Conditions of Sale

Prices

The amounts listed in this document are suggested retail prices and may be changed without notice. Applicable taxes are not included. If you have an open and active account with Logiflex, merchandise will be invoiced at the prices prevailing at the time of shipment. A deposit may be requested if the opening of your account has not been completed or if your account has become inactive.

Terms of Payment

Net 30 days F.O.B. Sherbrooke, Quebec. The invoice will be assigned the shipping date and is payable 30 days from that date. Logiflex remains the owner of the merchandise until the invoice is paid in full.

Customized Products (Special Items)

Price requests for customized products or special items can be submitted via the "Online Services" section of our website, at www.logiflex.ca. Our quotations department will study your request and send you a quotation and a technical drawing for approval as soon as possible. Modifications to quotations or technical drawings can be requested the same way. The approved quotation(s) and technical drawing(s) can then be attached to your purchase order.

Orders

An official purchase order must be issued for all purchases. Your purchase order must contain the following information:

- Your company letterhead
- Your reference number
- The delivery address (with contact name and phone number)
- The complete product codes
- Furniture colour(s)
- Quantities
- Descriptions
- Retail prices and net prices
- Project registration number (if applicable), and your approved quotation and technical drawing (for special items).

Please note that a quotation cannot serve as a purchase order.

Returns

All returns must first be approved by Logiflex. If the return is accepted, a Logiflex customer service representative will send you an official return authorization form in order to facilitate procedures between you, the carrier, and the Logiflex merchandise reception clerk. Additional costs for shipping or other expenses may be applied following any merchandise returns.

Modifications and/or Cancellations

You have 48 hours from the time we acknowledge receipt of your order to make any requests for corrections or modifications. You may cancel your order during this same 48-hour period. If you would like to modify or cancel your order after this 48-hour verification period, please check with a Logiflex customer service representative. Orders cannot be changed or cancelled if production has already begun or if Logiflex has already received the raw materials.

Liability

Logiflex's liability ends once the carrier has delivered all items in good condition. A delivery receipt signed by the customer acknowledges that the shipment is complete and has been received in good condition.

Claims

Logiflex recommends inspecting the shipment before signing the carrier's delivery receipt. You must notify Logiflex of any incomplete shipments or damaged furniture as soon as possible. Requests to replace damaged products can be made via the "Online Services" section of our website, at www.logiflex.ca. Our after-sales service department will examine your request and help you correct the situation.

Changes

Logiflex reserves the right to make changes to the materials, accessories, components, specifications and designs, and to discontinue collections and/or models, at any time and without prior notice.

Storage and/or Shipping Fees

If you would like to delay the delivery of an order already in production at Logiflex, weekly storage fees may be charged. The suggested retail prices in this list may include delivery; however, some conditions may apply. If your order is a minimum of $10,000 net, the order can be shipped directly to your customer. In this case, a 53-foot unloading dock must be available at the time of delivery. This information must first be validated with your Logiflex customer service representative. Direct shipping is subject to additional fees. Any delay experienced by Logiflex carriers during delivery may also result in additional charges.

Conditions of Sale

Limited Lifetime Warranty

Logiflex warrants its products to the original purchaser for as long as the original purchaser owns the products. Logiflex guarantees that Level products bought new from an authorized Logiflex distributor are free from defects in materials and workmanship for the lifetime of their use. This warranty applies to Level products. Only if properly used, repair or replacement of any defect covered by the warranty will be at the discretion of Logiflex. Transportation and labor are not covered by this warranty. By accepting the product to its delivery, the buyer accepts its conditions. The warranty period shall be reduced proportionately if the products are used over a period exceeding the equivalent of a shift 40 hours/week. All replacement parts will be shipped to the original shipping address.

This warranty does not apply to defects or damages resulting from:

- Normal wear and tear occurring with the use of the product
- Negligence, misuse, abuse or accident
- Substitution, modification or use of components or materials that have not been authorized by Logiflex
- Delivery by a freight carrier or handling/installation by a contractor other than Logiflex
- Natural properties of materials
- Exposure to sunlight or environments with extreme temperature/humidity conditions
- Damage caused by a carrier in transit, or delivery/installation contractors

This warranty does not include:

- Parts and materials supplied by the customer (COM)
- Special finishes applied to Logiflex products
- The matching of colors, grains or textures of wood due to its natural properties
- Products used for rental purposes
- Non-standard Logiflex products
- Logiflex product not installed or used in accordance with the Logiflex installation guidelines
- Bulbs and ballasts

Restrictions:

- Electrical components are guaranteed for 1 year from the date of delivery
- Seat mechanisms, drawer slides and locks are guaranteed for 5 years from the date of delivery

Product Specifications

The COM fabrics are based on the first price range. A sample of COM fabric must be sent to Logiflex for approval before the order can be accepted. COM fabrics are used at the client's risk and are not covered by the Logiflex warranty. COM fabrics must be delivered to our factory, shipping, custom duties and brokerage fees "prepaid" with the following information provided: fabric description, number of yards delivered, order number, client name. If the fabric is delivered directly from the manufacturer Logiflex reserves the right to refuse any fabric that does not comply with the informations mentioned above.

Upholstery yardage calculation

Yardage is calculated in yards assuming that upholstery is 54" wide with no pattern.

Additional yardage may be needed if the upholstery is less than 54" wide, if there is a pattern repeat or if it is shipped in separate pieces. Please consult the following table in order to know the percentage of extra yardage required. The repeat of the pattern is calculated by adding up the horizontal and vertical repeat measurements.

Table: Percentage of extra COM yardage

Upholstery width	Plain	Repeat 2" - 14"	Repeat 15" - 19"	Repeat 20" - 27"	Repeat 28" - 36"
54"	0%	10%	15%	20%	25%
53" - 50"	16%	20%	25%	30%	35%
48"	16%	25%	30%	35%	40%
45"	40%	50%	55%	60%	65%
36"	50%	60%	65%	70%	75%

Leather specifications

All leathers used are "cowhide".

Please note that the warranty does not apply on leather's natural imperfections, such as: scars, marks, and difference in stain within a leather skin or different skins. This specification also applies for standard leather GR5 and Italian leather GR7 and up.

Flammability standards

FLAMMABILITY STANDARDS TO TECHNICAL BULLETIN 117 (STATE OF CALIFORNIA)

The Celcor foam used meets or exceeds the California Technical Bulletin 117 norms.

FLAMMABILITY STANDARDS TO TECHNICAL BULLETIN 133 (STATE OF CALIFORNIA)

Technical Bulletin CAL133 is a flammability test conducted on a complete chair. The compliance of the entire product, including covering, is acknowledged when a certificate is issued by a licensed testing facility. Any change to the finished product will required a retest. When a product must pass the CAL133 test, Logilife seats must receive a non-flammable lining that, in combination with convenient foam and upholstery, may enable products to meet certification requirements. However, the use of the compliance method does not ensure that a specific combination of product and upholstery is certified as being CAL133 compliant.

Cost and procedure:

The product assembly, test and certification cost is as follows:

Non-flammable lining at $45 net per yard

Certification at a cost of $721 net per item

Cost of the product to be tested and freight to the licensed testing facility

Please take note these costs apply whether the product passes or fails the test. 4 to 8 weeks is typically needed for the certification testing lead time. Logiflex cannot ensure CAL133 certification of a combination of product and upholstery that never passed the test. Please contact your account manager for configurations of products and upholstery that have been tested and certified.

General Characteristics

Fabric

For better service, we suggest using our main suppliers' websites to discover their fabric collections. We will be pleased to quote a price for the chosen fabrics available.

Available suppliers:

J. Ennis	www.jennisfabrics.com
Momentum	www.themomgroup.com
Victor	www.victor-innovatex.com/en/
Maharam	www.maharam.com
Mayer	www.mayerfabrics.com

See our Graded-In Program at:

Logiflex.ca > Finishes > Fabrics

Top stitchings

Different top stitchings are available for different armchair models.

Wood color

All wooden items offered in this price list are stained using the Logiflex wood finish melamine color.

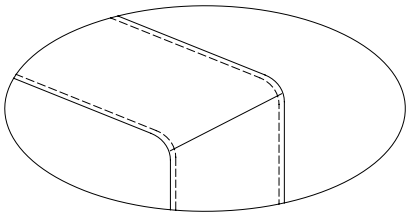
Refer to our current color chart at:

Logiflex.ca > Finishes > Colors & Finishes Guide

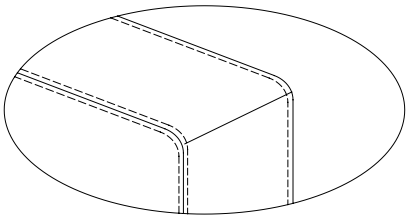
Polyurethane foam

The Velva brand polyurethane foam used in the manufacturing of our armchairs is antibacterial.

Different densities exist and will vary from one armchair model to the other. Medium-density foam is used for back and seating parts, while the firmer-density foam is used for armrest parts.



Simple stitching



Double stitching

Modular Section

Pesentation

Models

Our modular section is a flexible tool—its modular design possibilities are limited only by your imagination. The differently shaped benches will easily adapt to any environment.

Use it to enhance any office environment, institutional center, resting area, public place or even reception space. Through its contemporary design, comfortable and affordable features respecting environmental concerns, here are the series that will not leave you feeling indifferent.

Below is a very small sampling of possibilities available.

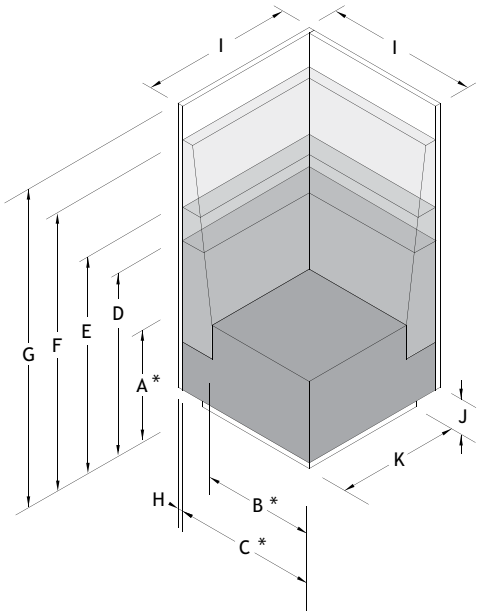
SIT - Introduction

Dimensions



Bench

A. Height	18" *
B. Depth to back	20-3/4" *
C. Depth to panel	26-3/4" *

Back

D. Short back height	29"
E. Medium back height	36"
F. High back height	48"
(Angle of back	8°)

Privacy panels

G. Height	54"
H. Thickness	1"
I. Width	27-3/4"

Coup-de-pied

J. Height	3-1/2"
K. Width	22"

* *Dimensions may vary depending on selected fabric thickness.*

Hardware

Levelers

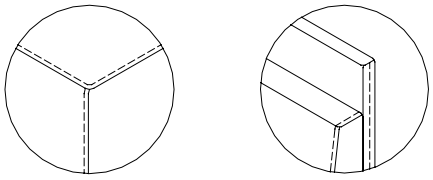
All modules with a kick plate sit on white nylon levelers.

Fasteners

All modules with a kick plate come with 2 fasteners to join to other modules.

Seams

All upholstered modules are finished with a single row of top stitching.



Foam

Velva firm density antibacterial foam is the foam used for upholstered modules.

Combining Fabrics

Different fabrics can be specified for the bench, back and privacy panel of the same seat at no extra cost.

Example: Bench: J. ENNIS ORNAMENTAL #302 GR3 /

Back: J. ENNIS BALANCE #9009 GR1 /

Privacy panel: J. ENNIS WICKER #302 GR3.

The price will be that of the highest-grade fabric chosen.

COM Fabric Quantities

The quantities of COM fabric to order for each piece of furniture are indicated at the bottom of each of the product pages. Note that these quantities are valid for fabrics whose pattern is 8" or less in width. If your fabric pattern is wider than 8", the amount of fabric you need to order may vary.

SIT - Introduction

Fabric Selection

We would like to inform you that the use of stretching upholstery such as leather and vinyl, is not recommended for the Sit collection except for major projects, where we will need a sample for approval prior to the order. If you would like to use vinyl or leather, please consult:

Logiflex.ca > Finishes > Approved vinyls for Sit

Layout

It is strongly recommend that you include a layout with all orders.

Kick Plate Finish

All kick plates are made of yellow birch finished with 20% shine catalyzed lacquer.

Lacquer is available in all Logiflex solid colors.

Please consult the Logiflex color chart for the solid colors offered at:

Logiflex.ca > Finishes > Colors & Finishes Guide

Polar White [W]
Mink Grey [G]
Misty [MI]
Slate [C]
Jet Black [B]

Wiring Management

All kick plates include a half-round machine-cut on all four sides for feeding cables from one module to the next.
