Change on a WIM.

INFINITELY FLEXIBLE FURNISHINGS AND FIXTURES BY **bold**

Price List and
Specification Guide

Effective March 2012

What is WIM?

- Distinctive, progressive and infinitely flexible
- Table, screen, storage, furniture line
- Smart and universal configurations
- Redefines true mobility
- Provides multi-function products
- Shrinks the furniture budget
- Easy to add, move, scale, configure and reconfigure, no tools necessary
- Environmentally friendly manufacturing processes and material
- Supports re-use, recycle sustainability
- Offers true footprint and budget scalability

- **Legs**
- Legs standard in either Silver, Black, Gray or Tan
- Casters
- Bold's Juxtapose legs available on request

- **Worktops**
- 16 standard worktop shapes
- Knife edge detailed
- Clear Coat Medium Density Fiberboard (MDF), wood veneer, wood laminate, laminate, white-board (yes, usable marker board) finish choices
- 1 1/8" thick worktops
- 1/2" thick edge profile
- Medium Density Fiberboard (MDF) substrate material (very green)

- **Storage**
- 37 standard storage product choices
- Wood or metal based storage cabinet choices

- **Screens/Dividers**
- Mobile/Movable screens/dividers
- Solid, tackable, marker-board, and/or opaque or translucent screen materials
- Screen posts are made of extruded aluminum
- Screen attachment device requires absolutely no installation tools
- Screen posts in caster or floor mountable versions

- **Power and Cable Management**
- All power components are UL approved
- Water Cooler or Connectrac solutions available
- Choose 1, 2 or 3 circuit power

- **Accessories**
- WIM Clouds
- Shelves and Shadow Boxes
- Cable Management Bags

- **Warranty**
- Limited Life-Time Warranty

- **Custom capability**
- Modified standards encouraged

Screens

Screens and posts need to be ordered separately. Starter Screen (left) requires 1 screen and 2 posts.

Screens and posts are sold separately. Adder Screen requires one screen and one post.

Standard Screen Materials:

Screens come in 3 sizes - 50", 40" 20" tall - 36", 42", 48" wide

Posts come in two heights— 60" tall with casters, 56"tall without casters

Laminate - standard laminate finishes are shown on page 28

Marker Board - made of Medium Density Fiberboard (MDF) covered with white markerboard

Tackable Fabric - standard fabric choices are shown on page 28

GE Hammered Glass - standard finishes are shown on page 28

WIMage - panels covered with your favorite photo image; preferred file formats include Illustrator CS2 or earlier, Layered Photoshop CS or earlier, HI-Res PDF files with the fonts embedded; TIFF and EPS files are also acceptable, text needs to be converted to curves, colors are CMYK, no RGB please; art should be saved at 150 dpi at final size

(all standard screens have the identical material covering on both sides; call Bold with special requests)

Standard Screen Dimensions and Shapes—tallest version

Bottom of screen sits 4.5" off floor

Bottom of screen sits 9.0" off floor

Power and Data Management Solutions

The Water Cooler

Bold's WC provides a convenient spot to plug in your power and data needs. Cord and cable receptacles are available at worksurface height. All components are UL approved.

Water Cooler housing is made of Medium Density Fiberboard (MDF) in order to eliminate the potential for a 'hot-housing'.

Easy to install; Cooler comes in three pieces - tie the base to the floor over a floor monument or raised floor panel, lay the middle piece on it's side, tie the pig-tails together (electrician please), attach the second piece to the base with industrial strength screws, insert a Wi-Fi module if desired in the top-cap, attach the top cover with industrial strength screws and you are ready to plug-and-play. All of the receptacle electrical wiring is done at the factory.

Each WC comes with 3 or 6 double plug power receptacles already installed.

Each receptacle comes with a tree of different data connectors that are easy to install and wire.

Important Safety Reminder: Please do not add water to the Water Cooler.

Posts - mobile (with casters) or floor mountable feet

Part Number	Part Name	Dimensions	Price
WM-PSTM	Mobile post	60" tall from floor	$387
WM-PSTF	Floor Mount Post	55" tall from floor	$255
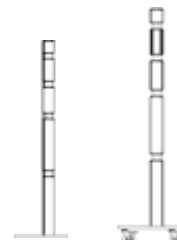

Just Post Particulars

- posts are made from extruded aluminum with grooves for added strength.
- posts are 55 3/4" tall (on the stationary model) and 59 3/4" tall (on the mobile model) from the floor.
- base or foot dimensions are 15.7" and 13.9" (triangular three foot base).
- pan foot incorporates 3 holes for attachment to the floor (cement screws or wood screws), or to use casters.
- casters are lockable.
- posts are available in standard black, silver or white powder coat finishes, or in unfinished aluminum
- see page 28 for standard finish options.
- shipped separate from the screen/divider.

Shelves and Shadow Boxes   A Bit of Overhead Storage

Shelves and Shadow Boxes

Part Number	Part Name	Dimensions	Price
WM-SBX36	3' Shadow Box	36"w x 14"h x 20"d	$517
WM-SBX42	3.5' Shadow Box	42"w x 14"h x 20" d	$558
WM-SBX48	4' Shadow Box	48"w x 14"h x 20"d	$584

In the center)
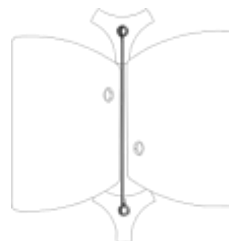

Two touchdown
Stations (with a center
screen)

Work Tables

NEEDS:
It's a table desk
It's a worktop!
It's a meeting table!
It's a teaming top!
It's a training table!
Yes, it's Super Table!

FEATURES:

Multi-functional
Flexible
Sustainable design
Color-able
Mark-able Surface
Strong
Durable

SEE HOW:

Bold's WIM Tables are **functional and flexible**.

With an infinite number of shapes and sizes (16 standard), a couple of casters, your table top is **multi-functional**. Create a work area. Combine four tables for a conference. Set up a Training Room. Use your imagination. And do it all with the same table(s)! Use it again and again for different purposes. Now that is **Sustainability.**

Looking to **add a little color**, finish your tables anyway that you want - clear coat, laminate, veneer or even an acrylic top that functions as a horizontal markerboard.
Choose from our **standard finishes** or let us know what you would like us to use. Our tables ship KD - with a Phillips head screwdriver you are minutes away from using your new WIM tables from Bold.

Our tables are designed to take a beating - Medium Density Fiberboard tops, beveled knife edge, solid cast aluminum legs. Seven brass inserts and bolts per leg hold it securely in place, providing a first-time fit regardless of the number of times the legs are removed and re-installed. Casters are furniture grade, and lockable. **That's strong**.

Square Tables

Part Number	Dimensions	MDF Clear Coat	Veneer	Laminate
WM-SQU30	30" square	$707	$834	$725

WIM Screens and Posts

NEEDS

Need a little privacy? Need
to add a little color? How
about divide a room?
Or, how about a mobile marker board or a tackable surface?
Want the screen over here, no, over there, no, I think it needs to be here.
Ever wish all this function came in one product?
These do - Bold's WIM Screens and Dividers are the answer.

FEATURES

Functional
Flexible
Mobile
Sustainable Design
Color-able
Material Creativity
No Tool Installation
Add Shelves and Shadow Boxes

HOW

Bold's WIM Screens/Dividers are truly **functional and flexible**. They are mobile or can be
secured to the floor. They provide multi-function, as do all WIM product. A screen that
functions as a white board, a privacy panel, and a room divider all in one product - now that is
sustainability. Mix and match functions to design your own screen/divider. Use it again and again any place.

Looking to **add a little color** to your environment or better yet, create a completely new look? Bold's WIM
Screens/Dividers can incorporate **any material** that is 1/2" or thinner. 3Form, GE Hammered Glass, laminated
board, veneered board, tackable materials, glass, metal, wood, recycled materials - you name it.

Each panel comes with four gravity feed clips attached - **no tools required** to assemble or tear down. These clips
fit nicely into any of the holes found in Bold's WIM Posts. Create any angle that you would like. 16 clip holes
around a circle, providing 55 degrees of movement in each hole. Now that's flexibility. **Create any angle** in any
configuration that you would like.

Bold's WIM Posts are made from extruded aluminum, with four indented areas which contain the 16 screen clip
mounting holes. The posts are beveled to provide even more **structural integrity** and **durability**. Raw aluminum
or a host of powder coated finish options are available. All standard posts are 60" (casters) or 56" (floor mount) tall
from the floor.

Need more function? Bold offers three heights of screens/dividers - a tall screen (50") a medium version (40") and
a short version (20") that allows for the attachment of shelves and shadow boxes to the WIM Posts.

A Quartet of Great Screen Ideas
WIMage - screen panels covered with your favorite photo image
WIMboards - screens covered in white board laminate. Use white board designed wet markers.
Bold's middle name is Custom - with design freedom and material flexibility as our first and last name, just call us
with your own ideas and we will help them become a reality.

Screens/Dividers—Tall and Short Screen Sizes

Part Number	Dimensions	Laminate	Hammered Glass	Tackable Fabric	WIMages
Tall					
WM-SCR36	36" x 50"	$472	$170	$520	$774
WM-SCR42	42" x 50"	$488	$186	$535	$870
WM-SCR48	48" x 50"	$493	$201	$551	$967
Medium

Just Screen Particulars

- three heights of screens, 50" full screen, 40" medium screen and a 20" short screen to be used as a modesty panel and/or to add additional shadow boxes/shelves
- standard screen height for tall unit slopes from 50" to 37", and stands 4.5" off of the floor (on the stationary model) and 9" off of the floor (on the mobile model).
- gravity feed installation clips attach screen to posts (no tools required)
- clips are preinstalled, using bolt and nut inserted through screen material
- post attachment clips are assembled in the field with a Phillips head screw driver.
- screen holes are pre-drilled.
- screen thickness 1/2" except for tackable surface which is 1" thick
- standard screen material options are:
  - laminate both sides, 1/2mm PVC edgeband
  - veneer both sides, self-edge
  - marker board, 1/2mm PVC edgeband
  - GE Hammered Glass screen (opaque screen, tough and lightweight)
  - tackable surface both sides - total 1" thickness; painted Homasote
  - additional screen materials available upon request (use your imagination)
- see page 28 for standard finish options
- shipped as separate pieces/1 screen per carton (bulk shipment on request)

So what is GE Hammered Glass you ask.
LEXAN® Thermoclear® Hammered Glass Look is a two sides UV protected polycarbonate twin wall sheet which combines new aesthetics, improved light diffusion, impact strength and good fire resistance.

Papa screen is 50" tall in height—there is no more room for shelf or shadow box accessories
    Mama Screen is 40" in height– and can be used with one shelf or shadow box
        Baby Screen is 27" in height—and can be used with up to two shelves or shadow boxes, or one of each
          Making them all just right
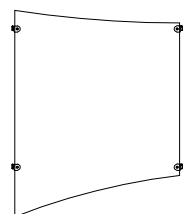

Papa Screen
50" tall sloping
to 37" tall
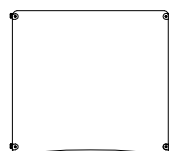

Mama Screen
40" tall across the
top, Slight curve

Wood Based Modular Storage

NEED

Files
Books
Binders
DVDs
Stuff

FEATURES

Distinctive
Contemporary
Infinitely flexible
Durable
Mobile
Multi-function
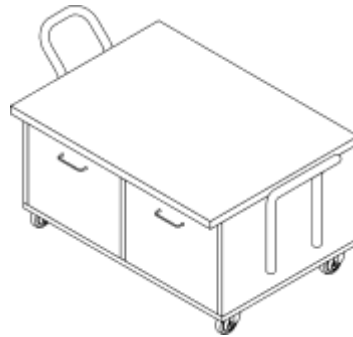

HOW

Got files, books and binders?
Need them here in the morning, another place in the afternoon?
Then look at Bold Storage.
Compatible with a myriad of interiors and office layouts.
Ideal for a variety of applications.
Bold Storage features a **clean look**, and is **built to last**.
Comprising an elegantly **simple, and complete line** of pieces that work well individually and together.
Each unit stands alone or can be grouped into pods.
Use as space dividers—now that is sustainable.
Each piece is mobile, providing the ability to move it where ever it is required; from office to a team meeting, to the conference room, to a storage space.
Legs, caster, drawer slides, pulls, handles and glides withstand the most rigorous industrial applications.
Crafted of top-quality materials, paying close attention to the details.
Wood pieces are hand-finished to smooth perfection; three edge band options are available for the perfect finish.
Engineered to be on the move; steel on steel connections for all legs and casters.
Handles the clutter of tight spaces through unique design.

Storage Particulars
All benches and chests come with full-extension, steel ball-bearing slides that support well over BIFMA standards.
All doors and drawers can be specified with locks for added privacy and security.
Industrial strength casters keep your products constantly on the move.
Durable steel handles give you the freedom to roll your books and files around all day long.
Vertical Library holds up to 18 standard size (3") binders
Are dimensions include width and height with side handles attached (if applicable); subtract 11" in width for no handles, subtract 5 3/4" in height for no handles.
Computer Cart houses in-board shelf to hide cables, surge protectors, and peripherals.
Bench products double as mobile credenzas, and accept a separately specified File Bench Cushion.
All drawers handle a variety of letter-sized files, folders, and binders; legal filing optional.

WMCC	Computer Cart**	57w x 33 7/8h x 21 3/4d	$1195
WMCP	Computer Cart w/CPU Storage**	57w x 33 7/8h x 21 3/4d	$1195

*specified width is from handle to handle - deduct 11" width with no handles; **height dimension is from top of handle - deduct 5 3/4"
For additional storage options visit www.theboldcompanies.com and check-out our Juxtapose product line

Metal Based Storage—find images on page 7

<u>Pedestals</u>

Mobile locking pedestal with counterweight. Lock is included.
Box drawers include 3/4" extension, steel ball-bearing slides, file drawers include full extension slides.
Four in-line skate casters, all locking, are included.
Fronts cover box edges.
Special 21 3/8" height mobile pedestals will store underneath work surfaces for out-of-the-way, easily accessible storage.
Available in file/file, box/box/file, and box/file configurations; add a cushion if desired

Pencil/box/file mobile pedestals are identical in structure to our mobile pedestal with a 3" pencil drawer on top.
Pencil and box drawers include 3/4" extension steel ball-bearing slides.
Inside height of the 3" pencil drawer is 1 3/4".

Cushion top mobile pedestal also available.
Mobile locking metal pedestal including box and file drawers with counterweight features a 1 1/2" cushion attached via dual-lock.

All units include a satin nickel "pull handle" or an inset handle.

How to order cushion fabric:
All fabric choices are yours.
For COM, plan 1 linear yard of 54" fabric per unit required.
Fabric grain will run front to back.

<u>Mobile Bookcase</u>

Black 37mm plastic casters, two locking, two non-locking.
Satin Nickel Pull attached to each side of the bookcase for convenient mobility when locked, (or specify inset pull).
Bookcase is 30" wide, and two side pulls add 1 1/4"; total width is 32 1/2".
Inside clear height is 24", and 1/2" shelf is adjustable; allows for binder height storage on one shelf only.
Inside depth is 15".

<u>Mobile Modular Towers</u>

Manufactured as two separate cabinets, units may be rotated 180 degrees in the field.
Bottom model features either one or two full-width, full-depth lateral file drawers.
Top module features double door storage with adjustable shelves.
Both cabinets lock independently.
Drawers are 20 1/2" wide x 21 1/3" deep, and will accommodate one row of letter, A4 or legal filing, either side-to-side or front to back.

<u>Bookcase Wardrobe Towers</u>

Includes a full-height coat closet and side-access bookcase with one adjustable shelf (60lbs. shelf capacity).
Two key-alike locks are included: one for the coat door and one for the pedestal. Coat closet contains a two-pronged coat hook. Order left or right handed version.
Box and file drawers contain full-extension, steel ball-bearing slides.
Inner dimension: bookcase - 21 1/2"w x 15" d; coat closet - 7 1/2" w x 22 3/4"d

Power and Data Cable Delivery and Management

FEATURES

Power and data access at worksurface height
Fixed position access (move the furniture up to the power and data access ports)
Plug and Play Connectivity
Flexibility
Durable
Safe

HOW

Power and Data connections got you down?
Can't move your furniture where you want it because it is tied together?
Is bringing power and data access to the worktop expensive?

Bold's WIM has the answer. Or better yet, the answers.

With WIM, **power and data are position fixed** while all of the **furniture moves** where you want it, when you want it, with **easy access** to power and data connections. That is Bold's definition of **true flexibility**.

Bold's Water Cooler is a floor-fixed housing that delivers power and data to worktop height. Strategically located Water Coolers afford you the opportunity to **unplug from your primary work space**, move your furniture to a meeting, and plug back in to power and data. Now that is true flexibility. The Water Cooler is designed to accommodate 1, 2 or 3 circuits of power. Each Cooler can accommodate 3 or 6 connection modules (for power and data). See page 24 for specifications.

And, of course, all WIM Power and Data systems are UL Listed and CSA Certified.

Note: according to the Commercial Building Standard for the Telecommunications Industry Association, it is acceptable to locate communications cables along with properly shielded power cables in the same channel or wire way.

Power and Data Cable Delivery and Management

Water Cooler

Part Number	Description	Dimensions	Price
WM-H2O-S6	Water Cooler - Tall, 6 receptacle/data modules	55" tall x 12" dia	$3,507
WM-H2O-S3	Water Cooler - Short, 3 receptacle/data modules	39" tall x 12" dia	$2,553
WM-H2O-T6	Water Cooler - Tall, 6 receptacle/data modules	55" tall x 12" dia	$3,883
WM-H2O-T3	Water Cooler - Short, 3 receptacle/data modules	39" tall x 12" dia	$2,929

Water Cooler Particulars

- comes with 3 or 6 connector ports
- each connector port contains two 3-prong, electrical power receptacles and 1data cable opening
- also included are 5 interchangeable data cable receptacles (USB, RJ-45, Fiber Optic, Cat 5, Cat 6)
- all electrical parts are UL approved
- Water Cooler Cap designed to house your WiFi router, (unless Ceiling Feed Post is used)
- unit is designed to cover a floor monument or a raised floor panel
- Water Cooler base attaches securely to the floor using concrete fasteners or wood screws
- Tall version accepts screen clips
- receptacle/data modules come in brushed aluminum with black receptacles
- see specifications on page 6

Go Green With WIM

Think Green, be Green, do Green

WIM was designed with the environment in mind.

Bold's products are designed and built to:
- use only wood from replenish-able, managed forests
- use environmentally sound materials
- replace toxic glues and finishes with water based products
- utilize recycled materials wherever possible
- offer natural ingredients like sunflower seeds and baltic birch
- replace the use of plastics and chemicals where possible
- engineer products as modular units for recycle and reuse flexibility
- utilize metal to metal (recycled) connections, assure initial and future fit and finish
- develop product sizes that minimize waste and scrap
- use non-VOC emitting finish chemicals; water based is the best
- use reclaimed and reusable finish coatings

How Bold Supports Sustainability

Sustainability is the ability to maintain the qualities that are valued in the physical environment.
Most people wish to sustain:

> Human life
> Capability that the natural environment has to maintain the living conditions for people and other species
> The aspects of the environment that produce renewable resources
> The quality of life for all people, the livability and beauty of the environment.

Sustainability issues arise everywhere – even in the production and consumption of furniture

Many sustainable practices are being identified as "green" initiatives.
Terms have arisen to express our sustainable concerns:

> Intergenerational equity – providing future generations with the same environmental potential as presently exists.
> Decoupling economic growth from environmental degradation - managing economic growth to be less resource intensive and less polluting
> Ensuring environmental adaptability - maintaining and enhancing the adaptive capacity of the environmental system
> preventing irreversible long-term damage to ecosystems and human health

So let's bring this down to furniture and see why it is important that all industries strive for sustainability

There has been a move in interior design to go GREEN, a new focus on environmentally friendly products and practices.
While plastics and chemicals seemed like a good idea at one time, concerns about landfills, depleted natural resources and toxic off-gassing are now prompting the design industry to search for environmentally sound options.
How:
Replenish the forests that lumber is taken from – **use replenishable, managed forests**
Replace toxic glues and finishes with **water-based products**.
Utilizing **recycled materials** in everything from furniture to fabrics, to tackable surfaces to …………
A products Green Story is critical to designers and end users alike as end users are clamoring more and more for green products.
The commercial side of industry (not the residential) is driving the switch.
Specifiers and users must be able to tell how products are constructed.
Manufacturers need to have written policies explaining how their products are made and how they as an organization are environmentally responsible.

The use of natural ingredients like **sunflower seeds and baltic birch**, replaces the use of plastics and chemicals.
Other ways are:
Prevent pollution
Reduce waste
Reduce consumption of non-renewable resources
Increase energy efficiency
Minimize harmful emissions
Eliminate waste and emissions associated with the production of products and services

Choices are to **reuse, recycle**, reject – first two options are sustainable objectives
What % of our products can be re-used and which can be recycled determines our sustainability commitment.

Bold's sustainability commitment:
Modular engineered products afford us the opportunity to resize, reuse initial products.
Brass inserts and bolts, assure initial fit and finish, **reducing waste**.
We use **recycled materials** like Sunflower Board, Trend-Q…..
We use recycled rubber, tackable surfaces where appropriate
We use **water based finishes and glues** – no VOC emissions
During the design phase, we **review scrap, raw materials, water, electricity needs** in the production of products.
We recommend **product size** to a customer – so that we produce less scrap.
We are **Cradle to Cradle designers**
We design for **easy recovery and reuse** of materials.

Embracing sustainable solutions and using C2C products can help reduce waste, improve air and water quality, conserve resources, and deliver significant health – and economic – benefits to business.

Sustainable design can, and does, deliver measurable productivity gains for a business. "A bad workplace environment means people are out sick, they're not performing well, or they just don't want to come to work
Employee productivity is a huge factor for every business. If you can show, for example, how you can improve productivity 12% with a sustainable workplace, then that company can either hire 12% fewer employees, or get that much more productivity. You can make that case, if your client is will-ing to make the investment."
The **switch to wood** increases the price of the workstation slightly. But in addition to its sustainable properties, wood offers users both aesthetic and performance benefits
Bold meets the needs of the present without sacrificing for the future – that is how Bold supports sustainability.

Limited Lifetime Warranty
BOLD Furniture warrants all of its products to be free from defects in material and workmanship found during normal usage for the warranty periods detailed below.

Lifetime   file and storage handles

12 years   laminate products

5 years   wood veneer products
                    drawer slides
                    accessories
                    MDF products

Customer Service
Helping you and your clients is our primary focus. Our customer service team is available to answer any questions you may have, including: product information, shipping and delivery dates, custom & special requests, order status, replacement parts, acknowledgements, delivery tracking, return authorizations, complaints or compliments.

Placing an Order
Use the attached order form, send us an email at customerservice@theboldcompanies.com, or just give us a call at 888.687.6400

Orders must include:
P.O. number
Product Description
Finish per product type
Bold Model Number
Quantity by Model #
Ship to address
Requested arrival date
Either Bold list price or bold confirmed net price

Ordering Tips
Finishes—many Bold products are available in mixed finishes on the same product. Please refer to the Bold catalog for the proper finish selection process.

Pricing—all prices printed in the catalog are list prices. Call your local Bold Representative or local office Furniture Dealership for any available discounts. All listed pricing is F.O.B Bold; freight and installation costs are additional

Lead Times—we strive to keep our lead times at 6 weeks from receipt of approved order. For quick ship or custom orders please call Customer Service at 888.687.6400 to receive a lead time quotation.

All standard product orders are usually acknowledged within 24 hours of being received.

Custom Products

Bold welcomes custom and standard modified requests. To help us get you what you want, please be as specific as possible with your request (a drawing really helps).

Please be aware of the following guidelines:

We ask you and your client to sign off on our final drawing\(s) before we can begin production.
Lead times vary depending on design, but usually range from 4-8 weeks for initial orders
We strive to provide a price quote within 72 hours.
That pricing is valid for 90 days.
All custom product sales are final.
No changes or cancellations are allowed after the working drawings are signed and received by Bold.
You will receive a model number for your custom product request. Please use this number when referring to your order, or when re-ordering.

Replacement Parts

If the occasion arises where you need a replacement part, please have the model number for the product and contact Customer Service at 888.687.6400 and we will be happy to assist you.

Cancellations

All custom product orders are final and not subject to changes or cancellations after working drawings have been signed and received by Bold. If you place an order without a required date, it is considered a standard lead-time and cannot be cancelled. For orders being delivered with required dates, please contact Customer Service and we will try to accommodate your request.

Returns

Please contact Customer Service at 888.687.6400 prior to making any returns to receive proper return authorization. All returns must be received in good condition to receive credit.

Shipping & Delivery

All Bold products are usually available for shipping within 4 weeks of order receipt. We can arrange for delivery on a specified date and location. Freight costs are calculated per order and ship-to address.

How To Order WIM

Screens and Posts

Add up the number of screens and/or posts that you would like to buy, select a paint color for your finish

Screens

Quantity	Product #	core	finish material 1
5	WM-SCR36	M	L03-68

You have ordered a quantity of 5, 36" wide by 50" tall screen panels, with a Medium Density Fiberboard (MDF) core, finished on both sides with Wilsonart LO3-68 Putty laminate.

Posts

Quantity	Product #	finish color
6	WM-PSTM	BL

You have ordered a quantity of 6, 60" tall mobile posts, with 3 casters per post, in gloss black paint finish.

Table Tops

Determine the shape and size that you need, attach one of the leg styles, determine an edge profile and select the top finish and the edge type and finish.

Quantity	Product #	Leg Style	Edge Profile	Top Finish	Edge Type	Edge Color
2	WM-LPS84RH	W	K	CL	RW	CL

You have just ordered a quantity of 2, 84" long by 30" deep by 1 1/8" thick quarter eclipse tables configured for right hand operation, with a knife edge, finished with a clear coat over Medium Density Fiberboard (MDF).

Storage - Wood Based

Determine the type of storage and size that you need, select the finish option, an edge option, a lock if desired.

Quantity	Product #	Finish options	Edge Options	Lock
2	JXFF	MF	MF	Y

You have just ordered a quantity of 2, 16 5/8"w by 32 3/4"h by 24" d mobile file/file pedestal drawer units finished in clear coat Medium Density Fiberboard (MDF), with a lock.

Storage - Metal Based

Determine the type of storage and size that you need, select the finish option, a lock if desired.

Quantity	Product #	Finish options	Lock
2	WM-2009	BL	Y

You have just ordered a quantity of 2, 15 1/4""w by 27 1/8""h by 18 7/8" d mobile file/file pedestal drawer unit finished in black paint, with a lock.
