DURABILITY   BY   DESIGN

MITYLITE™

MityLite's drive to launch meaningful innovative products is unprecedented. Among several recent accomplishments was our development of a custom chair design—from initial concept to reality—for the SLS Hotel & Casino®. We also brought to market a new upholstered seating line that transcends the typical banquet space and we expanded our Reveal linen-less table line to include mobile and specialty sizes.

MityLite will continue to set the industry standard for durably designed furniture that delivers a lower overall cost of ownership and improves the user experience.

We take great pride in serving our customers and are inspired by your loyalty and confidence in the MityLite brand. As we continue to grow, you can count on our talented team to deliver appealing furniture design that performs in demanding commercial environments to exceed your expectations. That is our promise to you and your organization.

Sincerely,

John Dudash
