Kimball®Office

PRIORITY™ Price List

Legacy Collection

This price list includes only Priority Legacy Collection models. These models feature product design and construction prior to June 23, 2014. Please refer to the Priority Price List for the complete offering which supports every type of work environment from private office to benching.

How to Use this Price List

We suggest that you familiarize yourself with the format of this price list. You'll find information about the product line, planning guidelines, pricing, and how to specify the product.

Refer to the General Information section for Terms and Conditions and Warranty information.

Planning pages offer a quick look at the distinguishing features of the product line, as well as provide detailed information about the product, connections that can be made with other models, planning factors, and applications guidelines.

Pricing pages list each model individually along with its list prices. How to Specify steps instruct you how to build a complete model that includes all of its options and materials.
➤See page 3 for detailed information about how to specify Kimball Office products.

Look in the Finishes and Materials appendix to see what materials and finishes are available. Matrices for wood finishes, laminate, paint, fabrics, and other surface materials offer a quick reference by product for the entire Kimball Office product offering.

Kimball Office has made every effort to make this price list accurate and complete with all of the information you need to specify our products.

Dimensions provided in this price list are nominal. Products are manufactured to meet standard industry tolerances.

Illustrations and specifications contained in this price list are based on the latest product information at time of publication. Kimball Office reserves the right to make changes at any time without notice.

Standard product modifications are available on select products.
➤See the Product Modifications Price List at www.kimballoffice.com

Items listed herein are considered by Kimball Office as portable furniture and as such are subject to local fire, electrical, and building codes applicable to portable furniture.

Only Underwriters' Laboratory (U.L.) or Canadian Standards Association (C.S.A.) listed electrical components are used in electrical devices and are so labeled.

The customer is responsible for the proper application of products to the local codes under which installation must be made. Further specifications are available on request.

How to Specify Our Products

Complete specifications are built by following a set of steps. These "How to Specify" steps are located in the far right column of each pricing page and are specific to the models found on that page. These steps will guide you in the proper order to specify the base model, materials, finishes, options, etc.

Base model numbers may be comprised of two or more steps. For concise presentation, some models numbers have been truncated within the pricing table.

- The steps numbered using a solid circle with a white number inside (e.g., ❶, ❷, or ❸) make up of the base model number.
- Steps numbered using an outlined circle with black number inside (e.g., ④, ⑦, or ⑨) are required to complete the specification.

"Standard Includes" lists what is included as part of the base model.

Follow these steps to build a complete model number.

Selections that will incur an upcharge or decrease to the base price are noted within the "How to Specify" steps.

Pricing Table Abbreviations:

D	=	Depth
W	=	Width
H	=	Height
T	=	Thickness
AO	=	Approach Overhang
ED	=	End Depth
KW	=	Kneespace Width
KH	=	Kneespace Height
WC	=	Worksurface Clearance

Electronic Catalog and Specification Software:

Kimball Office promotes the use of electronic drawing and specification tools to automate the furniture sales, design, and specification process. We provide our symbol and product information to industry leading design and specification software companies. We work closely with 20-20 Technologies Inc. to develop additional automation routines for our products; these are available in CAP and Giza software tools. We also partner with KISP and all of our products are available in The KITS *collaborator™*. As noted in our Terms and Conditions, the customer bears the responsibility for order correctness.

Sample Specification:

The example below shows a complete model number for an **arc-top double pedestal desk.**
➤See page 25 for the corresponding pricing table and How to Specify steps.

❶   ❷ ❸ ④   ⑤   ⑥   ⑦   ⑧   ⑨   ⑩   ⑪

Base Model
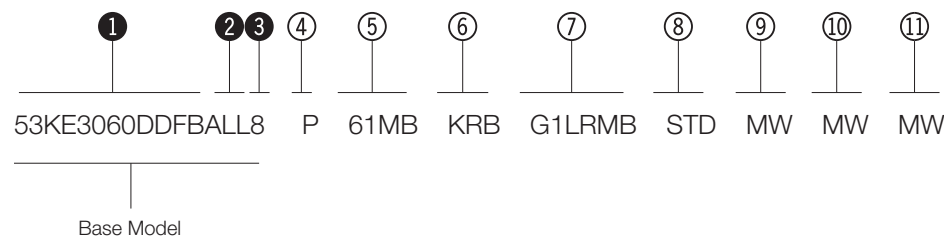

Note: Steps ⑩ and ⑪ were not applicable for the laminate with wood rim model and were omitted for the specification as indicated in the How to Specify steps.

Kimball® Office

Terms and Conditions

Ordering Procedures:

Purchase orders must be received with complete information, which includes the following:
• Complete/valid model numbers
• All textiles, finish, and material specifications for each line item.
• "Ship to" address and contact
• Special shipping instructions (tagging, requested dates, etc.)
• Billing address
• Net prices

Submit orders electronically via EDI or OrderXchange.

To order literature or check order status on-line, please visit us at **www.kimballoffice.com.**

The customer bears sole responsibility for order correctness. Orders are accepted only by issuance of Kimball Office's formal order confirmation and are subject to the terms and conditions set forth herein, notwithstanding any variance in terms and conditions set forth on buyer's order forms.

The order confirmation is the final agreement between the customer and Kimball Office and supersedes all prior oral, written or electronically transmitted statements regarding the order. Kimball Office will attempt to meet all requested ship or delivery dates. If no specific date is requested, we will assign the best possible ship date available.

Changes and Cancellations:

A confirmed order may not be changed or cancelled, in whole or in part, without prior written consent of Kimball Office. Expenses incurred because of the changes shall be charged to the Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Kimball Office. Changes may affect delivery dates.

No changes or cancellations will be accepted after order entry for non-standard lead time products including:
• Kwik Office offerings
• Engineer-to-Order (modified or non-standard products)
• Alliance program upholstery
• Customer's Own Material (COM)
• Customer's Own Leather (COL)
• Customer Specified Laminate (CSL)
• Customer Specified Paint (CSP)
• Mock Ups
• Service Parts/Replacements

Modified Product:

Our manufacturing flexibility allows us to accommodate requests for non-cataloged product. We are happy to discuss your unique product requirements and determine feasibility and pricing.
➤Contact **By Design** for assistance at 800.482.1616 extension 6002.

Finishes and Materials:

Wood Finish Color Matching
Each piece of natural veneer offers unique texture and grain. Minor variations in finish color and value may occur due to the natural characteristics of wood. Kimball Office carefully selects all materials used in every product ensuring a commercially acceptable color and finish. Factors such as aging and exposure to light alter finishes.

Fabric Color Matching
Kimball Office will always ship a satisfactory commercial match on fabric. Because of industry dye-lot variation, colors may not match exactly.

Terms and Pricing:

Net 30 days. If the invoice amount is not paid in full within the terms of the invoice, the invoice may be subject to a monthly finance charge equal to the lesser of 1.5% or the highest amount permitted by law. List prices include freight charges; however, they do not include:
• Storage and insurance charges
• Sales and other taxes
• Local delivery, unloading, or installation
These items will be invoiced as separate line items.

All prices herein are delivered list price, unless noted, effective August 24, 2015, and supersede all other published prices. Prices shown cover standard product only, additional charges will be applied for changes to standard product. Kimball Office reserves the right to change prices without prior notice. Prices herein are only for shipment within the continental United States or Canada.

Selling Information
Distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Kimball Office customers. Kimball Office price lists and catalogs are not available to the general public.

Product Design:

Kimball Office reserves the right to make changes in design, specifications, and construction or discontinue products without prior notice.

Shipping/Freight:

Products are priced and will be delivered C.P.T. one contiguous U.S. destination, one Canadian destination or one port of exit, freight prepaid (Incoterms 2010). Title shall transfer with risk of loss.

Kimball Office reserves the right to select the most appropriate shipping terms.

Terms & Conditions

continued

Delivery:

Normal delivery hours are 8:00 a.m. to 5:00 p.m. Monday through Thursday and 8:00 a.m. to 3:00 p.m. on Friday. Any delivery arrangements made outside of normal delivery times are subject to additional charges.
➤See at right.

Any charges incurred because of failure to receive a shipment or offload a shipment in a timely manner (maximum time allowed to offload trailer: 3 hours), will be billed to the sold-to customer.

Any charges as a result of rerouting a shipment while in transit will be billed to the sold-to customer.

Any order requiring **Special Delivery Service** will incur additional charges. All such requirements must be noted on the purchase order. These are services that are not included in the standard price of the product or require the usage of specialized carriers. These services include:
- Weekend delivery (after 3:00 p.m. Friday through Sunday evening)—minimum $500 charge.
- Inside delivery—minimum $50 charge.
  Note: Must be approved and coordinated 10 days prior to shipment.
- Non-dock delivery—minimum $50 charge.
- JIT delivery (specific day and/or time)—Orders under $25,000 list will incur a $125 charge.
- Rush delivery (1-3 days from ship date)—Contact Customer Service for charges.

Carrier Selection

Kimball Office reserves the right to select the most appropriate mode of shipment. Kimball Office relinquishes all responsibility for goods shipped upon a clean receipt from the carrier. Customer bears the risk of loss or damage during shipment.

Packaging

Kimball Office's standard method of shipping is to carton all items. Certain full truck load shipments may qualify for special consideration. Contact Kimball Office for guidelines. International shipments can be crated at the customer's request. The expense of crating will be the responsibility of the customer.

Palletizing

Kimball Office may elect to palletize key products on projects when it effectively reduces carton waste and improves stability within the shipment.

Loss, Damage, or Delay

Kimball Office shall not be liable for loss, damage, detention or delay resulting from causes beyond its reasonable control including but not limited to fire, strike, weather, wreck or delay in transportation. In the event of delay due to any such cause, the delivery date will be postponed by such length of time as may be reasonably necessary to compensate for the delay.

Storage

If the customer requests a change of ship date and the product is in production, Kimball Office reserves the right to transfer the product to storage at the customer's risk and expense. All requests to store product must be approved by Kimball Office Customer Service and may be subject to storage fees. Such transfer to storage will be deemed delivery to the customer for all purposes including insurance, liabilities, invoicing, and payment.

Returned Merchandise

Merchandise will only be accepted for return under the following conditions:
① The product is a "made to stock" item; *and*
② Return Goods Authorization (RGA) is given to you by your Customer Service Team.

All returns are subject to a 50% restocking fee. All freight charges for returned product are the responsibility of the customer. Unauthorized returns will not be accepted and will be returned freight collect. All merchandise being returned must be properly packed and protected in the original cartons. Upon receipt, all returned merchandise will be thoroughly inspected. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

Claim Process:

All products produced by Kimball Office are carefully inspected and properly cartoned prior to shipment. All shipments are delivered to the transportation company in good condition. If you receive a shipment that has damage, product shortages, or delivery has been delayed by the transportation carrier, **the following steps must be taken:**
① Before signing for the merchandise, make notation of all visible damage, shortages and/or time of truck arrival on the bill of lading.
② Contact Customer Service within 15 calendar days of delivery receipt to report issue. We will advise whether a freight claim will need to be filed based on mode of transportation.
③ If claim must be filed, carrier must be contacted within 15 calendar days of delivery. Retain all shipping cartons for inspection by the carrier agent.
④ A copy of the Carrier Disposition Letter must be sent to Customer Service to receive additional credit on concealed damage issues via Redistribution/ LTL carrier shipments.

For Concealed Damage, follow steps 2 through 4.

Asset Tag Locations:

Bar code labels have been placed on most Kimball Office products.

Products with pedestals or lateral files
Underside of top drawer near front edge in right pedestal (if no right pedestal, left pedestal).

Highback organizers and overhead cabinets
Back left of task light facade.

Bookcases
Underside of lowest shelf (not bottom panel) on the left front edge. If glass shelves, top panel in cornice area.

Vertical storage cabinets
Underside of top drawer near front edge. If no drawers, underside of lowest shelf on left front edge.

Bridges, corner units, worksurfaces, computer support furniture, P-, U-, and keyhole-shaped desks
Underside of the top surface (user's side) on the front edge.

Component modesty panels
Center top of the panel on the inside (kneespace area).

Tables
Underside of table top near the outside edge.

Kimball Office

Product Warranty

Lifetime Assurance of Quality

Our Pledge:

Kimball Office stands behind the craftsmanship of our products. When brought to our attention, we will address warranty issues quickly and effectively.

Recommendations:

Facilities managers and users are urged to make periodic inspections to look for signs of structural fatigue, damage or potential failure that may occur as a result of daily handling and use. Inspections should include the structural joints, corner blocks, screws or fasteners, welds, and any other points of stress. If any problems are found, the product should be taken out of service and Kimball Office Customer Service should be contacted promptly at 800-482-1818.

Limited Product Warranty:

Kimball Office warrants that its products are free from defects in materials and workmanship given normal use and care for a lifetime of single-shift service. Normal use is defined as the equivalent of a single shift, 40-hour work week.
Exception: Itsa and Campos seating models are warranted for three-shift (24/7) service. Wish seating, excluding Wish Classic, is warranted for three-shift (24/7) service and up to 400 lb. user weight.
Exception: Some products and parts have limited warranty periods.
➤See lists at right.

At its option, Kimball Office will repair or replace with comparable product, free of charge to the customer, any product, part or component manufactured and/or sold by Kimball Office in North America after November 6, 2000, which fails under normal use as a result of such defect.

In the event that use of a product exceeds normal use as defined above, the warranty period for such product will be reduced to 12 years from date of manufacture, and the warranty for the product's

components that fall under different warranty limitations, as listed at right, will be reduced to one-third of the original warranty.

This warranty is made by Kimball Office to the original customer for as long as the original customer owns and uses the product.

This warranty is only valid if the products are given normal and proper use, and installed or used in accordance with Kimball Office installation and/or application guidelines, and installed by an authorized Kimball Office dealer or agent. Kimball Office assumes no responsibility for repairs to products sustaining damages resulting from user modification, attachments to a product, misuse, abuse, alteration, or negligent use of our products.

EXCEPT AS EXPRESSLY SET FORTH ABOVE, THERE ARE NO OTHER WARRANTIES EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. WE EXCLUDE AND WILL NOT PAY CONSEQUENTIAL, PUNITIVE, OR INCIDENTAL DAMAGES UNDER THIS WARRANTY.

All warranties run from date of manufacture.

Warranty Periods:

Warranty periods are limited for certain products and/or component parts as follows:

10-Year Warranty
• Seating mechanisms
• Veneers
• Laminate
• Pneumatic lifts (cylinder assembly)

5-Year Warranty
• High-wear parts (such as casters, glides, drawer slides, moving chair arms)
• Electrical/power products

• Inflatable lumbar supports
• Lighting
• Desk sets
• Monitor arms
• Keyboard kits
• Covering materials (such as foam, most textiles, 3D laminate, and decorative trim)
• Marker Boards

3-Year Warranty
• Wool felt
• Custom products
• Carnegie fabrics
• Itsa mesh
• Campos mesh
• Wish mesh

Warranty Exclusions:

This warranty does not cover:
• The substitution of non-Kimball Office components for use in place of Kimball Office components
• Naturally occurring variations and differences in grain character and color between and within wood species
• Natural variations in marble and leather
• Damage caused by a freight carrier
• Normal wear and tear arising from product use
• Damage resulting from improper use or storage of the product
• C.O.M. (Customer's Own Material) or any other non-standard material specified by the customer, including attributes such as appearance, durability, quality, performance, colorfastness, etc.
• Alliance program fabrics
• Fabric, leather, and felt fading and wear, discoloration from contact with liquids or change in color or texture caused by application of finishes (flame proofing, stain resistance)
• Alterations to the product not expressly authorized by Kimball Office
• Products considered to be of consumable nature (such as bulbs, light ballast, and certain electronic products)

Process for Warranty Issues:

① A customer should contact his or her dealer, who will contact Customer Service at 800-482-1818. The purchase order or acknowledgement number, model number, and a detailed description of the warranty issue should be provided. **Serial numbers may be required** before the claim can be processed.

② Customer Service will determine and pre-approve all resolutions to the claim, such as replacement units, service parts, and labor charges related to repair or redelivery of damaged or defective product.

③ Upon approval, a Case Number and resolution will be assigned to an authorized dealer, and all parts and components necessary for repair/replace will be sent to the authorized dealer, which will carry out the resolution. The dealer should include the Case Number on all invoices for reimbursement once the warranty repair/replace has been completed. Kimball Office shall not be the responsible for any unauthorized expenses. Kimball Office will only accept dealer invoices submitted within 90 days of the final approval by Customer Service; invoices received after 90 days will not be approved for dealer credit or payment. All warranty information should be sent to:

Kimball®Office

Sustainability

Enhancing the Home We All Share

At Kimball Office, we are proud of our environmental stewardship. We are committed to sustainable business practices and continuous improvement. It's part of our heritage to stake initiative, to reduce waste, to conserve energy, to commit fully, and to lead by example.

Throughout our more than 40 years of documented environmental actions, we have been a responsible steward of resources and have acted as an agent of sustainable change in our industry.

Design for the Environment is our approach to product development to ensure the inherent sustainability of our offerings. By considering a full continuum of environmental factors, we have greatly improved the life cycle performance of our furniture.

Ultimately, the more we do in the area of sustainability, the more it helps you to achieve your environmental aims. Let us show you just how easy it is with Kimball Office.

ANSI/BIFMA level™
We offer one of the most sustainable portfolios in the industry, which includes systems, casegoods, tables, and seating.

ecoScorecard℠

Through this free online tool, you have 24/7 access to the environmental attributes of our products. EcoScorecard enables speed and accuracy in the calculation of environmental credits for LEED®, saving you time and ultimately, money.
➤See how easy it is at kimballoffice.ecoscorecard.com.

LEED® Certification
Kimball Office offers furniture solutions which may contribute toward LEED® certification. The LEED Green Building Rating System™ is the nationally accepted benchmark for design, construction, and operation of high performance green buildings. Kimball Office has sought and received LEED certification for several of its facilities across the country.

LEED-CI Gold:
• Jasper, IN showroom
• San Francisco, CA showroom

LEED-CI Silver:
• Atlanta, GA showroom
• Chicago, IL showroom

LEED-CI:
• Corporate Headquarters
• New York, NY showroom
• R&D Team Rooms

Indoor Air Quality
One of the largest contributions office furniture can make to a building's LEED certification is indoor air quality via low-emitting products. Kimball Office tests and certifies many of our products to the ANSI/BIFMA e3 2014 standard credits (7.6.1, 7.6.2, 7.6.3).

Pura® is our proprietary wood finish that has virtually no volatile organic compounds (VOCs). Pura is a key part of our sustainability story, enabling a broad range of products to exceed indoor air quality standards and help our customers achieve LEED credits.

FSC
www.fsc.org
FSC® C010590
The mark of responsible forestry

FSC-Certified Wood
Due to our roots in crafting fine wood furniture, we have a natural respect for responsible forestry. Several series in select finishes are available in FSC wood.
➤Contact **By Design** at 800.482.1616 for pricing and lead time information.

ANEW

Asset Network for Education Worldwide, Inc.
(ANEW) is an effective way to responsibly disposition surplus furniture, fixtures and equipment. ANEW can repurpose your equipment to benefit those in need, while diverting materials from landfills. ANEW calls it "Doing what's right with what's left." We call it smart.

➤Find more specific details regarding the environmental aspects of our product offerings at: **www.kimballoffice.com**

ANSI/BIFMA

Operating Load Capacities

The operating load capacities for various Kimball Office products shown in the table at right represent the BIFMA functional loads which are equivalent to loads that can be expected in normal use of the component.

All components meet or exceed the following ANSI/BIFMA Functional and Proof Loading requirement tests:
• X5.5 2014 Desk/Table Products Test
• X5.9 2012 Storage Units Test

MEMBER
THE BUSINESS AND INSTITUTIONAL FURNITURE
MANUFACTURER'S ASSOCIATION

Component	Operating Load Capacity (Functional Loads)	Example
Desk/table <45"W	200 lbs. over 12" diameter area, concentrated loading	
Desk/table 45"W–72"W	200 lbs. over 12" diameter area, concentrated loading 1.5 lbs. per inch of perimeter, distributive loading	24"D x 72"W = 288 lbs.
Desk/table >72"W	Two 200 lb. loads over two 12" diameter areas, concentrated loading 1.5 lbs. per inch of perimeter, distributive loading	24"D x 84"W = 324 lbs.
Pedestal drawer	.017 lb. per cubic inch of drawer interior filing space *Note: File drawers are to support hanging files only; they are not intended for bottom loading.*	24"D x 18"W x 12"H = 88 lbs.
Transaction counter, secondary surface <16"D, or shelf	.017 lb. per cubic inch above surface (not to exceed 12"H), distributive loading	12"D x 60"W = 147 lbs. t.w.
Adjustable keyboard support <36"W	66 lbs., distributive loading	
Writing shelf	25 lbs., distributive loading	
Extendible elements (drawer, shelves, etc.)	.017 lb. per cubic inch of drawer interior filing space, distributive loading	24"D x 15"W x 12"H = 73 lbs.
Center/pencil drawers	5 lbs., distributive loading	
Storage or bookcase top <38"H	200 lbs. concentrated loading .20 lb. per square inch of surface area, distributive loading	24"D x 36"W = 173 lbs.
Storage or bookcase top 38"H–60"H	.20 lb. per square inch of surface area, distributive loading	24"D x 36"W = 173 lbs.
Storage or bookcase top >60"H	.09 lb. per square inch of surface area, distributive loading	24"D x 36"W = 78 lbs.
Storage or bookcase bottom	.017 lb. per cubic inch above surface, distributive loading (not more than 18" in height)	24"D x 36"W x 18"H = 264 lbs.

Square inches should be calculated using this formula: Surface depth x surface width of available storage

Cubic inches should be calculated using this formula: Surface length x surface depth x height of available storage above the surface (limited to 18 inches above the surface)

Locking Information

GSA SIN 711-8

Locking storage units can be specified as:
• Key random with a black lock core and hinged key (KRB);
• Key random with a silver (matte nickel) lock core and round-head key (KRS); or
• Key specific (KS)

Black lock cores and hinged keys are identical to the ones used with other casegoods and systems products.

Silver lock cores and round keys are matte nickel. These lock cores and keys are identical to the ones used with Definition, Fluent and Hum. Minds at Work. series.

Key Random:

When key random option is selected, key numbers will be assigned arbitrarily at the factory with key numbers ranging from KCCB001 to KCCB300 (black) or KCCG001 to KCCG100 (silver).

Randomly numbered lock core(s) will ship standard along with your order for field installation.

KCC*001   KCC*002   KCC*001

KCC*003

KCC*001

With random keying, different furniture units may or may not have the same key number. If you must have all locks keyed differently or all locks keyed the same, choose the key specific option.

Key Specific:

When key specific option is selected, the storage unit will be pre-drilled to accept a lock core; however, no lock cores will be shipped standard with the unit. If lock cores are standard on the unit, the price of the unit is reduced by the price of the lock core or cores.

You must specify lock core(s) separately for key specific option; specify any key number from KCCB001 to KCCB300 (black) or KCCG001 to KCCG100 (silver).

KCC*005   KCC*005   KCC*005

KCC*005

KCC*005
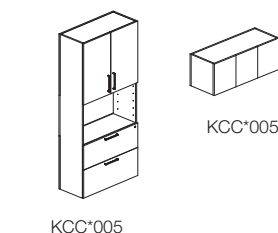

To key all the furniture units in a workstation or department alike, choose the key specific option and order the quantity of locks needed for your installation.

Installing Locks:

Standard key that ships with the lock core can be used for the initial installation of the lock core in the field.

Changing Locks:

IMPORTANT: A change key, specified separately, is required to remove lock cores in the field.

Change key model KCCB1CK allows removal of lock cores within these ranges:
KCCB001–KCCB300
KCCG001–KCCG100

Master Keys:

Master key model KC2GMK will unlock any lock within these key ranges:
KCCB001–KCCB300
KCCG001–KCCG100

Model/Key Range   *Price*

Black Lock Cores & Hinged Key

KCCB001 to KCCB300 $23

Silver (Matte Nickel) Lock Cores & Round Key

KCCG001 to KCCG100 $23

Change Key

KCCB1CK $7

Master Key

KC2GMK $13

How to Specify

❶ Specify exact key number for lock cores or model number for change or master key

Kimball®Office

Notes

General Information

Overview
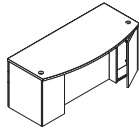

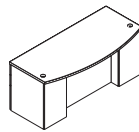

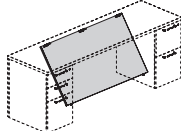

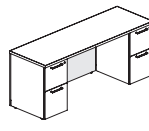

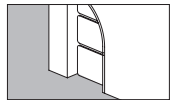

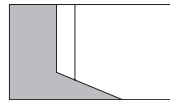

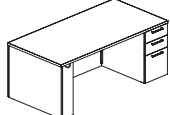

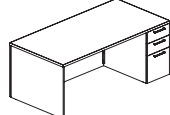

Differences between Priority Legacy and Priority

The Priority Legacy Collection includes models that feature product design and construction features prior to June 23, 2014, the date the enhancements to Priority (53KE models) were introduced. Outlined at right is a comparison of features between the two platforms.

Generally, Priority Legacy features the original product design and construction. Our updated Priority line, which includes the "enhancement" models introduced in 2014, is competitively priced and engineered. Unused features in the original line were removed, with more selectable options and updated construction features.
➤See the Priority Price List.

	Priority Legacy	Priority
Hinged access doors on single- and double-pedestal desks	Standard feature on the approach side	Feature removed based on customer feedback
Hinged modesty panels on assembled bridges, returns, and kneespace and single-pedestal credenzas	Standard feature	Option; fixed modesty panel also available
Cord openings in the pedestal side panel on assembled returns, credenzas, modular storage and lateral files	Standard feature	No cord openings for a cleaner aesthetic
Drawer slides on assembled desks, returns, and credenzas	Drawer slides feature metal hat channels	Drawer slides no longer use metal hat channels; filing capacities remain unchanged
Six-inch wing panels on the user side of single- pedestal desks and credenzas	Standard feature	Wing panel removed, freeing up kneespace and providing a cleaner aesthetic when used as a freestanding unit
Cord opening on the user side of modular end support panels	Standard feature	Cord opening removed
Locking options on assembled casegoods, pedestals, and vertical storage units with pedestal feature	Locking is standard on all undersurface storage	Non-locking is now standard on all storage models. Locking is a selectable option; specify locking when you plan to use it

Planning

Locking Information	➤See page 9
Filing Capacities	24
Finishes & Materials	A1

Desking configuration can be created by selecting:
• Worksurfaces
• U-legs, open legs, or end panels
• Undersurface or low storage

Use worksurfaces with low storage to create a layered look. Select from rectangular, wedge, arc-end, or other worksurface shapes.
➤See the Priority Price List.

Vertical storage and overheads are universal within the Priority series and are available in a variety of door selections.
➤See the Priority Price List.

**Exterior surfaces** are available in veneer and laminate.

Use vertical storage along with low or undersurface storage to create a work-wall.

Face-mounted locks are standard on all undersurface storage and optional on storage doors above the worksurface.

Overheads can be wall-mounted or Traxx-mounted as shown here.
➤See the Priority Price List.

Support options, such as U-legs, open-frame legs (shown), wood end panels, or pedestals, are designed so that the worksurface appears to "float" ¾" above the support.
➤See the Priority Price List.

Privacy screens and modesty panel/cable surrounds, specified separately, can attach to worksurfaces for additional privacy.
➤See the Priority Price List.
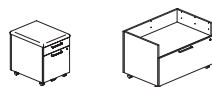

Add mobile storage for enhanced flexibility.

Dimensions:
25⁹⁄₁₆" 27¾" 29"

Materials:

Worksurfaces
• Laminate with a PVC rim
• Laminate with a wood rim
• Wood with wood rim
➤See the Priority Price List.

Supports
• Powder-coated steel

Privacy Screens
• Resin
➤See the Priority Price List.

Storage
• Wood
• Laminate
• Writable-glass doors on select models

Planning

Assembled & Modular Casegoods Solutions

Fully assembled and modular casegoods fit an extensive range of design, application, space, and budget challenges.

Wood veneers on wood and laminate with wood rim models are carefully selected and matched to assure proper balance and consistency.

Chassis and drawer/door fronts on laminate models feature thermally fused laminate (TFL). Grain direction runs top to bottom.

Laminate models offer great flexibility in finish selections. The worksurface, rim, drawer/door fronts, and chassis may be specified in different colors.

Pedestals are full height and letter width on assembled units. They connect directly to surfaces.

Drawer fronts are ¾"-thick, 3-ply construction. Five-sided drawer construction allows easy removal of drawer fronts.
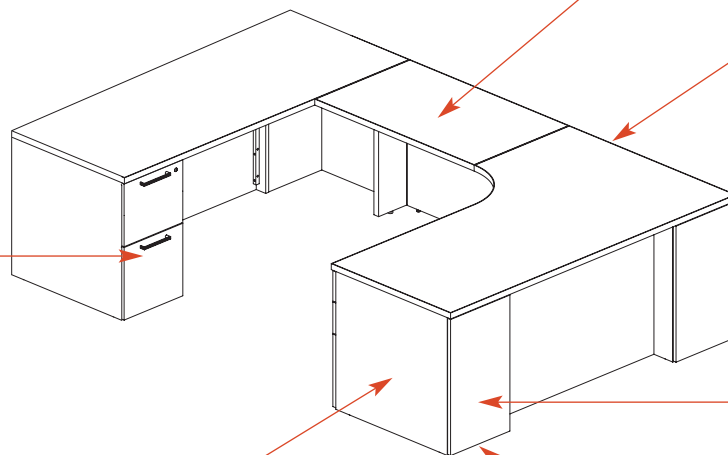

Worksurfaces are 1³⁄₁₆"-thick, 3-ply, balanced construction and available in wood or high-pressure laminate (HPL).

Worksurface rims are ⅛" thick. Softened and reed rim profiles appear on all four edges of the worksurface. Knife rim profile appears on the user edge and overhangs by 1¼"; side and back edges are flat.
Exception: Desks feature knife rim on the approach and user sides.

Hinged access doors allow access to cable routing compartment. Both single- and double-pedestal desks feature two access doors, one on the left and one on the right on the approach side.
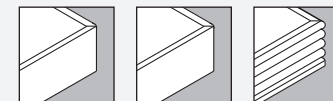

Opening below hinged access door allows cord to enter or exit the cable routing compartment on the approach side.
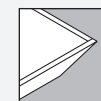

Materials:

W Wood worksurface, rim, and chassis
LW Laminate worksurface, wood rim and wood chassis
L Laminate worksurface, PVC rim, and chassis

Worksurface Rim Profiles:

P Softened PVC rim

F Softened wood rim

M Reed wood rim

S Knife wood rim

Laminate models are available with a softened PVC (P) rim profile. Wood and laminate/wood rim models are available with a softened (F), reed (M), or knife (S) rim profile.

Pull Options:
➤See page 17.

Planning

Assembled Casegoods

Details

Exterior surfaces are available in veneer and laminate.

Joints are securely fastened with dowels and mechanical fasteners to ensure maximum strength.

Drawer fronts are ¾"-thick, 3-ply construction. Five-sided drawer construction allows easy removal of drawer fronts.

Drawer sides and back are ½" thick and wrapped in natural woodgrain vinyl. Bottoms are ³⁄₁₆" thick.

Optional wood drawers are available on wood and laminate with wood rim/chassis units. Drawer sides and back are ½" thick with veneer faces. Bottoms are ¼" thick with veneer faces. Interiors are sealed, sanded, and finished with a clear durable topcoat.

Drawer suspensions feature black slides with precision steel ball bearings to ensure long-lasting, quiet, smooth operation. Box, file, and lateral file drawers feature full extension slides.

Black filing rods are standard in all file drawers to accommodate various filing requirements.

Face-mounted locks are standard on all desks, credenzas, returns, and undersurface pedestals. Lock cylinders are removable if rekeying is necessary. Key random and key specific options are available.

Hinged access door

Cord openings

Structural panel

Hinged modesty panel
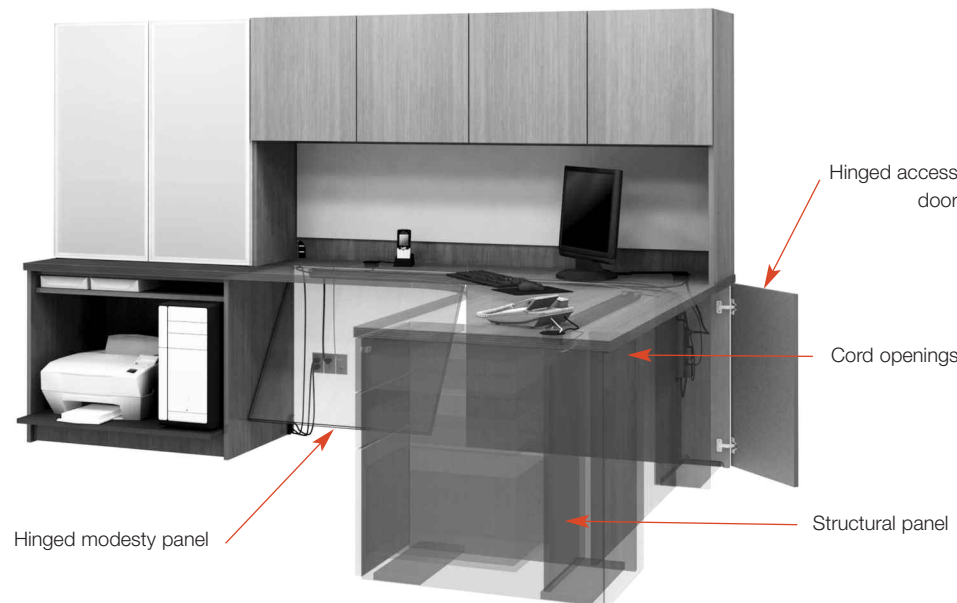

Technology Features

Hinged access doors allow access to cable routing compartment. Both single and double pedestal desks feature two access doors, one on the left and one on the right on the approach side.

Opening below hinged access door allows cord to enter or exit the cable routing compartment on the approach side.

Structural panel separates the drawers from the cable routing compartment to prevent unwanted access to the drawer contents.

Hinged modesty panel, standard on assembled bridges, returns, kneespace, and single pedestal credenzas, swings inward to allow access to wall outlets. It lifts from the floor and is held in place by leveling feet.
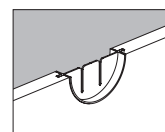

Black half-round grommet is available factory installed at the top center of hinged modesty panels; upcharge applies.
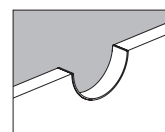

Cord openings are standard on fully assembled desks on the kneespace side of each pedestal just below the worksurface, as well as on the user's side of end panels on single-pedestal desks and single-pedestal credenzas for routing cables to return units.
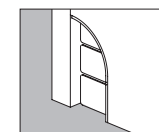

Two cord openings with black grommets—one in the back lower corner of each pedestal side panel—are standard on assembled returns and credenzas.

A variety of factory-installed worksurface grommet options are available.
▶See page 15.

Connections

Bridge or Return   Desk or Credenza
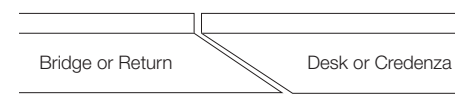

Returns and bridges with knife rim profile have a reverse knife edge on abutting edges to provide a flush fit with the adjoining surface.
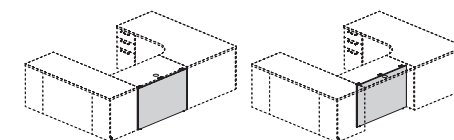

Flush installation   Recessed installation

Hinged modesty panels can be installed in a flush or recessed location. Flush installation visually lines up modesty panel with the adjoining side panels for an exposed orientation. Recessed installation insets modesty panel 6" from the back edge of the worksurfaces to create an area to store cords and cables. Recessed modesty panel allows the whole unit to be placed flush against the wall.

IMPORTANT: Single-pedestal desks (excluding extended top) and single-pedestal credenzas can be used as standalone units.

501 Platinum Metallic
514 Carbon Metallic
544 Silver Pearl

How to Specify

① Insert the location *and* finish designator into model number sequence as indicated on the corresponding pricing page.

Note: Specify grommet location and finish together in one step without a space between the location and the finish designators.
For example:
G1LMB = G1 grommet, left, matte black
G19R501 = G19 grommet, right, platinum metallic

IMPORTANT: Only the grommet locations shown in the matrix with a designator and price are available. Note: P-shaped and U-shaped worksurfaces do not offer factory-installed grommet options.

Worksurface grommets are located 3³⁄₈" from the side edge. Location relative to the approach or back edge is 13½" on arc worksurfaces (to top of arc), 7½" on all rectangular and extended desk worksurfaces, and 3³⁄₈" for all other surface shapes.

Planning

Modular Support

Details

IMPORTANT: Fully assembled models and modular components may be used in the same configuration. ➤See the Priority Price List for worksurface info.

**Modular support components** are designed to support classic worksurfaces.
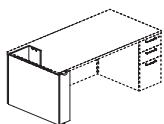

Legacy end supports can support the non-pedestal end of a worksurface to create a single-pedestal desk or credenza in freestanding, L- or U-configurations. End support consists of an end panel, back/modesty panel, and two support panels. The front user's side includes a cut-out for routing cables from the desk to the return. End supports for use with 24" or 25"D worksurfaces include a second cut-out on the kneespace support panel.

IMPORTANT: The following product information is provided here for convenience.
➤See the Priority Price List to specify.

Undersurface pedestals, low storage with support drawers or shelves, and modesty panel/cable surround can also support the end of worksurfaces.
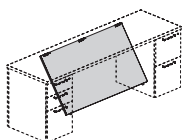

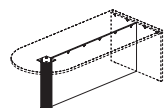

Hinged modesty panels are for use in conjunction with undersurface pedestals and worksurfaces to create an enclosed kneewell. A black half-round grommet is available factory-installed at the top center on hinged modesty panels; upcharge applies.
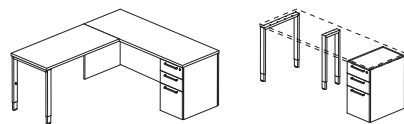

Classic height-adjustable U-leg is 27¾"H and adjusts from 24¾"–32¼" in ⅜" increments. U-legs can be used to displace wood end panels on desks, returns or modular return and extension worksurfaces; not intended for use to create a freestanding table. End U-legs are available in 24", 30", and 36"D. Mid-support U-leg is 10"D and is for use on 24"D, 30"D, and 36"D surfaces only. All adjustable U-legs feature a button that indexes into notches in the inner leg member. By depressing the button, the leg releases the lower leg assembly. This gives the user the ability to change the height as needed throughout the day. Legs can be used with classic Priority, Definition or Footprint worksurfaces. For 1³⁄₁₆" worksurfaces, support is required every 48"; for 1⁹⁄₁₆" worksurfaces, support is required every 60".
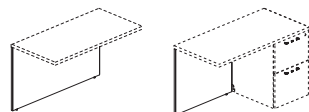

Hinged modesty panels are used to build bridges and returns along with worksurfaces and pedestals.

Full-height wood or laminate modesty panels are for use in conjunction with rectangular, P-shaped, or U-shaped worksurfaces, an end panel, and a square metal column base or wood half-cylinder base. Grain runs horizontal on laminate model. Field installation of grommets is recommended to ensure placement of the grommet on the user's side of the modesty panel.
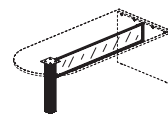

Partial-height glass modesty panels are for use in with P-or U-shaped worksurfaces, an end panel, and a square metal column base or wood half-cylinder base.
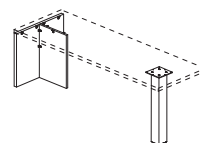

T-leg end panels can also be used to support the end of a worksurface when there is no pedestal. Modesty panel cannot be used in conjunction with T-leg end panels. They cannot be used with a modesty panel.
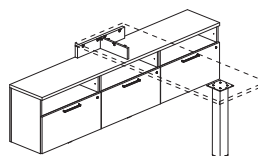

5" and 11" T-leg end panels are for use on top of low storage to support worksurfaces. 5"H model sits atop 22"H storage; 11"H model is for use with 15"H storage. Component top is required.

Connections

Hinged modesty panel always spans between two pedestals or between a pedestal and an end-support panel. It cannot extend behind the back of a pedestal. They attach to the underside of the worksurface and do not deface the sides of adjacent pedestals. They can be installed flush with pedestal back or recessed. Hinge feature on modesty panels allows easy access to wall power.
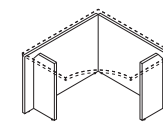

Corner-support panels are used with corner worksurface. Assembly includes modesty and wing support panels. Corner worksurface is specified separately.

Planning Factors
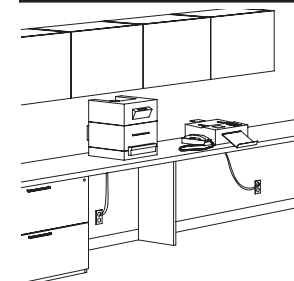

The maximum recommended span of an unsupported worksurface is 48"; longer distances require additional support.

Consider the load a worksurface will carry when planning support. Additional support is recommended for surfaces where heavy equipment will be placed. Support can be placed where needed without the limitations of predrilled or predetermined locations.

Chamfered back edge
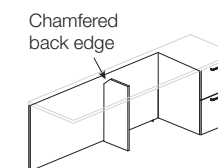

12"D worksurface mid-support panel (model 53K1128SSW) can be used for additional support. Worksurface support panel does not allow modesty panel to hinge forward. Back edge is chamfered for cable management.

Planning

Locking Information	➤See page 9
Filing Capacities	24
Finishes & Materials	A1

Overheads, highback organizers, and set-on-surface storage are available in a variety of door selections.
➤See the Priority Price List.

Vertical storage can be used in private office, open plan, and benching applications.

Low storage, when used with component worksurfaces and additional support such as a short end panels or modesty panel/cable surround, can provide support for worksurfaces and create a layered affect to the workstation.

Modesty panel/cable surround conceals power and data below the surface and can also provide support in progressive and classic applications.
➤See the Priority Price List.

Face-mounted locks are standard on all undersurface storage and optional on storage doors above the worksurface.

Overheads can be wall-mounted or Traxx-mounted as shown here.
➤See the Priority Price List.

Utilize low storage for storage, extra work area, occasional seating and to divide space.

Stand-alone tables utilizing fixed, round, or square bases complete the office.
➤See the Priority Price List.

Planning

Undersurface Modular Storage

Flush-Mount Pedestals

Details
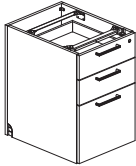

Undersurface pedestals feature an open top or unfinished and a fully finished back panel. Pedestals connect directly to worksurfaces. Undersurface pedestals are available as:
• Box/box/file
• File/file
• Two-drawer lateral file
• Multi-file
• Hinged-door storage
• Printer/CPU storage

IMPORTANT: Flush-mount storage models with open tops must be used with flush-mount modular worksurfaces, specified separately; they cannot be used with knife rim floating-surface worksurfaces.

Locks are located in the upper right corner of the top drawer face.
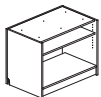

Printer/CPU storage organizes printers, CPUs, and paper for easy accessibility.

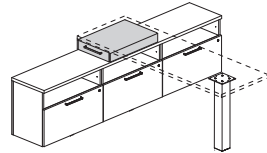

Support drawers and shelves can be used as support on top of low storage. Component top for Legacy low storage units is required.
➤See the Priority Price List.
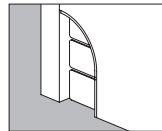

24"D pedestals feature two cord openings with black grommets—one in the back lower corner of each side panel.

30" and 36"D hinged-door pedestals include one fixed shelf and no cord openings.

Planning Factors

Undersurface pedestals can support the end of worksurfaces. Pedestal depth must match desk worksurface end depth.
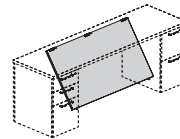

Hinged modesty panel always spans between two pedestals or between a pedestal and an end-support panel. It cannot extend behind the back of a pedestal.
➤See the Priority Price List.

Planning

Undersurface Modular Storage

Pedestals With Spacers

Details

IMPORTANT: Undersurface pedestals with spacers are for use with private office and benching products. They are not for use with flush-mount knife rim worksurfaces.
➤See the Priority Price List.

Undersurface pedestals with spacers are available in 24", 30", and 36"D x 15"W with box/box/file and file/file drawer configurations and 24"D x 30"W two-drawer lateral file; in wood or laminate. Chassis and door/drawer fronts on laminate models feature thermally fused laminate (TFL). Grain runs top to bottom. All units have finished backs and lock in bottom drawer.
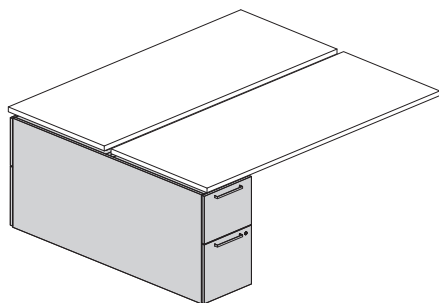

Double-sided pedestals are a unique design to Kimball Office for creating 48"D or 60"D open plan applications. They create a clean aesthetic of one continuous end panel, eliminating the need to position two separate pedestals back to back and add filler panels to fill the gap.

Top of the double-sided pedestal features a 2³⁄₁₆" opening for cable routing.

¾" silver-colored spacers on top of pedestals create a floating worksurface affect. Double-sided pedestals include a total of 8 spaces; regular depth pedestals have 4 spacers.

Drawer fronts are ¾"-thick, 3-ply construction. Five-sided drawer construction allows easy removal of drawer fronts.

**Optional wood drawers** are available on wood units. Drawer sides and back are ½" thick with veneer faces. Bottoms are ¼" thick with veneer faces. Interiors are sealed, sanded, and finished with a clear durable topcoat.

Drawer suspensions feature black slides with precision steel ball bearings to ensure long-lasting, quiet, smooth operation. Box, file, and lateral file drawers feature full extension slides.

Connections
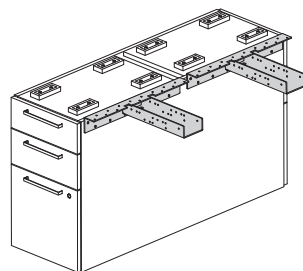

Starter bracket, specified separately, is required to connect pedestals to undersurface support rails and the worksurface.
• One starter bracket is required to connect to each set of undersurface support rails when using with 24", 30", and 36"D surfaces or 36"D or smaller depth storage.
• Two brackets are required when using 48"D or 60"D storage or surfaces.
➤See the Priority Price List for more information on starter brackets.
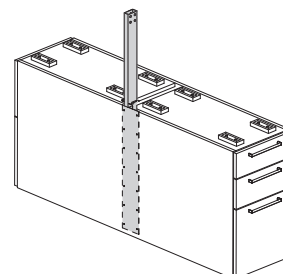

Pedestal stanchion bracket, (model 53KSSDPP) specified separately, is available for use with the 50" and 62"D double-sided pedestals. Double-sided pedestal models for use with stanchions bracket are deeper than the non-stanchion models (48" and 60"D). The difference accommodates two 24" or two 30"D worksurfaces in addition to the thickness of the stanchion plus two tiles for either side of the stanchion. The pedestal stanchion bracket aligns with stanchion support legs and features a vertical member that supports fabric tiles, slat tiles and fabric/slat tiles. Overhead/shelf brackets, specified separately, connect directly to the stanchion, to support center-mount overhead or shelf.
➤See the Priority Price List.
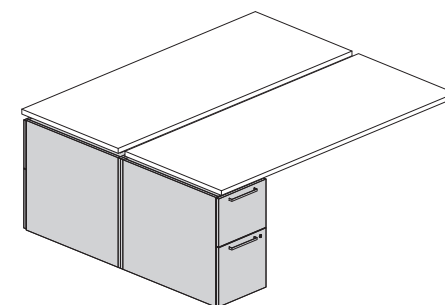

Two pedestals can be used in a back-to-back application; however, a double-sided pedestal is recommended for a clean visual. A stanchion bracket could not be used in the two-pedestal application.

Planning

Undersurface Modular Storage

Mobile Pedestals and Low Storage

Details

Mobile pedestals and low storage units are available in wood or laminate and are finished on all sides. Laminate units offer flexibility in color selection in on drawer fronts, back and chassis. This option enables you to utilize storage elements to create an environment to meet your brand and image.

Anti-tip mechanism and lock are standard on all mobile pedestals and low storage with drawers. Mobile low storage units also include counterweights.

Mobile cushion-top pedestal provides occasional seating as well as storage. The 24"H box/file mobile pedestal easily stows under surfaces.

Mobile box/box/file and file/file pedestals stow under surfaces in flush-mount applications only. IMPORTANT: In applications with an undersurface support rail, these pedestals will not fit underneath the worksurface.

23"H active file provides two divided sections in the top area to place papers and folders for easy access to work-in-progress. The open slot in the rear of the pedestal allows for hanging Pendaflex® folders for hot project files. Lock in bottom drawer locks both box and file drawer. Active file easily stores under the surface.
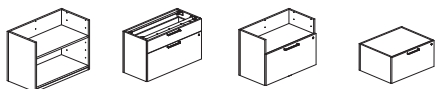

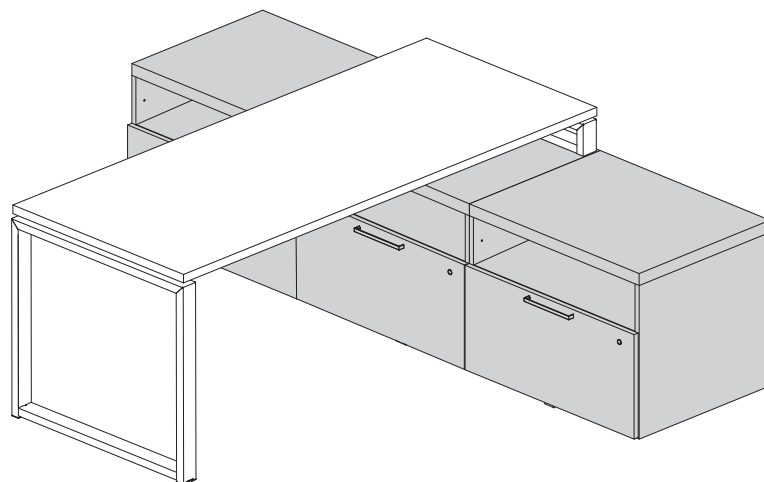

Low storage is available freestanding or mobile. Units are available in two heights (15$3/16$" and 21$3/8$"H), two widths (30" and 36"W), and in two depths (16" and 24"D). Low storage is available in a variety of configurations, including open bookcase, open/lateral file and box/lateral file.

Mobile low storage units feature inset casters enabling the mobile and freestanding units to align when sitting next to each other. Mobile low storage cannot be used to support worksurfaces or other storage.

Priority low storage bottom drawers align with other Priority storage units to keep a consistent visual within the office.

Connections

Use component tops to span multiple low storage units for a cleaner aesthetic.
➤See the Priority Price List.

15"H open bookcase features three holes spaced 3$3/16$" apart and accepts either three straight or organizer shelves, specified separately.
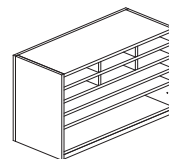

22"H open bookcase features a fixed shelf. There are two holes spaced 3$3/16$" apart above the fixed shelf to accept either two straight or organizer shelves. There are 3 holes below the fixed shelf to accept either three straight shelves or organizer shelves, specified separately.
➤See the Priority Price List.
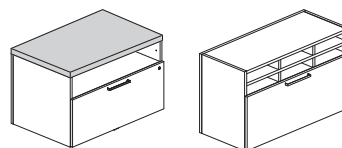

22"H open/lateral file unit accepts either two straight or organizer shelves in open area. If using as a pedestal cushion or component top with an open/lateral, shelves cannot be used in the top position.

Planning Factors

Component tops in either softened or knife rim are required for the box/lateral file units. Knife rim component tops extend ¼" beyond the drawer fronts.

If using low height storage in conjunction with end panels for support, 1$3/16$" component tops are required to span the low storage. 5" or 11" end panels are then placed atop the storage and properly align to undersurface height.

If using low height storage as freestanding units, component tops are required for the box/lateral unit but not required on other units.

Low storage cushion, specified separately, is the same thickness as component tops (1$3/16$") for visual alignment. In depth, the pedestal cushion aligns with the drawer fronts on the low height storage.
➤See the Priority Price List.

Open areas in the low storage accept either straight or organizer shelves. Organizer shelves should be installed with the organizer leg pointed downward. To add color contrast to units, specify shelves in different finish or material than the low storage unit.
➤See the Priority Price List.

33"H highback organizers can be used above freestanding, fixed-height low storage with component tops to divide space and provide additional storage.
➤See the Priority Price List.

If using 24"D low storage in a freestanding application without component tops or with a highback organizer, pedestal ganging bracket (KACGB1) is recommended. If using 16"D low storage in a freestanding application, ganging bolts are recommended.

Planning

Lateral Files

Details

IMPORTANT: Storage models with open tops must be used with flush-mount modular worksurfaces, specified separately. They cannot be used with floating worksurfaces with a knife rim.

Three-drawer and four-drawer lateral files with open top are available. These models have an unfinished back.

Locks are located in the upper right corner of the top drawer face.

Finished top two-, three-, and four-drawer lateral files feature an interlock mechanism that allows only one drawer to be open at a time. Two-drawer units feature a finished back and cord openings; three- and four-drawer units have an unfinished back and no cord openings.
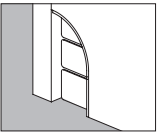

Two- and three-drawer lateral files feature two cord openings with black grommets—one in the back lower corner of each side panel.

Connections
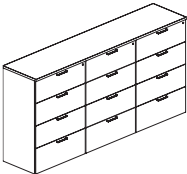

Ganging adjacent lateral files is recommended.

Planning

Vertical Storage

16"D

Details

16"D vertical storage is available in space divider and bookcase/lateral file models. Both are offered in laminate or wood.
➤See the Priority Price List for additional information on options.

11⁹⁄₁₆"
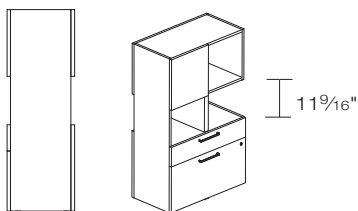

Space divider vertical storage units provide storage as well as side-to-side privacy. These units can be positioned so that the overhead section spans above the worksurface while the box/lateral file spans below the surface; open area is 11⁹⁄₁₆". Units are 16"D x 29¹⁵⁄₁₆"W and 48⅞"H and available in left or right orientation. Units feature a two piece, non-matched back panel set for the upper and lower sections.

Each space divider unit consists of:
• Bottom section with a wide box/lateral file with lock in bottom drawer; anti-tip device is standard in bottom drawer.
• Middle section with open cubby area on one side and open area on the other.
• Top section with hinged door on one side and cubby area on the other.

20⁹⁄₁₆"
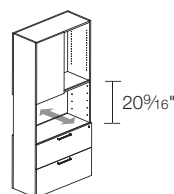

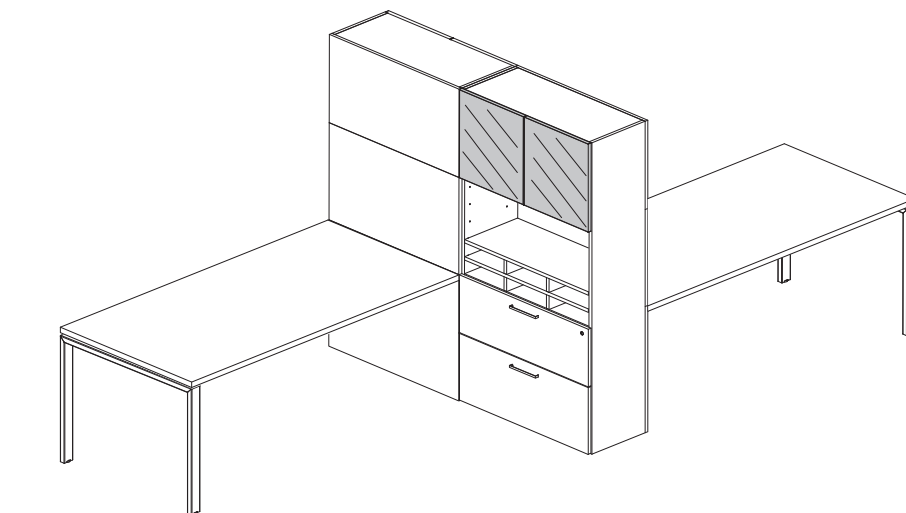

Bookcase with two-drawer lateral files are available in nominal heights of 50", 67" and 80"H in wood or laminate. Lock in top drawer position. These units can be used to divide space in open plan areas. Units feature finished backs with finished inset top. Full back units for the 67" and 80"H units feature three-piece matched back panel set. Partial back units have open center sections and feature two-piece non-matched back panel sets.

All bookcase vertical storage models accept straight or organizer shelves in 20⁹⁄₁₆"H center area, specified separately. 50"H units feature bookcase area with five holes spaced 3¼" apart. 67" and 80"H units feature center section with five holes spaced 3¼" apart.

Top section with center divider is available with one sliding door (non-locking) or two hinged doors in wood, laminate or writable glass. Hinged doors feature pulls in vertical position with locking or non-locking doors. Top section has 7 holes on 67"H model or 17 holes on the 80" model, spaced 1¼" apart to accept straight interior shelves for additional organization.

Connections

IMPORTANT: **All units must be ganged** with provided ganging bolt and are not intended for use as a single, freestanding unit.

Starter brackets, specified separately, can be attached to back of unit. Starter brackets connect to undersurface support rails to support surfaces, displacing the need for a support leg on that side. Storage unit will be defaced.
➤See the Priority Price List for starter bracket planning information.

Planning Factors

Units are designed so that the middle sections align with worksurface heights; see illustration at left.
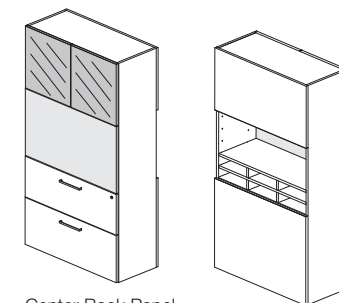

Center Back Panel
Installed on Opposite Side

Specify back panels separately in a different material or finish to add a band of color to the center section to create a non-monochromatic aesthetic. Center back panels on full-back models can be removed in the field and replaced with another in a different material or finish, or moved to the front of the unit, exposing the center section to the opposite side.

Planning

Vertical Storage

24" and 30"D

Details

24" and 30"D vertical storage is available in a variety of shelf, door, drawer, and wardrobe configurations.
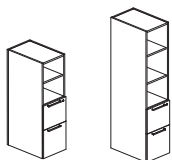

Open bookcase with letter-width file drawers have finished inset top and are 23½"D and 14¹⁵⁄₁₆"W. Three height options: nominal 42" and 50"H units have finished backs and one adjustable shelf; nominal 67"H unit has unfinished back and one fixed and one adjustable shelf.
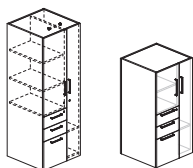

Front access vertical storage towers with finished inset top are available in left or right configurations and in nominal heights 42", 50", and 67". Nominal 42" and 50" H units have finished backs for use in open plan. Select from either box/box/file or file/file letter width drawer options with lock. Shelf storage above drawers include and one adjustable shelf; nominal 67"H unit has unfinished back and one fixed and one adjustable shelf. Wardrobe area in applicable models includes removable coat rod and one fixed shelf 12" above bottom panel; interior width is 7⅞"W. Door pulls are in vertical application and feature optional locking.
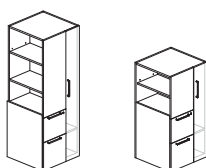

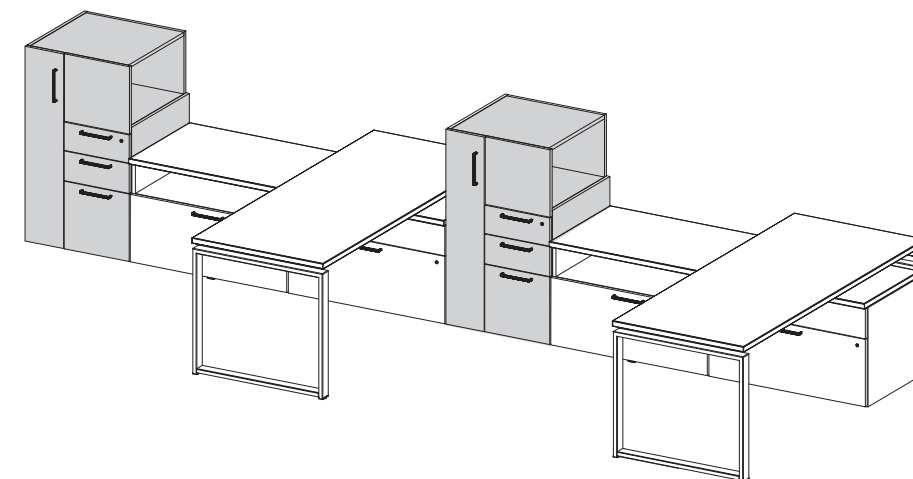

Side-access bookcase vertical storage towers with finished inset top are available in left or right configurations and in nominal heights 42", 50", and 67". Nominal 42" and 50"H units have finished backs for use in open plan. Select from either box/box/file or file/file letter width drawer options with lock. Shelf storage above drawers includes one adjustable shelf; nominal 67"H unit has unfinished back and one fixed and one adjustable shelf. Wardrobe area includes removable coat rod and one fixed shelf 12" above bottom panel; interior width is 7⅞"W. Door pulls are in vertical application and feature optional locking.
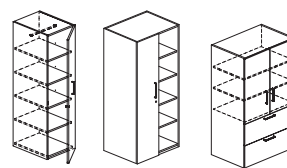

Single- and double-door units are 68"H nominal heights feature combinations of shelf storage. Single-door units are 18" or 30"W nominal with left or right hinged doors with shelf or wardrobe storage. Double-door unit offers a combination of shelves and lateral file drawers. All doors are optional locking; drawers are standard locking.
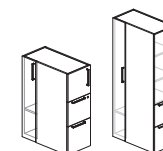

Side-access wardrobe units are 29¹¹⁄₁₆"D and are intended for end-of-run applications with wardrobe sections facing outward in left or right configurations. Available in nominal heights of 42", 50", and 67" with finished inset tops. 42" and 50" units have finished backs for use in open plan; 67" units have unfinished backs. Units are 15"W with either letter width box/box/file or file/file configurations with lock. Front-access single-door storage area has one adjustable shelf on 50"H units; and one fixed and one adjustable shelf in 67" units. Wardrobe area is 7⅞"W; 42" wardrobe has one coat hook while the 50" and 67" units contain removable coat rod and fixed shelf 12" above bottom panel.

Connections

Starter brackets, specified separately, can be attached to back of unit. Starter brackets connect to undersurface support rails to support surfaces, displacing the need for a support leg on that side. Storage unit will be defaced.
➤See the Priority Price List for starter bracket planning information.

Planning Factors

Units are designed to complement floating-work-surface and flush-mount applications.

When using storage in place of support legs, be aware of starter bracket location. In floating-worksurface applications, bracket is mounted ¾" higher than in flush-mount applications.

Planning

Filing Capacities

Finishes & Materials

Samples:

Samples of Kimball Office materials are available upon request. Samples are to be used as guidelines only. Slight variations within commercial tolerance may occur between samples and finished products. Kimball Office carefully selects all materials used in every product, ensuring a commercially acceptable color and finish.

To order samples:
• Visit the Partner web site at
  www.kimballoffice.com to order materials
  electronically
• Contact your Kimball Office Sales Representative
  or the nearest Kimball Office Showroom
• For Alliance program fabrics,
  contact our Alliance partner directly.

Finishes & Materials

Kimball®Office

Program Overview

Fabric Collection:

Our collection of fabrics offers a wide variety of materials that include both timeless classics, as well as a selection of trendy colors and patterns to keep the offering fresh and current.

The classic patterns are perfect for establishing new standard color palettes, while the trendy patterns are great for adding accents and pops of color to make a statement and to show that you are in tune with the pulse of today's fast-paced world.

The fabric collection was developed with an international flare to make it easy for global companies to standardize in all locations. It contains both standard in-line and alliance patterns. Our alliance partners are chosen with great care to give us the best selections and service in the industry.

You will find that colors were developed to coordinate very well between the in-line and alliance offerings, as well as between the seating and panel fabric offerings.

The fabric collection will provide options for the discerning client for many years to come.
➤See Priority Price List for offering.

Wood Collection:

Our wood finishes offer fresh options that provide natural-looking finishes to meet today's design expectations. From the lightest Brighton Maple to the darkness of Urban Walnut, these finishes were chosen with great attention to offer a complete range of color options making it simple to specify the look you want. You can achieve contemporary or transitional looks, or choose to update your traditional style by selecting one of the newer walnut or cherry finishes.

Kimball Office carefully selects veneers and solid woods to provide high quality wood furniture. Variations in color, grain, and texture occur naturally in all wood species, but are most apparent in lighter colored woods, and especially in natural finishes.

The wood collection offers a number of light finishes that will not hide or mask the natural characteristics of wood. Mineral streaks, pitch pockets, and color variations from piece to piece are all characteristics that occur in natural veneers and are what make each piece unique. While the finishing process is identical for all pieces, each finished piece accepts the stain differently to create its own individual beauty. These characteristics are part of the inherent natural beauty of wood and are not considered defects.

Darker finishes can be selected to hide more of the veneer's characteristics. Several beautiful coordinating woodgrain laminate options are also available for the customer who wants complete color and grain consistency throughout.

Two surfaces with grain directions that are at different angles to a light source will reflect the light differently and look a slightly different color. This natural phenomenon is called flip. This can happen within a single piece as alternating veneer leaves are placed side by side or from piece to piece. Flip is often noticed on worksurfaces installed at a 90° angle to each other.

Two premium veneers—Sapele and Zebrawood—are part of the standard offering to provide options for high impact styles without having to quote custom veneers. Premium veneers could receive extended lead times based on supplier availability at the time the order is placed.

Samples:

Samples of Kimball Office materials are available upon request. Samples are to be used as guidelines only. Slight variations within commercial tolerance may occur between samples and finished products. Kimball Office carefully selects all materials used in every product, ensuring a commercially acceptable color and finish.

To order samples:
• Visit the Partner web site at www.kimballoffice.com to order materials electronically
• Contact your Kimball Office Sales Representative or the nearest Kimball Office Showroom
• For Alliance program fabrics, contact our Alliance partner directly.

Discontinuation Policy:

Kimball Office strives to give all business partners advanced notification of surface materials that are scheduled for discontinuation. Efforts will be made to support discontinued materials as specified in the deletion announcement. Pricing cannot be guaranteed. Extended leadtimes and minimum order requirements may apply.

Disclaimer:

Kimball Office will make every reasonable effort to maintain our commitments. If surface material changes must occur due to unforeseen circumstances, we will work with you on an alternative recommendation. Kimball Office reserves the right to cancel or make changes to standard products and surface materials.

Finishes & Materials

Wood

Special Wood Finishes

Kimball Office offers the following options for special wood finishes:
- Standard finish color on alternate wood species
- Previously developed special finish
- Custom finish

Standard finish colors available on an alternate wood species include:
- Amber on Maple
- Amber on Walnut
- Mocha on Walnut

These finishes can be specified without going through the finish approval process described at right.

Previously developed special finishes can be selected from an extensive library developed by Kimball Office. Samples of previously developed special finishes are available from Customer Service upon request.

Custom finishes can be developed to meet specific needs, if an acceptable match is not available in our library.

IMPORTANT: Kimball Office reserves the right to decline the opportunity to match a finish color.

Applicability:

Applicability of special finish colors depends on the wood species to which they are applied. The matrix at right shows the types of woods used for each series.

Note: Special finishes are not available on Zebrawood, Canyon Oak, Monterey Oak, or Tuscan Walnut.

Upcharges:

A one-time fee of **$300** (net) will be billed for the development of each new custom finish. This fee covers all Kimball Office product lines on which the finish may be used.

A **10%** upcharge per line item (model number) will be applied for a standard finish on an alternative wood species, a previously developed special finish, or a custom finish. This upcharge is calculated on the base price, before other option upcharges are added.

For upholstered products, the upcharge is calculated on the Grade 1 upholstery price then added to the price for the selected fabric grade, to arrive at the list price.

Custom Finish
Approval Process:

① Send desired finish sample (no smaller than 3" x 5"), along with a purchase order for the $300 (net) special finish development fee, to Customer Service along with a complete list of the products and wood species to which the special custom finish is to be applied. Include dealer name, contact, and project reference.
② If a previously developed sample is found to be compatible, a sample will be sent for customer approval. If not, a custom finish will generally require at least a week for a matched sample. Samples sent to the customer will advise of any restrictions that may apply.
③ Customer signs off on the sample and returns the approval form to Customer Service. Approval is required prior to order entry.

Note: The one-time fee of $300 will not be charged unless a custom match finish is required.

How to Specify

① **Model:**
Build the complete model specification by following the How to Specify steps on the pricing page for the product that is to receive the special finish.
② **Finish type:**
For the "Finish type" step, insert a special code (in place of STD):
ZCHY1 = Special cherry finish
ZMAP1 = Special maple finish
ZWAL1 = Special walnut finish
ZSAP1 = Special sapele finish
Note: Choose the special finish code based on the standard wood species used in the product line (see matrix at left).
③ **Finish designator:**
For the "Finish designator" step, insert the designator below or the one provided to you by Customer Service:
MA00174KOG = Amber on Maple
WA02905KOG = Amber on Walnut
WA02905KOG = Mocha on Walnut

Kimball®Office

Wood

Characteristics, Care, and Maintenance Tips

Kimball Office's experience in wood finishing extends from past generations of craftsmen to present day state-of-the-art technology.

Our Pura® finish is a proprietary, water-based, ultra-violet (UV) wood finish that has virtually no volatile organic compounds (VOCs). It uses less energy than our conventional finishing process and meets or exceeds BIFMA Furniture Emission Standards (FES) and U.S. Green Building Council LEED requirements for indoor air quality. Pura is exceptionally clear and durable and allows the beauty of our wood to shine through. The durability, depth, clarity, and beauty of Pura meets the high expectations customers have of Kimball Office finishes.

Finish fill and sheen level for the top surfaces is appropriate for the design and wood species. If different specifications are required, contact Customer Service.
➤See the individual chapters for fill and sheen information by line.

All wood products are very susceptible to darkening from age and exposure to UV rays (sunlight and other sources), especially cherry and maple. Although a special UV inhibitor is added to finishes, care in placement of furniture near light sources and elimination of prolonged covering of surfaces is necessary to reduce uneven color change of the wood.

Fine scratches from everyday use may be more visible on furniture with dark finishes. Darker finishes absorb more light, while fine scratches reflect the light. Therefore, scratches can be more emphasized due to this contrast. The use of a desk pad is recommended to keep scratching to a minimum.

The beauty of wood is that, as a natural product, it will have differences in grain characteristics, color, and other features among wood species. The characteristics of our top grade veneers are appreciated and welcomed; it's the differences in characteristics that offer each office a unique look.

Maple veneers are plain sliced and slip matched. Brighton Maple is a clear finish for those who appreciate the inherent beauty of wood. Differences in grain character and color are natural characteristics of wood and will show through in the finished product.

Walnut veneers are plain sliced, and applied book and center matched.

Cherry veneers are plain sliced and slip matched. Grain characteristics of cherry veneer such as gum streaks and gum pockets occur naturally and add to the authentic look and feel of natural veneer. These are inherent to this veneer and should not be considered defects.

Sapele veneers are quarter sliced and slip matched.

Canyon Oak, Monterey Oak, Tuscan Walnut, and Zebrawood are quartered (straight) grain finishes.

Specification of particular cuts, characteristics, or wood species can be accommodated. For example, a customer may ask for a limited amount of cathedrals or very limited variation in color from one veneer flitch to the next. Kimball Office systems products are able to satisfy those expectations, as long as we are notified prior to order placement. Depending on the request, the higher grade veneer may require an upcharge. Orders would also need to be handled through our custom quote process.

The wood species on seating may vary from the wood species on the casegood or system. Different wood species offer unique texture and grain which provide more variation in finish color; however seating finishes are compatible with casegoods and systems finishes.

To Maximize Longevity and Beauty of the Wood Finish:

- Clean all surfaces frequently with a water dampened soft cloth following direction of the grain.
- Dry with a separate cloth if needed.
- Avoid exposure to strong sunlight or extremes in temperature or humidity.
- Avoid exposure to harsh solvents and always remove any spilled liquids immediately.
- Use a desk pad. This will help protect against possible damage and imprinting caused by writing instruments and sharp objects.
- Pads with foam backing are not recommended.
- If using a protective glass top, always place felt spacer pads under the glass to allow the wood to breathe.
- Do not leave plastic, vinyl, or rubber items on finished wood surfaces. Sustained contact could damage the finish.

Laminate fronts/chassis																	

Woodgrain laminate is a commercially compatible match to the wood finish of the same name and designator with consideration for the most common application—laminate surfaces on a wood chassis. When laminate and wood are mixed in other applications, the flip that occurs naturally in veneer may influence the overall match from piece to piece.

Finishes & Materials

Customer-Specified Laminate

GSA Non-Contract

Customer-specified, high-pressure laminate (CSL) is available on select products.
➤See page A6 for availability.
➤Contact Customer Service to initiate approval.

Kimball Office reserves the right to decline a customer specified laminate which may not be suitable for application.

Kimball Office assumes no responsibility for the durability, consistent coloration or any other performance characteristic of a customer specified laminate.

Metal, embossed, specialty, and supplier discontinued laminates must be custom quoted.
➤Contact By Design at 800.482.1616 extension 6002.

Kimball Office orders and procures all customer specified laminates.

Laminate sheen level must not exceed 60° for maximum durability of worksurfaces.

Lead times may vary for certain laminates. Minimum order quantities may apply.

Upcharges:

A **20%** upcharge per line item (model) for CSL orders for supplier standard laminates applies. Upcharge is calculated on the base price, before other option upcharges are added.

How to Specify

① Model:
   Build the complete model specification (excluding the finish type and finish designator) by following the How to Specify on the appropriate pricing page for the product that is to receive the special finish.
② Finish type: For the "Finish type" step, insert a special finish code (in place of STD).
   ZFMA1 = Formica
   ZLMT1 = Lamin-Art
   ZLTC1 = Lamitech
   ZNEV1 = Nevamar
   ZPTE1 = Pionite
   ZWST1 = Wilsonart
③ Finish designator: For the "Finish designator" step, insert the laminate designator (color number) of the laminate to be applied to the product.
