# about 9to5 Seating

# **Mission**

Founded in 1982, 9to5 Seating is a vertically integrated manufacturer, specializing in the design and production of ergonomic office seating to accommodate the rigorous demands of today's office environments. 9to5 Seating presents an extensive, complete collection of executive, task, side, conference, and drafting stool seating. Seat control, arm, chair adjustments, finish and fabric options are plentiful and customer customization is an everyday demand that 9to5 Seating welcomes. 9to5 Seating combines its state-of-the art in-house manufacturing systems with a commitment to ongoing improvements in all phases of operation. We are confidently empowered to deliver products offered at unparalleled pricing, with quality instilled in every phase of manufacturing.

Our strengths lie in our in-house manufacturing which encompasses CAD/CAM design, plastic injection molding, foam injection molding, wood pressing, CNC routing, metal stamping and an in-house tool and dye shop. Using these strengths, 9to5 Seating delivers a comprehensive line of office seating at a more than reasonable price backed with confidence from a quality made product.

Below are some highlights of the program:

- Lead Time: 5 Business Day Quick Ship and Standard 15 Day Leadtime
- Textiles: Choose from thousands of commercial grade designer textiles from Architex, Arcom, CF Stinson, Designtex, Maharam or Momentum Textiles
- Leather: Select from a wide range of leather colors including 10 colors in leather/vinyl combinations
- Lifetime Manufacturer's Warranty
- Premium Quality Components
  - Nylon Bases are made from 100% virgin glass reinforced nylon
  - All task, executive, and conference seating incorporate molded foam cushions

# **Supply Chain Innovation**

Due to our vertical integration, 9to5 Seating has achieved efficiencies not found in the operations of other manufacturers. Our investment in facilities capable of producing chair components provides a cost advantage for our company on every chair we produce. Additionally our independence from third-party manufacturers allows 9to5 Seating to better control quality, lead time, and consistency. Traditionally, chair manufacturers have been forced to buy components at prices that support the overhead of the component manufacturer. 9to5 Seating's innovative supply chain has effectively eliminated this unnecessary overhead resulting in the extraordinary value found in our product.

Traditional Supply Chain For Office Seating

9to5 Seating Supply Chain For Office Seating

It is an integral part of our corporate philosophy to promote environmental preservation. This ideology drives our endless commitment to a sustainable future.

9to5 Seating incorporates the following practices into our business functions:

- Compact and recycle 100% of inbound carton packaging material, protecting landfills from over 25 tons of cardboard every month!
- · Assembled a national network of blanket wrap carriers to allow orders to ship without cartons.
- · Produce all outbound cartons from recycled corrugated cardboard.
- · Ship with blanket wrap carriers whenever possible to eliminate cardboard debris.
- Use of electric forklifts in lieu of propane or other fuel based vehicles.
- · Recycle all paper cans and plastic bottles from daily office activities.

- Dispose of used computer equipment and machine oil through proper channels.
- Return empty photocopier/printer cartridges to our supplier for refilling.
- · Utilize paperless systems for internal reporting and production/warehouse management.
- Specify recycled paper for all printed literature pieces.
- Rooftop photo voltaic panel system offsets 5,164,303 pounds of C02 over its lifetime of 25 years, equivalent to the amount of C02 emitted by driving 157,278 cars 50 miles a day for one year.

# green practice

# 9to5 Seating Commits to Think & Act Green

9to5 Seating is committed to sustainable and environmentally responsible business practices. This global perspective is endorsed and executed throughout every aspect of our corporate culture, and within our warehousing, manufacturing and office facilities. We are proud to demonstrate our commitment by offering GREENGUARD Certified products, participating in the U.S. Environmental Protection Agency's Waste Wise Program, and have been awarded the prestigious LEED® NC Gold Certification for our factory and corporate headquarters.

# **Environmental Commitment in Action**

9to5 Seating's corporate headquarters uses a rooftop photovoltaic panel system to generate electricity for the facility. To view how much power we are generating in realtime visit our solar portal at www.9to5seating.com/solar

# Over 30 years, the system will offset:

- 6,102,370 lbs of CO2 | a leading cause of global climate change
- 4,192 lbs of NOx | a leading cause of smog
- 1,048 lbs of SO2 | a leading cause of acid rain
- 1,215 lbs of particulates | a leading cause of asthma

6,102,370 lbs of CO2 is equivalent to the amount absorbed by 13 acres of trees over their lifetime

# **GREENGUARD Gold Certified**

Our entire product line earned GREENGUARD Gold Indoor Air Quality Certification issued by the GREENGUARD Environmental Institute. The GREENGUARD Indoor Air Quality Certification Program assures that products designed for use in office environments and other indoor spaces meet strict chemical emissions limits.

For products intended for use in schools, daycares or other environments where children spend significant periods of time, the GREENGUARD Gold Certification Program offers the most strict certification criteria. It is referenced by both The Collaborative for High Performance Schools (CHPS) and the Leadership in Energy and Environmental Design (LEED) Building Rating System. Products certified to this standard are also suitable for use in environments where senior adults work or reside.

The GREENGUARD Gold Certification Program's requirements comply with the State of California's Department of Public Health Services Standard Practice for Specification Section 01350 (California Section 01350) for testing chemical emissions from building products used in schools and other environments. As such, GREENGUARD Gold Certified products can be used to earn valuable credits in the CHPS Best Practices Manual for K-12 schools, the US Green Building Council's LEED ® Green Building Rating Systems, the Green Guide for Healthcare, the NAHB Green Building Guidelines, Green Globes, Regreen and many other building codes, standards and specifications.

9to5 Seating products:

- Contribute to healthier interior environments.
- Add points for LEED Certification.
- Offer fabrics made from 100% recycled content. (Fabrics made from recycled content are identified with the symbol in the Grade-In section of this price book pages 14 – 23.)
- Manufactured using plastic, nylon, steel, aluminum and polypropylene components that are 100% recyclable.
- Use suppliers that share an earth-friendly philosophy.
- · Certified below chemical emissions limits for TVOC, Formaldehyde, Total Aldehydes, Individual VOCs, 4-phenycyclohexene.

Environmental Data Sheets for all 9to5 Seating products can be found at our web site www.9to5seating.com.

For more information about GREENGUARD programs visit www. greenguard.org.

# **LEED®**

At its core, a green building is a better performing building. It uses fewer resources and offers a better place to work through improved energy and water efficiency, better air quality, and access to natural daylight. We have been awarded the LEED® NC Gold Certification for our newly constructed corporate headquarters and manufacturing facility.

LEED is an internationally recognized green building certification system which promotes improved performance in energy savings, water efficiency, emissions reduction, improved indoor environmental quality, stewardship of resources, and sensitivity to their impacts.

Sustainable aspects of 9to5 Seating's headquarters building design contributing to LEED Gold Certification include:

- Rooftop photovoltaic panel system generating approximately 90% of electricity required for facility operation.
- Reduction of energy consumption through increased natural day lighting to enable factory to operate during an average day with lights off.
- Use of LED lighting throughout office space for further energy savings.
- Site selection promoting development density and community connectivity.
- Providing alternative transportation including access to public transportation, parking for low emitting and fuelefficient vehicles.

- Quality control of stormwater runoff.
- Decrease in heat island effect.
- Use of water efficient landscaping.
- Reduction of water usage by 40%
- Optimization of energy performance through a 28% improvement over 2011 California Title 24 code.
- Recycling or salvaging 75% of construction waste.
- Use of recycled content and regional building materials.
- Increased ventilation to promote indoor environmental quality.
- Use of low-emitting adhesives, sealants, paints, coatings and flooring systems.

# **Manufacturing**

We are committed to reducing, reusing and recycling the by-products and waste generated during our manufacturing process through our membership in WasteWise.

WasteWise is an U.S. Environmental Protection Agency's program in which organizations track their waste reduction efforts to benefit the environment.

9to5 Seating's efforts to reduce manufacturing waste include:

- Optimize machinery cycle times to manufacture parts in minimal time increments.
- Evaluate environmental effects before pursuing new products or purchasing equipment to ensure alignment with environmental commitments.
- Select materials that reduce or eliminate toxic and environmentally damaging materials from the manufacturing equation.
- Utilize water-based, environmentally friendly adhesives throughout our manufacturing facilities.
- Use of recycled raw materials in the production urethane components when possible.
- Sort and recycle rejected plastic components via five re-grind machines.
- Employ molded foam production in over 95% of products, greatly reducing scrap urethane.
- Work exclusively with plywood suppliers that participate in forest restoration.

- Collect and recycle all excess fabric, dacron and leather.
- Accurately determined the current carbon footprint through Life Cycle Assessment (LCA).
- · Identified hot-spots in energy consumption and associated CO2 emissions.
- Optimized energy efficiency and reduced CO2 and GHG emissions contribution from production processes.
- · Identified solutions to neutralize CO2 emissions that cannot be eliminated through energy saving measures.

# lifetime warranty

9to5 Seating products are manufactured with meticulous attention to detail to achieve a level of quality that is free from defects in material and workmanship. In an effort to stand behind this philosophy, 9to5 Seating warrants to the original purchaser of the product and from the original date of sale, the following:

For All Series Except Logic Plus, Enduro<sup>™</sup>, and Strata<sup>™</sup> Heavy Duty (HD) Series:

Lifetime Warranty to the original end user, the company will repair or replace, at its option, without charge to the original purchaser only, factory defective structural and mechanical parts. This warranty is for single shift, standard commercial usage, defined as a standard 8 hour work day, five days a week. Weight limitations vary by product.

For Logic Plus Heavy Duty (HD) Series:

9to5 Seating warrants the Logic Plus HD series of single-shift chair for a period of ten (10) years to the original purchaser. The company will repair or replace, at its option, without charge, defective structural and mechanical parts. This warranty is for single-shift applications with persons weighing less than 500 lbs.

Upholstery fabric and foam is warranted against wear through and deterioration during normal usage for a period of five (5) years. However, the company does not warrant leather against routine scratching and scuffing, as all leather is subject to minor blemishes during use. COM and COL are not warranted. Due to natural variations in material, furniture containing leather is sold subject to normal variations and/or irregularities of color, texture, and grain.

For Enduro<sup>™</sup> and Strata<sup>™</sup> Heavy Duty (HD) Series:

9to5 Seating warrants the Enduro and Strata HD series of multi-shift chairs for a period of ten (10) years to the original purchaser. The company will repair or replace, at its option, without charge, defective structural and mechanical parts. This warranty is for multi-shift applications with persons weighing less than 350 lbs.

Upholstery fabric with an abrasion resistance performance rating of 150,000 double rubs or more and foam are warranted against wear through and deterioration for a three (3) year period of multiple shift use.

# **Claim Process**

Should parts fail for any model during normal use within the applicable warranty period, please provide 9to5 Seating with a description of the failure and proof of purchase (Sales Order number located on the bottom of the chair) and if necessary you may need to return the defective part,

freight prepaid to 9to5 Seating for inspection, repair and/or replacement, together with a copy of original sales receipt. Labor and installation service is not covered under warranty. Please do not send parts without prior authorization.

Send Parts to:

9to5 Seating - Warranty Department 3211 Jack Northrop Avenue Hawthorne, CA 90250

9to5 Seating will inspect the part in question, repair or replace at its option any defective part at no charge to the original purchaser and return defective item thereafter. This warranty does not apply to product or parts of product that have been subjected to misuse or abuse, accident, alteration, unauthorized repair or which have been damaged in transit. You agree to indemnify and hold harmless 9to5 Seating, its officers, directors, shareholders, employees, and agents from any actions, claims, demands, damages, liabilities, costs, and strict liability in tort or contract, or any other legal theory arising out of the misuse or abuse, alteration, or damage in transit of the product.

# **Limitation of Liability**

Under no circumstance, including but not limited to breach of contract, breach of warranty or negligence, shall 9to5 Seating be liable for lost profits, loss of goodwill, stored data, general, special, consequential or exemplary damages, even if 9to5 Seating had notice of these damages or they were foreseeable. 9to5 Seating shall not be responsible for verifying dealer's or customer's descrip—tion of needs, data, or the fitness for a particular purpose of goods. 9to5 Seating's Liability in all cases shall be limited to repair or replacement of the defective parts, or the purchase price of the product. Damages resulting from misuse, abuse, alteration, negli—gence, or accidents are not covered under this warranty.

9to5 Seating makes no warranty that any of its products are suitable for any particular purpose and makes no other warranties, express or implied, other than those set out here. As codes and standards vary from one jurisdiction to another, references to compliance are solely for convenience and without any representation as to accuracy or suitability. Users must verify the suitability of such information or product for their specific application. In no event shall 9to5 Seating be liable in either tort or contract for any loss or direct, special, incidental, consequential, or exemplary, damages.

EXCEPT AS OTHERWISE PROVIDED, 9to5 Seating MAKES NO OTHER WARRANTIES. EXPRESSED OR IMPLIED. INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

## **ANSI/BIFMA**

The Business and Institutional Furniture Manufacturer's Association (BIFMA) has developed tests which have been approved by the American National Standards Institute (ANSI) for determining the strength and durability of seating in its everyday use. This statement does not serve as a warranty or guarantee, however 9to5 Seating products found within this price list generally meet or exceed applicable BIFMA and ANSI standards.

**Warranty Exceptions:** 

- · Color-fastness or matching of colors, or textures occurring in leather, or other materials that naturally exhibit inherent color
- Product normal wear and tear, which is to be expected over the course of ownership
- Damage caused by the carrier in-transit, which will be handled as separate terms and/or claims against the carrier
- Damage caused by delivery/installation contractors, which will be handled as claims against the designated company
- · Failures and damage which result from negligence, abuse, accident or misuse
- Damage by markings or staining; damage by sharp objects or imprinting from instruments
- The warranty is limited to replacement or repair and does not cover cost of transportation, labor or installation.
- · Products exposed to extreme hot and cold temperatures or excessive dry environments
- Damage of textiles from exposure to sunlight and UV rays.
- Products that were not installed, used, or maintained in accordance with product instructions and warnings

9to5 Seating reserves the right to make changes in design and construction or discontinue products without prior notice.

9to5 Seating reserve the right to make changes to the lifetime warranty or pricebook

Since textiles vary in weave, thickness and memory, some creasing and/or gathering may occur during the upholstery application process. Due to natural variations over which we have no control, all chairs are sold subject to minor irregularities of color, surface, grain, and texture. Textiles are sold subject to minor variations of color. Because leather is a natural product, variations of texture are common and should be expected. Leather will contain natural markings such as neck wrinkles, scratches, backbone marks and stretch marks. These distinctions give leather its unique characteristics and are considered to be part of the natural beauty of leather.

# general information

## Hours

Order Desk: Monday - Friday - 6:00 a.m. to 5:00 p.m. P.S.T. Shipping & Receiving: 8:00 a.m. to 4:00 p.m. P.S.T.

# **Condition of Sale**

Possession of this price book does not necessarily constitute authority to purchase.

## Minimum Order Size

No minimum order required. Orders of 4 chairs or less will be charged \$15 per chair net shipping charge.

## **Payment**

9to5 Seating accepts all major credit cards, company checks, cash, and terms payment for approved accounts. Credit card payments are subject to a 3% service charge. A \$35.00 fee will be charged for returned checks.

## **Terms**

Standard terms are net 30 days from date of invoice. Please respect these terms in order to protect your competitive pricing. Credit terms may be changed or canceled at 9to5 Seating's discretion.

- 1. All new accounts are required to remit a 50% deposit of the initial order's total dollar value prior to the order entry and the balance must be paid at the time of pick up or release to common carrier. A line of credit may be established upon acceptance of satisfactory references and the completion and signing of credit application.
- 2. The customer will be liable for any cost incurred in attempting collection of past due amounts, including attorney fees, whether or not a lawsuit is filed. Past due accounts are subject to a 2% per month (24% per annum) late charge, or maximum amount permitted under local law, for each thirty days, or part thereof, the outstanding balance remains unpaid beyond the thirtieth day after invoice date. Witholding of payments, because of carrier damages, shortages or other disputes is illegal and subject to charges.
- Orders delayed due to credit hold will be rescheduled for production once the order has been credit released. A new lead time will be given at that time. Please contact customer service to coordinate details.

# **Prices**

All prices are suggested retail and are subject to change without notice. We make every effort to notify all customers of such changes. Prices in effect at the time of shipment will prevail.

## **Order Acknowledgement**

An order acknowledgement will be faxed or emailed to you upon receipt of the order to confirm quantities, items ordered, and prices effective at the time of the order acceptance (prices may vary from the published list) unless there is a credit issue or you are otherwise contacted. Be sure to read these acknowledgements and contact us immediately if incorrect.

# **Shipping**

Complete and specific instructions for shipping should be given at the time an order is placed. Orders that do not have specific instructions will be routed by the best method of shipment in accordance with the judgement of our traffic department. ANY changes to shipping instructions must be faxed into our office. Shipping weight and cubic dimensions shown in our price list are subject to variation.

Standard shipments are made via common carrier, unless otherwise requested by the customer. Special routing requests made by the customer or the consignee may result in additional charges.

Standard deliveries are dock-to-dock and are scheduled to occur Monday through Friday between 8:00 AM to 4:30 PM. 9to5 Seating reserves the right to charge the customer for non-standard customer delivery requirements that may include delivery appointments, drop shipments, inside deliveries, residential, limited access, or requests for trucks with lift gates. Additional charges may also be incurred for redeliveres or reconsignments if the initial delivery cannot be made for any reason. 9to5 Seating will not be held responsible for issues or costs to the customer arising from carrier transit delays or missed appointments. For information concerning these charges, please contact Customer Serivce.

# **Service Charges**

Below is a list of frequently requested Servce Charges:

- Call prior to delivery for verification. This is not a delivery appointment (no charge).
- Reconsignment fee of \$50 will be applied when changing consingee address after shipment has been tendered to a carrier
- Liftgate delivery (no dock) \$65
- Shipments to schools, churches, military bases, residential addresses \$65
- In the event that no one is available to receive a shipment and a redelivery is necessary, a charge of \$65 to \$150 will be billed to customer for redelivery. Charge depends on carrier.
- 9to5 Seating strives to use the best shipping method possible for every shipment. The factory may ship an order fully assembled and bagged, however this is not standard for all shipments. If you require blanket wrap delivery, you must contact 9to5 Seating to confirm this shipment method and confirm that the order acknowledgement sent to you reflects 'AB' as the shipment method. Additional charges may apply.
- Limited access locations where a dock is difficult to access with a 53 ft. trailer will be charged minimum \$65.

# **Guaranteed Delivery and Delivery Appointment**

Shipments are not guaranteed. Guaranteed service is available at an additional cost. Please contact Customer Service for more information. We will work to arrange a specific delivery time with the carrier. Service guarantees contracted with carrier are done solely at the request of the customer and 9to5 Seating in no way assumes responsibility financially or otherwise for any costs incurred by the customer as a result of a carriers failure on a guaranteed shipment. In the event of a carrier's failure on a guaranteed shipment, the associated guaranteed service fee will be removed.

# **Expedited Freight**

Expedited service is available at an additional cost. Please contact Customer Service for more information.

# **Drop Shipments**

9to5 Seating will not drop ship without prior approval. Additional charges may apply; contact Customer Service for additional information.

# condition of sale

## Will Call

Will Call orders will receive notification once orders are ready to be picked up. Customer will have 3 business days from notification to pick up the order. If the order is not picked up within this time frame, the order will be invoiced and storage charges will start at a rate of \$30 per each business day until order has been picked up.

## Freight Damage or Shortage

Before accepting a shipment from the carrier, check the boxes for visible damages. If a shortage or damage occurs during transit, it should be noted on the freight bill of lading at the time of delivery, and a claim filed within 7 days from receipt of product. If concealed damage is discovered after delivery, request inspection from the delivering carrier IMME-DIATELY and save all packing materials until inspection is made. Contact customer service as soon as possible to report damage or shortage.

For all Will Call orders, make sure to inspect merchandies thoroughly. 9to5 Seating will not be liable for any damage or shortage to merchandise after it has been signed for at our dock.

9to5 Seating will not be liable for any installation costs that result from freight damage.

# **Cancellations & Returns**

Due to immediate production scheduling, orders which have entered any stage of production cannot be cancelled. All 9to5 Seating chairs are made to order, custom designed chairs and are not "off the shelf". Requests for cancellation are not accepted until confirmed by 9to5 Seating. Product may only be returned after receiving a Return Merchandise Authorization number from 9to5 Seating. Returns are subject to restocking charge equivalent to 35% of the net order plus freight. Unauthorized returns will be refused.

## **Replacement Parts**

When ordering a replacement part, call Parts Department at 1.888.925.7328 or email to parts@9to5seating.com. For your convenience you can also submit warranty requests through our website by navigating to the warranty page and selecting the Warranty Request Form. As a helpful tip, have your 9to5 Seating Sales Order number available and please reference your instructions sheet to properly identify the correct part for your 9to5 Seating product.

Replacement parts are shipped within 48 hours from time of request. 9to5 Seating does not reimburse for labor and installation costs related to warranty replacements. Replacement parts needed to repair freight damage can be granted only if the request is received within 5 business days of receipt of the merchandise.

## **Product Design**

9to5 Seating reserves the right to make alterations in design and construction or to discontinue products without prior notice.

# chair measurements

# **Outside Width (W)**

Distance measured at widest point of chair.

# **Outside Depth (D)**

With the outside back of chair against wall, the distance from the wall to the front edge of seat.

# Outside Height (H)

Distance from floor to highest point of back.

# Seat Width (SW)

Distance measured at widest point of seat's side edges.

# Seat Depth (SD)

Distance is measured using the Bifma CMD (Chair Measuring Device ) from the most prominent point of the lumbar to the front edge of the seat

# Seat Height (SH)

Distance is measured using the Bifma CMD (Chair Measuring Device ) from the floor to the bottom of the device on the front edge of the seat. The CMD wighs 100 lbs.

# Back Width (BW)

Distance measured at widest point of back's side edges.

# Back Height (BH)

Distance measured from inside edge of rear seat to top edge of back.

# Inside Arm Width

Distance between arm, typically measured from mid-point.

# **Arm Height**

Measured from the floor to top edge of arm.

# lead time

9to5 Seating intends to have all approved orders ready for shipment within the below guidelines. However, there may be delays due to causes beyond our control. Orders received after Noon, PST will be considered as having been received the following day. Credit must be cleared before processing. 9to5 Seating is not responsible for late deliveries from freight carriers.

## Lead Time

5 Business Day Quick Ship includes Grades A, B, C, D, L2, and L3 selections found in the current express fabric card programs. Quantity is restricted to twenty five (25) chairs total per order.

Please specify "5 Day Quick Ship" on a separate purchase order to ensure proper handling and delivery time. DO NOT COMBINE with any other purchase order. In the event that a purchase order is not marked, order will be scheduled per our standard lead time below.

Standard 15 Day Lead Time is fifteen (15) business days or less and includes L4 and L5 leather and any 9to5 carded fabric/vinyl for quantities up to fifty (50) chairs total per order.

All COM orders up to fifty (50) chairs will ship within fifteen (15) business days from receipt of fabric.

Standard 25 Day Lead Time is twenty five (25) business days or less includes L5 leather and 9to5 carded fabric/vinyl for quantities over fifty (50) chairs total per order.

Standard 25 day lead times apply to all non-carded, graded textiles from Architex, Arcom CF Stinson, Designtex, Maharam, and Momentum (subject to availablility).

Please call Customer Service for lead times on orders over 100 chairs.

# order procedure

## To Place Order

Follow one of the following two choices to place order:

- 1. Fax your order to: 888.925.SEAT
- 2. Email your order to: **sales@9to5seating.com** or your dedicated customer service representative.

Specify complete model number, color, quantity, ship to address, payment method and purchase order number. In the event that an error is made in production of the chair, the hard copy of the purchase order will be used as the resolution document.

# **Order Acknowledgement**

Unless there is a credit issue or you are otherwise contacted, an order acknowledgement will be faxed or emailed to you upon receipt of the order to confirm quantities, items ordered, and prices effective at the time of the order acceptance (prices may vary from the published list). Be sure

to read these acknowledgements and contact us immediately if incorrect.

# **Shipment Notification**

Upon shipment of an order a shipment notification will be faxed or emailed with carrier information.

# **Model Number Structure**

When ordering, please create model number in accordance with the nomenclature below. Refer to Creating Series Model Number in the top right hand corner of specific model's price book page.

\*FOR ARMLESS CHAIRS PLEASE USE '00' AS PLACE HOLDER

# packaging codes

## **How to Specify**

9to5 Seating offers several packaging methods for most models. Please note not all packaging codes are available for each model. Reference the price book page for the model in question to view the packaging methods available. All available packaging methods and their corresponding prices can be found at the top of the price book page.

After determining the appropriate packaging method please add the packaging code to the model nomenclature of the model as it appears on your purchase order.

(example: 1725-M1-A4-101-AB)

# AB - Assembled in Bag for Will Call and Blanket Wrapped

The chair will be fully assembled and covered with a clear plastic bag for protection from dust. Chairs shipping via blanket wrap carrier will be produced with packing method "AB" as the chairs will be picked up at the dock fully assembled in the will call area.

# **PAC - Partially Assembled in Carton**

The chair will be produced and packed partially assembled typically with seat and back seperated, arms and controls pre-assembled in a shipping carton. Specially designed spacers are used to position all chairs in the carton and prevent freight damage.

# **BAC - Back Assembled in Carton**

The chair will be fully assembled with exception of the base, gas lift and casters removed and packed into a specially designed carton for this hardware. The chair may be removed, casters placed in the base, gas lift placed in the base and the remaining chair set on top of the cylinder. No tools are required

# AC - Assembled in Carton

The chair will be fully assembled and placed in a carton. This applies primarily to guest chairs which must ship fully assembled to accomodate chair design. Some guest chairs ship with multiple chairs in one carton

# upholstery selection

## **Fabrics**

Choose from thousands of different fabrics, comprised of varying price grades offered through 9to5 Seating's fabric cards. If you still can't find what you are looking for, you may choose from any of the textiles offered by one of our textile partners. There are thousands of patterns and colors to choose from. To make this easy for you, we have graded-in their entire product lines. Please see pages 16 to 25 of this Price Book.

## Leather

9to5 seating offers four grades of leather. L2,L3 and L4 all are upholstered with leather on the seating surface and vinyl on the back and side boxing. L5 is an ALL leather cover.

L2 is a pigmented split grain hide, available in Black

L3 is a glove-soft, top grain European hide, available in Black and Brown

L4 is also a glove-soft, top grain Italian cowhide leather available in colors. L4 executive chairs are available in 9to5 Seating premium leather colors: White, Sandstone, Mocha, Taupe, Gray, Saddle, and Navy.

L5 is a luxurious Italian full grain semi-aniline dye leather with a soft hand and smooth supple surface with even coloration throughout the entire hide. Available in 39 colors.

# Two-Tone Contrasting Seat and Back

When the seat and back fabric or vinyl are different on a single chair, clearly indicate your selection for both the seat and back on your purchase order. All fabric upholstered chairs may be ordered with two-tone upholstery for no additional charge. If the two upholstery selections are of different grades, the chair will price at the higher of the two grades.

For memo samples or availaility call Architex at 800.621.0827

# customer's own material program

# Ordering Instructions

Contact customer service for inquiries regarding COM/COL or follow the instructions below to assure the best results to produce your COM/ COL order.

- Complete 9to5 Seating COM/COL form (see opposite page or download from website) and send it to 9to5 Seating along with fabric sample.
- All COM/COL fabrics must be approved by 9to5 Seating and will not be scheduled for production until the entire yardage/ square footage requirements have been received. Approval can be completed by 9to5 Seating in 24 hours. 9to5 Seating will not return any excess COM/COL material.
- 3. For non-directional, plain, solid colors or non-patterned fabrics, please follow COM yardage requirements as specified under each individual model number in our price list. For fabrics which require special application or direction, please attach a sample of the COM fabric to our COM form. Include all information and return to 9to5 Seating at address shown below.
- 4. All COM textiles received at 9to5 Seating must be clearly marked with customer's name, purchase order number, 9to5 Seating sales order number (if available) and any special instructions for application of textile.

Send fabric to:
9to5 Seating
Attn: COM Fabric Receiving
3211 Jack Northrop Ave.

Hawthorne, CA 90250

 Upon receipt of COM textile, a production date will be given to the order and you will receive an acknowledgement by fax or email.

# Note:

- The yardage figures shown throughout the price list are estimates only. Calculations are based on 54" wide material with no repeat and cut in the woven way cutting direction for a single chair. For specific yardage based on width of material, chair model, and quantity, please contact 9to5 Seating.
- 2. For large quantity orders please contact customer service for more precise yardage requirement. Actual yardage requirement per chair often decreases with larger orders.
- 3. To calculate COM yardage, use the chart below as a guide and

add appropriate amounts to the generic yardage requirements listed in the pricer

FABRIC		2"-14"	15"-27"	28"-36"
WIDTH	GENERIC YARDAGE	REPEAT	REPEAT	REPEAT
54"		+20%	+30%	+40%

- 4. COL: Leather quality can vary depending on the size of the hides. Larger hides (50 to 60 SQ FT) tend to be higher quality and yield. Smaller hides (40 to 50 SQ FT) tend to have more quality issues that may cause smaller yields, requiring the need for additional hides to be ordered
- For all COL orders, 9to5 Seating cannot take responsibility for the need to order additional COL due to quality issues and related small material yields

# CAL TB 133 fire code

9to5 Seating's entire line of office seating meets California Technical Bulletin 117-2013 (CAL TB 117-2013) which has been in effect since January 1, 2015. This is a standard by which upholstered furniture has been tested for approval to meet a minimum fire standard. 9to5 Seating's standard product is not designed to meet California Technical Bulletin 133. However, upon special request, most 9to5 Seating products can be manufactured to meet the California Technical Bulletin 133 (CAL TB 133).

## **CAL TB 133**

CAL TB 133 is the standard of furniture flammability required by the California Bureau of Home Furnishings and Thermal Insulation for furniture used in public buildings. New requirements proposed for furniture used in public buildings such as:

TB133 is a requirement for the city of Boston

Healthcare Facilities, Convalescent Homes, Public Assembly Areas of Hotels and Motels, Hospitals, Board and Care Homes, Stadiums, Licensed Child Care Facilities, Prisons and Jails

# **CAL TB 133 Test**

CAL TB 133 is a full scale fire test for furniture manufactured for use in public buildings. The standards do not specify how to construct furniture, but only how it should perform when tested by the following procedures:

A finished piece of furniture, never single components, is placed in a 10' x 12' x 8' chamber and is tested by applying a gas flame for 80 seconds. Then measurements are taken for the rate and amount of heat generated, temperature of the test room while furniture is burning, smoke capacity, amount of carbon monoxide generated and mass loss of the furniture for one hour or until the fire is completely extinguished.

A solution to pass this fire standard test is to sandwich a fire blocking liner between the foam and fabric of our chairs. This liner acts as a 'fire extinguisher' by smothering the flame. As a response to CAL TB 133, and in order to meet customer's needs, 9to5 Seating has designed a variety of models and fabrics that can be combined to meet this new standard.

# CAL 133 Models

The following models when combined with approved textiles and blocker meet the CAL 133 standard: All plastic models of Shuttle and Bella are also approved.

Agent: 1425, 1426, 1428, 1660, 1666, 1668, 1680,

Aria: 1860, 1866, 1868, 1880

Bella: 1310, 1315, 1320, 1325, 1326, 1328, 1360, 1365, 1370, 1375,

1376,1378

Bristol: 2360, 2366, 2368, 2380 Cayman: 2800, 2800-GT, 2810 Cosmo: 3250, 3260, 3250-GT

Cydia: 3300, 3300-GT, 3310, 3310-GT, 3306, 3308, 3315, 3316

Enduro: 1960, 1966, 1968, 1980

Link: 1410, 1415

Logic: 1760, 1766, 1768, 1780, 1790 Precept: 1725, 1726, 1728, 1725-GT

Shuttle: 1210, 1215, 1250

Strata: 1545, 1546, 1548, 1555, 1560, 1565, 1580, 1585, 1560-GT,

1566, 1568, 1561, 1563

Vault: 1460, 1466, 1468

Vesta: 3060, 3061, 3063, 3065, 3066, 3068, 3080, 3085

## **COM CAL TB 133**

COM compliance for CAL 133 models listed above can be determined by specifying upholstery with the exact characteristics as approved 9to5 Seating fabrics or by conducting a full chair burn test. The non-discountable test fee for each chair-fabric combination is \$500.00 net.

# **CAL TB 133 Upcharge**

1 - 49 chairs: \$100 List Upcharge50 + chairs: \$50 List Upcharge

# To Order CAL TB 133

Please allow a 15 day lead time. Clearly specify CAL TB 133 on order, choose your desired fabric, from options above, then add the indicated amount above to the standard list price.

# To Check Purchased Seating For CAL 133

To determine whether your current 9to5 Seating chair meets CAL TB 133, or to check an order you have recently received, check the bottom of the chair seat pan for the label shown below.

If your chair does not show this tag below, then your chair does NOT meet CAL TB 133

# **NOTICE**

This article is manufactured for use in public occupancies and meets the flammability requirements of California Bureau of Home Furnishings Technical Bulletin 133. Care should be exercised near open flame or with burning cigarettes.

# two tone option

# **Ordering Instructions**

Two Tone Contrasting Seat and Back

When the seat and back fabric or vinyl are different on a single chair, clearly indicate your selection for each on your purchase order. If the two selections are from differet grades, price the chair(s) at the higher of the two grades.

# Available on:

Agent, Bella, Brio, Bristol, Enduro, Logic, Precept and Shuttle.

# custom embroidery submission form

Custom embroidery is a great way to display your company logo on upholstered chair backs. Embroidery can be done in multiple colors, shapes and size to suit your needs for a very reasonable cost and lead-time. To obtain a quote for embroidered upholstery, please fill out the adjacent form completely as possible. You will need a graphic file, preferable in Ai, EPS or other graphic format. Generally, higher resolution art (greater than 300 dpi) will be easier to work with. There will be a set-up charge to create a digitized file if you do not have one available. We will also need a PMS color number for each color thread required. 9to5 is not responsible for poorly digitized files or graphic files from the requestor. If the logo is NOT to be in the back center; the location of the logo needs to be specified as an offset from the center of the back, vertically and horizontally. (see form)

Keep in mind, embroidery is not a one to one replacement for printing, patches or heat transfer vinyl lettering. Embroidery thread is heavier, stronger and tighter density than the surrounding fabric and may pull or pucker on loosely woven fabric. Embroidery will always look best on strong, closely knit fabrics or vinyl. It is best to always get a sample for approval before placing the full production order.

All logos are trademarks of their respective owners. 9to5 Seating is not responsible for obtaining permission or use of copyrighted logos. Before you use, reproduce or distribute in any manner you must first receive the express permission of the holder of the copyright or trademark of that logo. Failure to obtain such permission is a violation under international law.

## control selection guide

**B2** 

Basic Task - 1 Paddle

Our basic control has simple adjustments. Ideal for clerical, casual meeting, and general office use. This control uses a 2.25" Cold-Rolled Steel J-Bar for added strength and back-pull durability.

**S1** 

Swivel - Tilt - 1 Paddle

Use for a variety of general office seating, including private office and conference room seating. Control locks upright for tasking.

M1

Multi-Function - 4 Paddle

For the highest level of ergonomic needs, suited for multi-task functions. Seat pivots from 0 to 6 degrees forward. 3.00" wide Cold Rolled Steel J-Bar adds strength and back-pull durability.

P1

Posture Back - 2 Paddle

Ideal for stool applications, the articulating back provides proper support for moderate tasking use.

S2

Swivel - Tilt - 1 Paddle

Use for a variety of general office seating, Similar function to the S1, however utilizing a 2.25" Cold-Rolled Steel J-Bar to connect seat and back. Control locks upright for tasking.

M2

Heavy Duty Multi-Function - 4 Paddle

With a weight capacity up to 500 lbs, in addition to multi-task ergonomic functions, its ideal for police departments, 911 emergency, hospitals or whenever a higher weight capacity is needed. A 3.00" wide 5/16" thick cold rolled steel back support adds strength and back-pull durability.

R1

Rocking - 3 Paddle

For managerial and task applications. Similar to a swivel-tilt control with the added comfort of infinite back-angle adjustment and infinite tilt lock. Features 3" Cold-Rolled Steel J-Bar.

S3

Swivel - Tilt - 1 Paddle

Use for a variety of general office seating, including private office and educational applications. Control locks upright for tasking.

G1

Gordon React - 1 Paddle

For use in task, managerial, executive and conference chair applications. The control features body balance and weight activation. The weight of each user self adjusts the tension and provides instant, adjustment-free operation. The back may be locked upright or in one of five reclined positions.

#### TASKING ARM OPTIONS

**A2** 

#### **ADJUSTABLE ARM**

The A2 arm features height adjustment via simple trigger mechanism under arm pad. Used with Brio and Y1, Y3, M1 controls only

ADJUSTABLE ARM

**A3** 

The A3 arm features height adjustment via simple trigger mechanism under arm pad. Used with Brio and G1 control only

\$180

**A4** \$75 **ADJUSTABLE ARM** 

The A4 arm offers a soft touch poly-urethane pad with 3" height adjustment. The arm pad features diamond padded anti-skid surface.

**MULTI-ADJUSTABLE ARM** 

**A5** 

The A5 arm is identical to the A4 arm but offers the added feature of 4" arm width adjustment activated via knob under seat.

\$95

**A6** \$130

**A7** \$150

A8B/S \$85

A9B/S \$105

#### ADJUSTABLE PIVOT/SWIVEL ARM

The A6 arm offers advanced features with Ura-Soft® arm pads. Features locking height adjustment, swivel pad and adjustable arm pad position - slides forward and back.

#### MULTI-ADJUST. PIVOT/SWIVEL ARM

The A7 arm is identical to the A6 arm but offers the added feature of 4" arm width adjustment activated via knob under seat.

### ADJUSTABLE ARM (BLACK)

The A8B height adjustable black arm features push-button height adjustment with a range of 3.5" and matching black powdercoated base

#### ADJUSTABLE ARM (BLACK)

The A9B arm is identical to the A8 arm but offers the added feature of 4" arm width adjustment activated via knob under seat.

A28/ **A29** 

\$100

#### **HEIGHT ADJUSTABLE ARM**

The A28 / A29 is an aluminum height adjustable arm with a fixed arm cap. NOTE: A28 arms offer an additional 3" of interior width.

**A30** \$125

#### **MULTI-ADJUSTABLE ARM**

The A30 is an aluminum 3 way adjustable tasking arm. Arms are height adjustable. The A30 pads slide forward and rearward and shift inward and outward for width adjustment.

**A32** \$120

#### **MULTI-ADJUSTABLE ARM**

The A32 is a 2-way adjustable tasking arm. Arms are 3" height adjustable using a pushbutton trigger. The A32 soft-touch arm pads slide inward/outward for width adjustment

# caster guide

### \*Load Rating in (lbs) per caster/glide

		*Load Rating in (lbs) per caster/glide
\$25 C1 STANDARD CASTERS	HOODED TWIN WHEEL CASTER WHEEL: 50 MM BARREL: 42 MM LOAD RATING: 110 LBS*	Best for use on carpeted surfaces. Hard nylon wheels are recommended for use on low- to medium-pile carpeting without padding. Dual wheels place more wheel surface on the carpet pile for optimum weight distribution. Wheels move in opposite directions to minimize carpet fiber twisting.
C1S HARD FLOOR CASTERS (FIVE STAR BASES)	HOODED TWIN WHEEL CASTER WHEEL: 50 MM BARREL: 42 MM LOAD RATING: 110 LBS*	Designed for use on hardwood floor, tile, chair mat, linoleum and concrete surfaces in an open office/workspace environment (lab, health care, classroom, conference room).  Wheels are made from a soft polyurethane material. Set of five used with five star bases.
\$35 C2S SELF-LOCKING HARD FLOOR CASTERS	HOODED TWIN WHEEL CASTER WHEEL: 50 MM BARREL: 42 MM LOAD RATING: 110 LBS*	Designed for use on hardwood floor, tile, chair mat, linoleum and concrete surfaces in an open office/workspace environment (lab, health care, classroom, conference room).  Wheels are feature 'auto-lock'. The safety breaks engage when the chair is not in use and also prevents the chair from rolling away when standing up from chair.
\$30 C4 HEAVY DUTY CASTERS	HOODED TWIN WHEEL Caster Wheel: 60 mm Barrel: 38 mm Load Rating: 140 LBS*	Recommended when added weight capacity is required. Large diameter hard nylon wheels designed for use on low- to medium-pile carpeting with or without padding. Large diameter dual wheels place more wheel surface on the carpet pile for optimum weight distribution. Wheels move in opposite directions to minimize carpet fiber twisting.
\$25 C5 STANDARD CASTERS FOR SHUTTLE AND BELLA GUEST CHAIRS	HOODED TWIN WHEEL CASTER WHEEL: 50 MM BARREL: 27 MM LOAD RATING: 110 LBS*	Best for use on carpeted surfaces. Hard nylon wheels are recommended for use on low- to medium-pile carpeting without padding. Dual wheels place more wheel surface on the carpet pile for optimum weight distribution. Wheels move in opposite directions to minimize carpet fiber twisting. Set of four used on four leg guest chairs.
C5S HARD FLOOR CASTERS FOUR LEG GUEST CHAIRS)	HOODED TWIN WHEEL CASTER WHEEL: 50 MM BARREL: 13 MM LOAD RATING: 110 LBS*	Designed for use on hardwood floor, tile, chair mat, linoleum and concrete surfaces in an open office/workspace environment (lab, health care, classroom, conference room). Wheels are made from a soft polyurethane material. Set of four used on four leg guest chairs.
\$30 C6 LARGE DIAMETER CASTERS	TWIN WHEEL CASTER WHEEL: 65 MM BARREL: 25 MM LOAD RATING: 140 LBS*	Recommended for use on carpeted surfaces. Large diameter hard nylon wheels are recommended for use on low to medium pile carpeting with or without padding. 65mm dual wheels place more wheel surface on the carpet pile for optimum weight distribution and ease of movement. Wheels move in opposite directions to minimize carpet fiber twisting.

# glide guide

### \*Load Rating in (lbs) per caster/glide

		Load Hating III (ibs) per caster/glide
\$30 G1 STATIONARY BASE GLIDES	HIGH BASE GLIDE For 5 Star Base Load Rating: 110 LBS*	Glides provide the best stationary support. Use only when a stationary position is desired. The glide height is the same as the caster height. Do not use on hard floor if marring is a concern.
\$20 G8 SELF-LEVELING METAL GLIDES	METAL BASE GLIDE For 4 Leg Guest Chairs Load Rating: 150 LBS*	Metal self-leveling base glides are used as an alternate to standard nylon glides. The metal glide offers a 100% increase in weight capacity. The selfleveling articulation allows the glide to flatten against uneven floors for better weight distribution. For use on all surfaces.
\$30 G9 SELF-LEVELING VCT GLIDES	VCT BASE GLIDE FOR 4 LEG GUEST CHAIRS LOAD RATING: 150 LBS*	Metal self-leveling base glides with white VCT cap are used as an alternate to standard nylon glides. The VCT glide also offers a 100% increase in weight capacity. The self-leveling articulation allows the glide to flatten against VCT floors for better weight distribution and the white nylon cap protects VCT floors against marring and visible streaking.
\$30 G10 SELF-LEVELING PLASTIC GLIDE WITH FELT BASE	FELT BASE ROUND PLASTIC GLIDE FOR 4 LEG GUEST CHAIRS IDEAL FOR WOOD OR SOFT COMPOSITE FLOORS LOAD RATING: 110 LBS*	Plastic self-leveling base glides with felt base. Felt base offers additional protection against marring especially on wood or soft composite surfaces
\$25 G12 SLED BASE CLEAR PLASTIC GLIDE	CLEAR PLASTIC RECTANGULAR GLIDE FOR SLED BASE INDY CHAIR LOAD RATING: 90 LBS*	Clear plastic rectangular glides for Indy sled base. Ideal for use on light color floors where streaking may be a concern
\$30 G13 SLED BASE CLEAR PLASTIC GLIDE WITH FELT BASE	CLEAR PLASTIC RECTANGULAR GLIDE WITH FELT BASE FOR SLED BASE INDY CHAIR LOAD RATING: 90 LBS*	Clear plastic rectangular glide with felt base to provide additional protection on wood or soft composite floors where marring or streaking is a concern

Book Rack in Black Only Available on Shuttle 8" GAS LIFT, 20" CHROME FIXED FOOTRING W/ 75MM HARD FLOOR CASTERS

Durable Classic Fixed Footring Base for Lab Stool, Service Counter, Security Guard, and Medical Applications. A Real Workhorse.

#### **CYLINDER REFERENCE GUIDE**

PART #	Stroke	Note
CYL160	3"	Short, reduced range cylinder used to offset added height of SS seat slider or K1 control
CYL190	5"	Standard task cylinder with lower starting height than CYL240. May be substituted for CYL240 when lower starting seat height is required
CYL197	5"	5" Stroke Heavy duty task cylinder
CYL200	5"	Standard task cylinder only used for high profile bases (BA10, ba19)
CYL240	5"	Standard task cylinder with higher starting height than CYL190. May be substituted for CYL190 when higher starting seat height is required
CYL300	8"	Stool cylinder with 2" lower starting seat height than stools with CYL360. Typically seat height starts at 19" so chair may be pushed under some desks. use for workstations up to 36 inches high
CYL360	10"	Stool cylinder with 2" higher starting seat height than stools with CYL300. Generally seat height starts at 21" and chair will not fit under most desks. use for workstations up to 42 inches high
CYLTHSPD	2.5"	Cylinder with a threaded spindle rather than a gas lift. For applications where client prefers the seat height set and not easily changed, such as a conference room
CYL-ARH	5"	Self height and forward position return. For use with jury base option

# **BIFMA**Ultimate test for fit (UTFF)

#### Ergonomics - The Work Chair

The Business and Institutional Furniture Manufacturer's Association (BIFMA) has developed the following guidelines for UTFF. Parenthetical numbers following each item indicate corresponding subdivisions in the guidelines.

#### Seat Height (7.1)

Users should be able to sit with their feet comfortably on the floor or footrest without undue pressure on the underside of the thighs. The thigh-to-torso angle should not be less than 90°.

#### Seat Depth (7.2)

Users should be able to sit in the chair without undue pressure against the back of the knees, their back properly supported by the backrest and with adequate buttock and thigh support.

#### Seat Width (7.3)

The seat should be wider than the hip breadth of the user with allowance for movement and clothing. The seat width should not limit the ability to use the armrests comfortably.

#### Seat Pan Angle (7.4)

This should allow users to support their feet on the floor or footrest. They should not cause the user's torso-to-thigh angle to be less than 90°. Forward seat pan angles should not cause users to shift excessive weight to their feet or experience the sensation of sliding out of the chair.

#### Back Support (7.5)

#### Seat Backrest Height (7.5.1)

All backrests should provide adequate support and buttocks clearance. For tasks requiring upper body mobility, the backrest should not interfere with the user's movement. For users who prefer reclining postures or greater upper back support, the back height should provide support for the shoulder blades.

#### Backrest Width (7.5.2)

The width of the backrest should provide adequate support for the curvature of the user's back without causing localized pressure points.

#### Lumbar Support (7.5.3)

The height and shape of the lumbar should coincide with the lumbar curve ("the small") of the user's back. The support should be firm, but not cause localized pressure points.

#### Movements of the Seat Pan and Back Support (7.6)

The user should be able to sit in a position where the torso-to-thigh angle is equal to or greater than 90°. The seat and backrest angles should accommodate the varying postures assumed by the user throughout the day.

#### Arm Support (7.7)

#### Armrest Height (7.7.1)

This should allow users to sit in a variety of postures while supporting their forearms and/or elbows in a manner that avoids lifting the shoulders (armrests too high) or leaning to the side to reach the armrest (armrests too low). The armrest height should allow accessibility to, and performance of, tasks.

#### Armrest Length (7.7.2)

The length of the armrest should allow users to sit close enough to the work surface to perform their tasks while maintaining contact with the backrest.

#### Inside Distance Between Armrests (7.7.3)

Armrests should allow users to sit in a variety of postures while supporting their forearms in a manner that avoids lifting the shoulders and/or excessive outward positioning of the elbows. Armrests should allow accessibility to, and performance of, tasks. The inside distance between the armrests should allow the user to enter and exit the chair easily. The hips should comfortably fit between the armrests or supports.

# care and maintenance

- Insure the gas cylinder is inserted into the control firmly. Improper connection may cause wobbling.
- Choose correct casters for different floor surfaces. We suggest choosing hard floor casters for tile or concrete surfaces.
- For drafting stool use, we recommend self-locking casters for hard floors. See Caster Selection Guide for more details
- Do not stand on footring
- Do not sit on any part of the chair except the seat; Do not sit on arms or backrest
- To avoid chair collapse do not remove knobs or screws.
- Properly dispose of packing materials. Do not use plastic as head covering. It may cause suffocation.
- If any parts are missing, broken, damaged or worn, do not use the chair until repairs are made using factoryauthorized parts.
- Do not attempt to make any alterations to chair.
- Do not use chair on uneven floor surfaces.
- Do not drape coats or sweaters on back of chairs with casters. Hanging fabric may suddenly stop casters from rolling.
- Do not use excessive speed when moving the chair with casters while seated.
- · Do not over exert the functions of a chair which are only to be used under normal conditions
- Do not stand on and/or use this chair as a stepladder. Use this product only for seating one person at a time
- Do not use this chair unless all bolts, screws and knobs are firmly secured

#### Check the following at 4 month intervals

- All exposed fasteners should be checked and any loose fasteners tightened. Use appropriate tools. Replace any fasteners that appear to be damaged in any way
- The chair mechanism should be checked for any looseness, excessive wear or signs of damage. Immediately remove the chair from service if any damage or failure is found.
- · The base and casters should be checked for any signs of excessive wear for failure. Immediately replace any parts that show such wear or failure.
