# Ordering C.O.M., C.O.L., and C.O.V.

Bonduel, Green Bay, Ontario, and Tupelo

### How to Specify C.O.M. Upholstery

Textile designs often have intricate patterns. Not all individuals will interpret fabric direction in the same manner.

As a standard procedure, KI cuts fabrics off the roll in a horizontal fashion as shown in Diagram A at the right. By cutting in this fashion, most waste is eliminated. Our requirements for yardage in this book are based on this type of cutting. When directional or patterned fabrics are used, they often require more yardage than solid colors.

By providing KI with a completely filled-out copy of the form on this page, we will be able to expedite your order. We find it particularly helpful with directional or patterned upholstery material. It is critical that copies of this form accompany test quantities as well as production quantities of C.O.M.

C.O.M. must be supplied in continuous yardage.

### C.O.M., C.O.L. and C.O.V. Testing

KI will require for testing actual yardage to upholster one chair. The testing requirements depend on which chair you have selected on your order.

Test samples will be applied to the order and will be held for 6 months if needed. After 6 months, the sample can no longer be applied to your order. For all products to be tested, send test samples for approval to:

**KI**  
**Attn: C.O.M. Specialist**  
**1687 Westminster Drive, Gate 3**  
**Green Bay WI 54302**

To expedite the procedure, attach a copy of the "C.O.M. Information Form" on this page.

All C.O.M., C.O.L. and C.O.V. must be labeled with the purchase order number.

### C.O.M., C.O.L. and C.O.V. Production

Customer's fabrics and leathers must be approved prior to acceptance for production. Upon test approval, a 1" square sample swatch of upholstery material must accompany the order. KI assumes no responsibility for wear, defects or performance of customer's own fabrics, vinyl or leather. C.O.M., C.O.L. and C.O.V. orders are available on a deferred delivery basis.

Orders for production of C.O.M., C.O.L. and C.O.V. upholstered products are not scheduled for processing until upholstery material is received. Upon receipt, KI will provide an acknowledgement and an estimated shipping date.

KI recommends that leather be ordered in yardage. Leather must be usable. The outer edges cannot be calculated as square feet or yardage.

The C.O.M., C.O.L. and C.O.V. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

### C.O.M., C.O.L. and C.O.V. Order Processing

For products shipped from Green Bay, WI facility, ship upholstery material to:

**KI**  
**Attn: C.O.M. Storage**  
**1687 Westminster Drive, Gate 3**  
**Green Bay, WI 54302**

For products shipped from Tupelo, MS facility ship material to:

**KI Tupelo**  
**Attn: C.O.M. Storage**  
**2112 South Green Street**  
**Tupelo, MS 38801**

For products shipped from Bonduel, WI facility, ship material to:

**KI**  
**Attn: C.O.M. Storage**  
**204 West South Street**  
**Bonduel, WI 54107**

For products shipped from Ontario, CA facility, ship material to:

**Avail/Impress/Kismet/Medical & Laboratory Stools/Pilot**  
**Attn: C.O.M. Storage**  
**1110 S. Mildred Ave.**  
**Ontario, CA 91761**

### Intricate Patterns

In the event of specific requirements for positioning of intricate patterns or pattern repeats on seats and backrests, provide a sketch noting requirements, as in Diagram B, along with materials for testing, and with the order.

Diagram B

### Treated Materials

If C.O.M. requires processing such as Scotchgard® or acrylic backing, it often shrinks. To prevent delays in delivery or back ordering due to shrinkage, please have your processor remeasure after processing and assure adequate yardage shipment.

### Split Orders

If a portion of the shipment which does not require C.O.M., C.O.L. or C.O.M. applications is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to verify a split order.

### Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

### Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M., C.O.L. or C.O.V. material due to a change of upholstery or cancellation of an order. It is the customer's responsibility to arrange for return of this material.

### C.O.M., C.O.L. and C.O.V. Information Form

A copy of this form should accompany test requests and production orders. Please fill it out completely, and, if your order has been acknowledged, provide the acknowledgement number.

Seat height (upholstered add 1")	18-1/2"	18-1/2"	18-1/2"
Arms to floor			

Overall Dimensions

With worksurface; no accessory rack	23-1/4"W x 28"-34"D		
With worksurface; with accessory rack		23-1/4"W x 28"-34"D	23-1/4"W x 28"-34"D
Height	33-1/3"	33-1/3"	33-1/3"
Worsurface width x depth	21-1/2"W x 13"D	21-1/2"W x 13"D	21-1/2"W x 13"D

NOTE: Overall dimensions above are with surface centered to chair back. Dimensions of surface movement and rotation are not included.

Accessory Rack

Cup Holder Rack

Flat Accessory Rack

SPECIFICATIONS

Frame

Frame shall consist of 14-gauge, 1" O.D. steel tubing bent and welded to a 13-gauge steel stamped seat plate and finished with baked-on powder coated paint. The chair frame shall be topped by two aluminum die castings with a baked-on black powder coated paint finish. Castings support the chair seat and provide a means of rotation of the tablet about the seat.

Shell

Shell swivels a total fo 55° (27.5° each way from center) for ease of entry and exist.

Intellect Wave Shell

One-piece contoured shell made of high-impact polypropylene. Colorfastness ensured through complete color impregna-tion throughout the molded part. Strength and durability shall be assured through an engineered internal structural cavity which eliminates the need for unsightly ribs on the

back of the shell. Rolled edges for comfort and strength, textured front and back with a wide, ergonomic handle molded into chair back for ease of mobility. Fastens to frame by a 12-gauge formed steel plate with six torx head screws.

Optional upholstered chairs have partially exposed polypropylene surfaces. Fabric is upholstered over 9/16" foam on the seat and fastened to an inner shell with screws.

Strive Shell

Injection molded polypropylene back with integral steel cantilever springs. The combination of the slotted polypropylene back and the spring steel provides a supportive flexing back. Springs are nominal 4.5mm diameter chrome silicon valve spring wire. Injection molded polypropylene seat shall be secured to the chair by a 12-gauge formed steel plate.

Optional upholstered seats have molded urethane foam attached to an injection molded

polypropylene seat board, then upholstered using a drawstring process. The assembled seat pad is attached to the seat by means of hidden fasteners.

With optional cantilever arms, the support-ing structure is 7/8" O.D. x 13-gauge tubular steel welded directly to the seat support structure and matching the seat and back color. The armcaps are injection molded glass filled polypropylene matching the seat and back color. The armcaps are attached to the steel structure by means of screws.

Strive Optional Upholstered Seat

Molded urethane foam is attached to an injection molded polypropylene seat board, then upholstered using a draw-string process. The assembled seat pad is attached to the seat by means of hidden fasteners.

Surface Support

The worksurface shall be supported from the chair frame by a formed and welded support tube made from 1.125 O.D. 14-gauge steel.

The worksurface shall be supported from the support tube by means of a plastic gusset die casting with a black powder coated paint finish. The support tube rotates around the chair seat a total of 220° (110° each way from front center). A 1/2" thick steel plug shall be drilled, tapped, and welded into the end of the support tube. The worksurface shall be structurally secured to the support tube with Grade 5, 3/8-16 bolt, held in place with an epoxy patch.

Surface Mechanism

The gusset die casting shall rotate about the support tube by means of a plastic bushing connection, rotating a total of 154° around the support tube. The worksurface shall slide back and forth for a total of 6" of straight in and out movement. The sliding motion shall be accomplished with an aluminum extruded rail and plastic bushing mechanism.

## Surface

### Plastic

The writing surface of the plastic worksurface shall be injection molded polycarbonate. The understructure of the plastic worksurface shall be black injection molded nylon with fiberglass reinforcement filling.

### Laminate

The laminate worksurface shall be 18mm thick Baltic Birch plywood core with .040" laminate face and .020" paper backing sheet. The edge of the wood surface is shaped and sanded with a sealed and clear-coat lacquered finish.

### Accessory Rack

Optional accessory rack is constructed of 14-gauge perforated steel wrapped with .25" O.D. steel wire and welded to the frame. Optional cup holder is made of a .25" O.D. steel wire welded with an 11-gauge flat metal round trim plate to the steel racks. Acces-

sory racks (with or without cup holder) are not field-installable or retrofittable.

### Casters

Double wheels (60mm) of high-impact thermoplastic with high-impact plastic frame. Carpet or hard floor casters are black only. Optional Bell glides (2" high) made of high-impact plastic also available, black only.

## INFORMATION

### C.O.M. Testing and Production Requirements

Not all materials are suitable for upholstering this product. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test samples must be sent to:

## HOW TO ORDER

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.

- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

## HOW TO BUILD A MODEL NUMBER

**A** Select basic model.

**B** Select worksurface type.

- LW** - Laminate worksurface; add \$49  
**PW** - Plastic worksurface

**C** Select frame color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

**D** Select fire code.

- NFR** - Compliance to TB 117-2013  
**FR** - Compliance to TB 133

See Upholstery Information for TB133 upcharge.

**E** Select shell color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

**F** Select surface finish.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

**G** Select caster/glide option.

- C** - Carpet casters  
**S** - Hard floor casters  
**GL** - Glides  
**SG** - Front hard floor casters, rear glides  
**CG** - Front carpet casters, rear glides

**H** Select upholstery grade/color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

## HOW TO BUILD A MODEL NUMBER

**A** Select basic model.

**B** Select worksurface type.

**LW** - Laminate worksurface; add

\$49

**PW** - Plastic worksurface

**C** Select frame color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

**D** Select fire code.

**FR** - Compliance to TB 133

**NFR** - Compliance to TB 117-2013

See Upholstery Information for TB133 upcharge.

**E** Select poly seat and back color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

**F** Select top stitch color.

**BLTS** - Black

**WHTS** - White

**G** Select surface finish.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

**H** Select caster/glide option.

**C** - Carpet casters

**S** - Hard floor casters

**GL** - Glides

**SG** - Front hard floor casters, rear glides

**CG** - Front carpet casters, rear glides

**I** Select upholstery grade/color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.
