14. **Payment Address**

Same as above

15. **Warranty**

Krug warrants the construction and the finish for all our products to be free from defect in materials and workmanship for a period of 10 years from the date of purchase. This warranty does not apply to components not manufactured by Krug including textiles, which are subject to the specific warranties of those manufacturers, if any. Textiles (fabric, leather, vinyl, or any other covering material) suppliers do not guarantee their products for durability and color fastness, and not does Krug. Casters, mechanical and electrical components have a warranty of five years from the date of purchase. The Krug warranty does not apply to COM specified materials; damage caused by a carrier other than Krug, or variation in wood finishes due to natural wood color variations. Krug cannot be held responsible for variations in fabric dye lots from order to order. All fabric is carefully inspected when it is received, but a degree of variation in color should be expected. Repair or replacement of any defect covered by Krug warranty will be made at no charge to the original purchaser during the warranty period. This warranty does not apply to defects resulting from negligence, misuse, alteration, improper cleaning, stains or accidents. Krug's judgement will be final in all matters concerning the condition of the defect, and the necessity or manner of repair. Krug is not responsible for the damage or degradation of product that may occur due to extreme hot or cold temperatures after it has left Krug. Krug product should not be exposed to any extreme hot or cold temperatures during its life. All products should be stored in climate-controlled warehousing and should be transported on climate-controlled trailers and containers, in order to protect its integrity. Trailers and containers should not be used for storage of products. Products should remain in a climate-controlled

environment until the time that transport commences, and should be moved into a climate-controlled environment as soon as transport is complete. Exposure to extreme heat or cold temperature voids the Krug warranty. This warranty applies to products sold in North America only, and is made by Krug only to the original purchasers acquiring our products through authorized Krug dealers, directly from Krug, or from others specifically authorized to sell our products.

GENERAL INFORMATION

Terms and Conditions

Net 30 days on approved credit. A late payment charge of 1% per month will be applied on overdue invoices. This charge will be pro-rated to the number of days past 30 days that the invoice is overdue. All applicable sales taxes are extra. Distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Krug dealers. Acceptance of any order and terms of sale may be established at the discretion of Krug. Deposits are required on orders received from new accounts as well as on large or special orders. Krug reserves the right to discontinue designs, or to change designs, construction, prices, or materials without notice.

Customer Service Hours

Please note customer service hours are:

8:30 am to 5:00 pm est

1.888.578.KRUG

1.519.748.5177 fax

Order Acknowledgements

Each order will be acknowledged via e-mail or fax. This acknowledgement is the final agreement between Krug and the customer, superseding all previous communications regarding the purchase order. Where there is a discrepancy on a purchase order between a product code and a description, Krug will make every effort to resolve the discrepancy, but will be ruled by the product code ordered. Please check all acknowledgements for accuracy, and advise Krug of any discrepancies with a purchase order.

Cancellation

A cancellation can be made only by expressed agreement with Krug. A cancellation fee may be incurred for restocking.

Dimensions

Dimensions are in inches and approximate, and subject to change without notice. Contact Customer Service if dimensions are critical.

Blanket Wrapping

Krug will blanket wrap larger seating orders at customer's request. Please indicate on your purchase order and contact Customer Service.

Storage Charges

Krug reserves the right to assess a nominal storage charge if a customer does not accept shipment of an order within a week of the ship date.

Contact Information

Installation Support

For assistance please contact Technical Support at 1-888-578-5784 x216 or e-mail installationhelp@krug.ca and you will be directed to the appropriate installation support person.

Pricing

Krug endeavors to ensure that all prices in this price list reflect accurately our current prices. However, errors do occur and will be rectified through notices to the field. Krug's website will always have the current list price. Krug reserves the right to acknowledge pricing that may be different from the price list.

Warranty

Krug warrants its products to be free from defects in materials and workmanship for the lifetime of their use. This warranty is applicable to products in use by their original purchaser. This warranty does not apply to components and materials not manufactured by Krug; these are subject to the specific warranties of their manufacturers (if any). Repairs or replacement of any defect covered under this warranty by Krug will be made, at our option and method, at no charge to the original purchaser. Krug's judgement is final and binding with respect to the nature or cause of defects or damage, and the necessity or manner of repair or replacement.

This warranty does not apply to defects or damage resulting from:

- normal wear and tear occurring with the use of the product
- negligence, misuse, excessive use, alteration, improper cleaning or repair
- substitution or use of incorrect or unauthorized components or material
- handling or installation that is incorrect, or that causes damage or defect
- damage incurred by a freight carrier other than Krug
- wearing of finishes and fabrics, and normal variations in materials (including dye lot variations)
- properties of natural materials, including wood and leather
- exposure to environments with uncontrolled temperature and humidity (products must be transported, stored and used in climate-controlled conditions)

Export Packaging

Krug is pleased to provide the option for export packaging on all our products, to provide additional protection from damage.

Export packaging is provided at an upcharge of 5% of the net selling price per item.

Export Packaging is STRONGLY RECOMMENDED for:

- (A) all shipments outside of the lower 48 states and Canada.
- (B) all shipments that will be held in storage for an extended period prior to installation.

Important: Please note that Krug will not be responsible for damage claims on product shipped or stored in the above conditions but where export packaging has not been utilized.

Please contact Customer Service for specifications or any other assistance regarding export packaging.

Freight Terms and Conditions

1. All product is shipped FOB the Krug factory. Freight is either pre-paid to the destination (dealer's dock or territorial warehouse, where available) or not pre-paid, depending on established customer specific freight terms.
2. Docks at the selected delivery location must be equipped to handle a 53' trailer. If a dock is inadequate for delivery by Krug, Krug will re-deliver to another local location and any additional costs will be charged to the customer.
3. When a Krug territorial warehouse (where available) is selected as the default delivery location, it is understood that Krug pays freight cost to the territorial warehouse only, and no further. The Customer is responsible for all charges from this point.
4. For all deliveries, it is understood that Krug or its agent is making a dock delivery only (equipped to handle a 53' trailer), and any further work of truck unloading, delivery beyond the dock, installation, and removal of packaging is not authorized or paid for by Krug.

Freight Terms and Conditions, con't.

5. Drop shipments to the installation site, and timed deliveries, are available on larger shipments (full truckloads or slightly less) at no additional charge. Drop shipments or timed deliveries for smaller shipments may not be available, or if available will require a surcharge. Deliveries on an after hours basis, or on weekends, or any other special requirements, may be subject to a surcharge. Location and contact information, and the requested time of delivery, is required at least one week prior to the acknowledged shipment date. If this information is not provided one week in advance, or if the location or time of the drop shipment is changed less than one week in advance, a surcharge may be applied, and/or the drop shipment may not be scheduled. For deliveries requested Monday to Thursday after 5:00 pm, please apply a surcharge of \$250/shipment. For deliveries requested Monday to Friday before 7:00 am, please apply a surcharge of \$250/shipment. For deliveries requested Friday (after 3:00 pm) or weekends, please apply a surcharge of \$500/shipment. (local times).
6. For all deliveries - whether to the Customer location or drop shipment - any circumstances that result in the delay of our carrier (including unsuitable receiving facilities, or facilities not open or available), service charges will be applied at the rate of \$75/hour. Where re-delivery is necessary because of these circumstances, the full cost of re-delivery will be charged. If Less Than Truck Load is delivering, one hour is allocated to unload. Any additional time required to unload after the first hour is \$75/hour. If a Truck Load is delivering the order, three hours is allocated to unload. Any additional time required to unload is \$75/hour. Direct deliveries to site for large orders are possible, (must exceed \$60,000 net), and accommodate 48 - 53' trailers. Krug is responsible for delivery to the approved delivery address. If an address change is required, this must be authorized by Krug 5 business days prior to ship date. Any additional delivery costs incurred after this time will be charged to the customer. If a problem arises with a Krug product after the expiration of the limited warranty period, Krug will exercise its best efforts to achieve the satisfaction of the customer in a manner that is fair to all concerned.

Product Strength and Durability Testing

All Cressida products have been thoroughly tested, and exceed the testing requirements of ANSI/BIFMA X5.1 2002. Specific test results and documentation are available on request.

Customer Satisfaction

It is the primary goal of Krug and our staff to ensure the complete satisfaction of our customers with our products and performance. If a problem arises with a Krug product after the expiration of the limited warranty period, Krug will exercise its best efforts to achieve the satisfaction of the customer in a manner that is fair to all concerned.

Damaged Shipments

All Krug product is well engineered, carefully inspected, and expertly loaded onto our trucks at our Distribution Center. If you receive any damaged freight, we ask that you do not refuse the shipment. Krug is not responsible for damage to goods that occurs in transit or storage. It is the purchaser and/or receiver's responsibility to examine the goods upon receipt and to notify Krug of any damages, overages or shortages. Any discrepancies should be noted on the Bill of Lading. The delivering carrier will not accept responsibility for shortages or damages if signed "clear". Notification of concealed damage claims must be made to Krug Distribution within 5 days of delivery, along with digital pictures if available. All product and packaging must be available for inspection. Krug liability ceases after 5 business days and Krug will not be responsible for concealed damages if shipments are left unopened. Krug is not responsible for the condition of product that is stored or installed in an environment where temperature and humidity are not controlled.

Field Product Report Authorization

Krug's written authorization, in the form of an FPR number, must be obtained prior to incurring charges of any kind if Krug is expected to pay these charges. This includes authorization for field repairs and replacements, installation and delivery charges. Krug reserves the right to have its representative inspect product related to any request for such authorizations, prior to that authorization being provided. Deductions from invoices paid for any charges to Krug, without prior written authorization in the form of an FPR, will not be accepted. Digital photographs may be required to complete the FPR process.

Returns

No merchandise may be returned without Krug's prior written consent. In the event of an authorized return, a Field Product Report (FPR) number will be issued, and a restocking charge will apply. Return transportation charges must be prepaid. Unauthorized returns will not be accepted and will be returned freight collect. All merchandise being returned must be properly packaged in its original or comparable replacement packaging to ensure protection of the product during handling and transportation. Returns on orders duplicated by the customer must be received in their original packaging to be accepted. Product being returned where Krug has authorized its liability for replacement or repair will be thoroughly inspected on its return, and the results compared to the reason for the return stated on the FPR. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

Custom Capabilities

Over 15% of our orders involve some type of custom work, and we invite our customers to make use of our extensive capabilities.

These include:

- 1) Dimensional customization of standard size products
- 2) Custom finishes
- 3) For larger orders, completely custom-designed products, as well as non-standard wood species can be specified.

Custom orders may require additional production lead times. Contact Engineering at the e-mail address engquotes@krug.ca.

Care and Maintenance Leather

Leather is a natural product and requires very little care during use. Most stains can be removed with a clean dry cloth. For stubborn spots and stains, use a mild non-detergent cleaner, rinse well and let air dry naturally. Do not use saddle soap, cleaning solvents, furniture polish, oils, varnish, abrasive cleaners, soaps or ammonia waters.

Fabric Upholstery

Professional upholstery cleaning is recommended.

Flammability Standards for Krug Textiles - Upholstery Program

- Passes State of California Technical Bulletin CAL 117-2013

FINISHES & LAMINATES

Nightfall WX421-N	Pionite	Nightfall			
Samba Cherry T460	Arborite	Samba Cherry			
Shiraz Cherry T472	Arborite	Shiraz Cherry			

Exotic Laminate Name & Number	Supplier	Polymer Edge Names
Backwoods Sycamore HP689-N	Pionite	Backwoods Sycamore
Edgewood Sycamore HP690-N	Pionite	Edgewood Sycamore
Gunstock Walnut WW971-N	Pionite	Gunstock Walnut
Thunderstorm HP-359-N	Pionite	Thunderstorm

Non-Stocked Laminates

For specific lead time and application questions, please contact Krug Customer Service for your requirement. Upcharges will be applicable for non-stocked laminates, depending on their cost. Non-stocked laminates may be subject to minimum orders sizes.

HEALTHCARE LAMINATES

- Hardrock Maple • Candlelight • Mocha Cherry • Antique White • Samba Cherry • Shiraz Cherry

Natural Characteristics of Wood

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

Custom Wood Finishes

Add 10% list to your order for special finishes a minimum upcharge is \$500 list per finish per order. (For example, on all orders up to \$5000 list an upcharge of \$500 will apply, on orders \$5000 and up add 10% list to order.)

Special finish upcharges on seating products are calculated on a grade 1 value. For orders with special finishes, a sample that is a minimum 3" by 3" must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

Dual Finishes

Add 10% list per item if specifying dual finish.

Standard Wood Finishes

No upcharge will be applied when specifying a finish available as standard on one species onto maple seating and occasional tables. Clear finishes are not available on other species since they are a clear finish on top of the natural veneer color.

LAMINATE - TECHNICAL SPECIFICATIONS

(All references to "Laminate" in this price list mean thermofused melamine. This material is also known as low-pressure laminate or LPL)

PROPERTIES	DESCRIPTION	NEMA STANDARDS * (LD 3-2005)	KRUG'S PROGRAM
Wear Resistance	Measure of the ability of the surface to keep its design or color under abrasive wear	400 cycles	400 cycles - Solid Colors 125 cycles - Prints
Appearance	Presence of visual defects on decorative surface	No surface defects	No surface defects
Scratch Resistance	Measure of the ability of decorative surface to scratch by diamond tip tool	n/a	3.4 N
Stain Resistance	Measure of the ability of the decorative surface to resist to stain when exposed to 15 household products (see list below of products tested)	1 to 10 no effect 11 to 15 moderate (difficult to perceive the stain)	1 to 10 no effect 11 to 15 moderate

Chestnut	Citron	

GRADED-IN UPHOLSTERY PROGRAMS

Krug has partnered with several textile brands to grade in their offerings, designed to provide a wide range of upholstery selections for our seating products.

Upholstery pricing and availability is subject to change without notice. We grade this upholstery according to the pricing of the fabric suppliers - when their pricing changes, the Krug grade may change.

When placing an order, a Krug customer must specify the complete upholstery number, along with the appropriate Krug model number and finish. Krug will supply the complete product at the prices listed. Orders specifying graded-in upholstery cannot be cancelled once the upholstery has been ordered.

Upholstery Grades

To determine the price of a product for graded-in upholstery, use the reference lists located on Krug's website under - Products - Textiles, to view the upholstery grade (1-9). Krug is not responsible for the discontinuation of this upholstery. Please contact Customer Service for information on upholstery not listed.

When two upholstery selections are specified for use on seating, the higher grade upholstery price will apply to the order.

High Performance upholstery; Polyurethane, Vinyl or Crypton, is particularly suitable for healthcare and other intensive-use environments.

Upholstery Samples

If you require additional samples or memos for presentation, please contact fabric supplier directly.

Flammability Standards

- Tunnel Test Surface Ratings Class A rating
- Class 1 UFAC
- Passes State of California Technical Bulletin 117-Section E

Please contact fabric supplier directly for further flammability information pertaining to specific upholstery.

Special Conditions

Acknowledgements will give the estimated delivery date of the finished product. Some upholstery is imported, and availability may affect estimated delivery time. For large projects, please contact fabric supplier directly for availability of yardage.

CUSTOMER'S OWN MATERIAL - C.O.M.

Upholstery Cover Yardage Calculation

To calculate yardage required for COM and other non-standard upholstery cover orders, please contact Krug Customer Service at 1.888.578.5784.

Unless otherwise stated, upholstery cover rolls are assumed to be a minimum 54" wide. Please use the guide below to calculate the percentage of extra upholstery cover required to cover large repeats.

The repeat is calculated by adding both the vertical and horizontal measurements together and then referring to the chart below for extra yardage required.

FABRIC	2"-14"		15"-19"		20"-27"		28"-36"	
	Plain	Repeat	Repeat	Repeat	Repeat	Repeat	Repeat	Repeat
54	0%	10%	15%		20%		25%	
53-50	16%	20%	25%		30%		35%	
48	16%	25%	30%		35%		40%	
45	40%	50%	55%		60%		65%	
36	50%	60%	65%		70%		75%	

CUSTOMER'S OWN MATERIAL - C.O.M.

Customer's Own Material (COM/COL)

COM/COL must be received three weeks prior to the acknowledged ship date. Orders with COM/COL not received by the required deadline will be delayed.

A description of the upholstery cover, including supplier name, pattern name, upholstery cover name and color number must be included with the purchase order.

COM/COL testing requires 3 business days and samples are to be directed to Customer Service. The customer has the option of providing the sample COM/COL before, at time of order, or once the sample COM/COL is received. If the customer does not send a sample for approval in advance of sending actual material, Krug will not be responsible for the cost of any upholstery cover or other material that it determines to be unsuitable for the product or our process.

When the COM/COL upholstery cover is received at Krug, it must be clearly identified with the upholstery cover name and color, and tagged with name of the Krug customer and purchase order number. Krug will inspect all COM/COL upholstery covers when received to determine if it will be suitable for upholstery. Where Krug feels that the upholstery cover or leather specified will compromise the quality or integrity of our products, customers will be contacted to direct these concerns. Further, Krug reserves the right to refuse to accept and use any COM upholstery covers or leathers that will compromise our products in any way that is unacceptable to Krug. Krug cannot assume responsibility for the durability or tailoring quality of customer's own material.

Yardage specified in this price guide is approximate. In the case of multiple product orders, multiply the number of items by the COM yardage specified to determine upholstery cover required, unless otherwise indicated. Additional yardage may be needed if the material is less than 54" wide, or patterned or striped and requires matching. All COMs are cut "up the roll" unless otherwise stated by the customer. All striped upholstery covers will be applied vertically unless otherwise stated by the customer and after approval by Krug. Krug will not be responsible for directional or positional problems with its application of COM material, unless it has been provided with explicit instructions by the customer. Special instructions should be sent to Krug Customer Service, including a sample (or photocopy) of the upholstery cover. Krug is not responsible for instructions sent with the upholstery cover rolls, or for the method of upholstery if no instructions have been provided.

Price increases and freight charges to COM/COL acquired on the customer's behalf will be passed onto the customer.

Application of Directional Upholstery cover

Some COM upholstery covers will be considered directional by Krug even though they are not considered directional by the supplier. All COMs are automatically cut "up the roll" unless otherwise stated by the customer (please see below).

Standard-Cut
"up the roll"

Non-Standard-Cut
across the roll "railroad"

COM/COL Shipping Procedures

For seating COM/COL upholstery covers, please send upholstery covers to:

Krug Inc.
111 Ahrens Street
Kitchener, Ontario
Canada N2H 4C2
Attention: RECEIVER

COM/COL orders cannot be scheduled into production until the upholstery cover has arrived and inspection is complete.

All packages must be clearly marked "**For Customs Clearance by Russell A. Farrow Custom Brokers**".

According to the North American Free Trade Agreement (NAFTA), goods shipped between the United States and Canada can qualify for exemption from all duties, or for a reduction in duties, if the goods can be proven to originate in either the United States, Canada or Mexico.

Canada Customs requires that a NAFTA Certificate of Origin and a Commercial Invoice be completed and sent with the upholstery cover shipment. The Commercial Invoice must clearly state the description of the upholstery cover, the selling price, the make-up or content, and the purchaser. The absence of these two documents will delay the shipments at the U.S./Canada border, thereby potentially delaying the customer order. If the total value of the shipment is less than \$1200 U.S., Customs will accept a Low Value Statement of Origin in place of the NAFTA Certificate of Origin. The Low Value Statement must be signed by a representative of the exporting company. This statement may either be included on the commercial invoice or attached to the invoice.

Krug is happy to answer any questions or concerns about COM/COL shipping procedures and the required documents. Please contact our Customs Specialist at 1.888.578.5784.

CAL 133 & Moisture Barrier

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method which, in combination with non-flammable upholstery covers, may enable the products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this upcharge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL 133 compliant. If official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of product and upholstery have already been tested. Please contact Customer Service for additional information.

C.O.L. Yardage

To calculate C.O.L. yardage required, please use the following conversions based on COM yardage: Leather must be ordered in square footage.

- 17 square feet in a yard
- Approx. 3 yards in a hide
- Approx. 51 square feet in a hide
- Please use grade 3 pricing for COL

KRUGEXPRESS PROGRAM

PROGRAM DETAILS

KrugExpress orders are ready to ship by the date acknowledged. Delivery and shipping schedules may result in actual shipping of orders at a later date. Statutory holidays and scheduled factory vacations may add to acknowledged lead times of *KrugExpress* orders. Unless otherwise specified on the order, the customer's standard method of shipping Krug products will be utilized.

Available factory capacity for *KrugExpress* is filled by orders received on a "first come, first serve" basis. If the normal *KrugExpress* lead time is not available for your order because available capacity has been filled, you will be immediately advised of the earliest available ready-to-ship date. Please consult your Customer Service representative in advance if you wish to confirm the specific lead time availability for a *KrugExpress* order.

Orders must be received by midnight of a given day for that day to be considered the official day the order is received. Order lead times are acknowledged from the date the order is received, but not including the date the order is received.

KrugExpress orders must be "clean" when received in order to be considered officially received on a given day, and lead times will be acknowledged from the date orders are determined to be "clean". Changes to *KrugExpress* orders are not allowed under any circumstances.

Orders for product on *KrugExpress* must clearly state: "*KrugExpress*".

COM and graded-in upholstery is available on Krug Express. Orders are scheduled on Krug Express, and given the best available date, when the upholstery is received at Krug. Some conditions apply.

SEATING PROGRAM

Orders for seating products on the *KrugExpress* program may be subject to quantity maximums. Please contact Krug Customer Service for more information.

Quantity maximums are dependent upon available capacity, in order to insure that we ship all orders on time.

Please note that the CAL 133 option is not available on *KrugExpress*.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Karma products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR-EMISSIONS

All Karma products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come.

Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

DESIGNED FOR COMFORT

The seat features an enhanced standard foam thickness, combined with our proprietary webbing suspension system, to provide superior comfort and a longer life cycle. The back is contoured and angled to provide supportive sitting.

WALL SAVER

The angle of the back and the rear legs are designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the facility.

STACKING

Karma stacks 7 high on the floor, and 12 chairs on the dolly. The optional Underseat Cover can be specified to help prevent indenting of seat upholstery on chairs that will be stacked.

TANDEM SEATING

Karma chairs, and inline tables, are designed to be instantly converted to (or ordered as) tandem seating. Armed and armless chairs can be connected - when joining arm chairs the positioning prevents a pinch point between the arms. Inline tables can be configured between chairs or as end tables. And the tandem components can be easily removed to convert to freestanding.

WEIGHT CAPACITIES

Karma has been laboratory tested to meet a weight capacity of 500 lbs, in all versions: arm and armless, and all widths (including the bariatric size).

GLIDES

Karma's black nylon glides are non-adjustable, non-marring, and field-replaceable if damaged or degraded.

POLYMER ARM

Karma arms are durable, comfortable, and long lasting. They are made with injected polymer that is a solid color throughout the arm and are available in three color options: Black, Grey and Taupe.

EASY ACCESS CHAIR

This chair, designed for hip surgery patients and other applications where a higher seated position is desired, has a removable footrest that is 8" in depth, with a non-slip tread. The footrest can be swung up and inward to facilitate cleaning and eliminate the trip hazard.

REPLACEABLE COMPONENTS

Karma is designed to allow major components to be field replaced, providing a very cost effective means to significantly extend the life of the product.

ANTI-MICROBIAL FINISH

Karma wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria

TABLES

Karma tables are Solid Beech & Maple edges with 1 7/8" Veneered tops.

Tables are available in laminates with wood or laminates with Polymer edge.

See page 5 for laminate information.

FRAME COLORS AVAILABLE

The Karma Leg is available in 2 standard finishes; Silver Metallic and Matte Black. Polished Chrome is also available for an upcharge, please see pages 16 to 18.

COMBINATION UPHOLSTERY COVERS

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Karma upholstered products. Pricing for this option is the grade price for the highest grade upholstery selected. If the upholstery covers are the same grade, or are COM, a 10% upcharge is applied to the graded price.

KARMA | OPTIONS

UNDERSEAT COVER

As an alternative to the standard dust cover under the seat, this option, in black polymer, closes off the underside of the chair, functioning as a cleanable Splashguard to protect the interior from moisture. It also assists in chair stacking, by distributing the weight to eliminate any indentations in the seat upholstery.

REMOVABLE COVERS & REPLACEMENT COMPONENTS

Optional Removeable covers can be quickly installed on Karma products that were originally ordered with the Removable cover option. Replacement covers can also be installed on Karma products that were not originally ordered with the Removable cover option, with some simple staple removal.

CAL 133 & MOISTURE BARRIER

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method which, in combination with non-flammable upholstery covers, may enable the products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside

of upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133. CAL 133 and Moisture Barrier are available for an upcharge of \$44 list per yard.

The application of this upcharge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL 133 compliant. If official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of product and upholstery have already been tested. Please contact Customer Service for additional information.

KARMA | BEHAVIORAL HEALTH OPTIONS

TAMPER RESISTANT HARDWARE

All screws used on the Karma Behavioral Health units have been replaced with tamper resistant security screws.

ADDED WEIGHT

Karma can be supplied with supplemental weight on the bottom of the seat bringing it up to 45 lbs (total chair weight). When Chair are weighted they cannot be ganged.

TAMPER-RESISTANT GLIDES

Karma chairs have their glides secured in place to prevent their removal and damage.

FLOOR ANCHORING

Sled base can be supplied with additional holes to allow for fastening thru to the floor.

NON-ACCESSIBLE STAPLES

The Karma back upholstery has been altered to allow a staple cover strip to be attached; this will prevent access to the upholstery staples. The cover strip is nylon coated galvanized steel with vinyl coated ends to prevent any sharp edges. The back cover strip is fastened to the unit with tamper-resistant security screws.

SLED BASE OPTION

Optional Sled Base frames are available, in the same three finishes (Silver Metallic, Matte Black and Polished Chrome). Sled base running from front leg to back leg, is a low profile, solid steel with nylon glides embedded on the bottom side to prevent marring.

TAMPER RESISTANT ARMS

Polymer arms are equipped with added hardware, internal to the tube frame making them tamper resistant to removal from the tube. Available in all three colors (Black, Grey, Taupe).

LEED CI CREDIT SUMMARY

CRESSIDA

	CONTRIBUTES TO	
CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.2	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials, Systems & Seating	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood (MUST BE REQUESTED)	1 point(s)

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION
BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Cressida products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR-EMISSIONS
All Cressida products are supplied air-emissions certified. Contact customer service for information.

FSC®
In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

CRESSIDA | GUEST, PATIENT & MULTIPLE FEATURES & OPTIONS

CLEAN OUT

All Cressida seating models have a built-in clean out feature: a space at the back of the seat that allows dirt, debris and liquid to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

POLYMER ARM CAP

The optional arm cap provides enhanced durability and protection for the arms. Arm cap is available in Grey or Black and is field replaceable if it becomes damaged or degraded.

WOOD ARM

Wood Arms are available in either beech or maple hardwood and in 22 Krug standard finishes.

WALL SAVER

The angle of the back and the rear legs are designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the facility.

METAL BACK LEGS

Cressida's metal back legs are built from structural rectangular steel tubing for exceptional strength and appealing design. Silver Metallic is offered as Krug's standard finish, additional metal finish colors are available at an upcharge - please contact Customer Service for pricing and more information.

METAL TO METAL CONNECTIONS

Steel seat frames are joined to other components, and to each other in the multiple seating products, with hardened steel bolts and inserts, ensuring exceptional durability and strength, and easy reconfigurability, as well as on-site replacement of damaged or degraded components.

STEEL SEAT FRAME

Seats are constructed of high strength plywood with suspension webbing. The upholstered seat assembly is then further supported by steel frame construction running below the plywood.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

ANTI-MICROBIAL FINISH

Cressida wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

WEIGHT CAPACITIES

Cressida weight capacities are as follows:

Guest & Patient Chairs (21" & 24") - 350 lbs

Bariatric Chairs (30" & 44") - 750 lbs

Multiple Seating & Pre-configured - 350 lbs per seat

2-Seat Freespan - 525 lbs per unit

3-Seat Freespan - 750 lbs per unit

REPLACEABLE COMPONENTS

Cressida chairs are uniquely designed to allow virtually all major components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Seats, backs, frames are field replaceable.

CUSTOM CAPABILITIES

Modifications in dimension, seat and back shape or thickness, and other modifications are possible with Krug's capability to customize for specific requirements and needs. We can also provide custom finishes.

ADDITIONAL FEATURES

- Lifetime warranty
- Available CAL 133 option (see page 9)

OPTIONS

CLEANABLE UNDER-SEAT SPLASHGUARD

All Cressida seating models are available with a plastic moisture barrier that covers and encloses the underside of the seat (while still allowing air transfer and ventilation in and out of the seat cushion). The Splashguard significantly enhances the anti-microbial and germ resistance properties of the product, by enclosing the part of the chair that can be most susceptible to infection-causing pathogens. The Splashguard is a smooth, easy to clean surface, either while on the chair or when removed, and is also field replaceable. The upcharges for the Splashguard are based on the size of the seat: 21" & 24" seats - \$40 list, 30" seat - \$47 list, 44" seat - \$55 list

GANGING

All Cressida freestanding chairs can be ganged using a ganging bracket. The powder coated metal bracket is fastened to the inside face of each side frame. Ganging Bracket kit is available for an upcharge of \$62 list per chair.

ADJUSTABLE HEADREST

The adjustable headrest uses dual density foam providing excellent support and comfort. The headrest is securely fastened using an innovative clip allowing the headrest to be easily removed for cleaning and/or replacement. The headrest is easily adjusted by sliding the headrest vertically allowing the user to maximize their comfort.

CRESSIDA | GUEST, PATIENT & MULTIPLE OPTIONS

COMBINATION UPHOLSTERY OPTIONS

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics will be applied. When graded in combination upholstery is selected, use the highest upholstery selected or contact Customer Service for a quote (please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote).

MOISTURE BARRIER & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$735 per

item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks.

Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for **\$44 list** per yard

REMOVABLE COVERS & REPLACEMENT COMPONENTS

Cressida chair (all sizes) are available with Removeable Seat Covers for an upcharge of \$58 list per chair. Cressida chairs with Guest Backs (21", 24") are available with Removeable Back Covers for an upcharge of \$37 list per chair. Cressida 30" and 44" chairs with Guest Backs are also available with Removeable back cover option for an upcharge of \$58 list per chair. Cressida chairs with Patient Backs (21", 24") are available with Removeable Back Covers for an upcharge of \$58 list per chair. Cressida 30" chairs with Patient Backs are also available with removeable back cover option for an upcharge of \$95 list per chair.

Replacement seat and back covers can be quickly installed on Cressida products that were originally ordered with the Removeable cover option. Replacement seat and back covers can also be installed on Cressida products that were not originally ordered with the Removeable cover option, with some simple staple removal on the original seats and backs.

Note: Some vinyls, leathers & upholsteries are not suitable for application on Cressida seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.
2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Cressida upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote - please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Replacement seat and back covers can be quickly installed on Cressida products that were originally ordered with the Removeable cover option. Replacement seat and back covers can also be installed on Cressida products that were not originally ordered with the Removeable cover option, with some simple staple removal on the original seats and backs.

Cressida Option Upcharges	\$ List
Moisture Barrier (per yard)	44

The above information regarding LEED contribution applies to both the upholstered as well as mesh back versions.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Solis products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR-EMISSIONS

All Solis products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

SOLIS | PRODUCT FEATURES

CLEAN OUT

All Solis seating models have a built-in clean out feature: a space at the back of the seat that allows dirt, debris and liquids to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

STEEL SEAT FRAME

The structural seat frame is made from welded steel with a powder-coated finish that allows Solis to well exceed ANSI/BIFMA standards.

HIGH DENSITY FOAM

Solis features dual density foam that is soft on the outside for comfort, dense on the inside for high durability. The seat and back foam features a compound curvature that supports healthy sitting postures, while also designed to ease ingress and egress.

FLEX BACK

The ergonomically-designed back has a slight flexing action, which significantly enhances comfort.

URETHANE ARM

Solis arms are durable, comfortable, and long lasting. Urethane arms are available in three color options; Black, Grey and Taupe.

WOODEN ARM

Wood arms are available in either beech or maple hardwood and in 22 Krug standard finishes. Maple arm caps are available for an up-charge of **\$55 list** per arm using beech pricing.

REPLACEABLE COMPONENTS

Solis chairs are uniquely designed to allow virtually all major components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Seats, backs, arms, frames and casters are field replaceable. Pricing and model numbers can be viewed online at www.krug.ca.

TUBULAR STEEL CHAIR FRAME

The overall aesthetic frame of the chair is built from structural steel tubing, both elliptical and rectangular for exceptional strength and appealing design. The frame is electro welded and polished joints for ease of cleaning and a one piece look. Available in eight powder-coated finishes. Silver Metallic is offered as Krug's standard finish. For all metal finishes other than Silver Metallic, there is a minimum quantity of 30 units per color and are available for an upcharge of **\$44 list** per seat/table. Microban anti-microbial finish is standard, with no upcharge, when frame finishes other than silver metallic is ordered. Solis silver metallic frames are available with an anti-microbial finish for an upcharge of **\$44 list** per chair or table. Upcharges for quantities less than 30 units per color, per order can be obtained through Customer Service.

WALL SAVER

The angle of the back and the rear legs are designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the facility. Patient and Guest chairs with mesh backs are excluded as they do not have the wall saver feature.

LATEX-FREE

Krug products are made with latex-free materials, to prevent the allergic reaction that latex causes in some people.

GANGING

All Solis Freestanding chairs can be ganged using a ganging bracket. The powder-coated metal plate is fastened to the underside of the steel side rails using the pre-existing holes in the frame.

EASY ACCESS ADJUSTABLE GLIDES

With the larger footprint of this chair and critical importance of stability for the user, we have included adjustable glides on the front legs - this allows the Easy Access chair to be perfectly leveled to any floor for maximum safety and stability.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

WEIGHT CAPACITIES

Weight capacities are as follows:
Guest & Patient Chairs (21" & 24") - 350 lbs
Bariatric Chairs (30" & 44") - 750 lbs
Multiple Seating & Pre-configured - 350 lbs per seat
2-Seat Free Span - 525 lbs per unit
3-Seat Free Span = 750 lbs per unit

CUSTOM CAPABILITIES

Modifications in dimension, seat and back shape or thickness, and other modifications are possible with Krug's capability to customize for specific requirements and needs. We can also provide custom finishes.

ADDITIONAL FEATURES

- Lifetime warranty
- air-emissions certified
- Spring seat construction, providing exceptional comfort and longer life for seat foam.
- Solis sets a new standard for comfort and ergonomics in healthcare seating.
- Designed for ergonomically-correct posture and long-term sitting comfort, with contoured back and seat molds. Multi-density foam, provides lumbar, thoracic and pelvic support, while encouraging a healthy sitting posture.
- Large, rounded arms provide support for safe and easy ingress and egress.
- Certified to meet CTB 133/ ASTM E 1537 with appropriate fabrics

ADJUSTABLE HEADREST

The adjustable headrest uses dual density foam providing excellent support and comfort. The headrest is securely fastened using an innovative clip allowing the headrest to be easily removed for cleaning and/or replacement. The headrest is easily adjusted by sliding the headrest vertically allowing the user to maximize their comfort.

EASY CLEAN BACKREST COVERS

Easy clean backrest covers are available on all mesh back chairs. They are removable, replaceable and cleanable. The easy clean backrest cover features a foam interior for comfort and durability.

WOOD SIDE RAILS

Solis can be specified with solid wood side rails, which, along with the selection of wood arms and a choice of metal finishes, provides a warmer look and feel. All Solis wood components feature Krug's anti-microbial, high durability Enduraguard finish. Wood Side Rails are available for an upcharge of **\$88 list** per chair in Beech or **\$110 list** per chair in Maple. Wood side rails are not available with closed arm panels.

CASTERS

Casters are available on all 21" and 24" guest and patient chairs. Two rear casters are available for an upcharge of **\$55 list** per chair. Four casters are available for **\$83 list** per chair. Hard casters are standard, soft wheel casters can be ordered for **\$40 list** per chair or **\$20 list** for two casters. The Solis caster is not a heavy-duty caster - it is designed and rated for normal use and load bearing, but has the potential to fail with excessive use, force, or weight. The caster was designed to allow the chairs to be moved for ease of cleaning and furniture arranging. Krug is not responsible for caster breakage under any circumstances. Solis casters can purchased for field replacement.

KINETIC BACK OPTION

This optional feature provides the chair back with a very pleasant and comfortable rocking motion, which can significantly enhance long-term sitting for patients and guests alike. The durable spring-loaded mechanism provides a range of motion of 20 degrees, and can be field-installed or replaced. It's available on any Solis chair back - Guest, Patient and Multiple Seating - with the exception of the Bariatric sizes (30" and 44").

ANTI-MICROBIAL FINISH

Solis products are available with anti-microbial finish technology that inhibits the growth of molds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood and metal. The anti-microbial finish is standard on all wood components, at no additional up-charge. Solis silver metallic frames are available with an anti-microbial finish for an upcharge of **\$44 list** per chair or table.

CAL133 & MOISTURE BARRIER

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for **\$44 list** per yard.

REMOVABLE COVERS & REPLACEMENT COMPONENTS

- Seat Covers - \$61 list per seat
- Back Covers (21", 24") - \$39 list per chair (uph. only)
- Back Covers (30" and 44") - \$61 list per chair.

Optional Removeable seat and back covers can be quickly installed on Solis products that were originally ordered with the Removable cover option. Replacement seat and back covers can also be installed on Solis products that were not originally ordered with the Removable cover option, with some simple staple removal on the original seats and backs. Complete Mesh backs can be ordered and field replaced.

CLEANABLE UNDER-SEAT SPLASHGUARD

All Solis seating models are available with a plastic moisture barrier that covers and encloses the underside of the seat (while still allowing air transfer and ventilation in and out of the seat cushion). The Splashguard significantly enhances the anti-microbial and germ resistance properties of the product, by enclosing the part of the chair that can be most susceptible to infection-causing pathogens. The Splashguard is a smooth, easy to clean surface, either while on the chair or when removed, and is also field replaceable. The upcharges for the Splashguard are based on the size of the seat:

- 21" and 24" seats - **\$28 list**
- 30" seat - **\$33 list**
- 44" seat - **\$44 list**

COMBINATION UPHOLSTERY OPTIONS

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics will be applied. When graded in combination upholstery is selected, use the highest upholstery selected or contact Customer Service for a quote (please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote).

Multiple yardage requirements can also be used for Guest Back Easy Access chairs and Guest Back Start, Centre, End Multiple seating.

Note: Some vinyls, leathers & upholsteries are not suitable for application on Solis seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.
For Maharam, Momentum or CF Stinson, Krug will obtain the fabric sample.
2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

SOLIS | GUEST & BARIATRIC | UPHOLSTERED BACKS

JORDAN | GUEST, PATIENT, MULTIPLE & EASY ACCESS FEATURES

CLEAN OUT

All Jordan seating models have a built-in clean out feature: a space at the back of the seat that allows dirt, debris and liquid to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

STEEL SEAT FRAME

The structural seat frame is made from welded steel with a powder-coated finish that allows Jordan to well exceed ANSI/BIFMA standards.

FLEX BACK

The ergonomically designed back has been designed with a slight flexing action, to enhance the level of long-term sitting comfort, and provide greater ease of egress.

WALL SAVER

The angle of the back and the rear legs are designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the facility.

URETHANE ARM CAP

The optional arm cap provides enhanced durability and protection for the arms. This is field replaceable if this becomes damaged or degraded and is available in three colors; Black, Grey and Taupe.

METAL TO METAL CONNECTIONS

Steel seat frames are joined to other components, and to each other in the multiple seating products, with hardened steel bolts and inserts, ensuring exceptional durability and strength, and easy reconfigurability, as well as on-site replacement of damaged or degraded components.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:
Guest & Patient Chairs (21" & 24") - 350 lbs
Bariatric Chairs (30" & 44") - 750 lbs
Easy Access Chairs - 350 lbs
Multiple Seating & Pre-configured - 350 lbs per seat
2-Seat Freespan - 525 lbs per unit
3-Seat Freespan - 750 lbs per unit
21" & 24" Bench - 350 lbs
30" Bench - 750 lbs
48" Bench - 525 lbs per unit
72" Bench - 750 lbs per unit

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

ANTI-MICROBIAL FINISH

Jordan wood surfaces come with a uniquely-formulated anti-microbial finish that inhibits the growth of molds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

REPLACEABLE COMPONENTS

Jordan chairs are uniquely designed to allow virtually all major components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Seats, backs, frames are field replaceable. Pricing and model numbers can be viewed online at www.krug.ca.

EASY ACCESS ADJUSTABLE GLIDES

With the larger footprint of this chair and critical importance of stability of the user, we have included adjustable glides on the front legs - this allows the Easy Access chair to be perfectly leveled to any floor for maximum safety and stability.

CUSTOM CAPABILITIES

Modifications in dimension, seat and back shape or thickness, and other modifications are possible with Krug's capability to customize for specific requirements and needs. We can also provide custom finishes.

ADDITIONAL FEATURES

- Lifetime warranty
- air-emissions Certified
- Spring seat construction, providing exceptional comfort and longer life for seat foam.
- Mortise and tenon frame construction, for optimal strength in wood joinery.
- Jordan sets a new standard for comfort and ergonomics in healthcare seating. Designed for ergonomically- correct posture and long-term sitting comfort, with contoured back and seat molds. Multi-density foam, provides lumbar, thoracic and pelvic support, while encouraging a healthy sitting posture.
- Large, rounded arms provide support for safe and easy ingress and egress.
- Certified to meet CTB 133/ ASTM E 1537 with appropriate fabrics

JORDAN | GUEST, PATIENT, MULTIPLE & EASY ACCESS OPTIONS

KINETIC BACK OPTION

This optional feature provides the chair back with a very pleasant and comfortable rocking motion, which can significantly enhance long-term sitting for patients and guests alike. The durable spring-loaded mechanism provides a range of motion of 20 degrees, and can be field-installed or replaced. It's available on any Jordan/Solis chair back - Guest, Patient and Multiple Seating - with the exception of the Bariatric sizes (30" and 44").

DESIGNER WHITE - D354SL SOLID SURFACE ARM CAP

Jordan Guest and Patient seating is available with an optional Solid surface arm cap for an upcharge of \$165 list per chair. The Solid Surface Arm Cap is field replaceable.

CLEANABLE UNDER-SEAT SPLASHGUARD

All Jordan seating models are available with a plastic moisture barrier that covers and encloses the underside of the seat (while still allowing air transfer and ventilation in and out of the seat cushion). The Splashguard significantly enhances the anti-microbial and germ resistance properties of the product, by enclosing the part of the chair that can be most susceptible to infection-causing pathogens. The Splashguard is a smooth, easy to clean surface, either while on the chair or when removed, and is also field replaceable.

GANGING

All Jordan freestanding chairs can be ganged using a ganging bracket. The powder coated metal bracket is fastened to the inside face of each side frame. Ganging Brackets are available for an upcharge of \$39 list per chair.

MOISTURE BARRIER & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$772 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for \$44 list per yard

REMOVABLE COVERS & REPLACEMENT COMPONENTS

Jordan chair (all sizes) are available with Removeable Seat Covers for an upcharge of \$61 list per chair. Jordan chairs with Guest Backs (21", 24") are available with Removeable Back Covers for an upcharge of \$39 list per chair. Jordan 30" and 44" chairs with Guest Backs are also available with Removeable back option for an upcharge of \$61 list per chair.

Jordan Patient Chairs (all sizes) are available with Removeable Seat Covers for an upcharge of \$61 list per chair. Jordan chairs with Patient Backs (21", 24") are available with Removeable Back Covers for an upcharge of \$55 list per chair.. Jordan 30" Patient Back models are also available with Removeable back option for an upcharge of \$99 list per chair.

Replacement seat and back covers can be quickly installed on Jordan products that were originally ordered with the Removeable cover option. Replacement seat and back covers can also be installed on Jordan products that were not originally ordered with the Removeable cover option, with some simple staple removal on the original seats and backs

COMBINATION UPHOLSTERY OPTIONS

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics will be applied. When graded in combination upholstery is selected, use the highest upholstery selected or contact Customer Service for a quote (please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote)

Note: Some vinyls, leathers & upholsteries are not suitable for application on Jordan seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.
For Maharam or Momentum, Krug will obtain the fabric sample.
2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

CORFU | LEED CI CREDIT SUMMARY

CORFU

MATERIAL CONTENT:

PRE-CONSUMER
RECYCLED CONTENT = 14.47%

POST-CONSUMER
RECYCLED CONTENT = 22.19%

Up to 17.02% of this Corfu product is recyclable at the end of its useful life.

		CONTRIBUTES TO
CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point(s)
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.2	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials, (MUST BE REQUESTED)	
	Systems & Seating	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood	1 point
	(AVAILABLE ON SOME PRODUCTS - MUST BE REQUESTED)	

* This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION, AIR-EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Corfu products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR-EMISSIONS

All Corfu products are properly air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

SUSTAINABLE DESIGN

Corfu is made with recycled materials, with an overall recycled content of 40%. Many of these same materials are also recyclable and Corfu's overall recyclable content is 17%. Corfu is air-emissions certified.

**OUTDOOR SEATING**

Corfu has been designed for outdoor use, with UV-resistant polypropylene components, a rust-resistant aluminum frame, and the option of drainage holes in the seat. Please specify outdoor usage when ordering.

**UNDER SEAT COVER**

Each indoor version of Corfu includes an underseat system for stacking: a grey polypropylene seat pan that nests into the seat below and protects it from the frame above. It also provides for easy cleaning and maintenance by covering the underside of the chair. All outdoor versions of Corfu do not include the underseat pan, to allow for drainage, but include stacking bumpers.

**WOOD FINISH**

Krug's Enduraguard™ finish is a catalyzed conversion varnish topcoat, combined with a vinyl polymer-based sealer, that in independent testing has been shown to have exceptional durability characteristics in its resistance to scratching, marring, and degradation from cleaning materials and other substances.

BEECH PLYWOOD

Wood seats and backs are made with European Beech hardwood veneers, featuring nine (9) plies of cross grain for added strength and durability.

**STACKING**

Corfu chairs are stackable, to a maximum of 13 chairs for the wood or plastic versions, and 10 chairs for the upholstered version, when stacked on the Corfu caddie. Corfu chairs are stackable to a maximum of 9 chairs for the wood or plastic versions and 6 chairs for the upholstered version when stacked on the floor. The upholstered versions stack to a height of 74" in the armless version, and 76" with arms. The non-upholstered versions stack to a height of 70" in the armless version and 72" in the version with arms.

**PLASTIC COMPONENTS**

Polypropylene seats, backs and other components are injection molded, with pigment diffused throughout the mold, and featuring a compound that provides UV resistance to fading and brittleness from exposure to light. Seats and backs have a minimum wall thickness of 5 mm, providing excellent strength and shock resistance. Corfu (Plastic Seat & Back) is available in six different colors. Please specify a color when ordering.

Color Selection:

White, Black, Grey, Red, Blue, Sand

ALUMINUM FRAME

Corfu seating is built with high strength aluminum castings and extrusions. Aluminum is an ideal material for creating a structurally superior chair frame: it eliminates any potential for corrosion, and provides excellent fit and the tightest of tolerances in the transition between components. Finish options are Silver Metallic Powder Coat, and Polished Aluminum.

GANGING

Corfu can be ordered with the option of ganging for the upcharge of \$20 list per chair. Please specify ganging when ordering.

CADDIE

The Corfu caddie provides enhanced stackability, along with the ease of movement and storage. Its design allows for the stacking and storage of all Krug stackable chairs. It has a durable tubular construction and 4 soft-wheel swivel, locking casters. This caddie is designed to stack and transport Krug's other stacking chairs.

PACKAGING

Corfu packaging features recycled, recyclable cardboard. The arm and armless chairs are shipped 4 units per carton; Corfu Office is shipped one unit per carton.

OPTIONS**COMBINATION UPHOLSTERY COVERS**

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Corfu upholstered products. Pricing for this option is the grade price for the highest grade upholstery selected. If the upholstery covers are the same grade, or are COM, a 10% upcharge is applied to the graded price.

CAL133 & MOISTURE BARRIER

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for **\$44 list** per yard.

ADDITIONAL FEATURES

- Corfu fully upholstered seat & back is Certified to meet CTB 133/ ASTM E-1537 with appropriate upholstery cover

level® CERTIFICATION, AIR-EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Cressida products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

FSC
www.fsc.org
FSC® C021099

The mark of responsible forestry

AIR-EMISSIONS

All Cressida products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

Note: Some vinyls, leathers & upholsteries are not suitable for application on Cressida seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.
2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Cressida upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote - please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Replacement seat and back covers can be quickly installed on Cressida products that were originally ordered with the Removeable cover option. Replacement seat and back covers can also be installed on Cressida products that were not originally ordered with the Removeable cover option, with some simple staple removal on the original seats and backs.

level® CERTIFICATION, AIR-EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Jordan products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

FSC
www.fsc.org
FSC® C021699

The mark of responsible forestry

AIR-EMISSIONS

All Jordan products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

Note: Some vinyls, leathers & upholsteries are not suitable for application on Jordan seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.
For Maharam or Momentum, Krug will obtain the fabric sample.
2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

CRESSIDA | MULTIPLE SEATING INSTRUCTIONS

To aid you in the process of specifying and ordering Cressida Multiple Seating, we have compiled the following summary. It explains the three different types of Cressida Multiple Seating – (a) Pre-Configured, (b) Start, Center & End Units and (c) the Freespan Multiple Units – including the features and considerations of each type, to assist in selecting the one that best suits each application. It is a requirement for all Cressida Multiple Seating orders, a drawing or plan view layout must accompany the order, so that we can verify that the specification is correct.

When building your multiple seating layout, please note that your order should start from left to right as you are facing the configuration.

Pre-Configured Multiple Units

Pre-Configured Multiple Units are designed to be used when you have seating configurations that are 2-3 chair units in size (see picture below).

Two-Seat

Considerations if choosing to use Pre-Configured Units:

- Linking tables can be joined to either end of a Pre-Configured Multiple Unit, but not in-between
- There are no limitations to the number of Pre-Configured Multiple units that can be ganged together with the Cressida Linking Tables
- Pre-Configured Multiple Units are not available in 30" or 44" bariatric widths
- Pre-Configured Multiple Units are not designed to work with other multiple seating (Start, Center, End Units or Freespan Units) unless a Cressida Linking Table or linking brackets are used in-between the different types of multiple seating.
- Pre-Configured Multiple Units are built from Start, Center and End Units and therefore, can be reconfigured to singular or two-seat units. However, you may have to purchase additional components (arms, etc...) to be able to do this. See line drawings below for possible configurations that can be made from taking apart the Pre-Configured Multiple Units.

*Please note:

Example #1-A requires an additional end unit arm for chair A, and a start unit arm for chair B.

Example #1-B requires an additional end unit arm for chair A, a start and end unit arm for chair B, and a start unit arm for chair C.

Start, Center and End Multiple Seating Units

Start, Center and End Multiple Units are designed to be used when you have seating configurations that are greater than three chair units in size, and/or include 30" or 44" units (see picture below). Also, before you start to build your multiple seating layout, please note that your order should start from left to right as you are facing the chair, therefore begin the configuration with a Start Unit, then move to a Center Unit and finish with an End Unit.

Considerations if choosing to use Start, Center and End Multiple Units:

- Start, Center and End units are available in widths - Guest (21", 24", 30" & 44") and Patient - (21", 24" & 30")
- There are no limitations to the amount of center units that can be ganged to a start or an end unit
- Cressida Linking Tables can be joined to any Cressida Start or End unit only (this is because the units are engineered with the finished arms)

CRESSIDA | MULTIPLE SEATING INSTRUCTIONS

See below for sample configurations of when you would use Start, Center and End Multiple Units.

Freespan Multiple Units

Freespan Multiple Units are designed to be used when you have seating configurations that are 2-3 chair units in size and a reduced number of legs are desirable. (see picture below).

Considerations if choosing to use Freespan Multiple Units:

- The unit with the center arm increases the overall width of the unit by 1" per arm
- Linking tables can be joined to either side of a Freespan Multiple Unit, but not in-between
- There are no limitations to the number of Freespan Multiple units that can be ganged together with the Cressida Linking Tables or linking brackets. See page 57 for pricing.
- Freespan Multiple Units are not available in 30" or 44" bariatric widths
- Freespan Multiple Units are not designed to work with other multiple seating (Start, Center, End Units or Freespan Units) unless a Cressida Linking Table or linking brackets are used in-between the different types of multiple seating.

Below illustrates possible configurations when you could use all three types of Cressida Multiple Seating together.

For more information on how to specify Cressida Multiple Seating, please contact Customer Service directly at 1-888-578-5784.

Note: Some vinyls, leathers & upholsteries are not suitable for application on Cressida seating. Please refer to page 9 for C.O.M approval process.

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Cressida upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote - please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Replacement seat and back covers can be quickly installed on Cressida products that were originally ordered with the Removeable cover option. Replacement seat and back covers can also be installed on Cressida products that were not originally ordered with the Removeable cover option, with some simple staple removal on the original seats and backs.

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Cressida upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote - please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Cressida Option Upcharges	\$ List
Moisture Barrier (per yard)	44
Removable Seat Covers	58
Guest Removeable 21" & 24" Back Covers	37
Patient Removeable 21" & 24" Back Covers	58
21" & 24" Cleanable Under-Seat Splashguard	40

Patient backs are available on multiple units, please change the model number CRE2-PCG to CRE2-PCP, CRE2-PCG to CRE2-PCP, CRE2-PCG to CRE2-PCP and add the following upcharges per back:

	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9
21" Chairs	\$57	66	75	87	102	114	129	148	166
24" Chairs	\$65	74	83	96	110	123	138	156	174

When ordering more than one Start, Center or End unit, please refer to page 22 for COM yardage requirements for guest chairs or page 44 for COM yardage requirements for patient chairs.

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Cressida upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote - please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Replacement seat and back covers can be quickly installed on Cressida products that were originally ordered with the Removeable cover option. Replacement seat and back covers can also be installed on Cressida products that were not originally ordered with the Removeable cover option, with some simple staple removal on the original seats and backs.

Cressida Option Upcharges	\$ List	Cressida Option Upcharges	\$ List
Moisture Barrier (per yard)	44	Patient Removeable 21" & 24" Back Covers	58
Removable Seat Covers	58	Patient Removeable 30" Back Covers	95

Note: Some vinyls, leathers & upholsteries are not suitable for application on Cressida seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.
2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

ORDERING NOTES:

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Cressida upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote - please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Replacement seat and back covers can be quickly installed on Cressida products that were originally ordered with the Removeable cover option. Replacement seat and back covers can also be installed on Cressida products that were not originally ordered with the Removeable cover option, with some simple staple removal on the original seats and backs.

Cressida Option Upcharges

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Solis upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote - please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote. Complete Mesh backs (21" & 24") can be ordered and field replaced.

Casters are available on 21" and 24" guest chairs for an upcharge of \$50 list for 2 casters or \$75 list for 4 casters.

The standard Solis Frame Color is Silver Metallic. Additional frame colors are available for an upcharge of \$44 list per seat, please see page 4 for color selection and required ordering quantities. Silver metallic frames are available with an anti-microbial finish for an upcharge of \$44 list per chair or table.

Solis Pre-configured Guest Option Upcharges	\$ List	\$ List
CAL 133 & Moisture Barrier (per yard)	44	21" & 24" Cleanable Under-seat Splashguard (per seat) 28
Guest chair - Removable Seat Covers	61	Maple Arm upgrade per arm (add to beech price) 55

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Solis upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Complete mesh backs (21" & 24") can be ordered and field replaced.

The standard **Solis Frame Color** is Silver Metallic. Additional frame colors are available for an upcharge of **\$44 list** per seat, please see page 4 for color selection and required ordering quantities. Silver metallic frames are available with an anti-microbial finish for an upcharge of **\$44 list** per chair or table.

Please refer to page 27 for more options.

JORDAN | MULTIPLE SEATING INSTRUCTIONS

To aid you in the process of specifying and ordering Jordan Multiple Seating, we have compiled the following summary. It explains the three different types of Jordan Multiple Seating – (a) Pre-Configured, (b) Start, Center & End Units and (c) the Freespan Multiple Units – including the features and considerations of each type, to assist in selecting the one that best suits each application. It is a requirement for all Jordan Multiple Seating orders, a drawing or plan view layout must accompany the order, so that we can verify that the specification is correct.

When building your multiple seating layout, please note that your order should start from left to right as you are facing the configuration.

Pre-Configured Multiple Units

Pre-Configured Multiple Units are designed to be used when you have seating configurations that are 2-3 chair units in size (see picture below).

Two-Seater

Considerations if choosing to use Pre-Configured Units:

- Linking tables can be joined to either end of a Pre-Configured Multiple Unit, but not in-between
- There are no limitations to the number of Pre-Configured Multiple units that can be ganged together with the Jordan Linking Tables
- Pre-Configured Multiple Units are not available in 30" or 44" bariatric widths
- Pre-Configured Multiple Units are not designed to work with other multiple seating (Start, Center, End Units or Freespan Units) unless a Jordan Linking Table or linking brackets are used in-between the different types of multiple seating.
- Pre-Configured Multiple Units are built from Start, Center and End Units and therefore, can be reconfigured to singular or two-seater units. However, you may have to purchase additional components (arms, etc...) to be able to do this. See line drawings below for possible configurations that can be made from taking apart the Pre-Configured Multiple Units.

EXAMPLE #1

EXAMPLE #1-A

OR

EXAMPLE #1-B

*Please note:

Example #1-A requires an additional end unit arm for chair A, and a start unit arm for chair B.

Example #1-B requires an additional end unit arm for chair A, a start and end unit arm for chair B, and a start unit arm for chair C.

Start, Center and End Multiple Seating Units

Start, Center and End Multiple Units are designed to be used when you have seating configurations that are greater than three chair units in size, and/or include 30" or 44" units (see picture below). Also, before you start to build your multiple seating layout, please note that your order should start from left to right as you are facing the chair, therefore begin the configuration with a Start Unit, then move to a Center Unit and finish with an End Unit.

Considerations if choosing to use Start, Center and End Multiple Units:

- Start, Center and End units are available in all widths (21", 24", 30" & 44")
- There are no limitations to the amount of center units that can be ganged to a start or an end unit
- Jordan Linking Tables can be joined to any Jordan Start or End unit only (this is because the units are engineered with the finished arms)

Start Unit

Center Unit

End Unit

JORDAN | MULTIPLE SEATING INSTRUCTIONS

See below for sample configurations of when you would use Start, Center and End Multiple Units.

Freespan Multiple Units

Freespan Multiple Units are designed to be used when you have seating configurations that are 2-3 chair units in size and a reduced number of legs are desirable. (see picture below).

Considerations if choosing to use Freespan Multiple Units:

- Freespan Multiple Units come with a choice of a pre-configured unit with or without a center arm
- The unit with the center arm increases the overall width of the unit by 1" per arm
- Linking tables can be joined to either side of a Freespan Multiple Unit, but not in-between
- There are no limitations to the number of Freespan Multiple units that can be ganged together with the Jordan Linking Tables or linking brackets.
- Freespan Multiple Units are not available in 30" or 44" bariatric widths
- Freespan Multiple Units are not designed to work with other multiple seating (Start, Center, End Units or Freespan Units) unless a Jordan Linking Table or linking brackets are used in-between the different types of multiple seating.

Below illustrates possible configurations when you could use all three types of Jordan Multiple Seating together.

For more information on how to specify Jordan Multiple Seating, please contact Customer Service directly at 1-888-578-5784.

ORDERING NOTES:

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Jordan Option Upcharges	\$ List		\$ List
CAL 133 & Moisture Barrier (per yard)	44	21" & 24" - Removeable Patient Back Covers	61

Note: Some vinyls, leathers & upholsteries are not suitable for application on Jordan seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order. For Maharam or Momentum, Krug will obtain the fabric sample.
2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

ORDERING NOTES:

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Jordan Option Upcharges	\$ List	\$ List

ORDERING NOTES:

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Karma products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR-EMISSIONS

All Karma products are supplied with air-emissions certified materials. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Karma and other Krug products can be specified with one of two types of FSC® Certification:

- (a) FSC®-certified (which includes FSC®-certified lumbe , veneer and substrate material)
 - (b) FSC®-mix certified (which includes substrate material onl , and is a lower cost option certification)
- Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

SOLIS | LEED CI CREDIT SUMMARY

SOLIS

CONTRIBUTES TO		
CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.2	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials, Systems & Seating	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood (MUST BE REQUESTED)	1 point(s)

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION
BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Solis products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR-EMISSIONS
All Solis products are supplied air-emissions certified. Contact customer service for information.

FSC®
In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Karma and other Krug products can be specified with one of two types of FSC® Certification:
(a) FSC®-certified (which includes FSC®-certified lumbe , veneer and substrate material)
(b) FSC®-mix certified (which includes substrate material onl , and is a lower cost option certification
Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Leyton products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR EMISSIONS

All Leyton products are supplied air-emissions certified. Contact customer service for information and upcharges.

The mark of responsible forestry

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

In addition, architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

ARM STYLE

Leyton features four design styles Upholstered Armless, Upholstered Full Arm, Wood Surround Armless and Wood Surround Full Arm.

Upholstered Armless

Upholstered Full Arm

Wood Surround Armless

Wood Surround Full Arm

LEGS

Leyton Lounge and Tables feature Polished Chrome structural steel legs with non-marring glides.

REPLACEABLE COMPONENTS

Leyton chairs are uniquely designed to allow major components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Seats, backs, arms and frames are field replaceable, with the only exceptions being the Upholstered Armless, Upholstered Full Arm and Upholstered Front Panel as it is one piece.

BARIATRIC WEIGHT CAPACITIES

All Leyton seating feature Bariatric Weight capacities.

One-Seat - 750lbs

One & Half-Seat - 750lbs

Two-Seat - 975lbs

Three-Seat - 1200lbs

Leyton has been tested to ANSI / BIFMA.

ANTI-MICROBIAL FINISH

Leyton Lounge & Tables wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of high traffic environments.

Leyton Solid Surface tablet can be specified left or right as seated. The tablet can be used alone or with solid surface arm cap and is 1/2" thick.

CUP HOLDER

Durable and convenient, Leyton lounge is available with a solid surface cup holder. Cup holder option can be specified left or right as seated, alone or integrated with solid surface arm cap. Outside diameter is 4" and inside bottom diameter is 3 1/4".

PUSH BAR

This is an optional feature on Leyton One Seat lounge chairs, designed to assist caregiving staff in the movement and relocation of the chair. It is Silver Metallic in color and retractable for ease of use. The Push bar is field replaceable if necessary.

CASTERS

Optional on Leyton lounge chairs are four - 4" diameter soft wheel swivel locking casters, featuring a large, easy-access foot activation and release lever. The caster locks both directionally and rotationally, keeping the chair securely in place when locked. Note: lounge chairs with casters are not designed or intended as patient transport devices.

CLEAN OUT

Leyton lounge seating models have an optional built-in clean out feature: a space at the back of the seat that allows dirt debris and liquid to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product. Clean Out option is available for an upcharge, see page 130.

COMBINATION UPHOLSTERY

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit. When graded-in combination upholstery is selected, use the highest upholstery grade or contact customer service for a quote. Please provide the fabric specified and a description of where each fabric is to be applied on the product in order to obtain a quote. Please note the Upholstered Arm and front panel are one piece and must be specified in the same fabric.

REMOVABLE COVERS & REPLACEMENT COMPONENTS

Optional Removeable covers (with the exception of the Upholstered Armless, Upholstered Full Arm and Front panel) can be quickly installed on Leyton products that were originally ordered with the Removable cover option. Replacement covers (with the exception of the Upholstered Armless, Full Upholstered Arm and front panel) can also be installed on Leyton products that were not originally ordered with the Removable cover option, with some simple staple removal. Please see page 130 for Removable covers upcharge.

CAL 133 & MOISTURE BARRIER

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method which, in combination with non-flammable upholstery covers, may enable the products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133. CAL 133 and Moisture Barrier are available for an upcharge, please see page 130.

The application of this upcharge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL 133 compliant. If official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of product and upholstery have already been tested. Please contact Customer Service for additional information.

COM APPROVAL PROCESS:

The approval process is as follows:

1. A sample of the COM fabric must be provided to Krug Customer Service prior to or at time of order.
2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
3. The COM fabric will be inspected when received at the factory to identify any further concerns with its suitability.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Cressida products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

FSC
www.fsc.org
FSC® C021699

The mark of responsible forestry

AIR EMISSIONS

All Cressida products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come.

Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

CRESSIDA | LOUNGE FEATURES & OPTIONS

CLEAN OUT

Cressida lounge seating models have a built-in clean out feature: a space at the back of the seat that allows dirt, debris and liquid to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

ANTI-MICROBIAL FINISH

Cressida wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria

ARMS AND ARMLESS

Cressida features five arm options; Armless, Open Arm, Open Arm Polymer Arm Cap, Closed Arm, Closed Arm Polymer Arm Cap. Polymer arm cap is available in Black or Grey.

POLYMER ARM CAP

Available in Grey and Black colors, the Arm Cap is field- replaceable if necessary.

GLIDES

Cressida Lounge arm and armless versions are standard with non-marring nylon glides.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

WEIGHT CAPACITIES

Cressida weight capacities are as follows:

- One-Seat-350 lbs
- One-Seat (Bariatric) -750 lbs
- One-Seat Plus - 350lbs
- One-Seat Plus (Bariatric) - 750lbs
- Two-Seat - 525 lbs
- Two-Seat (Bariatric) - 975lbs
- Three-Seat - 850 lbs
- Three-Seat (Bariatric) - 1200 lbs

REMOVABLE AND REPLACEABLE COVERS

Cressida Lounge Chairs are available with Removable Seat and Removable Back Covers, see page 120 for upcharges.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

REPLACEABLE COMPONENTS

Cressida Lounge chairs are uniquely designed to allow virtually all components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Seats, backs and arms are field replaceable.

OPTIONS

CASTERS

Cressida Lounge is available with the option of casters. Caster option comes with the two rear casters locking as standard.

PUSH BAR

This is a option on Cressida lounge when ordered with casters, ergonomically designed to assist care-giving staff in the movement and operation of the chair, and reduce back strain on the caregiver. The push bar is powder-coated steel in Silver Metallic finish.

TABLETS

Optional Tablets are available on the Cressida Lounge & Modular in veneer, glass, high pressure laminate, solid surface and palette finishes. The Cressida tablet can be fastened to the Cressida Lounge & Modular chairs by the Universal Tablet Mount (mounted left or right), to existing legs and features an elliptical shape of 16 1/2" x 11 1/2" x 3/4" in size. The Cressida Tablet has a turning radius of 360 degrees, which accommodates any worksurface angle.

COMBINATION UPHOLSTERY

More than one upholstery cover within the same unit, is an option on all Cressida upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

MOISTURE BARRIER & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133. The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Moisture Barrier & CAL 133 is available for an upcharge of **\$44 list** per yard.

REMOVABLE AND REPLACEABLE COVERS

Cressida Lounge Chairs are available with removable seat and back covers. See page 123 for upcharges.

level® CERTIFICATION & AIR-EMISSIONS CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Zola products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR-EMISSIONS

All Zola products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

ZOLA'S RECONFIGURABILITY

Zola is designed to enable change: components are inter-changeable, reconfigurable, and replaceable. Metal to metal bracketry and frames are designed for fast, easy reconfiguring, and new components can be added at any time. Its unique leveller provides exceptional levelling capability over large spans, and on uneven floors. Heavy duty casters provide seating with mobility. Each of the 6 sample configurations shown here use exactly the same components - highlighting Zola Modular has the ability to reconfigure again and again, in a myriad of different ways. Joining bracketry is underneath seats and backs, so no surfaces are marred or damaged when connected, and re-connected.

ZOLA | FEATURES

REPLACEABILITY

Zola is built to last: its heavy-duty structure is designed for intensive use environments. When any component is damaged or degraded, it can be easily changed out on its own, instead of having to replace or repair an entire unit. Along with its use of recycled and recyclable materials, the replaceability of components means Zola can provide exceptional long term value, and be an investment in sustainability.

RECONFIGURABILITY

Zola is designed to enable change: components are inter-changeable, reconfigurable, and replaceable. Metal to metal bracketry is designed for fast, easy reconfiguring, that does not damage or degrade the product, and new components can be added and added with ease. Both backs and arms can be reconfigured to either side of the unit. Its unique leveller provides exceptional leveling capability over large spans, and on uneven floors. Heavy duty casters provide seating with mobility.

INTENSIVE USE ENVIRONMENTS

Zola has been designed for healthcare and other intensive use environments, with some important features: removable and replaceable upholstery covers, an anti-microbial finish, the option of a urethane arm cap and a standard clean-out between the seat and back. Modular construction allows for complete cleaning and disinfecting of the entire unit, and air emissions certification, make Zola an excellent solution for healthy spaces and caregiving environments. Bariatric sizes are included in the offering.

ZOLA LOUNGE & ZOLA MODULAR COMPARISON

Zola Lounge chairs are pre-assembled at Krug and cannot be reconfigured into Modular units. Arms and backs cannot be removed from the seat. Please see page 146 for Modular offering. Zola Lounge chairs cannot be used in conjunction with Zola Linking Tables.

WALL SAVER

The angle of the Zola Lounge back is designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the room. Zola upholstered chairs are built with a 1/2" clearance between the top of the back and the wall for the wall saver design. Please note wall saver is not a feature on the wood back versions.

CLEAN OUT

Zola Lounge chairs have a built-in clean out feature: a space at the back of the seat that allows dirt and debris to fall to the floor for easy clean up and maintenance. The clean out feature was designed so that it does not detract from the comfort or appearance of the product.

LEGS

The legs offered on Zola Lounge are silver metallic and come standard with glides that are adjustable up to 1.25", which provide leveling capability over longer spans.

CASTERS

Optional on the Zola Lounge are the choice of:
a) Four - 3 1/4" dia hard wheel casters, consisting of two non braking on the front, and two braking on the back. Braking casters have a large, easy access foot activation lever.
b) Two non braking casters on the back, and two legs on the front. Casters are NOT available on the Bariatric product(s)

LINKING BRACKET

Seat-to-Seat

The Zola seat-to-seat linking bracket is made of sturdy, powder-coated steel construction in a black finish. This linking bracket is fastened with metal to metal connections from the seat to another seat with hardened steel bolts to ensure exceptional durability and strength. Brackets mount underneath, and do not mar or damage the tables or seats. This feature is not available on the Lounge version.

URETHANE ARM CAP

The optional urethane arm cap provides enhanced durability and protection for the arms. Urethane arm caps are available in two color options; Grey and Taupe. The urethane arm cap is field replaceable if damaged or degraded with the assistance of a skilled upholsterer.

ANTI-MICROBIAL FINISH

Zola wood backs & tables wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of high traffic environments.

COMBINATION UPHOLSTERY

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics will be applied. When graded-in combination upholstery is selected, use the highest upholstery selected or contact Customer Service for a quote (please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote)

FULL DEPTH BENCHES

Modular Curved Benches are offered in two depths. For a flush edge when joining a Modular Curved Bench to Modular seat with back choose the Full Depth.

WEIGHT CAPACITIES

Zola weight capacities are as follows:

One-seat (Straight or curved)	- 300 lbs
One-seat bariatric	- 750 lbs
Two-seat (Straight or curved)	- 525lbs
Two-seat bariatric	- 975 lbs
Three-seat	- 750 lbs
Three-seat bariatric	- 1150 lbs

TABLETS

Optional Tablets are available on the Zola Lounge & Modular in veneer, glass, high pressure laminate and palette finishes. The Zola tablet can be fastened to the Zola Lounge & Modular chairs by the Universal Tablet Mount (mounted left or right), to existing legs and features an elliptical shape of 16 1/2" x 11 1/2" x 3/4" in size. The Zola Tablet has a turning radius of 360 degrees, which accommodates any worksurface angle. See page 148 for pricing and specification.

LINKING BRACKETS Table to Seat Bracket

The Zola table to seat bracket is made of sturdy, powder-coated steel construction in a silver metallic finish to match the legs and casters. This linking bracket is fastened with metal to metal connections from the seat to the table with hardened steel bolts to ensure exceptional durability and strength. Brackets mount underneath, and do not mar or damage the tables or seats. This feature is not available on the Lounge version.

TABLES MATERIALS OPTION

Tables are available in veneer, plastic laminate, and Palette finishes - and an optional solid surface top.

- Beech, Maple, & Cherry Veneers
- Plastic Laminate
- Plastic Laminate with Wood Veneer sides
- Palette colors
- Solid Surface Tops (Designer White D354SL)
- Anti-microbial coating
- Leveling glides on every leg

See page 317 for more information.

SOLID SURFACE TOPS

The Solid Surface Top option features Wilsonart's, Designer White D354SL, Solid Surface material: composed of minerals, acrylic resins and colors, it is a non-porous, scratch and dent-resistant material that does not stain, and does not allow microbes and bacteria to penetrate the surface. Color is throughout the material, so surface scratches are not as visible.

LINKING TABLES

Zola Linking Tables can be fastened in the field to Zola Modular and Zola Benches with the table to seat bracket without compromising the upholstery. Zola Middle tables have the ability to be easily reconfigured, as they are universal and non-handed. They can be moved to a reverse position in almost any configuration to provide a high level of flexibility when specifying.

SEAT POWERDOC

The flush-mounted PowerDoc provides dual power/USB outlets for multiple devices. It can be located on either side of the seat, or on the seat front. See page 193 for pricing.

REPLACEMENT UPHOLSTERY COVERS

Replacement upholstery covers can be easily fitted onto Zola Modular components (with the exception of Zola Curve backs) originally ordered with Removable Upholstery Covers. It is possible to use replacement covers on modular components originally ordered with standard upholstery covers, but this requires some removal of staples and other basic upholstery. Please note that the tailoring of replacement upholstery covers can be less exact and refined in appearance as original upholstery.

REMOVABLE UPHOLSTERY COVERS

Removable Upholstery Covers are available on most Zola Modular upholstered components, (with the exception of Zola Curve backs) at an upcharge. This feature allows for upholstery covers to be cleaned and disinfected, and allows them to be field-replaced with replacement upholstery covers. Please note that the tailoring of Removable Upholstery Covers can be less exact and refined in appearance than standard upholstery. Please see page 139 for the Removable Upholstery Covers upcharges.

Replacement and removeable covers, (supplied with Velcro) will tailor differently than the permanently stapled upholstery. Overall form and fit is identical, however minor dimensional build up due to the thickness of the velcro can occur. The velcro fastening build up is directed to the least noticeable face (usually the bottom edge of a component) where ever possible.

MOISTURE BARRIER & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks.

Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for **\$44 list** per yard.

ZOLA SEAM LOCATIONS

Due to the curved geometry of the upholstered backs, vertical seams are necessary for quality tailoring of the unit. Patterned Fabrics with "Distinctive details" - such as stripes, squares, straight lines and/or large details, will have noticeable changes in regards to the alignment of the patterns. 90 Degree units -both inside and outside curves are most noticeable. 60, 45 and 30 degree are also subject to this.

Approximate Dimensional Distortions on Patterns:

	Inside Curve	Outside Curve
30 Deg	1 ½"	1"
45 Deg	2"	1 ½"
60 Deg	2 ½"	2"
90 Deg	3"	2 ½"

Inside Curve
Showing colliding stripes at the lumbar portion of the back, and opening stripes at the top and bottom.

Outside Curve
Showing colliding stripes at the upper and lower portion of the back, with opening stripes at the lumbar.

DIMENSIONS

	Overall Width	Overall Depth	Overall Height	Seat Height	Height of Arms From Floor	Width Between Arms	Seat Depth	Shipping Weight	Cubes

To calculate the COM Yardage for more than 4 units, take the largest multiple (4 units) and add the closest remainder. See below for example calculations.

5 Units = Take the yardage for 4 units and add the yardage for 1 unit

6 Units = Take the yardage for 4 units and add the yardage for 2 units

7 Units = Take the yardage for 4 units and add the yardage for 3 units

8 Units = Take the yardage for 4 units and multiply by 2

9 Units = Take the yardage for 4 units, multiply by 2, add yardage for 1 unit

10 Units = Take the yardage for 4 units, multiply by 2, add yardage for 2 units

20 Units = Take the yardage for 4 units, multiply by 5

67 Units = Take the yardage for 4 units, multiply by 16, add yardage for 3 units

COMBINATION UPHOLSTERY

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics will be applied. When graded in combination upholstery is selected, use the highest upholstery selected or contact Customer Service for a quote (please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote)

ORDERING NOTES:

Please note, Zola Lounge chairs are pre-assembled at Krug and cannot be reconfigured into Modular units. Arms and backs cannot be removed from the seat. Please see page 140 for Modular offering. Zola Lounge chairs cannot be used in conjunction with Zola Linking Tables. Zola Bariatric Lounge Two-Seats and Three-Seats units have the same dimensions as the Regular Lounge Two-Seats and Three-seats. Zola Lounge chairs are not available with replacement components or covers. These options are only available on the Modular product.

FEATURES: For a complete listing of features see page 134.

For information on Zola Tables see page 317, Zola Benches see page 208 and Zola Tablets see page 148.

One-seat (Bariatric)	1.90	1.8	3.5	5.25	7	1.25	2.6	3.75	5.5

To calculate the COM Yardage for more than 4 units, take the largest multiple (4 units) and add the closest remainder. See below for example calculations.

- 5 Units = Take the yardage for 4 units and add the yardage for 1 unit
- 6 Units = Take the yardage for 4 units and add the yardage for 2 units
- 7 Units = Take the yardage for 4 units and add the yardage for 3 units
- 8 Units = Take the yardage for 4 units and multiply by 2
- 9 Units = Take the yardage for 4 units, multiply by 2, add yardage for 1 unit
- 10 Units = Take the yardage for 4 units, multiply by 2, add yardage for 2 units
- 20 Units = Take the yardage for 4 units, multiply by 5
- 67 Units = Take the yardage for 4 units, multiply by 16, add yardage for 3 units

Upcharge for Removable Upholstery Covers:

Option Upcharge	\$ List	Option Upcharge	\$ List
Arms (Right or Left)	53	One-seat seat	32
Interim Arm	42	Two-seat seat	47
One-seat back	47	Three-seat seat	58
Two-seat back	68	One-seat bariatric seat	42
Three-seat back	84		
One-seat bariatric back	53		

FEATURES: For a complete listing of features see page 134.

For information on Zola Tables see page 317, Zola Benches see page 208 and Zola Tablets see page 148.

Zola Modular Bariatric Two-Seats and Three-Seats units have the same dimensions as the Regular Modular Two-Seats and Three-seats.

COMBINATION UPHOLSTERY

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics will be applied. When graded in combination upholstery is selected, use the highest upholstery selected or contact Customer Service for a quote (please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote)

PACKAGING

All Modular Units, and tables will be shipped KD (Knocked Down)

CREDIT 7	Certified Wood (MUST BE REQUESTED)	1 point(s)

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION & AIR EMISSIONS CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Zola Privacy products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR EMISSIONS

All Zola Privacy products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Zola Privacy products can be specified with one of two types of FSC® Certification

- (a) FSC®-certified (which includes FSC®-certified lumber, veneer and substrate material)
 - (b) FSC®-mix certified (which includes substrate material only, and is a lower cost option certification)
- Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

Seat Power

When ordering Seat Power clearly indicate required location using:

A - for front center of seat

B - for left side of seat (facing)

C - for right side of seat (facing)

D - for both left and right of seat

Shelf Power

Located mid-position on the shelf surface

Table Power

Located on the front face of the table as standard.

ZOLA PRIVACY | FEATURES

REPLACEABILITY

Zola is built to last: its heavy-duty structure is designed for intensive use environments. When any component is damaged or degraded, it can be easily changed out on its own, instead of having to replace or repair an entire unit. Along with its use of recycled and recyclable materials, the replaceability of components means Zola can provide exceptional long-term value, and be an investment in sustainability.

RECONFIGURABILITY

Zola is designed to enable change: components are inter-changeable, reconfigurable, and replaceable. Metal-to-metal brackets are designed for fast, easy reconfiguring, that does not damage or degrade the product, and new components can be added and added with ease. Arms can be added and reconfigured to either side of the unit. Its unique leveler provides exceptional leveling capability over large spans, and on uneven floors.

INTENSIVE USE ENVIRONMENTS

Zola has been designed for healthcare and other intensive use environments, with some important features: removable and replaceable upholstery covers, an anti-microbial finish, the option of a urethane arm cap and a standard clean-out between the seat and back. Modular construction allows for complete cleaning and disinfecting of the entire unit, and air emissions certification, make Zola an excellent solution for healthy spaces and care-giving environments. Bariatric sizes are included in the offering.

CLEAN OUT

Zola Lounge chairs have a built-in clean out feature: a space at the back of the seat that allows liquid, dirt and debris to fall to the floor for easy clean up and maintenance. The clean out feature was designed so that it does not detract from the comfort or appearance of the product.

BACK CONNECTION

The Zola Privacy back linking connectors are made of sturdy steel construction. It is a two part bracket fastened with metal-to-metal connections. Brackets are not visible when units are linked. Linked backs can only be reconfigured in the same start/center/end positions.

Seat-to-Seat

The Zola seat-to-seat linking bracket is powder-coated steel construction in a black finish. This linking bracket is fastened with metal-to-metal connections from the seat to another seat with hardened steel bolts to ensure exceptional durability and strength. Brackets mount underneath, and do not mar or damage the tables or seats.

Table-to-Seat

The Zola table-to-seat bracket is powder-coated steel in a Silver Metallic finish to match the legs and casters. This linking bracket is fastened with metal-to-metal connections from the seat to the table.

LEGS

The legs offered on Zola Lounge are silver metallic and come standard with glides that are adjustable up to 1.25", which provide leveling capability over longer spans. Caster leg is not available.

TWIN BACK

Zola Privacy is available in unique Twin Back models for both straight and curves styles. The one piece back-to-back design provides a clean, minimal solution for space division and maximizing seating.

COMBINATION UPHOLSTERY

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics will be applied. When graded-in combination upholstery is selected, use the highest upholstery selected or contact Customer Service for a quote (please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote).

ANTI-MICROBIAL FINISH

Zola wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria.

FINISH DURABILITY

Krug's finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of high traffic environments.

WEIGHT CAPACITIES

Zola weight capacities are as follows:

One-seat (Straight or curved)	- 300 lbs
One-seat bariatric	- 750 lbs
Two-seat (Straight or curved)	- 525lbs
Two-seat bariatric	- 975 lbs
Three-seat	- 750 lbs
Three-seat bariatric	- 1150 lbs

PRIVACY SCREEN

Zola Privacy Screens are made of durable frosted acrylic and can be mounted to both mid and full height backs. Steel mounting hardware enables screens to be replaced in the field.

TABLET

Optional Tablets are available in veneer, glass, laminate and palette finishes. See page 148 for additional information. The Zola can be fastened by the Universal Tablet Mount (mounted left or right), to the single Zola leg, it is not able to mount on the Zola shared leg. The Zola Tablet has a turning radius of 360 degrees. Solid surface is available, contact Customer Service for pricing.

TABLES

Tables are available in veneer, high pressure laminate, Palette finishes - and an optional solid surface top. An optional flush-mounted Table PowerDoc provides dual power/USB outlets for multiple devices and is located on the front face of the table as standard. See page 317.

URETHANE ARM CAP

The optional urethane arm cap provides enhanced durability and protection for the arms. Urethane arm caps are available in two color options; Grey and Taupe. The urethane arm cap is field replaceable if damaged or degraded with the assistance of a skilled upholsterer.

SHELVES & POWERDOC

Back-mounted shelves can be specified in either 30", 36" or 42" and are available in veneer, laminate and Palette finishes (Solid surface overlay also available - contact customer service) The surface-mounted Shelf PowerDoc provides dual power/USB outlets for multiple devices.

SEAT POWERDOC

The flush-mounted PowerDoc provides dual power/USB outlets for multiple devices. It can be located on either side of the seat, or on the seat front.

SIDE PANELS

An alternative to arm panels, Side Panels can be specified (in either of two heights) on the ends of configurations to provide an additional degree of privacy and enclosure, and a resting corner position for users - a beneficial element in study, work and waiting area settings.

REPLACEMENT UPHOLSTERY COVERS

Replacement upholstery covers can be easily fitted onto Zola Modular components (with the exception of Zola Curve backs) originally ordered with Removable Upholstery Covers. It is possible to use replacement covers on modular components originally ordered with standard upholstery covers, but this requires some removal of staples and other basic upholstery. Please note that the tailoring of replacement upholstery covers can be less exact and refined in appearance than original upholstery.

REMOVABLE UPHOLSTERY COVERS

Removable Upholstery Covers are available on most Zola Modular upholstered components, (with the exception of Zola Curve backs) at an upcharge. This feature allows for upholstery covers to be cleaned and disinfected, and allows them to be field-replaced with replacement upholstery covers. Please note that the tailoring of Removable Upholstery Covers can be less exact and refined in appearance than standard upholstery. Please see page 16 for the Removable Upholstery Covers upcharges.

Replacement and removeable covers, (supplied with Velcro) will tailor differently than the permanently stapled upholstery. Overall form and fit is identical, however minor dimensional build up due to the thickness of the Velcro can occur. The Velcro fastening build up is directed to the least noticeable face (usually the bottom edge of a component) where ever possible.

MOISTURE BARRIER & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks.

Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for **\$44 list** per yard.

level® CERTIFICATION & AIR-EMISSIONS CERTIFICATION

level® CERTIFICATION
BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Zola products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR-EMISSIONS
All Jordan products are supplied air-emissions certified. Contact customer service for information.

FSC®
In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

Removable Seat Covers - one seat	110	Removeable Back Covers - Two Seat	221
Removable Seat Covers - two seat	221	Removeable Back Covers - Three Seat	331
Removable Seat Covers - three seat	331	Designer White -D354SL Solid Surface Arm Cap	193

WEIGHT CAPACITIES

Jordan weight capacities are as follows:

One -Seater - 350 lbs
Two- Seater - 525 lbs
Three - Seater - 750 lbs

JORDAN | LOUNGE FEATURES & OPTIONS

CLEAN OUT

Jordan lounge seating models have a built-in clean out feature: a space at the back of the seat that allows dirt debris and liquid to be forced through and fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

GLIDES

Jordan Lounge is available with two options for glides - the stainless steel glide, or the white nylon glide. The white nylon glide is ideal on flooring that is easily marked. The stainless comes standard unless the white nylon glide is specified when ordering.

FULL URETHANE ARMS

Jordan full urethane arms have a soft outer skin that enhances comfort and provides excellent grip for safety of ingress and egress. They are highly durable, easy to clean and maintain, and will retain a like-new look even with intensive use. They are available in three colors; Taupe, Grey and Black.

LEGS

Jordan Lounge are available with wood legs - in either Beech or Maple, as well as in three urethane color options; Black, Grey and Taupe. Two options exist for glides on the Jordan Lounge. The white nylon glides are ideal for use on flooring that is easily marked. The stainless steel glides should be utilized for all other types floor surfaces.

DESIGNER WHITE -D354SL SOLID SURFACE ARM CAP

Jordan Lounge is available with an optional Solid surface arm cap for an up charge of **\$193 list** per chair. The Solid Surface Arm Cap is field replaceable.

ANTI-MICROBIAL FINISH

Jordan wood surfaces come with a uniquely-formulated anti-microbial finish that inhibits the growth of molds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:
One -Seater - 350 lbs
Two- Seater - 525 lbs
Three - Seater - 750 lbs

CUSTOM CAPABILITIES

Modifications in dimension, seat and back shape or thickness, and other modifications are possible with Krug's capability to customize for specific requirements and needs. We can also provide custom finishes.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

REPLACEABLE COMPONENTS

Jordan Lounge chairs are uniquely designed to allow virtually all major components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Seats, backs and Arms are field replaceable. Pricing and model numbers can be viewed online at www.krug.ca.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

OPTIONS

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

MOISTURE BARRIER & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$772 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Moisture Barrier & CAL 133 is available for an upcharge of **\$44 list** per yard.

REMOVABLE AND REPLACEABLE COVERS

Jordan Lounge Chairs are available with a Removable Seat & Back Covers. See page 199 for upcharges.

ADDITIONAL FEATURES

- Lifetime warranty
- air-emissions certified
- Spring seat construction, providing exceptional comfort and longer life for seat foam.
- Mortise and tenon frame construction, for optimal strength in wood joinery.
- Jordan sets a new standard for comfort and ergonomics in healthcare seating. Designed for ergonomically-correct posture and long-term sitting comfort, with contoured back and seat molds. Multi-density foam, provides lumbar, thoracic and pelvic support, while encouraging a healthy sitting posture.
- Large, rounded arms provide support for safe and easy ingress and egress.
- Certified to meet CTB 133/ ASTM E-1537 with appropriate fabrics

TATE BENCHES | FEATURES

COMMERCIAL DISCOUNT APPLIES TO THESE PRODUCTS

STYLE

Tate Benches feature three design styles; Fully Upholstered, Gable End and Table End.

Fully Upholstered

Gable End

Tate Benches gable ends are 2" wide x 20" deep x 6" high on standard depth units and 2" wide x 25" deep x 6" high on deep seat units

Table End

Tate Benches table ends are 10" wide x 20" deep x 6" high on standard depth units and 10" wide x 25" deep x 6" high on deep seat units.

LEGS

Tate Benches legs feature polished chrome structural steel legs with non-marring glides.

REPLACEABLE COMPONENTS

Tate Benches are uniquely designed to allow major components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Gable ends, table ends and legs are field replaceable.

WEIGHT CAPACITIES

Tate Benches have the following maximum weight ratings:

2 seater - 975 lbs

3 seater - 1,200 lbs

ANTI-MICROBIAL FINISH

Tate Benches wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of high traffic environments.

OPTIONS

Removable Covers

Optional Removeable covers can be quickly installed on Tate Benches products that were originally ordered with the Removable cover option. Replacement covers can also be installed on Tate Benches products that were not originally ordered with the Removable cover option, with some simple staple removal.

CAL 133 & Moisture Barrier

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method which, in combination with non-flammable upholstery covers, may enable the products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133. CAL 133 and Moisture Barrier are available for an upcharge of **\$44 list** per yard.

The application of this upcharge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL 133 compliant. If official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of product and upholstery have already been tested. Please contact Customer Service for additional information.

veneers & finishes

WOOD FINISHES

Standard wood finishes are:

SPECIES	FINISH
OAK	Light Oak
	SilverGrey on Oak
	Espresso Oak
MAPLE	Clear Maple
	Wheat Maple
WALNUT	Natural Walnut
	SilverGrey on Walnut
	Regular Walnut
	Dark Walnut

PALETTE FINISHES

- Black
- White
- Sand
- Soft Green
- Steel Blue
- Slate

veneers

Tate Benches veneers are quarter cut, except for White Oak, which is rift cut - both quarter cut and rift cut veneers provide a straight grain appearance. The grain direction of the veneers on vertical faces is horizontal.

NON-STANDARD VENEER SPECIES

In addition to range of standard wood species, Tate can be made with virtually any commercially available veneers. Please contact customer service for information and pricing on wood species not included in Tate's standard offering.

NATURAL CHARACTERISTICS OF WOOD

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

CUSTOM WOOD FINISHES

Add 10% list to your order for special finishes, minimum upcharge is \$500 list per finish per order. (For example, on all orders up to \$5000 list, an upcharge of \$500 will apply, on orders \$5000 and up add 10% list to your order.)

For orders with special finishes, a sample that is a minimum 3" by 3" must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

ENDURAGUARD FINISH

Tate Benches features the Krug Enduraguard finish, a proprietary catalyzed varnish formulation, that has repeatedly shown through independent laboratory testing to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors and is uniquely suited to the demands of high traffic environments.

ZOLA | LEED CI CREDIT SUMMARY

ZOLA

	CONTRIBUTES TO	
CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials, Systems & Seating	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood (MUST BE REQUESTED)	1 point(s)

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION
BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Zola Bench products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR EMISSIONS
All Zola Bench products are supplied air emissions-certified. Contact customer service for information.

FSC®
In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

ZOLA | MODULAR & MODULAR BARIATRIC BENCH STANDARD DEPTH

DIMENSIONS

	Overall Width	Overall Depth	Overall (Seat) Height	Shipping Weight	Cubes
One-seat	23	22.25	18.5	28	5.2
Two-seat	46	22.25	18.5	48	9.4

JORDAN | LEED CI CREDIT SUMMARY

JORDAN BENCHES

CONTRIBUTES TO		
CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.2	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials, Systems & Seating	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood (MUST BE REQUESTED)	1 point(s)

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION, AIR-EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION
BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Jordan products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR-EMISSIONS
All Jordan products are supplied air-emissions certified. Contact customer service for information and upcharges.

FSC®
In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

In addition, architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Jordan Benches are available with a **Moisture Barrier & CAL 133** for an upcharge of **\$44 list** per yard.

21" Jordan Bench is available with **Removeable Seat Covers** option for an upcharge of **\$72 list** per seat.

24" Jordan Bench is available with **Removeable Seat Covers** option for an upcharge of **\$79 list** per seat.

30" Jordan Bariatric Bench is available with **Removeable Seat Covers** option for an upcharge of **\$100 list** per seat.

48" Jordan Bench is available with **Removeable Seat Covers** option for an upcharge of **\$108 list** per seat.

72" Jordan Bench is available with **Removeable Seat Covers** option for an upcharge of **\$186 list** per seat.

Replacement seat covers can be quickly installed on Jordan products that were originally ordered with the Replaceable cover option. Replacement seat covers can also be installed on Jordan products that were not originally ordered with the Replaceable cover option, with some simple staple removal on the original seat.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:

21" & 24" Bench - 350 lbs

30" Bench - 750 lbs

48" Bench - 525 lbs per unit

72" Bench - 750 lbs per unit

Jordan **replacement parts** can be viewed on-line at www.krug.ca

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Carlyle Bench products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

FSC
www.fsc.org
FSC® C021699

The mark of responsible forestry

AIR EMISSIONS

All Carlyle Bench products are supplied air emissions-certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

ORDERING NOTES: Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote - please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Removable Back Cover	95	Patient Transfer Arm	620

JORDAN | ACTIVE PATIENT RECLINER FEATURES

INDEPENDENT BACK & OTTOMAN MECHANISMS

Two independent mechanisms provide a greater range of function and positions for the Active Patient Recliner: the back can be upright or reclined, independent of the ottoman which can be closed or extended separately from the back.

OTTOMAN ACTIVATION

The adjustment lever is situated to allow both the user and the caregiver to safely operate the ottoman function of the mechanism. The ottoman is generously padded for comfort, and can be given added protection with the optional Ottoman Protective Cover.

BACK ACTIVATION LEVER

The Active Patient Recliner comes with the back adjustment lever which creates an infinite number of back adjustments within the chair. The back adjustment lever comes in a black plastic finish, and is located on the left hand side (when facing the chair) and on the caregiver side of the arm.

ARM OPTIONS

Arms have urethane arm caps. The textured urethane provides enhanced durability and protection for the arms and is available in three color options; Black, Grey and Taupe. Please specify color when ordering. The urethane arm cap is field replaceable if damaged or degraded.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

WEIGHT RATINGS

The Active Patient Recliner has a maximum weight rating of 350 lbs, under normal use (i.e. no excessive force in the use of the product). The ottoman mechanism itself will accept weight to a maximum of 60 lbs (above which it will drop down). The ottoman is designed as a leg rest only, and not designed to accept sitting or standing.

JORDAN | ACTIVE PATIENT RECLINER OPTIONS

PUSH BAR

The optional push bar is ergonomically designed to assist care-giving staff in the movement and operation of the recliner, and reduce back strain on the caregiver.

PATIENT TRANSFER ARM

The Patient Transfer Arm is designed to fold down where the arm is level with the chair seat. This design allows the caregiver to easily transport patients from the chair to bed or wheelchair. The arm is folded down by accessing the adjustment lever at the side of the chair. The Patient Transfer Arm can only be specified in a right handed position based on facing the unit.

IV POLE & HOLDER

The IV Pole is height adjustable (in a range of 27"), and can be added in the field. It can be located in three locations (left back only or right front or back as facing) - if ordered with the recliner, the location must be specified at time of order.

COMBINATION UPHOLSTERY OPTION

When combination upholstery is required with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote - please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

SWING AWAY TABLET

The Swing Away Tablet (24" x 14 3/4" x 3/4") is designed to be easily operated by the caregiver or user. The break away design allows for the tablet to be easily pushed away from the user in an emergency to gain quick access to the patient. The tablet has the ability to swing up and fold over and rotates 180 degrees. The kidney-shaped design is ideal for use as an eating, writing or work surface. The Swing Away Tablet is specified right handed based on a position facing the unit.

REMOVABLE COVERS AND REPLACEMENT COMPONENTS

Active Patient Recliners are available with Removable Seat Covers for an upcharge of \$84 list per seat. Active Patient Recliners are available with Removable Back Covers for an upcharge of \$95 list per back. Removable seat and back covers can be quickly installed on products that were originally ordered with the Removable Cover Option. Removable seat and back covers can also be installed on products that were not originally ordered with the Removable Cover Option, with some simple staple removal on the original seats and backs.

FLIP UP TABLET

The Flip Up Tablet's size is 18" x 14" x 3/4", and it is located on the right side based on a position facing the unit. It is available in Beech and Maple Veneer, as well as Plastic Laminate with a Polymer edge. It folds flat (protruding 3" from the side of the recliner when flat).

THERMAL COMFORT

Providing warmth to patients undergoing chemotherapy and other treatments can be vitally important. Thermal Comfort is operated with a hand-held controller located on the inside of the arm. It provides two heat zones: one in the seat and one in the back. Back and seat zones can be controlled independently, at a high or low heat setting. Thermal Comfort features a safety time-out that automatically shuts off heat after 30 minutes of use. Access to a 110/120 volt, 15 amp(min) electrical outlet is required. The upcharge for Thermal Comfort is \$645 list.

CASTERS

Four heavy-duty 3" diameter soft wheel casters are standard on the recliner. The front casters are inline and locking; the rear casters are swivel and not visible. This combination provides a noticeable and user-friendly ease of steering when the recliner is being moved. Casters are field-replaceable if damaged.

OTTOMAN PROTECTIVE COVER

This optional clear protective cover is sewn into (and over top of) the lower portion of the upholstered ottoman, providing a layer of protection from marring and damage caused by footwear, cleaning and medical equipment, etc. It has an anti-fog additive to maintain clarity, and is resistant to cleaning solutions.

MOISTURE BARRIER & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133. The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$735 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Moisture Barrier & CAL 133 is available for an upcharge of **\$44 list** per yard.

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Jordan products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR-EMISSIONS

All Jordan Recliner products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Jordan and other Krug products can be specified with FSC® Certification

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

JORDAN | RECLINER FEATURES

RECLINER - 3-POSITION MECHANISM

This mechanism provides 3 distinct user positions: Position A - Seated with feet on the floor, footrest in down (closed) position. Seat-back angle is 104 degrees, and the back is reclined 20 degrees from vertical. Position B - Footrest is fully extended, back is in mid-position. Seat-back angle remains at 104 degrees, and the back is 25 degrees from vertical. Position C - Full recline with footrest fully extended. Seat-back angle is opened to 125 degrees, and the back is 45 degrees from vertical.

RECLINER - 3-POSITION MECHANISM WITH TRENDELENBERG

This mechanism provides the same positions described above, as well as the additional Trendelenberg position: full recline with footrest fully extended, seat-back angle remains at 125 degrees, but the back is now 65 degrees from vertical - resulting in the feet being above the head. It is activated by a foot-release lever that is accessible from either side of the recliner. Not available on Bariatric Recliners.

BARIATRIC & SLEEP RECLINERS

This mechanism provides Infinitely Adjustable positions: Position A - Seated with feet on the floor, footrest in down (closed) position. Seat-back angle is 102 degrees. Position B - Footrest is fully extended, without compromising the upright position of the back. The seat-back angle remains at 102 degrees. Position C - is the range of infinite adjustability from the seated position of 102 degrees back angle to the fully reclined position at 133 degrees. The Infinitely Adjustable Back angle can be locked in any position with the back adjustment lever that goes to a maximum of 133 degrees when fully extended. For the Sleep Recliner the maximum range increases to 175 degrees. The Jordan Recliner Infinitely Adjustable Mechanism is warranted for one year after purchase.

FOOTREST LEVER

(Bariatric & Sleep Recliner Only)

Jordan Sleep Recliner comes with the footrest lever, which extends and closes the built-in footrest. The footrest lever comes in a powder-coated finish to match the casters. The standard position when ordering is a left hand position based on facing the unit, unless specified otherwise.

ENHANCED CUSHIONING

The Jordan Recliners have been upgraded with a softer seat, a more pronounced headrest, and contoured back shaping for improved support. These enhancements, along with the addition of dual-density foam, make these recliners the leader in patient comfort.

PUSH BAR

This is a standard feature on the Jordan recliner when ordered with casters. Ergonomically designed to assist care-giving staff in the movement and operation of the recliner, and reduce back strain on the caregiver.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

ARM OPTIONS

Arms are available in wood, wood with urethane arm cap or full urethane. The urethane provides enhanced durability and protection for the arms and is available in three color options; Black, Grey and Taupe. The urethane arm cap is field replaceable if damaged or degraded.

LEGS

Jordan Recliners are available with wood legs - in either Beech or Maple, as well as in three urethane color options; Black, Grey and Taupe. Two options exist for glides on the Jordan Recliners. The white nylon glides are ideal for use on flooring that is easily marked. The stainless steel glides should be utilized for all other types floor surfaces. The stainless steel glide is provided when ordering the Jordan Recliners unless the white nylon glide is specified. The white nylon glide is available at the same price as the stainless steel option.

BACK ADJUSTMENT LEVER

(Bariatric & Sleep Recliner Only)

The Jordan Sleep Recliner comes with the back adjustment lever which creates an infinite number of back adjustments within the chair. The back adjustment lever comes in a black plastic finish on the caregiver side. The standard position when ordering is left hand based on a position facing, the unit, unless specified otherwise.

HIGH DURABILITY MECHANISM

Jordan Recliner mechanisms are designed for high-traffic, intensive use in care-giving environments. They are built with high-strength steel, and include Delrin™ wear pads between moving components for added smoothness and longevity.

REMOVABLE COVERS AND REPLACEMENT COMPONENTS

Jordan Recliner and Sleep Recliners chairs are available with Removable Seat Covers for an upcharge of \$80 list per seat. Jordan Recliner and Sleep Recliners are available with Removable Back Covers for an upcharge of \$90 list per back. Jordan Bariatric Recliner chairs are available with Removable Seat Covers for an upcharge of \$95 list per seat. Jordan Bariatric Recliner chairs are available with Removable Back Covers for an upcharge of \$125 list per back.

Removable seat and back covers can be quickly installed on Jordan products that were originally ordered with the Removable cover option. Removable seat and back covers can also be installed on Jordan products that were not originally ordered with the Removable cover option, with some simple staple removal on the original seats and backs.

CASTERS

The standard caster is 4" in diameter, softwheel, full swivel, with a lock that in a single action locks both the swivel and rotation of the caster. The Central Locking caster has the same features, with a hooded design.

CLEANING & INFECTION CONTROL

Specifically designed to ease the cleaning and disinfection of the recliner and the floor underneath. Upholstery covers can be made removable, and individual components are automatically removable, to enable thorough cleaning and disinfection.

JORDAN | RECLINER OPTIONS

FOLEY HOOK

This recessed, retractable hook system provides a mounting system for catheter bags. It is spring-loaded to automatically retract when not in use, to eliminate any hazard.

IV POLE & HOLDER

The Jordan IV Pole is height adjustable (in a range of 27"), and can be added in the field. It can be located in any of four locations (left or right, front or back) -if ordered with the recliner, the location must be specified at time of order.

CUSHIONED ARMREST

The Cushioned Armrest was designed to maximize patient comfort during infusion treatments. The extra padded and wider arms provide comfort and support over long periods of time. Arms can be ordered in Krug standard healthcare rated gray vinyl or in coordinating textiles.

FLIP UP TABLET

The tablet's size is 18" x 14" x 3/4", and it can be located on either side of the recliner (must be specified if being ordered with the recliner). It is available in Beech and Maple Veneer, as well as Plastic Laminate with a Polymer edge. It folds flat (protruding 3" from the side of the recliner when flat). Please specify whether a right-handed or left-handed position is needed when ordering. Tablet must be mounted on the opposite side when a Patient Transfer Arm is ordered.

SWING AWAY TABLET

The Swing Away Tablet (24" x 14 3/4" x 3/4") is designed to be easily operated by the caregiver or user. The Break Away design allows for the tablet to be easily pushed away from the user in an emergency to gain quick access to the patient. The tablet has the ability to slide up and fold over and rotates 180 degrees. The kidney-shaped design is ideal for use as an eating, writing or work surface. The Footrest activation lever is specified either left or right handed based on a position facing the unit and opposite to where the tablet appears.

PATIENT TRANSFER ARM

The Patient Transfer Arm is designed to fold down where the arm is level with the chair seat. This design allows the caregiver to easily transport patients from the chair to bed. The arm is folded down by accessing the adjustment lever at the side of the chair. The Patient Transfer Arm is specified in a right or left handed position based on facing the unit. Please note, the Patient Transfer Arm cannot be located on the same side as IV Poles or the footrest lever or tablets.

FOOT TRAY

This option provides a concealed, pull-out tray to assist patients with ingress and egress. It features a non-slip tread and dedicated casters that prevent tipping when standing on the tray.

THERMAL COMFORT

Providing warmth to patients undergoing chemotherapy and other treatments can be vitally important. Thermal Comfort is an option available on all Jordan Recliners, and features a hand-held controller located on the inside arm of the recliner. It provides two heat zones: one in the seat and one in the back. Back and seat zones can be controlled independently, at a high or low heat setting. Controls are conveniently placed for the user to access and include a safety time-out feature after 30 minutes. Access to a 110/120 volt, 15 amp(min) electrical outlet is required. The upcharge for the Thermal Comfort is \$645 list.

CENTRAL CASTER LOCKING SYSTEM

Allows for single action locking of all four casters at one time. Casters are locked both directionally and rotationally, keeping the recliner in place when locked. Color coded external foot pedal (Red for lock, Green for unlocked) is mounted at the rear outside of the arm. Unless requested otherwise the foot pedal is on the bottom of the Left hand (facing) arm. Central locking casters are 4" diameter with soft wheel treads. Recliner Central Locking System is available for an upcharge of \$750 list.

COMBINATION UPHOLSTERY OPTION

(more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

MOISTURE BARRIER & CAL 133 OPTION

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Moisture Barrier & CAL 133 is available for an upcharge of \$44 list per yard.

PRE-CONSUMER
RECYCLED CONTENT = 9.0%

POST-CONSUMER
RECYCLED CONTENT = 10.5%

CONTRIBUTES TO

CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials, Systems & Seating	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood (MUST BE REQUESTED)	1 point(s)

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION & AIR-EMISSIONS CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Jordan products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR-EMISSIONS

All Jordan products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Jordan and other Krug products can be specified with FSC® Certification

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

CLEAN OUT

Jordan Glider seating models have a built-in clean out feature: a space at the back of the seat that allows dirt, debris and liquid to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

STEEL SEAT FRAME

The structural seat frame is made from welded steel with a powder-coated finish that allows Jordan Glider to well exceed ANSI/BIFMA standards.

METAL-TO-METAL CONNECTIONS

Steel seat frames are joined to other components, in Jordan Glider products, with hardened steel bolts and inserts, ensuring exceptional durability and strength, and easy reconfigurability, as well as on-site replacement of damaged or degraded components.

WALL SAVER DESIGN

The angle of the back and the rear legs are designed to keep the back away from the wall, in a locked position, to prevent wear and damage to both the chairs and to the walls of the facility.

ANTI-MICROBIAL FINISH

Jordan wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

URETHANE ARM CAP

The optional arm cap provides enhanced durability and protection for the arms. This is field removable if this becomes damaged or degraded.

DESIGNER WHITE -D354SL SOLID SURFACE ARM CAP

Jordan Glider is available with an optional Solid surface arm cap for an up charge of \$193 list per chair. The Solid Surface Arm Cap is field replaceable.

HEADREST

The headrest has a dual density foam for both comfort and support, and can be upholstered in matching or contrasting material. It is removable to allow for cleaning and replacement.

HORIZONTAL MOTION

The Jordan glider is designed to move the patient in a smooth, flat arc that is gentle, soothing and safe. The position of the feet is maintained on the floor throughout the glider motion, rather than being raised up down in a rocking motion.

TWO WIDTHS

21" and 24" widths are offered, allowing flexibility in accommodating patients of different sizes, and providing for the comfortable use of bolsters, pillows and other means of support for the patient.

MECHANISM

The mechanism is both replaceable in the field, and features a locking function so the glider can be used as a fixed chair.

REMOVABLE UPHOLSTERY COVERS

The seat and back covers can be specified to be removable, allowing for cleaning and repair, or replacement.

REMOVABLE AND REPLACEABLE COMPONENTS

All of the components - the seat, back, the arms, the arm cap, and the mechanism can be removed for cleaning, and replaced if damaged. Replacement Parts can be viewed on line at www.krug.ca.

RECESSED FRONT PANEL

The Glider's front panel has an attractive arc that serves an important function: to provide safer ingress and egress by allowing the patient to get their feet underneath their weight. This is augmented by arms that have been designed as softly rounded hand-holds, to safely and comfortably support the weight of the patient while entering and exiting the chair.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:
Glider - 350 lbs

OPTIONS

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Moisture Barrier & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$772 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Moisture Barriers & CAL 133 is available for an upcharge of **\$44 list** per yard.

Note: Some vinyls, leathers & upholsteries are not suitable for application on Jordan seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.
For Maharam or Momentum, Krug will obtain the upholstery cover sample.
2. The sample will be reviewed and the customer advised if the upholstery cover is unsuitable.
3. The COM upholstery cover or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

level® CERTIFICATION & AIR-EMISSIONS CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Amelio products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR-EMISSIONS

All Amelio products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Amelio and other Krug products can be specified with FSC® Certification

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

NOTE: Some vinyls, leathers and upholsteries are not suitable for application on Amelio seating.

The COM approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.
2. The sample will be reviewed and the customer advised if the upholstery cover is unsuitable.
3. The COM upholstery cover or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

COMBINATION UPHOLSTERY OPTIONS

When ordering combination upholstery or using COM fabric, please use the following fabric placement reference guide. Simply make a copy, note the fabrics and send in with the order

The Outer Back upholstery supplied is a latex-free gray colored vinyl , a high-durability polyester fabric with a vinyl backer, designed to withstand impact and helps prevent the passage of moisture.

Amelio Sleep Sofa was designed for use with all floorplans, even the most challenging spaces. The Amelio Sleep Sofa is available in custom sizes in 1" increments between the size range of 68" - 84", please use next size up for pricing when ordering 10 or more units. For non-standard sizes in quantities less than 10 units or for other customization of Amelio, please contact Customer Service to obtain a special quote.

The flip-down sleep surface instantly transforms this sofa into a full-length sleeper, without encroaching at all on the footprint of the room, and without any mechanical operation. Sleep surface cushions are held in place with accessible straps - so that they are removable for cleaning and repair, but the cushions will stay in place when the unit is in use.

The Amelio Sleep Sofa unique construction and design provides comfortable daytime seating elements for guests. The split back design provides versatile sleeping options, one back section can be folded to create a parent supervised sleeping surface for a child or the complete back can be folded to accommodate overnight visitors.

AMELIO | SLEEP SOFA FEATURES

FOLD DOWN SLEEPING SURFACE

The Amelio Sleep Sofa creates a sleep surface that does not impede the footprint of the patient room. The back cushions fold down and lay flat on the seating surface to create a comfortable sleeping surface. For ease of cleaning and infection control, the sleep surface is upholstered with a healthcare-rated gray vinyl and features a standard moisture barrier on the cushion's surface and sides. Back/sleep cushions are attached to the sleep sofa to prevent loss of cushions.

LEGS

The Amelio Sleep Sofa has the option of 2" round steel or wood legs. All sofa sizes features a center leg for additional support and strength. An adjustable glide is standard on all legs. This helps ensure the furniture is steady and level on uneven floors.

PLINTH

This base comes in standard Silver Metallic, or custom colors. It is designed to help prevent dirt, debris and liquids from accumulating under the sofa sleeper. It is removable and replaceable in the field, or can be added subsequently to units with steel legs.

CASTERS

4" Casters are available on the Amelio sleep sofa and feature five soft wheels, which lock and include an easy access foot activation and release lever. The casters can be locked both directionally and rotationally, keeping the sofa sleeper securely in place when locked.

ARMED & ARMLESS VERSIONS

The Amelio Sleep Sofa comes available in either an armed or armless version. Arms can be added to armless units in the field. Armed versions are available with Upholstered Arm, Upholstered Arm with Urethane Cap or Upholstered Arm with Wood Cap.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

AMELIO | SLEEP SOFA FEATURES

CLEAN OUT

A 5/8" space between the top of the seat and bottom of the back provide a clean out, for dirt and debris to fall or be swept into, going directly to the floor. The storage compartment also features vented bottoms that perform the same function.

RAISED OFF THE FLOOR

Ample space (5.5", plus up to .5" of glide adjustment) between the bottom of the unit and the floor is designed to enable easier cleaning of the floor underneath.

STORAGE COMPARTMENT

An optional under-seat storage compartment features a cleanable interior surface with a vented plastic bottom, with a clean-out for debris and liquids. The spring-assisted, stainless steel mechanism holds the seat in the upright position to provide safe access

URETHANE ARM CAP

The optional urethane arm cap provides enhanced durability and protection for the arms. This component is field replaceable if it becomes damaged or degraded. Urethane arm caps are made with anti-microbial technology throughout the arms, so the anti-microbial properties are retained even if an arm is damaged on the surface.

WOOD ARM CAP

The optional Wood arm cap helps to create a warm and inviting environment. Wood arm caps are field replaceable if they become damaged or degraded. The wood arm cap is provided with a standard anti-microbial Enduraguard finish.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be an industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

ANTI-MICROBIAL FINISH

Amelio wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria.

HEAVY DUTY HARDWARE & CONNECTIONS

High strength steel mechanisms are joined to other components in Amelio Sofa sleeper product with hardened steel bolts and metal inserts, ensuring exceptional durability, strength and on-site replacement of damaged or degraded components.

REPLACEABLE COMPONENTS

Healthcare furnishings are constantly subjected to intensive use, and even damage. Amelio Sofa sleepers are uniquely designed to allow virtually all major components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Seats and Sleep surface cushions are removable (for repair and cleaning), and replaceable, as are legs, casters, arm panels, arm caps, front panels and storage mechanisms.

OPTIONS

COMBINATION UPHOLSTERY OPTIONS

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$22 list** per unit and **\$44 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest upholstery grade or contact customer service for a quote. Please provide the fabric specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

CAL 133 & MOISTURE BARRIER

The sleep surface cushions are supplied with a standard moisture barrier applied to the top and sides of the foam cushions. CAL 133 and Moisture Barriers are available on the complete unit, please see upcharges in ordering notes. California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method which, in combination with non-flammable upholstery covers, may enable the products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this upcharge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL 133 compliant. If official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$772 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of product and upholstery have already been tested. Please contact Customer Service for additional information.

WEIGHT CAPACITY

Amelio Sleep Sofa has been load tested to 525 lbs.

AMELIO | REMOVABLE SLEEP SURFACE & SEAT CUSHIONS

Amelio backs are standard with a zipper allowing access to the sleep surface cushion straps. These straps are released by simply peeling back the velcro holding them in place.

Removable upholstery cover options on seats and sleep surface cushions, to allow cleaning, repair and replacement. When ordering removable seat covers at time of order, the upcharge is **\$161 list** per seat. Removable Sleep Surface covers are a standard product feature.

Replacement Seat and Sleep Surface Cushion Covers are field replaceable and can be ordered anytime after purchase for the following list prices:

DESCRIPTION/MODEL	COM			COL	FABRIC GRADES				LEATHER	
	Only	1	2	3	4	5	6	7	8	9
Replacement Seat Cover	347	492	564	636	781	925	1069	1214	1358	1647
Replacement Sleep Surface Cushion Cover	530	675	746	819	964	1108	1252	1397	1541	1830

AMELIO | ANTI-MICROBIAL

Amelio Sleep Sofas are designed for environments where infection control is a priority, with several components featuring anti-microbial technology that inhibits the growth of germs and pathogens. Wood surfaces are coated in an anti-microbial finish, and Urethane caps have anti-microbial treatment through the entire component, so it will remain effective even if the arm is damaged.

AMELIO | SLEEP SURFACE CLEANING

Amelio Sleep Sofas are standard with healthcare-rated gray vinyl sleep surface. It is easily cleanable and acts as a moisture barrier on the top of the sleep surface. Sleep surfaces can be cleaned with warm water and mild soap. Water diluted to a maximum of 25% bleach and other intensive cleaning solutions (Virucide, accelerated peroxide) such as PerCept RTU, Zolvex, Clorox Wipes, Alpha HP and Virox can be used without affecting the color or integrity of the vinyl. All cleaning products should be applied with a cloth, sponge or soft bristle brush.

AMELIO | CONVERSION FROM SOFA TO SLEEPER

The Amelio Sleep Sofa creates a sleep surface that does not impede the footprint of the patient room. The sleep surface cushions simply fold down to create a comfortable sleep surface. For sleep surface dimensions, please see page 250.

LEED CI CREDIT SUMMARY

JORDAN LOUNGE SLEEPERS

MATERIAL CONTENT:

PRE-CONSUMER
RECYCLED CONTENT = 5.49%

POST-CONSUMER
RECYCLED CONTENT = 40.69%

Up to 42.44% of this Jordan Lounge Sleepers product is recyclable at the end of its useful life.

CONTRIBUTES TO		
CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.2	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials, Systems & Seating	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood (MUST BE REQUESTED)	1 point(s)

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION & FSC CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Jordan Lounge Sleepers products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Jordan Lounge Sleepers and other Krug products can be specified with FSC® Certification

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

NOTE: Some vinyls, leathers and upholsteries are not suitable for application on Jordan seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.
2. The sample will be reviewed and the customer advised if the upholstery cover is unsuitable.
3. The COM upholstery cover or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

One-Seat Lounge Sleepers

Two-Seat Lounge Sleepers

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded-in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:

Jordan One-Seat Lounge Sleepers is load rated to 350 lbs.

Jordan Two-Seat Lounge Sleepers is load rated to 525 lbs.

For a complete listing of features see page 258.

JORDAN | LOUNGE SLEEPERS FEATURES

HIGH DURABILITY MECHANISM

This product features a heavy-duty mechanism, made with heavy gauge steel and minimal moving parts - its designed to last, and is backed by a 5-year warranty on the mechanism itself, in addition to the lifetime warranty on the rest of the product. If it does become damaged or degraded, the mechanism can be field-replaced.

REMOVABLE & REPLACEABLE UPHOLSTERY & COMPONENTS

Seat, back and ottoman upholstery covers can be specified as removable, so they can be removed for cleaning, or replacement. The mechanism, casters, front kickplate, arm panels and caps - as well as seat, back and ottoman cushions - are field-replaceable if damaged or degraded - so the life of this product can be extended indefinitely, and made to look good as new.

COMFORTABLE SLEEP SURFACE

A new, enhanced sleep surface is 87" in length, providing exceptional range to stretch out in comfort, with supportive cushioning that is specifically designed for sleeping.

CUSTOM SIZING

Patient rooms can often have specific dimensional limitations, and so we have created the capability for custom sizing, which can typically be quoted within a width range of 24"-58". Other customization is possible also - just tell us what you need!

CHAISE/OTTOMAN POSITION

In addition to the sitting and sleep positions, this position allows the user to sit (or even sleep) in comfort with legs elevated and supported.

FINISH DURABILITY

Krug's finish is a catalyzed varnish formulation that has been repeatedly shown, through independent laboratory testing, to be an industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

EASY OPEN AND CLOSE

The sleeper is extended easily to either position, using a pull handle that is neatly tucked away when not in use. The sleeper can be quickly closed by raising the back, and then lowering the ottoman cushion into the storage position. Instructions for operating the sleeper are located on the front of the ottoman cushion.

ANTI-MICROBIAL FINISH

Cressida wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria.

WALL SAVER DESIGN

The shape of the arm is designed to keep the back away from the wall (in a locked position), to prevent wear and damage to both the chairs and to the walls of the facility.

CASTERS

Enhanced accessibility of the casters allows the caregiver or visitor to easily lock and unlock them. The 3" casters are soft wheel and non-marring, with a premium lock function, which locks both the wheel rotation and the swivel rotation to rigidly hold the unit in position.

CLEANING AND INFECTION CONTROL

Specifically designed to ease the cleaning and disinfection of the sleeper and the floor underneath them - in the first opening stage, open access is provided to the floor underneath so it can be cleaned without having to move the sleeper. Upholstery covers can be made removable, and individual components are automatically removable, to enable thorough cleaning and disinfection.

JORDAN | LOUNGE SLEEPERS OPTIONS

ARM STYLES

Jordan Lounge Sleepers feature four arm styles Upholstered Arm, Wood Arm, Full Urethane Arm and Wood Arm with Urethane Cap. The optional arm cap and full urethane arm provide enhanced durability and protection for the arms. Arm and arm cap are available in Black, Grey and Taupe urethane colors. The arm cap is field replaceable if it becomes damaged or degraded

UPHOLSTERED ARM

WOOD ARM

FULL URETHANE ARM

URETHANE ARM CAP

LEGS

Jordan Lounge Sleepers legs are available in Beech and Maple wood as well as Grey Urethane.

COMBINATION UPHOLSTERY OPTIONS

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

MOISTURE BARRIER & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$735 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks.

JORDAN | LOUNGE SLEEPERS INSTRUCTIONS

CONVERSION FROM CHAIR TO CHAISE TO SLEEPER (TO OPEN SLEEPER)

1. Chaise position - lock the casters and using the hand pull, pull the ottoman out. Lift pull handle up and out to fully extend the ottoman.
2. Sleep position - from chaise position, pull ottoman handle again away from chair to full extension. Lower the back manually forward into position.

CONVERSION FROM SLEEPER TO CHAISE TO CHAIR (TO CLOSE SLEEPER)

1. Chaise position - Lift the Sleeper back into it's upright position and push (using the ottoman kick plate) inward.
2. Chair position - Lower the ottoman into the tuck away position and continue to push the ottoman inward

level® CERTIFICATION & AIR-EMISSIONS CERTIFICATION

level® CERTIFICATION
BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Behavioral Health products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

AIR-EMISSIONS
All Behavioral Health products are supplied air-emissions certified. Contact customer service for information.

FSC®
In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Behavioral Health and other Krug products can be specified with FSC® Certification.

In addition, architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

SOLIS BEHAVIORAL HEALTH | FEATURES

CLEAN OUT

All Solis seating models have a built-in clean out feature: a space at the back of the seat that allows dirt, debris and liquids to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

STEEL SEAT FRAME

The structural seat frame is made from welded steel with a powder-coated finish that allows Solis to well exceed ANSI/BIFMA standards.

FLEX BACK

The ergonomically-designed back has a slight flexing action, which significantly enhances comfort.

WALL SAVER

The angle of the back and the rear legs are designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the facility. Patient and Guest chairs with mesh backs are excluded as they do not have the wall saver feature.

HIGH DENSITY FOAM

Solis features dual density foam that is soft on the outside for comfort, dense on the inside for high durability. The seat and back foam features a compound curvature that supports healthy sitting postures, while also designed to ease ingress and egress.

SECURED WOODEN ARM

Solis Wood Arm caps are fastened to the side frames with tamper resistant security screws. Wood arms are available in either beech or maple hardwood and in 22 Krug standard finishes. Maple arm caps are available for an up-charge of \$50 list per arm using beech pricing.

URETHANE ARM

Solis secured urethane arms are durable, comfortable, and long lasting. Urethane arms are available in three colors options; Black, Grey and Taupe.

TAMPER RESISTANT HARDWARE

All screws used on the Solis Behavioral Health units have been replaced with tamper resistant security screws.

GANGING

All Solis Freestanding chairs can be ganged using a ganging bracket. The powder-coated metal plate is fastened to the underside of the steel side rails using the pre-existing holes in the frame.

SECURED GLIDES

Solis Behavioral Health chairs have their glides secured in place to prevent their removal and damage.

BOTTOM STAPLE COVER/SHIELD

Solis Behavioral Health chairs come standard with a black painted plywood cover underneath the seat. This cover is designed to prevent access to the upholstery staples of the seat and to prevent the hiding of objects underneath the seat. The cover is also designed to allow for regular ganging hardware and proper seat ventilation. The cover is secured to the unit with tamper resistant security screws.

BACK STAPLE COVER STRIP

The Solis Behavioral Health back upholstery has been altered to allow a staple cover strip to be attached; this will prevent access to the upholstery staples. The cover strip is nylon coated galvanized steel with vinyl coated ends to prevent any sharp edges. The back cover strip is fastened to the unit with tamper resistant security screws.

TUBULAR STEEL CHAIR FRAME

The overall aesthetic frame of the chair is built from structural steel tubing, both elliptical and rectangular for exceptional strength and appealing design. The frame is electro welded and polished joints for ease of cleaning and a one piece look. Available in eight powder-coated finishes. Silver Metallic is offered as Krug's standard finish. For all metal finishes other than Silver Metallic, there is a minimum quantity of 30 units per color and are available for an upcharge of **\$44 list** per seat/table. Microban anti-microbial finish is standard, with no upcharge, when frame finishes other than silver metallic is ordered. Solis silver metallic frames are available with an anti-microbial finish for an upcharge of **\$44 list** per chair or table. Upcharges for quantities less than 30 units per color, per order can be obtained through Customer Service.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

LATEX-FREE

Krug products are made with latex-free materials, to prevent the allergic reaction that latex causes in some people.

WEIGHT CAPACITIES

Weight capacities are as follows:

Guest & Patient Chairs (21" & 24") - **500 lbs**

Bariatric Chairs (30" & 44") - **750 lbs**

SOLIS BEHAVIORAL HEALTH | FEATURES & OPTIONS

ANTI-MICROBIAL FINISH

Solis wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria. The anti-microbial finish is standard on all wood components, at no additional up-charge. Solis Silver Metallic frames are available with an anti-microbial finish for an upcharge of **\$44 list** per chair or table.

ADDITIONAL FEATURES

- Lifetime warranty
- Air quality certified
- Certified to meet CAL 117 with most fabrics
- Certified to meet CTB 133/ ASTM E 1537 with appropriate fabrics

OPTIONS

KINETIC BACK OPTION

This optional feature provides the chair back with a very pleasant and comfortable rocking motion, which can significantly enhance long-term sitting for patients and guests alike. The durable spring-loaded mechanism provides a range of motion of 20 degrees, and can be field-installed or replaced. It's available on any Solis chair back - Guest, Patient and Multiple Seating - with the exception of the Bariatric sizes (30" and 44").

COMBINATION UPHOLSTERY OPTIONS

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics will be applied. When graded in combination upholstery is selected, use the highest upholstery selected or contact Customer Service for a quote (please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote).

CAL133 & MOISTURE BARRIER

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for **\$44 list** per yard.

REMOVABLE COVERS & REPLACEMENT COMPONENTS

- Seat Covers - \$55 list per seat
- Back Covers (21", 24") - \$35 list per chair (uph. only)
- Back Covers (30" and 44") - \$55 list per chair.

Optional Removeable seat and back covers can be quickly installed on Solis products that were originally ordered with the Removable cover option. Replacement seat and back covers can also be installed on Solis products that were not originally ordered with the Removable cover option, with some simple staple removal on the original seats and backs. Complete Mesh backs can be ordered and field replaced.

NO SPRING SEATS

The springs in the seat have been removed and replaced with a solid plywood seat pan. Additional foam has also been added in place of the springs for comfort.

TAMPER-RESISTANT SPLASHGUARD

All Solis seating models are available with a coated steel moisture barrier that covers and enclosed the underside of the seat (while still allowing air transfer and ventilation in and out of the seat cushion). The Splashguard replaces the Bottom Staple Cover on the underside of the seat. It is designed to still allowing ganging and has folded metal edges to prevent any sharp edges. The splashguard is fastened with tamper resistant security screws.

SOLIS BEHAVIORAL HEALTH | OPTIONS CONTINUED

SLEIGH BASE

The Solis side frames legs have the option to be tied front to back with a steel rail, this will strengthen the frames and eliminate the option of having legs.

CLOSED ARM

Solis closed arm has an upholstered arm panel built into the side frame. It is between the middle rail on the side frame and the top of the arm.

FULLY CLOSED ARM (SLEIGH BASE ONLY)

The fully closed arm includes the regular closed arm, but also adds a second upholstered arm panel between the middle rail on the side frame and the sleigh base bottom. This feature is only available when the sleigh base option is selected.

FLOOR ANCHOR BRACKETS (SLEIGH BASE ONLY)

Floor mounting brackets are supplied to be secured to the bottom of the Solis sleigh base with tamper resistant security screws. The hardware to attach the brackets to the floor is not provided by Krug.

WEIGHTED SHIELD

In place of the Bottom Staple Cover, a weighted black coated steel version is also available. This steel shield is designed to add enough weight for the product to be a minimum of 80 lbs. The shield is also designed to allow standard ganging hardware as well as proper seat ventilation. This is all achieved while also covering/preventing all access to the upholstery staples under the seat. The Weighted Shield is fastened with tamper-resistant security screws.

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Solis upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$22 list per unit and \$44 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote - please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote. Complete Mesh backs (21" & 24") can be ordered and field replaced.

The standard Solis Frame Color is Silver Metallic. Additional frame colors are available for an upcharge of **\$44 list** per seat, please see page 26 for color selection and required ordering quantities. Silver metallic frames are available with an anti-microbial finish for an upcharge of **\$44 list** per chair or table.

Please refer to page 270 for more options.

ZOLA BEHAVIORAL HEALTH | LEED CI CREDIT SUMMARY

ZOLA BEHAVIORAL HEALTH

CONTRIBUTES TO		
CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.2	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials, Systems & Seating	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood (MUST BE REQUESTED)	1 point(s)

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION
BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Zola Behavioral Health products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR-EMISSIONS
All Zola Behavioral Health products are supplied air-emissions certified. Contact customer service for information.

FSC®
In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

ZOLA BEHAVIORAL HEALTH | FEATURES

TAMPER-RESISTANT HARDWARE

This is utilized on all connection points of the product that are (or potentially) accessible, hindering components from being removed or the product being dis-assembled. The unique tools for these fasteners are available from Krug for any maintenance and component replacement.

INACCESSIBLE STAPLES

All staples on this product are covered and made inaccessible with a secondary barrier, which is fastened with tamper-resistant hardware.

LIGATURE RISK REDUCTION

This product has been designed to minimize the ability to use it for ligature - the closed arm panels, the elimination of legs, and the option of Restricted Access Upholstery significantly reduce the points on the product that could be used for ligature.

SPRINGLESS SEAT CONSTRUCTION

A very comfortable and durable sit is achieved without internal metal components such as springs - the high resiliency foam and heavy-duty suspension sheet webbing are materials used to deter harm or damage.

ARM PANEL BASE

This product has no legs (which could be used to cause harm or damage, or for ligature); instead the bottom portion of each arm panel is a 3" vinyl-clad runner. The durable covering is tightly secured, easy to clean, and will resist damage caused by cleaning equipment, etc.

SECURED GLIDES

The non-marring glides are epoxied and nailed in place to hinder their removal. They can be field-replaced with the use of tools.

WALL SAVER

The position of the back in relation to the base of this product is designed so the back won't impact when the chairs are pushed against the wall - avoiding potential damage to both the chairs and walls.

CLEAN OUT

The expanded clean out space on Zola BH seating provides an opening between the seat and back to assist in cleaning of the product, and prevents the buildup of debris and germs. It also reduces the ability to use this area for the concealment of contraband or weapons. Alternatively, Restricted Access Upholstery can be specified to hinder the use of this area for such concealment.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

ANTI-MICROBIAL FINISH

Zola Behavioral Health wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

WEIGHT CAPACITIES

Zola Behavioral Health weight capacities are as follows:

One Seat - 300lbs

Two Seat - 525

Three Seat - 750

One Seat Bariatric - 750

Two Seat Bariatric - 975

Three Seat Bariatric - 1150

ADDITIONAL FEATURES

- Lifetime warranty
- Certified to meet CAL 117 with most fabrics

ZOLA BEHAVIORAL HEALTH | OPTIONS

RESTRICTED ACCESS UPHOLSTERY

This option provides complete closure and elimination of the normal gap between upholstered seat, back and arm panels in the seat area of the product - hindering the use of these areas for hiding weapons and contraband. This option further reduces the ability to utilize the product for ligature.

FLOOR ANCHORING

This can be provided when the product is ordered, or can be added in the field. In both cases, the fastening hardware attaching the steel floor anchoring brackets to the product is tamper-resistant.

STEEL BOTTOM SHIELD

This hinders access to the interior frame and components. The powdercoated heavy-gauge steel has venting to allow circulation (venting holes are small enough to hinder use for concealment or ligature), and is fastened with tamper-resistant hardware. The Bottom Shield also adds weight to the product.

WEIGHTING

The option of additional weighting can be specified, to specific weight requirements. Additional weighting is achieved through steel plating that is fastened to the interior side of the Steel Bottom Shield, making it secure and inaccessible. This option increases total shipping weight to 87lbs.

BIATRIC

The offering includes a standard bariatric-size 1-seater model, as well as the option to specify bariatric weight rating for all other models in the offering - this provides a weight rating that exceeds 750 lbs, and includes additional seat support and an additional back leg on the 2- and 3-seat models only.

REMOVABLE/REPLACEABLE UPHOLSTERY

Removable upholstery covers can be specified on this product, to facilitate cleaning and assist with infection control. They utilize tamper-resistant hardware, and inaccessible staples. Replacement upholstery covers have the same features, and can be field installed with tamper-resistant fastener tools.

TABLES

A range of occasional tables designed specifically for behavioral health environments is included in this product offering, with a similar range of features and options to provide safety and security to patients and care-givers.

CAL133 & MOISTURE BARRIER

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for **\$44 list** per yard.

KARMA | LEED CI CREDIT SUMMARY

KARMA

CONTRIBUTES TO		
CREDIT 2.1 - 2.2	Construction Waste Management	1-2 point(s)
CREDIT 3.3	Resource Reuse	1 point
CREDIT 4.1	Recycled Content	1 point
CREDIT 4.2	Recycled Content	1 point
CREDIT 4.5	Low Emitting Materials, Systems & Seating	1 point
CREDIT 5.1	Regional Materials*	1 point
CREDIT 7	Certified Wood (MUST BE REQUESTED)	1 point(s)

*This credit is only applicable if in total 20% of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION
BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Karma products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR EMISSIONS
All Karma products are supplied air emissions-certified. Contact customer service for information.

FSC®
In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Karma and other Krug products can be specified with one of two types of FSC® Certification:
(a) FSC®-certified (which includes FSC®-certified lumber, veneer and substrate material)
(b) FSC®-mix certified (which includes substrate material only, and is a lower cost option certification)
Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Cressida products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

FSC
www.fsc.org
FSC® C021699

The mark of responsible forestry

AIR EMISSIONS

All Cressida products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Cressida and other Krug products can be specified with one of two types of FSC® Certification:

- (a) FSC®-certified (which includes FSC®-certified lumber, veneer and substrate material)
 - (b) FSC®-mix certified (which includes substrate material only, and is a lower cost option certification)
- Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

CRESSIDA | TABLE FEATURES

ANTI-MICROBIAL FINISH

Cressida wood surfaces come with an anti-microbial finish that inhibits the growth of some molds and mildews. Surfaces coated in this finish support the reduction of fungal growth, and spores from germs, microbes and bacteria

STANDARD FINISHES

For a complete list of standard wood finishes, please see page 4. Cressida tables are available in 22 standard finishes.

LAMINATE

Cressida Box-style tables are available in laminate with wood side or laminate side. See page 4 for laminate information.

SOLID SURFACE

Cressida Box-style & Slab-style tables are available with 1/2" White solid surface tops. Cressida Light-style tables are available with White full solid surface tops, 1" thick. Please contact customer service for a quote on additional solid surface color options.

ORDERING NOTES:

When fastening two linking tables together, mounting hardware will be provided when ordered, that will include one leg per table (to a maximum of two legs), which will be mounted on the adjoining seam. Middle tables are automatically supplied with two (table to seat bracket) brackets for fastening to benches. End tables are automatically supplied with one (table to seat bracket) bracket for fastening to benches. Cressida Middle tables have the ability to be easily reconfigured, as they are universal and non-handed. They can be moved to a reverse position in almost any configuration to provide a high level of flexibility when specifying.

ORDERING NOTES:

Linking tables can be ordered in conjunction with any of the Krug Multiple Seating. Linking tables are connected to the Multiple Seating via Linking brackets. Hardware for tables can be used left or right handed.

The design of the tables for Cressida Multiple Seating allows for any table to be very easily added or moved to a new position within the configuration - or completely replaced - after the product has been first installed. The attachment of the tables is designed so that they can be readily be taken out of the configuration without any defacing of the adjoining seat frames.

Linking Tables also feature a universal, non-handed design:

They can be moved to reverse position in almost any configuration, providing a high level of flexibility for reconfiguring.

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Jordan products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR-EMISSIONS

All Jordan products are supplied air-emissions certified. Contact customer service for information.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Karma and other Krug products can be specified with one of two types of FSC® Certification:

- (a) FSC®-certified (which includes FSC®-certified lumbe , veneer and substrate material)
- (b) FSC®-mix certified (which includes substrate material onl , and is a lower cost option certification)

Contact customer service for further information, pricing and leadtimes.

Architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

JORDAN | LINKING TABLES FEATURES

ANTI-MICROBIAL FINISH

Jordan wood surfaces come with a uniquely-formulated anti-microbial finish that inhibits the growth of molds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood.

WOOD SPECIES

Solid Beech & Maple frames, and edges. Veneer tops.

STANDARD FINISHES

For a complete list of standard wood finishes, please see page 4. Jordan tables are available in 22 standard finishes.

LAMINATE AND POLYMER EDGE

Jordan tables are available in laminates with wood or laminates with Polymer edge. See page 4 for laminate information.

ORDERING NOTES:

Linking tables can be ordered in conjunction with any of the Krug Multiple Seating. Linking tables are connected to the Multiple Seating via U-Shaped brackets.

The design of the tables for Jordan Multiple Seating allows for any table to be very easily added or moved to a new position within the configuration - or completely replaced - after the product has been first installed. The attachment of the tables is designed so that they can be readily be taken out of the configuration without any defacing of the adjoining seat frames.

Linking Tables also feature a universal, non-handed design:

They can be moved to reverse position in almost any configuration, providing a high level of flexibility for reconfiguring.

Please note Jordan Plastic Laminate Linking Tables are not available on *KrugExpress*.

Wood Tops with Wood Edges are available on *KrugExpress* but with a minimum order requirement of 5 tables per order.

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

ORDERING NOTES

The Solid Surface top option is priced as an upcharge to existing table price. Please add a "S" to the end of the model number and then add the upcharge listed in the Solid Surface Onlay column ie: ZOL4 CR45D1815S is \$830 list for beech, plus \$286 list upcharge for the solid surface option. Zola Solid Surface tables have a 1/2" thickness on top of the existing table, with a 1 mm overhang (soft radius vertical edge).

THERMOFORMED VINYL - TECHNICAL SPECIFICATIONS

TEST	DESCRIPTION	NEMA LD3-2005	VINYL
3.4	STAIN	Resistance to staining from a list of staining agents and solvents (See Products Tested on previous page)	No Effect 1-10 Moderate 11-15
3.4	CLEANABILITY	Ease with which a surface can be cleaned after exposure to various staining agents	Rating of 20 or less 9-15
3.5	BOILING WATER	Resistance to surface changes when exposed to boiling water	No Effect None
3.7	SCRATCH	Diamond scratch resistance	3 or better (horizontal) 3
3.8	BALL IMPACT	Resistance to fracturing from a steel ball dropped on laminate surface	500mm - 1250mm 20 - 49 in 2200->3000 87-118 in
3.9	DART IMPACT	Resistance to fracturing from a 25g dart with a 5mm tip dropped on laminated surface	200mm - 500mm >1100
3.13	WEAR	Resistance to color or print loss during prolonged abrasion cycles	400-700 cycles 500-3200

THE GENESIS OF TRANQUILITY

Tranquility infusion bay furniture was designed to provide effective solutions for several applications including chemotherapy units within oncology departments, and areas administering renal dialysis.

Before actual product was even contemplated, extensive research was completed to understand the needs of the infusion patient and their supporting caregivers and family or friends.

Foremost among these needs was the requirement to provide the patient with privacy during their treatment sessions or the option to socialize and share experiences with a neighboring patient. And we wanted to put the patient in control of their choices to the largest extent possible. It was clear that the furniture needed to allow the patient to embrace nature where possible and that the product components should reflect natural elements. The furniture needed to contribute to a quiet and soothing environment in which the patient could comfortably relax, rest, work or enjoy a snack. We also learned the physical requirements of each of the patients, caregivers and family and friends. This included the needs for storage of belongings, supplies, and disposal of various types of wastes, as well as the supports for the treatment. Finally, it was clear that the product had to make maximum use of space, as cost-effectively as possible.

Tranquility is a highly-effective response to the needs. The core of the design is the use of sliding resin panels embedded with organic elements to divide patient bays. At the mutual agreement of neighboring patients, the resin panels can be slid open to provide an opportunity to visit and share experiences. The patient is provided with many options - swivel to take in an outside landscape, converse with another patient or a family member, rest in privacy, read, watch a movie, or work on their computer. There is ample storage for personal belongings. A warming blanket can be located in a drawer beside them. There is space for the caregiver to store supplies, dispose of wastes and maintain charts. The unique Combination Patient Entertainment/Nurses' Module provides space for TV and DVD for two patients as well as work space and storage for caregivers, all in one unit at a minimized footprint.

Tranquility – an outstanding solution for cancer care and other treatment applications.

TRANQUILITY | FEATURES

BREADTH OF LINE:

The Tranquility infusion casegoods offering provides solutions from contemporary to transitional to traditional styling. The line includes wardrobes, benches, patient divider modules, sliding resin partitions, patient entertainment module, nurses' modules and combination patient entertainment / nurses' modules.

CUSTOM CAPABILITY:

Krug can offer both custom sizes of standard product and completely custom units. For more information, please contact Customer Service.

DURABILITY:

Cabinets are constructed of ¾" thick panels including backs. In contrast to cabinets constructed with 1/8" back panels, the Tranquility units are more robust and less susceptible to damage. All exposed laminate edges are covered with 2.5 mm polymer edgebanding in colors matching the laminates. This thicker edgebanding provides an increased level of durability on all edges as well as a 2.5 mm radius on the edge. The softer radius is less likely to bruise or cut the skin of a patient or caregiver.

LAMINATES:

"Laminate" is variously known in the marketplace as Thermofused Melamine, Low-Pressure Laminate or LPL. There are 2 solid color options and 7 wood-grain colors. Colors are available in laminate, high-pressure laminate or thermoformed vinyl. Polymer Edgebanding matches the laminate selection. Wood finishes to match the wood-grain laminates are available for Krug Healthcare Seating.

VENEER:

The Tranquility product is also available in maple veneer. The veneered version is available with the Delphine front.

AIR-EMISSIONS:

All products can be air-emissions certified. Upcharges and extended leadtimes may apply. Please contact customer service for more information.

WARRANTY:

All cabinets carry a limited lifetime warranty (see page 2).

SUSTAINABILITY

Tranquility cabinets have a very high recycled content and contribute to both LEED credits 4.1 and 4.2. The packaging is recyclable. Non-urea-added core is available as an option and air-emissions certified product is also optionally available. FSC-certified wood may be possible on larger projects.

DRY FIT CONSTRUCTION:

Cabinets, other than the combination patient entertainment/nurses' modules and patient divider modules, are assembled with mechanical cams. This is known as dry fit construction. The result is that any panel can be replaced if damaged, unlike cabinets that are glued together where damage to any surface leads to replacement of the entire unit.

SEALED CORE:

All unseen particle board edges that are not covered by an adjoining panel are edge banded (i.e. no exposed particle board). As with the vent covers noted above, this prevents moisture and bacteria from seeping into the core.

BASES:

Separate plywood 4" bases including leveling glides are supplied for cabinets. Bases are included in the component pricing and do not need to be specified separately. Typically the vinyl base molding used in the room would be applied. HPL cladding can be ordered as an option. HPL is grey unless otherwise requested.

TRANQUILITY | FEATURES

DOOR AND DRAWER PULL STYLES:

The Indus pull eliminates a protrusion that could bruise a patient or caregiver. The finish is silver metallic. Circa offers a very large grip. The pull could be accessed with a closed knuckle. It has a silver metallic finish. Ravenna is an attractive transitional pull in satin nickel. Padua is a traditional pull in antique brass.

BENCH:

The cushion for the bench is 3” thick. The bariatric version of the bench supports 500 pounds

SLIDING RESIN PANELS:

Krug can quote and procure a wide variety of Translucent Resin Panels, many of which are embedded with organic materials.

VENTS:

There is one 1” diameter vent for each drawer and each door set for air circulation on the benches & wardrobes. All vent holes are covered with plastic vents both inside and outside to eliminate exposed particle board, thus preventing moisture and bacteria from entering the core.

DRAWERS:

Drawers have white metal sides with white laminate bottoms and backs, and all exposed particle board edges are edge banded. The unobstructed metal sides facilitate cleaning. Bumpers are installed on all drawers and doors to soften the sound of closing. Large drawers use white Laminate sides and extension slides.

TOPS:

Tops can be laminate with polymer edgebanding, high-pressure laminate with polymer edgebanding or solid surface. Tops on units over 40” high are laminate only. Laminate and veneer tops are 3/4” thick. High-pressure laminate and solid surface tops are 1” thick and cabinets with those tops are 1/4” taller.

DOOR / DRAWER FRONTS:

Door / drawer fronts are 3/4” thick and 3 styles are available.

- Delphine - Laminate with Polymer Edge or Veneer
- Como - seamless Thermoformed Vinyl with white backs
- Bassano - seamless Thermoformed Vinyl with white backs (Como and Bassano fronts are not available on Patient Divider Modules)
- Veneer - veneer front with 3mm wood edge

TRANQUILITY | REQUIRED TO SPECIFY

After each product grouping in the following pages, there is a summary under the title "Required to Specify". The summary lists the elements that need to be specified including Model Number, Base, Pull Style and Color. Pull Style and Color refer back to the lists below.

DOOR AND DRAWER PULL STYLES:

				
Select one:	Indus - I *	Circa - C	Ravenna - R	Padua - P
	\$27 each Silver Metallic	\$2 each Silver Metallic	No Upcharge Satin Nickel	\$2 each English Antique Brass

ORDERING NOTES:

* Cannot be used on Front Style Como.

LAMINATE/VINYL COLORS:

Select one:	H - Hardrock Maple A - Antique White	C - Candlelight L - Samba Cherry	D - Mocha Cherry S - Shiraz Cherry
-------------	---	-------------------------------------	---------------------------------------

**Bavarian Beech is not available on Como or Bassano door/drawer fronts

VENEER COLORS:

Select one:	N-Clear Maple	G-Wheat Maple	Y-Honey Maple
-------------	---------------	---------------	---------------

SOLID SURFACE: Standard color is white (other colors can be quoted).

TRANQUILITY - PRODUCT CODE KEY

PRODUCT CODE KEY

Product Line	Description	Description	Width (2 digits)	Style	Orientation (hinge side when facing cabinet)
I	C	1-8		9	L
Infusion	Cushioned Bench	no. for each bench type	e.g. 32 inches	no legs or casters	Left
	W	1-4			R
	Wardrobe	no. for each wardrobe type			Right
	P	1-3			N
	Patient Divider Module	2 depths			Not applicable
	R	1-2			
	Sliding Resin Partition	no. for each partition type			
	T	1-2			
	Combined Patient Entertainment/ Nurses' Module	no. for each type			
	E	1-3			
	Patient Entertainment Module	no. for each TV type			
	N	1-2			
	Nurses' Module	no. for each module type			

ORDERING NOTES:

After each product grouping, please find the list titled "Required to Specify". The steps following provide guidance on how to specify the product you require. The model number based on the Product Codes above needs to be chosen. As a suffix to the model number, add a one-digit code to identify the door/drawer Front Style. After that you will be asked to choose among a number of variables such as top material, door/drawer pull styles, and color. Each of these is required. Beyond that is a list of Options, some of which you may want to add.

A typical selection and the ideal way to enter on your purchase order would be as follows:

IP1569ND \$1975
Patient Divider Module with Delphine fronts

Base - P n/c
Top Material - L n/c
Pull Style - I \$109
Top Color - H n/c
Body Color - H n/c

Options:
Locking Doors - LK \$100

TRANQUILITY | OPTIONS

SIN 71-315

Master Key
Tranquility cabinets have the option to lock with a master key. This must be specified on the order.

High - Pressure Laminate Bases
Standard Tranquility base is plywood. Optionally, this can be clad in HPL.

Locking Top Drawer or Door
Tranquility cabinets have the option to lock. They can be randomly keyed for security. The lock option is factory installed and must be specified on the order.

Cabinet Mount Markerboard:
The Markerboards are 24" high by 12" wide (slightly narrower on 12" wide wardrobes). They can be mounted to the inside or outside of the cabinet door.

Cabinet Mount Mirror Option:
The Mirrors are 24" high by 12" wide and acrylic. They can be mounted to the inside or outside of the cabinet door.

TRANQUILITY - CONNECTIVITY SOLUTIONS

CABLING GROMMET

Cabling grommet

List Price
\$79

A black cabling grommet with an opening in the cover provides a cable passage for cords. The removable cover serves to provide a large cable passage when required.

Cabling grommets can be combined with powerbars to provide cable management as well as connections for electrical/voice/data.

Black Rectangular grommet 4 1/8" x 2 11/16"

Cabling grommets can be located on the top and sides for the Combined Patient Entertainment/ Nurses' Module.

For other nurses' modules the location is top center/back.

POWERBAR

Powerbar (Category 5/6 A)

The powerbar comes standard with 3 receptacles, 2 RJ45 ports and a 10' heavy duty power cord. The powerbar is a UL/CSA - approved power/data powerbar, which includes three 115-volt electrical convenience outlets and two data ports - all easily accessed behind the touch latch door of the cable management cavity in the Combined Patient Entertainment/ Nurses' Module.

\$84

CONNEXUS™

Connexus™ is Krug's propriety worksurface connectivity solution. When opened, it presents power and data outlets on a convenient angle for the patient or staff and provides storage for wiring.

The faceplate of Connexus™ is available in aluminum and sit flush with the top of the patient divider module. It is designed to allow wiring to pass through the surface cover in both the open and closed positions. The faceplate opens to a 100° angle from the module top.

Connexus™ utilizes UL standard receptacle outlets. Connexus offers 7 pre-configured units with a wide selection of power and data outlets.

Connexus™ will be located towards the back of the patient divider module worksurface to provide ample room for equipment and electronics.

For Connexus™ options, please see page 292.

CABLE MANAGEMENT

Cables from the top can enter the combined Patient's Entertainment/ Nurse's Module from a grommet located in the top or the side of the unit. The cables run behind the drawers and pass through a cable grommet into the cable management cavity. Electrically and data cables can be plugged in to the powerbar located inside.

Cables from the entertainment portion of this unit also can pass through a cable grommet in the side of the cabinet into the cable management cavity and are connected to the powerbar.

The powerbar cord runs inside of the base to the power source.

The Patient's Entertainment / Nurse's Module has a convenient touch latch door to gain access to the cable management cavity.

The powerbar cord runs inside of the base to the power source.

When using a Connexus, the cables pass through these same grommets into the divider cabinet. A cable management trough is used to manage cables through the storage unit, with no interference with the items being stored. The Connexus power cord can pass through a cable grommet in the side or base of the divider cabinet to the power source.

JUNO & TREVISA | HEADWALLS AND FOOTWALLS

The Juno and Trevisa lines include a custom offering of modular headwalls and footwalls. The offering has been designed around 24", 30" and 36" wide modules that include a back panel, canopy (1 1/2" thick) and cabinets. The overall height is 82". Cabinet height can be 20" (e.g. benches), 30" (e.g. bedside tables, dressers and desks) or 36" (e.g. work counters, possibly including a sinks). The cabinets can be taken with slight modification from the Juno and Trevisa offerings of bedside tables, benches, dressers, desks, wardrobes and storage units. As well, other items such as floating shelves can be incorporated. In each case, the cabinet sits on a substantial 4" inset base. Bases are typically in grey laminate. Some combinations of the modules can be freestanding while others need to be fastened to the wall.

Fronts, top profiles and pulls from the Juno and Trevisa line can be incorporated into the headwall or footwall. The tops are only profiled on the front and there is no overhang at the sides. Tops can be laminate, high-pressure laminate, thermoformed vinyl or solid surface.

The modules are designed to accommodate wiring for lighting, TVs and to support other electrical devices such as computers. Similarly, there is space for plumbing.

Advantages of modular footwalls and headwalls may include improved depreciation for tax purposes, the ability to reconfigure at some future point, replaceability of individual components and even individual panels, consistency of design, colors and pulls with freestanding cabinets in the room, and the fact that design and construction meets the same healthcare standards reflected in the balance of the Juno and Trevisa lines. A limited lifetime warranty applies.

Please contact your Krug representative or customer service for a quotation on your specific project.

JUNO | FEATURES

BREADTH OF LINE:

The healthcare casegoods lines offer solutions from contemporary to transitional to traditional styling. Juno is the contemporary version. The lines are extremely wide including 5 bedside table configurations, 3 dressers, 2 benches, 2 combination bench/wardrobes, 8 wardrobe/storage units, 4 TV units, 3 bookcases, 2 desks, a headboard and footboard, a marker board, mirror and corkboard, and 4 overbed tables. In addition custom modular headwalls and footwalls are offered.

CUSTOM CAPABILITY:

Krug can offer both custom sizes of standard product and completely custom units, including modular headwalls and footwalls.

For more information, please contact Customer Service.

DURABILITY:

Cabinets are constructed of $\frac{3}{4}$ " thick panels including backs. In contrast to cabinets constructed with $\frac{1}{8}$ " back panels, the Juno units are more robust and less susceptible to damage. All exposed laminate edges are covered with 2.5 mm polymer edge banding in colors matching the laminates. This thicker edge banding provides an increased level of durability on all edges as well as a 2.5 mm radius on the edge. The softer radius is less likely to bruise or cut the skin of a patient or caregiver. Bottom panels extend under the side and back panels of cabinets with legs and on any units with 4 casters in order to maximize the ability of the cabinet to withstand heavy handling.

DRY FIT CONSTRUCTION:

Cabinets are assembled with mechanical cams. This is known as dry fit construction. The result is that any panel can be replaced if damaged, unlike in the case of cabinets that are glued together where damage to any surface leads to replacement of the entire unit.

VENTS:

There is one 1" diameter vent for each drawer and each door set for air circulation. All vent holes are covered with plastic vents both inside and outside to eliminate exposed particle board, thus preventing moisture and bacteria from entering the core.

SEALED CORE

All unseen particle board edges that are not covered by an adjoining panel are edge banded (i.e. no exposed particle board). As with the vent covers noted above, this prevents moisture and bacteria from seeping into the core.

DRAWERS:

Drawers have white metal sides with white laminate bottoms and backs, and all exposed particle board edges are edge banded.

The unobstructed metal sides facilitate cleaning. Bumpers are installed on all drawers and doors to soften the sound of closing.

TOPS:

Tops are 3/4" thick and can be laminate with polymer edge banding, high-pressure laminate with polymer edge banding, or seamless thermoformed vinyl.

- Edge A - Laminate with Polymer Edge, or High-Pressure Laminate with Polymer Edge
- Edge B - Thermoformed Vinyl or High-Pressure Laminate with Wood Edge
- Edge C - Thermoformed Vinyl or High-Pressure Laminate with Wood Edge
- Edge S - Laminate with T-Mold bumper or High-Pressure Laminate with T-Mold bumper

With Edge S the Overhang is 1/2" on all sides

Standard Top Overhang is 1/4" on 4 sides

Optional Top Overhang is 1/2" on 4 sides (to assist with movement of the cabinet) on other edges.

Tops on units over 40" high are laminate only

DOOR / DRAWER FRONTS:

Door / drawer fronts are 3/4" thick and 2 styles are available.

- Delphine - Laminate with Polymer Edge
- Lia - Thermoformed Vinyl

Headboards and footboards are high-pressure laminate on 3/4" plywood with polymer edge banding. HPL and plywood are used in this application for added strength.

LEGS & BASE RAIL:

Cabinets are available with 4 1/4" legs (for ease of cleaning), or sides to the floor with a base-plate Style 1 that is either Laminate with Polymer Edge, or Seamless Thermoformed Vinyl, (based on the Door/Drawer front material selected).

DOOR AND DRAWER PULL STYLES:

Flex is an injection-molded plastic pull designed to offer some "give" or flexibility when inadvertently hit by a patient or caregiver. The color is similar to silver metallic.

The Circa offers a very large grip. The pull could be accessed with a closed knuckle. It has a silver metallic finish.

The Indus pull eliminates a protrusion that could bruise a patient or caregiver. The finish is silver metallic

BENCH

The cushion for the bench is 3" thick.

Juno benches have a load weight rating of 200 lbs.

OVERBED TABLES:

There are 4 overbed table top shapes in either high-pressure laminate or seamless thermoformed vinyl, with 3 edge profiles (2 are spill-guard edges). There is also a version with a second drop-down surface. The overbed table offering includes 2 alternative steel base styles, each available in 5 standard powdercoat finishes. The overall height of the U-base including casters is less than 2" and the H-base is 3.25".

Baskets are a frequently ordered option. They are commonly used to hold urinals to keep them off table surfaces.

LAMINATES:

"Laminate" is variously known in the marketplace as Thermofused Melamine, Low-Pressure Laminate or LPL.

There are 2 solid color options and 7 wood-grain colors. All colors are available in laminate, high-pressure laminate or thermoformed vinyl. Polymer Edge banding matches the laminate selection. Wood finishes to match the wood-grain laminates are available for Krug Healthcare Seating.

veneer

Many items in the Juno product line are also available in maple veneer and in a combination of veneer exterior surfaces and laminate interior faces. The veneered version is available with the Delphine front and "A" top edge profile. Both high-pressure laminate and thermoformed vinyl tops can be supplied as options with the veneered cabinets. Please contact your Krug representative or customer service for a quotation on veneered product.

JUNO | FEATURES

ENVIRONMENTAL FEATURES:

Juno cabinets have a very high recycled content and contribute to both LEED credits 4.1 and 4.2. The packaging is recyclable. Non-urea-added core is available as an option and Air Emissions certified product is also optionally available. FSC-certified wood may be possible on larger projects.

WARRANTY:

All cabinets carry a limited lifetime warranty. Overbed tables have a 2-year warranty.

TO ORDER

After each product grouping, please find the list titled "Required to Specify". The steps following provide guidance on how to specify the product you require. The model number based on the Product Codes above needs to be chosen. As a suffix to the model number, add a one-digit code to identify the door/drawer Front Style. After that you will be asked to choose among a number of variables such as top material, door/drawer pull styles, and color. Each of these is required. Beyond that is a list of Options, some of which you may want to add.

A typical selection and the ideal way to enter on your purchase order would be as follows (from pages 299 and 300):

JB1201RL \$678
Bedside Table with 1 drawer/1 door and Lia fronts

Top Material - T \$54
Top Edge Profile - n/c
Pull Style - F n/c
Top Color - H n/c
Body Color - H n/c

Options:

Locking Top Drawer - LK \$33
Seamless Drawer Liner - SL \$35

JUNO | OPTIONS

Locking Top Drawer or Door

Juno cabinets have the option to lock. They can be randomly keyed for security. The lock option is factory installed and must be specified on the order.

Laminate Drawer

An optional white laminate drawer with a single-action 3/4-extension slide is available at no upcharge. All edges are banded.

Leg / Casters:

Juno Bedside Tables have 5 base options - 4 legs with glides, 2 front legs with glides and 2 back casters, 4 swivel casters (2 locking), no legs and adjustable glides, or no legs and 2 hidden non-swivel casters at the rear of the cabinet.

Leg Leveler

An adjustable glide option is available for legs when there are 4 legs on a cabinet. This is standard on units without legs. This helps ensure the furniture is steady and level on uneven floors.

Seamless Drawer Liner

Juno bedside tables are available with the option of a plastic drawer liner. Ideal for infection control purposes, it can be removed, sterilized or replaced when damaged or degraded.

Litter Bag Holder

The Litter Bag Holder option fastens to the sides of the bedside tables. It is available in a satin nickel finish. It holds small paper bags and can be field-installed. The standard placement is the side opposite the hinge.

Towel Bar

The Towel Bar option fastens to the sides of the bedside tables. It is available in a satin nickel finish. The standard placement is the side opposite the hinge.

Spill-Guard Edge

Juno bedside tables are available with the spill-guard edge surface on the thermoformed vinyl tops to collect liquids when spills occur.

Rounded Tops

A top with rounded corners is available as an option on bedside tables. There is a choice of laminate or high-pressure laminate. The edge is polymer to match the laminate color. The overhang is 3/4" on all 4 sides of the top. (Tops specified with T-mold bumper are also rounded at corners. In these cases the overhang is 1/2" on all sides).

Gallery Rails

Optional gallery rails are in satin nickel finish. There is a rail on each side and another across the back.

Cabinet Mount Markerboard:

The Markerboards are 24" high by 12" wide. They can be mounted to the inside or outside of the cabinet door (inside is standard).

Cabinet Mount Mirror Option:

The Mirrors are 24" high by 12" wide and acrylic. They can be mounted to the inside or outside of the cabinet door (inside is standard).

Cabinet Mount Corkboard Option:

The Corkboards are 24" high by 12" wide. They can be mounted to the inside or outside of the cabinet door (inside is standard).

Lower Mounting Coat Rod and Shelf (ADA):

Juno Wardrobes are available with the lower shelf and coat rod for ADA compliance (shelf is 48" above the floor).

Pull-Out Swivel TV Tray

Juno TV Units come with the option of a pull-out swivel TV Tray. The swivel tray is factory installed and must be specified at the time of order.

Extended Top Overhang

Rather than the standard 1/4" top overhang on all sides, this can be at 1/2" to facilitate moving of the cabinet for cleaning.

Master Key

Juno bedside tables have the option to lock with a master key. This must be specified on the order.

DIMENSIONS

	Overall Width	Overall Depth	Overall Height	Shipping Weight	Cubes

* Indicates model illustrated by line drawing.

ORDERING NOTES:

In the above model numbers e.g. JB1201L or R, a "1" represents a cabinet with 4 legs. A "2" stands for the 2 leg/2 caster version. Please add the letter designating your front choice to the model number above.

ORDERING NOTES:

In the above model numbers e.g. TB1203L or R, a "3" stands for the 2 caster version. A "4" in the above model numbers stands for the 4 caster version. A "9" represents a cabinet with no legs or casters. A "TB" cabinet with 4 casters does not have a base rail. Please add the letter designating your front choice to the model number above.

JUNO | OVERBED TABLES OPTIONS

Vanity drawer and Mirror
Overbed tables have the option of a vanity drawer to store patients personal items. This drawer includes a mirror and is non-locking. Please include on the order.

Integrated Seamless Cup Holder
The Integrated Seamless Cup Holder is available on the thermoformed vinyl tops. It is 3/8" deep and 2 1/2" in diameter. A drawing must be supplied to show the location. Two cup holders are standard on thermoformed vinyl tops when a dual top model is ordered.

Storage Baskets
Powder-coated wire brackets are available in 3 sizes - 9" x 9" x 10", 10" x 6" x 9" and 5" x 5" x 4".

Recessed Cup Holder
The Recessed cup holder is a molded flexible insert with an opening in the bottom. The inner dimensions are 3.5" diameter by 2.6" deep. It fits in a cut-out in the top. The opening is edge banded. A drawing must be supplied to show the required location.

TREVISA | FEATURES

BREADTH OF LINE:

The healthcare casegoods lines offer solutions from contemporary to transitional to traditional styling. Trevisa offers transitional and traditional. The lines are extremely wide including 5 bedside table configurations, 3 dressers, 2 benches, 2 combination bench/wardrobes, 8 wardrobe/storage units, 4 TV units, 3 bookcases, 2 desks, a headboard and footboard, a marker board, mirror and corkboard, and 4 overbed tables. In addition custom modular headwalls and footwalls are offered.

CUSTOM CAPABILITY:

Krug can offer both custom sizes of standard product and completely custom units, including modular headwalls and footwalls. For more information, please contact Customer Service.

DURABILITY:

Cabinets are constructed of $\frac{3}{4}$ " thick panels including backs. In contrast to cabinets constructed with $\frac{1}{8}$ " back panels, the Trevisa units are more robust and less susceptible to damage. All exposed laminate edges are covered with 2.5mm polymer edge banding in colors matching the laminates. This thicker edge banding provides an increased level of durability on all edges as well as a 2.5 mm radius on the edge. The softer radius is less likely to bruise or cut the skin of a patient or caregiver. Bottom panels extend under the side and back panels of cabinets with 4 casters in order to maximize the ability of the cabinet to withstand heavy handling.

DRY FIT CONSTRUCTION:

Cabinets are assembled with mechanical cams. This is known as dry fit construction. The result is that any panel can be replaced if damaged, unlike in the case of cabinets that are glued together where damage to any surface leads to replacement of the entire unit.

VENTS:

There is one 1" diameter vent for each drawer and each door set for air circulation. All vent holes are covered with plastic vents both inside and outside to eliminate exposed particle board, thus preventing moisture and bacteria from entering the core.

SEALED CORE:

All unseen particle board edges that are not covered by an adjoining panel are edge banded (i.e. no exposed particle board). As with the vent covers noted above, this prevents moisture and bacteria from seeping into the core.

DRAWERS:

Drawers have white metal sides with white laminate bottoms and backs, and all exposed particle board edges are edge banded.

The unobstructed metal sides facilitate cleaning. Bumpers are installed on all drawers and doors to soften the sound of closing.

TOPS:

Tops are 3/4" thick and can be laminate with polymer edge banding, high-pressure laminate with polymer edge banding, or seamless thermoformed vinyl.

- Edge A - Laminate with Polymer Edge, or High-Pressure Laminate with Polymer Edge
- Edge B - Seamless Thermoformed Vinyl
- Edge C - Seamless Thermoformed Vinyl
- Edge D - Seamless Thermoformed Vinyl
- Edge E - Seamless Thermoformed Vinyl
- Edge F - Seamless Thermoformed Vinyl
- Edge G - High-Pressure Laminate with Wood Edge, or Seamless Thermoformed Vinyl
- Edge S - Laminate with T-Mold bumper or High-Pressure Laminate with T-Mold bumper. With this edge the overhang is 1/2" on all sides.

Standard Top Overhang is 1/4" on 4 sides

Optional Top Overhang is 1/2" on 4 sides (to assist with movement of the cabinet)

Tops on units over 40" high are laminate only

DOOR / DRAWER FRONTS:

Door / Drawer fronts are 3/4" thick and 7 styles are available.

- Delphine - Laminate with Polymer Edge
- Lia - Seamless Thermoformed Vinyl
- Como - Seamless Thermoformed Vinyl
- Assano - Seamless Thermoformed Vinyl
- Bassano - Seamless Thermoformed Vinyl
- Elba - Seamless Thermoformed Vinyl
- Rossano - Seamless Thermoformed Vinyl

Headboards and footboards are high-pressure laminate on 3/4" plywood with polymer edge banding. HPL and plywood are used in this application for added strength.

BASE RAILS (material will be the same as the Door/Drawer Fronts):

Cabinets are available with 4 1/4" legs (for ease of cleaning), or sides to the floor with the following 4 front base-rail options.

- Option 1 - Laminate with Polymer Edge, or Seamless Thermoformed Vinyl
- Option 2 - Laminate with Polymer Edge, or Seamless Thermoformed Vinyl
- Option 3 - Laminate with Polymer Edge, or Seamless Thermoformed Vinyl
- Option 4 - Laminate with Polymer Edge, or Seamless Thermoformed Vinyl

DOOR AND DRAWER PULL STYLES:

Flex is an injection-molded plastic pull designed to offer some "give" or flexibility when inadvertently hit by a patient or caregiver. The color is similar to silver metallic.

The Indus pull eliminates a protrusion that could bruise a patient or caregiver. The finish is silver metallic

The Ravenna and Murano are attractive transitional pulls in satin nickel.

The Renzo knob pull creates a much different cabinet appearance. The finish is satin nickel

The Verona and Padua traditional pulls are mounted with rosettes. Finish in antique brass. A complimentary brushed brass knob is used on doors.

BENCH

The cushion for the bench is 3" thick.

TREVISA | FEATURES

LAMINATE COLORS:

There are 2 solid color options and 7 wood-grain colors. All colors are available in laminate, high-pressure laminate and thermoformed vinyl. Polymer Edge banding matches the laminate selections. Wood finishes to match the wood-grain laminates are available for Krug Healthcare Seating.

VENEER

Many items in the Trevisa product line are also available in maple veneer and in a combination of veneer exterior surfaces and laminate interior faces. The veneered version is available with the Delphine front and "A" top edge profile. Both high-pressure laminate and thermoformed vinyl tops can be supplied as options with the veneered cabinets. Please contact your Krug representative or customer service for a quotation on veneered product.

ENVIRONMENTAL FEATURES:

Trevisa cabinets have a very high recycled content and contribute to both LEED credits 4.1 and 4.2. The packaging is recyclable. Non-urea-added core is available as an option and air-emissions certified product is also optionally available. FSC wood may be possible on larger projects.

WARRANTY:

All cabinets carry a limited lifetime warranty. Overbed tables have a 2-year warranty.

	K Desk	1-2 no. for each desk type			

TO ORDER

After each product grouping, please find the list titled “Required to Specify”. The steps following provide guidance on how to specify the product you require. The model number based on the Product Codes above needs to be chosen. As a suffix to the model number, add a one-digit code to identify the door/drawer Front Style. After that you will be asked to choose among a number of variables such as top material, door/drawer pull styles, and color. Each of these is required. Beyond that is a list of Options, some of which you may want to add.

A typical selection and the ideal way to enter on your purchase order would be as follows (from pages 321 and 322):

TB1209RL \$642
Bedside Table with 1 drawer/1 door and Lia fronts

Base Rail - 3	n/c
Top Material - T	\$54
Top Edge Profile -	n/c
Pull Style - F	n/c
Top Color - H	n/c
Body Color - H	n/c

Options:

Locking Top Drawer - LK	\$33
Seamless Drawer Liner - SL	\$35

TREVISA | OPTIONS

Locking Top Drawer or Door

Trevisa cabinets have the option to lock. They can be randomly keyed for security. The lock option is factory installed and must be specified on the order.

Laminate Drawer

An optional white laminate drawer with a single-action, 3/4-extension slide is available at no upcharge. All edges are banded.

Leg / Casters:

Trevisa Bedside Tables have 3 base options - sides to floor and front base rail, 2 non-swivel back casters, or 4 swivel casters 2 of which are locking (there is no base rail in this case).

Seamless Drawer Liner

Trevisa bedside tables are available with the option of a plastic drawer liner. Ideal for infection control purposes, it can be removed, sterilized or replaced when damaged or degraded.

Litter Bag Holder

The Litter Bag Holder option fastens to the sides of the bedside tables. It is available in a satin nickel finish. It holds small paper bags and can be field-installed. The standard placement is the side opposite the hinge.

Towel Bar

The Towel Bar is an option on Trevisa and fastens to the sides of the bedside tables. It is available in a satin nickel finish. It can be field installed. The standard placement is the side opposite the hinge.

Spill-Guard Edge

Trevisa bedside tables are available with the spill-guard edge surface on the thermoformed vinyl tops to collect liquids when spills occur.

Rounded Tops

A top with rounded corners is available as an option on bedside tables. There is a choice of laminate or high-pressure laminate. The edge is polymer to match the laminate color. The overhang is 3/4" on all 4 sides of the top. (Tops specified with T-mold bumper are also rounded at corners. In these cases the overhang is 1/2" on all sides).

Gallery Rails

Optional gallery rails are satin nickel finish. There is a rail on each side and another across the back.

Cabinet Mount Markerboard:

The Markerboards are 24" high by 12" wide. They can be mounted to the inside or outside of the cabinet door (inside is standard).

Cabinet Mount Mirror Option:

The Mirrors are 24" high by 12" wide and acrylic. They can be mounted to the inside or outside of the cabinet door (inside is standard).

Cabinet Mount Corkboard Option:

The Corkboards are 24" high by 12" wide. They can be mounted to the inside or outside of the cabinet door (inside is standard).

Lower Mounting Coat Rod and Shelf (ADA):

Trevisa Wardrobes are available with the lower shelf and coat rod for ADA compliance (shelf is 48" above the floor).

Crown Molding

Crown Molding is available as an option for tall units. It is in thermoformed vinyl to match the cabinet. Crown Molding ships separately and is field installed. It is supplied for the front and two sides with mitered joints.

Pull-Out Swivel TV Tray

Trevisa TV Units come with the option of a pull-out swivel TV Tray. The swivel tray is factory installed and must be specified at the time of order.

Extended Top Overhang

Rather than the standard 1/4" top overhang on all sides, this can be at 1/2" to facilitate moving of the cabinet for cleaning.

Master Key

Trevisa bedside tables have the option to lock with a master key. This must be specified on the order.
