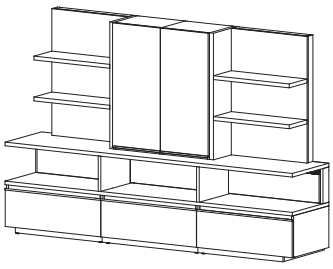
This example needs the additional support for the top, shown with a 15″ deep top.

Example 2



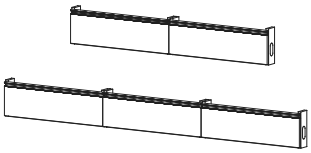
The wall access panel 72″ wide has the support panel on the outside which supports the 22″ deep top.

Example 3



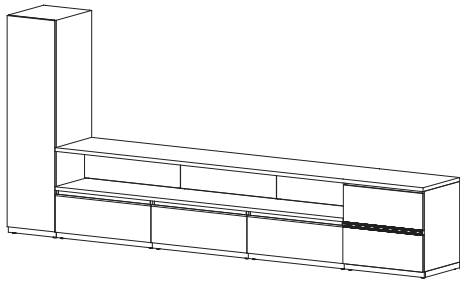
Support for this configuration is needed for the top and the asymmetric shelves and towers.

Wall Access Panel



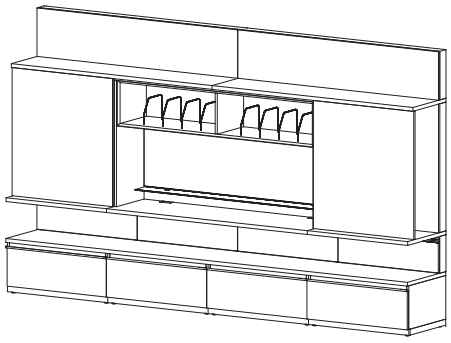
The partial wall access panels as shown above are used in configuration examples 4 & 5 see page 91.

Example 4



The top is supported from both sides, shown with a 22″ deep top.

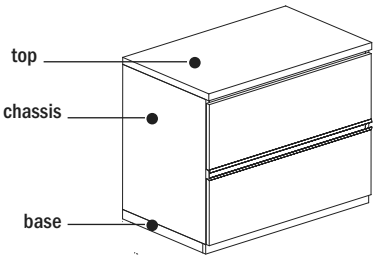
Example 5



Tops are part of the wall hung workwall components. It is recommended the wall access panel be attached to the wall.

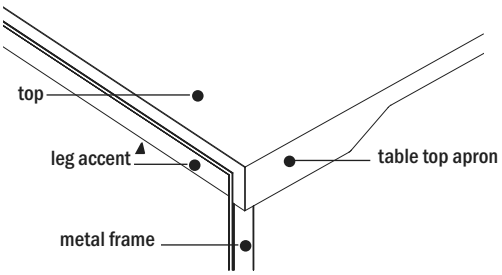
Apogee™ Product Information

Finish & Paint Scheme
(see page 32 for list finish options)



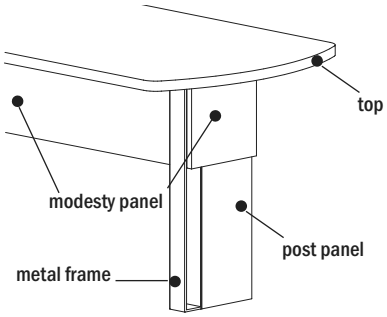
tops - veneer only
chassis/drawer fronts - veneer or paint
base - must match either top or chassis

can only choose one veneer finish and one paint per unit



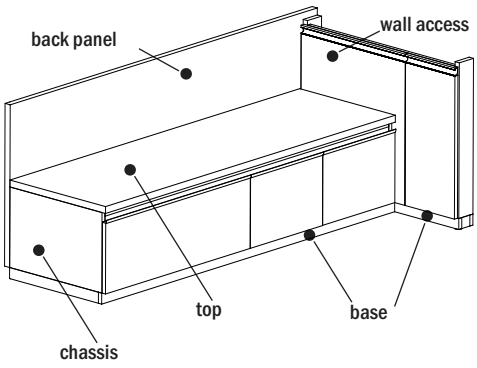
top and table top apron - veneer only
leg accent - veneer or paint ▲
metal frame - arctic silver or bright white

can only choose one veneer finish and one paint per unit



top - veneer only
modesty panel - veneer or paint
post panel - veneer or paint
metal frame - arctic silver or bright white

can only choose one veneer finish and one paint per unit

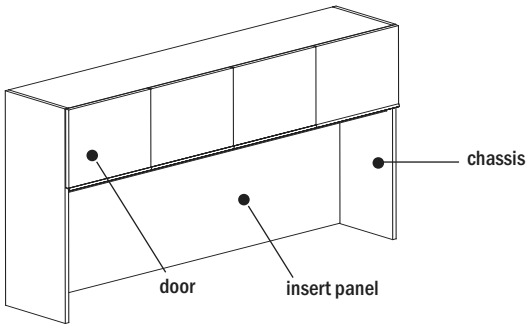


top - veneer only
wall access unit, back panel and chassis/fronts - veneer or paint
base - must match top or wall access unit, back panel and chassis/front

can only choose one veneer finish and one paint per unit

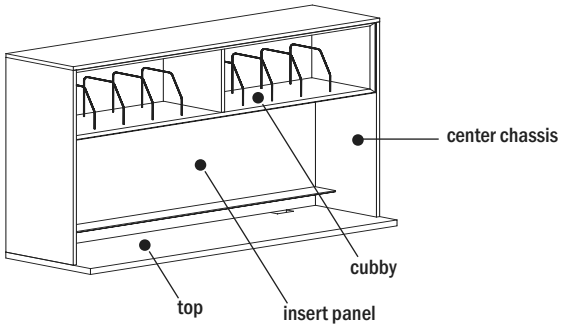
optional cushions can be order to create a bench

Apogee™ Product Information



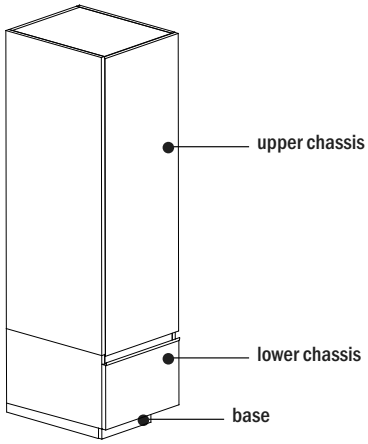
chassis - veneer or paint
doors - veneer or paint
insert panel - veneer, paint, magnetic back painted white glass or fabric
(requires a specification)

can only choose one veneer finish and one paint per unit



top - veneer only
insert panel - veneer, paint, magnetic back painted white glass or fabric
(requires a specification)
cubby - paint only
center chassis - veneer or paint
divider - silver

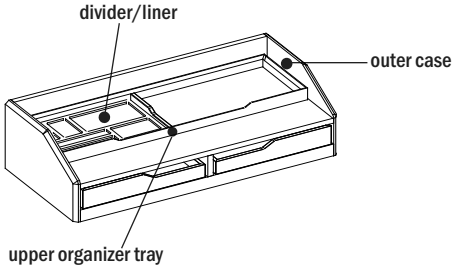
can only choose one veneer finish and one paint per unit



upper chassis/door fronts - veneer or paint
lower chassis/drawer fronts - veneer or paint
base - veneer or paint

can only choose one veneer finish and one paint per unit

scheme allows one high modular components to match lower sections of wardrobe cabinets



outer case - paint
divider/liner - charcoal felt
upper organizer tray - matches outer case
paper tray - paint or veneer

can only choose one veneer finish and one paint per unit

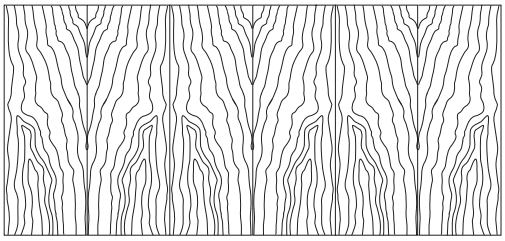
Broadway Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Broadway product line. To attain a pleasing, symmetrical pattern, all veneers in Broadway are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Broadway is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Solid painted finishes on the veneer are also offered to provide an accent to the Broadway product.

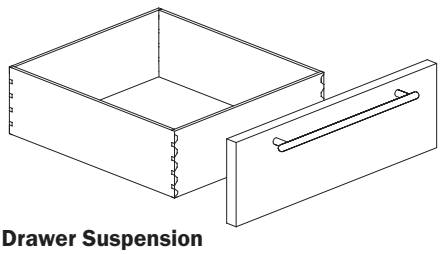
Work Surface Construction
Tops are 5-ply balanced construction, 1 ½" thick with solid matching hardwood edges.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

Case Construction
Outside panels are 13/16" ▲ and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Leveling glides are set into solid hardwood blocks with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Drawers
The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is ¼" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 184-186.

Locking
All desks, lateral files and free standing credenzas feature central locking. Returns and single pedestal credenzas feature pedestal locking to provide maximum security and flexibility.

Units are shipped randomly keyed as standard (units in the grouping are keyed alike). Keyed alike units are available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Broadway. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Broadway Product Information

Product Modification

Laminate Tops
Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
Autumn	*Ale*	*Auburn*
Barley	*Cinnamon*	*Mocha*
Bourbon	*Venetian*	*Night Owl*
Brighton		*Sienna*
Classic		*Toffee*
Legacy		*Truffle*
Praline		
Saffron		

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

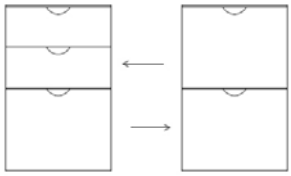
Finish Sheen Modification
Finish sheen can be modified on the worksurface tops. There is a 15% upcharge added to the list of each item.

Two-Tone Finish
Units specified in a two tone finish (either two different paint finishes or a paint finish and wood stain) requires approval with an upcharge of 8% to the list price.

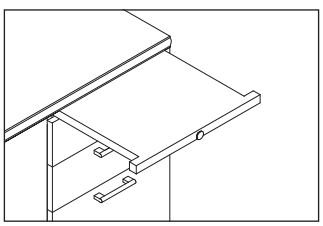
Oak Veneer
Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

Pedestal Configuration Change
Box-box-file configuration is standard on all desks and file-file configuration is standard on all return units.

Broadway drawer configuration on pedestals 30″ high can be switched out either to a box-box-file or file-file configuration, but must be specified at the time of order and with an additional 5% upcharge to the list price.



Writing Shelf - Pull Out (Arm Slide)
Desk Pedestals in Broadway can have an optional pull out shelf above the top drawer for additional writing surface. Add $258 to the list for each pedestal. The locking on the pedestal will change from central locking system to pedestal locking system.



Special Sizes from Standard Offering

The following chart contains pricing for general modifications to Broadway. **All modifications still must be approved by JSI manufacturing**, please contact Customer Service to verify any of the modifications listed in the chart below. More complex modification to standard product may be possible, please refer to page 3 for additional details.

This chart does not apply to glass doors, glass tops or to metal components; such as modesty trims panels, structural support and cornices. Any changes to file drawers will affect filing capabilities.

Increasing Dimensions - Add On to the list Per 6″ Occurrence

Overhead	
Increasing width	$688
Increasing depth	$1,176
Increasing width with doors	$816
Increasing depth with doors	$1,260
Any Pedestal	
Increasing width	$978
Increasing depth	$872
Any Panel	
Increasing width	$221
Any Top	
Increasing width	$288
Increasing depth	$408

Decreasing Dimensions Add On to the list Per 6″ Occurrence

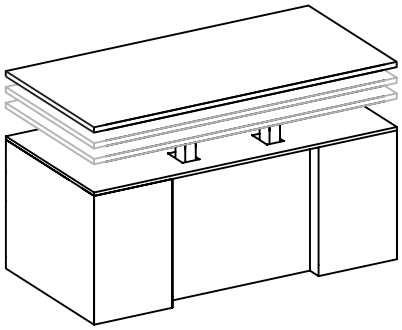
Overhead	
Decreasing width	$224
Decreasing depth	$224
Decreasing width with doors	$308
Decreasing depth with doors	$308
Any Pedestal	
Decreasing width	$978
Decreasing depth	$872
Any Panel	
Decreasing width	$114
Any Top	
Decreasing width	$168
Decreasing depth	$168

Example 1
Increasing open corner credenza width by 11″, from 84″to 95″.
Add Top Width ($288 × 2) [$288 for each 6″ increment]
Add Panel Width ($221 × 2) [$2,21 for each 6″ increment]
Total Modification = $1,018 upcharge

Example 2
Increasing a desk pedestal depth from 36″ to 40″ & increase the width of the same pedestal by 8″.
Add Pedestal Depth $872
Add Pedestal Width ($978 × 2) [$978 for each 6″ increment]
Total Modification = $2,828 upcharge

Example 3
Decreasing an overhead from 60″ to 58″ width & increasing the depth by 3″.
Decrease Overhead Width $224
Add Overhead Depth $1,176
Total Modification = $1,400 upcharge

Broadway Product Information



This mechanism requires a signed Liability Wavier prior to time of order specifcation.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Broadway.

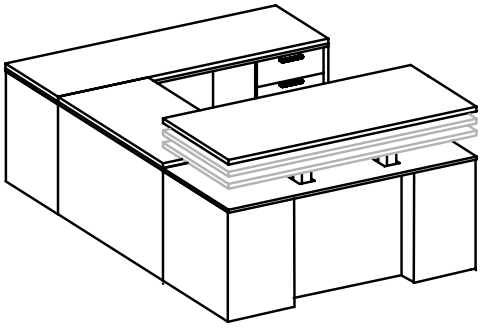
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾" to the standard height of the desk and the installation will decrease kneespace depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a worksurface in an "L" or "U" group, all units in the configuration need to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¼", to a standing height of 49 ¾", a range of 19 ½".

To specify the unit that has the mechanism add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add **ERGO ADJACENT** to the end of the model number.



Example

BR3672LD-ERGO	add $3,100 to list
BR2448EB-ERGO ADJACENT	add $425 to list
BR2472RC-ERGO ADJACENT	add $500 to list

Connecting or Adjacent Units to Match Starting Height

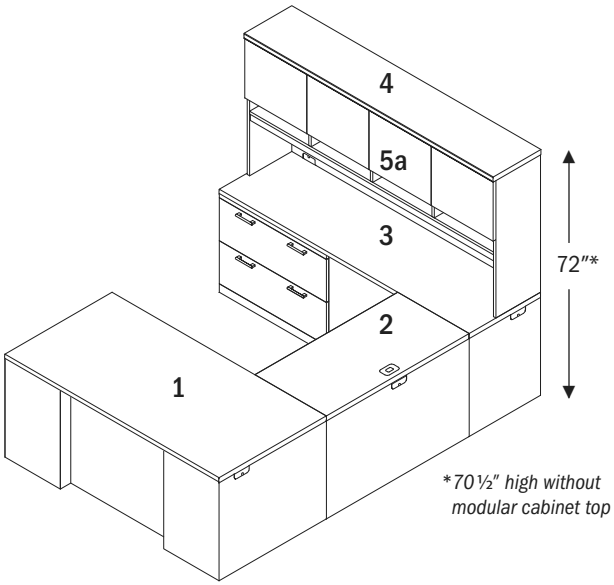
All the units listed above can be specified as connecting or adjacent units. Other Broadway units could also be used as connecting units, please contact Customer Service for additional items and pricing. When specifying please add "ERGO ADJACENT" to the end of the model number.

Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $500 to the list price.
Tops 24" x 48" or smaller add $425 to the list price.

Broadway Product Information

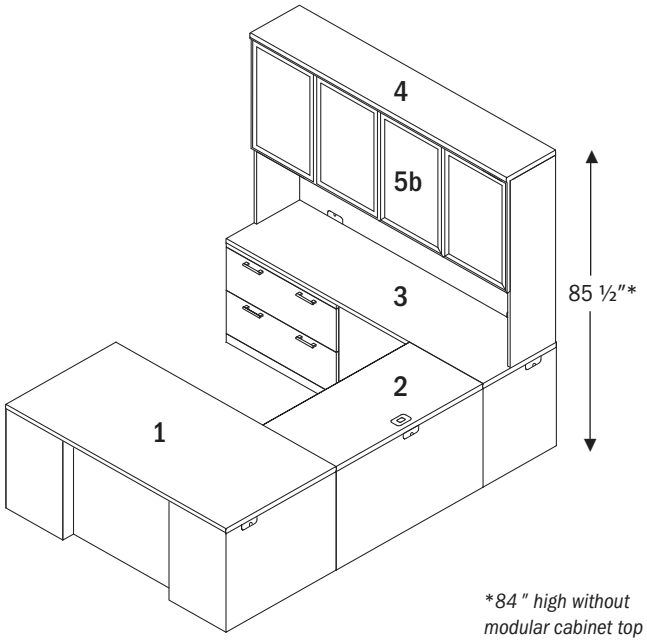
Layouts

Two heights of storage overheads are available in Broadway.



**70½" high without modular cabinet top*

Broadway is an option rich product line, which allows the product to fit regional style, while still providing easy to specify layouts.



**84 " high without modular cabinet top*

Taller overhead storage allows for maximum storage while keeping a compact footprint in the layout.

Easily specified and setup while providing well established layouts in the office environment.

1 **Single Pedestal Desk** with the standard box, box, file pedestal configuration and side locking. Standard side grommet keeps the desk top clean from wires, while still having convenient wire management.

2 **Bridge** standard with top back panel grommet and mounting hardware.

3 **Lateral File Credenza** available with fixed back panel or hinged modesty panel to gain access to the wall.

4 **Modular Cabinet Top** is a specification option, which adds another level of aesthetics to the overhead cabinet. Can also be used to create the appearance of one overhead cabinet when using more than one modular overhead.

5a **Overhead Cabinet** height is 40½" for an overall height 70½" *(add 1½" if specifying modular cabinet tops)*. Standard with left and right grommets on the back panel. Available in aluminum frame glass doors. Models without cubbies are also available.

5b **Overhead Cabinet** height is 52½" for an overall height 82½" *(add 1½" if specifying modular cabinet tops)*. Standard with left and right grommets on the back panel. Shown in aluminum frame doors, also available in wood doors.

Note: *Tackboard or panels can be added to the inside back of the overhead cabinet, along with the accessory rails.*

Modular Cabinet Tops

All adjacent units must have modular cabinet tops to maintain the same finish height.

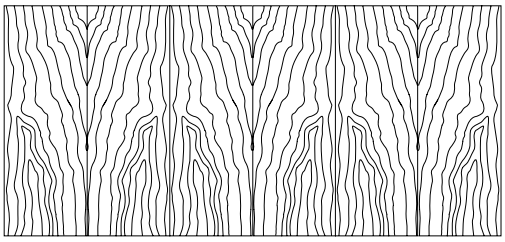
Collective® Office Notes

Collective® Office Product Information

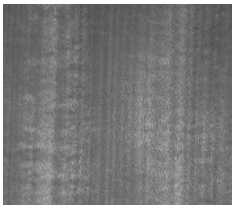
Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Collective Office product line. To attain a pleasing, symmetrical pattern, all veneers in Collective Office are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Collective Office is available in flat cut cherry, maple, and walnut veneer.



Makore veneer is also available on Collective Office at no upcharge. Makore is also known as African Cherry veneer. When makore veneer is quarter cut it has a nice straight grain pattern with a pinkish brown cast and is a good alternative for cherry veneer for Collective Office.

Anegre veneer is a premium veneer choice and is quarter cut to have a figure cut (fiddle back) pattern. There is a 15% upcharge applied to the list for Anegre veneer

A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Solid painted finishes on MDF are also offered on drawer and door fronts to provide an accent to the Collective Office product.

Work Surface Construction
Tops are 3-ply balanced construction, *1 3⁄16″*▲ thick with solid matching hardwood 1.5mm rims.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge for some finishes.

Case Construction
Outside panels are *13⁄16″*▲ and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110˚ swing hinges to allow adequate access into the interior of the cabinet.

Leveling glides are provided in both plinth base or telescopic foot.

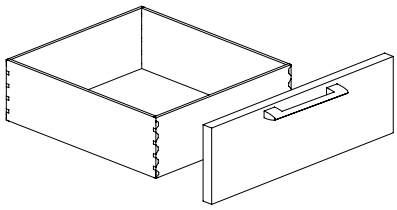
Extruded Aluminum Components
Telescopic Feet, Valance Rails, Frames, Tool Rails, and Spacers all are made from an alloy aluminum compound, made up of 10% post consumer scrap, 60% post industrial scrap and 30% primary aluminum. The aluminum meets or exceeds the guidelines of USGBC – LEED V2.2. The parts are precisely machined and then processed in a clear anodized finish for a natural aluminum appearance.

Fabricated or Casted Metal Components
Spindles, table armatures, disc bases, top supports, arms, and modesty panel brackets are made up of high grade metals. The metal is laser cut, bended and robotically welded to the exact specifications, polished and powder coated to blend with the anodized aluminum.

Access Kneespace Panel
Wall stud construction style frame is made from 16-gauge steel, stamped and laser cut. Pop-rivets are used to combine frames and create various widths. Frames are coated with silver powder coat. The back is open and is designed to sit up against a wall, to allow for wiring access.

Aluminum Glass Doors and Glass Modesty Panels
Aluminum glass doors and modesty panels have extruded aluminum frames with 4mm thick smudge resistant frosted glass or clear glass back painted in bright white.

Drawer Box Construction
The 9ply unidirectional hardwood sides of the drawer box are 7⁄16″ thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1⁄4″ thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with a clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on page 272.

Locking
All desks, lateral files, returns and free standing credenzas feature pedestal locking to provide maximum security and flexibility.

Units are shipped randomly keyed as standard (units tagged in the grouping are keyed alike). Keyed alike units are available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Collective® Office Product Information

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Collective Office. Please see the chart below. Samples are available upon request, through our website or by contacting Customer Service. Former finish names are listed in parentheses for reference.

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

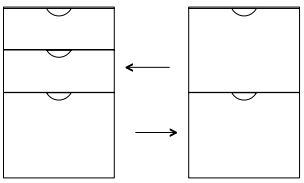
Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

Finish Sheen Modification
Finish sheen can be modified on the work surface tops. There is a 15% upcharge added to the list of each item.

Oak Veneer
Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

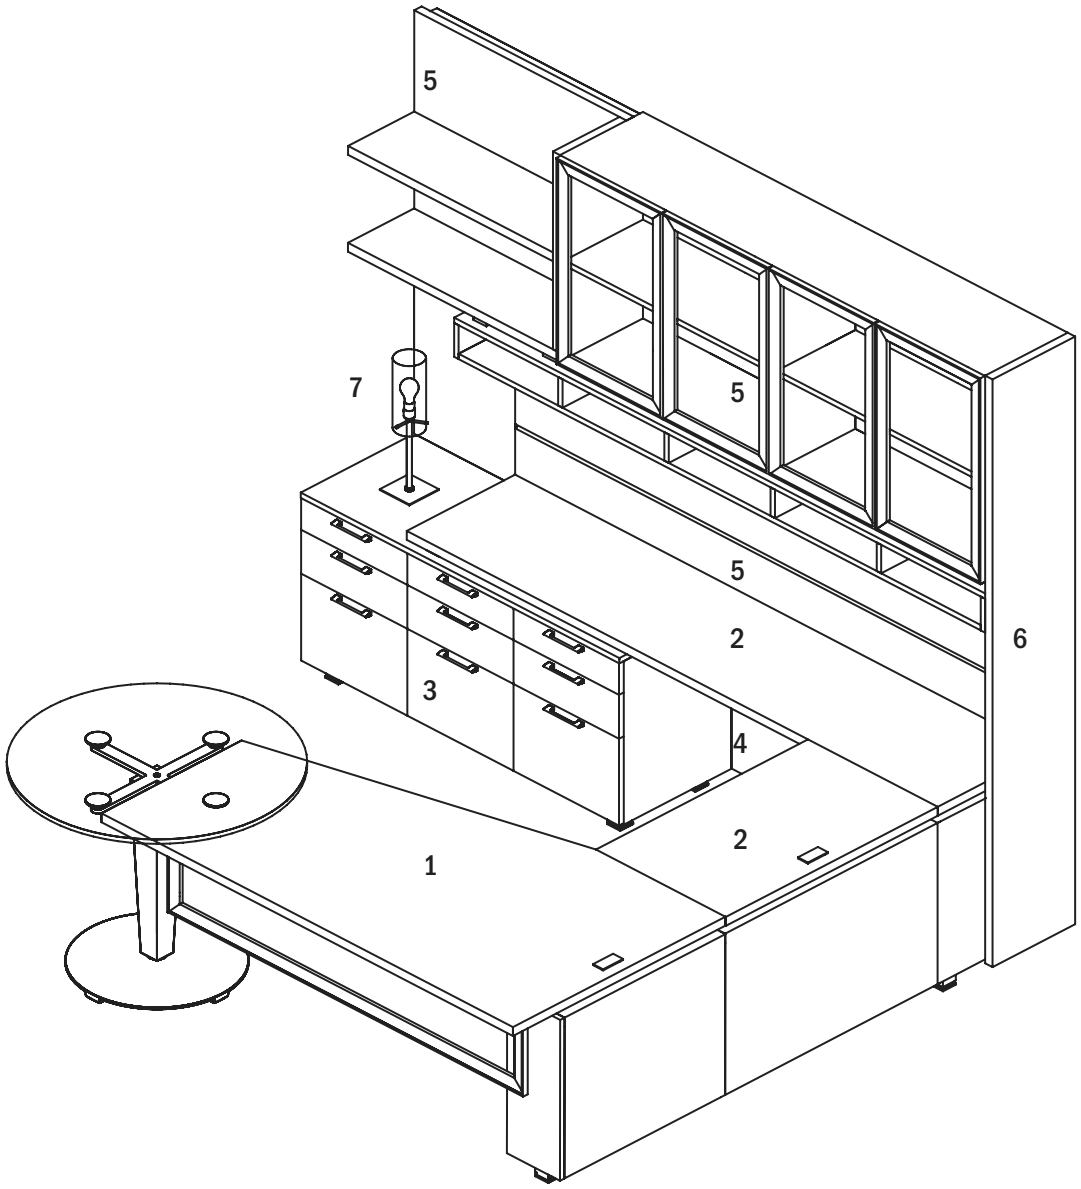
Pedestal Configuration Change
Box-box-file configuration is **standard on all desks** and file-file configuration is **standard on all return units**.

Collective Office drawer configuration on pedestals 29″ high can be switched out either to a box-box-file or file-file configuration, but must be specified at the time of order and with an additional 5% cost to the list price.



Special Construction
Collective Office offers a large offering to create many types of configurations. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Requests need to be approved by JSI engineering.

Collective® Office Product Information



1 Desks
The offering includes Double Pedestal, Single Pedestal, Peninsula and Run-Off Desk types in many shapes and sizes.

2 Workwall and Bridge Tops
Workwall Tops are placed along the work wall. Bridge Tops connect a Single Pedestal Desk to a Workwall Top and are used only in a U-shape back workwall layout.

3 Lower Storages
Choose from two types of lower storage. Credenzas feature a pencil/box/file drawer configuration and spacers that create floating or tiered worksurfaces. Pedestals feature box/box/file or file/file drawer configurations without spacers.

4 Access Kneespace Panels
The Access Kneespace Panel provides structure for modular components along with a fully concealed and accessible wire management space.

5 Workwall Components
Cubbies, Wall Panels, Storage Overhead Cabinets, and Worksurface Towers allow for long spans of uninterrupted worksurface. They can be combined to create a floating workwall appearance or numerous combinations of Tower and End Panel supported workwalls.

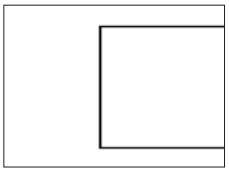
6 Storage Towers and End Panels
These components flank workwalls providing both structure and additional storage to the workstation.

7 Additional Features
Mobile Pedestals, Work Tools, Task Lighting, and Power/Communication Modules add user oriented functions to the workstation.

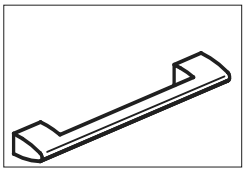
Collective® Office Product Information

Edge Profile Hardware

Collective Office utilizes a clean cut straight edge profile with a 1.5mm veneer rim. The Elite hardware is made of anodized aluminum. Longer versions of pull are used on mobile pedestals and credenzas.



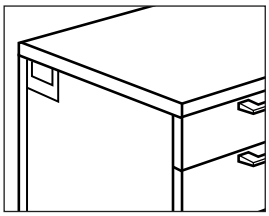
Straight Edge Profile



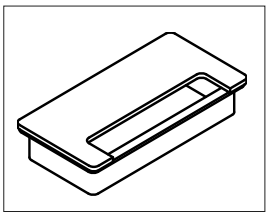
Elite Pull
Anodized Aluminum Finish (AAL)

End Panel Grommet

Collective Office credenzas feature a matte nickel 4″ x 2″ end panel grommet to allow for wire management. The end panel grommet is optional on other items; see pricing pages for more information.



Grommet Location



Grommet
Matte Nickel (MNK)

Foot/Plinth Style Base

Collective Office features an anodized aluminum foot. For a more classic feel, units may be specified with a wood plinth style base.

Collective® Office Product Information

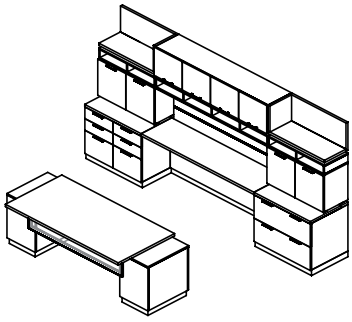
Desks

Application
Four types of Collective Office desks are offered: double pedestal, single pedestal, peninsula and run-off.

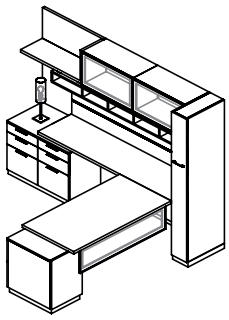
Double Pedestal Desks are used for layouts with a back workwall. This type of desk is offered with storage pedestals to support each end.

Run-Off Desks are paired with modular worksurfaces and used for both L-shape and U-shape side workwall layouts with several end supports.

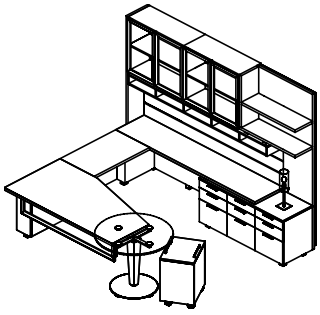
Single Pedestal or Peninsula Desks are paired with bridges to create U-shape back workwall layouts.



Double Pedestal Desk



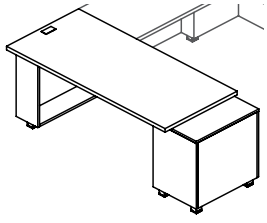
Single Pedestal Run-Off Desk



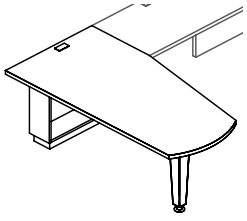
Peninsula Desk

Run-Off and Peninsula Desk Support

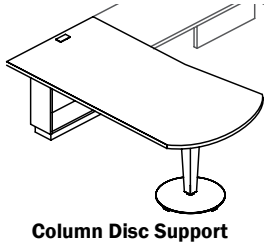
Peninsula style desks feature multiple support options. The support from the user side determines the handiness of the desk.



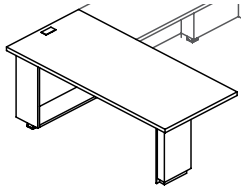
Pedestal Support
spacer or non-spacer available



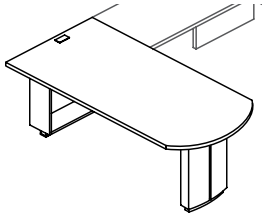
Leg Support
spacer or non-spacer available



Column Disc Support
spacer or non-spacer available



Rectangular Column Support
column and base can be paint or veneer - accented with side fins finished in Arctic Silver



Ellipse Pedestal Support
column and base can be paint or veneer - center accent finished in Arctic Silver

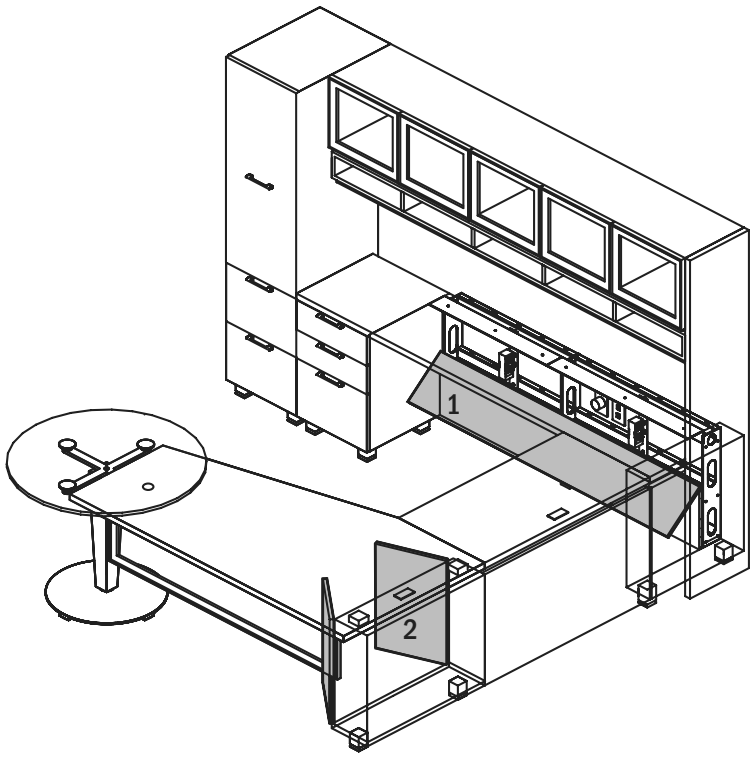
Modesty Panels

Modesty panels are available on all desks in tempered glass or wood. Double and single pedestal desks may be specified with a full wood modesty panel. *The tempered glass panels are available in Frosted, Frosted Bright White Back Painted (matte) or Glossy Frosted Bright White Back Painted (shiny).*▲

Collective® Office Product Information

Power/Communication Technology

Wire management solutions are integrated throughout Collective Office products, concealing cables while providing easy access to power.



1 Access Kneespace Panel
The Access Kneespace Panel conceals cords, cables, and power/communication sources while providing easy access to the wall.

With the hinged panel open, wire routing and connections are easily made inside the panel. When adjacent to the Access Kneespace Panel, equipment Storage Units with optional cut-out allow pass through for wire management

Back is open as intended to be placed against a wall to allow for a variety of customer supplied power solutions.

2 Desk End Support
Single Pedestal desks offer an optional access pedestal at the end adjoining the bridge.

This unit features grommet openings and an access door, and can be fitted with customer supplied power strips to augment desk power sources. The Desk Access Pedestal is not designed for CPU storage.

1 Drop Space
A continuous 1¼" space along the back edge of all Workwall Tops allows plugs and cables to drop into the Access Kneespace Panel.

2 Wire Management Channel*
Optional undermount channels beneath Bridges and Run-Off Desks serve as wire pathways between desk units and power/communication sources inside the Access Kneespace Panel. See the accessory section of this price list.

3 CPU Storage
CPU Storage options include mobile and fixed solutions. Both options provide wire management features and easy access to connections while enhancing workstation flexibility.

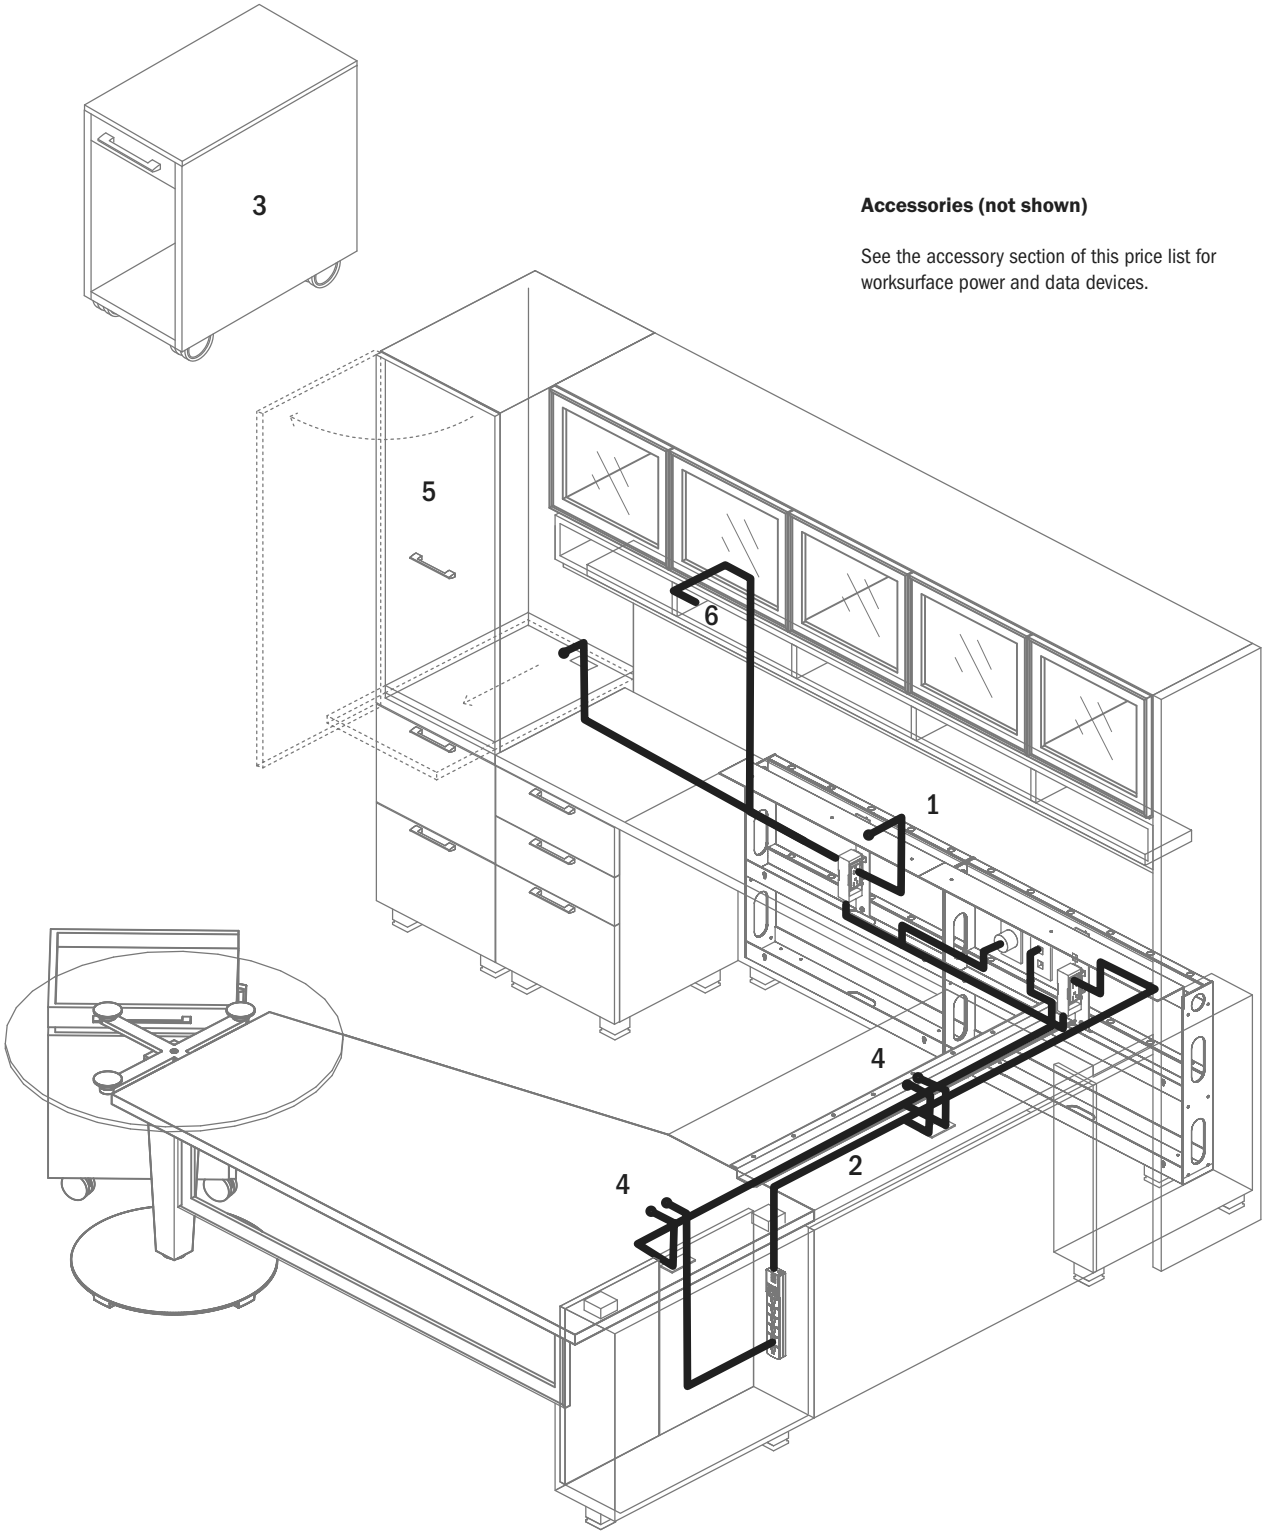
4 Top Grommets
A matte nickel top grommet, optional on Double and Single Pedestal Desks and standard on bridges, routes wires from the work top directly into an optional undermount channel and access pedestal.

5 Storage Cabinet
Storage cabinets with front and side access solutions are available for both workwall heights. Styles include the worksurface and combination units. Technology Storage Towers feature optional grommets for wire management and an optional pull-out shelf for accessibility.

6 Task Light
Integrated pass-thru openings and space behind the wall panels allow easy installation and wire management of task lights.

**Wiring channel for routing wires are listed separately.*

Collective® Office Product Information



Accessories (not shown)

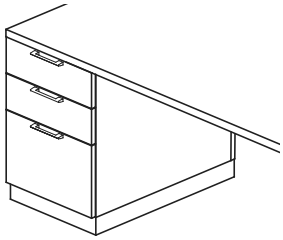
See the accessory section of this price list for worksurface power and data devices.

Collective® Office Product Information

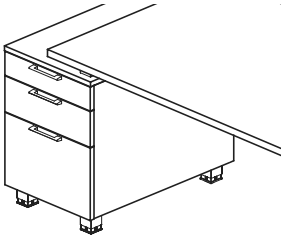
Desk Pedestals

Non-Spacer Pedestals and Spacer Pedestals

Collective Office offers two distinct styles of standard pedestals on the desk, non-spacer style desk or spacer style desk. Plinth base or the foot feature can be specified on either style of pedestals.

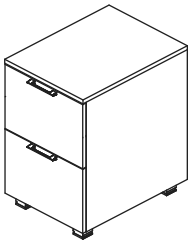


Non-Spacer Pedestal
Box/Box/File
(plinth base shown)



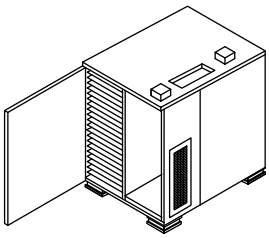
Spacer Pedestal
Pencil/Box/File
(pedestal feet shown)

Non-Spacer Pedestals for Pre-Configured Desk (pages 282-287)
File/File drawer configurations are available on a non-spacer style pedestal for a 5% upcharge to the list.

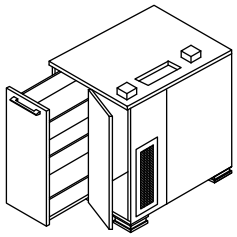


File/File Pedestal

Spacer Pedestals for Pre-Configured Desk (pages 280-289)
Optional pedestals include the CPU storage pedestal and CPU toolbox pedestal.



CPU Storage Pedestal
add $281 to list



CPU Tool Box Pedestal
add $894 to list

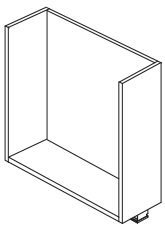
CPU storage units require adequate ventilation to avoid overheating of electronics.

To encourage ventilation, the optional CPU pedestals are offered in the foot style only and are standard with a side vent.

A ventilation fan (powered by USB) is available as an option and is highly recommended. Add $155 to list

---

Support End for Peninsula Desk
Single pedestal desks feature an open-sided support pedestal on the bridge end of the desk. An optional unhanded hinge door pedestal may be specified in its place. The hinge door allows for wire management for customer supplied power strips.



Support End

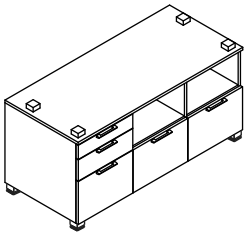
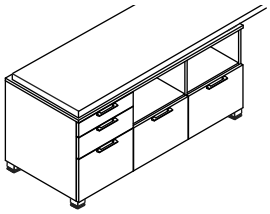
Collective® Office Product Information

Lower Storage

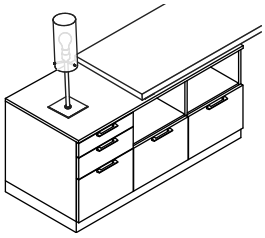
Credenzas (spacer style)
Credenzas feature a pencil/box/file drawer configuration and spacers. Multiple styles are available, including storage and equipment compartments. Worksurface tops are sold separately and can be specified to align or offset credenzas.



Credenzas
spacers shown for suggested placement for aligned top

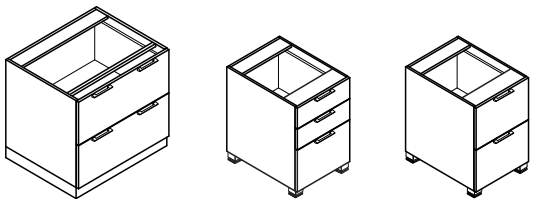


Aligned Top

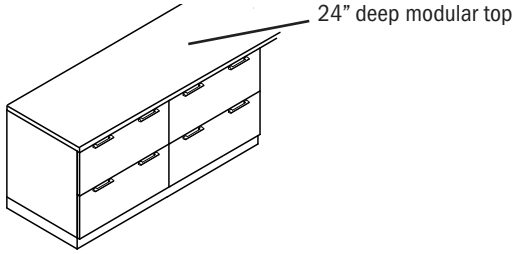


Offset Top
shown with lamp (sold separately)

Modular (non-spacer style)
Modular components must have an aligned modular top, sold separately. Box/box/file, file/file, and hinged door units are available.

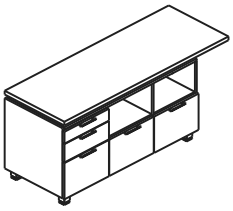


Modular Pedestals

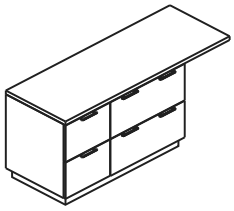


Modular Units
ganging together with modular top

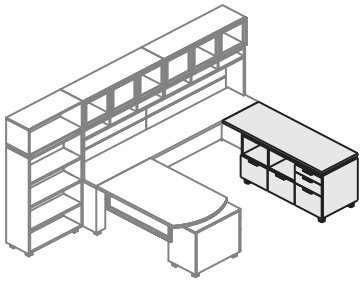
Run-Off Storage
Run-Off storage units are available in two styles: spacer and non-spacer. Both styles are available as a configured unit or as a credenza or modular storage with a top specified separately. Spacer style run-off storage features pencil/box/file drawers. Non-spacer style run-offs feature file/file, box/box/file, and lateral storage. Run-Off units can be specified with either a foot or plinth base style. A broad selection of configured units are offered in a 24″ depth with 6″ incremental lengths from 60″ to 84″.



Spacer Style
configured unit or credenza and top



Non-Spacer Style
configured unit or modular storage and top



Collective® Office Product Information

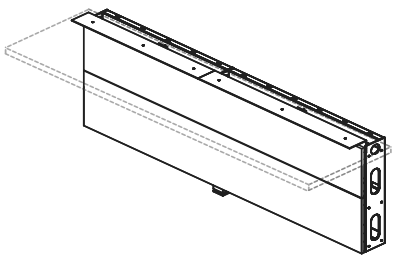
Access Kneespace Panels

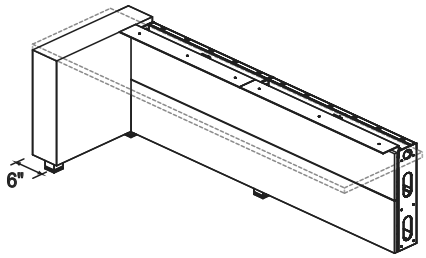
The access kneespace panel provides structure, wire management and access to the workwall. The panel can be specified in foot or plinth style. Modular electrical power systems can be fit into the cavity of the metal frame. Access kneespace panels are designed to fit between lower storage, tower and end support units.

Two types of end supports for workwall tops can be used in the kneespace:

End Support Panel (1¼"w) - for use with open kneespace applications.

End Support (6"w) - for use with the access kneespace panel or open kneespace applications.

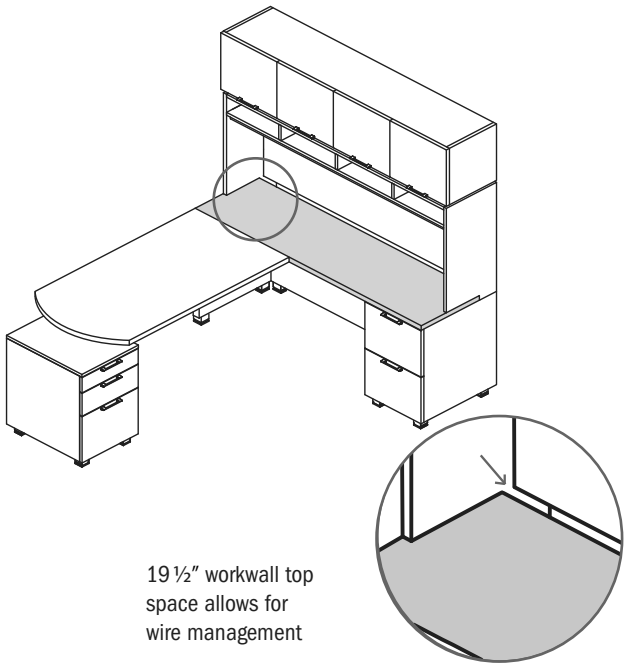




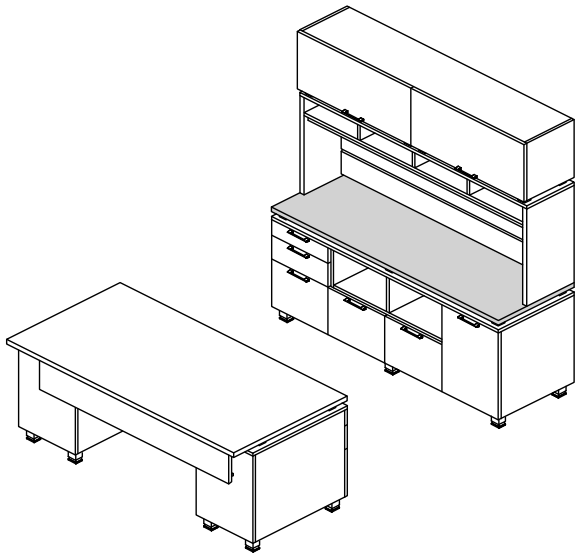
Workwall and Modular Tops

Because of the modularity of workwalls, workwall tops are specified separately and are designed to fit with upper and lower storage components. Workwall tops can be used in both spacer and non-spacer style applications.

Workwall tops are 19½"d and modular tops are 24"d. The 19½"d tops are defined by the model number prefix TUS and allows for wire management. Worksurface towers are provided with a filler panel to offer a fit with the smaller depth. The 24"d tops have a TU model number prefix and are used with freestanding cubby with panel units. When used with upper storage units, it is recommended the TU tops be specified with a grommet.



19½" workwall top space allows for wire management

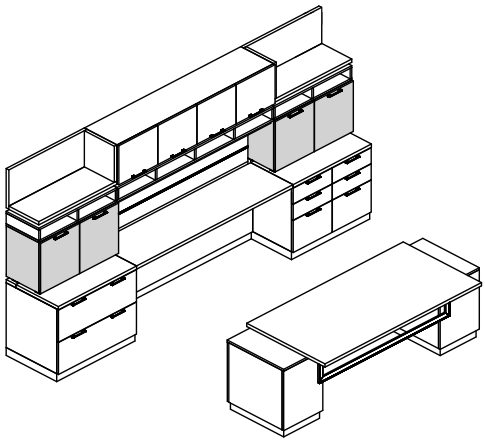


24" modular top requires grommet for wire management

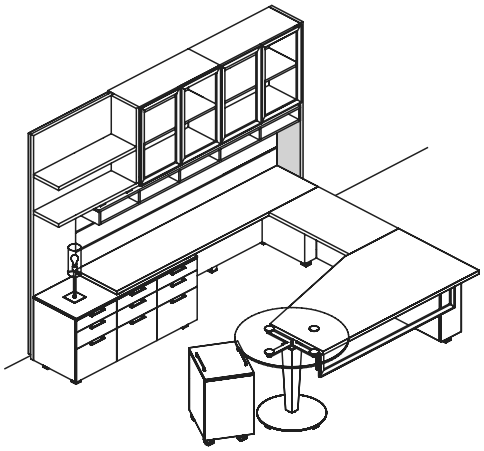
Collective® Office Product Information

Freestanding and Wall Mounted Workwalls
Workwalls are either freestanding or wall mounted depending on end support. When storage towers, worksurface towers, or end panels are used on both sides of overhead storage and/or cubbies, the workwall is freestanding. When supported on only one or neither side, the workwall must be wall mounted. Backs on all wall mounted units are not finished.

Wall mounted cubbies and binder bins have an inset back with concealed wood cleats. Wall mounted asymmetrical shelves also have wall cleats included with the unit.



Freestanding
support on both sides
worksurface towers shown

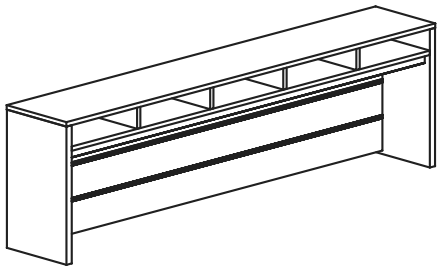


Wall Mounted
one or both sides without
support end panel shown

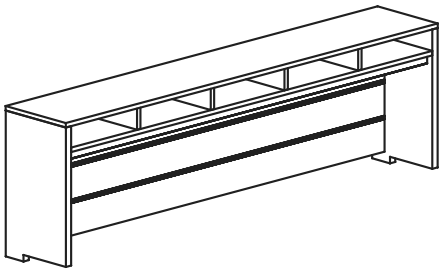
Freestanding and Wall Mounted Workwalls - Cubbies
An integral part of a workwall are the cubbies. Collective Office offers a wide range of cubbies in either configurable or modular units.

Configurable cubbies are offered in freestanding panel style or stepped panel style, both in 15″ or 18″ modules.

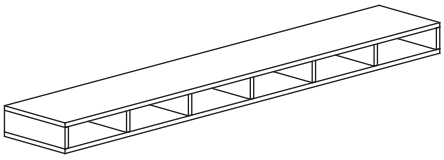
The modules in modular cubbies are also offered in 15″ or 18″ widths., along with a combination of 15″ and 18″. Modular cubbies require wall mounting or support at both ends. The support can either be panels, wardrobe storage or worksurface towers.



Freestanding Cubby
(used with TU modular tops)
wall panel and tool rail shown



End Panel Support Cubby
(used with TUS workwall tops)
wall panel and tool rail shown
not for use with spacer pedestals



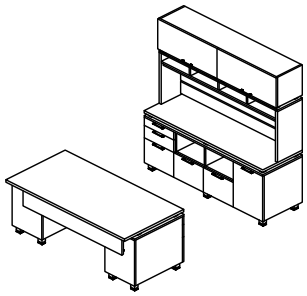
Modular Cubby
(designed to be used with overheads)

Collective® Office Product Information

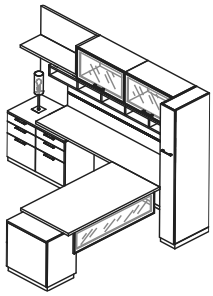
Specification Types: Configured vs. Modular
Wall panels and cubbies are required to support overhead units that are not wall mounted and are offered as either a configured unit or modular components.

Configured units combine wall panels and cubbies with end support panels which sit directly on the worksurface.

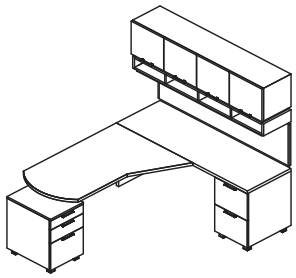
Modular wall panels and cubbies are specified separately and can be used to create workwalls that do not require end panels for support. There are two types of modular wall panels: side mounted and wall mounted. Even in wall mounted applications, wall panels may be side mounted if there is a side panel, shelf, or storage unit on both sides. If one or both sides are without any of these units, wall mounted panels must be specified.



Configured



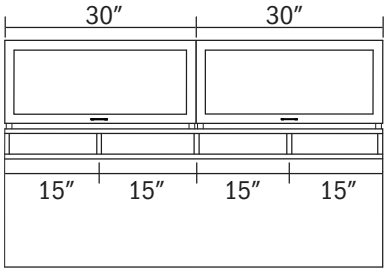
Modular Components
side panel and wall mounted



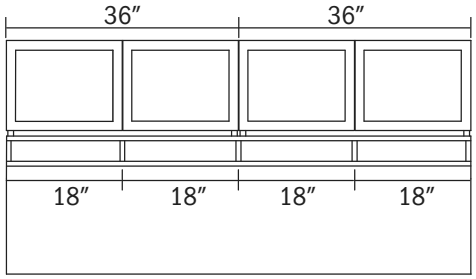
Modular Components
Wall mounted wall panel

Configured Applications
Configured wall panel and cubby units are designed to fit on workwall tops. Each unit has a specified use with spacer or non-spacer style lower storage.

These units are offered in two cubby widths - 15″ or 18″ - to align with overhead door widths. Specify 15″wide cubbies with 30″ wide flipper door overheads, and specify 18″ wide cubbies with 36″ wide cabinet door overheads.

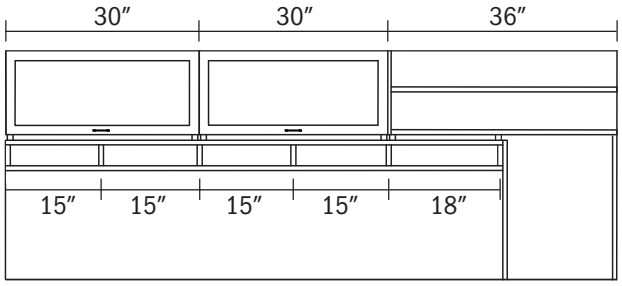


15” Modular Cubby



18” Modular Cubby

Modular Applications
Modular cubbies are offered in a combination of the two widths (18″and 15″).Use these cubbies when combining 15″ increment units with 18″ increments units, as shown in the example below.

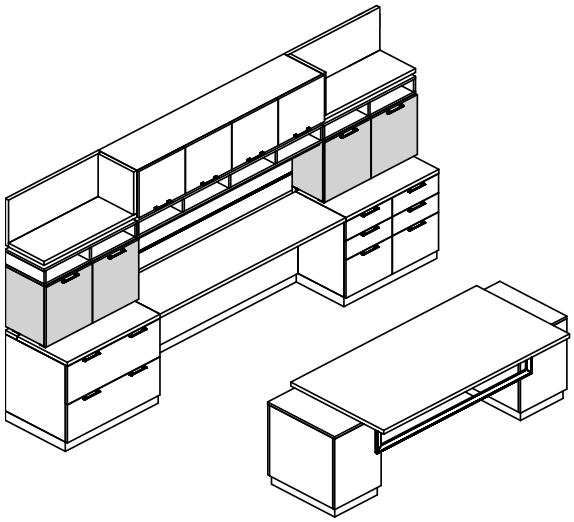


15”/18” Modular Cubby with Asymmetric Shelf

Collective® Office Product Information

Storage Towers

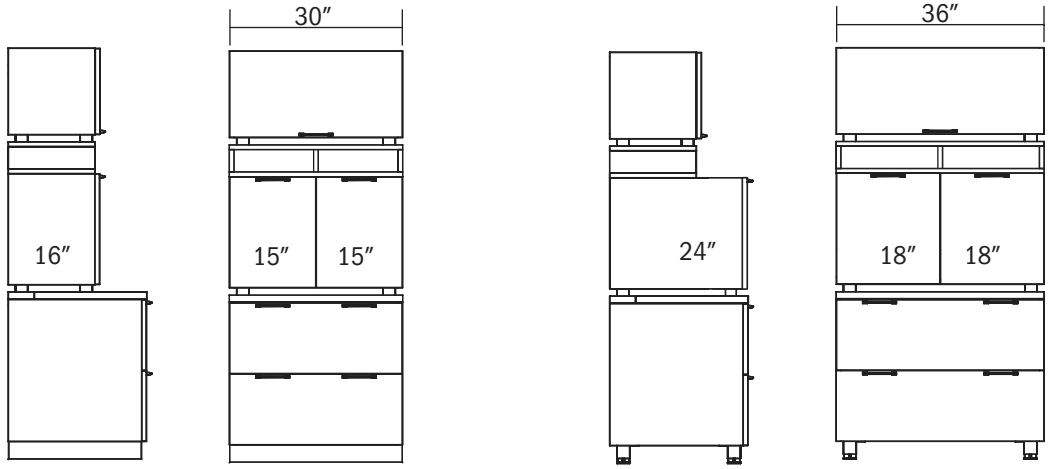
Storage towers are designed to provide easy access to stored items or technology equipment from a seated position.



Note: storage towers have a filler top to be used when using in conjunction with a TUS tops.

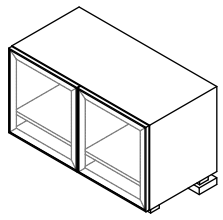
Application

Storage towers sit on the worksurface along the workwall only. They can be specified to provide end support for modular cubbies and spanning overhead storage components. To ensure vertical alignment of upper components, width (15" or 18") of overhead and cubby modules placed atop worksurface towers should match.

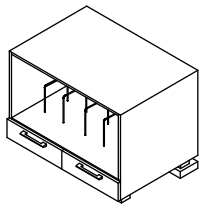


Functional Options

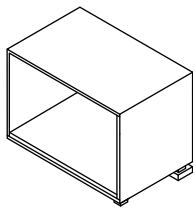
Storage towers are available in three depths with configurations designed to accommodate specific storage needs.



Binder - 16″d



Redwell - 18″d
for expandable files



Technology- 24″d

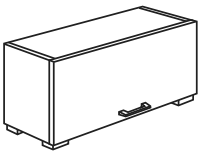
Collective® Office Product Information

Storage Ovehead Cabinets

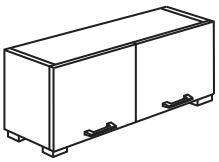
Door Styles
Overhead storage units are offered in two door styles: Flipper or side hinged door. Open storage units are also available.

Flipper style doors lift up, and feature a lid stay which assists with easy accessibility to contents. These units are offered on either a 15″ and 18″dimensional module, in a single shelf height. Pair 36″ and 72″ wide overheads with 18″ cubby modules. Pair 30″ and 60″ wide overheads with 15″cubby modules.

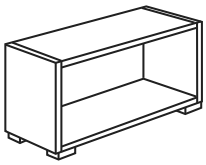
Side-hinged doors are offered on an 18″ dimensional module, in single or double high units, and are paired with 18″cubby modules.



Vertical Lift Flipper

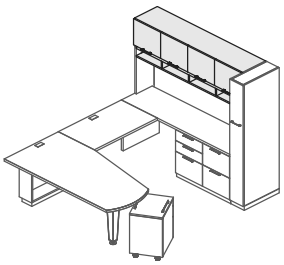


110˚ Door Swing

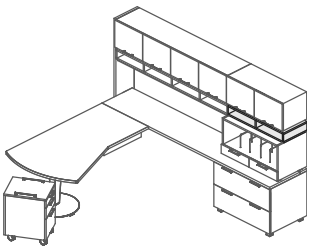


Open Storage

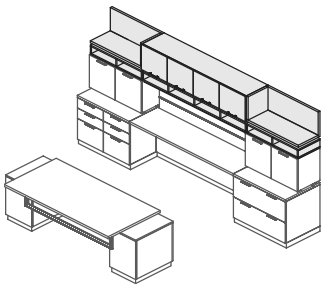
Application
The expansive offering of modular overhead storage creates planning flexibility and numerous configurations.



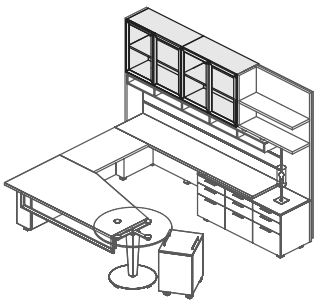
Overhead storage spans between full-height storage towers and end panels, and should always be specified atop modular or configured cubbies of the same length.



Combine overhead storage with modular cubbies atop worksurface towers on one or both ends of the workwall.



Create a floating workwall appearance with cantilevered overhead storage atop modular wall panels and cubbies paired with asymmetric shelves at each end.



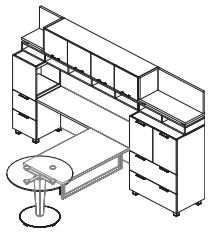
Create an asymmetric workwall by spanning overheads between different types of end supports such as a full-height wardrobe or storage tower, end panel, or asymmetric shelf.

Collective® Office Product Information

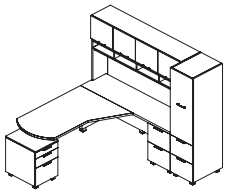
Storage Tower

Tower Heights

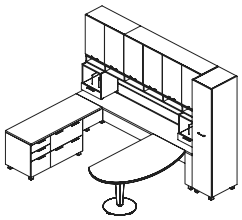
Storage towers and full length end panels, positioned at the ends of a workwall, provide structural support for overhead storage and cubbies. Towers and end panels are offered in three heights: 55″ high, for use with spanning cubbies, 71″ high, for use with single high overheads and 86″ high, for use with double high overheads



55″h Storage Tower (overall 71”h)



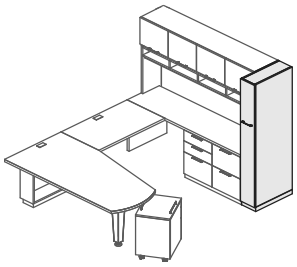
71″h Storage Tower



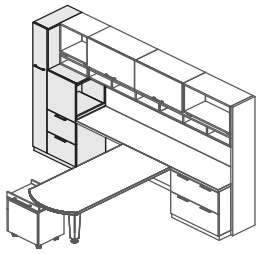
86″h Storage Tower

Application

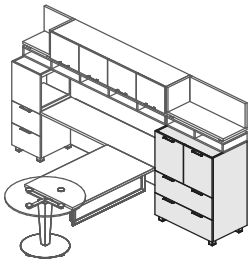
Collective Office offers different types of wardrobe storage to maximize storage or to provide personal storage for outerwear.



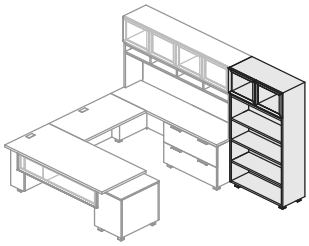
Full-height towers are either 86″ or 71″ high to align with the top of overhead storage units, and 24″ deep. Widths range from 12″ to 36″. Shelf, drawer, and wardrobe storage is available.



Combination towers are 24″ deep and are comprised of either an 86″ or 71″ high wardrobe module and a 55″ high low tower module.



Mid-height towers provide equipment storage with pedestals. They are 24″ deep and 55″ high, and rest below modular cubbies with single or double high overheads and shelves above. Specify 18″ or 36″ width to align with overhead storage.



Bookcase units are either 86″ or 71″ high, and 15″ deep to align with the depth of overhead storage units. Collective Office bookcases feature open, flipper door, or hinge swing door binder units atop spacers to coordinate with the overhead storage units.

Bookcases with upper cabinet doors must be wall mounted.

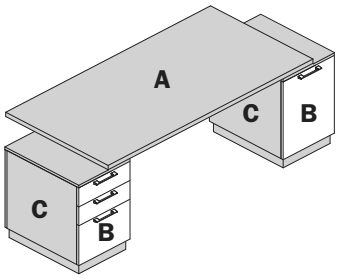
Collective® Office Product Information

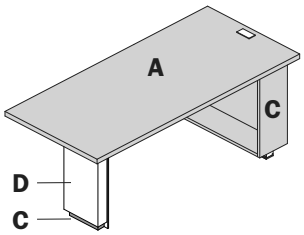
Material Options

Collective Office uses a modern mix of materials: paint, veneer, and aluminum. Veneer choices are cherry, makore, maple and walnut. Anegre wood species requires an upcharge; see page 254. Eleven paint colors are available; see page 255. Wood worksurface tops or rims on laminate worksurface top, access kneespace panels, desk modesty panels, and bridges are available in veneer finishes only.

Desks and Credenzas

Worksurface tops, pedestal chassis and open or access pedestals are available in veneer. Doors and drawer fronts may be specified in veneer or paint. The rectangular support column for desks has a base and accent, each may be specified alike or in contrasting materials. All wood components for desks with the leg, column disc support, and ellipse base are veneer only.





A **Worksurface Tops** - Veneer

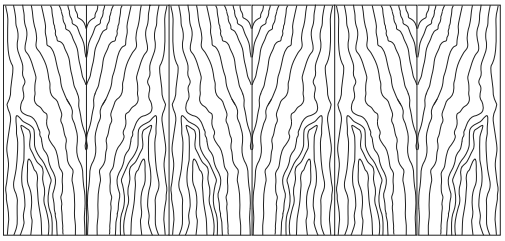
Finale Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Finale product line. To attain a pleasing, symmetrical pattern, all veneers in Finale are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Finale is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

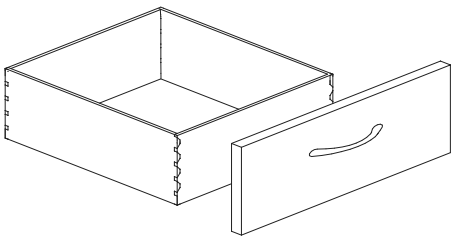
Cherry veneer is the only veneer species available on the NOW! quickship program on select models.

Work Surface Construction
Tops are 5-ply balanced construction, 1 3⁄16″ thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern.

Case Construction
Outside panels are 1 3⁄16″ and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Leveling glides are set into solid hardwood blocks with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110˚ swing hinges to allow adequate access into the interior of the cabinet.

Drawers
The 9ply unidirectional hardwood sides of the drawer box are 7⁄16″ thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1⁄4″ thick fitting into a groove machined the into side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in /out stops. File and box drawers have 100% full extension with over travel.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 380-382.

Locking
All desks, credenzas and returns feature pedestal locking and lateral files feature central locking to provide maximum security and flexibility.

Units are shipped randomly keyed as standard (units in the grouping are keyed alike). Keyed alike units available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Broadway. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy
BRL	Barley	LGC	Legacy *(Legacy Cherry)*
BBN	Bourbon *(Natural Cherry)*	PRL	Praline *(Vintage Cherry)*
BRG	Brighton *(Brighton Cherry)*	SAF	Saffron *(Medium Cherry)*
CLA	Classic *(Classic Cherry)*		

MA1 Maple *Flat Cut Veneer*

ALE	Ale *(Natural Maple)*	FLX	Flax
BUT	Butterscotch	VEN	Venetian *(Dark Mahogany)*
CIN	Cinnamon		

WA1 Walnut *Flat Cut Veneer*

AUB	Auburn *(Windsor Mahogany)*	SIE	Sienna
ESP	Espresso	TOF	Toffee
MCH	Mocha	TRF	Truffle
NTO	Night Owl *(Vintage Walnut)*		

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Finale Product Information

Product Modification

Laminate Tops
Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
Autumn	*Ale*	*Auburn*
Barley	*Cinnamon*	*Mocha*
Bourbon	*Venetian*	*Night Owl*
Brighton		*Sienna*
Classic		*Toffee*
Legacy		*Truffle*
Praline		
Saffron		

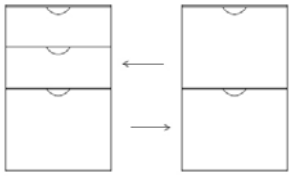
Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

Finish Sheen Modification
Finish sheen can be modified on the work surface tops. There is a 15% upcharge added to the list of each item.

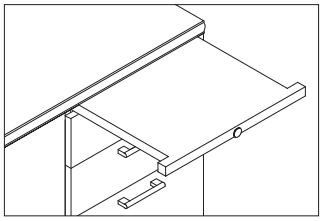
Oak Veneer
Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

Pedestal Configuration Change
Box-box-file configuration is standard on all desks and file-file configuration is standard on all return units.

Finale drawer configuration on pedestals 27″ to 30″ high can be switched out either to a box-box-file or file-file configuration, but must be specified at the time of order and with an additional 5% upcharge to the list price.



Writing Shelf - Pull Out (Arm Slide)
Desk Pedestals in Finale can have an optional pull out shelf above the top drawer for additional writing surface. Add $258 to the list for each pedestal.



Special Sizes from Standard Offering

The following chart contains pricing for general modifications to Finale. **All modifications still must be approved by JSI manufacturing**, please contact Customer Service to verify any of the modifications listed in the chart below. More complex modification to standard product may be possible, please refer to page 3 for additional details.

This chart does not apply to glass doors, glass tops or to metal components; such as modesty trims panels, and structural support. Any changes to file drawers will affect filing capabilities.

Increasing Dimensions - Add On to the list Per 6″ Occurrence

Overhead	
Increasing width	$688
Increasing depth	$1,176
Increasing width with doors	$816
Increasing depth with doors	$1,260
Any Pedestal	
Increasing width	$978
Increasing depth	$872
Any Panel	
Increasing width	$221
Any Top	
Increasing width	$288
Increasing depth	$408

Decreasing Dimensions Add On to the list Per 6″ Occurrence

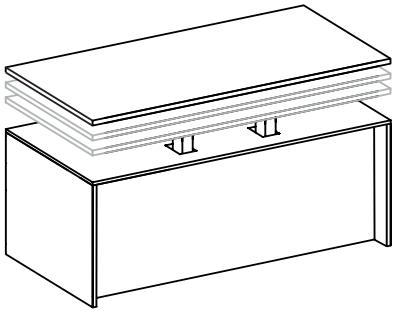
Overhead	
Decreasing width	$224
Decreasing depth	$224
Decreasing width with doors	$308
Decreasing depth with doors	$308
Any Pedestal	
Decreasing width	$978
Decreasing depth	$872
Any Panel	
Decreasing width	$114
Any Top	
Decreasing width	$168
Decreasing depth	$168

Example 1
Increasing open corner credenza width by 11″, from 72″to 83″.
Add Top Width ($288 × 2) [$288 for each 6″ increment]
Add Panel Width ($221 × 2) [$221 for each 6″ increment]
Total Modification = $1018

Example 2
Increasing a desk pedestal depth from 36″ to 40″ & increase the width of the same pedestal by 8″
Add Pedestal Depth $872
Add Pedestal Width ($978× 2) [$978 for each 6″ increment]
Total Modification = $2828

Example 3
Decreasing an overhead from 60″ to 58″ width & increasing the depth by 3″
Decrease Overhead Width $224
Add Overhead Depth $1176
Total Modification = $1400

Finale Product Information



This mechanism requires a signed Liability Wavier prior to time of order specifcation.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Finale.

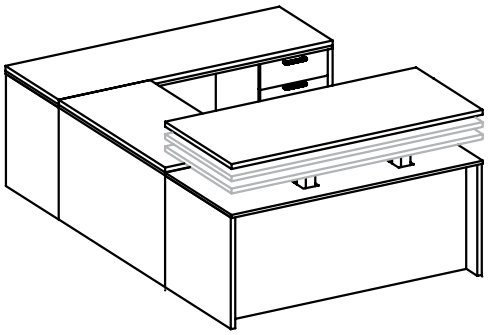
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾" to the standard height of the desk and the installation will decrease kneespace depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a worksurface in an "L" or "U" group, all units in the configuration need to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¼", to a standing height of 49 ¾", a range of 19 ½".

To specify the unit that has the mechanism add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add **ERGO ADJACENT** to the end of the model number.



Example

FN3672LD-ERGO	add $3,100 to list
FN2448EB-ERGO ADJACENT	add $425 to list
FN2472RC-ERGO ADJACENT	add $500 to list

Connecting or Adjacent Units to Match Starting Height

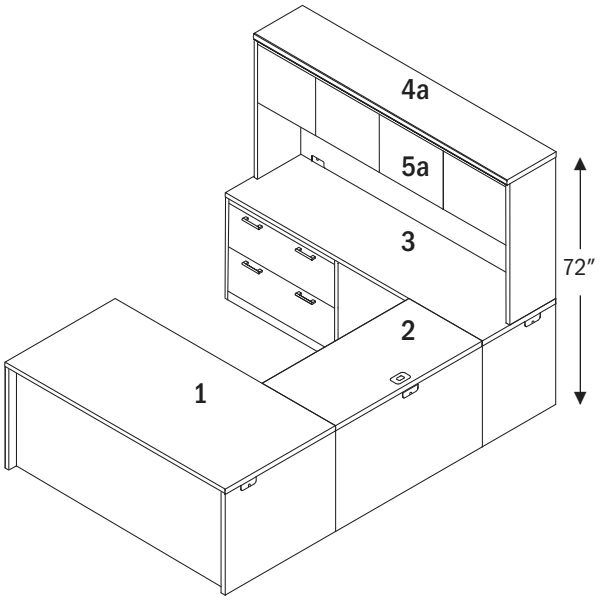
All the units listed above can be specified as connecting or adjacent units. Other Finale units could also be used as connecting units, please contact Customer Service for additional items and pricing. When specifying please add "ERGO ADJACENT" to the end of the model number.

Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $500 to the list price.
Tops 24" x 48" or smaller add $425 to the list price.

Finale Product Information

Layouts

Two heights of storage overheads are available in Finale.



Finale is an easily specified contemporary product line, with standard office furniture sizes.

Easily specified and setup while providing well established layouts in the office environment.

1 **Single Pedestal Desk**, with the standard box, box, file pedestal configuration and side locking. Standard side grommet keeps the desk top clean from wires, while still having convenient wire management.

2 **Bridge** standard with top and back panel grommet and mounting hardware.

3 **Lateral File Credenza** available with fixed back panel.

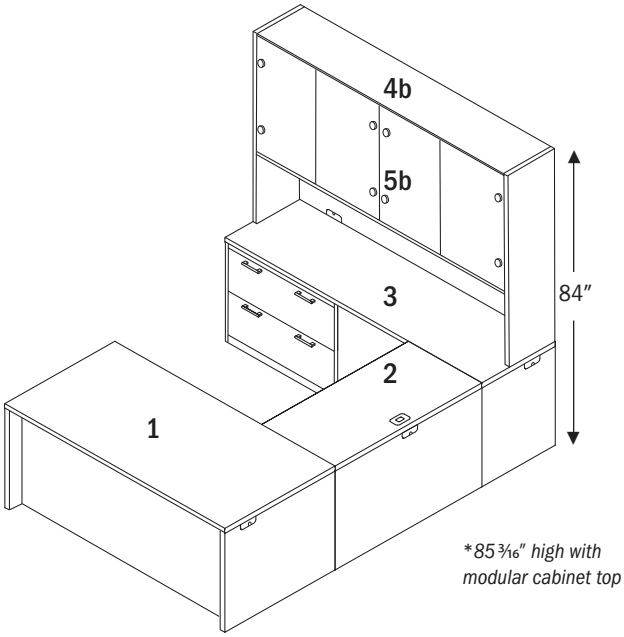
4a **Cabinet Top** is a standard feature on 42″high overhead cabinets.

4b **Modular Cabinet Top** *(not shown in diagram)* is an option on 54″ high overhead cabinet. These tops are ordered separately.

5a **Overhead Cabinet** height is 42″ for an overall height 72″ Standard with left and right grommets on the back panel. Models are available with frameless glass doors in white back painted. *(Locks and pulls are not available with glass doors).* Models with installed cubbies are also available.

5b **Overhead Cabinet** height is 54″ for an overall height 84″ *(add 1 3⁄16″ if specifying modular cabinet tops).* Standard with left and right grommets on the back panel. Shown with frameless white back painted glass doors. *(Locks and pulls are not available with glass doors)* Models are also available in wood doors.

Note: *Tackboard or panels can be ordered for the inside back of the overhead cabinet, along with the accessory rails.*



Frameless opaque glass doors in white back painted brings a nice aesthetic to the Finale product line.

Modular Cabinet Tops
Overhead Cabinets 54″ tall do not come with modular cabinet tops. Tops can be specified and ordered separately. To maintain the same finish height on all units, specify tops for **ALL** adjacent units.

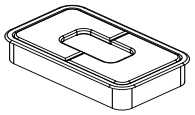
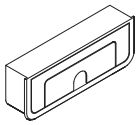
Grommet and Color Options



Worksurface Grommet
Additional worksurface grommets can be specified on desks, credenzas, and other types of veneer/laminate worksurfaces. The grommet location must be approved by JSI manufacturing, contact Customer Service.

Add $75 to the list for each additional grommet.

Grommet color must be specified, select Matte Black or Stardust Silver. Lock cores will match grommet color
Matte Black (MBK)
Stardust Silver (STS)



End/Back Panel Grommet
The end/back panel grommets are standard, for any special consideration contact Customer Service.

Standard Grommets Locations
Finale features grommets and wire pass thru on all of the cabinets. This allows wiring to move from unit to unit or from unit to the data or power data source.

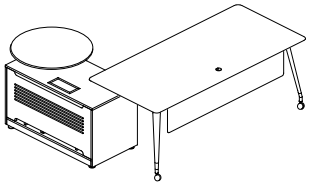
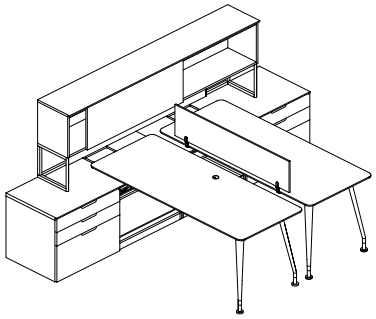
iXY Product Information

Layouts

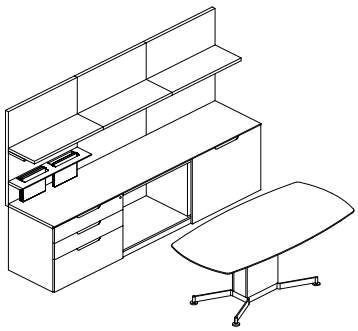
Four popular workstation layouts can be created with iXY.



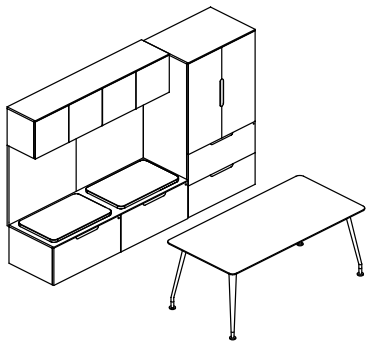
Three Leg Pedestal Supported Pivoting Table Desk with Secondary Height Technology Pedestal



Workstation with Secondary Height Storage and Overhead



Adjustable Height Table Desk with Workwall (wall panel must be wall mounted)



Freestanding Table Desk with Bench Height Storage, Wall Panels, Wall Mounted Storage and Storage Unit with Drawers

1 Table Desk - 29 ¼"h

Offering includes Freestanding, Pedestal Supported Pivoting or Pedestal Supported Fixed Table Desk.

Pedestal Supported Pivoting and Fixed Table Desk must be attached to a pre-configured secondary height pedestal or credenza.

The layout selected will determine the type of desk required.

See page 452 for explanation

2 Secondary Height Storage - 25 ¾"h

Secondary Height Storage is offered in both pre-configured (25 ¾"h) and modular type units (25"h).

Secondary Height Storage is required when using pedestal supported pivoting or fixed table desks. Spindle Plate is used to attach to a pre-configured pedestal or credenza.

Pre-configured Technology pedestals and credenzas are available with or without adjustable height worksurface. The Cantilevered or Flush worksurfaces adjusts from 29 ¾"- 42 ¼". These units also come standard with surface power, pull-out power and ventilated removable back panel.

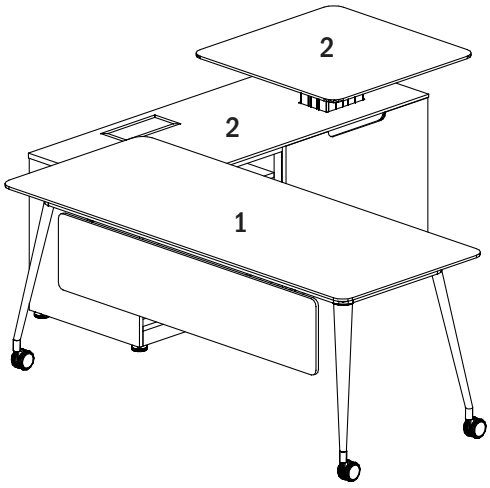
See page 458 for explanation

3 Primary Height Storage - 29 ¼"h

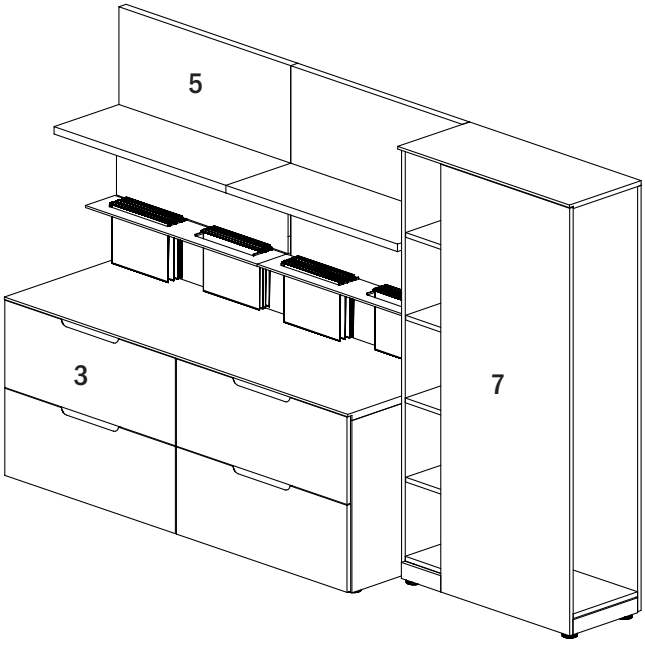
Primary Height Storage is offered in both pre-configured (29 ¼"h) and modular type units (28"h).

4 Bench Height Storage - 17¾"h

Bench Height Storage features lateral filing and seat cushions.



iXY Product Information



5 Workwall

Various wall panel types can be specified to be used with Secondary, Primary and Bench height storage to create a workwall.

Wall panels are offered in wood with tackboard or glass markerboard options.

See page 456 for explanation

6 Overhead Storage

Overheads can be freestanding or wall mounted depending on the application.

Overall height of overhead is determined by type of storage it sits on; either Secondary or Primary Height.

See page 459 for explanation

7 Storage Towers and Wardrobes

These components are available in various heights providing additional storage to the workstation.

See page 461 for explanation

8 Power & Technology

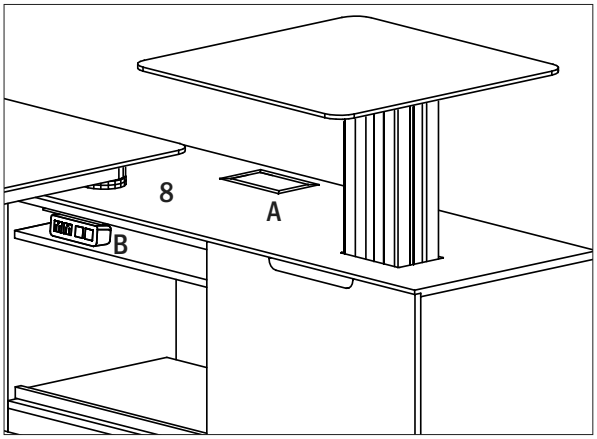
Power & Technology is standard in the Secondary Height Storage with Technology Units.

A. Byrne Ellora includes: (2) power outlets, 72” cord, (1) USB 2-Port Simplex Charger, (1) Passive USB-A, 3.0 with 72”w Cable.

B. Byrne Assemble Reveal includes: (2) power outlets, 72” cord, (1) USB-2 Port Simplex Charger, (1) Passive USB-A, 3.0 with 72” Cable.

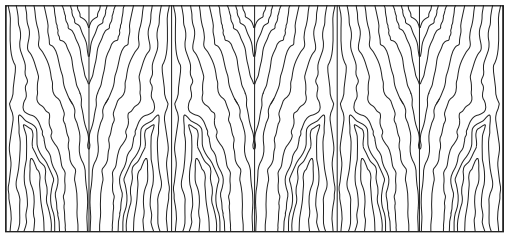
9 Additional Features

Mobile Pedestal, Privacy Screens and Modesty Panels can enhance the workstation.



iXY Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the iXY product line. To attain a pleasing, symmetrical pattern, all veneers in iXY are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

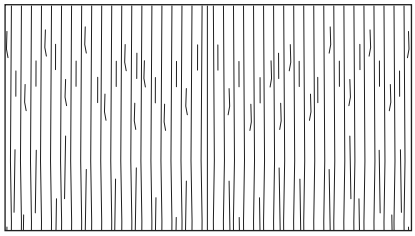


Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book. The diagram above shows book-matched flat cut veneer.

iXY is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on iXY product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on iXY.



Solid painted finishes on MDF are also offered to provide an accent to the iXY product.

Table Frames
Die-cast aluminum corners with receivers for table rails and legs, attached to underside of the top. Table rails are extruded aluminum with allowance for optional features. Legs, die-cast aluminum with wire cavity and clip features to secure the wires. Glide has approximately 1″ of adjustment and shroud ring to conceal threads.

Veneer Table Tops
Tops are 1¼″ thick 3 ply with MDF core. Edges on table tops are undercut bevel with the ⅜″ flat having a 1.5 mm matching self rim. Tops are secured with core fastening screws to the table rails. Two inch radius corners are on top shapes.

Secondary Height Case Tops
Tops are ¾″ thick, 3 ply construction with a solid lumber band on user side and 1.5 mm veneer tape. Tops are securely fastened with screws through the pedestal stretcher and metal connecting plates.

Primary Height Case Tops
Tops are 1 3⁄16″ thick, 3 ply construction with a solid lumber band on user side and 1.5 mm veneer tape. Tops are securely fastened with screws through the pedestal stretcher and metal connecting plates.

Table with Glass Tops
Tops can be either clear or back painted opaque where applicable. Glass is 10 mm thick with a 1⁄32″ bevel on both the top and bottom edges. Glass is low iron and tempered for safety. A series of small pucks are attached to the underside with an adhesive. These pucks then rest on the table rails.

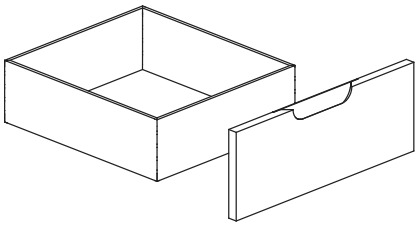
Modesty Panels
Table desks with apron rails may be specified with a partial modesty panel. The back side of the apron rail has a groove in which the custom bracket along with two set screws secure the modesty panel place. Refer to the chart for the pricing that coordinates with each table size. See page 461.

Case Construction
Cases are constructed with a combination of mortise-tenon and dowels to secure joints of the case. Panels are ¾″ thick 3 ply construction. Reinforced metal corner braces secure corners and house the leveler.

Back of cases can be fixed ¾″ thick stationary or ¼″ thick removable. (Check individual items specification listing) Backs of cases are always finished.

Glides have a full adjustment 1½″ to allow for proper leveling.

Drawers
Standard V-fold drawer interior is a ½″ durable, miter-fold drawer system. The four sided box is mitered, glued and doweled with an attached front. The drawer front is veneer rimmed MDF core and is attached to the four sided box. Routed bevel pull creates a self pull. Prism pull is available as an option



Drawer Suspension
High quality black drawer suspension carries a lifetime warranty. Ball bearing provide a smooth effortless access to the drawers. All drawers have soft close feature with the exception of lateral files. File drawers have provisions for legal and letter filing. Lateral file drawers have reinforced bottoms.

Locking
All drawers have locks as standard. The locks are pedestal locking, located in the upper right corner of the top drawer. Locks are optional on most door compartments.

Units are shipped randomly keyed as standard (units in the grouping are keyed alike). Keyed alike units available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Doors
Hinge doors have a 110° swing with the soft close feature.

Sliding doors have a single pass hidden roller wheel with guide tracks. Locking is not available on sliding door units.

Overheads can be ordered with the optional back painted glass doors in a thin profile aluminum frame. Locks are not available on glass doors.

iXY Product Information

Overhead Risers
Fabricated tubing flush welded for structure. Risers are field attached to the underside of the overhead cabinet. Optional tackboards are snap into place onto the upright of the riser. Available colors: Arctic Silver and Bright White.

Wall Mounted Overhead
Cabinets are mounted with reverse style cleats. The cleats are factory installed on the cabinet. Attachment wall cleat and hardware is the responsibility of installer. (See instructions for further details.)

Adjustable Height Worksurface
Single lift column adjust worksurface up to 42¼" height. Control is flush mounted into the top of pedestal. Control for the Table Desk can be mounted either left or right of the top's center. Aluminum profile housing encloses the UL® certified driver and mechanism.

Technology Pedestals
Standard with two electrical and data units, (first unit is flush on the top and second unit is mounted inside the unit; pulls out for use). Both units are configured with two power outlets, one USB 2-Port Simplex Charger, one Passive USB-A, 3.0 with 72" cable. Other configurations are available upon request, see the accessory section, pages 457, 640-641.

On select models a technology drawer is available, this feature allows for most lap top computers and/or their docking station to fit into the pull out drawer. This feature replaces the second box drawer.

Magnetic Privacy Panels
Privacy panels are available on rectangular table desks with veneer tops. These fabric covered panels are magnetic on both sides. The panel core is made up of furniture grade plywood with 28 gauge steel on each side. Upholstered in a textile of choice, some textiles with heavy textures or fibers are not recommended. The casted shaped bracket follows the edge shape. The bracket is mounted with wood screws to the underside of the top and panel is secured inside the fork of the bracket with set screws.

Pull-Out Shelf
Equipment can easily be accessed by specifying the pull out shelf option. This shelf is always located at the bottom of the cabinet and has a front stop rail incorporated as part of the shelf. The slide extensions are undermounts to provide a clean appearance.

Kneespace Access Panels
The kneespace access panel sits between modular units to provide a finished interior back panel between two other modular units. Flat metal brackets are attached to back side of the units to extend into the opening. Powerful earth magnets are embedded into the back of the panels to cling to the extended metal flat brackets. The panel is outfitted with adjustable glides to aid in leveling. The magnets allow the panel to be removed to access the wall and wiring.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on iXY. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

iXY Product Information

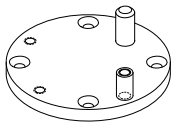
Spindle Plates

Fixed or Pivoting Table Desks supported by Secondary Height Storage require the spindle plate or plates option when ordering the storage unit.

Note: Left desk will attach to a Secondary Height Storage Unit with spindle plates located on the left of the unit. A right table desk will attach to a Secondary Height Storage Unit with spindle plates located on the right of the unit.



Universal Spindle Plate
Spindle plate takes the place of the table leg(s) on fixed or pivoting tables. The plate is mounted onto the supporting pedestal. The table's integrated corner sits onto the spindle plate.

iXY Product Information

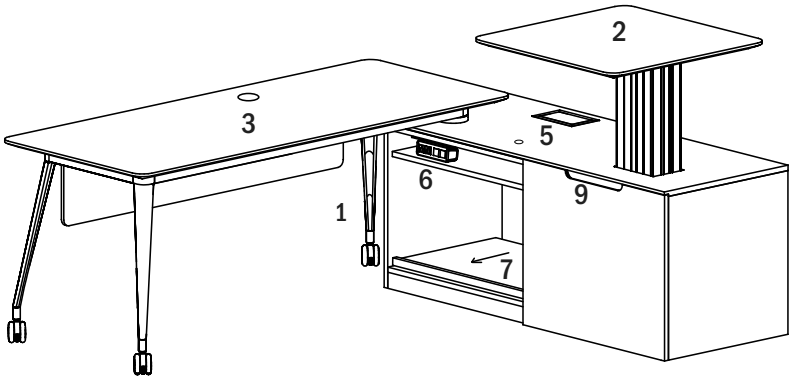
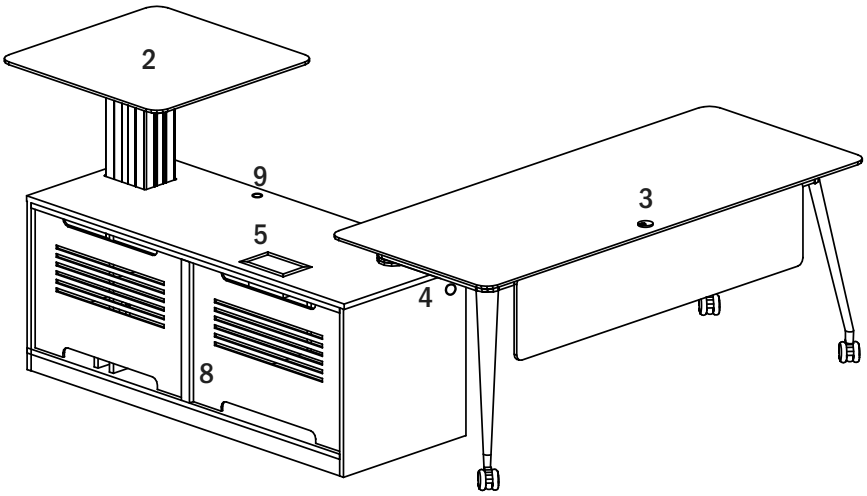
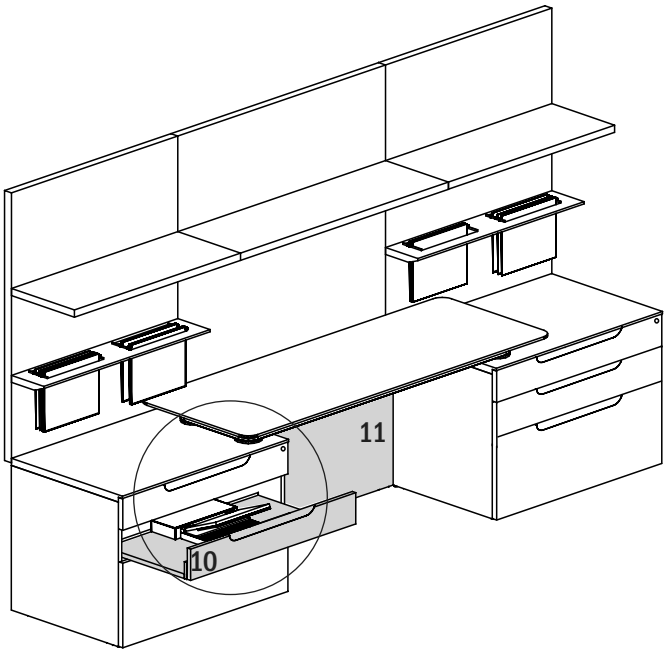
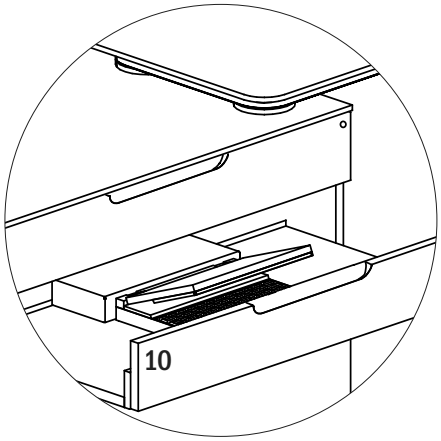
Power and Technology Features





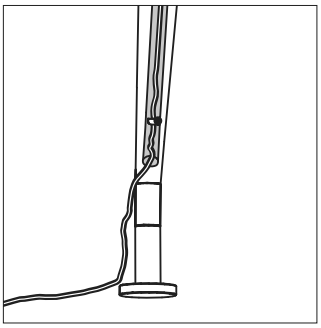




iXY Product Information

1 Wire Extrusion Channel

Leg cavity allows wiring to be routed along the inside of the leg to the floor.

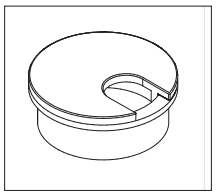


2 Adjustable Height Worksurface

Secondary Height Storage with Technology Pedestals may have a motorized adjustable height worksurface that ranges from 29¾" to 42¼"h.

3 Top Grommet

Matte Nickel grommet, optional on Table Desk.

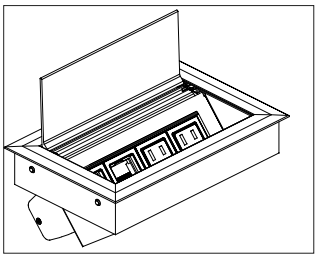


4 End Panel Grommet Sleeve

End panel grommet sleeve is standard on Technology Pedestal with Open Compartment when Spindle Location LS1 or RS1 is specified.

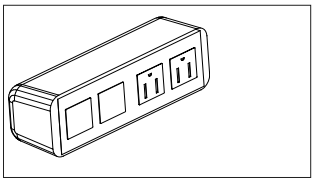
5 Surface Power Unit

(2) Power Outlets, 72" cord,
(1) USB 2-Port Simplex Charger,
(1) Passive USB-A, 3.0 with 72" Cable



11 Pull-Out Power Unit

(2) Power Outlets, 72" cord,
(1) USB 2-Port Simplex Charger,
(1) Passive USB-A, 3.0 with 72" Cable

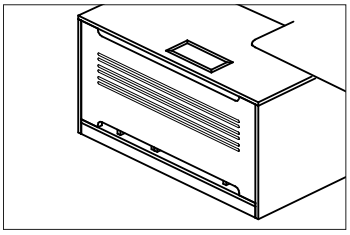


7 Pull-Out Equipment Tray

Pull-Out Equipment Tray is optional on 60", 72" and 90"w Secondary Height Technology Units with an Open Compartment.

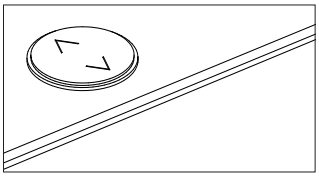
8 Ventilated Removable Back Panel

Ventilated Removable Back Panel is standard on all Secondary Height Technology Units.



9 Control Button

The secondary adjustable height has a surface mounted control button to move the worksurface from 29¾" to 42¼"h.



10 Utility/Technology/File

Utility/Technology/File is optional on the Secondary Height Storage with Technology and Drawers.

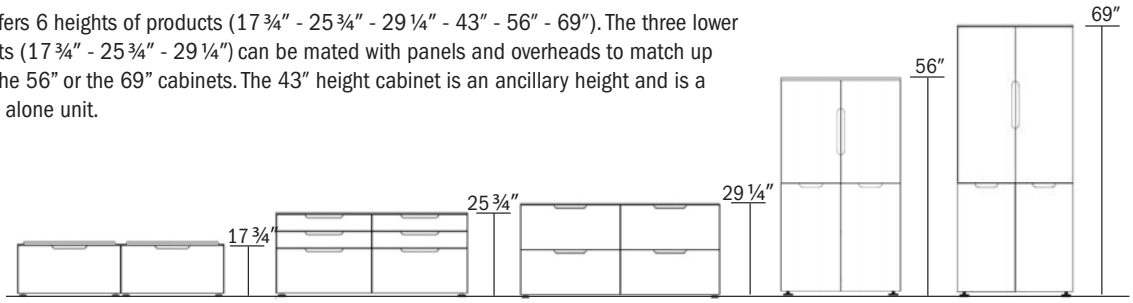
11 Removable Modesty Panel

Removable Modesty Panel may be used with Secondary or Primary Height Storage. Gap along the top of the panel allows for wire management. Magnetic attachment provides easy removal for access to the wall.

iXY Product Information

Matching Overall Heights

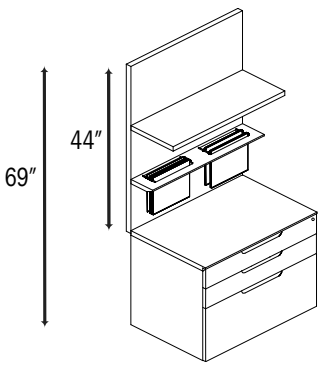
iXY offers 6 heights of products (17 ¾" - 25 ¾" - 29 ¼" - 43" - 56" - 69"). The three lower heights (17 ¾" - 25 ¾" - 29 ¼") can be mated with panels and overheads to match up with the 56" or the 69" cabinets. The 43" height cabinet is an ancillary height and is a stand alone unit.

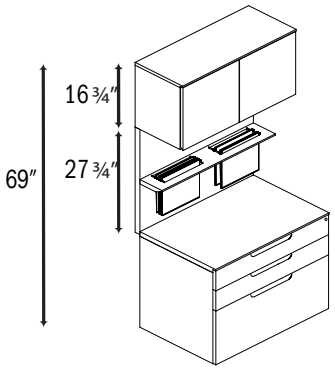


Workwalls

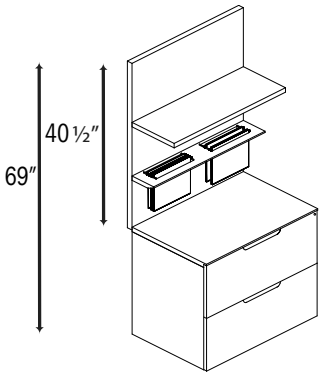
Various Wall Panel types can be specified to be used with Secondary, Primary and Bench Height Storage to create a Workwall. Shorter Wall Panels must be specified when using overhead units. Wall Panels are offered in wood with tackboard or glass markerboard options.

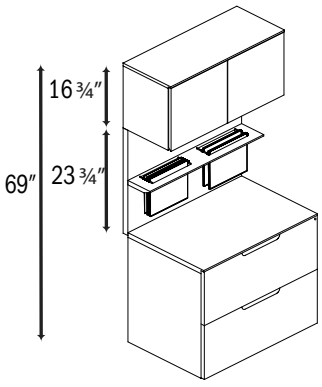
Secondary Height Wall Panel - used with Secondary Height Storage.



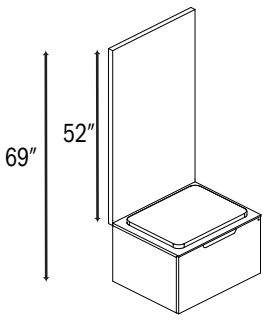


Primary Height Wall Panel - used with Primary Height Storage.





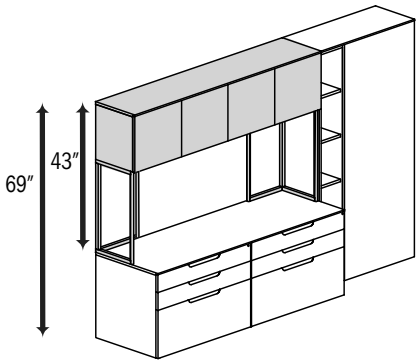
Bench Height Wall Panel - used with Bench Height Storage.



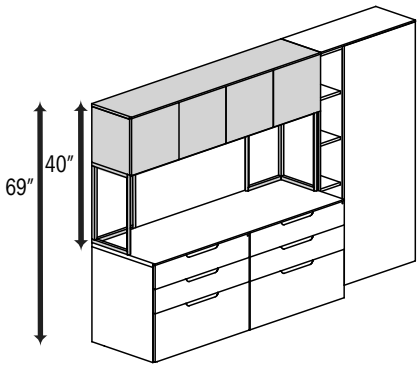
iXY Product Information

Riser Supported Overheads and Shelves

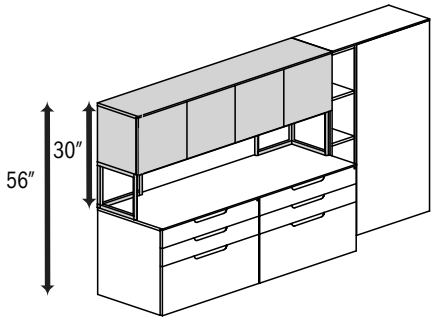
Riser supported overheads and shelves are available in three different heights; 43″, 40″ and 30″



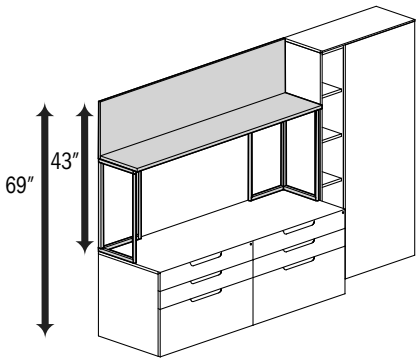
43″h Overhead or Shelf
use with secondary height storage to align with 69″h storage towers

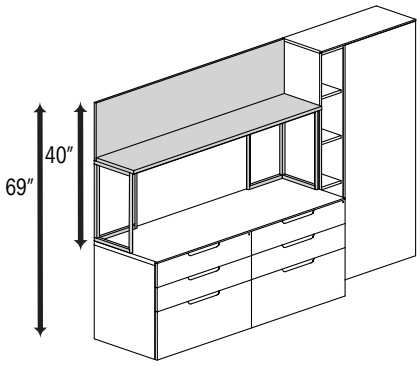


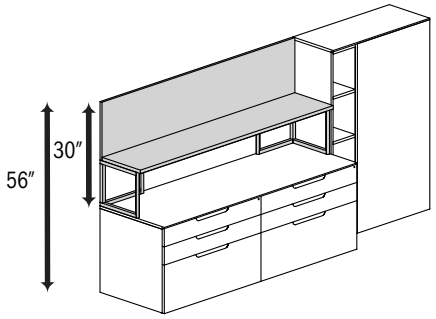
40″h Overhead or Shelf
use with primary height storage to align with 69″h storage towers



30″h Overhead or Shelf
use with secondary height storage to align with 56″h storage towers



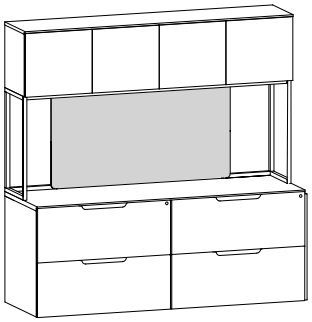




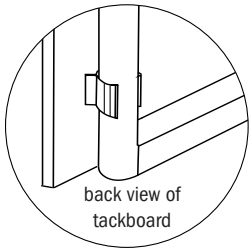
Note: 90″ wide overheads and shelves have a center support rail when ordering a tackboard.

Tackboards

60″, 66″, 72″ and 90″wide overheads and shelves with risers can be ordered with an optional tackboard.



Note: tackboards are inset 12″ on each side.

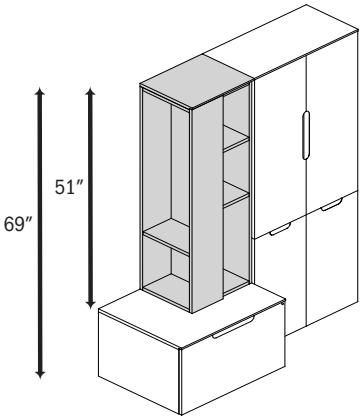


Tackboard clips onto risers for ease of installation.

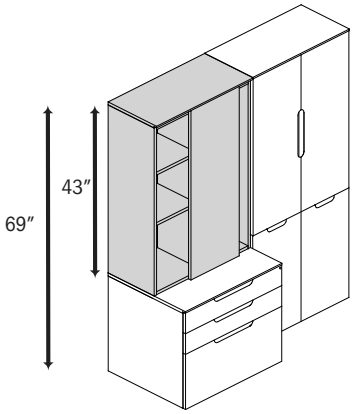
iXY Product Information

Worksurface Storage Towers

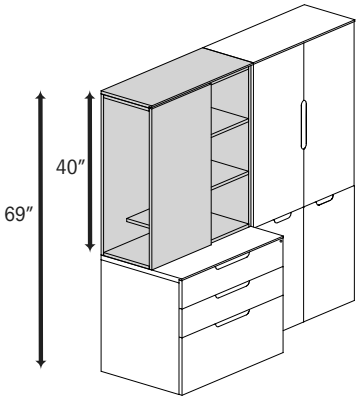
Storage Towers are available in three heights; 51″, 43″and 40″.



51”h Worksurface Storage Tower
shown with 18”w side entry wardrobe with open shelf use with bench height storage



43”h Worksurface Storage Tower
shown with single sliding door use with secondary height storage



40”h Worksurface Storage Tower

iXY Product Information

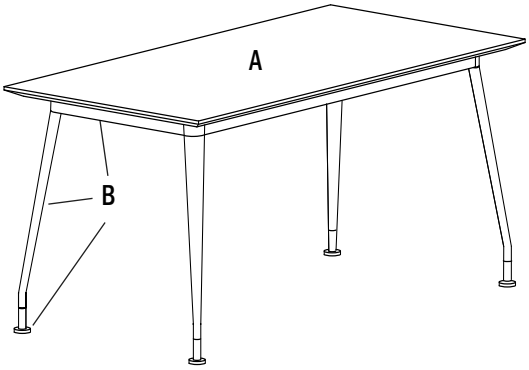
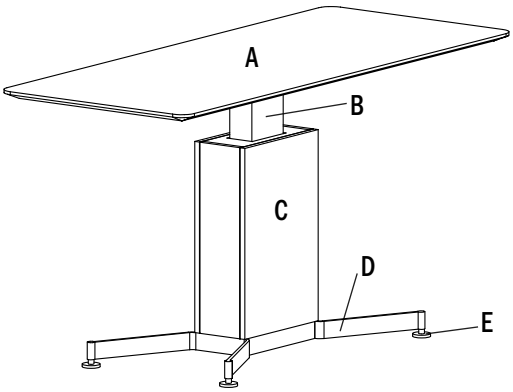
Finish Features and Options

Table Desks



A **Worksurface**
Veneer
Clear Glass
Back Painted Glass in Bright White
(note: glass not available in all configurations)

B **Frame**
Scheme 1
Legs & Apron Rails - Arctic Silver
Glides - Arctic Silver
Scheme 2
Legs & Apron Rails - Bright White
Glides - Arctic Silver
Scheme 3
Legs - Polish Aluminum
Apron Rails - Bright Aluminum
Glides - Chrome



A **Worksurface** - Veneer

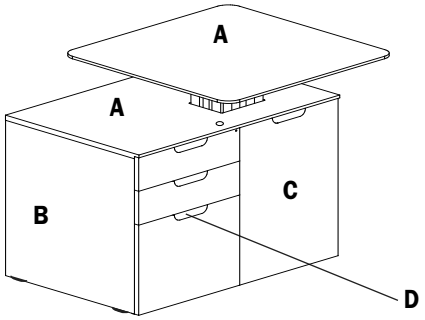
B **Lift** - Anodized Aluminum

C **Chassis** - Veneer or Paint

D **Legs/Base** - Arctic Silver or Bright White

E **Glides** - Arctic Silver

Cabinets - Overheads

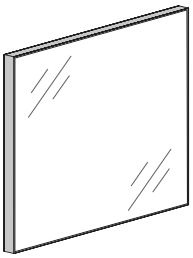


A **Worksurface** - Veneer

B **Chassis** - Veneer

C **Door and Drawer Fronts** - Veneer or Paint

D **Recessed Pull Back Plate** - Arctic Silver or Bright White
(note prism pull is available in matte nickel or chrome)



Glass Doors on Overhead Cabinets and Magnetic Markerboard

Doors and markerboards have a thin aluminum profile...low iron glass is back painted in Bright White. Markerboards have a metal plate that adheres to the back side of the glass.

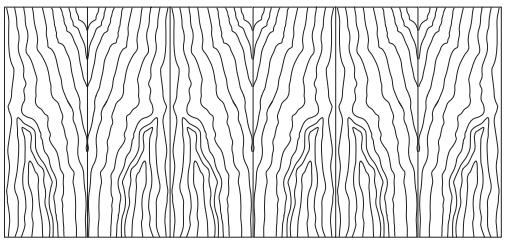
Shuffle Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Shuffle product line. To attain a pleasing, symmetrical pattern, all veneers in Shuffle are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Shuffle is available in plain sliced cherry veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

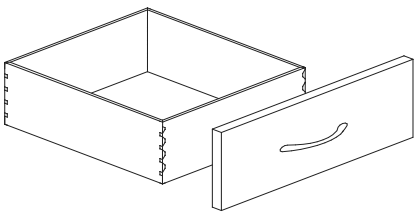
Work Surface Construction
Tops are 5-ply balanced construction, 1 3⁄16" thick with solid matching hardwood edges.

Matching or coordinating high pressure laminate in a veneer grain pattern can be applied to the top surface and is available at no additional charge.

Case Construction
Outside panels are 13⁄16" ▲ and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets, and glue. Leveling glides are set into solid hardwood blocks with t-nut inserts, which helps to prevent the leveling gilde from tear outs. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110˚ swing hinges to allow adequate access into the interior of the cabinet.

Drawers
The 9ply unidirectional hardwood sides of the drawer box are 7⁄16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is ¼" thick fitting into a groove machined the into side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 588-590.

Locking
All desks, lateral files and free standing credenzas feature pedestal locking. Returns and single pedestal credenzas feature pedestal locking to provide maximum security and flexibility.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Shuffle. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy
BRL	Barley	LGC	Legacy *(Legacy Cherry)*
BBN	Bourbon *(Natural Cherry)*	PRL	Praline *(Vintage Cherry)*
BRG	Brighton *(Brighton Cherry)*	SAF	Saffron *(Medium Cherry)*
CLA	Classic *(Classic Cherry)*		

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Product Modification

Laminate Tops
Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes
Autumn
Barley
Bourbon
Brighton
Classic
Legacy
Praline
Saffron

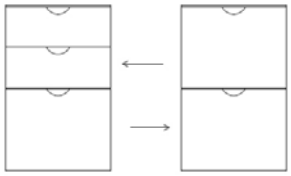
Special Finishes
Special finishes can be requested by following the instructions in the general introduction section, page 3. There is a one time charge of $275 list per order.

Finish Sheen Modification
Finish sheen can be modified on the worksurface tops. There is a 15% upcharge added to the list of each item.

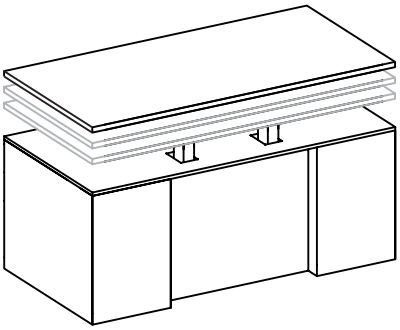
Oak Veneer
Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

Pedestal Configuration Change
Desks have one box/box/file pedestal. The double pedestal has a file/file on the right side. Returns and credenzas are configured with file/file pedestals.

Shuffle drawer configuration on pedestals 28½" to 30" high can be switched out either to a box-box-file or file-file configuration, but must be specified at the time of order and with an additional 5% upcharge to the list price.



Shuffle Product Information



This mechanism requires a signed Liability Wavier prior to time of order specification.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Shuffle.

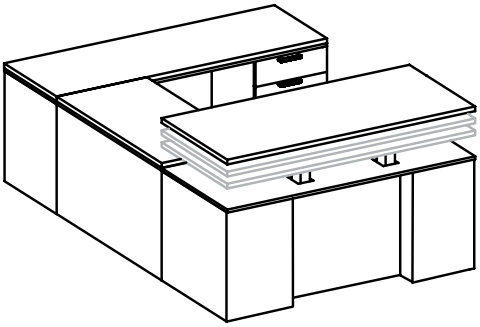
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge, or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾" to the standard height of the desk and the installation will decrease knee space depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a worksurface in an "L" or "U" group, all units in the configuration need to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¼", to a standing height of 49 ¾", a range of 19 ½".

To specify the unit that has the mechanism, add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add, **ERGO ADJACENT** to the end of the model number.



Example

SH3672LD-ERGO	add $3,100 to list

Connecting or Adjacent Units to Match Starting Height

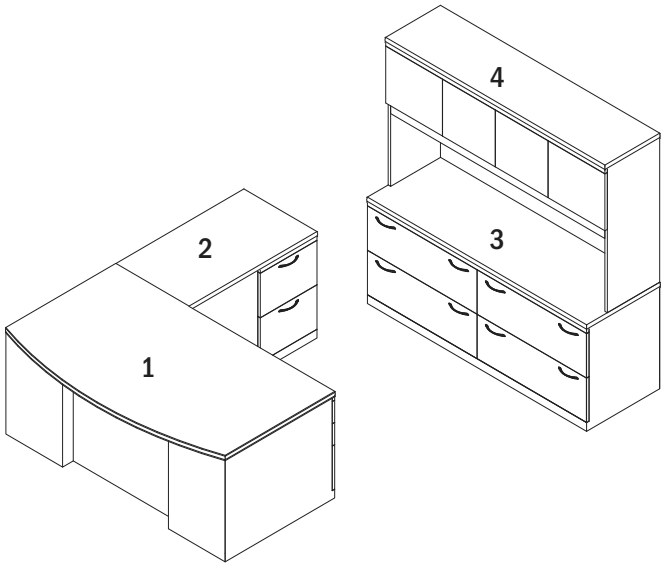
All the units listed above can be specified as connecting or adjacent units. Other Shuffle units could also be used as connecting units. Please contact Customer Service for additional items and pricing. When specifying, please add "ERGO ADJACENT" to the end of the model number.

Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $500 to the list price.
Tops 24" x 48" or smaller add $425 to the list price.

Shuffle Product Information

Layouts

Typical layouts are available in Shuffle



Layouts

1 Break front desks are standard in Shuffle with optional center modesty panel.

2 Returns can be specified in multiple widths and are standard with file/file pedestal configuration.

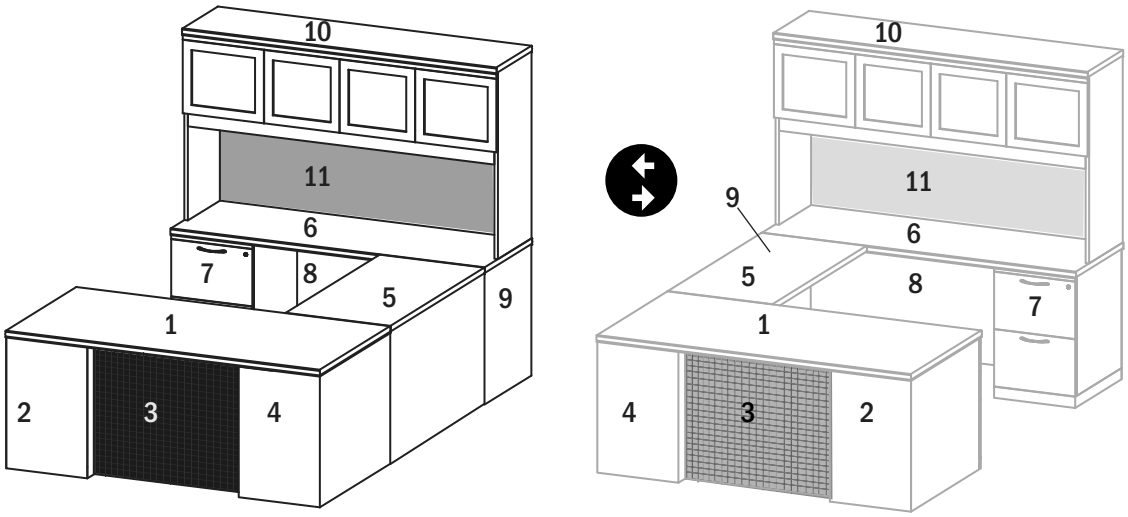
3 Shuffle offers a variety of different storage credenzas.

4 Overhead storage offered in 1 height and 4 door treatments.
- wood doors
- wood frame doors with clear glass
- wood frame doors with frosted glass
- aluminum frame doors with frosted glass

Tackboards and tackboards with accessory rails can also be specified for the overhead storage cabinets.

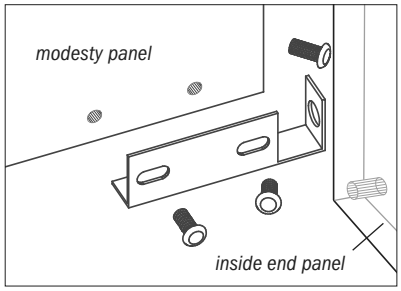
Modularity

Shuffle's modular construction allows right handed layouts to be reconfigured to left hand layouts without the requirement of additional components.



Build a right layout or a left layout with this same product list.

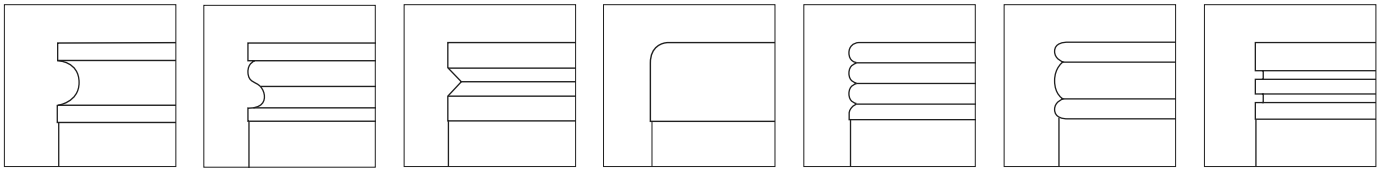
1	SH3672MCT	Modular Desk Top
2	SH1836MBF	Modular Desk Pedestal - Box/Box/File
3	SH2835MBPB	Modular Perforated Modesty Panel - Black
4	SH1836WEA	Modular Wing End Assembly *(flip over for right or left)*
5	SH2442EB	Executive Height Bridge
6	SH2472MCT	Modular Credenza Top
7	SH1824MFF	Modular Credenza Pedestal - File/File
8	SH2852MB	Modular Back Panel
9	SH24EP	Modular End Panel *(flip over hardware for left or right)*
10	SH1872CGO	Overhead Cabinet - Clear Glass Doors
11	SH72TK	Tackboard



Pre-installed threaded inserts and simple connecting hardware makes it easy to assembly and reconfigure shuffle modular components. Instructions are included for assembly.

Shuffle Product Information

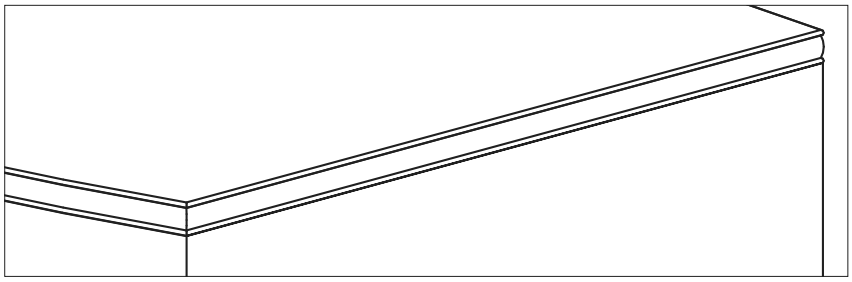
Top Edge Details



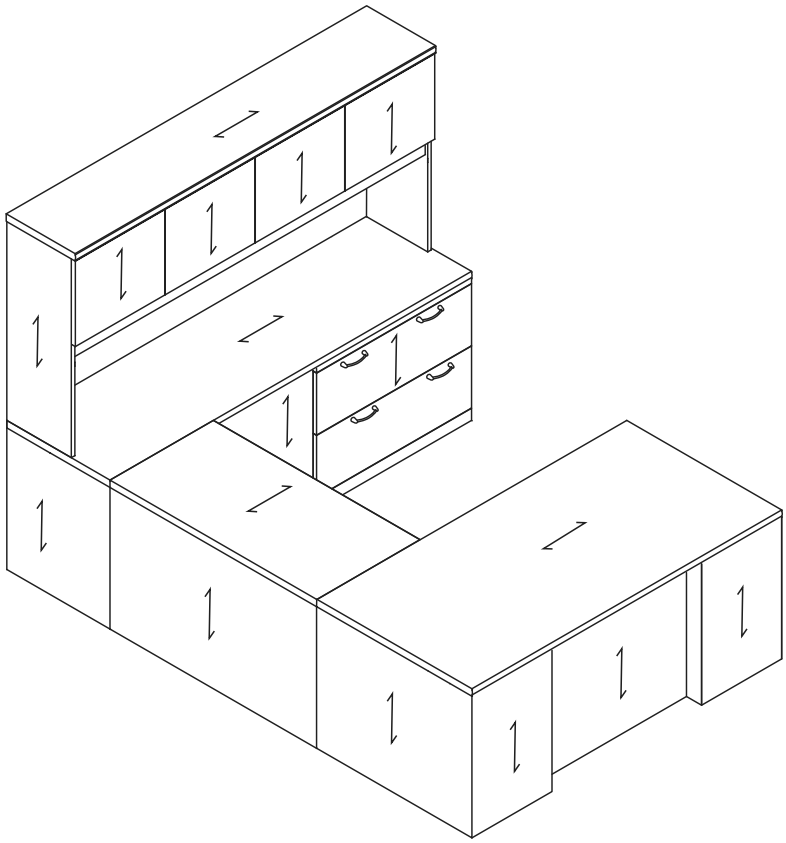
Concave (O) | Crown (Q) | Diamond (T) | Eased (R) | Reeded (H) | Transitional (C) | Triad (F)

Top Edge Detail Location

Top edge detail on worksurfaces runs the entire perimeter, approach, user sides, and ends.



Standard Grain Direction



Notes:
Grain direction on return and bridge units run short grain.

Grain on valance rails on overhead cabinets run vertical.

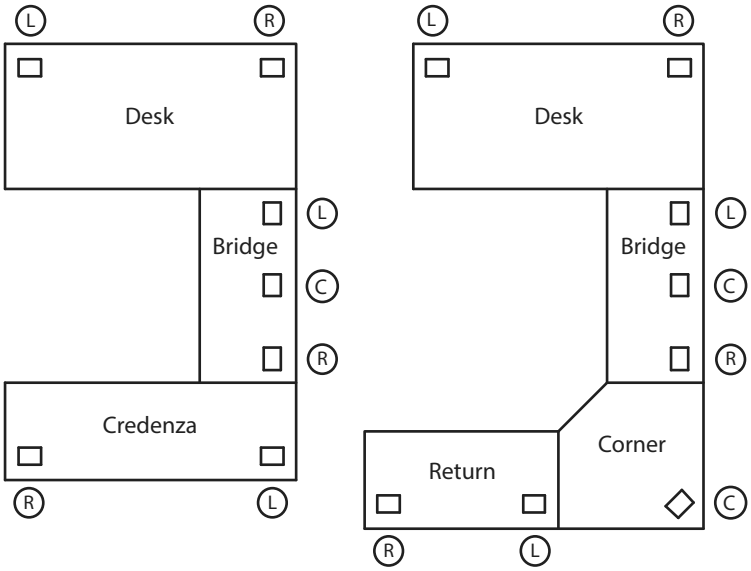
- connects to standard phone cord

To Order, Specify:
❶ Model Number

Standard casegoods cut out locations:



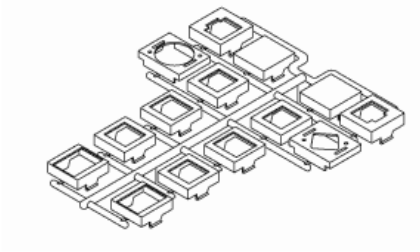
- Specify - Location when ordering on desk, return, computer corner, bridge and credenza - please provide drawing.
- Computer corner units - power/data replaces grommet.
- Standard power and data unit locations are indicated from user side of desk, return, computer corner bridge or credenza.

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice

Data Adapter Applications

Data adapter kits ship with each power and data unit.

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.



NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.

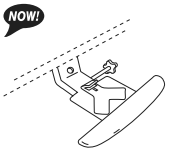
- shuts off after 30 minutes of inactivity
- connects to end of light fixture (adds 3″ to length of fixture)
- one sensor controls starter and connected adders

To Order, Specify:
❶ Model number

When ordering Quickship products, place a "Q" in front of model number.
Example: QAK1

Need it. NOW! JSI Quickship

Description	D	W	H	CTN WT	CU FT	❶ Model	List Price
Keyboard Clamp with Wrist Rest	10 1/2	20 1/2	3	4		**AK1**	**$401**

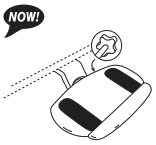


- clamps hold keyboard in place
- single soft touch knob provides clamping adjustment for both height and tilt
- compatible with MT1 Clamp Mouse Pad only

Keyboard Clamp Mouse Pad	8	8	1/4	4		**MT1**	**$144**

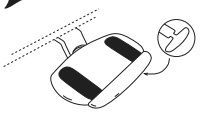
- adjusts for user comfort
- 8″ x 8″
- for left or right hand operation
- compatible with AK1 Keyboard Clamp only

Articulating Keyboard Tray	11	23	3	11		**AK2**	**$423**



- single soft touch knob provides clamping adjustment for both height and tilt
- platform has injection molded construction with non skid pads to prevent keyboard movement
- compatible with MT2 Mouse Pad

Articulating Keyboard Tray	11	23	3	11		**AK3**	**$469**



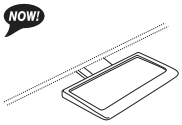
- one touch spring assist adjustable mechanism with 18″ track
- platform has injection molded construction with non skid pads to prevent keyboard movement
- compatible with MT2 Mouse Pad

Keyboard Tray Mouse Pad	8	8	1/4	2		**MT2**	**$144**

- adjusts for user comfort
- 8″ x 8″
- for left or right hand operation
- compatible with AK2 and AK3 Keyboard Tray

Specification information shown at right.

Description	D	W	H	CTN WT	CU FT	❶ Model	List Price
Keyboard Drawer	14	22 1/2	3 1/2	9		**AK4**	**$502**

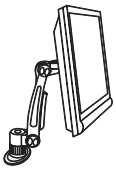


- for use with 48″ return
- requires a minimum of 24″ clearance side to side
- one touch spring assist adjustable mechanism with 18″ track
- compatible with MT4 Mouse Pad only
- wood tray requires finish selection; see component finishes for selection

Keyboard Tray Mouse Pad	8	8	1/4	2		**MT4**	**$144**

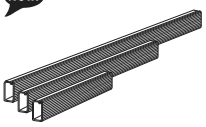
- adjusts for user comfort
- 8″ x 8″
- for left or right hand operation
- compatible with AK4 Keyboard Drawer only

Monitor Support Arm	12	6	17	9		**AMA3B**	**$441**



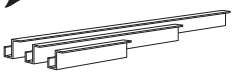
- 360 degree swivel
- adjusts height, tilt and distance of monitor screen to user
- integrated cable management
- grommet and edge clamp mount included
- black finish
- monitor not included
- will fit monitors made to the VESA standard of 75 mm or 100 mm hole spacing in a square configuration

Wire Management Channel	1/2	36	1	4		**36WC**	**$51**
	1/2	24	1	3		**24WC**	**$46**
	1/2	12	1	2		**12WC**	**$40**



- available in 12″, 24″ and 36″ increments
- field installed with adhesive tape provided

Wire Management Trough	2 1/2	36	2 1/2	3		**36WCT**	**$102**
	2 1/2	24	2 1/2	3		**24WCT**	**$93**
	2 1/2	12	2 1/2	2		**12WCT**	**$79**



- available in 12″, 24″ and 36″ increments
- field installed with screws provided

Environmental Mission

Our vision and goal is a sustaining supplier, manufacturer and customer for the long term protection and preservation of our environment for future generations.

MISSION

To achieve this vision, we are dedicated to ensuring the health and wellbeing of all of our partners, reducing negative impact on the environment, and maintaining price structure by increasing efficiencies and reducing consumption.

The Jasper Group family of brands, including JSI, is an international manufacturer that has been an environmentally conscious organization for more than 80 years.

We are proud to use wood as our primary sustainable material resource and all corporate policies and procedures support the efforts to "recover, recycle, reuse, repurpose, reduce, refuse, and re-engineer" In doing this, we are committed to the conservation of the environment and its natural resources as well as encouraging our suppliers and customers to do the same. A goal of a "Sustainable Partnership" supplier, manufacturer and customer, is essential for the long term protection preservation and sustainability of our environment for future generations.

LOCATION

Our manufacturing facilities are located in Southern Indiana. With our diverse product offering and manufacturing capabilities, we provide a single source for all of your project needs allowing you to conserve our fossil fuels and reduce greenhouse gases.

PACKAGING

We place emphasis on the minimal use of disposable packaging while still providing adequate protection to the finished product. Our corrugated packaging is recyclable, reusable, and up to 100% recycled content. We reuse or recycle more than 125 tons of corrugated material annually.

REGULATORY

All of our manufacturing facilities are in compliance with applicable OSHA regulations and meet or exceed all applicable DEM and EPA regulations for air emissions, storm water and hazardous waste disposal.

MANUFACTURING FACILITIES

Our manufacturing facilities are geared toward eco-efficiency and are encouraged to continually improve and conserve. Solid wood not used in the direct manufacturing process is recovered for the operation of our dry kilns, thus reducing greenhouse gases, the use of fossil fuels, and the burden of waste placed on landfills. Composite panels not used in the direct manufacturing process are ground and sold for use as animal bedding. In addition to other energy savings techniques, our manufacturing facilities use high efficient lighting, make use of power factor capacitors, and encourage all to conserve and reduce energy consumption and water usage. Condensation pumps are used to aid in water conservation as well as extending boiler life.

MANUFACTURING PROCESSES

Our finish processes utilize efficient spray guns and proper spray techniques to reduce wasted material. Excess finish material, solvents, and waste are recycled. Many of the assembly processes use water based glues that contain no hazardous ingredients.

TEXTILES

Many of our fabric options utilize up to 100% recycled content. Our leather alternative program includes selections that contain no toxic materials, plasticizers, heavy metals, or formaldehyde and have a 100% biodegradable back cloth. Some of the available panel fabric used, if discarded is a biological nutrient for the soil. Most of the components (foam, batting, and polycord) used in upholstered products are recyclable and contain various percentages of recycled content. Excess fabrics and leathers not utilized in the upholstery process go to recyclers and local charities for additional use.

WOOD

Wood is the most diverse, most process friendly, and most widely utilized natural resource in mankind's history. No other natural resource can match the environmental advantages of wood, including being renewable, recyclable, natural, carbon negative, and biodegradable. Utilizing the sun's energy, trees grow and remove carbon dioxide from the air while giving off oxygen to benefit the entire planet. Approximately 49% of wood's dry weight is carbon and harvesting mature trees in a sustainable forest, which has slowed in the absorption of carbon dioxide, allows the photosynthetic cycle to continue at full optimization and allow for the carbon to remain sequestered. We are proud to use wood as our primary "sustainable" renewable resource.

WOOD OPTIONS

Many environmentally friendly solid wood and engineered wood options are available for quote, including: Lyptus®, Plyboo®, reclaimed woods, agricultural and post-consumer waste fiber products, soy-based resin bio-composites, etc.

INDOOR AIR QUALITY

Our goal is to reduce the impact our products will have on the indoor air quality. We practice the latest technologies and utilize a third party to assure we meet this goal. GreenGuard, one of the leaders in IAQ certification, continues to certify our product offering, awarding us the UL2818 - GreenGuard Indoor Air Quality standard.

Terms and Conditions

Casegoods Warranty
JSI warrants to the original purchaser that each piece of furniture will be free from defects in workmanship given normal use for a period of 12 years of single shift service. Drawer suspensions carry a lifetime warranty. Electrical items not manufactured by JSI are covered for a period of one (1) year. JSI will, at its option, repair or replace any defective merchandise within the terms of the warranty.

JSI makes no expressed or implied warranties as to any product and, in particular, makes no warranty of merchantability or of fitness for any particular purpose.

This warranty does not cover:
- **Damage caused by an installation or transportation company.**
- **Damage created by loading file drawers with anything other than hanging folders.**
- **Any accident, user modifications, misuse or product neglect.**

Swish Order Analyst
Jasper Group has a Swish order analyst on staff that will review customer purchase orders against their submitted drawings to help us ensure more accurate orders. If a drawing is not submitted, the end user application will be less apparent and omissions of required products for the planned furniture configuration may not be caught prior to delivery of the order. Jasper Group will not be liable for costs associated with delays of components that were not called out on the order acknowledgement.

Samples
Samples of Swish standard laminates and acrylics are available upon request. To place an order, select the literature section on the resources tab at www.jsifurniture.com or contact your JSI sales rep or contact Customer Service at 800-457-4511.

Orders
Please reference the *"To order, specify"* sections when submitting an order. Indicate ship to address if different from bill to address. All orders should be mailed, faxed or emailed to:

JSI
225 Clay Street
Jasper, IN 47546
Fax: 812-482-1548
Email: orders@jaspergroup.us.com

Detailed specification sheets are available for each series, consult the Customer Service Department at 800-457-4511 or our JSI website. JSI reserves the right to make changes in dimensions, style, or specifications if we believe these changes will improve an item's quality or appearance.

Product Modifications
We willingly accept customers' modifications to standard products. If there is a modification you desire please contact the Customer Service Department for special quotes, minimum quantities and reasonable lead times.

Order Changes
All changes to an order must be made in writing and are subject to our ability to conform. Administrative and/or labor charges may be incurred by the dealer depending upon the production stage of the order. Once final production has begun, no changes can be accepted.

Acknowledgements
All orders will be acknowledged promptly showing how the order was entered, shipping time, and other pertinent information. Please examine this acknowledgment carefully and notify us immediately of any discrepancies. If a firm ship date is necessary, please let us know and we will do all we can to meet your request. Acknowledged ship dates are contingent upon adverse conditions, however, every effort is made to ship as acknowledged.

Cancellations
All cancellations must be made in writing. Administrative and/or labor charges may be incurred by the dealer depending upon the production stage of the order. Orders cannot be canceled after the finishing process has begun without incurring substantial restocking charges. Cancellations cannot be accepted once final production has begun.

Pricing
All prices shown are list and include delivery to one destination. Prices are subject to change without notice. Possession of this price list does not constitute an offer to sell. Orders can be received only from authorized JSI dealers.

Delivery
Prepaid freight to the 48 contiguous states. All other shipments prepaid to port of exit **ONLY**. JSI reserves the right to select the appropriate carrier. Special requests including, but not limited to, inside delivery and installation are not included in prices shown. Any charges arising from failure to meet shipment, rerouting while in transit, or carrier storage charges are the responsibility of the customer. Orders of less than $1,000 net will be assessed a handling charge of $75 net per order (waived for items shipped via UPS).

Freight Damage
All shipments are delivered to the carrier in good condition and our liability ceases thereafter. **If shipment arrives short or damaged, you should file claim immediately with the carrier.** In the event of concealed damage, notify carrier and request an immediate inspection. Keep all cartons and packing material. Failure to file claim within 15 days after receipt of merchandise constitutes acceptance and a waiver of any such claims. Please inspect merchandise immediately upon receipt, otherwise there is no recourse.

Returns and Repairs
No merchandise may be returned to JSI without a signed Return Goods Authorization form (RGA) issued by our Customer Service Department. Liability for defective merchandise shall be limited to replacement or repair. We will not issue credit allowances for any repairs without our prior consent. Under no circumstances can we accept COD (Cash On Delivery) returns. Any such shipment will be refused.

Replacement Parts
Prices for replacement parts can be obtained by calling our Customer Service Department. Please have the model number available when ordering replacement parts.

Order Check List

JSI products are manufactured to order and provide a multitude of options to address your individual customer needs. As you process your order do not forget to include all the necessary information to allow the order entry process to be completed. Please see the order check list at the beginning of each section as well as the specification and planning guide on pages 6-39.

JSI Customer Service edits every order for complete information. If details are not included with the purchase order, Customer Service will contact you to answer these questions. If information is not completed in a timely manner it will delay the entry process and could effect your product delivery date. To avoid delay in order entry and potential delay in delivery of your order, please double check the line items to insure all selections have been completed.

To ensure complete JSI details on your purchase order, electronic catalogs and specification tools have been developed to aid in the process. These electronic tools include:

> **20-20 GIZA Studio** and **20-20 CAP Studio** software offers state-of-the-art design, specification, photo-realistic rendering and three-dimensional visualization capabilities for configurable products in the commercial interior design markets. 20-20 GIZA Studio and 20-20 CAP Studio are available for all JSI Casegood and Seating products, in 2D and 3D graphics and the Specifier Catalog.
>
> **ProjectMatrix, Inc** offers a full software solution for the contract furniture industry. Their software can help you create space plans to specifications for ease of specifying our JSI Casegood and Seating product lines.

Our JSI web site www.jsifurniture.com provides many tools to assist in the design and order selection. Included in the site are downloadable images, typicals, product symbols, brochures, contact information, price lists, sales representative locations, warranty and environmental information.

Care and Maintenance:

Laminate Surfaces and PVC Edges
Clean with a mild soap solution and rinse with clean water. Wipe the entire surface and follow with a clean, dry soft cloth.

Aluminum and Powder Coat Metals
Clean with a mild soap solution and rinse with clean, clear water. Wipe the entire surface and follow with a clean, dry cloth to buff dry.

Textiles

Textile Programs
JSI is proud to partner with Maharam, Momentum, Ultrafabrics and Wollsdorf Leather. Please refer to the respective pages in this pricer for each of these partners. Scan the QR codes on the back of the swatch card for latest grades and other information.

Textile Grade-In Programs
For the convenience of our specifiers, we have graded in the following suppliers:

Arc Com	Pallas Textiles
Designtex	Stinson
Maharam	Ultrafabrics
Mayer	Wollsdorf Leather
Momentum	

Please contact Customer Service for pricing grades on textiles and leathers not listed.

Indicate on purchase order if JSI is to order the fabric.

Grades and availability of fabric are subject to change without notice. Changes could include but are not limited to price increase, discontinued patterns, discontinued colors, etc. See jsifurniture.com for up to date information.

Many textiles have repeats and the additional yardage required has been factored in for textiles ordered through the JSI Carded and Grade-In Programs. We reserve the right not to match textiles with a horizontal or vertical repeat greater than 17". Additional charges may apply for textile being applied with special instructions.

Some fabric thickness may cause issue with proper upholstering of tackable wall panels or upholstery privacy screens. Please contact Customer Service, with concerns on the fabric thickness for these items.

Fire Retardancy
All JSI products are manufactured to comply with California Bureau of Home Furnishings Technical Bulletin 117 as a minimum standard. Compliance with more stringent codes requires special manufacturing considerations and upcharges.

California Technical Bulletin 133
JSI uses a barrier material between the foam cushioning and the upholstery cover in order to comply with California TB 133. The standard upcharge on products specified to comply with TB 133 is $55 list per yard of fabric.

Some product designs and fabrics cannot be combined to comply with California TB 133 (CAL 133). Because of this, we reserve the right to reject any request for an upholstery cover, including COM, or product style that we feel may compromise the integrity or safety of a product specified to comply with CAL 133. JSI has tested representative styles for compliance of CAL 133.

Contact Customer Service for a quotation if you require laboratory certification that a specific product and upholstery combination will pass CAL 133. Quotation will include testing, video and transportation charges plus the list cost of sample. (Allow an additional six weeks over the standard lead time for testing. For products not requiring certification, our standard lead time will apply.)

COL
COL pricing is listed under column D in the price list. Customer's own leather requirements are based on an average hide of 50 square feet. Please consult Customer Service for requirements on any other sizes.

All square footage requirements are based on useable footage. The shape of the hide and the useable footage may make it necessary for us to request additional leather.

COM
COM pricing is listed under column B in the price list. All yardage requirements listed in the price list are based upon 54" plain non-directional material. Additional yardage will be required for repeats or fabric less than 54" wide, contact Customer Service for yardage requirements.

All stripes will be applied vertically unless specified otherwise. Patterned fabrics will be applied at our discretion unless special instructions are included with the order.

We cannot assume responsibility for the receipt of defective COM or for the tailoring quality of said fabric. Some fabrics, due to their bulkiness or thinness may not tailor well.

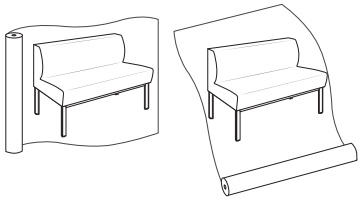
All COM orders must include the following:
- Vendor's name, pattern name and color.
- Sample of the fabric attached to order.
- Model numbers of items for fabric application.
- Special application instructions. (e.g., all stripes will be applied front to back unless specified otherwise)
- Customer and purchase order number.

Ship prepaid COM material to:
JSI
Attn: COM Dept.
932 Mill Street
Jasper, IN 47546

All COM orders will ship at standard lead time from receipt of COM except for orders requiring special custom matched finishes.

Application of COM Fabric
COM fabric is cut “up the roll” for lounge units, mobile pedestals and seat cushions and “railroaded” for tackboards unless otherwise specified by customer.

Railroaded Up the Roll



for people who work with people!

surface materials
(page 38)

The mixed material platform integrates warm and cool tones with organic beauty.

This specification guide will help you understand the simple components of Swish.

Use these step by step instructions to build Swish for your specific work style, space and budget.

step 1

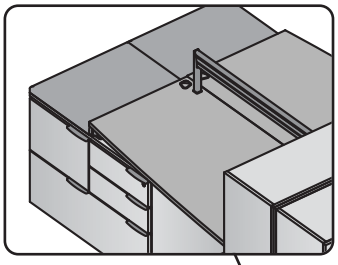
Specifying Swish Step One

worksurface (tops)

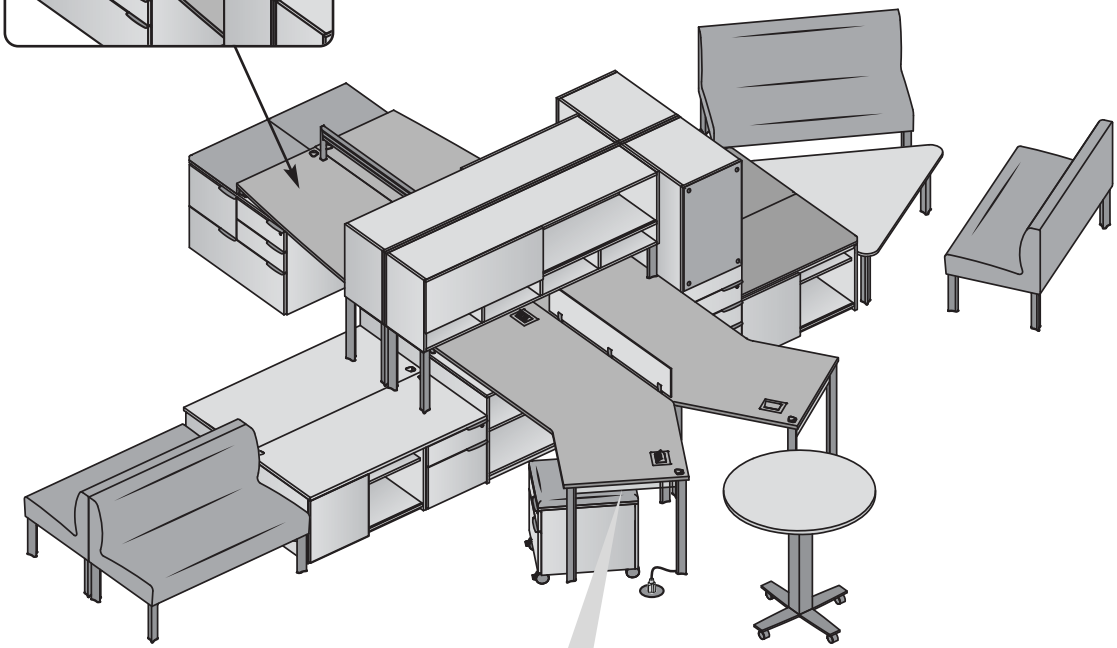
To begin your Swish specification, you will need to select a worksurface...

1-A Choose a top shape.
1-B Specify a top size.
1-C Choose your laminate.

- Worksurfaces can be specified in 7 solid laminates and 11 woodgrain laminates. For additional surface materials information, see page 38.
- Swish worksurfaces feature a coordinating eased PVC edge on all four sides.
- To order conference tables without any grommets review the Collaborate section, see page 24.



supports
Top depth must match the depth of the pedestal. When worksurface grommets are inset, subtract 6" from pedestal depth.

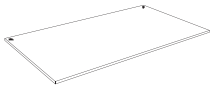


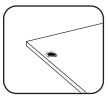
TIP! The removable acrylic plenum hides undersurface cords and creates a decorative accent.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

TIP! Rectangle tops can be specified with grommets inset 6" from the approach side.





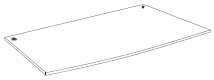
rectangle

Basic top shape with endless possibilities. Perfect for benching, long linked runs and worksurfaces.

worksurface

36"d x 96"w	*30"d x 96"w*	*24"d x 96"w*	*18"d x 96"w*
36"d x 90"w	*30"d x 90"w*	*24"d x 90"w*	*18"d x 90"w*
36"d x 84"w	*30"d x 84"w*	*24"d x 84"w*	*18"d x 84"w*
36"d x 78"w	*30"d x 78"w*	*24"d x 78"w*	*18"d x 78"w*
36"d x 72"w	*30"d x 72"w*	*24"d x 72"w*	*18"d x 72"w*
36"d x 66"w	*30"d x 66"w*	*24"d x 66"w*	*18"d x 66"w*
36"d x 60"w	*30"d x 60"w*	*24"d x 60"w*	*18"d x 60"w*
		24"d x 54"w	*18"d x 54"w*
		24"d x 48"w	*18"d x 48"w*
		24"d x 42"w	*18"d x 42"w*
		24"d x 36"w	*18"d x 36"w*
		24"d x 30"w	*18"d x 30"w*
		24"d x 18"w	*18"d x 18"w*

TIP! Fin tops can be specified with arc on user side or approach side. Can be specified with grommets inset 6" on the straight approach side.



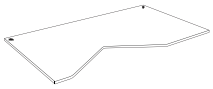
fin

Unique shape that adds additional worksurface space to each station while adding design flair.

worksurface

36"d x 84"w	*30"d x 84"w*
36"d x 78"w	*30"d x 78"w*
36"d x 72"w	*30"d x 72"w*
36"d x 66"w	*30"d x 66"w*
24"d x 84"w	
24"d x 78"w	
24"d x 72"w	
24"d x 66"w	

TIP! Can be specified with nook cutout to be on left portion or right portion of user side. Can also be specified with grommets inset 6" from the approach side.



nook

Allows user to nestle closer to storage and creates smaller footprint options without sacrificing workspace.
Pedestal restrictions apply, see page 14.

worksurface

36"d x 84"w	*30"d x 84"w*
36"d x 78"w	*30"d x 78"w*
36"d x 72"w	*30"d x 72"w*

TIP! When used as a bridge, the 36"w and 30"w units can only be used with corner worksurfaces.

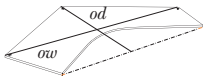
boomerang

Integrate adjustable height tables and seating into a run of stations to create handy meeting spaces.

worksurface

30"d x 84"w

24"d x 84"w



120˚

Team up with your neighbor and interact with ease.

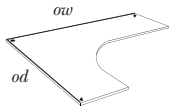
worksurface

18"d x 39 1/8"ow x 83 1/8"od
18"d x 36 1/8"ow x 72 3/4"od
18"d x 33 1/8"ow x 62 3/8"od

24"d x 44 5/16"ow x 83 1/8"od
24"d x 41 5/16"ow x 72 3/4"od
24"d x 38 5/16"ow x 62 3/8"od

Grain direction runs parallel to the ow. Pedestal restrictions apply, see page 14.

ow = overall width
od = overall depth



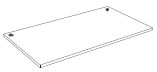
corner

Create cockpit style areas with extra worksurface space and multiple working positions for ergonomic flexibility.
Depth at ends = 18", 24", 30", 36"

worksurface

60"od x 78"ow	*54"od x 78"ow*
60"od x 72"ow	*54"od x 72"ow*
60"od x 66"ow	*54"od x 66"ow*
60"od x 60"ow	*54"od x 60"ow*
48"od x 72"ow	
48"od x 66"ow	
48"od x 60"ow	

Grain direction runs parallel to the ow. Pedestal restrictions apply, see page 14.



return / bridge

Create L and U units by adding bridges and return to main worksurfaces.

worksurface

24"d x 60"w	*18"d x 60"w*
24"d x 54"w	*18"d x 54"w*
24"d x 48"w	*18"d x 48"w*
24"d x 42"w	*18"d x 42"w*
24"d x 36"w	*18"d x 36"w*
24"d x 30"w	*18"d x 30"w*

Bridges ship with 2 flat brackets. Returns ship with 1 flat bracket. Grain direction runs front to back, which will match primary worksurface.

Worksurfaces include: *wire management channel, stress bar, plenum for approach side and end, and plenum retainers.*

Pre-configured units are available...

We've selected basic shapes, sizes and settings to help you order Swish even easier, see page 28.

worksurface (electrical)

Now, select your worksurface electrical options...

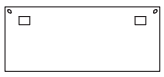
1-D Determine if above surface electrical is needed.
1-E Choose cutout locations.
1-F Determine if undersurface electrical is needed.
1-G Specify undersurface power, either single or dual circuit.

➤ Standard locations of cutouts, to accommodate EC10 and EC11 power/data units, are available at no charge.

Above surface electrical cutout locations.

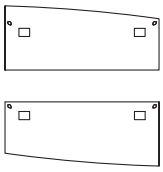
To add quick plug and play power/data units, be sure to specify your worksurface with an electrical cutout.

TIP! The EC10/EC11 grommet cutouts for 18" deep worksurfaces will run perpendicular to user.



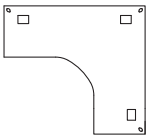
rectangle

EC10/EC11 grommet cutout locations are available left and right.



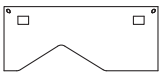
fin

EC10/EC11 grommet cutout locations are available left and right.



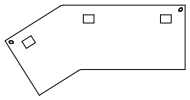
corner

EC10/EC11 grommet cutout locations are available left, center and right.



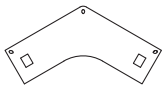
nook

EC10/EC11 grommet cutout locations are available left and right.



boomerang

EC10/EC11 grommet cutout locations are available left, center and right.



120˚

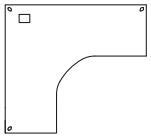
EC10/EC11 grommet cutout locations are available left and right.

TIP! For additional field installed grommets see the Electrical section, see page 27.

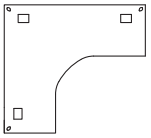
TIP! Grommet cutouts to accommodate EC10 and EC11 power/data units can be placed in left or right locations, as well as center on some units. To specify the cutout location, use the number one (1) digit to indicate the cutout

location 00**1**

locations **1**0**1**



location 0**1**0



locations **111**

NOTE! **EC10/EC11 POWER/DATA UNITS MUST BE ORDERED SEPARATELY.**

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

Undersurface electrical.

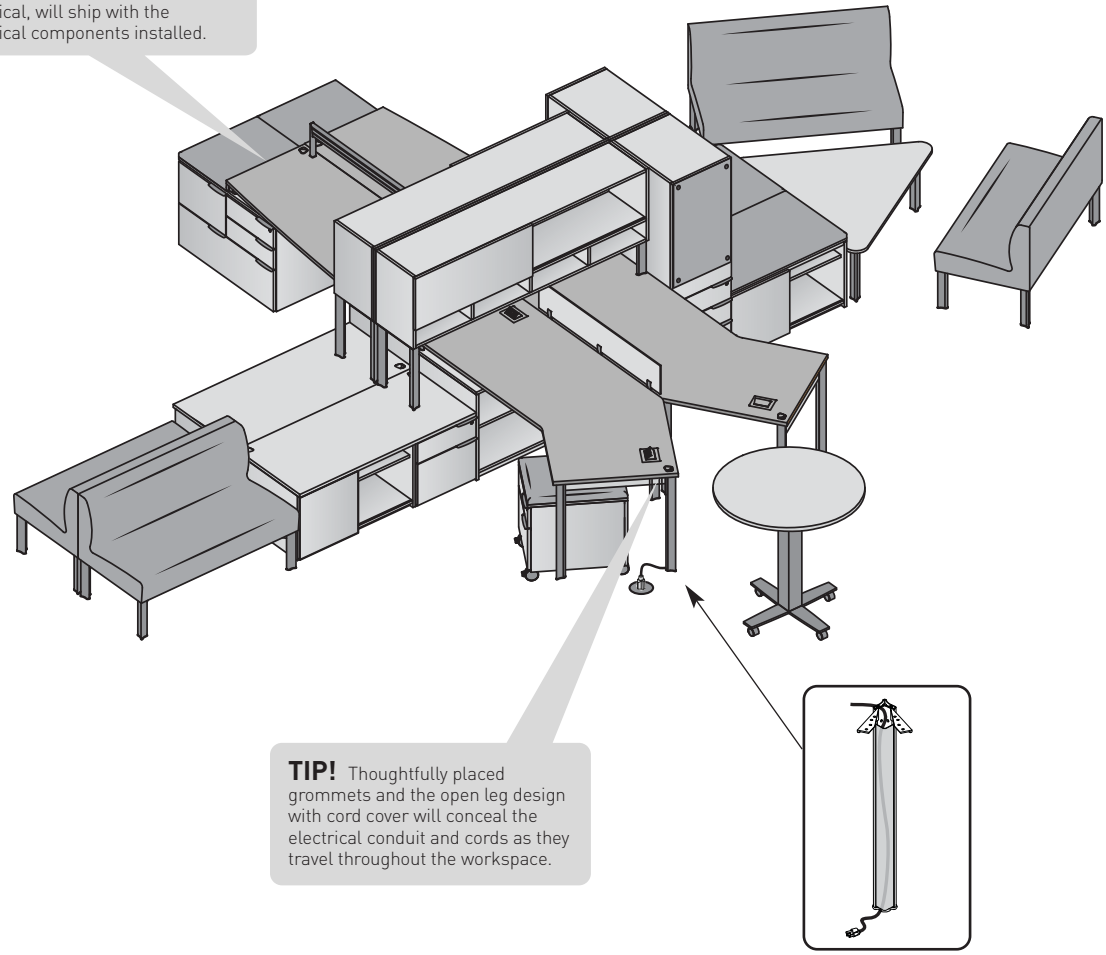
If you would like to power your workstation, you will need to specify the worksurface with the electrical option.
-When using a dual circuit system, the power infeed must be hardwired.

Choose from two power options: Single Circuit or Dual Circuit.

single circuit:
One circuit throughout the entire station.
(specify P1 only)

dual circuit:
Alternate circuit 1 and circuit 2 worksurfaces.
(specify P1 or P2)
or...
Mix circuit 1 and circuit 2 receptacles within one surface.
(specify PM)

TIP! Worksurfaces that are specified with undersurface electrical, will ship with the electrical components installed.



TIP! Thoughtfully placed grommets and the open leg design with cord cover will conceal the electrical conduit and cords as they travel throughout the workspace.

Additional electrical units...

To continue power from the worksurface through undersurface storage and to the power source, additional electrical components must be specified in the Electrical section, see page 26. Power infeed jumpers will carry power from the power source to the workstation.

step 2

Specifying Swish Step Two

undersurface storage & supports

Select the undersurface storage components that best suit your work mode...

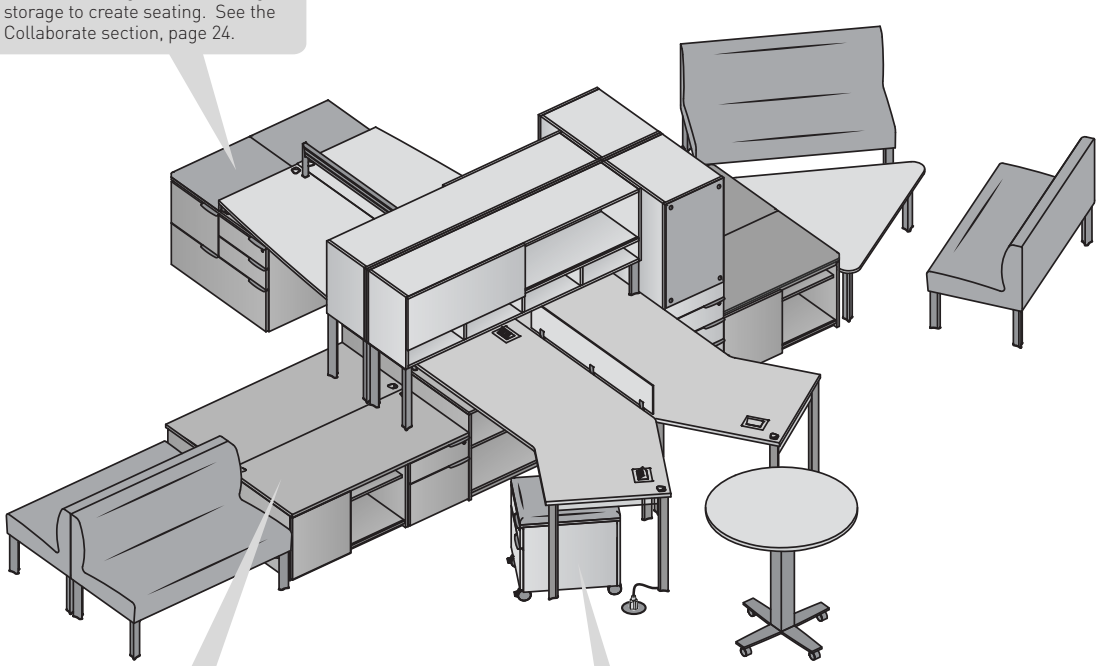
2-A Determine undersurface storage height.
2-B Choose a style.
2-C Determine width and depth.
2-D Specify a laminate.

➤ Storage can be specified in 7 solid laminates and 11 woodgrain laminates. For additional surface materials information, see page 38.

Select undersurface storage.

Choose executive height units to create airy floating tops. Height from floor to worksurface is 29 3/8".
Choose bench height units to achieve layers and additional seating. Height from floor to modular top is 20".

TIP! Cushion tops can be added to executive height or bench height storage to create seating. See the Collaborate section, page 24.



TIP! Modular tops must be ordered separately for bench height units. Storage units can be mounted under a common top to create a custom look.

TIP! Add additional storage and seating with a cushion top mobile pedestal from the Collaborate section, see page 24.

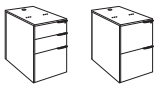
TIP! If an electrical worksurface was selected, be sure to complete the electrical options shown in the Electrical section, see page 26.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

executive height units *(26"h without spacer and worksurface)*

For a floating top, choose the executive height units and have your worksurface just inches away from your undersurface storage. Use corner units to create the look of a full pedestal from the approach side.



b/b/f & f/f pedestals
36"d x 18"w
30"d x 18"w
24"d x 18"w
18"d x 18"w

b/b lateral file pedestal
24"d x 36"w
24"d x 30"w

18"d x 36"w
18"d x 30"w

lateral file pedestal
*30"d x 36"w**

*24"d x 36"w**
24"d x 30"w

*18"d x 36"w**
18"d x 30"w

**Can also be ordered as an extended unit for mid-mount applications to allow part of the unit to be outside of the worksurface.*

multi-file pedestal
30"d x 36"w

24"d x 36"w

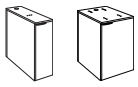
18"d x 36"w

Can also be ordered as an extended unit for mid-mount applications to allow part of the unit to be outside of the worksurface.

sliding door pedestal
*24"d x 36"w**
24"d x 30"w

*18"d x 36"w**
18"d x 30"w

**Can also be ordered as an extended unit for mid-mount applications to allow part of the unit to be outside of the worksurface.*



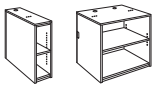
hinged door pedestal
30"d x 9"w

24"d x 36"w
24"d x 30"w
24"d x 18"w
24"d x 9"w

18"d x 36"w
18"d x 30"w
18"d x 18"w
18"d x 9"w

Includes an adjustable shelf.

36"w and 30"w have two doors, 18"w and 9"w have one door.



open storage/shelf pedestals
30"d x 9"w

24"d x 36"w
24"d x 30"w
24"d x 18"w
24"d x 9"w

18"d x 36"w
18"d x 30"w
18"d x 18"w
18"d x 9"w

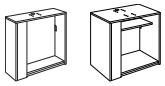
Includes an adjustable shelf.

36"w, 30"w and 18"w have a shelf, 9"w does not.

connection pedestal
24"d x 36"w
24"d x 30"w
24"d x 24"w
24"d x 18"w

18"d x 36"w
18"d x 30"w
18"d x 24"w
18"d x 18"w

Use this pedestal when linking electrified pedestals in a run. Side access pass through grommets allow cords to route through the unit.



open storage/shelf corner
36"d x 24"w
36"d x 18"w
36"d x 9"w

30"d x 24"w
30"d x 18"w
30"d x 9"w

24"d x 24"w
24"d x 18"w
24"d x 9"w

18"d x 24"w
18"d x 18"w
18"d x 9"w

18"w has a shelf, 9"w does not.

hinged door corner
30"d x 24"w
30"d x 18"w
30"d x 9"w

24"d x 24"w
24"d x 18"w
24"d x 9"w

18"d x 24"w
18"d x 18"w
18"d x 9"w

kneespace corner
36"d x 24"w
36"d x 18"w

30"d x 24"w
30"d x 18"w

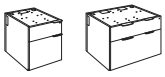
24"d x 24"w
24"d x 18"w

18"d x 24"w
18"d x 18"w

Use this with bridges or returns to eliminate knee-knocking.

bench height units *(19 1/4"h without modular top)*

Bench height storage units achieve the layered look by allowing perching areas and multiple low storage configurations. Bench height storage units must have a top specified separately. To create a custom look, put multiple units under one common top.



b/f pedestal
24"d x 36"w
24"d x 30"w
24"d x 24"w
24"d x 18"w

18"d x 36"w
18"d x 30"w
18"d x 24"w
18"d x 18"w

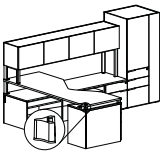
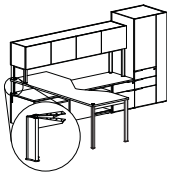
Call 800 457 4511 to discuss your project with a JSI Swish expert!

Worksurface support choices.

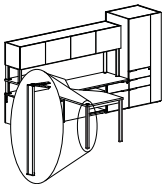
spacer to executive height
Use this spacer-support to connect worksurfaces to executive height storage units.



leg to bench height
Use this support to connect worksurfaces to low bench height storage units.

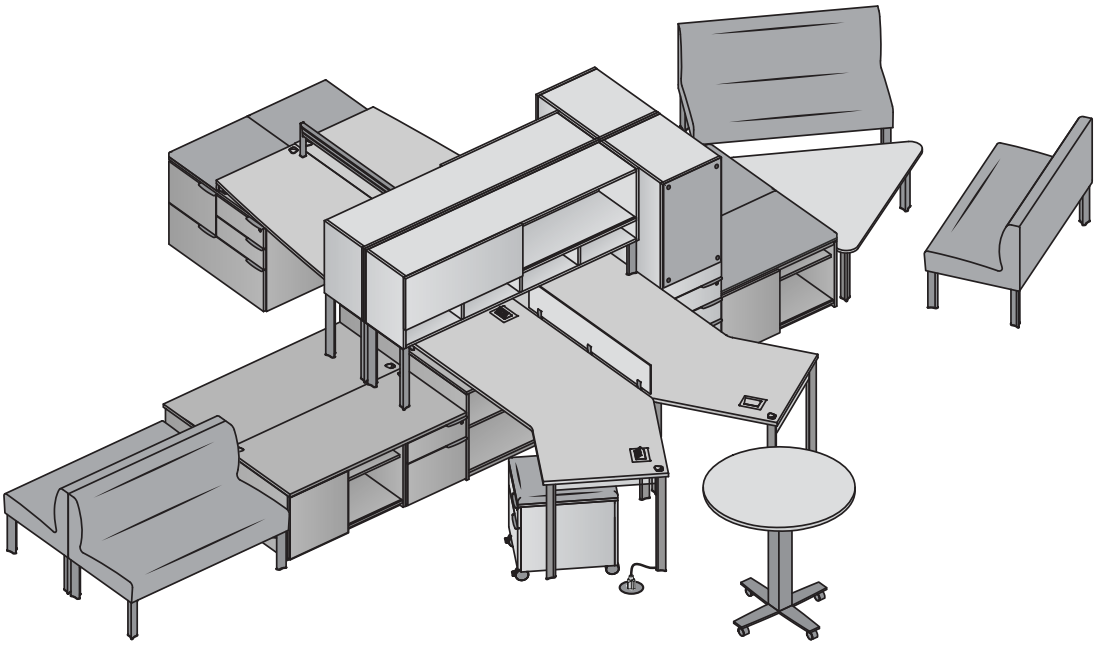


leg to floor
Use this full leg to support a worksurface that sits directly on the floor.



bracket to tall storage
Use this bracket to attach a worksurface to a tall storage unit. Includes one SSK-TOPSPACER1 for use with plenum.

Worksurfaces include: *wire management channel, stress bar, plenum for approach side and end, and plenum retainers.*
Worksurfaces that are 84"w must use at least one 18"w pedestal for support.
Worksurfaces that are 90"w must use two 18"w pedestals OR one 18"w and one 9"w pedestal for support.
Worksurfaces that are 96"w must use two 18"w pedestals for support.



worksurface supports
Supports are used to connect the worksurface with various pedestals, storage units or to run to the floor.

spacer to executive height
2 1/4"h

leg to bench height
9 1/2"h

leg to floor
29 1/2"h

bracket to tall storage

18"d x 30"w x 54"h

24"d x 30"w x 45"h
18"d x 30"w x 45"h

60"h units have two adjustable shelves, 54"h and 45"h have one shelf.

24" wardrobe units include a chrome hanging bar.

18" wardrobe units include a coat hook.

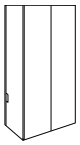
single door storage cabinet

24"d x 18"w x 60"h
18"d x 18"w x 60"h

24"d x 18"w x 54"h
18"d x 18"w x 54"h

24"d x 18"w x 45"h
18"d x 18"w x 45"h

60"h and 54"h units have three adjustable shelves, 45"h has two shelves.



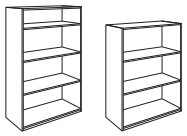
double door storage cabinet

24"d x 36"w x 60"h
24"d x 30"w x 60"h
18"d x 36"w x 60"h
18"d x 30"w x 60"h

24"d x 36"w x 54"h
24"d x 30"w x 54"h
18"d x 36"w x 54"h
18"d x 30"w x 54"h

24"d x 36"w x 45"h
24"d x 30"w x 45"h
18"d x 36"w x 45"h
18"d x 30"w x 45"h

60"h and 54"h units have three adjustable shelves, 45"h has two shelves.



bookcases

15"d x 36"w x 60"h
15"d x 30"w x 60"h
15"d x 18"w x 60"h

15"d x 36"w x 54"h
15"d x 30"w x 54"h
15"d x 18"w x 54"h

15"d x 36"w x 45"h
15"d x 30"w x 45"h
15"d x 18"w x 45"h

60"h and 54"h units have three adjustable shelves, 45"h has two shelves.

step 4

Specifying Swish Step Four

above surface storage & supports

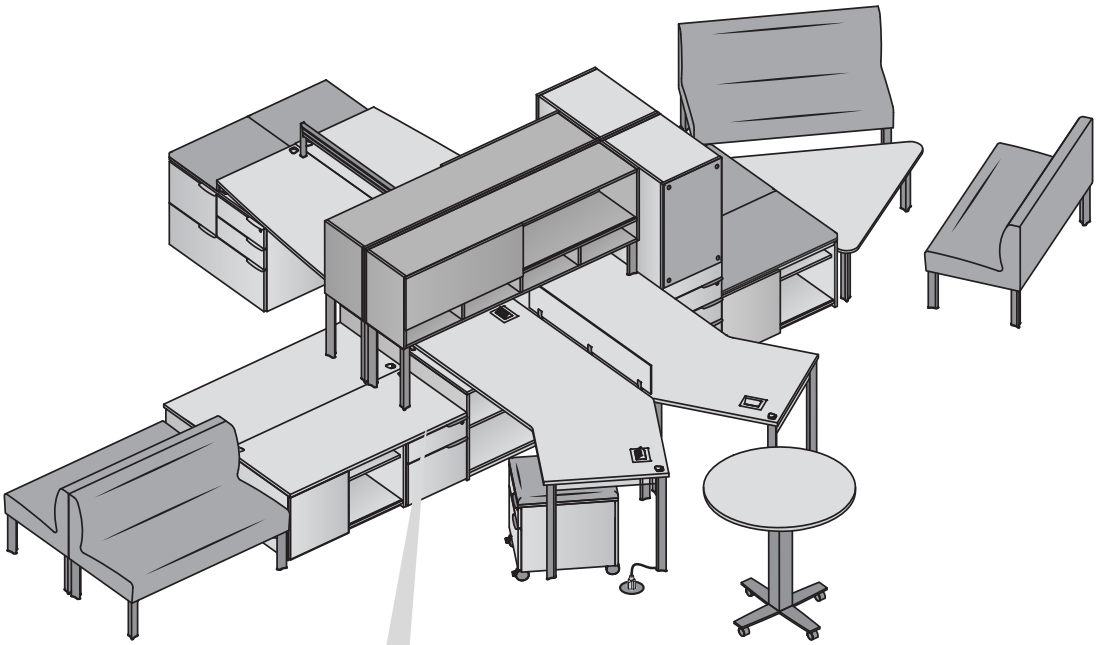
Add overhead storage units and cubbies to expand your workspace...

4-A Choose type of above surface storage.
4-B Choose style.
4-C Determine width.

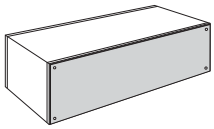
- Storage can be specified in 7 solid laminates and 11 woodgrain laminates. For additional surface materials information, see page 38.
- Wall mount units available for 15" overheads and 21" overheads with cubby below.

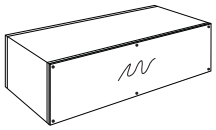
Select above surface storage.

Use above surface units for additional storage and as a space divider.



TIP! Above surface storage units can sit on varied height worksurfaces. One end can sit on executive height, while the other is on bench height.

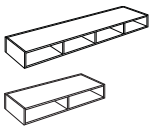




dual purpose

Tackboards and markerboards can be added to the backside of an overhead to increase productivity when sharing spaces.
Review the Accessories section, see page 22.

overheads

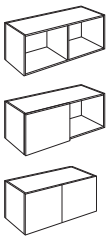


6" horizontal cubby organizer

15"d x 84"w x 6"h
15"d x 78"w x 6"h
15"d x 72"w x 6"h
15"d x 66"w x 6"h
15"d x 60"w x 6"h
15"d x 54"w x 6"h
15"d x 48"w x 6"h
15"d x 42"w x 6"h
15"d x 36"w x 6"h
15"d x 30"w x 6"h

Using storage supports, total height can be either 45" or 54" from the floor.

Cubbies 54"w and larger have four cubby openings, and units 48"w and smaller have two cubby openings.



15" overhead

15"d x 84"w x 15"h
15"d x 78"w x 15"h
15"d x 72"w x 15"h
15"d x 66"w x 15"h
15"d x 60"w x 15"h
15"d x 54"w x 15"h
15"d x 48"w x 15"h
15"d x 42"w x 15"h
15"d x 36"w x 15"h
15"d x 30"w x 15"h

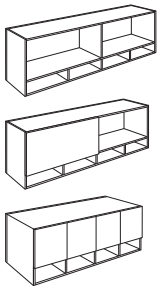
Using storage supports, total height can be either 54" or 60" from the floor.

15"h overheads are also available as wall mount.

Units 54"w and larger have four doors, 48"w and 42"w units have three doors, and 36"w and 30"w units have two doors.

Three door units can have one door hinge right and two left, or two hinge right and one left.

Hinge door units are also available with glass doors, and sliding door units are also available with markerboards.



21" overhead with cubby below

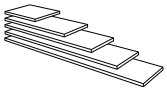
15"d x 84"w x 21"h
15"d x 78"w x 21"h
15"d x 72"w x 21"h
15"d x 66"w x 21"h
15"d x 60"w x 21"h
15"d x 54"w x 21"h
15"d x 48"w x 21"h
15"d x 42"w x 21"h
15"d x 36"w x 21"h
15"d x 30"w x 21"h

Using storage supports, total height will be 60" from the floor.

21"h overhead/cubby combinations are also available as wall mount.

Open storage units 54"w and larger have two overhead openings and four cubbies, units 48"w and smaller have two overhead openings and two cubbies.

Hinge door units are also available with glass doors, and sliding door units are also available with markerboards.



transaction top

15"d x 84"w x 1 3/16"h
15"d x 78"w x 1 3/16"h
15"d x 72"w x 1 3/16"h
15"d x 66"w x 1 3/16"h
15"d x 60"w x 1 3/16"h
15"d x 54"w x 1 3/16"h
15"d x 48"w x 1 3/16"h
15"d x 42"w x 1 3/16"h
15"d x 36"w x 1 3/16"h
15"d x 30"w x 1 3/16"h

Using storage supports, total height can be either 40" or 46" from the floor.

NOTE! **Support legs must be specified to support overhead and cubby units that are not wall mounted, see page 20.**

above surface storage & supports

Add overhead storage units and cubbies to expand your workspace...

4-D Determine the height desired for the overhead unit, from the floor.

4-E Identify if the above surface storage unit will sit on an executive height unit or a bench height unit.

4-F Select the appropriate storage support to achieve the overall height.

- 6" cubby units can be either 45" or 54" from the floor.
- 15" overhead units can be either 54" or 60" from the floor, or wall mounted.
- 21" overhead units with cubbies below will be 60" from the floor, or can be wall mounted.
- Transaction tops can be either 40" or 46" from the floor.

Select above surface storage supports.

Overhead storage units and cubbies can be added at various heights to accommodate your work style and storage needs. Wall mount overhead units do not require storage supports.

TIP! The backsides of above surface storage units are always finished, so they make great space dividers.

step 5

Specifying Swish Step Five

accessories

Divide space for more privacy, add modesty panels or create tackable surfaces for increased functionality...

5-A Determine your accessory needs.
5-B Choose your upholstery and/or acrylic.

➤ Modesty panels and privacy screens can be specified in 6 acrylic designs. For available standard and premium acrylics, see page 39. Privacy screens with tackboards are only available with the standard frosted acrylic.

Select accessories.

Select accessories to maximize efficiency and make your space work for you.

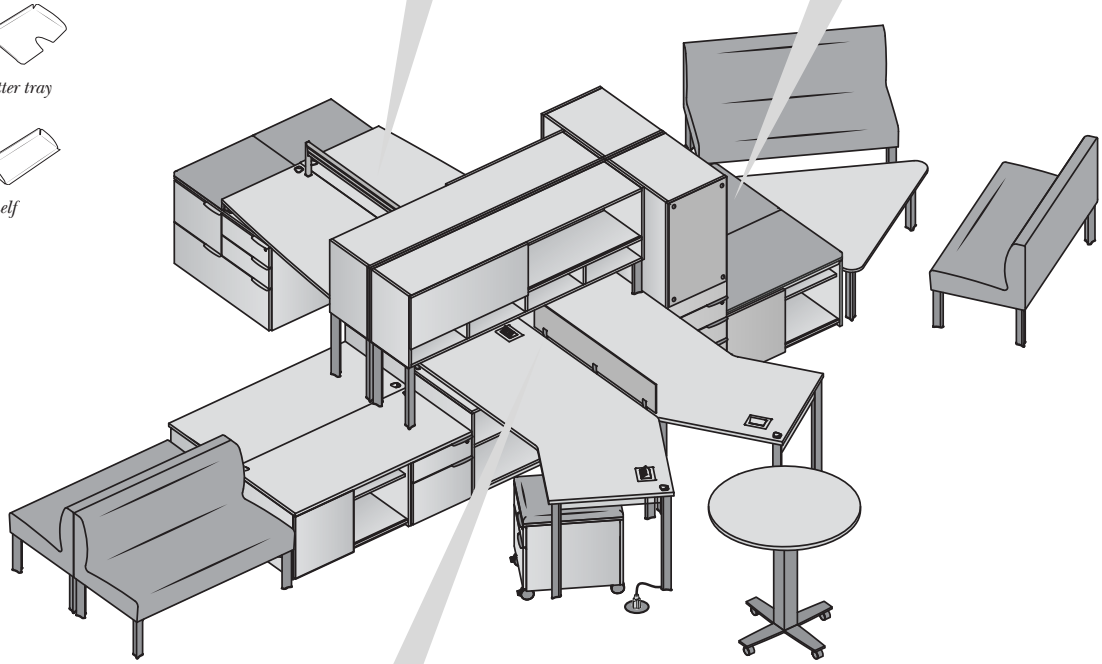
Accessory rail tools...

pencil holder/organizer

organizer tray

letter tray

shelf



TIP! Accessory rails are post mounted through the worksurface. The accessory rail can accommodate work tools to organize your space.

TIP! Tackboards are button mounted and can be installed on the back of a cubby or overhead as well as the side or back of a tall cabinet.

TIP! Aluminum privacy screen brackets attach to underside of worksurface and do not mar top surface.

step 6

Specifying Swish Step Six

collaborate

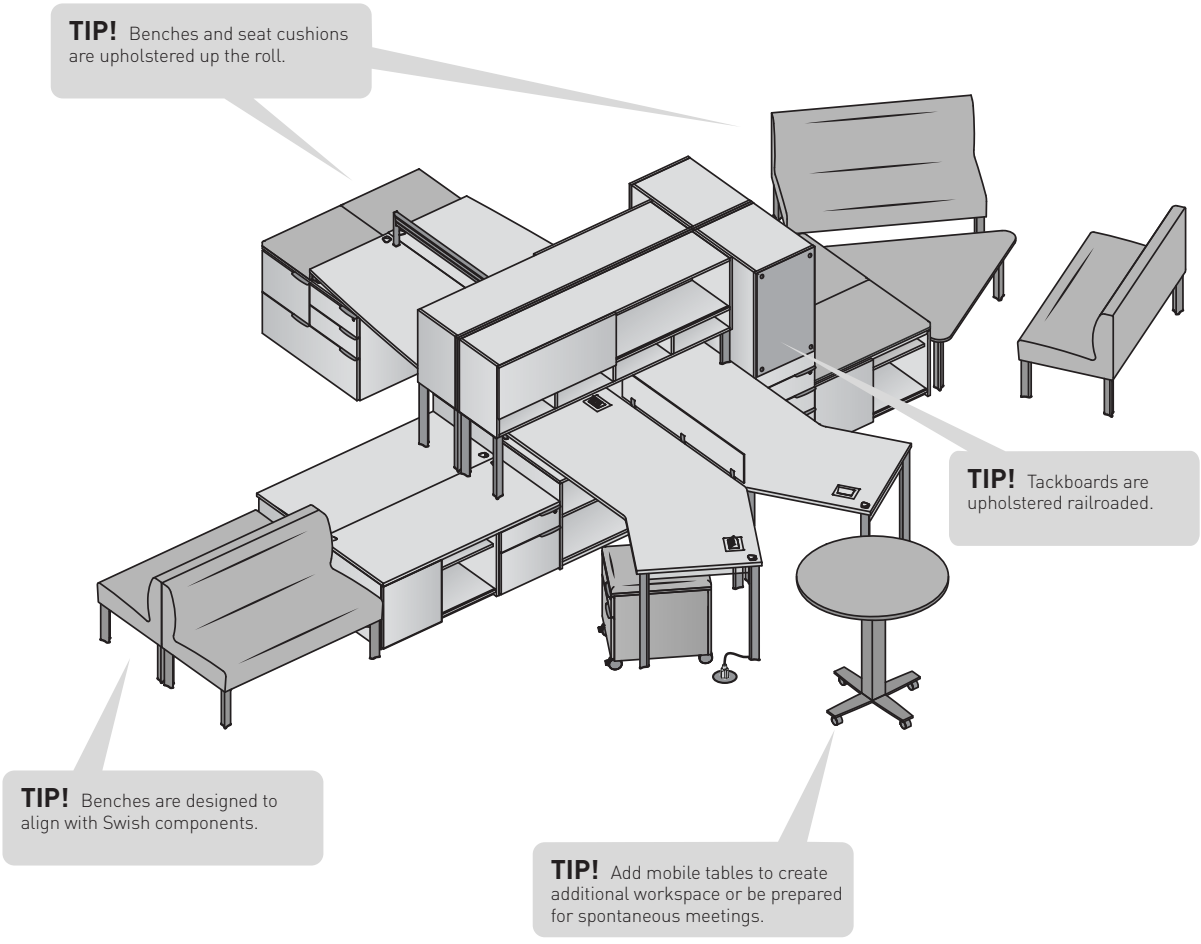
Add integrated collaboration elements to invite impromptu meetings and gain efficiency...

6-A Determine your collaborative needs.
6-B Choose your laminate and/or upholstery.

- Create lounge spaces with integrated benches and tables.
- Add cushion tops to bench height storage for additional seating spaces or add a conference table for larger meetings.

Collaborate.

Swish was designed for people who work with people. Gather around a workstation, add collaborative spaces to a private office or create a meeting room with Swish's collaborate components.



www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

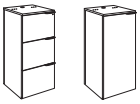
collaboration conference tables

Collaboration conference table tops must have two base units specified for support. Collaboration conference table tops do not have grommets. Grommet cutouts to accommodate an EC13 unit can be specified for the center of the table.

collaboration conference table tops

42"d x 84"w
42"d x 78"w
42"d x 72"w
42"d x 66"w
42"d x 60"w

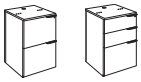
Table tops include plenum, spacers and panel stretchers to conceal technology cords.



stand up height bases

18"d x 18"w x 37 13/16"h

Use these bases when creating a standard height work table or to use with stools for seating.

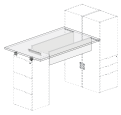


executive height bases

18"d x 18"w x 26"h

Use these bases when creating a standard height work table.

integrated collaboration conference tables



integrated collaboration table tops using L-bracket support and pedestal base supports

30"d x 72"w	*36"d x 72"w*	*48"d x 72"w*

electrical

Continue specifying your power options to complete your workstation...

7-A Determine power infeed length.
7-B Connect power infeed to worksurface.
7-C Connect executive height worksurfaces to each other.
7-D Continue power through storage units to another station.

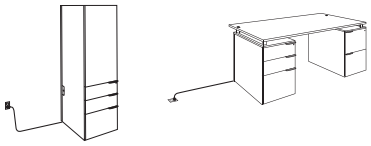
- This panel-less 4 wire, 2 circuit system easily runs throughout an entire workstation.
- Swish was designed with integrated wire management to create omni-directional movement.
- Each circuit can have up to 13 duplexes, which is 26 plug-ins.

Undersurface electrical.

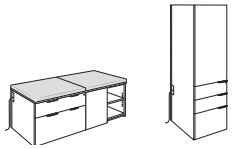
Complete your workstation's electrical options by specifying the power infeed and jumpers. These components allow the power to travel from the worksurface through the undersurface units or travel from worksurface to worksurface to power multiple stations.

power entry infeed

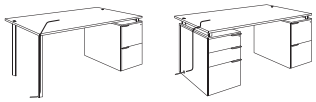
7-A1 Measure distance between power source and location that power will enter the Swish station.



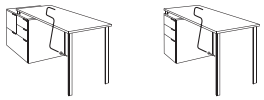
7-A2 Select location of power entry from the floor, and add length.



To bench height unit or side access grommet, add 20".

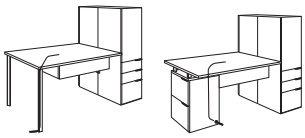


To executive height, add 45".

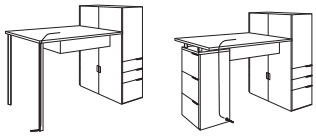


To the kneespace of executive height pedestal, add 45".

To the outside of extended executive height pedestal, add 63".



To executive height table with legs, add 96".
To executive height table with pedestal, add 84".



To stand up height table with legs, add 108".
To stand up height table with pedestal, add 96".

7-A3 If applicable, add the width of any additional units leading to the powered worksurface.

7-A1 + **7-A2** + **7-A3** = length of power infeed

connect power infeed to worksurface

7-B If a vertical height change is needed to reach the worksurface, specify the 24" vertical jumper.

connect executive height worksurfaces

7-C1 Connect executive height worksurfaces to each other with a simple jumper.

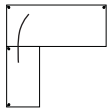
End to end, use 24" jumper.

Back to back, use 28" jumper.

End to end, opposite facing:
36"d & 30"d, use 28" jumper.
24"d & 18"d, use 24" jumper.

TIP! If worksurfaces have an overhang, add 6" for each worksurface.

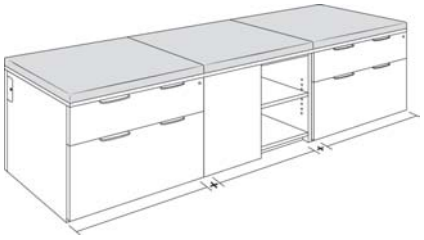
7-C2 Connect executive height worksurfaces to bridges or returns with simple jumpers.



36"d worksurfaces, use 50" jumper.
30"d worksurfaces, use 45" jumper.
24"d worksurfaces, use 42" jumper.
18"d worksurfaces, use 31" jumper.

continue power to the next workstation, through storage units

7-D1 If a vertical height change is needed to reach the storage unit, specify the 24" vertical jumper.

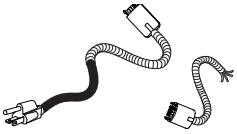


7-D2 Measure the widths of the units the jumper will travel through.

7-D3 If a vertical height change is needed to reach the worksurface, specify the 24" vertical jumper.

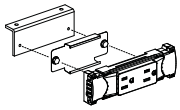
electrical

Electrical components to power your workstation.



72" power infeed

Three prong available in 12" increments from 48" to 120". Hardwire available in 12" increments from 72" to 300".



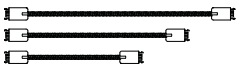
duplex receptacle kit

Includes mounting brackets.

receptacle to receptacle connector

H block connector kit

Includes mounting brackets.



jumpers

Available in 6" increments from 18" to 300". Also available in 28", 31", 45", and 50" lengths.

conduit clamp

24" vertical jumper (includes H block connector)

Quick disconnect

Field install grommet

Wire management trough

Available in 12", 24", and 36" lengths.

pre-configured models

Product Specifications

Swish Series: Swish has a modular design to allow flexibility in configuration. It features high pressure laminate (HPL) worksurfaces and thermally fused laminate (TFL) chassis components with durable, impact resistant PVC edges. Swish is offered in eleven wood grain colors and seven solid colors. The wood grain TFL features embossed grain to hide fingerprints and light scratches. The Swish offering includes upholstered benches and cushions which integrate with the casegoods.

Worksurfaces: Laminate worksurfaces have a 3-ply balanced construction, 1 3/16" thick with coordinating PVC edges. All worksurfaces feature 3mm PVC edge. All edges and corners are eased to eliminate sharp edges. Worksurfaces greater than 48" include a metal support rail to prevent sagging. Worksurfaces also include a 2 1/4" tall frosted acrylic plenum which clips into place below worksurface.

Power/Data/ Wire Management: Optional 4-wire, one or two circuit undersurface electrical features easy-to-connect fittings which makes routing power a snap. Power & Data tilt-up units are available for worksurfaces in standardized locations. Power & Data units can be plugged into a standard 110v wall outlet or into the undersurface electrical. Teardrop corner grommets and wire management troughs are included standard on all executive height worksurfaces. Bench height, tall storage, executive height corners, and executive height connection pedestals include standard pass through side grommets (1 7/8"W x 3 1/4"H). Worksurfaces are raised 2 1/4" above the top of the executive height pedestals to create space for easy routing of cords and cables. The acrylic plenum then clips in place to hide the cords and adds a decorative element. Also available is a round field installable cable access grommet. Grommet requires a 2 3/8" hole. Overall diameter of the grommet is 2 3/4". Desk legs have a removable acrylic wire management cover which allows passage of cords or flexible electrical through the leg.

Cabinets: Laminate chassis is constructed using 3/4" thick thermally fused laminated panels. Exterior panels, doors, drawer fronts have 1mm thick PVC edgebands. Product is designed to minimize the number of exposed fasteners. Cabinets are constructed using metal cam & post connectors along with wood dowels. Wood cleats, pocket screws and metal brackets are also used in desk pedestals where additional joint strength is required. Desk pedestals are standard at 18" wide. Lateral files are available in 30" and 36" width. Leveling glides are installed in a manner to prevent tear-out.

Drawers: Drawers are assembled using five sided V-fold box and 1/4" thick drawer bottom panel construction with exterior front attached separately. Maple vinyl sides and drawer bottoms provide a clean, smooth feel and appearance.

Drawer Suspension: High quality black drawer suspensions carry a lifetime warranty. File and box drawers have 100% full extension with over-travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

File systems: All file drawers are constructed with integrated side and back rails and adjustable metal cross rail filing system in place. Cross bars are adjustable and removable without tools.

Locking: All drawer pedestals feature pedestal front locking as standard. All hinged door pedestals and non-glass hinged door overhead cabinets are available with optional locking. Units are shipped randomly keyed as standard. Keyed alike units are available at no upcharge with removable cores for in-field re-keying.

Legs: Legs and overhead supports are made from extruded aluminum with steel mounting bracket and integrated wire management with cord cover. All legs have adjustable levelers.

Modesty Panels and Privacy Screens: Modesty panels and Privacy screens are made of 1/4" thick acrylic. Panels are standard in frosted acrylic. Five premium acrylic patterns are also available. Modesty panels attach to the underside of worksurface with metal brackets. Privacy screens mount with an aluminum bracket which attaches to the bottom edge of the worksurface, therefore installation does not mar the worksurface. The privacy panels are friction fit into the bracket for easy removal of the panel.

Seating: Swish seating is designed to integrate with the casegoods to create simple and flexible seating options for the open plan office. Cushions are 1 1/4" thick with slip resistant rubber bumpers on the bottom side and are designed to sit on top of bench height cabinets. Cushions can be easily removed or placed for maximum flexibility. Swish benches are light weight and scaled for use with the series. Cushions and benches use long lasting high density foam and plywood frames. Both are available in multiple fabric grades.

Pre-Configured Order Check List:

Specify:
- ☐ **1. Model number**
- ☐ **2. Laminate color**
  - **A. Worksurface color**
  - **B. Chassis color**
- ☐ **3. Product options**
  - **A. EC10/EC11 cutout**
  - **B. Undersurface electrical**

Example:

SS3672ED (model #)	BZ (worksurface color)	TP (chassis color)	EG001 (ECA cutout location)

1. Model number

2. Laminate Color Options:

ALB	Alabaster	HGL	High Line
AUT	Autumn	SHD	Shadow
BLO	Blonde Echo	SHE	Shea
BBN	Bourbon	SLG	Slate Grey
BZW	Brazilwood	STU	Studio Teak
BBL	Bridal Blanco	TAU	Taupe
BRG	Brighton	VIN	Vintage
DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

3. Product Options:

- EC10 or EC11 Cutout:
  Specify
  EG100 (user left)
  EG001 (user right)
  EG101 (user left and right)
  Two EC units in a worksurface less than 48" in width is not recommended. No upcharge for cutout.
  NOTE: Cutouts for 18" deep worksurfaces will run perpendicular to user.
  NOTE: EC10 and EC11 units must be ordered separately. Refer to page 214 for more information.
- Undersurface Electrical:
  Specify the appropriate number below for the circuit number(s) desired.
  P1 (circuit 1)
  P2 (circuit 2)
  PM (mix circuit 1 and circuit 2)
  NOTE: Two circuit system requires a hardwire infeed.
  When Undersurface Electrical is specified one duplex unit, two jumpers and two H block connectors will be mounted to the underside of units less than 60" in width. Units 60" in width and wider will have two duplex units, two jumpers and two H block connectors.
  NOTE: Infeed cables and additional jumper cables must be ordered separately. Refer to pages 215-217 for additional information.

Edge Profile:

Eased (R6)

Pull Style and Color:

Flat (Silver finish)

NOTE: All drawers are predrilled for easy field installation. Pulls for drawers can be installed in the left, center or right locations. All hinged doors below the worksurface are predrilled as well.

Counterweights:
In order to pass stability tests some Pre-Configured units will require a counterweight to be mounted on the inside of the back panel of the unit. The ½" thick counterweight is available in 10 lb. and 20 lb. weights and is field installed. The counterweight will need to be ordered separately, see page 75. Some units may require 40 lbs. of counterweight; in that case two 20 lb. counterweights will need to be ordered. As an alternative to the counterweight the unit can be secured to the wall or floor.

Worksurface Order Check List:

Specify:
- ☐ **1. Model number**
- ☐ **2. Worksurface laminate color**
- ☐ **3. Product options**
  - **A. EC10/EC11 cutout**
  - **B. Undersurface electrical**

Example:

SST2472UFING-BA	BB	EG100
(model #)	(worksurface color)	(EC cutout location)

1. Model number

2. Laminate Color Options:

ALB	Alabaster	HGL	High Line
AUT	Autumn	SHD	Shadow
BLO	Blonde Echo	SHE	Shea
BBN	Bourbon	SLG	Slate Grey
BZW	Brazilwood	STU	Studio Teak
BBL	Bridal Blanco	TAU	Taupe
BRG	Brighton	VIN	Vintage
DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

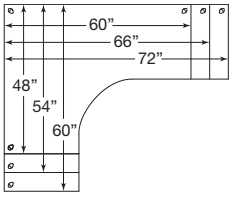
3. Product Options:

- EC10 or EC11 Cutout:
  Specify
  EG100 (user left)
  EG010 (center)
  EG001 (user right)
  EG101 (user left and right)
  EG111 (user left, right and center)
  More than one EC unit in a worksurface less then 48" in width is not recommended. No upcharge for cutout.
  NOTE: Cutouts for 18" deep worksurfaces will run perpendicular to user
  NOTE: EC10 and EC11 units must be ordered separately. Refer to page 214 for additional information.
- Undersurface Electrical:
  Specify the appropriate number below for the circuit number(s) desired for each duplex unit on your worksurface.
  P1 (circuit 1)
  P2 (circuit 2)
  PM (mix circuit 1 and circuit 2)
  NOTE: Two circuit system requires a hardwire infeed.
  When Undersurface Electrical is specified one duplex unit, two jumpers and two H block connectors will be mounted to the underside of units less than 60" in width. Units 60" in width and wider will have two duplex units, two jumpers and two H-block connectors.
  NOTE: Infeed cables and additional jumper cables must be ordered separately. Refer to pages 215-217 for additional information.

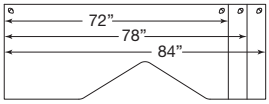
Edge Profile:

Eased (R6)

Corner and Nook pedestal restrictions:



48" Side - Leg to Floor or Bracket to Tall Storage
54" Side - Leg to Floor, Bracket to Tall Storage or 9" wide pedestal
60" Side - Leg to Floor, Bracket to Tall Storage or 9" or 18" wide pedestal
66" Side - Leg to Floor, Bracket to Tall Storage or 9" or 18" wide pedestal
72" Side - Leg to Floor, Bracket to Tall Storage or 9", 18", 24" or 30" wide pedestal
78" Side - No restrictions



72" Wide, 6" Side - Leg to Floor
78" Wide, 12" Side - Leg to Floor or 9" wide pedestal
84" Wide, 18" Side - Leg to Floor, 9" or 18" wide pedestal

The letters in the chart below indicate the depth of each side on certain worksurfaces.
Ex: SST2484UFING-BA
B = 24 left A = 18 right

Top Depth
A = 18" Deep
B = 24" Deep
C = 30" Deep
D = 36" Deep

Modular Executive Height Storage Order Check List:

Specify:
☐ **1. Model number**
☐ **2. Laminate color**

Example:
SS2418MFF (model #) | AU (laminate color)

---

1. Model number

---

2. Laminate Color Options:

ALB	Alabaster	HGL	High Line
AUT	Autumn	SHD	Shadow
BLO	Blonde Echo	SHE	Shea
BBN	Bourbon	SLG	Slate Grey
BZW	Brazilwood	STU	Studio Teak
BBL	Bridal Blanco	TAU	Taupe
BRG	Brighton	VIN	Vintage
DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

Pull Style and Color:

Flat (Silver finish)

NOTE: All drawers are predrilled for easy field installation. Pulls for drawers can be installed in the left, center or right locations. All hinged doors are predrilled as well.

Counterweights:
In order to pass stability tests some Executive Height Storage units will require a counterweight to be mounted on the inside of the back panel of the unit. The ½" thick counterweight is available in 10 lb. and 20 lb. weights and is field installed. The counterweight will need to be ordered separately, see page 131. Some units may require 40 lbs. of counterweight; in that case two 20 lb. counterweights will need to be ordered. As an alternative to the counterweight the unit can be secured to the wall or floor.

MODULAR EXECUTIVE HEIGHT STORAGE

Modular Bench Height Storage Order Check List:

Specify:
☐ **1. Model number**
☐ **2. Laminate color**

Example:

SSB2436MSD	WH
(model #)	(laminate color)

1. Model number

2. Laminate Color Options:

ALB	Alabaster	HGL	High Line
AUT	Autumn	SHD	Shadow
BLO	Blonde Echo	SHE	Shea
BBN	Bourbon	SLG	Slate Grey
BZW	Brazilwood	STU	Studio Teak
BBL	Bridal Blanco	TAU	Taupe
BRG	Brighton	VIN	Vintage
DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

Pull Style and Color:

Flat (Silver finish)

NOTE: All drawers are predrilled for easy field installation. Pulls for drawers can be installed in the left, center or right locations. All hinged doors are predrilled as well.

Counterweights:
In order to pass stability tests some Bench Height Storage units will require a counterweight to be mounted on the inside of the back panel of the unit. The ½" thick counterweight is available in 10 lb. and 20 lb. weights and is field installed. The counterweight will need to be ordered separately, see page 137. Some units may require 40 lbs. of counterweight; in that case two 20 lb. counterweights will need to be ordered. As an alternative to the counterweight the unit can be secured to the wall or floor.

Tall Storage Order Check List:

Specify:
☐ **1. Model number**
☐ **2. Laminate color**

Example:

SS2418-54BBFSSTR	BZ
(model #)	(laminate color)

---

1. Model number

---

2. Laminate Color Options:

ALB	Alabaster	HGL	High Line
AUT	Autumn	SHD	Shadow
BLO	Blonde Echo	SHE	Shea
BBN	Bourbon	SLG	Slate Grey
BZW	Brazilwood	STU	Studio Teak
BBL	Bridal Blanco	TAU	Taupe
BRG	Brighton	VIN	Vintage
DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

Pull Style and Finish:

Flat (Silver finish)

NOTE: All drawers are predrilled for easy field installation. Pulls for drawers can be installed in the left, center or right locations. All doors have a touch latch mechanism.

Counterweights:
In order to pass stability tests some Tall Storage units will require a field installed 20 lb. ½" thick counterweight to be mounted on the inside of the back panel of the unit. The counterweight will need to be ordered separately, see page 148. As an alternative to the counterweight the unit can be secured to the wall or floor.

Order Check List
page 149

Product Specifications
page 40

Accessories Order Check List:

Specify:
☐ **1. Model number**
☐ **2. Fabric selection - vendor, pattern and color**
☐ **3. Product options**

Example:

SS1560ASF-TK2 (model #)	Guilford of Maine (fabric vendor)	Bailey (pattern name)	Sherman Pewter (pattern color)

1. Model number

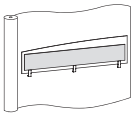
2. Fabric selection - Please supply the following:
Fabric vendor
Pattern name
Pattern color

NOTE: Vinyl cannot be used on tackboards

All COM orders must include the following:
- Vendor's name, pattern name and color
- Sample of the fabric attached to order
- Model numbers of items for fabric application
- Special application instructions
- Customer and purchase order number

Ship prepaid COM material to:
JSI
Attn: COM Dept
932 Mill St.
Jasper, Indiana 47546

Application of fabric:
Railroaded



All COM orders will ship at standard lead time from receipt of COM.

3. Product Options:
Frosted is the standard for all acrylic modesty panels and privacy screens. Optional acrylic patterns are available, specify pattern name. Upcharge applies, refer to product pages. All privacy screens with a tackboard are only available with the frosted acrylic.
Optional patterns:

Drift Green	Paper Cut
Ivory Taipei	Silver Spun
Oyster Linen	

NOTE:
Accessory rails can be mounted to most worksurfaces. Contact Customer Service for availability if mounting to a modular bench height top. Rail must be installed at least 4" inset from the left and right sides of the worksurface.

When ordering a privacy screen be sure to take into account any above storage units so there is no interference.

Markerboards are available for the back and side of Tall Storage units, the side of Side Access Storage units and the back of Above Surface Storage units. Markerboards are not available on the Tall Storage doors. See pages 152, 155, 162 and 164 for Above Surface Storage units with sliding markerboard doors.

Tackboards are available for the back and side of Tall Storage units, the side of Side Access Storage units and the side of Above Surface Storage units. Tackboards are not available on the doors of these units.

To Order, Specify:

❶ Model number

❷ Fabric selection: vendor, pattern, color

Order Check List
page 166

Product Specifications
page 40

Collaborate Order Check List:

Specify:
☐ **1. Model number**
☐ **2. Laminate color**
A. Worksurface color
B. Panel stretcher color
☐ **3. Fabric selection - vendor, pattern and color**
☐ **4. Product options**
A. EC13 cutout
B. Undersurface electrical

Example:

SST4860CCBP (model #)	HL (worksurface color)	SD (panel stretcher color)	EG030 (EC13 cutout)

1. Model number

2. Laminate Color Options:

ALB	Alabaster	HGL	High Line
AUT	Autumn	SHD	Shadow
BLO	Blonde Echo	SHE	Shea
BBN	Bourbon	SLG	Slate Grey
BZW	Brazilwood	STU	Studio Teak
BBL	Bridal Blanco	TAU	Taupe
BRG	Brighton	VIN	Vintage
DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

3. Fabric selection - Please supply the following:
Fabric vendor
Pattern name
Pattern color

- Indicate direction of fabric - Railroaded or Up the Roll
- please provide illustration if available

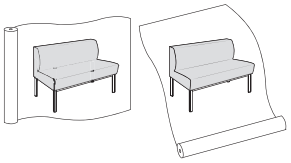
NOTE: Standard application will be Up the Roll

All COM orders must include the following:
- Vendor's name, pattern name and color
- Sample of the fabric attached to order
- Model numbers of items for fabric application
- Special application instructions (e.g., all stripes will be applied front to back unless specified otherwise)
- Customer and purchase order number

Ship prepaid COM material to:
JSI
Attn: COM Dept
932 Mill St.
Jasper, Indiana 47546

Application of fabric:

Railroaded Up the Roll



All COM orders will ship at standard lead time from receipt of COM.

3. Product Options:
- EC13 Cutout:

Specify
EG030
NOTE: EC13 will be located in the center of the top. Panel stretcher will ship with wire management channels for cord management.
NOTE: EC13 units must be ordered separately. Refer to page 214 for more information.
- Undersurface Electrical:
Specify the appropriate number below for the circuit number(s) desired.
P1 (circuit 1)
P2 (circuit 2)
PM (mix circuit 1 and circuit 2)
NOTE: Two circuit system requires a hardwire infeed.
When Undersurface Electrical is specified the following will be mounted to the underside of the worksurface: two duplex units, two jumper cables and two H block connectors.
NOTE: Infeed cables and additional jumper cables must be ordered separately. Refer to pages 215-217 for additional information.
