## JUNXION - Background

With Dauphin's global roots in Germany, Junxion derives from the renowned German "Burolandschaft" (Office Landscape), the movement to open plan office space pioneered in Germany in the 1950's. Developed by the Quickborner Team led by Eberhard and Wolfgang Schnelle, and based in the Hamburg suburb of Quickborn, Burolandschaft sought to provide a more collaborative and humane work environment in the large plan open spaces built using post-war innovations in architecture and engineering.

For many years this proved the basis for open office planning, but as progressive companies began to struggle with the need to facilitate collaboration while at the same time reducing real estate costs, office walls have come down, spaces have shrunk – and the environment has become truly Dynamic.

Which poses a challenge: how do organizations create flexible, quiet and private collaborative spaces within crowded open plan offices?

After extensive work studies, Dauphin developed Junxion, a unique modular solution comprised of upholstered benches and walls that can be combined into limitless configurations of lounge, privacy seating and workstations for Dynamic Spaces.

The Structure – the Bench Seat Box and the hollow 6" thick Acoustic Walls - provides the basis for conveying power and technology and resultant solutions for Collaboration and Privacy in Dynamic Spaces. The Walls can be used with the Benches, on their own, or to support Work Tables. Different wall heights, work shelves, TV monitors, lighting and accessories can be combined to define space and form to support any work environment.

## IMPORTANT NOTES: PLEASE READ BEFORE SPECIFYING/ORDERING

PRICING BREAKDOWN:	<p>"STRUCTURE", which comprises the bench seat box (excluding cushions) plus any walls (with no back cushions) is priced separately from Seat Cushions and Backrest Cushions</p> <p>SEAT CUSHIONS and BACKREST CUSHIONS must be priced separately and added to Structure. This allows Selection of different fabrics for the Structure, Seat Cushions and Back Cushions</p> <p>In addition, pricing is provided for:</p> <ul style="list-style-type: none"> <li>- Loose Throw Cushions and Bolster Cushions</li> <li>- Wall Accessories:</li> <li>- Tables</li> <li>- Power and Data</li> </ul>
COM REQUIREMENT:	<p>COM requirement for STRUCTURE is shown in column headed COM/yd, preceding Pricing Column A/COM. STRUCTURE, SEAT CUSHIONS and BACK CUSHIONS all have SEPARATE COM. For COL for Seat and Back Cushions, multiply Yards times 17 for Square Footage. Structure is not available in Leather.</p>
FABRIC DIRECTION:	<p>Wall Fabric for all walls up to 53" high will be RAILROADED. Fabric for 72" high walls will be applied OFF THE ROLL.. Wall fabric must be SOLID, NON-PATTERN and NON-DIRECTIONAL.. Fabric for Seat and Back Cushions will also be applied standard RAILROAD unless specified otherwise. Alternative fabric direction might require additional fabric and joining seams.</p>
IDENTIFICATION OF WALL SIDE:	<p>LEFT or RIGHT Location of Walls are identified from SITTING IN THE CHAIR</p>
DIMENSIONS:	<p>Standard (Rectangular) BENCH SEAT BOXES are in Modules of 30, 60 or 90" Wide x 24" Deep x 11" High (excluding the 6" thick Seat Cushion).</p> <p>Wedge BENCH SEAT BOXES width measurements are at the front of the seat and the outside wings at the rear of the seat.</p> <p>The exception to the above 30" wide modules is: Privacy Pod, which has a 48" wide seat comprising 2 of 24" wide cushions.</p> <p>WALLS are 6" Deep x 35, 47, 53 or 72" High.</p> <p>To Calculate Overall Footprint, Add 6" Wall Depth to the Bench Seat Box Size for each wall</p> <p>Example:</p> <p>60W x 24D Bench with Left Wall is 60+6 = 66W x 24D</p> <p>If Right Wall is added, then it is 66+6 = 72W</p> <p>If Back Wall is added it is 24+6 = 30D</p> <p>(All units with Back Walls are 30" Deep)</p>

Please consider the SIZE of the units for delivery access via DOORS, ELEVATORS etc.

Check with Customer Service to ascertain if your COM/COL is required to be submitted for testing prior to submission for upholstery.

For fabrics with less than 54" width, or repeat patterns over 4" please apply the following yardage requirements:

49" - 52" wide add 10%	Repeat 4"-9" add 15%
44" - 48" wide add 15%	Repeat 10" - 13" add 20%
	Repeat 14" - 20" add 25%

If special placement of COM is required (e.g. matching of stripes on seat and back, centering of a design motif) please submit a memo sample and design sketch for COM calculation purposes. Additional fabric and a surcharge for labor may be required.

Note: COL is based on minimum hide size 50 sq ft.

## COM/COL SPECIFYING PROCESS

Many fabrics have intricate patterns and not all individuals will interpret fabric direction in the same manner.

Dauphin cuts fabrics off the roll as Shown in the drawing labeled Standard Process. The COM requirements listed for each chair are based on this cutting method. Directional or patterned fabrics may often require more yardage than solid colors.

Lounge Chair fabric and leather will appear loose with comfort wrinkles when upholstered and over time. Leather upholstery will usually require additional sewing seams.

**Upholstery is standard off the roll. All COM/COL is subject to final approval by Dauphin upon receipt of samples.**

**Send samples and a copy of this form to:**

**Dauphin

<b>Cancellations:</b>	Due to natural variations over which we have no control, all products are sold subject to normal variations or irregularities of color, surface grain or texture. In as much as fabric mills and tanneries do not guarantee their products, Dauphin shall not be held responsible for wear, fading or performance of any covering material beyond the stated warranty, and under no condition assumes responsibility for COM and COL. Minimum wrinkles in leather and some other fabrics cannot be completely avoided and are not considered defects in materials or workmanship. Some fabric and leather can appear loose with comfort wrinkles when upholstered and over time. Leather may require additional upholstery sewing seams.										
<b>Storage:</b>	If a customer requests a delay of a shipping date on an order already in production, the order will be invoiced immediately upon completion. The invoice must be paid under normal terms. In addition, there will be a storage charge equal to 10% of the invoice per month until shipped.										
<b>Lifetime Warranty:</b>	Dauphin warrants its products to be free from defects in material and workmanship for as long as the original customer owns and uses the product under normal single shift office conditions. If a product is defective, and if the written notice of the defect is given to Dauphin within the applicable warranty period, Dauphin, at its option, will replace the defective part or product with a comparable component or product. The lifetime warranty applies to all products and parts except as noted below:

This warranty does not apply to defects from normal wear and tear, accidents, negligence, abuse, shipment, handling, storage or environmental conditions nor does it apply to "Customer's Own Materials" or to product not assembled in accordance with the assembly instructions. Also, this warranty does not apply to the labor to make good the defect in any manner. Defective product must be returned to Dauphin, at their request. Any modifications to our products made by the purchaser, purchaser's employees or agents, voids this warranty. All claims under this warranty must be made by the original purchaser within 30 days of alleged defect. This warranty is the customer's sole remedy for product defect. No other expressed or implied warranty is provided. Dauphin is not responsible for any consequential, economic or incidental damages arising from any product defect.
