*Please note that all our finishes are applied by hand and require multiple steps from skilled artisans to achieve the fine, rich look that is the hallmark of Fairfield's finishes. As a result, each piece will be unique. Variations in color, shading, burnishing, distressing, crackle, texture and other characteristics should be expected from piece to piece, especially in our "Premium" and "Premium Plus" finishes, as they involve even more steps of individualized hand applications. At Fairfield, we treat each piece as a true work of art to provide our customers with furniture that is rich in beauty and character.*

\*\*\*Premium "Plus" finishes are not warranted for contract/commercial application.

### Aged Pewter\*

This finish starts with a very light hand distressing with a warm traditional base stain. The color is achieved using brown glazes and stains with hand-padding and a very light cow-tailing used for variation and character. The added character of silver tipping on carvings and tarnishing is used as an accent for a higher end look.

\*This finish is available on selected frames only. Please see your price list for a complete list of frames that will accept the Aged Pewter finish. The silver tipping is applied by hand to areas with carvings and moulded details only. Expected variations in the amount of silver is affected by the depth of carvings and burnishing which adds to the unique character.

### Burnished Gold\*

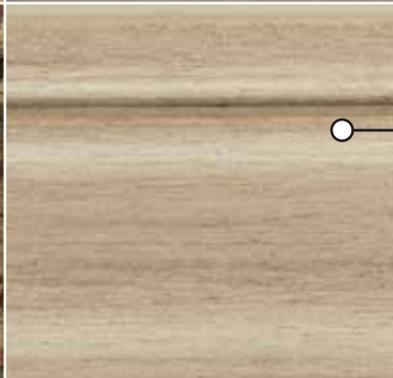

This finish starts with very light hand distressing with a warm traditional base stain. The color is achieved using brown glazes and stains with hand-padding and very light cow-tailing used for variation and character. The added character of gold-tipping on carvings and tarnishing is used as an accent for a higher-end look.

\*This finish is available on selected frames only. Please see your price list for a complete list of frames that will accept the Burnished Gold finish. The gold tipping is applied by hand to areas with carvings and moulded details only. Expected variations in the amount of gold is affected by the depth of carvings and burnishing which adds to the unique character.

### Amaretto

This finish emulates Italian and Old World charm through warmth and glazes using medium to dark stains and glazes. The underlying complexity of this finish begins with a light paint with layers of brown stains. These stains are set over hand distressing which is realized using dark glazes and hand dry-brushing that hangs up on these areas to give an antique character. Each piece finished using this Amaretto finish will develop its own look and character reminiscent of Old World Europe.

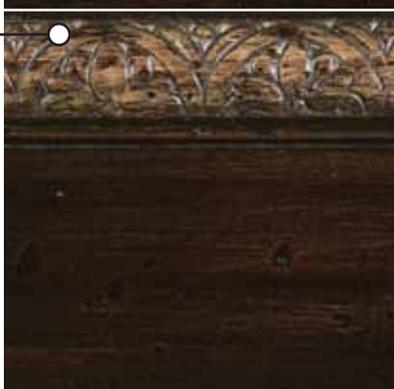

### Driftwood

Driftwood is one of our most labor-intensive hand worked achievements. Driftwood was added to emulate the look of wood that has been exposed to the Natural weathering of Sun, Wind and it's affects to wood grain. One of the first and most important steps of this finish is the careful attention given to hand distressing by skilled craftsmen on selected hardwoods. At that point the finish begins the color transformation to achieve the graceful aging process by combining various color tones such as light grays from bleaching of the sun and wind, medium browns from the natural pigmented wood tones, and at times, a slight appearance of light grays and or pale blues in various areas. Each color tone is carefully applied by hand to items individually in efforts to enhance and capture the essence of naturally occurring effects on wood as it reacts to exposure. Shading and hand padding are then added to various areas to soften and blend the color tones which results in a casual yet sophisticated natural appearance one would expect from the name Driftwood.

### Dusty Khaki

Dusty Khaki has been developed with several layers of applied stains which are all hand-wiped to work through and eliminate a solid build. This is needed to reveal the open grain patterns. Lastly a khaki colored paint is applied that has been weakened to aide in the efforts to show the inherent grain patterns which is then accented using a medium glaze. This process ties in the complete look and overall character as it adheres to the distinctive grains patterns unique to every item and adds a softened look to a very sophisticated and structured design.

### Antique Sterling\*

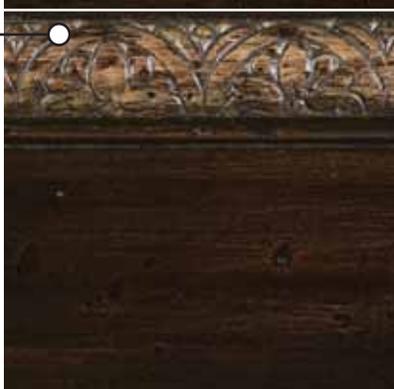

This finish is an accent addition to the Antique Black which is already in the line. The silver-tipping is added to select frames for an extra level of sophistication and character. The silver-tipping is applied by hand which is then softened and worn through in various areas for a worn, well traveled look.

\*This finish is available on selected frames only. Please see your price list for a complete list of frames that will accept the Antique Sterling finish. The silver tipping is applied by hand to areas with carvings and moulded details only. Expected variations in the amount of silver is affected by the depth of carvings and burnishing which adds to the unique character.

### Linen

Linen Finish is a unique look that adds a strong influence of Post Industrial influence which is softened with warmer stains and dry brush. The numerous stains are applied by hand in various points of interest which is unique to each item to further enhance the look. The darker dry brushing is then applied to accent certain key areas of interest or just simply add character, which would hint of that rare find or antique. This finish was developed to work along with the 8065 Brushed Linen occasional grouping.

### Artisan\*

This finish is an accent addition to the Antique Black which is already in the line. The gold-tipping is added to select frames for an extra level of sophistication and character. The gold-tipping is applied by hand, which is then softened and worn through in various areas for a worn, well-traveled look.

\*This finish is available on selected frames only. Please see your price list for a complete list of frames that will accept the Artisan finish. The gold tipping is applied by hand to areas with carvings and moulded details only. Expected variations in the amount of gold is affected by the depth of carvings and burnishing which adds to the unique character.

### Weathered White

Weathered White is a recently added accent finish that starts with a soft warm chestnut stain applied over hand-distressed solids. The finish at that point begins to take on a new life with added textures and various stains to further enhance and deepen the desired look. The final stages of softened whites are applied, which are hand-wiped in areas to help reveal the warm undertones and afford the look that transcends generations of character and style.

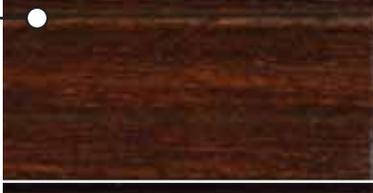

Please note that all our finishes are applied by hand and require multiple steps from skilled artisans to achieve the fine, rich look that is the hallmark of Fairfield's finishes. As a result, each piece will be unique. Variations in color, shading, burnishing, distressing, crackle, texture and other characteristics should be expected from piece to piece, especially in our "Premium" and "Premium Plus" finishes, as they involve even more steps of individualized hand applications. At Fairfield, we treat each piece as a true work of art to provide our customers with furniture that is rich in beauty and character.

5441-01 featured in Antique Sterling, a Premium "Plus" Finish

Fairfield's Fair-Shield Plus finish offers enhanced chemical, moisture, mar and scratch resistance, ideal for high use commercial environments. Fair-Shield Plus' clear top-coat conversion varnish forms a chemically cross-linked barrier that is more resistant to wear and abrasion and is more impervious to moisture and commercial cleaning materials. Fair-Shield Plus is also formulated with UV inhibitors to reduce the harmful effects of sunlight and features silver ion technology for antimicrobial performance. Fair-Shield Plus is denoted by the suffix "FS" following the name of the finish (i.e. Amber-FS).

## LIFETIME LIMITED WARRANTY: Residential

Fairfield warrants its merchandise to be free of defects in materials and workmanship for the life of the piece under normal residential use and conditions to the original purchaser. Exceptions to this warranty include:

- Commercial/Contract use (see separate warranty)
- Fabrics – One (1) year
- Customer's Own Material (COM) – Not warranted
- Standard Executive Swivel bases and mechanisms – Five (5) years
- Knee Tilt and Gas Lift mechanisms – Five (5) years
- Casters – Five (5) years
- Glides – Not warranted
- Recliner mechanisms – Three (3) years
- Sleeper mechanisms – Three (3) years
- Kingsdown Innerspring sleeper mattresses – Five (5) years
- Renting, recovering, misuse or abuse
- Damage due to carrier or customer handling
- Case Goods – One (1) year

Fabrics will naturally stretch and wear with normal use and is not considered evidence of defectiveness. Fabric fading, piling, heavily soiled, improperly cleaned and "after-market" chemically treated fabrics are not covered by this warranty. Customer's Own Material (COM) is not warranted.

Seat cushion cores have a lifetime warranty against loss of resiliency. Through normal use, all cushion cores will soften and lose loft with time. Loose seat and back cushions should be fluffed and turned weekly, polyester fibers will lose loft with normal use and is not be considered defective.

Warranty service is handled through the original furniture agent/dealer. Should service be needed, contact your furniture agent/dealer. After receiving Fairfield authorization, the agent/dealer will either repair or return the defective item to the factory for repair or replacement. Fairfield's responsibility for transportation and labor is limited to one year from the original purchase date and to the transportation between the agent/dealer's location and the factory. Outside the USA, warranty is limited to replacement parts only.

Replacement parts for office mechanisms, office bases, loose seat and back cushion cores and swivel rocker bases are without charge. Installation of these items is the responsibility of the dealer and is not covered by this warranty.

Consequential and incidental damages are excluded from this warranty. This warranty gives you specific legal right, and you may also have other rights that vary from state to state.

Our frames are constructed to support individuals up to 300 pounds.

## LIMITED WARRANTY: Commercial/Contract

Fairfield warrants its merchandise to be free of defects in materials and workmanship for Five (5) years under normal single shift use and conditions to the original purchaser. Exceptions to this warranty include:

- Certain frames with delicate features, as denoted in the catalog – Not warranted. **Please refer to our website for the most current information.**
- Fabrics – Not warranted
- Customer's Own Material (COM) – Not warranted
- Ultra Plush and Blend Down seat cushions – One (1) year  
(HR-40 and Ultra Firm seat cushions –5 years)
- Back cushions and arm pillows – One (1) year
- Knee Tilt and Gas Lift mechanisms – Two (2) years  
(Standard Executive Swivel bases and mechanisms –5 years)
- Casters – Two (2) years
- Glides – Not warranted
- Recliner mechanisms – Two (2) years
- Sleeper mechanisms – Two (2) years
- Renting, recovering, misuse or abuse
- Damage due to carrier or customer handling
- Case Goods – One (1) year, with the exception of the frames denoted in the catalog and/or on our website, which will not be warranted.

Fabrics are not covered by this warranty (please use an appropriate wear tested fabric for use conditions).

The warranty for seat cushion cores is against a loss of resiliency. Through normal use, all cushion cores will soften and lose loft with time. Loose seat and back cushions should be fluffed and turned weekly; polyester fibers will lose loft with normal use and is not be considered defective.

Warranty service is handled through the original furniture agent/dealer. Should service be needed, contact your furniture agent/dealer. After receiving Fairfield authorization, the agent/dealer will either repair or return the defective item to the factory for repair or replacement. Fairfield's responsibility for transportation is from the location to which Fairfield originally shipped. Transportation and labor are limited to one year from the original purchase date. Outside of the U.S.A., warranty is limited to replacement parts only.

Replacement parts for office mechanisms, office bases, loose seat and back cushion cores and swivel rocker bases are without charge. Installation of these items is the responsibility of the dealer and is not covered by this warranty.

Consequential and incidental damages are excluded from this warranty. This warranty gives you specific legal right, and you may also have other rights that vary from state to state.

Our frames are constructed to support individuals up to 300 pounds.

Fairfield offers a variety of nail-head trim for all applicable frames. When selecting your nail-head trim, please indicate the name shown to the left below (example, 1009 Hammered Oxford). If a frame is standard with nails, 1009 Brass will be applied, unless otherwise specified. Upcharges, if applicable, are listed in the current Fairfield price list for each individual frame.

### Cushion Construction

Fairfield uses a variety of cushion constructions depending on the style and intended function of the piece. Below are descriptions of the various constructions we are proud to offer:

**Ultra Plush 5L\*** This five-layered cushion uses a soft grade of 1.8 lb. HR foam for the cushion core. The foam core is then capped with a 1-3/4" thick, soft convoluted foam on each side and wrapped with a 1-1/4 ounce fiber crown. The cushion is then encased in a white non-woven ticking. This combination of foams and fiber is designed to create a soft plush cushion yet will still maintain positive "memory" of its original shape. This cushion is standard on most sofas and lounge chairs.

**Ultra Firm 3L\*** This is an "all foam" cushion (no fiber crown) constructed with three layers of Premium HR foam. The core foam is a firm compression which is wrapped on both sides with a layer of medium compression foam. The outer layer provides a softer initial feel, while the inner core provides the firm support. This Premium "all foam" cushion is designed for high shape retention and will resist fatigue and sagging. It is especially recommended for use in Commercial/Contract applications.

## Frame Construction

To maximize strength and durability, frames are constructed of solid kiln dried hardwoods and laminated hardwood veneers. Many major stress joints feature both triple doweling and corner blocks that are attached with glue, staples and four screws. To insure frame integrity and compatibility with style and design requirements, frames are engineered to use a variety of joint constructions. All solid hardwood is dried to 6% - 8% moisture content.

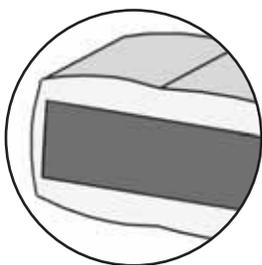

## Back & Arm Pillow Types

**Fiber Backs & Arm Pillows** Most loose and semi-attached backs and arm pillows are all fiber. The fiber is enclosed in a non-woven fabric with partitions inside to keep the fiber from shifting. The fiber used is a hollow conjugate with a silicone finish to provide superior loft and resiliency.

**FeatherBlend™ Backs & Arm Pillows** Premium back pillows that contain a filling combination of 50% Ultima Supreme™ polyester fiber/45% duck feather/5% duck down and arm pillows that are filled with 100% duck feather and down, are available as an option. The feather and down fill has been cleaned and dried using the Pacific Coast Feather Cushion Company's exclusive Ultraclean™ process. The result is a debris free, hypo-allergenic natural fill with exceptional performance. All feather and down adheres to the standard of the bedding industry for maximum comfort and luxury.

## Spring Construction

The Soft-Luxe individually pocketed spring system is the latest design innovation in upholstered furniture engineered to provide the ultimate in comfort. The Soft-Luxe system features a minimum of 100 coils per seat, or a minimum of 300 coils per sofa. Each seat cushion has a separate coil suspension that eliminates "roll-together" and provides seating comfort for every individual regardless of shape or size. The Soft-Luxe seating system will provide years of durable and carefree service to even the most active families. Some frame styles use drop-in coil units or sinuous wire springs.

**FeatherBlend™ Cushions\*** Both the seat and back pillows have a filling combination of 50% Ultima Supreme™ polyester fiber/45% duck feather/5% duck down. The feather and down fill has been cleaned using biodegradable emulsifiers, then rinsed eight times, in accordance with Pacific Coast Feather Cushion Company's exclusive Ultraclean™ process. Afterwards, PCFCC steam dries the feather, enhancing the natural curl in the feather for optimum loft and resiliency. The result is a debris free, hypo-allergenic natural fill with exceptional performance. All feather and down adheres to the standard of the bedding industry for maximum comfort and luxury.

The foam part used in the FeatherBlend™ Cushion is a high density, high resiliency foam that meets and exceeds industry standard.

*FeatherBlend™, Ultima Supreme™ and Ultraclean™ are trademarks of the Pacific Coast Feather Cushion Company.*

*\* All foams used by Fairfield meet the requirements of the California Bureau of Home Furnishings Technical Bulletin 117.*
