Environmental Mission

Our vision and goal is a sustaining supplier, manufacturer and customer for the long term protection and preservation of our environment for future generations.

MISSION

To achieve this vision, we are dedicated to ensuring the health and wellbeing of all of our partners, reducing negative impact on the environment, and maintaining price structure by increasing efficiencies and reducing consumption.

The Jasper Group family of brands, including JSI, is an international manufacturer that has been an environmentally conscious organization for more than 80 years.

We are proud to use wood as our primary sustainable material resource and all corporate policies and procedures support the efforts to "recover, recycle, reuse, repurpose, reduce, refuse, and re-engineer". In doing this, we are committed to the conservation of the environment and its natural resources as well as encouraging our suppliers and customers to do the same. A goal of a "Sustainable Partnership", supplier, manufacturer and customer, is essential for the long term protection preservation and sustainability of our environment for future generations.

LOCATION

Our manufacturing facilities are located in Southern Indiana. With our diverse product offering and manufacturing capabilities, we provide a single source for all of your project needs allowing you to conserve our fossil fuels and reduce greenhouse gases.

PACKAGING

We place emphasis on the minimal use of disposable packaging while still providing adequate protection to the finished product. Our corrugated packaging is recyclable, reusable, and up to 100% recycled content. We reuse or recycle more than 125 tons of corrugated material annually.

REGULATORY

All of our manufacturing facilities are in compliance with applicable OSHA regulations and meet or exceed all applicable DEM and EPA regulations for air emissions, storm water and hazardous waste disposal.

MANUFACTURING FACILITIES

Our manufacturing facilities are geared toward eco-efficiency and are encouraged to continually improve and conserve. Solid wood not used in the direct manufacturing process is recovered for the operation of our dry kilns, thus reducing greenhouse gases, the use of fossil fuels, and the burden of waste placed on landfills. Composite panels not used in the direct manufacturing process are ground and sold for use as animal bedding. In addition to other energy savings techniques, our manufacturing facilities use high efficient lighting, make use of power factor capacitors, and encourage all to conserve and reduce energy consumption and water usage. Condensation pumps are used to aid in water conservation as well as extending boiler life.

MANUFACTURING PROCESSES

Our finish processes utilize efficient spray guns and proper spray techniques to reduce wasted material. Excess finish material, solvents, and waste are recycled. Many of the assembly processes use water based glues that contain no hazardous ingredients.

TEXTILES

Many of our fabric options utilize up to 100% recycled content. Our leather alternative program includes selections that contain no toxic materials, plasticizers, heavy metals, or formaldehyde and have a 100% biodegradable back cloth. Some of the available panel fabric used, if discarded is a biological nutrient for the soil. Most of the components (foam, batting, and polycord) used in upholstered products are recyclable and contain various percentages of recycled content. Excess fabrics and leathers not utilized in the upholstery process go to recyclers and local charities for additional use.

WOOD

Wood is the most diverse, most process friendly, and most widely utilized natural resource in mankind's history. No other natural resource can match the environmental advantages of wood, including being renewable, recyclable, natural, carbon negative, and biodegradable. Utilizing the sun's energy, trees grow and remove carbon dioxide from the air while giving off oxygen to benefit the entire planet. Approximately 49% of wood's dry weight is carbon and harvesting mature trees in a sustainable forest, which has slowed in the absorption of carbon dioxide, allows the photosynthetic cycle to continue at full optimization and allow for the carbon to remain sequestered. We are proud to use wood as our primary "sustainable" renewable resource.

WOOD OPTIONS

Many environmentally friendly solid wood and engineered wood options are available for quote, including: Lyptus®, Plyboo®, reclaimed woods, agricultural and post-consumer waste fiber products, soy-based resin bio-composites, etc.

INDOOR AIR QUALITY

Our goal is to reduce the impact our products will have on the indoor air quality. We practice the latest technologies and utilize a third party to assure we meet this goal. GreenGuard, one of the leaders in IAQ certification, continues to certify our product offering, awarding us the UL2818 - GreenGuard Indoor Air Quality standard.

Warranty (Conference Products)

JSI warrants, to the original purchaser that each piece of furniture will be free from defects in workmanship, given normal use for a period of fifteen (15) years of single shift service. Drawer suspensions carry a life time warranty. Fabric manufacturer's warranty will apply. Electrical items not manufactured by JSI are covered for a period of one (1) year. JSI will, at its option, repair or replace any defective merchandise with the terms of this warranty.

JSI makes no expressed or implied warranties to any product and, in particular, makes no warranty of merchantability of fitness for any particular purpose.

This warranty does not cover:

- + Natural variations in color, texture of wood, and covering materials over which JSI has no control.
- + Damage created by bottom loading file drawers. File drawers are manufactured for hanging folders only.
- + Normal wear, color fastness, shrinkage, wrinkling, stretching of leather, and textiles.
- + Damage caused by transportation or installation companies.
- + Damage created by any accident, user modification, misuse of product, or neglect of product care.
- + Damage resulting from extreme climate conditions.

Unique Characteristic of Natural Woods and Veneers

JSI uses high quality wood and veneer harvested from sustainably managed forests. Every tree has unique and defining characteristics, like fingerprints. These characteristics can be defined by differences in color, grain configuration, and textures. These characteristics will be more noticeable if the product has a clear or lighter finish.

Maple and Cherry species have a higher degree of uneven distribution of grain, small color streaks, and pin knots.

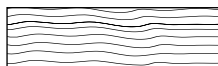

At JSI, we take care of selecting woods and veneers that are used in our products. With this in mind, we hope you appreciate the beauty of each tree's fingerprints. Products will not be replaced due to these natural characteristics.

Veneers can be sliced in a variety of ways to create unique patterns. JSI uses several different patterns, as shown below.

Flat (Plain) Cut as shown in diagram

Quarter Sliced as shown in diagram

Double Cut as shown in diagram

**Double Cut**

The Double Cut veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

JSI uses select beech, cherry, maple, oak and walnut cut wood products to produce the desired look of our furniture products.

Please reference the featured highlights of each product line to identify the species and grain patterns available for that product.

Laminates (Veneer Series)

HPL (Higher Pressure Laminate) laminates can be specified on most of our work surface tops in most of our product lines. Refer to the specification pages for each series. The specification pages will also list the available coordinating finishes. HPL is .050 thick for maximum durability.

Laminate Series

JSI laminate series offer a full laminated product with imprinted grain to hide finger prints and provide durability. The worksurface tops can be specified in either a matching HPL or TFL (Thermal Fused Laminate). TFL is used on the product's chassis. Please reference the featured highlights of each product for additional details.

Finish - Top Coat

To reduce hazardous formaldehyde emissions, we use our proprietary specially designed top coat, DuraTex™. It significantly reduces hazardous formaldehyde emissions and helps improve indoor air quality.

Finish - Color/Stains

A wide range of stains are available to bring out the beautiful characteristics of each wood species. We coordinate finish color between our veneer stains and solid lumber stains; however, not all may be a perfect match. The stains are continually reviewed for accuracy of color, as well as a constant monitoring of the latest color trends in the furniture market.

Finish - Matching

Due to the natural characteristics of wood, environmental effects, and material upgrades, JSI cannot guarantee exact finish matches on existing furniture previously ordered.

If an exact match is required to accompany existing furniture, it must be specified at the time of order placement, so specific internal procedures can be followed to ensure a proper and acceptable finish match. We reserve the right to change our finish formula at any time to improve safety, quality, and appearance. Unless a finish match for existing furniture is requested at the time of ordering, we accept no liability for finish that may not match the existing furniture from prior orders.

Solid lumber may inherently have mineral streaks, pits, and various other natural occurrences. Care is taken in selecting the solid lumber to coordinate with the requested finish on our veneer products. This internal selection process is subject to availability of solid lumber parts.

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of **\$275 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Samples

Samples of standard wood finishes, paints colors, metal colors, and standard laminate are available upon request. The fastest way for requests to be filled is by using our website. See below for options to request samples.

Pricing

Prices found in this document or on our website are list prices in U.S. dollars for standard product delivery to one destination. Prices do not include storage, installation, or taxes. Possession of this price list does not constitute an offer to sell. Orders can only be received from approved authorized JSI dealers.

Prices and product information in this document, as well as our website, are subject to change without notice. Reference website for most up to date product offering and pricing.

Orders

Detailed specification pages are available in the price list at the beginning of each series.

Additional information may be obtained by consulting the Customer Service Department or our website.

Indicate shipping address if different from billing address.

Send Orders To:

US Mail – JSI

225 Clay Street

Jasper, IN 47546

Fax – 812-482-1548

Email – orders@jaspergroup.us.com

JSI reserves the right to make changes in dimensions, styles, or specifications if we believe these changes will improve the safety, quality, or appearance of the product.

Acceptance of orders will be subject to credit approval, barring any acts of governments, or any other causes beyond our control (e.g. strikes, fire, embargo of materials, etc).

Product Modifications

While we offer a wide range of products to accommodate many possible solutions, we also recognize the needs for our products to be modified from our standard offering.

In the series introduction section of each product, we address modification options for that series.

To see if the desired modification is possible, please contact our Customer Service Department for a quote. Note that order quantities and material availability can affect the quote. Additional information may be requested to fully quote modifications.

Order Acknowledgments

All orders will be acknowledged promptly, showing how the order was entered, shipping time, and other information pertinent to the order. It is the purchaser's responsibility to verify all the information on the acknowledgment carefully and notify us immediately, in writing, of any discrepancies.

Published ship dates are contingent upon adverse conditions; however, every effort is made to ship as acknowledged.

Order Cancellations

All cancellations must be made in writing. Administration and/or labor charges may be incurred by the purchaser depending upon the stage of the order. Orders cannot be canceled after the finish process has begun without incurring substantial re-stocking charges.

Once production has begun on product modifications or special finishes the orders cannot be canceled. Items purchased specifically from our vendors for the order, such as textiles or laminates, are subject to our vendor's cancellation terms and re-stocking fees.

Order Changes

All changes to an order must be in writing and dated. Order changes are subject to our ability to conform. Administration and/or labor charges may be incurred by dealer depending upon the stage of the order. No change can occur once production is started.

Quickship

Items indicated with a Quickship symbol  ship within 10 business days of receipt of a clean, credit approved purchase order. Product for up to 10 offices or 10 tables can be selected from the Brogan, Finale or Vision series. See individual product pages for those models available on quickship. Available capacity is filled by orders as they are received. If normal 10 day Quickship is not available because capacity has been filled, you will be immediately notified. Changes and cancellations to Quickship orders are not allowed under any circumstances.

Delivery

Our freight policy consists of prepaid freight to the 48 contiguous states; all other shipments prepaid to port of exit ONLY. JSI reserves the right to select the appropriate carrier and shipment routes. Standard deliveries require docks that can accommodate 75 foot trucks. Pricing in this book is for standard delivery. Standard delivery does not include non-dock delivery, inside delivery, residential delivery, or installation of product. Special requests for delivery should be done at the time of ordering. See below for charges for special delivery.

Orders of less than \$1,000 net will be assessed a handling charge of \$75 net per order.

Charges for special delivery request (net pricing):

- + Lift Gate/Non-Dock Delivery – \$75 per occurrence
- + Inside Delivery – 5% of order total with a minimum of \$50
- + Residential Delivery – \$75 per occurrence

Any charges arising from failure to meet shipment, re-routing while in transit, or carrier storage charges are the responsibility of the customer.

Contact Customer Service to inquire about skidding of products, special crating of products, blanket wrap services, and product installation. These requests must be made at the time of order.

Freight Damage

JSI products are packed in cartons and meet or exceed existing codes for furniture and seating products. All shipments are delivered to the carrier in good condition and our liability ceases thereafter. If delivery arrives short or damaged, contact the carrier immediately to file a claim. In the event of concealed damage, notify the carrier and request immediate inspection. Failure to file a claim within 15 days after receipt of merchandise constitutes acceptance and a waiver of any such claims. Please inspect merchandise immediately upon receipt, otherwise there is no recourse. Keep all cartons and packing material, discarding these materials may negate your claim.

Storage of product in areas of uncontrolled humidity and temperature may cause damage to the product and void the JSI warranty.

Repairs

JSI will not issue credit allowance for any type of repairs without prior written consent.

Sales order, product model numbers, and reason for repair will be expected in order to process the repair request. A digital photo will help to expedite the request. JSI reserves the right to recommend solutions for repair.

Returns▲

No merchandise may be returned to JSI without a signed Return Good Authorization (RGA) form issued by our Customer Service Department. Any authorized return not due to damage or defect will be accessed a 45% restocking fee and all return freight charges must be prepaid. Additional restocking fees may apply for any modification, special or custom built product.

Liability for defective merchandise shall be limited to replacement or repair.

Under no circumstance can we accept COD (Cash On Delivery) returns. Any such shipment will be refused.

Replacement Parts

Obtain information and pricing on replacement parts by contacting Customer Service. Please have the model number available when requesting replacement parts. Additional information may be required to ensure proper replacement parts.

Care and Maintenance

Care of Upholstery Surfaces

Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and then wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Maintenance of Mechanical Parts

Clean any lint or debris from the moving parts of the base mechanisms. Mechanisms have been designed and tested to not require lubrication under normal conditions; however, lubricant can be used if needed.

Care of Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. For an additional safeguard, use a protective surface pad. This will ensure a lasting finish by protecting your furniture from possible damage caused by pens, cups and sharp objects. Avoid exposure of furniture to extremes of heat and cold, or to wide humidity variances. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration. If using a protective glass top, place spacer pads under the glass top to allow the wood to breath.

Care of Metal Finishes

Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textiles metals with a soft, dry brush to remove dirt.

Fire Retardancy

At a minimum standard, all JSI upholstered products are manufactured to comply with Bureau of Electronics, Appliance Repair, Home Furnishings and Thermal Insulation-Technical Bulletin 117-2013 issued by State of California Department of Consumer Affairs. With a January 1, 2015 effective date, this standard was passed and requires upholstered furniture to be safer from the hazards associated with smolder ignition in all four (4) categories of materials, as applicable.

Compliance with more stringent codes may require special manufacturing considerations and upcharges.

California Technical Bulletin 133 (CAL 133)

JSI uses a barrier material between the foam cushioning and the upholstery cover in order to comply with CAL 133. The standard upcharge on products specified to comply with CAL 133 is \$55 list per yard of textile.

JSI has performed a series of full scale fire tests on samples - representing a variety of product styles and worst case scenarios of upholstery covers - to comply with the requirements of the state of California Technical Bulletin 133 (CAL 133). Products in compliance will be labeled that they have been manufactured to meet the CAL 133 standard. Only products with internal test data can be labeled.

Some product designs and fabric cannot be combined to comply with CAL 133. Because of this, we reserve the right to reject any request for an upholstery cover, including COM, or product style that we feel may compromise the integrity or safety of a product specified to comply with CAL 133.

Contact Customer Service for a quote if you require laboratory certification that a specific product and upholstery combination WILL PASS CAL 133. The quotation will include testing, video, and transportation charges plus the list cost of the sample.

Our standard lead time will apply to products that do not require certification. Allow an additional six weeks over the standard lead time for products that need actual laboratory certification.

The end user, specifier and/or dealer have the responsibility to make sure all products specified will meet the flammability and safety codes of the jurisdiction where the products will be located and used.

Textile Carded Programs

JSI is proud to partner with Maharam, Momentum, Ultrafabrics and Wollsdorf Leather. Please refer to the respective pages in this pricer for each of these partners. Scan the QR codes on the back of the swatch card for latest grades and other information.

Textile Grade-In Programs

For the convenience of our specifiers, we have graded in the following suppliers:

Arc Com	Pallas Textiles
DesignTex	Stinson
Maharam	Ultrafabrics
Mayer	Wollsdorf Leather
Momentum	

Please contact Customer Service for pricing grades on textiles and leathers not listed.

Indicate on purchase order if JSI is to order the fabric.

Grades and availability of fabric are subject to change without notice. Changes could include but are not limited to price increase, discontinued patterns, discontinued colors, etc. See jsifurniture.com for up to date information.

Many textiles have repeats and the additional yardage required has been factored in for textiles ordered through the JSI Carded and Grade-In Programs. We reserve the right not to match textiles with a horizontal or vertical repeat greater than 17". Additional charges may apply for textile being applied with special instructions.

Some fabric thickness may cause issue with proper upholstering of tackable wall panels or upholstery privacy screens. Please contact Customer Service, with concerns on the fabric thickness for these items.

COM Policy

Refer to the COM price column for list prices.

All yardage requirements listed in the price list, are based upon 54" plain non-directional material. The textile on most products is cut "up the roll"; refer to the check list pages for each individual series for further information.

Additional yardage may be required. Contact Customer Service for any of the following conditions to assure proper yardage:

- + horizontal repeats or vertical repeats greater than 3"
- + textile less than 54" wide off the roll
- + patterned textile to be applied a special way

To assure quick turn around and accurate calculation of yardage, please supply the following information:

- + supplier's name
- + pattern name and color name
- + the JSI model numbers and the order quantity
- + any special direction and/or special instructions

We cannot assume responsibility for defective COM delivery to us or for the tailoring quality issues some textiles may create. Bulky textiles, thin weight textiles or fiber content may not tailor well on some models.

COL Policy

Refer to the COL price column for list prices.

Customer's own leather requirements are based on an average hide of 50 square feet.

Contact Customer Service for requirements on any other sizes.

All square footage requirements are based upon usable footage. The shape of the hide and the usable footage may make it necessary for us to request additional leather.

Placing Orders with COM or COL

COM & COL orders must include the following:

- + model number where the COM or COL will be applied
- + textile/leather supplier's name
- + sample of the textile/leather attached to order
- + special application instructions

Ship COM/COL prepaid to the following:

JSI

Attn: COM Dept
12th & Vine Street
Jasper, IN 47546

Make sure the supplier tags the shipment with the customer purchase order number and sales order numbers if available.

All COM/COL orders will ship at standard lead time from the delivery of the COM/COL, except for orders requiring special custom matched finishes or special application of the COM/COL.

Specification Tools

JSI products are manufactured to order and provide a multitude of options to address your individual customer needs. As you process your order do not forget to include all the necessary information to allow the order entry process to be completed. Please see the order checklist at the beginning of every series.

JSI Customer Service edits every order for complete information. If details are not included with the purchase order, Customer Service will contact you to answer these questions. If information is not completed in a timely manner it will delay the entry process and could effect your product delivery date. To avoid delay in order entry and potential delay in delivery of your order, please double check the line items to ensure all selections have been completed.

To ensure completion of details on your purchase order, electronic catalogs and specification tools have been developed to aid in the process. These electronic tools include:

20-20 GIZA Studio and 20-20 CAP Studio software offers state-of-the-art design, specification, photo-realistic rendering and three-dimensional visualization capabilities for configurable products in the commercial interior design markets. 20-20 GIZA Studio and 20-20 CAP Studio are available for all JSI Casework and Seating products, in 2D and 3D graphics and the Specifier Catalog.

ProjectMatrix, Inc. offers a full software solution for the contract furniture industry. Their software can help you create space plans to specifications for ease of specifying our JSI Casework and Seating product lines.

GSA Advantage is a Federal Government electronic catalog site offered to assist GSA customers in specifying and pricing JSI product. Listed at this site are all contract items and prices under GSA Contract # GS-28F-0030U.

Our JSI website jsifurniture.com provides many tools to assist in the design and order selection. Included in the site are downloadable images, typicals, product symbols, brochures, contact information, price lists, sales representative locations, warranty and environmental information.

GSA Terms and Conditions

Contract Holder

Contract # GS-28F-0030U

In addition to the standard terms and conditions, the following terms and conditions apply to GSA contract.

Contract Number

GS-28F-0030U

Contract Period

September 23, 1999 - June 24, 2018

Statement of Intended Use

The furniture covered by special item numbers 711-8, 711-9, 711-11, 711-16, 711-17, 711-18, 711-19, and 711-95 is intended for use by Government executives (or equivalent military rank) in the executive, judicial, and legislative branches or armed forces of the federal government. To help customers make a good purchasing decision based on their needs and budget, GSA has established four grades of furniture: Grade (1) includes furniture that tends to be the most expensive on this schedule, Grade (2) furniture tends to be more moderately priced and Grades (3) and (4) furniture tend to be affordable pricing when compared to grades (1) and (2). The ordering agency or service is responsible for determining furniture appropriate for use in its offices which will fit within budget and comply with applicable federal or internal agency procurement regulations.

Description of Special Item Numbers SIN#

711-8	Executive office furniture
711-9	Executive conference room furniture
711-11	Tables, occasional and conference
711-16	Upholstered seating
711-17	Multiple seating
711-18	Multi purpose seating
711-19	Stacking chairs and dollies
711-95	Installation services (not to exceed 12% of net prices for projects where installation costs are \$500 or less.) Installation costs over \$500 are negotiated on a case by case basis.

Maximum Order

711-8	\$500,000 (five hundred thousand dollars) net
711-9	\$500,000 (five hundred thousand dollars) net
711-11	\$500,000 (five hundred thousand dollars) net
711-16	\$300,000 (three hundred thousand dollars) net
711-17	\$200,000 (two hundred thousand dollars) net
711-18	\$200,000 (two hundred thousand dollars) net
711-19	\$200,000 (two hundred thousand dollars) net
711-95	\$150,000 (one hundred fifty thousand dollars) net

Minimum Order

\$100 (One hundred dollars) net

Notification Regarding Registration in SAMS Database

Name: Jasper Seating Company, Inc.

Cage code: 31881

Acceptance, Modification, Assignment

By placing this order for furniture, material or other products (sometimes collectively referred to as "goods"), customer agrees to these terms and conditions which shall prevail over inconsistent provisions in any other form or document of customer. No change or modification shall be applicable unless set forth in writing and signed by company. Neither this order nor any interest therein shall be assigned by customer except with the prior written consent of company.

Payment

Customer agrees to pay to company the amount indicated on the invoice, 1% 15 days, net 30 days from date of invoice (U.S. funds only), for goods ordered. Interest will be charged after 30 days from the date of invoice at the rate of one and a half percent (1.5%) per month. International sales will require additional payment arrangements. No goods shall be sold on consignment or conditional sales basis. Payment for the goods delivered hereunder shall constitute acceptance thereof.

Attorneys' Fees

Customer shall be responsible for all expenses and cost in connection with the enforcement by company of these terms and conditions and the cost of collection (including the fees of any collection agencies to whom the customer's account may be referred), plus reasonable attorneys' fees (which attorneys' fees shall not be less than 25% of the amount due, unless a lower amount is specified by applicable law).

Remedies

The remedies herein reserved shall be cumulative, and additional to any other or further remedies provided in law or equity. No waiver of a breach of any provision of these terms and conditions shall constitute waiver of any other breach or of such provision.

Insolvency

Company may forthwith cancel this order in the event of the happening of any of the following or any other comparable event: insolvency of the customer, the filing of a voluntary petition in bankruptcy, the filing of any involuntary petition to have customer declared bankrupt provided it is not vacated within thirty (30) days from the date of filing, the appointment of a receiver or trustee for customer provided such appointment is not vacated within thirty (30) days from the date of such appointment, or the execution by customer of an assignment for the benefit of creditors.

Limitation of Liability

The Company shall not under any circumstances be liable to the customer, owner of the goods or any third party for special, indirect, incidental, or consequential damages, including, without limitation, loss of profits or revenues, loss or damage to other property or equipment, cost of capital or of purchased or replacement goods, or expense, delay, or inconvenience caused by or arising from the purchase, sale, use, repair or inability to use the goods or by any performance or non-performance under, or breach of, these terms and conditions. The Company's sole liability for any defective goods shall be its repair or its replacement pursuant to the express warranties set forth above, or if amended, as applicable at the time of manufacture or repair of the goods. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to all customers. Any action resulting from any breach on the part of company as to the goods or services delivered hereunder must be commenced within one year after the cause of action has occurred.

Returns and Allowances

Reasonable touch-up and deluxing is the dealer's responsibility. The Company will not make allowances for trip or delivery charges, but will only make allowance for actual work performed to correct manufacturing defects. Allowances may be authorized only by a company officer. It is the responsibility of the field sales representative to inspect any defective merchandise and make suggestions and recommendations as to the proper disposition. Field personnel cannot obligate or bind the company by definite agreement, without final authorization by a company officer. Company will not accept automatic charge backs which do not have prior authorization. All defects must be called to the company's attention upon arrival at the customer's "ship to" destination. To initiate any type of claim or request for parts, it is imperative to have the model number or fabric number, which may be located on the tag attached to the frame of the unit. Authorization for return to the company via a return goods authorization. Company will not issue credit allowances for any repairs without company's prior consent. Under no circumstances shall the company accept COD (cash on delivery) returns, and any such shipment will be refused.

GSA Terms and Conditions

Security Agreement

The Company may require and customer shall grant a security interest in goods sold pursuant to any credit the company may extend to the customer.

Governing Law

All disputes between the parties, whether or not arising out of these terms and conditions, will be governed by the laws of the state of Indiana. Customer agrees to submit to the jurisdiction of and agrees all lawsuits relating to any disputes between the customer and the company will be brought only in a state court located in Dubois County, Indiana or the United States District Court for the Southern District of Indiana. The customer hereby waives the right to a trial by jury in any action, proceeding, claim, or counterclaim whether in contract or tort, at law or in equity, arising out of or relating in any way to these terms and conditions and all other disputes between the parties.

Mitigation

If the company repossesses the goods prior to payment by the customer of all amounts due hereunder, the company may sell the goods, as is, where is, free and clear of all rights of the customer at either public or private sales, and apply the net proceeds (after deducting expenses of repossession and sale) to the obligation of customer hereunder. The customer may dispose of the goods in any commercially reasonable place and manner and the customer waives any notice of time, place and manner of sale.

Integration

This order for goods, including these terms and conditions, along with any credit application, invoice, statement, dealer contract, acknowledgment, bill of lading (and any exhibits, addenda or amendments thereto) of which this order may be a part, constitutes the sole and complete agreement between the company and the customer with respect to the purchase of the goods.

Dimensions/Specifications/Finishes

All dimensions are approximate and may vary due to the upholstery technique of each craftsman. If exact dimensions are required, it is necessary for the customer to state such specifications with the order. Detailed specifications sheets are available for each series of goods, and customer should consult the company's customer service department for these specification sheets. Company reserves the right to make changes in dimensions, style, or specifications if company believes these changes will improve the goods' quality or appearance. Company reserves the right to substitute hardwoods due to availability at production. Due to the natural characteristics of wood, environmental effects, and material upgrades, the company cannot guarantee exact finish matches on existing goods previously ordered from company. If an exact match to customer's existing goods is required, it must be specified so that the proper procedures can be followed to ensure an acceptable finish. Company will accept no liability for the finish if this procedure isn't followed. Company reserves the right to make changes in a finish formula if company believes the change will improve the quality or appearance of company's goods.

Company's Performance of Its Obligation

The production and delivery of the goods to the extent delayed or hindered or prevented from the performance by reason of natural disasters, acts of god, strikes, lockouts, labor troubles, inability to procure materials, casualties, failure of power, restrictive governmental laws or regulations, riots, insurrections, acts of terrorism, war or other reason of a like nature not the fault of the company shall excuse for the period of the delay the company's performance and the period for the performance shall be extended for a period equivalent to the period of such delay.

Contemporary / Transitional - Conference & Meeting Room Product

Apogee™ Product Information

Wood Materials

Exterior surfaces are made from the finest selected veneers. Matching solid lumber wood species are used to coordinate with the veneer. High quality MDF is used on the painted surfaces.

Apogee™ is available in quarter cut Walnut, quarter cut Maple, quarter cut Makore or Double Cut veneer.

Exterior Metal Materials

A custom shaped extruded anodized aluminum pull is used on the drawers and doors. The thin profile glass door frame is also anodized aluminum, along with the valance rail used with task lights on overheads.

Leg and Post frames are fabricated steel tubing finished with a Bright White or Arctic Silver powder coat. Shelf dividers, wire dividers, and other metal trims are fabricated and finished in a matching Silver powder coat.

Metal Finishes

ASL Arctic Silver BWH Bright White

Worksurface Construction

All tops are 1 3/8" thick with 3-ply construction and trimmed off with matching 1.5mm rims. Worksurface tops are only available in the Apogee™ veneer options. Requests for laminated tops will need to be reviewed for approval, contact Customer Service.

Case Construction

All cases are constructed with mortise, tenon, and dowels. Interior cases are reinforced with glued cleats and screws. Panels for cases are normally 3/4" thick with 3-ply construction. All pedestals have enclosed bottoms.

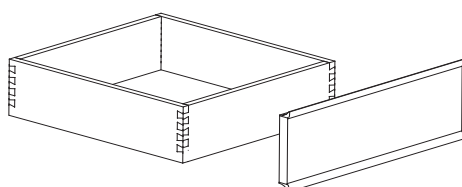

Plinth style bases are attached directly to the bottom of the cases. The metal glide housing inside the base provides for accurate leveling. Front and back glides in drawer pedestals can be adjusted up and down by removing the lower drawer and using the glide access hole located in the bottom of the case.

Cabinet doors have 110° swing hinges to allow adequate access into cabinets. Hinges are fitted with a soft close device, requiring only a soft push to close the door. Units taller than 18" are fitted with an adjustable shelf.

Drawer Construction

Drawers are assembled using a four corner dovetail box and 3/4" thick drawer bottom panel construction. The exterior front is attached separately. Sides and backs are approximately 1/2" thick solid hardwood. Drawer components have a UV finish to protect against shrinking, swelling, or warping and to provide a clean smooth feel and appearance. Lateral files have reinforced bottoms.

The exterior front panel is 3-ply and 3/4" thick. The front is attached to the assembled drawer box. The anodized aluminum pull runs along the top or bottom edge of the drawer front.

box drawer and front with pulls (middle drawer)
wood drawer box - DRW

Drawer Suspensions

Suspensions are black and carry a lifetime warranty. File and Box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear. Suspensions on utility, box and file drawers have a soft close device, allowing for an effortless closing of the drawer.

Filing Systems

All drawers intended for filing come with clips and metal stretchers to accommodate hanging folders.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Apogee™. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. **Quality** - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. **Durability** - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Special Finishes

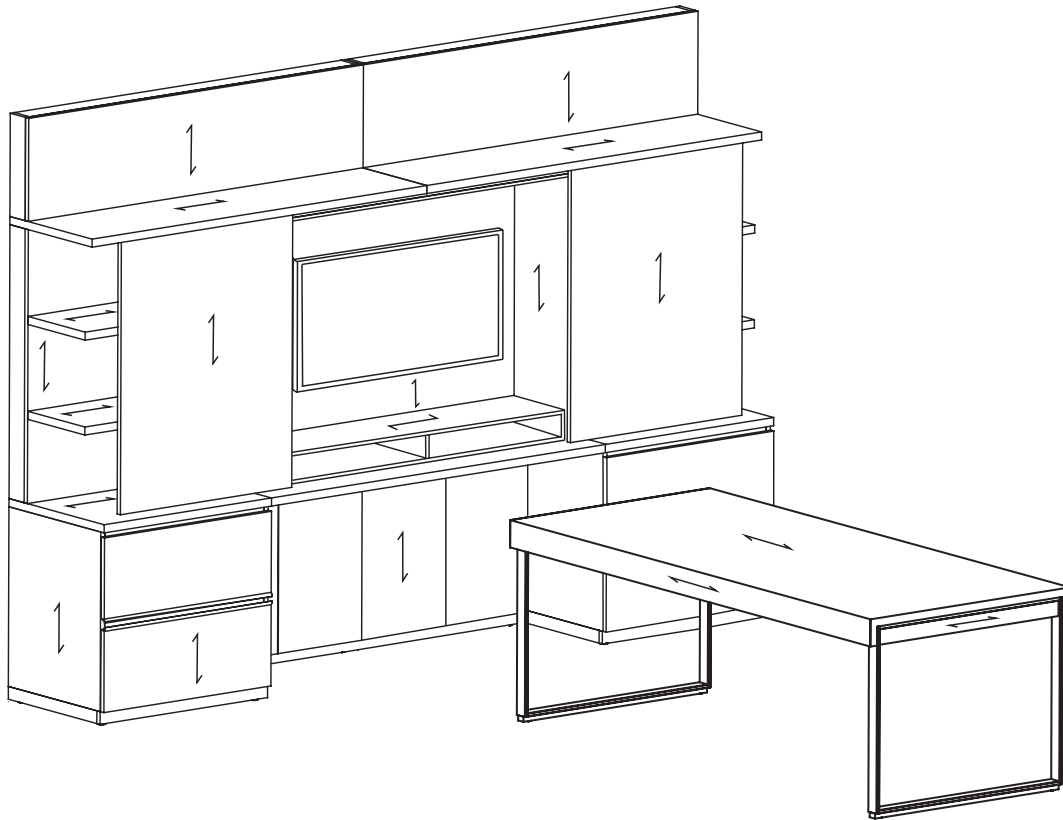

Special finishes can be requested by following the instructions in the general introduction section, page 3. There is a one time charge of \$275 list per order.

Special Top Sizes and Cabinets

Apogee offers a large offering of products to create a perfect meeting room. Contact Customer Service if you are having trouble finding the right units to complete the desired configuration. Special sizes and cabinet variations need to be approved by JSI engineering.

Apogee™ Product Information

Quarter Cut Veneer Grain Direction

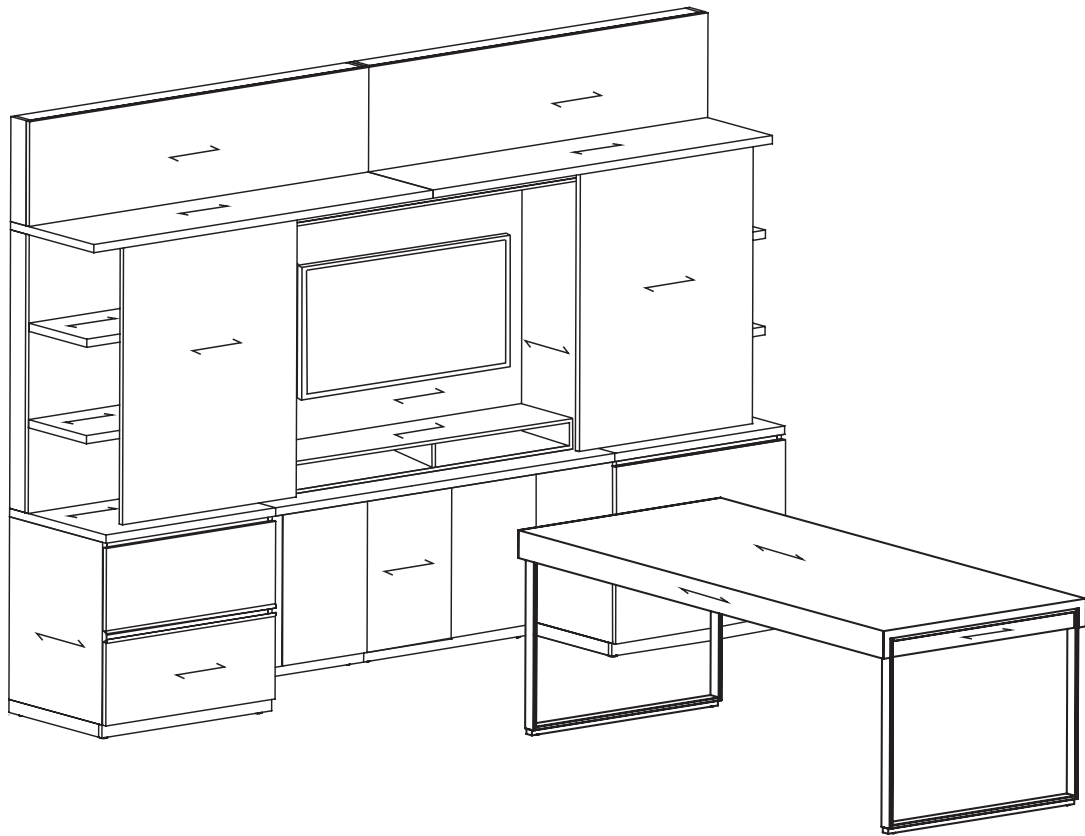

Quarter Cut Veneer

Standard direction for quarter cut veneer on Apogee™ is vertical.

The log is cut into quarters prior to slicing. This method bisects annual growth rings and results in a straight grain or ribbon-striped appearance.

Apogee™ Product Information

Double Cut Veneer Grain Direction

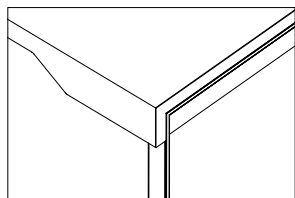

Double Cut Veneer

Standard direction for double cut veneer on Apogee™ is horizontal.

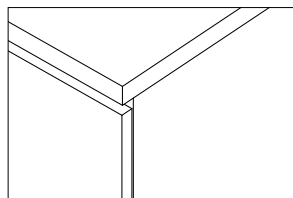

This veneer uses multiple layers of thin wood which is re-assembled, then re-cut in a factory, under controlled specifications. The veneer used in our program is a uniform straight grain pattern and is pre-stained for color consistency.

Apogee™ Product Information

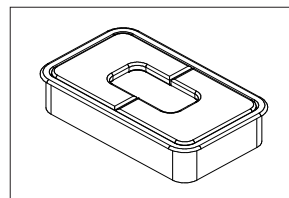

Corner Profiles and Grommet

corner of an open frame end table

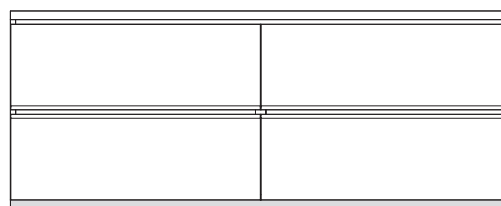

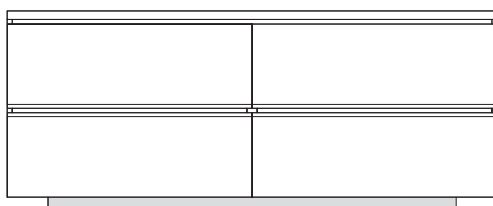

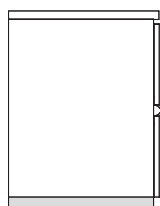

front corner of a credenza top

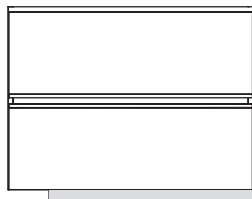

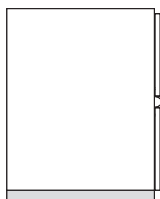

standard worksurface grommet

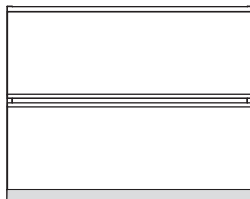

Base Details

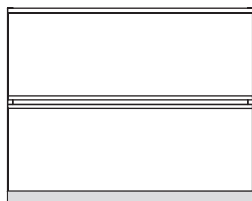

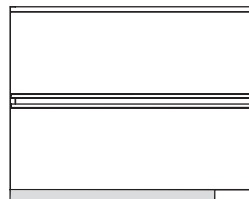

Stand alone laterals and credenzas are available with either a 6" inset base or a flush base; all have a $\frac{3}{4}$ " inset on the front base.

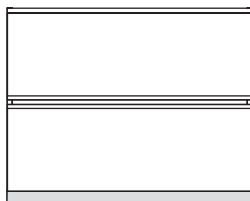

+

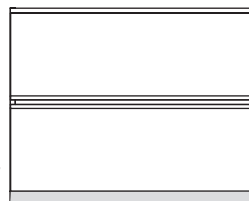

+

+

+

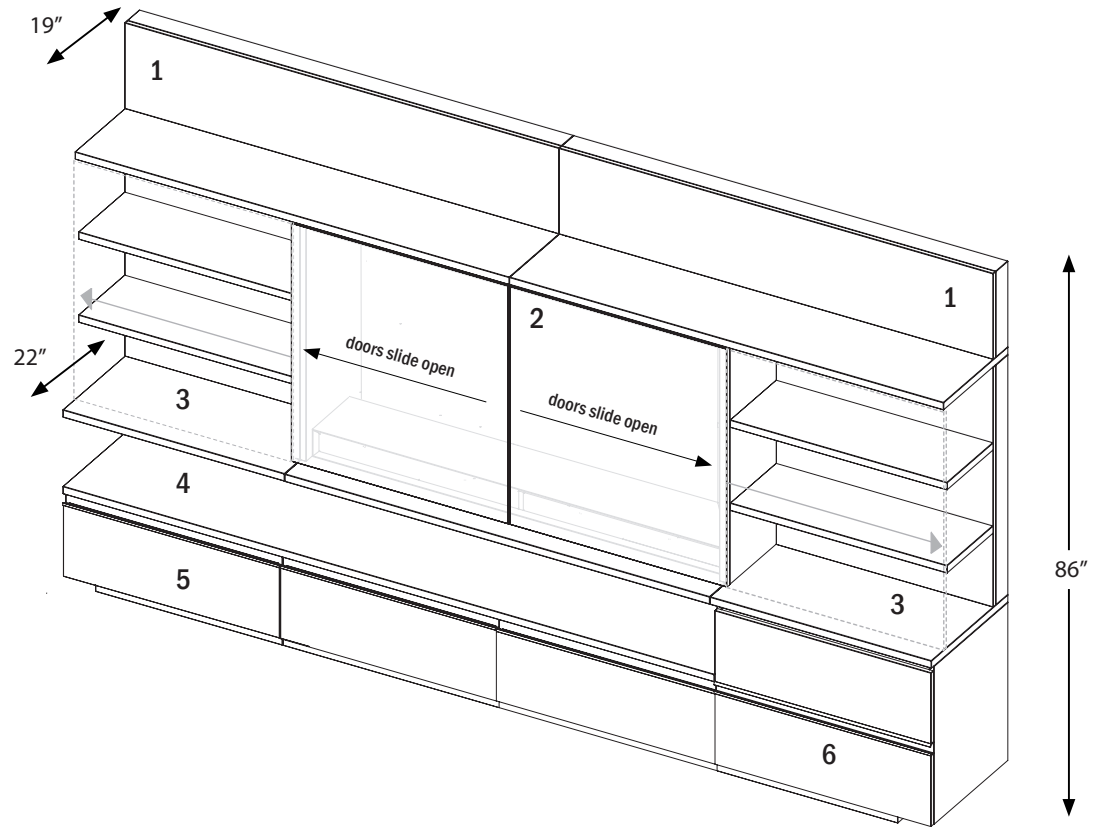

Modular units, storage cabinets, and wardrobes with bases are available with left inset, flush, or right inset.

Inset bases on the sides are 6", all have the front inset $\frac{3}{4}$ ".

*** Specify the correct models to create the desired aesthetics.

Apogee™ Product Information

Workwall Components

Workwalls can be specified with Open Shelves or Workwall with Work Centers solutions

One height & one depth of workwall
Left and Right End Section specified as a set
Tops are included with each section of workwalls components

1 Sections of Workwall

Doors available in veneer finish, paint, or back painted glass with or without magnetic feature. Wall attachment required.

2 Workcenter

Five different configurations: shown monitor center, refer to casegood volume 1, price book for additional configurations.

3 Tops (included with Workwall components)

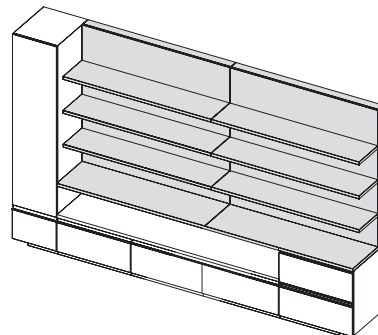

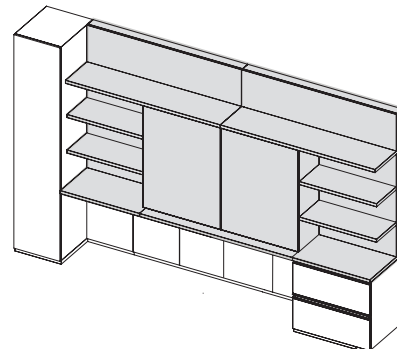

4 Partial Wall Access Panel

Tops included with some units.

5 Low Storage: One-High Lateral File

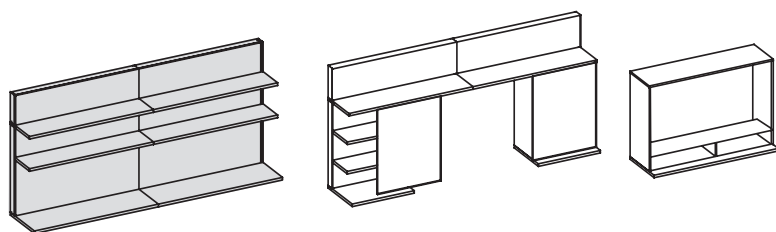

6 Low Storage: Two-High Lateral File

Additional Layouts

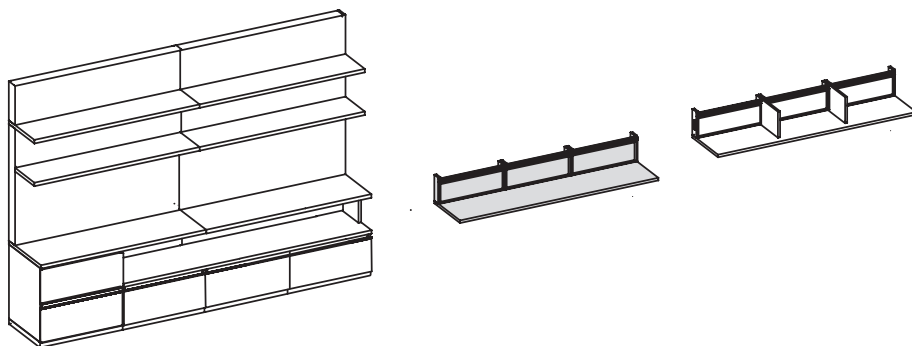

Apogee™ Product Information

- **1** Select an overall layout style.
Consider the overall width, Workwalls are available in 144" or 120" widths.
- **2** Choose the workwall, either full open shelves or units with an open center section and doors. When choosing the units with doors you must also select a workcenter, this is required and is specified as a separate model.

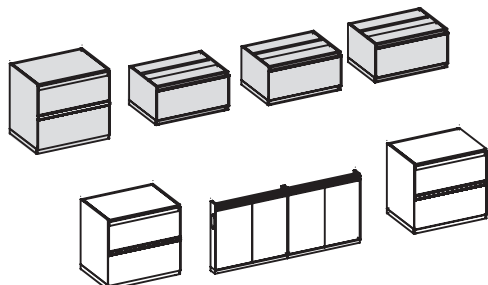

- **3** If using one-high storage/lateral, select the correct kneespace access unit.
If side units such as wardrobe cabinets flank the workwall use the unit without the built in support extensions.

Note: These units are only needed when NOT using a workwall and without adjacent storage support

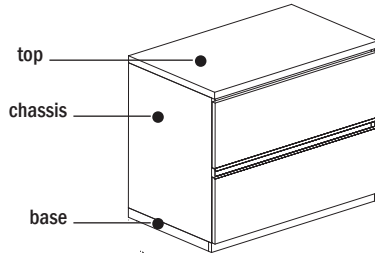

- **4** Choose the lower units to complete the workwall.

Apogee™ Product Information

Finish & Paint Scheme

(see page 28 for list finish options)

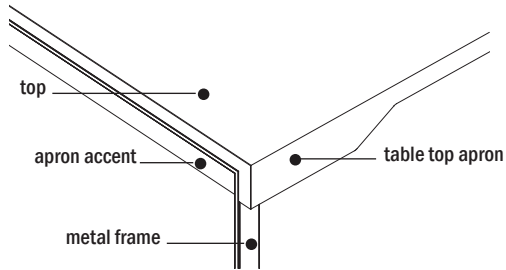

tops - veneer only

chassis/drawer fronts - veneer or paint

base - must match either top or chassis

can only choose one veneer finish and one paint per unit

top and table top apron - veneer only

accent apron - veneer or paint

metal frame - arctic silver or bright white

can only choose one veneer finish and one paint per unit

Broadway Conference Product Information

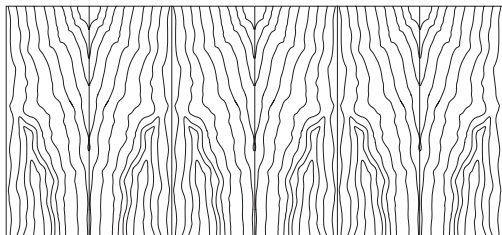

BROADWAY

Broadway Conference Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Broadway product line. To attain a pleasing, symmetrical pattern, all veneers in Broadway are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Broadway is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Solid painted finishes on the veneer are also offered to provide an accent to the Broadway product.

Work Surface Construction

Tops are 5-ply balanced construction, 1 1/2" thick with solid matching hardwood edges.

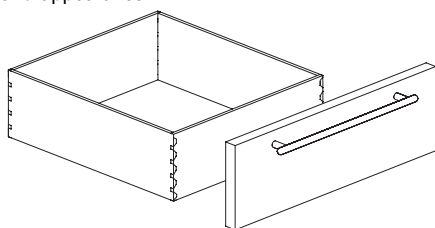

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

Case Construction

Outside panels are 13/16" and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Leveling glides are set into solid hardwood blocks with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Drawers

The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1/4" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Broadway. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Broadway Conference Product Information

Product Modification

Laminate Tops

Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
<i>Autumn</i>	<i>Ale</i>	<i>Auburn</i>
<i>Barley</i>	<i>Cinnamon</i>	<i>Mocha</i>
<i>Bourbon</i>	<i>Venetian</i>	<i>Night Owl</i>
<i>Brighton</i>		<i>Sienna</i>
<i>Classic</i>		<i>Toffee</i>
<i>Legacy</i>		<i>Truffle</i>
<i>Praline</i>		
<i>Saffron</i>		

Special Finishes

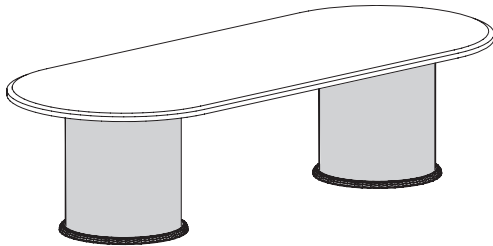

Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of \$275 list per order.

Finish Sheen Modification

Finish sheen can be modified on the worksurface tops. There is a 15% upcharge added to the list of each item.

Two-Tone Finish

Units specified in a two tone finish (either two different paint finishes or a paint finish and wood stain) requires approval with an upcharge of 8% to the list price. Color paint finishes are formulated for maple veneers and are not available on any worksurfaces.

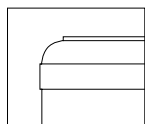

Oak Veneer

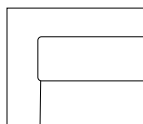

Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

Collective® Conference Tables Product Information

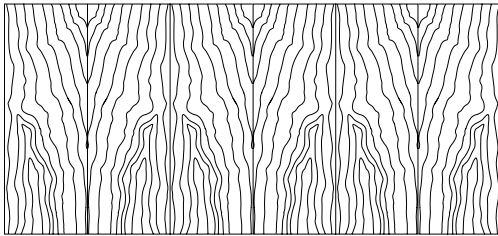

COLLECTIVE® CONFERENCE

Collective Conference Tables Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Collective® Conference product line. To attain a pleasing, symmetrical pattern, all veneers in Collective® Conference are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Collective® Conference is available in flat cut cherry, makore, maple, and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Anegre veneer is a premium veneer choice and is quarter cut to have a figure cut (fiddle back) pattern. There is a 15% upcharge applied to the list for Anegre veneer.

Solid painted finishes on MDF are also offered on bases, drawer and door fronts to provide an accent to the Collective Conference product.

Work Surface Construction▲

All tops are 1 3/16" thick with 3-ply construction and trimmed off with matching 1.5mm rims.

Tops are available in wood veneer, applied glass or laminate surfaces. No additional charges for laminate when selecting standard coordinating laminate as listed on the top of the next page.

Chassis Construction

The chassis consists of cherry, makore, maple or walnut book-matched veneer. Mortise and tenon construction. Adjustable leveling glides ensure proper leveling of unit.

Extruded Aluminum Components

Telescopic Feet, Edge Trim Rails, Center Console Components, and Spacers all are made from an alloy aluminum compound, made up of 10% post consumer scrap, 60% post industrial scrap and 30% primary aluminum. The aluminum meets or exceeds the guidelines of USGBC - LEED V2.2. The parts are precisely machined and then processed in a clear anodized finish for a natural aluminum appearance.

Fabricated or Casted Metal Components

Base Trims, Base Pans, Scones and Wire Pans are made up of high grade metals. The metal is laser cut, bent to shape and robotically welded to the exact specifications, polished and powder coated to blend with the anodized aluminum.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Collective® Conference. Please see the chart below. Samples are available upon request, through our website or by contacting Customer Service. Former finish names are listed in parentheses for reference.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Collective® Conference Tables Product Information

Product Modification

Laminate Tops

Work surface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request.

Special Finishes

Special finishes can be requested by following the instructions in the general introduction section, page 3. There is a one time charge of \$275 list per order.

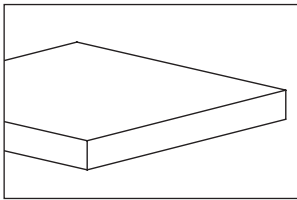

Special Top Sizes and Cabinets

Collective® Conference offers a large offering of table tops shapes and sizes, along with the Collective® Presentation products to create a perfect meeting room. Contact Customer Service if you are having trouble finding the right units to complete the desired configuration. Special sizes and cabinet variations need to be approved by JSI engineering.

Collective® Conference Tables Product Information

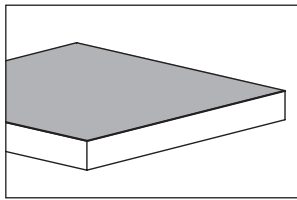

Top Edge Profiles

Collective®Conference offer two edges profiles, along with optional details.

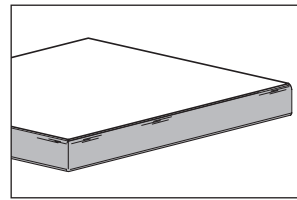

Straight Edge - Veneer

Standard on conference tables and casegoods products.

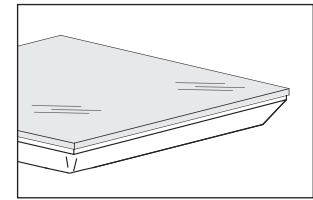

Straight Edge - Laminate

Straight edge with laminate surface available for conference tables and casegood products. See page 73 for standard wood grain laminate.

Aluminum Trim Edge Detail

Aluminum trim edge available only on Veneer rectangular shape conference tops. The trim edge is finished in clear anodized finish.

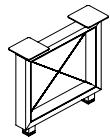

Thin Profile Edge - Glass

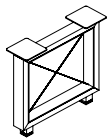

Reverse Bevel edge is available with ▲ back painted frosted bright white glass with either a shiny or matte surface. Available only on conference table tops.

Base Types

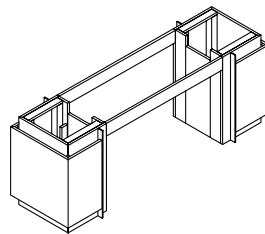

Collective®Conference offers four base styles: open cable, closed cable, panel and rectangular.

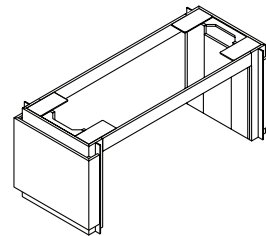

Open Cable Base

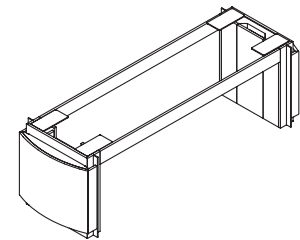

Closed Cable Base

Rectangle Base with Apron Rails

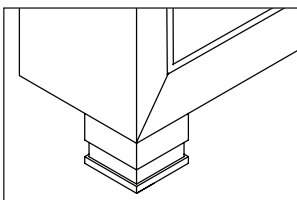

Panel Base with Apron Rails

Arc End Base with Apron Rails

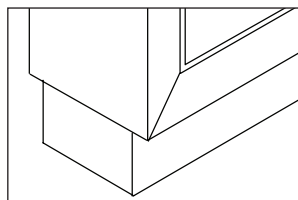

Foot/Plinth Style Base

Collective Conference Open Cable Base and Casegoods features an anodized aluminum foot. For a more classic feel, units may be specified with a wood plinth style base. Rectangle, Panel and Arc End Bases are available only with a plinth base.

Open Cable Bases

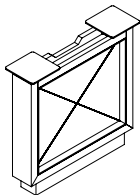

The open cable base features a 1³/₁₆" X-shaped stainless steel cable accent. Open cable bases provide no wire management compartment. The outer frame is wood with a metal inner frame in silver powder coat. Telescopic feet provide 1¹/₂" leveling adjustment.

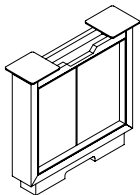

Configured tables with cable bases in this price lists include support rails for the top.

When specifying cable bases and tops separately, support rails may need to be included. Call Customer Service for more information.

Closed Cable Bases

Outside Base
side 1 (approach)

side 2

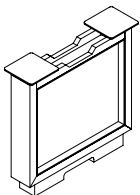

Closed cable bases include a hinged door compartment and plinth base for wire management.

The outside closed cable base features a visible 1³/₁₆" X-shaped stainless steel cable accent on the side opposite the hinge door. Wires pass through an opening above hinged doors. The base is wood with a metal silver powder coated inner frame.

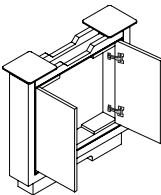

The middle closed cable base features a wood panel on the side opposite the side hinged door. Wires pass through an opening at the top of both sides.

Configured tables with cable bases in this price lists include support rails for the top.

When specifying cable bases and tops separately, support rails may need to be included. Call Customer Service for more information.

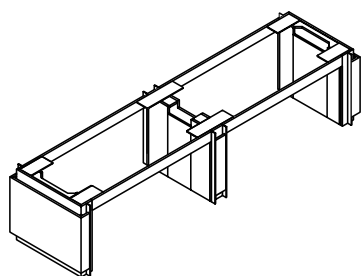

Middle Base
side 1

side 2

Collective® Conference Tables Product Information

Panel Bases

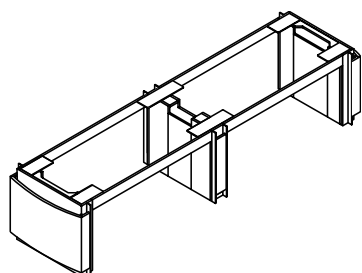

The panel base features slim wood pedestals surrounded by a wood accent. Each pedestal has a hinged door for wire management access and features a silver powder coat metal fin detail.

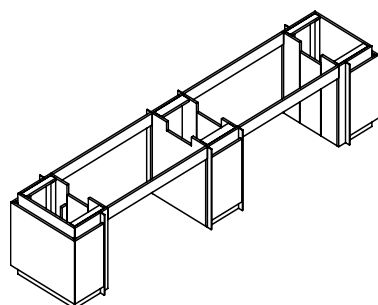

The panel base is standard with rectilinear end bases. Arc end bases may be specified as an option.

Arc End Bases

(an option to the panel base)

Rectangular Bases

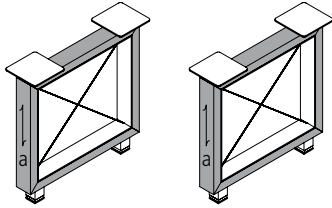

The rectangular base features wide wood pedestals surrounded by a wood accent. Each pedestal has a hinged door for wire management access, an ample storage compartment, and features a silver powder coat metal fin detail.

Collective® Conference Tables Product Information

Open Cable Base

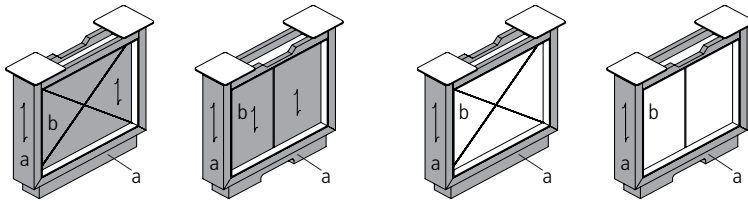

The open cable base is available in veneer only.

Open Cable Base
a. outer frame - veneer only

Closed Cable Base

There are two material options for the closed cable base. The outer frame and plinth are always veneer. The inner panel/door can be specified in the matching veneer or in a contrasting paint.

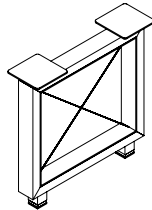

a. outer frame/plinth - veneer
b. inner panel/door - veneer

a. outer frame/plinth - veneer
b. inner panel/door - paint

Collective® Conference Tables Product Information

Round Meeting Tables and Bases

Collective® Conference offers three styles of round meeting tables in several diameter sizes.

Glass Top with Column Disc Base▲

Available Tables - 48" dia - 42" dia - 36" dia (seats 3 to 4)

a Top - ½" glass - frosted glass - acid etch underside

b Base - 26" dia - cast aluminum - arctic silver powder coat

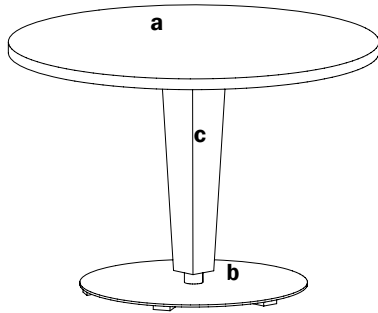

c Column - veneer

maple, makore, cherry and walnut - anegre available with an upcharge (*choice of one*)

d Spider Armature - glass puck (ultra-violet glue attachment) - arctic silver powder coat

Veneer Top with Column Disc Base▲

Available Tables - 48" dia - 42" dia - 36" dia - 30" dia (seats 3 to 4)

a Top - 1½" veneer top (*laminated surface available see page 73*) -

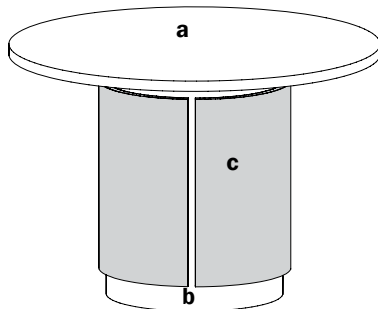

b Base - 26" dia - cast aluminum - arctic silver powder coat

c Column - veneer

maple, makore, cherry and walnut - anegre available with an upcharge (*choice of one*)

Veneer Top with Cylinder Base▲

Available Tables - 48" dia - 42" dia (seats 3 to 4)

a Top - 1½" veneer top (*laminated surface available see page 73*)

b Cylinder Base - 24" dia - drum style construction

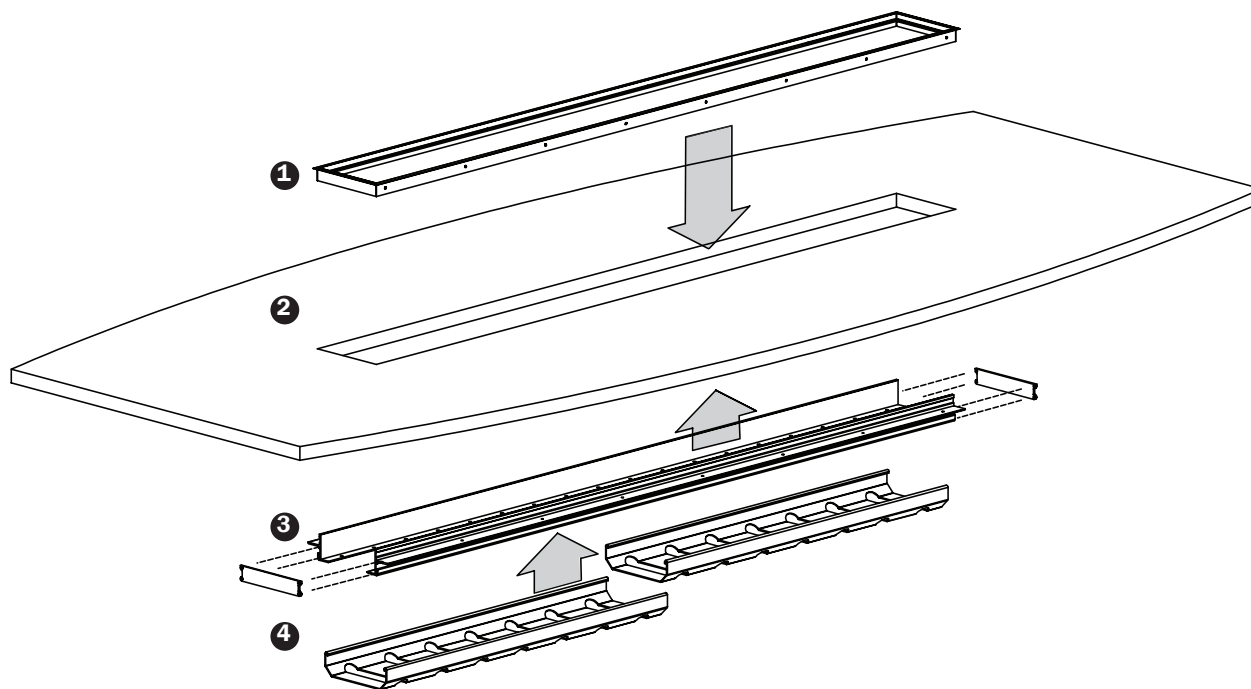

c Accent Panel - veneer (*choice of one*)

maple, makore, cherry and walnut - anegre available with an upcharge
paint - (*see page 73 for color choices*)

Collective® Conference Tables Product Information

Center Console Overview

The continuous center console supports a variety of functional and aesthetic options. A Collective® Conference table with center console includes: the center spine assembly which houses 4", 8", 12" and 16" modules, ordered separately, the understructure of the console, and wire management tray as illustrated below.

1 Center Spine Bezel Assembly

The center spine bezel assembly accepts the 4", 8", 12" and 16" modules shown on pages 81, 156-157 of the pricing section of this price list.

3 Center Spine Structural Extrusion Assembly

When a table with center console is specified, the center spine structural extrusion assembly is attached to the underside of the table top.

2 Table Top

Tops are available in several shapes including rectangular, racetrack, ellipse, arc end, boat and view. They come with or without center console.

4 Wire Management Tray

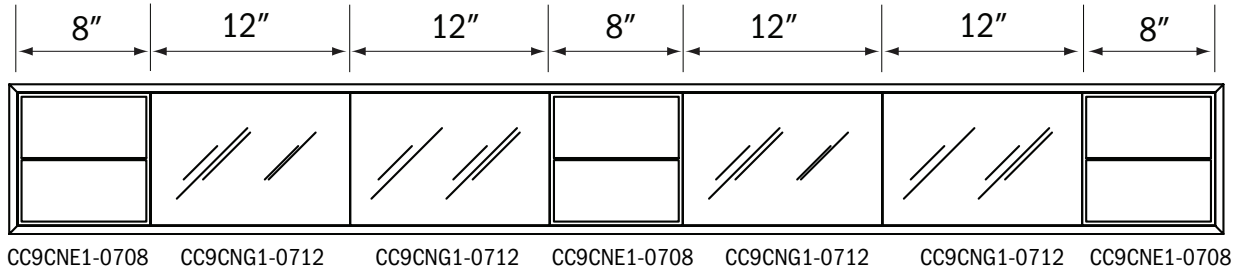

When using power/data and lamp modules, the wire management tray channels the cords to the panel or rectangular bases.

Collective® Conference Tables Product Information

Center Console Components

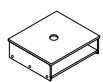

Collective® Conference is available with a center console for storage, power/data and accessories. The center console is offered in lengths of: 48", 72", 96", 120", 144" & 160". The accessories are offered in 4" increments. When designing your center console the accessories selected must equal the length of your console. The center console is factory installed.

You must specify the order in which you want the accessories to appear using the chart on the bottom of the page.

Collective® Presentation Product Information

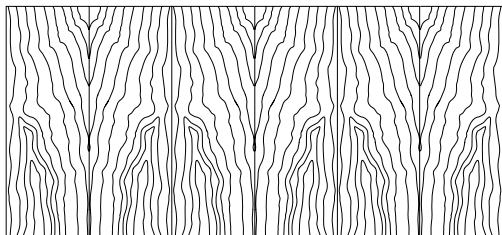

COLLECTIVE®PRESENTATION

Collective®Presentation Product Information

Exterior Wood Materials

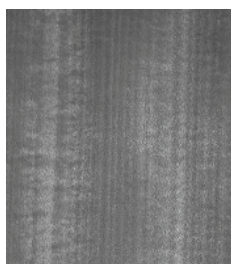

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Collective®Presentation product line. To attain a pleasing, symmetrical pattern, all veneers in Collective®Presentation are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Collective Presentation is available in flat cut cherry, maple, and walnut veneer.

Makore veneer is also available on Collective®Presentation at no upcharge. Makore is also known as African Cherry veneer. When makore veneer is quarter cut it has a nice straight grain pattern with a pinkish brown cast and is a good alternative for cherry veneer for Collective®Presentation.

Anegre veneer is a premium veneer choice and is quarter cut to have a figure cut (fiddle back) pattern. There is a 15% upcharge applied to the list for Anegre veneer

A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Solid painted finishes on MDF are also offered on drawer and door fronts to provide an accent to the Collective Presentation product.

Work Surface Construction

Tops are 3-ply balanced construction, 1½" thick with solid matching hardwood 1.5mm rims.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge for some finishes.

Case Construction

Outside panels are 1¾" and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Leveling glides are provided in both plinth base or telescopic foot.

Extruded Aluminum Components

Telescopic Feet, Valance Rails, Tool Rails, and Spacers all are made from an alloy aluminum compound, made up of 10% post consumer scrap, 60% post industrial scrap and 30% primary aluminum. The aluminum meets or exceeds the guidelines of USGBC – LEED V2.2. The parts are precisely machined and then processed in a clear anodized finish for a natural aluminum appearance.

Fabricated or Casted Metal Components

The metal is laser cut, bended and robotically welded to the exact specifications, polished and powder coated to blend with the anodized aluminum.

Access Kneespace Panel

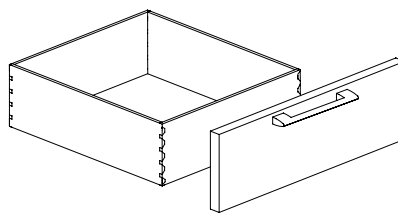

Wall stud construction style frame is made from 16-gauge steel, stamped and laser cut. Pop-rivets are used to combine frames and create various widths. Frames are coated with silver powder coat. The back is open and is designed to sit up against a wall, to allow for wiring access.

Aluminum Glass Doors

Aluminum glass doors and modesty panels have extruded aluminum frames with 4mm thick smudge resistant frosted glass or clear glass back painted in bright white.

Drawer Box Construction

The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is ¼" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with a clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Collective®Presentation Product Information

Locking

Credenzas feature door locking option to provide maximum security and flexibility.

Units are shipped randomly keyed as standard (units tagged in the grouping are keyed alike). Keyed alike units are available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors

We offer a wide variety of wood stains and paint colors on the Collective®Presentation. Please see the chart below. Samples are available upon request, through our website or by contacting Customer Service. Former finish names are listed in parentheses for reference.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Product Modification

Laminate Tops

Work surface only, no additional upcharge if Collective's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request.

Collective®Presentation Product Information

Wall Options

Collective®Presentation addresses today's information and presentation environments. Technology integration and collaborative solutions benefit reception areas, private offices, open plan spaces, conference or casual meeting rooms. Collective®Presentation consists of two separate groupings: Media Walls and Interactive Walls. Due to different heights and width variations the two are not interchangeable. Walls require specification of left and right end panels or towers, and a center wall panel.

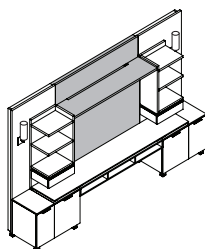

Media Wall

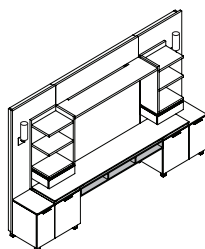

Interactive Wall

Media Wall

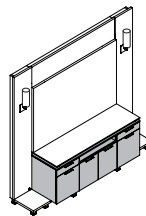

The Media Wall supports various technology applications including plasma display, laptop, receiver/DVD, projector, speakers and video conferencing. The Media Wall creates 86" and 71" heights and includes a center wall panel, technology niche storage with back panel, technology credenza, end towers, glass and wood tops. Panels and towers are always wall mounted.

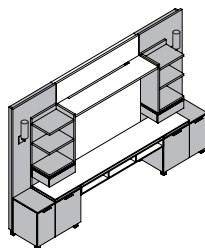

Center Wall Panel

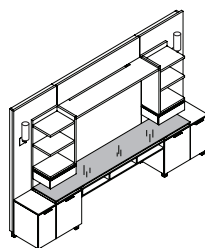

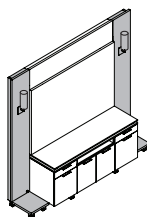

Technology Console

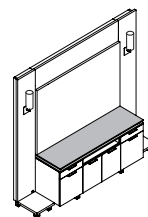

Technology Credenza

End Towers

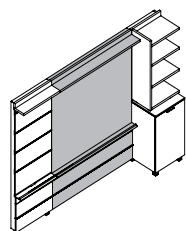

Glass and Wood Tops

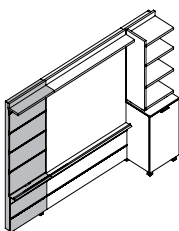

Interactive Wall

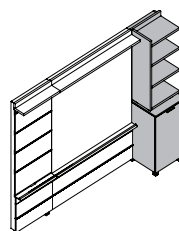

The Interactive Wall features marker board for meetings and presentations. Tackable panels are used for collateral materials and more. The Interactive Wall is available in 86" and 74" heights and has a center wall with marker board, tackable panel on one or both sides, or end tower on one or both sides. Interactive wall towers and center walls are always wall mounted.

Collective® Presentation Product Information

Access Panel Wiring

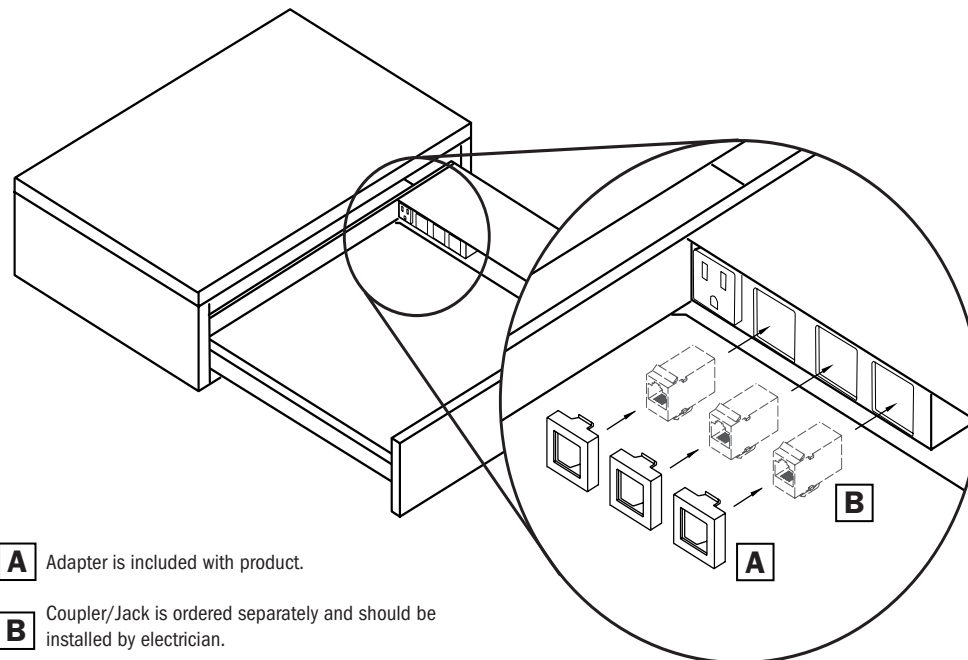

The access panel consist of two hinged panels with a lid stay mechanism on upper panel. The panel allows access to building power and communication and features concealed lay-in cable channel, and optional modular power distribution system.

Installation of the Data Adapter Kit & Base Plate

1. Select the appropriate adapter.
2. Snap jack into adapter following the instructions provided with the jack.
3. Once assembled, snap adapter into the notched, square holes in the orientation shown.
4. If provided, snap adapter into any $1\frac{3}{8}$ " x $2\frac{3}{4}$ " opening.

Note: Verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice.

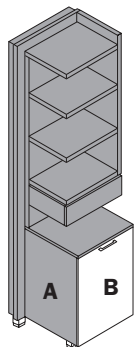

A Adapter is included with product.

B Coupler/Jack is ordered separately and should be installed by electrician.

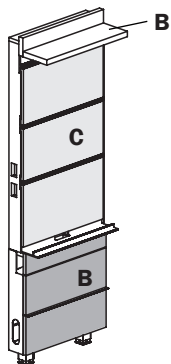

Collective®Presentation Product Information

Material Options and Finish Schemes

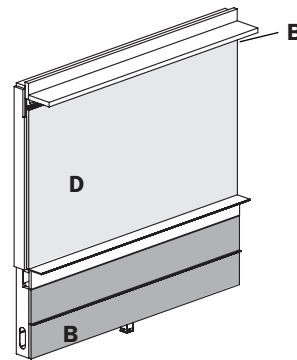

Collective®Presentation uses a modern mix of materials: paint, veneer, and aluminum. Veneer choices are maple, cherry, makore and walnut. Anegre wood species requires an upcharge; see page 161. Eleven paint colors are available; see page 161. Wood worksurface tops or rims on laminate worksurface top, are available in veneer finishes only.

Order Check List:

Specify:

- ☐ 1. Model Number
- ☐ 2. Finish Scheme/Color (see page 166)
- ☐ 3. Wood Species - cherry - makore - maple - walnut - anegre (15% upcharge to list applies)
- ☐ 4. Top Options - standard veneer - laminate surface (see page 162)
- ☐ 5. Other Product Options
- ☐ 6. Power and Data Accessories (*drawing showing location and orientation must accompany order*)
- ☐ 7. Side Mark Information (*i.e. room number, East Conference Room*)
- ☐ 8. Shipping Address (*contact name and phone number*)
- ☐ 9. Special Delivery Instructions (*i.e. call before delivery, deliver to job site*)

- one open fixed shelf
- aluminum spacers included
- open storage compartment with two fixed shelves
- closed storage compartment with one adjustable shelf for wall access
- wire management cut-out in pedestal opposite door hinge
- telescopic feet
- locking door available, specify and add \$100 list
- pull-out shelf in closed compartment available, specify and add \$209 list
- credenza lamp available, specify and add \$329 list

To Order, Specify:

- ① Model Number
- ② Wood Species on Top/Chassis/Shelves -
Cherry (CH1), Makore (MK2), Maple (MA1),
Walnut (WA1) or Anegre Premium (AN5)
(see page 161)
- ③ Finish Color for Top/Chassis/Shelves (see page 161)
- ④ Finish Color for Back Panel and Door/Drawer Front
A. Same as Top
B. Paint Color (see page 161)

Finale Conference Product Information

Finale Conference Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Finale product line. To attain a pleasing, symmetrical pattern, all veneers in Finale are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Finale is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Solid painted finishes on the veneer are also offered to provide an accent to the Finale product.

Work Surface Construction

Tops are 5-ply balanced construction, 1 3/16" thick with solid matching hardwood edges. Tops are available in six edge profile.

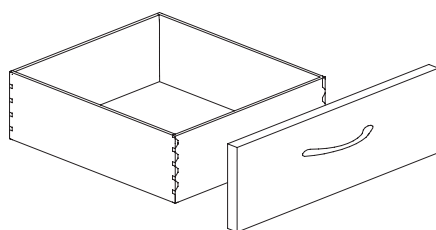

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

Base Construction

Panels are joined together by mortise and tenon construction. In addition to mortise and tenon joint construction. Leveling glides are set into solid hardwood with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the bases with top fastening cleats screwed to the inside of the panels.

Drawers

The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1/4" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Finale. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry Flat Cut Veneer

AUT Autumn (<i>Autumn Cherry</i>)	EAR Earthy
BRL Barley	LGC Legacy (<i>Legacy Cherry</i>)

iXY Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the iXY product line. To attain a pleasing, symmetrical pattern, all veneers in iXY are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

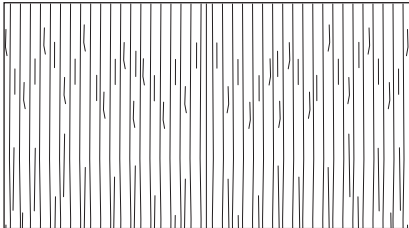

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book. The diagram above shows book-matched flat cut veneer.

iXY is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on iXY product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on iXY.

Solid painted finishes on MDF are also offered to provide an accent to the iXY product.

Table Frames

Die-cast aluminum corners with receivers for table rails and legs, attached to underside of the top. Table rails are extruded aluminum with allowance for optional features. Legs, die-cast aluminum with wire cavity and clip features to secure the wires. Glide has approximately 1" of adjustment and shroud ring to conceal threads.

Veneer Table Tops

Tops are 1 1/4" thick 3 ply with MDF core. Edges on table tops are undercut bevel with the 3/8" flat having a 1.5 mm matching self rim. Tops are secured with core fastening screws to the table rails. Two inch radius corners are on top shapes.

Primary Height Case Tops

Tops are 1 3/8" thick, 3 ply construction with a solid lumber band on user side and 1.5 mm veneer tape. Tops are securely fastened with screws through the pedestal stretcher and metal connecting plates.

Table with Glass Tops

Tops can be either clear or back painted opaque where applicable. Glass is 10 mm thick with a 1/32" bevel on both the top and bottom edges. Glass is low iron and tempered for safety. A series of small pucks are attached to the underside with an adhesive. These pucks then rest on the table rails.

Case Construction

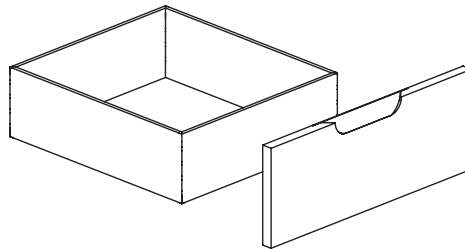

Cases are constructed with a combination of mortise-tenon and dowels to secure joints of the case. Panels are 3/4" thick 3 ply construction. Reinforced metal corner braces secure corners and house the leveler.

Back of cases can be fixed 3/4" thick stationary or 1/4" thick removable. (Check individual items specification listing) Backs of cases are always finished.

Glides have a full adjustment 1 1/2" to allow for proper leveling.

Drawers

Standard V-fold drawer interior is a 1/2" durable, miter-fold drawer system. The four sided box is mitered, glued and doweled with an attached front. The drawer front is veneer rimmed MDF core and is attached to the four sided box. Routed bevel pull creates a self pull. Prism pull is available as an option

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. Ball bearing provide a smooth effortless access to the drawers. All drawers have soft close feature with the exception of lateral files. File drawers have provisions for legal and letter filing. Lateral file drawers have reinforced bottoms.

Locking

All drawers have locks as standard. The locks are pedestal locking, located in the upper right corner of the top drawer. Locks are optional on most door compartments.

Units are shipped randomly keyed as standard (units in the grouping are keyed alike). Keyed alike units available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Doors

Hinge doors have a 110° swing with the soft close feature.

Sliding doors have a single pass hidden roller wheel with guide tracks. Locking is not available on sliding door units.

Overheads can be ordered with the optional back painted glass doors in a thin profile aluminum frame. Locks are not available on glass doors.

iXY Product Information

Adjustable Height Worksurface

Single lift column adjust worksurface up to 42 ¼" height. Control is flush mounted into the top of pedestal. Control for the Table Desk can be mounted either left or right of the top's center. Aluminum profile housing encloses the UL® certified driver and mechanism.

Pull-Out Shelf

Equipment can easily be accessed by specifying the pull out shelf option. This shelf is always located at the bottom of the cabinet and has a front stop rail incorporated as part of the shelf. The slide extensions are undermounts to provide a clean appearance.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on iXY. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

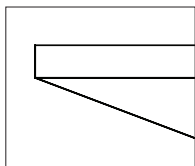

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of \$275 list per order.

Shuffle Conference Product Information

Shuffle Conference Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Shuffle product line. To attain a pleasing, symmetrical pattern, all veneers in Shuffle are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Shuffle is available in flat cut cherry veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Work Surface Construction

Tops are 5-ply balanced construction, 1 3/16" thick with solid matching hardwood edges. Tops are available in six edge profile.

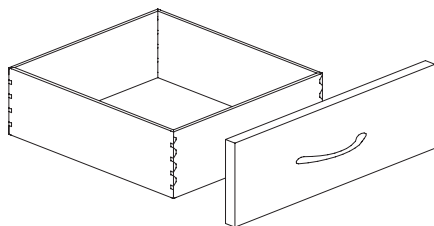

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

Base Construction

Panels are joined together by mortise and tenon construction. In addition to mortise and tenon joint construction. Leveling glides are set into solid hardwood with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the bases with top fastening cleats screwed to the inside of the panels.

Drawers

The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1/4" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Shuffle. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry		Flat Cut Veneer	
AUT	Autumn (<i>Autumn Cherry</i>)	EAR	Earthy
BRL	Barley	LGC	Legacy (<i>Legacy Cherry</i>)
BBN	Bourbon (<i>Natural Cherry</i>)	PRL	Praline (<i>Vintage Cherry</i>)
BRG	Brighton (<i>Brighton Cherry</i>)	SAF	Saffron (<i>Medium Cherry</i>)
CLA	Classic (<i>Classic Cherry</i>)		

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Vision Laminate Conference Product Information

VISION - LAMINATE

Vision Laminate Conference Product Information

Laminates

Vision Laminate features TFL (thermally fused laminate) chassis and components. *Worksurfaces* are available in a HPL (high pressure laminate) or in the TFL surface, when indicated by the pricing column

Edges of the worksurface are impact resistant (PVC) on TFL and HPL tops. The laminate is offered in 10 wood grain patterns and 7 solid colors. The wood grain laminate features an embossed grain to hide finger prints and light scratches. The solid laminate is smooth to the touch with a semi-matte finish. All Vision Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Vision product. Former laminate names are listed in parentheses for reference.

TFL - HPL Veneer Grain Pattern Laminates

AUT Autumn (<i>Autumn Cherry</i>)	HGL High Line
BLO Blonde Echo	SHE Shea (<i>Natural Maple</i>)
BBN Bourbon (<i>Natural Cherry</i>)	STU Studio Teak
BZW Brazilwood	WLH Walnut Heights
BRG Brighton (<i>Brighton Cherry</i>)	VIN Vintage (<i>Vintage Cherry</i>)

TFL - HPL Solid Laminates

ALB Alabaster	SHD Shadow
BBL Bridal Blanco	SLG Slate Grey
DWH Designer White	TAU Taupe
DOV Dove Grey	

Select models are available in the  quickship program if a veneer grain pattern laminate is selected.

Top Surfaces (*Conference Tops and Credenza Tops*)

Tops have a 3-ply balanced construction. Tops are 1-³/₁₆" thick with coordinating PVC edges.

Conference Tops feature 3mm PVC edges on all sides and are available in HPL only.

Credenza Tops feature 3mm PVC edges on the user side only. Remaining edges are banded with 1mm PVC which allows for a seamless appearance when units are mated end-to-end or back-to-back. Some laminates have a choice of 3 edge profiles, see the next page. Credenza Tops are offered in TFL or HPL.

TFL features on *Conference Top Surfaces**

- fused to the 45 pound density substrate of the top for a durable surface
- tops are laminated on both sides
- available in all the wood grain and solid patterns

HPL features on *Conference Top Surfaces**

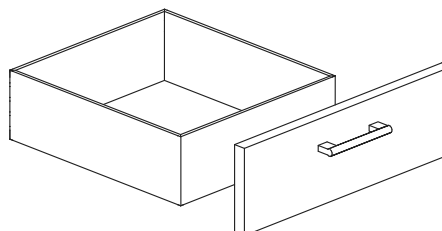

- fusion of multiple layers create a higher impact resistant surface
- tops are 3-ply balanced construction
- matched to the TFL wood grain and solid patterns

Case Construction

Panels for chassis consist of a ³/₄" thick substrate with TFL surfaces and PVC bands on exposed edges. Pedestals and cabinets are constructed with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are installed into the panels to prevent tear-outs.

Drawers

The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The ¹/₂" thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Locking

All free standing credenzas, and bench height credenza feature pedestal locking.

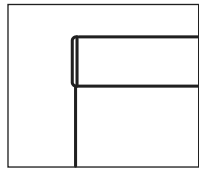

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Special Construction and Sizes

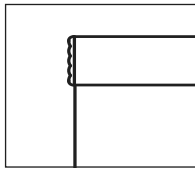

Vision Laminate offers large offering of top sizes and shapes. Contact Customer Service if you are having trouble with finding the table to complete the desired configuration. Special request may be denied because of material limitations.

Worksurface Grommet

Additional worksurface grommets can be specified on veneer/laminate worksurfaces. The grommet location must be approved by JSI manufacturing, contact Customer Service. Add \$75 to the list for each additional grommet.

Grommet color must be specified, select Matte Black or Stardust Silver. Lock cores will match grommet color

Matte Black (MBK)

Stardust Silver (STS)

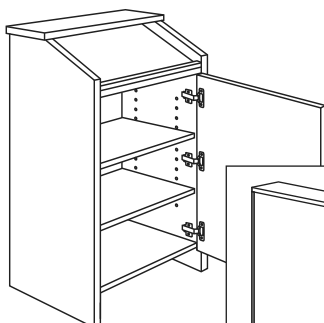

End/Back Panel Grommet

The end/back panel grommets are standard, for any special consideration contact Customer Service.

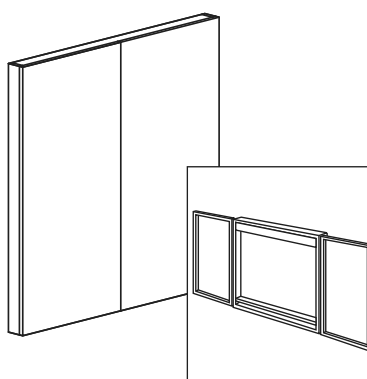

Support Furniture

Lectern

- concealed locking casters
- adjustable shelves
- see page 322 for power and data options

Visual Board

- tackable surface on interior of the doors
- includes two markers and eraser

Vision Veneer Conference Product Information

Vision Veneer Conference Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Vision Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple, walnut veneers in Vision Veneer are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

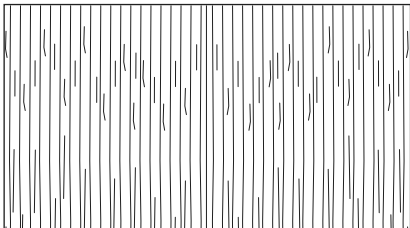

Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Vision Veneer is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Vision Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on Vision Veneer. Use the appropriate pricing column when specifying Double Cut veneer.

Solid painted finishes on MDF are also offered to provide an accent to the Vision Veneer product.

Cherry veneer is the only veneer species available in the **NOW!** quickship program on the select models.

Work Surface Construction

Tops are 5-ply balanced construction, 1 3/16" thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern with finish wood edges.

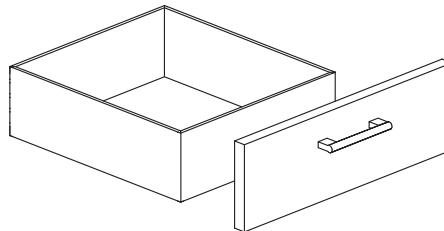

Case Construction

Outside panels are 1 3/16" and joined together with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are set into solid hardwood blocks, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Drawers

The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The 1/2" thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.

Optional four corner dovetailed wood drawers are available. Specify and add 10% per unit.

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Locking

Locking

All free standing credenzas, and bench height credenza feature pedestal locking.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Vision Veneer Conference Product Information

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Vision Veneer. Please see the chart below. Samples are available upon request. Former names are listed in parentheses for reference.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of \$275 list per order.

Product Modification

Laminate Tops

Work surface only, no additional upcharge if Vision Veneer's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
Autumn	Ale	Auburn
Barley	Cinnamon	Mocha
Bourbon	Venetian	Night Owl
Brighton		Sienna
Classic		Toffee
Legacy		Truffle
Praline		
Saffron		

Oak Veneer

Upon request veneer can be changed from the standard offering to oak plain sliced veneer with a 40% upcharge on to the list of each item.

Wood drawers

Four corner dovetailed wood drawers must be specified at the time of order placement. There is a 10% upcharge added to the list of each item.

Finish Sheen Modification

Finish sheen can be modified on the work surface tops. There is a 15% upcharge added to the list of each item.

Special Construction

Vision Veneer offers large offering to create many types of configuration. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Requests need to be approved by JSI engineering.

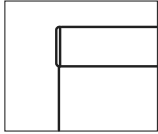

Vision Veneer Conference Product Information

Table Base (units with access panel in the base for wire management are available, order this feature with the appropriate model number.)

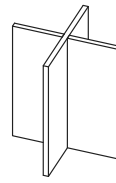

panel base
36", 30" and 24" width

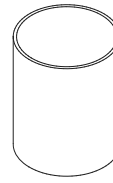

rectangle base
36", 30" and 24" width

square base
30", 24" and 18" width

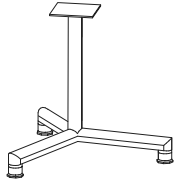

cross base
30", 24" and 18" width

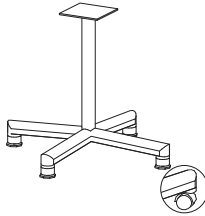

round base
24", 20" and 18" dia.

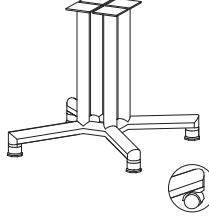

half-round base
24", 20" and 18" dia.

Metal Y Base
34" Span
• fixed base style
• fixed base with casters*

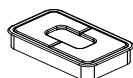

Metal X Base
38" Span
34" Span
26" Span
• fixed base style
• fixed base with casters*

Cantilever T Base
38" Span
• fixed base style

Vision Veneer Conference Product Information

Grommets

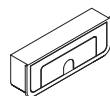

Worksurface Grommet

Additional worksurface grommets can be specified on veneer/laminate worksurfaces. The grommet location must be approved by JSI manufacturing, contact Customer Service. Add \$75 to the list for each additional grommet.

Grommet color must be specified, select Matte Black or Stardust Silver. Lock cores will match grommet color

Matte Black (MBK)

Stardust Silver (STS)

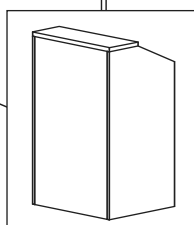

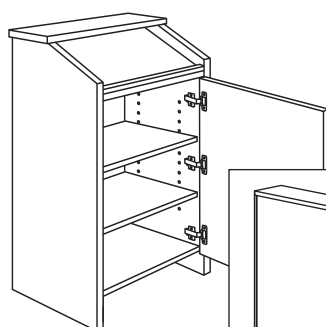

End/Back Panel Grommet

The end/back panel grommets are standard, for any special consideration contact Customer Service.

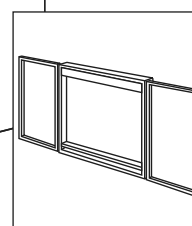

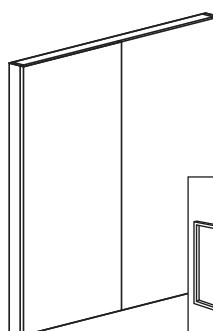

Support Furniture

Lectern

- concealed locking casters
- adjustable shelves
- see page 322 for power and data options

Visual Board

- tackable surface on interior of the doors
- includes two markers and eraser
- optional pull down screen available

Order Check List:

Specify:

- ☐ 1. Model Number
- ☐ 2. Finish
- ☐ 3. Wood Species - cherry - maple - walnut - double cut (use the appropriate pricing column to determine list price)
- ☐ 4. Top Options - edge and worksurface - veneer or laminate
- ☐ 5. Other Product Options
- ☐ 6. Power and Data Accessories (*drawing showing location and orientation must accompany order*)
- ☐ 7. Side Mark Information (*i.e. room number, East Conference Room*)
- ☐ 8. Shipping Address (*contact name and phone number*)
- ☐ 9. Special Delivery Instructions (*i.e. call before delivery, deliver to job site*)

Brogan Conference Product Information

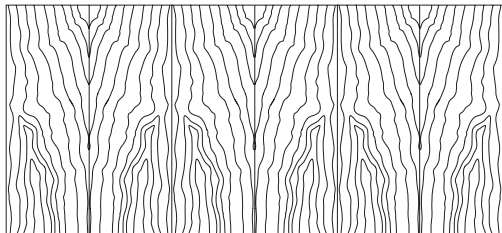

BROGAN

Brogan Conference Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Brogan product line. To attain a pleasing, symmetrical pattern, all veneers in Brogan are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Brogan is available in flat cut cherry and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Work Surface Construction

Tops are 5-ply balanced construction, 1 3/16" thick with solid matching hardwood edges. Tops are available in six edge profile.

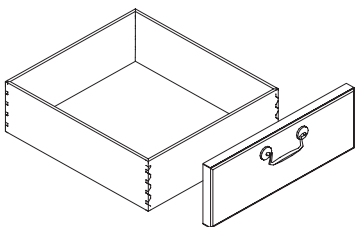

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

Base Construction

Panels are joined together by mortise and tenon construction. In addition to mortise and tenon joint construction. Leveling glides are set into solid hardwood with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the bases with top fastening cleats screwed to the inside of the panels.

Drawers

The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1/4" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Brogan. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry Flat Cut Veneer

AUT	Autumn (<i>Autumn Cherry</i>)	EAR	Earthy
BRL	Barley	LGC	Legacy (<i>Legacy Cherry</i>)

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Walden Conference Product Information

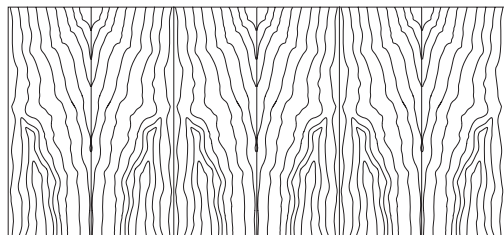

WALDEN

Walden Conference Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Walden product line. To attain a pleasing, symmetrical pattern, all veneers in Walden are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Walden is available in flat cut cherry veneer and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Work Surface Construction

Tops are 3-ply balanced construction, 1 3/4" thick with solid matching hardwood edges. Tops are available in federal edge style profile.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

Base Construction

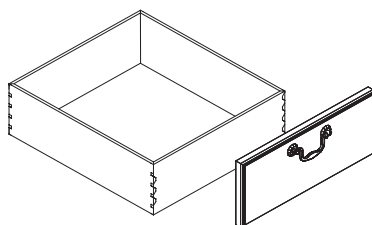

Panels are joined together by mortise and tenon construction. In addition to mortise and tenon joint construction. Leveling glides are set into solid hardwood with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the bases with top fastening cleats screwed to the inside of the panels.

Drawers

The standard Baltic Birch drawer is constructed with 1/2" thick high quality Baltic Birch plywood with a durable finish. This five sided drawer box features fully glued dovetail construction ensuring a solid, warp resistant drawer box.

Veneered bottoms are framed into grooves on four sides. Bottoms are then glued, stapled, and reinforced with a continuous band of glue.

The optional V-fold drawer interior is a 1/2" durable, miter-fold drawer system. The V-fold vinyl wrapped drawer sides form a mitered box. The box is glued and doweled, the drawer fronts attached to the box.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Walden. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry Flat Cut Veneer

AUT	Autumn (<i>Autumn Cherry</i>)	EAR	Earthy

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Wellington Conference Product Information

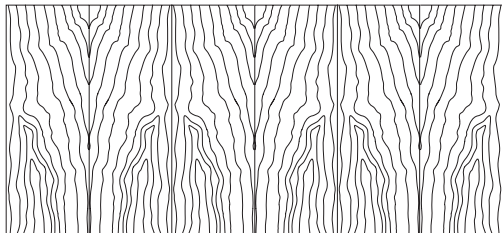

WELLINGTON

Wellington Conference Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Wellington product line. To attain a pleasing, symmetrical pattern, all veneers in Wellington are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Wellington is available in flat cut cherry veneer and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Work Surface Construction

Tops are 3-ply balanced construction, 1 3/8" thick with solid matching hardwood edges. Tops are available in federal edge style profile.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

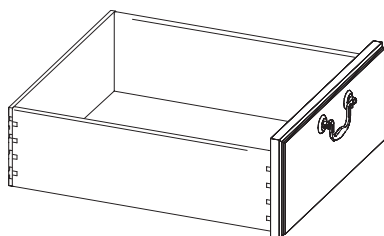

Base Construction

Panels are joined together by mortise and tenon construction. In addition to mortise and tenon joint construction. Leveling glides are set into solid hardwood with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the bases with top fastening cleats screwed to the inside of the panels.

Drawers

All drawer fronts are 5-ply construction with a hardwood core. Veneer grain runs in a vertical direction. Drawer sides and backs are solid wood with top edges of sides completely rounded. Drawers are joined at front using a French dovetail and the back by an English dovetail. Veneered bottoms are framed into grooves on four sides and heavily glue blocked. All drawer interiors are finished with special toner and covered with a clear coat. Drawer bottoms are sanded and hand-rubbed.

All drawer bottoms are glued, stapled and reinforced with hand-fitted glue blocks.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension.

Locking

Locking is standard in all credenzas and modular units. Door locks are available as an option.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Waldon. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry Flat Cut Veneer

AUT	Autumn (<i>Autumn Cherry</i>)	EAR	Earthy

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Flat Screen Mount - Universal Bracket (standard with TV, DTV and FSTV model)

Peerless® ST650 universal tilting flat screen mount is supplied with the FSTV Flat Screen Mounting Frame.

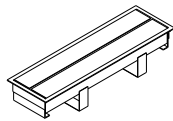

- For use with 32"-50" screens
- Maximum weight 175 lbs. (79kg)
- Tilt 15° forward and -5° backward angles
- Mounting pattern allows up to 6" of vertical adjustment

NOTE: To verify TV interface to universal bracket

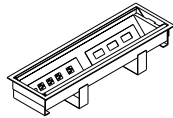

1. Access website - www.peerlessmounts.com
2. Locate "Mount Finder™" on home page side navigation bar
3. Enter make and/or model of your flat screen
4. Verify model: ST650 is listed as available model

Data plates for EC1 and EC2 provided with units:

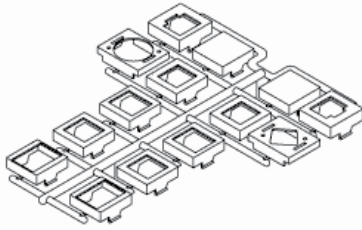

- Verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice.
- Installation of Power and Data units on a seam of multi piece tops should be avoided when possible.
- Specify location when ordering conference tops or buffet credenza.
- Standard power and data units are indicated from the side of conference tops and user side of buffet credenza.

Data Adapter Applications

Data adapter kits ship with each power and data unit.

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.

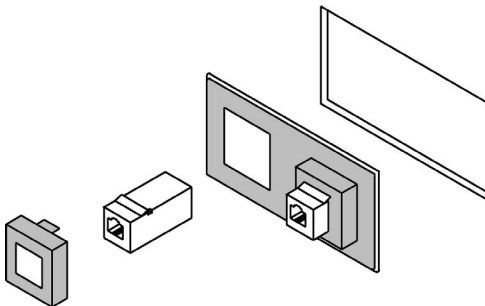

Included with EC8, EC9, EC10, EC13, EC15, TCP110 and CC9CNE1-0708.▲

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.

Reef Product Information

Reef Veneer

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Reef Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple and walnut veneers are book-matched.

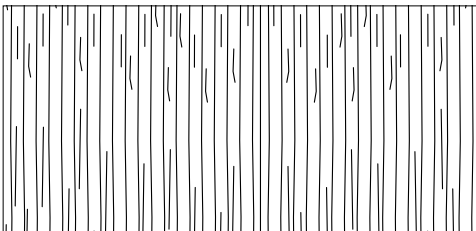

Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Reef Veneer is available in flat cut cherry, maple and walnut. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Reef Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

The diagram below shows the tight pattern used on Reef Double Cut Veneer.

Worksurface Construction

Worksurfaces are 1 3/16" thick and are manufactured with 3-ply balanced construction. Surfaces are available in wood veneer or high pressure laminate. No additional charge for HPL worksurface when using the JSI standard coordinating HPL match to a standard wood finish. Veneer tops feature 3mm thick matching veneer edgebands. HPL tops are constructed with internal solid hardwood lumber edgebands.

Case Construction ▲

Reef Veneer end panels are produced using a 1 3/16" thick substrate with veneer surfaces and matching veneer bands on exposed edges. Stretcher panels are 1 3/16" thick for layered tables and 3/4" thick on panel tables. Stretcher panels feature heavy duty metal brackets that bolt to metal insert nuts in end panels. Reef 36", 42" and 48" deep tables feature dual stretcher panels that are sized to provide proper support for worksurfaces. Reef 20" deep wall dependent tables incorporate rear stretcher and metal support rails for worksurface support. Worksurfaces are joined to end assemblies and stretcher panels by metal brackets and wood screws. Upper shelves on layered tables are 1 3/16" thick and attach with Modeez connectors and metal brackets with wood screws. Bookcase sections are constructed from 3/4" thick veneer panels with matching veneer edgebanding. Narrow bookcase and full bookcase joinery includes wood cleats, wood screws and metal fasteners. All tables have adjustable leveling glides. Reef tables require field assembly.

Foot Rails

Optional metal foot rails are constructed with 14-gauge 1 3/4" square tubing with powder coated finish. Rails attach to end panels using 1/4-20 machine screws into metal inserts in end panels.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Reef. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry Flat Cut Veneer

AUT Autumn (<i>Autumn Cherry</i>)	EAR Earthy

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of \$275 list per order for any non-standard wood finish.

Reef Product Information

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Oak Veneer

Upon request veneer can be changed from the standard offering to oak plain sliced veneer with a 40% upcharge on to the list of each item.

Laminate Tops

Work surface only, no additional upcharge if Reef's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes Maple Finishes Walnut Finishes

Autumn	Ale	Auburn
Barley	Cinnamon	Mocha
Bourbon	Venetian	Night Owl
Brighton		Sienna
Classic		Toffee
Legacy		Truffle
Praline		
Saffron		

Reef Laminate

Reef Laminate features TFL (thermally fused laminate) chassis components. Worksurfaces are available in TFL or HPL (high pressure laminate).

Edges of the worksurface are banded with impact resistant (PVC) on both TFL and HPL tops. The laminate is offered in 10 wood grain patterns and 7 solid colors. Wood grain laminates feature an embossed grain that adds texture and helps to hide finger prints and light scratches. The solid color laminates are smooth to the touch with a semi-matte finish. All Reef Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Reef product. Former laminate names are listed in parentheses for reference.

TFL - HPL Veneer Grain Pattern Laminates

AUT Autumn (<i>Autumn Cherry</i>)	HGL High Line

DOV Dove Grey	

Worksurfaces

Worksurfaces are manufactured with 3-ply balanced construction. Tops are 1 3/16" thick with coordinating PVC edges. Worksurfaces feature 3mm PVC edges on user sides. Edge detail is flat with eased edge on top and bottom. Worksurface ends are banded with 1mm PVC. Worksurfaces are offered in TFL or HPL.

TFL Features on Worksurfaces

Fused to 45 lb density substrate of the top for a durable surface. Tops are laminated on both sides. Available in all the wood grain and solid patterns.

HPL Features on Worksurfaces

Fusion of multiple layers creates a higher impact resistant surface. Tops are 3-ply balanced construction. Available in all wood grain and solid patterns.

Case Construction

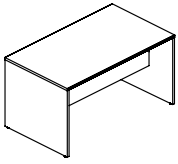

Reef Laminate end panels are produced using 1 3/16" thick substrate with TFL surfaces and matching PVC bands on exposed edges. Stretcher panels are 1 3/16" thick for layered tables and 3/4" thick on panel tables. Stretcher Panels feature heavy duty metal brackets that bolt to metal insert nuts in end panels. Reef 36", 42" and 48" deep tables feature dual stretcher panels that are sized to provide proper support for worksurfaces. Reef 20" deep wall dependent tables incorporate rear stretcher and metal support rails for work surface support. Worksurfaces are joined to end assemblies and stretcher panels by metal brackets and wood screws. Upper shelves on layered tables are 1 1/8" thick and attach with Modeez connectors and metal brackets. Bookcase sections are constructed from 3/4" thick TFL panels with 1mm edgebanding. Narrow bookcase and full bookcase assembly joinery include wood cleats, wood screws and metal fasteners. All tables have adjustable leveling glides. Reef tables require field assembly.

Foot Rails

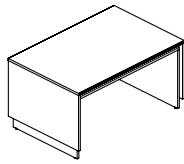

Optional metal foot rails are constructed with 14-gauge 1 3/4" square tubing with powder coated finish. Rails attach to end panels using 1/4-20 machine screws into metal inserts in end panels.

Reef Product Information

Optional Foot Rail

Optional foot rail in the Arctic Silver, Black Sandtex or Soft Nickel powder coat finish is available on the 42"h tables.

96" wide

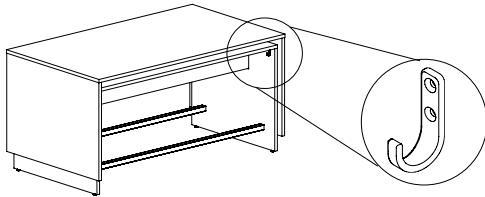

54", 60", 72", & 84" wide

Double Sided Table - Two Rails - add \$772 list

Single Sided Table - One Rail - add \$416 list

Optional Coat Hook

Optional satin stainless steel coat hook is available on the 42"h and 37"h tables.

Double Sided Table - Four Hooks - add \$140 list

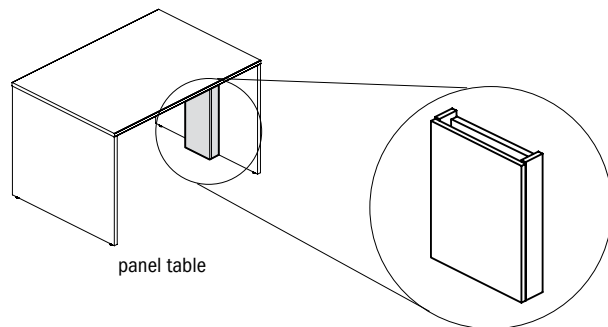

Single Sided Table - Two Hooks- add \$84 list

Vertical Wire Manager

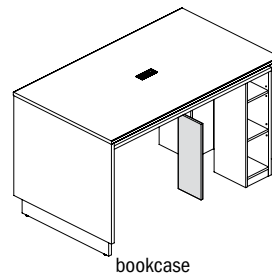

Vertical Wire Manager is optional on the 48", 42" and 36" deep units, select veneer or laminate.

Bookcases feature integrated vertical wire management with a removable access panel. Vertical wire managers are not available on bookcase sides.

Note: Not available on 20"d units.

Reef Product Information

Optional Worksurface Power

Optional Worksurface Power (EC26) is available on 48", 42" and 36" deep units. Indicate "to accommodate Worksurface Power" on your purchase order. When this option is specified the worksurface will have one cut out in the center. One EC26 Worksurface Power unit must be ordered separately, see page 26. Length of cord is 10 feet.

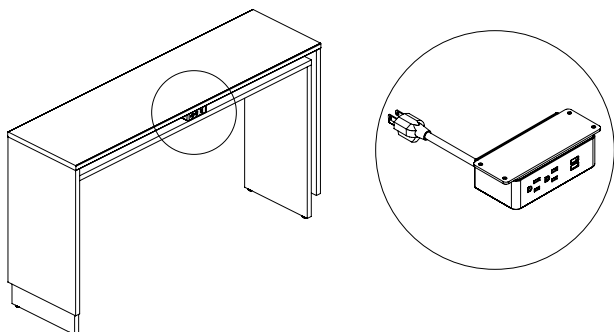

Note: Not available on wall dependent tables or tables with full width bookcases.

Under Surface Power

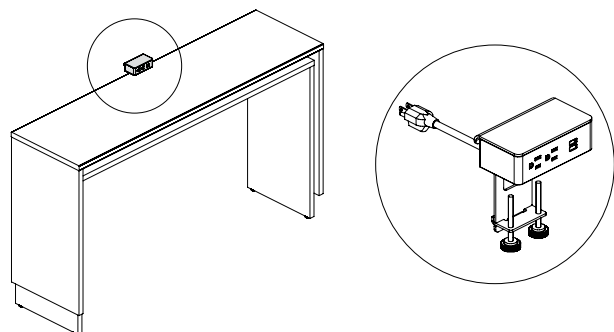

Under Surface Power (EC27) may be ordered for 48", 42", 36" and 20" deep units. The 48", 42" and 36" deep units can accommodate power unit on each side of the table. The 20" deep units can accommodate power units on the non-wall side. The EC27 Under Surface Power Unit(s) must be ordered separately, see page 26. This unit is field installed. Length of cord is 10 feet.

Note: Not available on tables with full width bookcases.

Edge Mount Power

Edge Mount Power (EC28) may be ordered for 20" deep units. This unit is field installed. Ordering information can be found on page 26. Length of power cord is 6 feet.
