

PRE-CONFIGURED
MODULAR DRAWER CABINETS

Borroughs
CORPORATION

Borroughs Modular Drawer Cabinets.

The perfect solution for the efficient storage of your small to mid-size products. Modular Drawer Cabinets from Borroughs can pay for themselves by **reducing your storage footprint by 60%**, cutting parts retrieval times in half, improving parts organization, and adding security for increased loss prevention.

We combined the best features from the industry with cutting edge design and manufacturing technologies to provide you the best MDC unit on the market, at an affordable price. The best feature of all, our Modular Drawer Cabinets have Borroughs' **Made-in-the USA** quality.

TABLE OF CONTENTS

Why Modular Drawers	3-4

THE ADVANTAGES OF MODULAR CABINETS

If you have questions regarding the Modular Drawer Cabinets or configurations, please feel free to visit: www.borroughs.com or call us at 1-800-748-0227 and ask for Customer Service.

Modular Drawers are built in various sizes which allow multiple storage options. This results in minimizing the amount of floor space dedicated to the storage of small to mid-size products/parts. Below are some key benefits of modular drawer cabinets.

1. SPACE SAVING:

Example: The products stored on 2^{1/2} sections of shelving will fit inside 1 eye level modular drawer cabinet. That's a storage footprint **reduction of 60%**.

2. EFFICIENCY:

Create compartments that resemble the actual cubic space requirements of the part being stored.

3. FLEXIBILITY:

Cabinets attach side-to-side, back-to-back, and are designed to be stacked up to (5) units high. In addition they are adjustable as the application changes, and can be relocated, fully-loaded.

4. ACCESSIBILITY:

Drawers are ergonomically engineered to provide the best human reach points.

5. ORGANIZATION:

Drawer interiors can be sub-divided into compartments, and labeled. Compartments eliminate the need for cartons and plastic bins.

6. SECURITY:

Drawers can be closed and locked, preventing unauthorized entry. Stored product remains free from dirt, and damage.

7. SAFETY:

All Borroughs modular drawers are available as **Multiple Drawer** or **Single Drawer** access units (single drawer is anti-tilt).

Drawers Extend 110% from the cabinet housing and feature a full load capacity of 400 lbs. Their progressive action results in the smoothest operation in the industry.

Ergonomic Handles are flush with housing, full-width, and are located at the top of each drawer. Handle labels fit through a slot in right end cap and drop into locating pocket to hold in position.

Cutting Edge Suspension Technology provides superior drawer cyclic performance. Auto safety clips lock suspension to drawer, preventing accidental release. No fasteners required for assembly, or tools for drawer removal.

Typical Housing accepts various drawer configurations, latching systems, and is designed to accommodate shelving. Each cabinet features pre-punched anchoring holes. Housing is designed for a 12,500 lb. stacking capacity and a 7,500 lbs. lifting capacity.

HOW MODULAR DRAWERS CAN HELP YOUR BUSINESS

If you have questions regarding the Modular Drawer Cabinets or configurations, please feel free to visit: www.borroughs.com or call us at 1-800-748-0227 and ask for Customer Service.

Modular drawers are the perfect storage solution for small to medium products or parts. Utilizing the "Building Block" approach, these illustrations show the efficiency and space saving alternative that modular drawers provide.

60%
footprint
reduction

SAVE SPACE:

Products being stored on (16) sections of shelving each measuring 36"W x 24"D x 84"H will fit inside (6) modular drawer cabinets each measuring 30"W x 29^{1/4}"D x 59"H.

5
cabinets
high

FLEXIBILITY:

Borroughs Modular Drawers are manufactured to be one of the strongest in the industry. This allows our cabinets to be stacked on top of each other – utilizing vertical space, and conserving valuable floor space.

EFFICIENCY:

By creating compartments that resemble the actual cubic space requirements of the parts/ product to be stored, a reach area is not required above each storage level.

ALL BORROUGHS PRE-CONFIGURED CABINETS FEATURE:

- 29^{1/4}" STANDARD DEPTH
- FORK TRUCK BASE WITH MULTIPLE DRAWER ACCESS & ARE KEYED DIFFERENT

THE ANATOMY OF A BORROUGHS MODULAR DRAWER CABINET

If you have questions regarding the Modular Drawer Cabinets or configurations, please feel free to visit: www.borroughs.com or call us at 1-800-748-0227 and ask for Customer Service.

Top & Bottom Pans are 14 gauge and welded at corners to provide increased strength.

Handle Length covers full width of drawer body and is flush with face of the cabinet body.

Removable Lock Core allows re-keying without taking cabinet apart.

True Single Drawer (anti-tilt) & Multi Drawer Mechanisms available provide flexibility to specific applications.

Pre-welded Cabinet Frame at front provides superior squareness and rigidity.

Bottom Pan is reinforced for greater lift capacity.

Fork Truck Bases are 12 gauge providing ease of transport for cabinets while fully loaded.

Drawer Suspension features smooth progressive action based on a captive profile design.

Side & Back Panels are 18 gauge providing a strong and rigid case.

THE DRIVING MATRIX BEHIND A BORROUGHS MODULAR CABINET

If you have questions regarding the Modular Drawer Cabinets or configurations, please feel free to visit: www.borroughs.com or call us at 1-800-748-0227 and ask for Customer Service.

SELECT A HOUSING WIDTH

4 Pre-configured housing widths available. What will the footprint of your space accommodate?

SELECT HOUSING HEIGHT

6 Pre-configured housing heights available.

Cabinets depicted here DO NOT INCLUDE base dimensions.

XX = NOMINAL SIZE, ALL DIMENSIONS ARE ACTUAL

SELECT THE DRAWER SIZE

15 Pre-configured drawer heights available

Drawer #	Usable Height
