

ASCEND PRICE LIST

Number 15

effective April 1, 2013

revised 2/1/2016

HARDEN contract®

TERMS	1% 10 days, net 30. All prices FOB, McConnellsville, NY. All prices are subject to change without notice. Possession of this price list does not constitute authority to purchase.
CANCELLATIONS	Unless approved by our office, cancellations will not be accepted on any order which has been placed in production. Where cancellations are accepted, and received in writing a restocking charge will be assessed."
WARRANTY	<ol style="list-style-type: none"> 1. Harden warrants standard catalog casegoods for ten years from the date of shipment against defects in workmanship when put to ordinary use. This warranty does not cover damage or injury caused by unreasonable or abusive use, by failure to provide necessary or reasonable care, by accident, alteration, tampering or negligence by anyone other than Harden. Due to variations in color, texture and grain, the products are not warranted against such variation. 2. Harden warrants standard seating from the catalog to be free of defects in workmanship under normal single shift service for a period of five years from date of shipment. While we utilize the finest upholstery fabrics available, we cannot guarantee any fabric for wearability or color fastness. Similarly, variations in fabric color cannot be avoided. We cannot be responsible for variations beyond a reasonable commercial match. If an exact color match is required, a cutting of the fabric should be submitted-with your order. Items ordered after original order must be matched with the original fabrics dye lot. If this is not possible due to dye lot availability, then exact color match cannot be guaranteed. 3. It is not recommended to place glass tops on solid wood tops. This will create a moisture trap that could damage the wood surface. The use of glass tops will void the product warranty should structural damage occur. 4. Once a COM is inspected and accepted, Harden assumes no responsibilities for its overall performance flammability, normal durability, colorfastness, or any other quality after upholstered on Harden frames.
DAMAGED OR DEFECTIVE MERCHANDISE	<p>We strive to produce a fine quality product and to deliver it to our customers with the utmost care. Should problems occur, however, we will do our best to resolve them promptly and completely. In order to avoid any misunderstanding we offer the following guidelines:</p> <ol style="list-style-type: none"> 1. Damaged or defective merchandise must be reported to our Customer Service Department in writing no later than 10 days from original shipping date. 2. Should any item on our truck be damaged, our driver has the authority to return it for prompt repair or replacement. 3. We reserve the right to determine the most appropriate means of resolving a claim involving damage or defective merchandise. 4. We cannot assume responsibility for damage that occurs once merchandise leaves our trucks. 5. Local repair charges will not be accepted unless approved in advance, by Harden Contract. 6. In the event of a problem, we will assume full responsibility for transporting the merchandise between our factory and the delivery point on our trucks. We cannot assume responsibility for any secondary delivery costs to and from your customer, and will not accept the cost of returning merchandise to our factory via another carrier.
DESIGNS	All dimensions are approximate. The products shown in our catalog are, and remain, our property, and we reserve exclusive right to manufacture the items shown. We reserve the right to make changes in our designs, details, and dimensions without notice.
ORDER ACKNOWLEDGEMENT	<ol style="list-style-type: none"> 1. Order acknowledgments, indicating final production specifications, will be made promptly. It is your responsibility to check the acknowledgments for errors. Each order will be checked and acknowledged by Harden Contract. Customers should check each acknowledgement for accuracy and immediately notify Harden of any discrepancies in writing. This printed acknowledgement is the final agreement between Harden and the customer, superseding all previous communications regarding the order. We cannot accept telephone orders without a confirming purchase order. 2. <u>Orders will not be released for production until all information is complete (i.e. finish selection, fabric description, etc.).</u>
SHIPPING	<ol style="list-style-type: none"> 1. Unless otherwise specified, we will ship your order complete, as ready, on our company trucks. We reserve the right however, to route shipments via common carrier where we deem appropriate. 2. Shipments will normally be made to your place of business or standard receiving address. However, we may agree to deliver your order directly to the job site. In such cases, we must insist that the delivery location be fully accessible to a tractor-trailer, and that you provide the labor necessary to unload and place the merchandise. 3. Harden Furniture has made no provision for storage. If the customer is unable to accept delivery of furniture as scheduled, the customer has sole responsibility to provide new shipping instructions, and to accept any storage or transportation costs related to the delay. 4. IMPORTANT: Make certain entrances, elevators, etc. are adequate for large units. Our drivers are not responsible for delivery to anywhere other than a building receiving area. Please make certain that transportation to the point where the furniture is to be used is carefully considered and arranged for by the customer.

CARTONING & CRATING

All merchandise will be blanket wrapped for shipment unless otherwise specified. Special cartoning or crating is available at an additional charge as shown below.

<i>Application</i>	<i>Method</i>	<i>Seating</i>	<i>Case Goods</i>
Container — loaded at factory.	Carton	5% of Net Price	5% of Net Price
Common Carrier (Freight and UPS/RPS)	Carton	5% of Net Price	8% of Net Price
Our truck to a warehouse (for later shipment via common carrier or container).	Carton	5% of Net Price	8% of Net Price
Air freight or other preventative need. Cartoned pieces, sent freight, will be re-enforced to add extra protection.	Crate	8% of Net Price	8% of Net Price

MINIMUM CARTONING CHARGE: **\$52 NET**
 MINIMUM CRATING CHARGE: **\$104 NET**

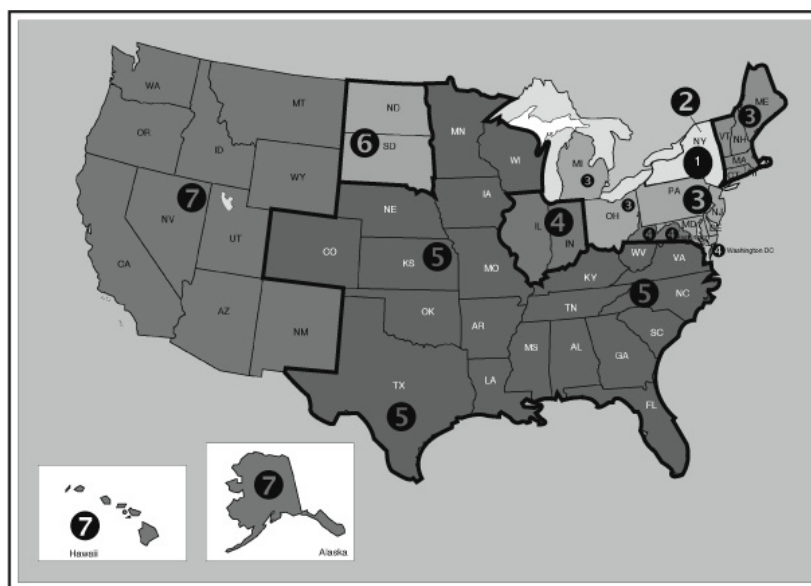

PERCENTAGES — Also apply to furniture that is not normally cartoned or crated and sent via Harden Truck.

SHIPPING ZONES

Unless otherwise specified, we will ship your order on our Company trucks. We reserve the right, however, to route shipments via common carrier where we deem appropriate.

To calculate the freight cost at the time of order placement, please adhere to the following:

1. Determine the zone to which Harden products are to be shipped.
2. Use the table below to calculate the freight cost as a percentage of the total Net Price of your order.
3. Please indicate on your purchase order the shipping address, zone and percentage for shipping.

Please contact factory for any applicable fuel surcharges.

Zone 1	4%	New York State within 150 miles of Factory, McConnellsville.
Zone 2	5%	New York State Beyond 150 miles.
Zone 3	7%	DE, DC, MD, MI, ME, VT, NH, MA, RI, CT, NJ, OH, PA, Northern VA (above Richmond)
Zone 4	8%	IL, IN, Northern WV (Charleston & above)
Zone 5	10%	AL, AR, CO, FL, GA, IA, KS, KY, LA, MN, MS, MO, NE, NC, OK, SC, Southern VA (Richmond & below), southern WV (below Charleston), TN, TX, WI
Zone 6	11%	ND, SD
Zone 7	12%	AZ, CA, ID, MT, NV, NM, OR, UT, WA, WY
Special: Hawaii and Alaska, must use designated freight forwarding company in CA plus crating charge.		

CONSTRUCTION	<ol style="list-style-type: none"> Components are fabricated from solid cherry dimensioned stock in a manner which allows for the expansion and contraction of individual parts due to changes in temperature and humidity. <i>SPECIAL NOTE:</i> All units are manufactured from the finest solid cherrywood and are subject to natural color and grain characteristics. Harden Contract cannot be responsible for variations due to natural characteristics. Internal structural components are of solid maple. All permanent joints are glued and double-doweled. A wide variety of fastening devices are also used to ensure structural integrity. File frame system.
DRAWER CONSTRUCTION	<ol style="list-style-type: none"> All box and file drawers are constructed with solid cherry drawer fronts dovetailed to solid cherry sides and back. Maple plywood drawer bottoms are used for durability. Internal drawer components are always sanded, sealed and lacquered before finally being rubbed and waxed. All file drawers are fitted with a black file frame system to maximize filing capability of drawers
DRAWER SLIDES LOCKS	<p>All desk, file, credenza and drawer bridge / keypads are equipped with Accuride suspensions.</p> <ol style="list-style-type: none"> Column cylinder locks are standard on all desk pedestals and match hardware finish specified on desk. Optional locks are also available on most other component doors and drawers — C45 Cylinder Lock Option at \$110 list each. All cylinder locks can be keyed-alike upon request at no additional charge.
TACKABLE SURFACES	<p>Inside back panel, beneath overhead storage unit, is constructed of a fabric-covered, tackable surface. Any fabric offered in the Harden Contract Fabric Program is available. For COM fabric there is a handling fee of \$30 net. Please contact your Harden Contract representative for specific yardage requirements and COM processing. **Please note: When there is no fabric specified Harden will use Maharam: Messenger 001 Balsa.</p>
HARDWARE	<p>BRUSHED ALUMINUM HARDWARE STANDARD ON ASCEND All exposed cylinder locks will be Brushed Nickel.</p>
STANDARD FINISHES	<p>All Harden Contract Products with exposed wood are constructed of solid cherry and are available in the following: BRANDYWINE CHAMPAGNE CINNABAR VINTAGE ESTATE CAMBRIDGE OLD TAVERN MYSTIC BORDEAUX Note: Samples of each are included in your Harden Contract binder.</p>
SPECIAL MATCHED FINISHES	<p>It is generally possible to match any special finish at an additional charge of 15%. Please submit a color panel with your order. Harden will return your original panel along with a numbered custom matched panel. Your order will not be placed in production until we receive written approval to proceed with the proposed custom finish.</p>
CATALYZED LACQUER	<p>Catalyzed lacquer is standard on all Ascend products. This finish is specially formulated to provide extra durability in the office environment and is hand-rubbed to a soft, satin sheen. Detailed specifications on the catalyzed finish are available by contacting the Factory.</p>
GLOBAL RESISTOVAR™	<p>Available at a 10% up charge. This finish offers superior chemical, water, mar and UV resistance. Detailed specifications on the Resistovar™ finish are available by contacting the factory. Note: Available only in satin sheen.</p>
GLASS TOPS	<p>It is not recommended to place glass tops on solid wood tops because they create a moisture trap that could damage the wood surface. The use of glass tops will void the product warranty should structural damage occur.</p>
MAINTENANCE	<p>All Harden products should be maintained regularly by simply dusting with a damp cloth. Polishing is only recommended on a quarterly basis. When polishing, use only a high quality, non-silicone product. Please review the care and maintenance tag shipped with the product.</p>
FILL-IN ORDERS	<p>When ordering fill-in pieces for an existing installation, it is advisable to submit a finish sample with your order. Aging and mellowing of wood finishes occurs over time, making an accurate match unlikely without a sample. There is no upcharge for this procedure.</p>
INSTALLATION	<p>Individual components are assembled completely prior to shipping. Please make certain that entrances, elevators, etc. can accommodate large units to ensure successful installation.</p>
<i>Special Note:</i> MONITOR PLACEMENT	<p>Placement of a monitor directly above the motor housing in the sit-stand desks may cause malfunction of the monitor. Magnets inside the motor may interrupt the picture on the monitor, depending on the distance and type of monitor. If this is the case, the problem may be solved by placing an iron plate/tube or another magnetic material, somewhat larger than the motor housing, between the motor and the desk top.</p>

RECEPTIONIST / WORK STATION GALLERIES

The Receptionist / Work Station Galleries were designed to create Charging Desks or Work Stations in an "L" or "U" shaped unit. They are offered as 12" high units with fabric covered, tackable surface on the inside. The 7" top surface for writing is standard on all galleries. Radius fronts may be ordered as an option unless a cap-option is specified.

CONNECTION

This system must be used with an "L" or "U" Desk Unit, or a Double Bridge Credenza Unit.

TACKABLE SURFACES

Inside back panel is constructed of a fabric covered, tackable surface with a cherry wood base rail at the bottom. For COM fabric there is a handling fee of **\$30 NET**. Please submit COM fabric sample with order. **All fabrics must be approved by Harden.** Note: large repeats and matching patterns may require extra yardage. **** Please note:** When there is no fabric specified Harden will use Maharam: Messenger 046 Ice (4003-30).

TO SPECIFY

Determine type of unit to be used with gallery;

- 1006-11** Straight Gallery
- 1006-12** "L" Desk — select desk and return unit,
- 1006-13** "U" Desk — select desk, bridge and bridge credenza,

Specify fabric for tackable surface.

TO SPECIFY STRAIGHT CREDENZAS

Select width of basic case to fit layout requirements. Note number and width of individual components case will hold. Refer to components and select type. List product number starting with basic case and continue with individual component numbers from left to right. Make sure to list open kneewell by "-X" that will replace component and may connect to other units.

IMPORTANT

Make certain entrances, elevators, etc., are adequate for large units. Our drivers are not responsible for delivery to anywhere other than a building receiving area. Please make certain that transportation to the point where the furniture is to be used is carefully considered and arranged for by the customer.

**WORK SURFACE /
CONFERENCE TOP**

The modular Work Surface / Conference Tops offer run-off work surfaces from credenza unit. Four standard, rectangular, and "P" top shapes or custom size and shaped tops may be specified. See option below.

CONNECTION

This system must be used with a credenza with appropriate knee space (30" minimum) that corresponds with the depth dimension of the top selected.

TO SPECIFY

Determine size of work surface desired, if not standard, use custom size option on page 25. Top unit pricing includes solid wood top surface, and reverse molded connection.

Note: Custom "P"-tops may only be specified with C149-608 Square Pillar or 149-067 Panel Base.

HI-RISE SYSTEM

18", 30" or 36" components are offered in standard, mid height or full height units which can be used in various combinations. Hi-Rise basic cases are compatible with the modular credenzas. Hi-Rise units can also be ordered shorter than the credenza for specific locations or functions. Standard height Hi-Rises may be ordered as wall hung units.

CONNECTION

This system must be used with freestanding credenza or connecting credenza units. Hi-Rise and credenza units may also be connected to wardrobe units. Hi-Rise units may also be specified with **C77** Wall Hung option. All units are shipped completely assembled as finished cases. Hardware for securing Hi-Rise unit to credenza unit will be shipped with order.

TACKABLE SURFACES

Inside back panel, beneath standard height component, is constructed of a fabric covered, tackable surface with a cherry wood base rail at bottom of fabric panel. For COM fabric there is a handling fee of **\$30 NET**. Please submit COM fabric sample with order. **All fabrics must be approved by Harden — large repeats and matching patterns may require extra yardage.**

Yardage requirements per each component:

Units C40-C491/2 yd

Units C01-C081/4 yd

Units C13-21, C26-34, C50-58 & C60-693/4 yd

**** Please note:** When there is no fabric specified Harden will use Maharam: Messenger 046 Ice (4003-30).

TASK LIGHTING

Task lighting is offered on noted components and features a fluorescent light mounted under individual component in work space opening. When more than one lighted component is ordered the units will have individual on/off switches.

TO SPECIFY HI-RISES

Select width of basic case to fit layout requirements. Be sure that overall width of Hi-Rise is compatible with credenza being used. Note number and width of individual components case will hold. Refer to components and select type. List product number starting with basic case (C3002-) and continue with individual component numbers from left to right.

 Indicates Grommet / Power Data Area Available

Special Note:
**MONITOR
PLACEMENT**

Placement of a monitor directly above the motor housing in the sit-stand desks may cause malfunction of the monitor. Magnets inside the motor may interrupt the picture on the monitor, depending on the distance and type of monitor. If this is the case, the problem may be solved by placing an iron plate/tube or another magnetic material, somewhat larger than the motor housing, between the motor and the desk top.

CONFERENCE TABLE PROGRAM

Harden offers a conference table program with a wide variety of top shapes, edge styles, and base selections of solid cherry wood construction. All conference table tops are 1 1/4" thick with an overall height of 30 1/2" high. Below is a list of the most common size tables; please specify top shape and edge detail when ordering. For sizes not listed please refer to our custom program on page 37.

*NOTE: When figuring the number of chairs to go around a conference table: Standard allowance – 30" clearance per chair
Premium allowance – 36" clearance per chair

Panel Base Conference Tables — Solid cherry wood construction. All conference table tops are 1 1/4" thick with an overall height of 30 1/2" high. Below is a list of the most common size tables; for sizes not listed please refer to our custom program on page 37.

*NOTE: When figuring the number of chairs to go around a conference table: Standard allowance – 30" clearance per chair
Premium allowance – 36" clearance per chair

See page 38 for seating capacity chart.

CUSTOM CONFERENCE TABLE PROGRAM

In addition to the standard sizing and pricing on pages 35–36, Harden Contract has designed their conference table program to offer custom flexibility. Specify the custom size top, top shape and edge detail along with any base. To determine list price multiply the square foot pricing listed below.

TO SPECIFY

The following information is required for ordering from the Custom Conference Table Program:

C3146- SOLID WOOD TOPS

1. Select base style, top size top shape and edge style. Example: C3146-800 54" x 144" Rectangle with standard Square Edge.
2. Determine exact size of table tops(s) and multiply length by width, then divide by 144 to get your square footage. If table has multiple tops or special design shape, take each top and multiply overall length times overall width and add totals. **Take the square footage and multiply \$250. per square foot for table series C3146-800 and \$280. per square foot for table series C3146-900.**
3. Specify finish
4. Submit sketch when ordering table top shapes, such as an "L"-shaped, "U"-shaped, or closed loop design, showing top shape, dimensions, and general base placement.

See page 38 for seating capacity chart.

To compute the list price of a solid wood conference table (C3146-800), use the following:
Tables 36" x 72" rectangle — minimum price.

\$250 per square foot
(rounding to nearest dollar)
minimum charge - \$4,320

To compute the list price of a solid wood conference table (C3146-900), use the following:

\$280 per square foot
(rounding to nearest dollar)
minimum charge - \$4,860

EXAMPLES OF TOP SHAPES

* Be sure to specify top size, top shape and edge detail when ordering. The above pricing includes any top shape and edge detail shown below.
