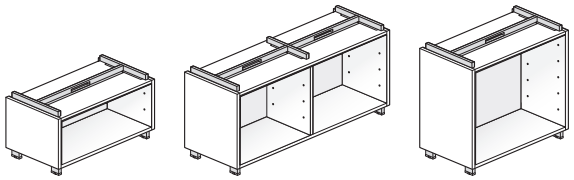
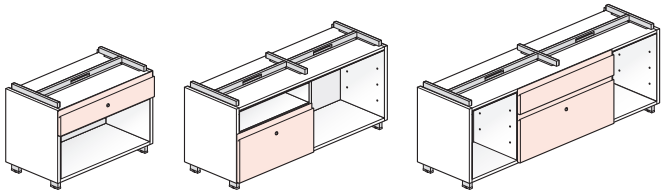
Functional Configuration Options

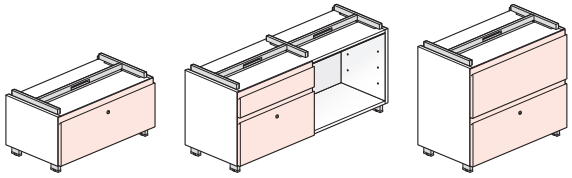
Open Storage



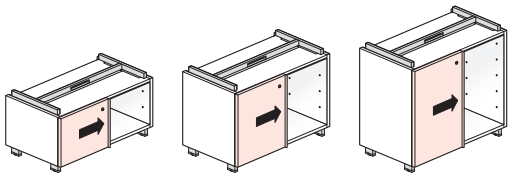
Open Storage With Drawer



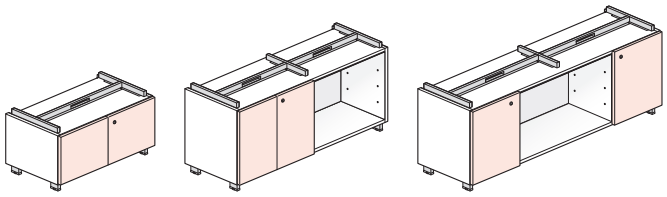
Drawer Combinations



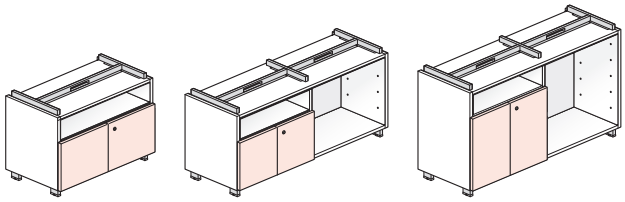
Single Sliding Door



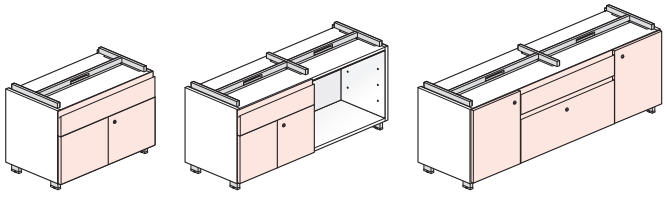
Hinged Door



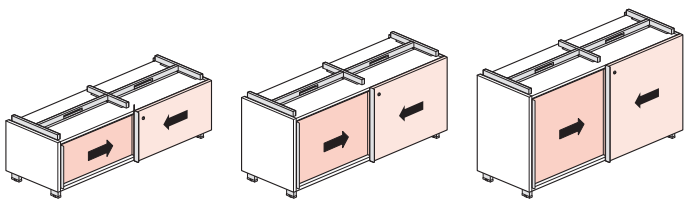
Hinged Door With Open Storage



Hinged Door With Drawer Combination



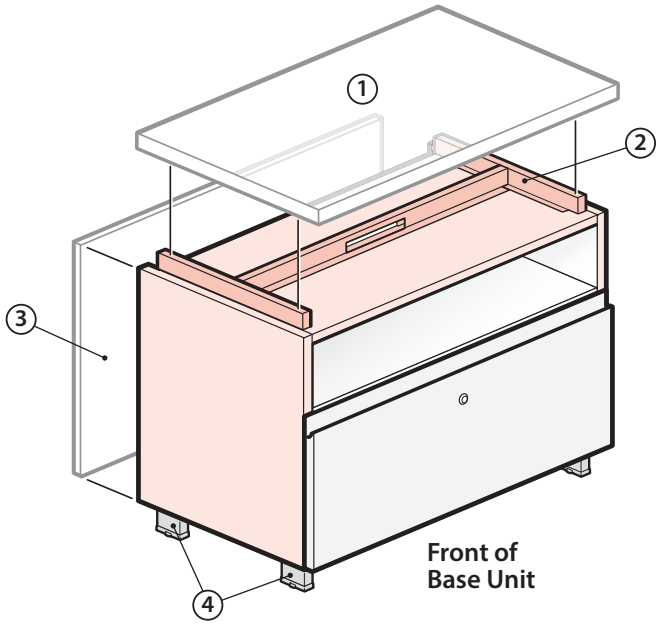
Double Sliding Door



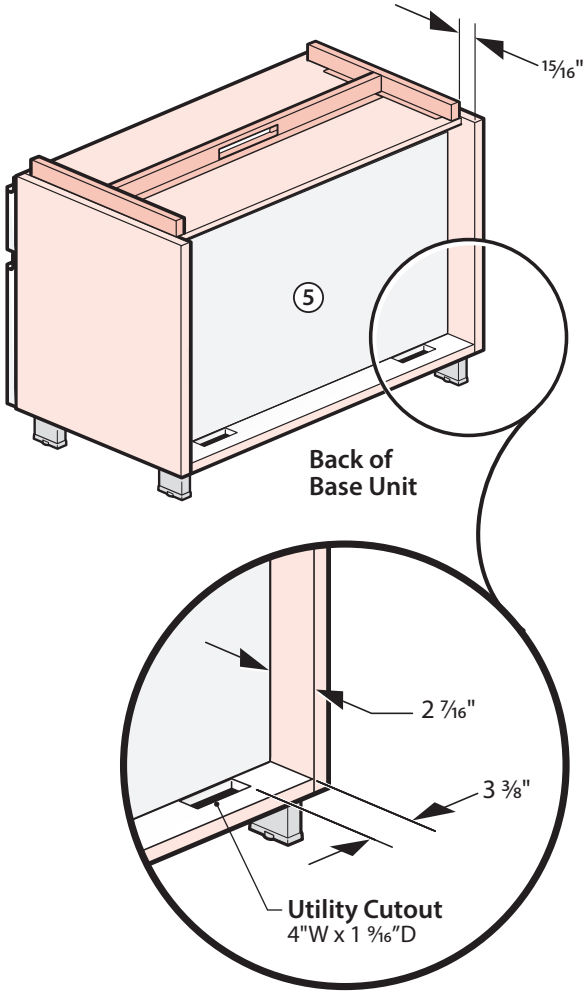
Note For all available height, width and functional configurations refer to the price list for product offerings.

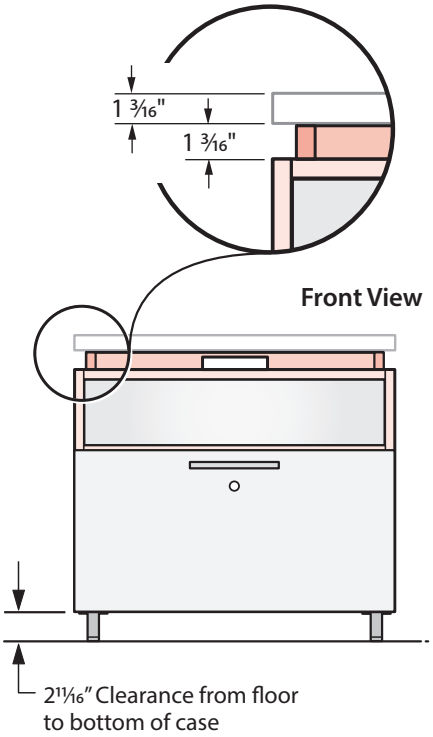
Base Units

Components



1. **Storage Top**
   - Required – Must be separately specified.
2. **Spacer**
   - Included with Base Unit
3. **Finished Back**
   - Optional– Must be separately specified.
4. **Legs**
   - Included with Base Unit.
   - Available with optional Straight Leg (F) or Chamfer Leg (P).
5. **Unfinished Inset Back**

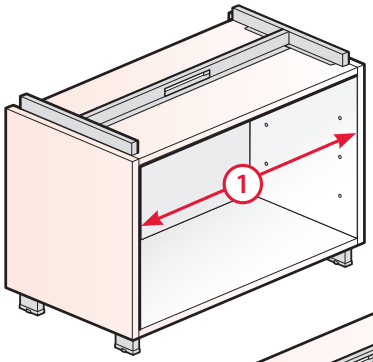




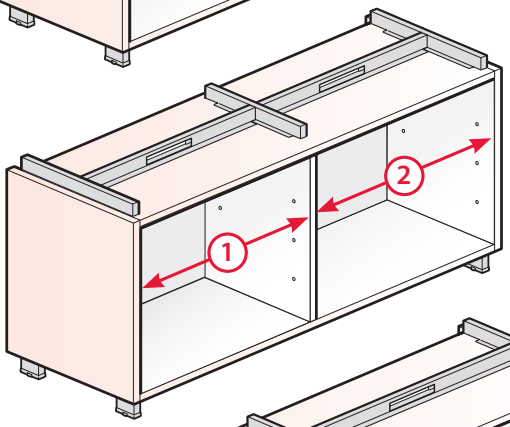
Base Units

Widths and Functional Sections

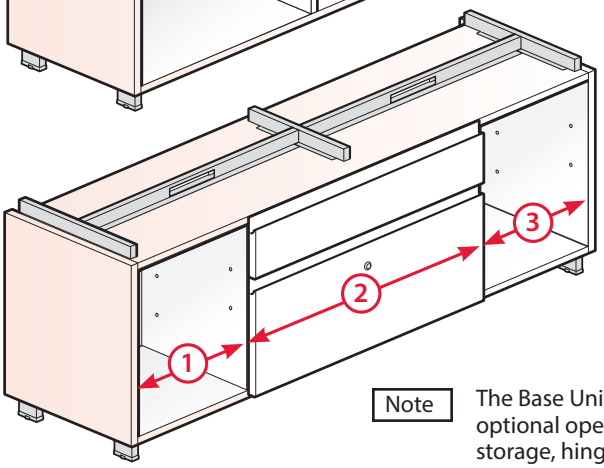
Another variable is a single, double or triple unit. This determines the number of functional sections within the Base Unit.



SINGLE WIDTH
- One functional section.
- 24", 30", 36" or 42" overall widths (depending on product offering - check price list for availability).



DOUBLE WIDTH
- Two functional sections.
- 24", 30", 36", 42", 48", 60" or 72" overall widths (depending on product offering - check price list for availability)

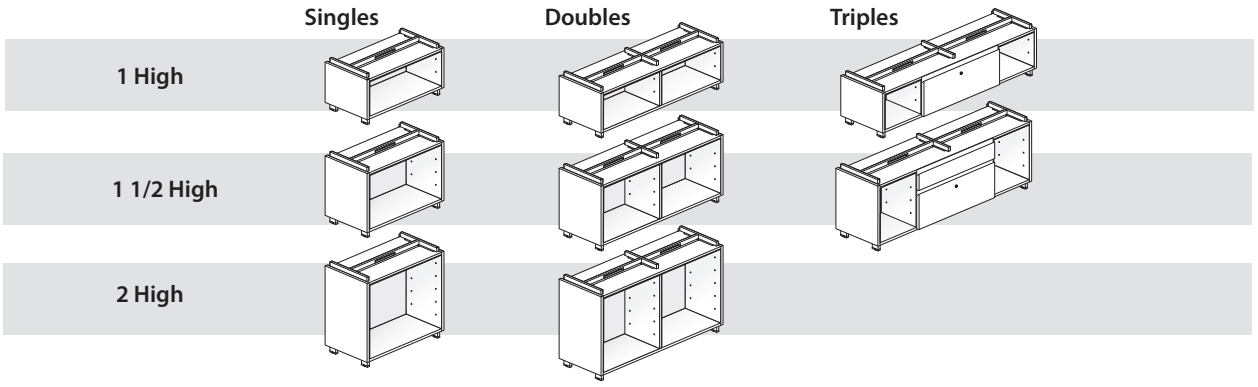


TRIPLE WIDTH
- Three functional sections.
- 48", 60" or 72" overall widths (depending on product configuration - check Price List for availability)

Note

The Base Unit functional configuration determines the functionality with optional open, open with drawer, drawer combinations, hinged door open storage, hinged door combination and sliding door units.

Beside Storage Base Unit Heights & Configurations For Storage Based Planning:



WIDTH	Base Unit Width Nominal (Actual)	24" (23 7/8") Wide	30" (29 7/8") Wide	36" (35 7/8") Wide	42" (41 7/8") Wide	48" (47 7/8") Wide	60" (59 7/8") Wide	72" (71 7/8") Wide

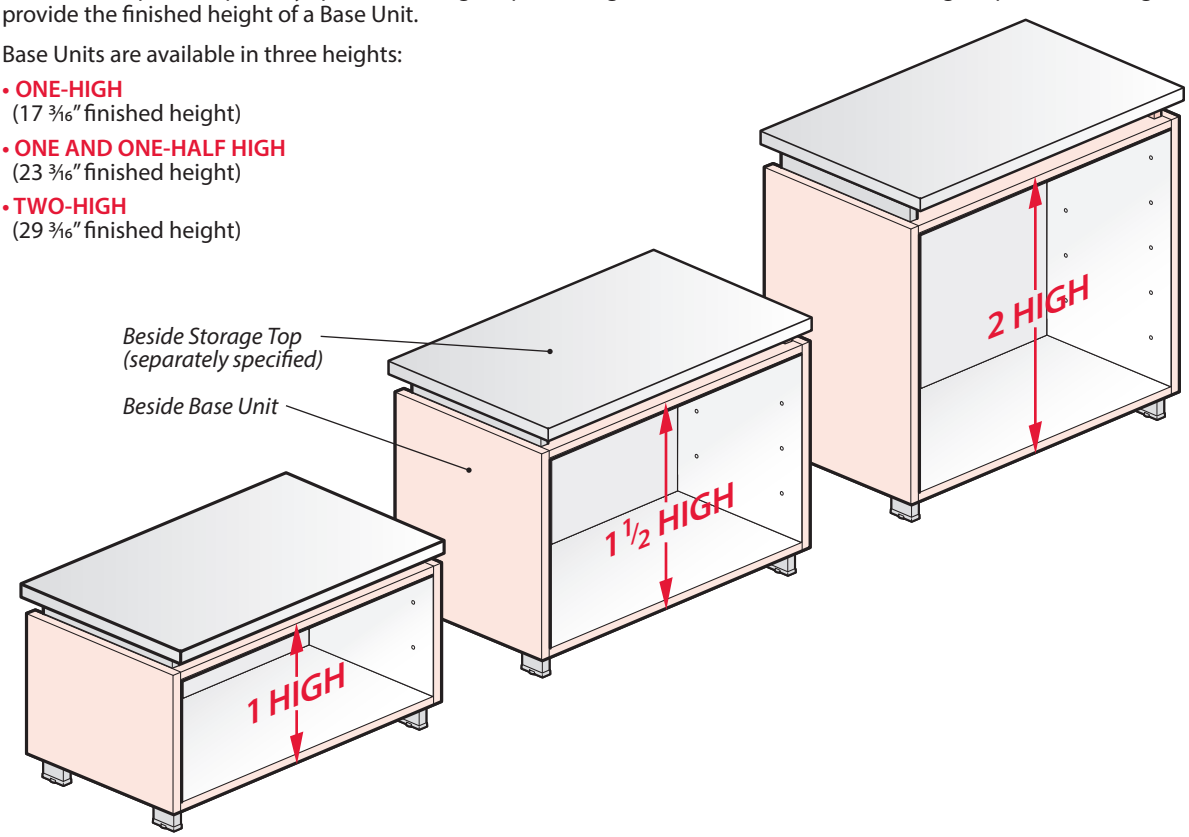
Base Units

Finished Heights

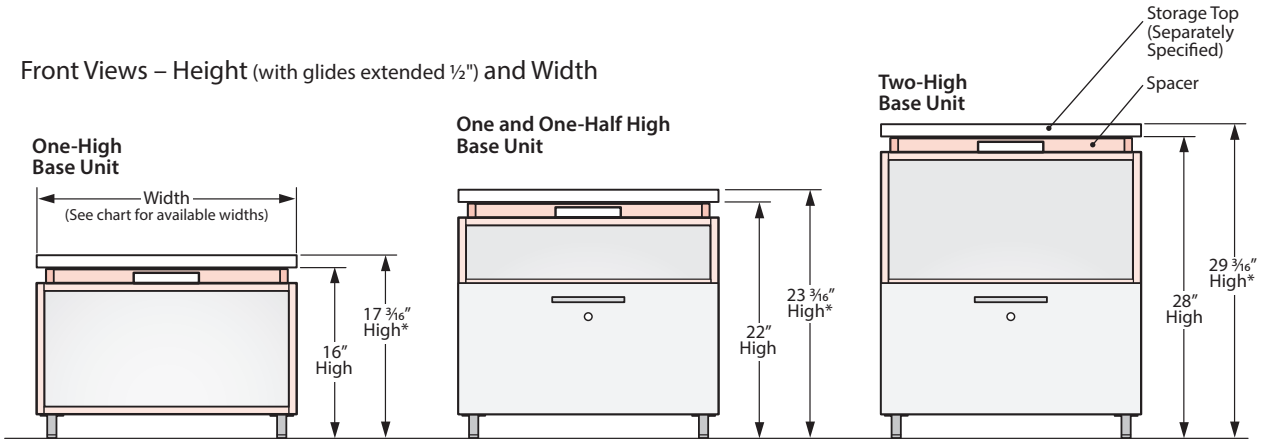
Base Units require a separately specified Storage Top. The height of the Base Unit and the Storage Top are added together to provide the finished height of a Base Unit.

Base Units are available in three heights:

- **ONE-HIGH**
  (17 3⁄16″ finished height)
- **ONE AND ONE-HALF HIGH**
  (23 3⁄16″ finished height)
- **TWO-HIGH**
  (29 3⁄16″ finished height)



Front Views – Height (with glides extended ½") and Width



* with glides extended ½"

Glide Adjustment Range:
- Straight Leg: 1 ½″
- Chamfer Leg: 1 ¼″

Tip • Storage Tops are required and must be separately specified.

Note
- Finished heights includes Beside Storage Top (separately specified), Base Unit, spacer and legs.
- Glide adjustment range: Straight Legs 1 ½″ and Chamfer Leg 1 ¼″.

Base Units

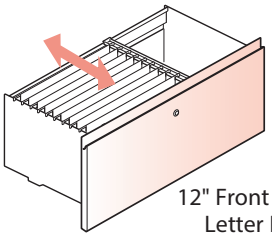
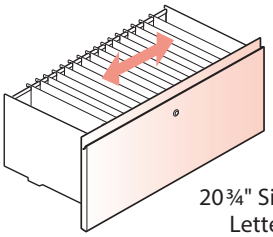
Drawer Capacity and Load

24" Wide File Drawer

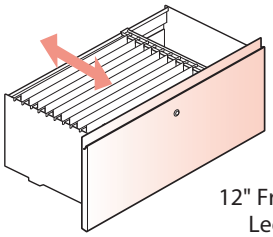
Available with the following Base Unit sizes: 24"W Single Width Base Units, 48" W Double Base Unit and 48" W Triple Width Base Units.



12" Front To Back
Letter Filing



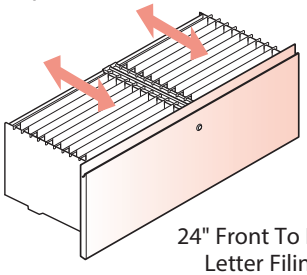
20¾" Side To Side
Letter Filing



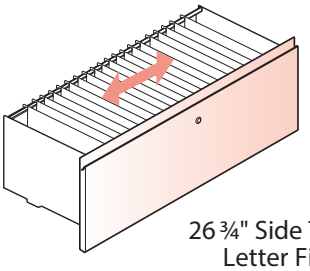
12" Front To Back
Legal Filing

30" – Wide File Drawer

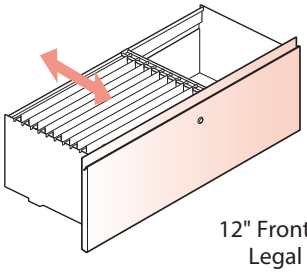
Available with the following Base Unit sizes: 30"W Single Width Base Units, 60"W Double Base Unit and 60" W Triple Width Base Units.



24" Front To Back
Letter Filing



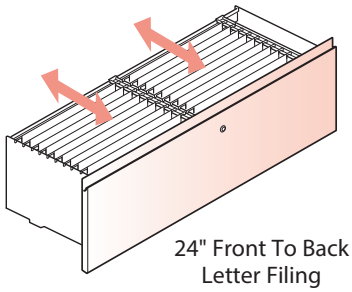
26 ¾" Side To Side
Letter Filing



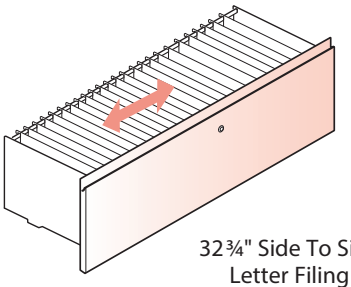
12" Front To Back
Legal Filing

36" – Wide File Drawer

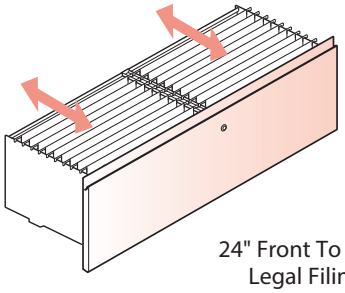
Available with the following Base Unit sizes: 36"W Single Width Base Units, 72"W Double Base Unit and 72 W Triple Width Base Units.



24" Front To Back
Letter Filing



32¾" Side To Side
Letter Filing



24" Front To Back
Legal Filing

File Drawer Load Capacities

Nominal Size	Depth	Width	Load
12"D x 24"W	13 9⁄16"	20 13⁄16"	44 lbs.
12"D x 30"W	13 9⁄16"	26 13⁄16"	57 lbs.
12"D x 36"W	13 9⁄16"	32 13⁄16"	70 lbs.

Box Drawer Load Capacities

Nominal Size	Depth	Width	Load
6"D x 24"W	13 9⁄16"	20 13⁄16"	16 lbs.
6"D x 30"W	13 9⁄16"	26 13⁄16"	20 lbs.
6"D x 36"W	13 9⁄16"	32 13⁄16"	25 lbs.

Note

- Drawer load ratings are based on BIFMA load requirement of 0.017 lbs per cubic inch of drawer volume.
- Side-to-side hanging bar positions are provided in each lateral file drawer to allow depth adjustment for different hanging folder sizes.
- Due to the clear height – there may be interference with some Pendaflex tabs.

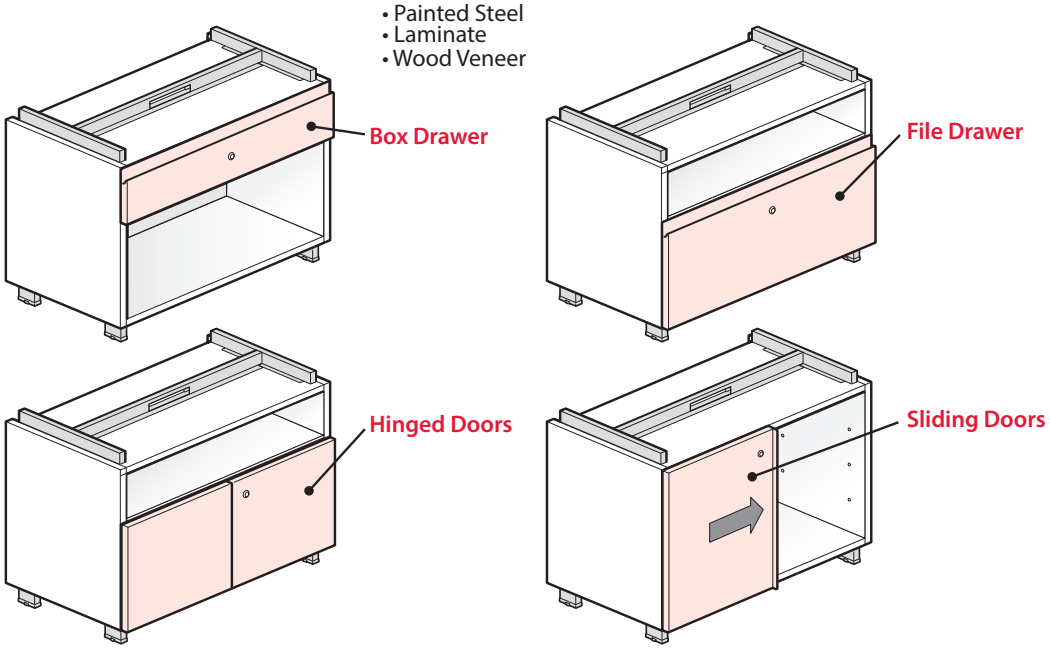
Functional Configurations

Storage Fronts:
- Painted Steel
- Laminate
- Wood Veneer



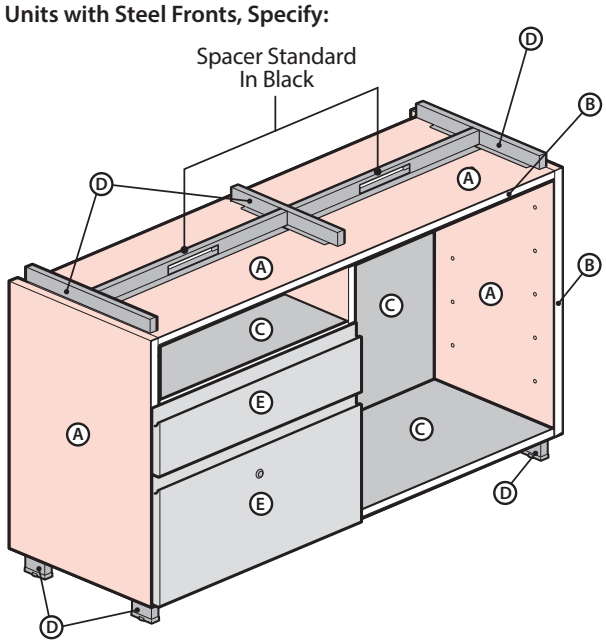
Note
- All Base Units require a separately specified Beside Storage Top.
- **Accessory Shelves and finished backs are not included in Base Units and must be separately specified as needed.**

Base Units

Order For Specifying Base Unit Colors

Base Units with Steel Fronts

To Order Base Units with Steel Fronts, Specify:



Option Ⓐ
Laminate
Case Color

Option Ⓑ
Laminate Case
Edgeband Color

Option Ⓒ
Bottom, inset
back and fixed
shelf trim color

Option Ⓓ
Leg and spacer
end trim color

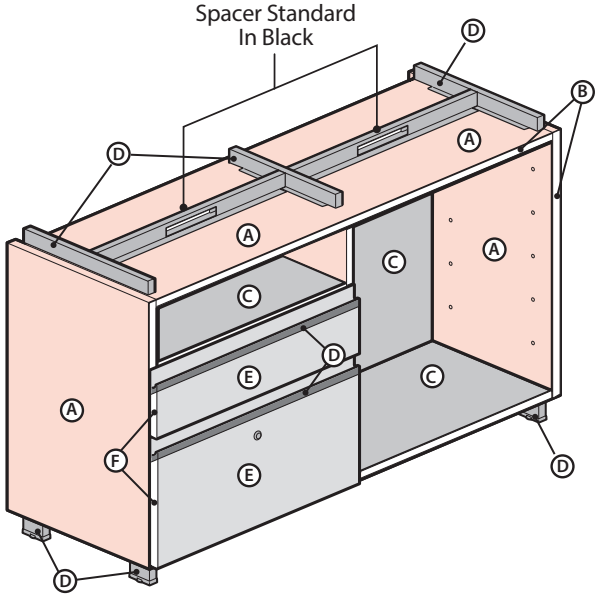
Option Ⓔ
Steel front color
(includes J-Pull)

Note

- All Base Units require a separately specified Beside Storage Top.
- Shelves and finished backs are not included in Base Units and must be separately specified as needed.
- Optional Lock comes standard in chrome.

Base Units with Laminate or Wood Fronts

To Order Base Units with Laminate or Wood Fronts, Specify:



Option Ⓐ
Case Color
- Laminate

Option Ⓑ
Case Edgeband
Color - Laminate

Option Ⓒ
Bottom, inset
back and fixed
shelf trim color

Option Ⓓ
Pull, leg and spacer
end trim color

Option Ⓔ
Material front
color

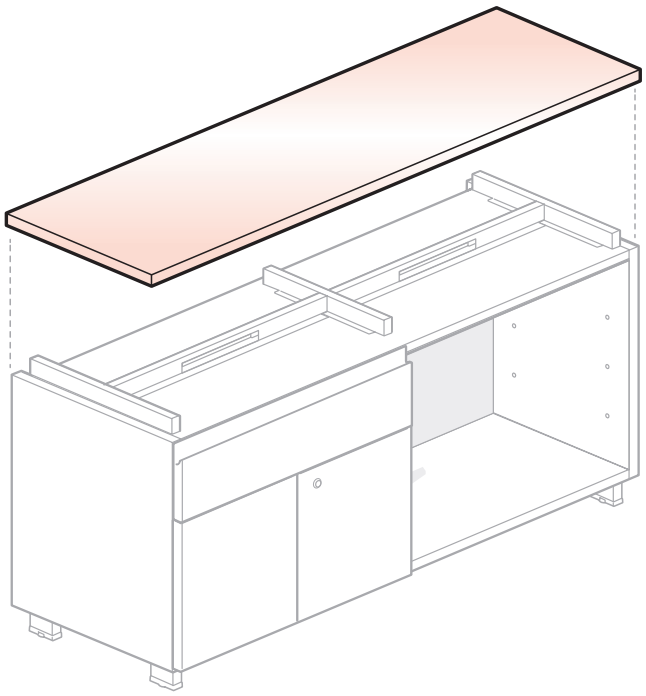
Option Ⓕ
Material front
edgeband color
- Laminate

Note

- **All Base Units require a separately specified Beside Storage Top.**
- **Accessory Shelves and finished backs are not included in Base Units and must be separately specified as needed.**
- Options listed by location not order of specification.
- Optional Lock comes standard in chrome.

Storage Top

Storage Tops for Beside Base Units



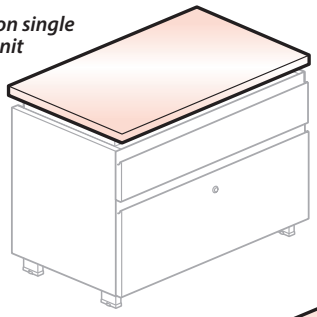
Separately specified Storage tops are required for all Base Units.

- Depths: 18" or 36"
- Widths: Range from 24" to 120"
- Available in laminate or wood with 3mm radius edgeband on front and back and 1mm edgeband on sides.
- Storage tops are for use with all heights - single, double or triple width Base Units.
- May be used on a single Base Unit or may span more than one side-by-side, in-line Base Units. Application may be mirrored for a back-to-back application.

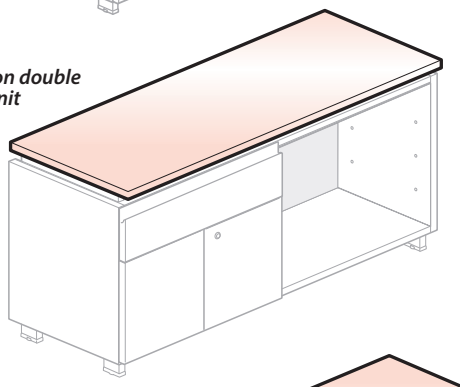
☑ **REQUIRED for all Base Units**

☑ **Separately Specified**

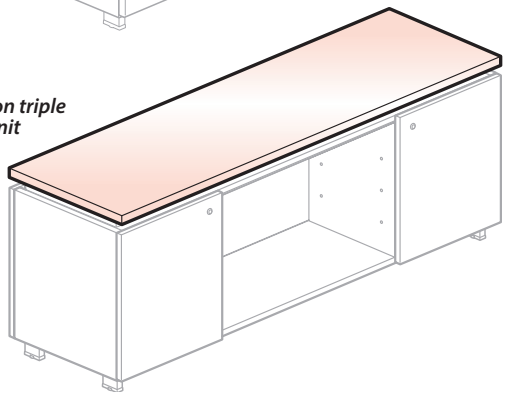
Storage Top on single width Base Unit



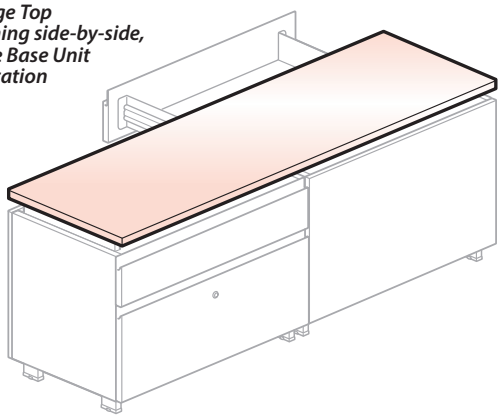
Storage Top on double width Base Unit



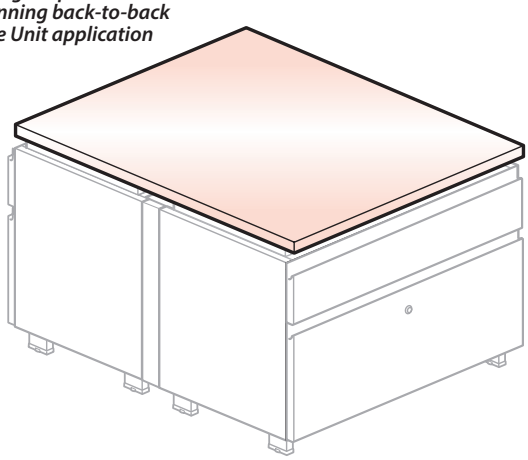
Storage Top on triple width Base Unit



Storage Top spanning side-by-side, in-line Base Unit application



Storage Top spanning back-to-back Base Unit application



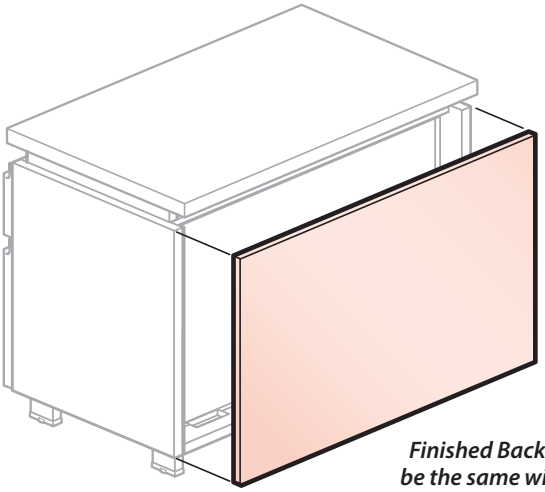
Finished Backs and Filler Panels

Finished Back for Beside Storage Base Units

Separately specified Finished Backs are needed to provide a finished back panel in an exposed back application.

- Widths range from 24" to 72".
- Finished Backs are available in steel, laminate or wood.
- Finished Backs are available for all Base Units heights: (One-High, One and One-Half High and Two-High)
- Finished Back width must match the Base Unit width.
- Not for use to span more than one side-by-side, in-line Base Units.
- Finished Backs add ¾" to the depth of the Base Unit.
- Not for use with Filler Panels.

☑ **Separately Specified as needed**



Finished Back must be the same width as the Base Unit.

Note • Finished Back is not for use with Filler Panels for dimensional reasons.

Filler Panel For Beside Storage Base Units

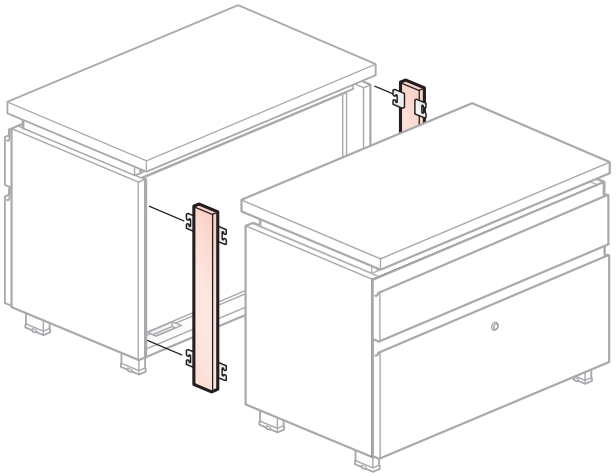
Separately specified Filler Panels are used to fill the open vertical gap between the back-to-back Base Units.

- Available in three depths and heights to accommodate specific applications:

  1.5" depth fills the gap between two back-to-back Base Units with separately specified Storage Tops. This depth Filler Panel is used when the backs of the Storage Top are flush to each other without a gap.

  2.8" depth fills the gap between two back-to-back Base Units with separately specified Storage Tops and one of the following component options: a Tool Rail, a Shared Screen or a Top Feed.

  5.1" depth fills the gap between two back-to-back Base Units with separately specified Storage Tops, (2) Tool Rails and a Center Screen.

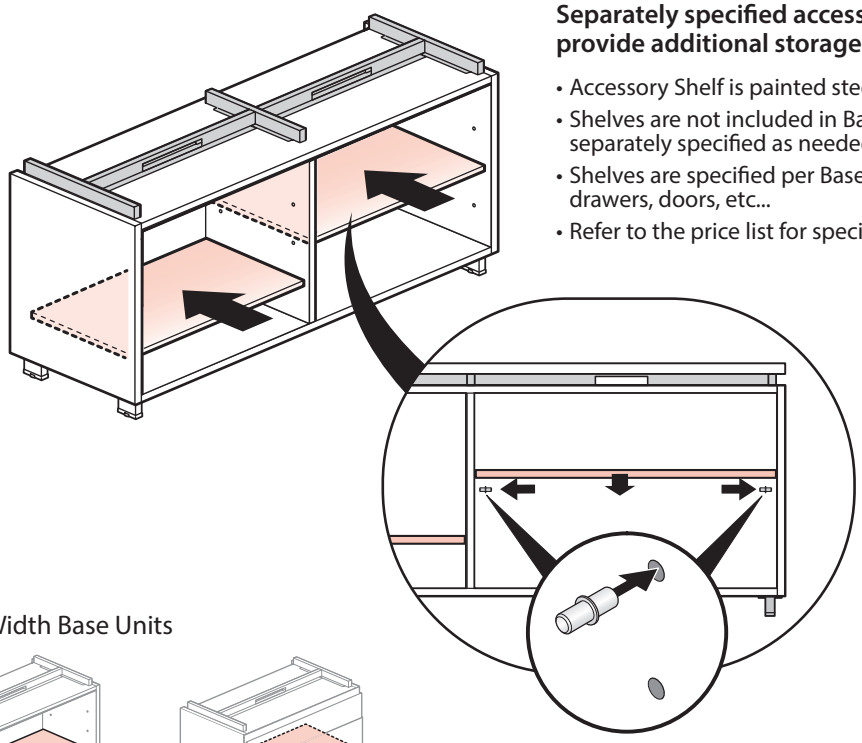


☑ **Separately Specified as needed**

Note
- Filler Panels do NOT gang units together. A separately specified ganging bracket is available for ganging Base Units to one another.
- Filler Panel is not for use with Finished Back for dimensional reasons.

Accessory Shelf

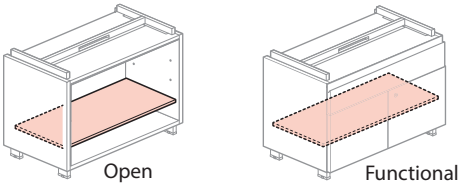
Accessory Shelf for Beside Base Units



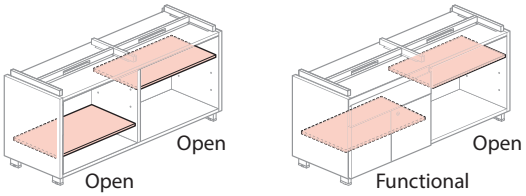
Separately specified accessory shelves are needed to provide additional storage within a Beside Base Unit.

- Accessory Shelf is painted steel.
- Shelves are not included in Base Units and must be separately specified as needed.
- Shelves are specified per Base Unit functionality; open, drawers, doors, etc...
- Refer to the price list for specification details.

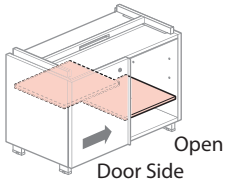
Single Width Base Units



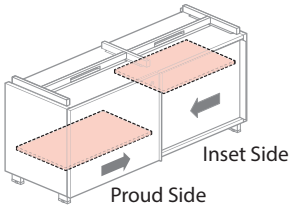
Double Width Base Units



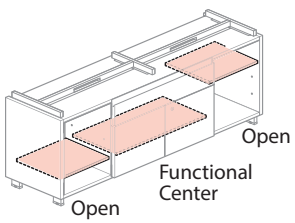
Single Sliding Door Base Units

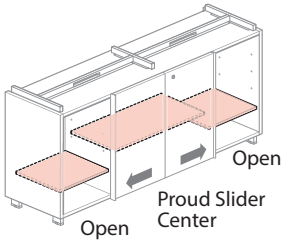


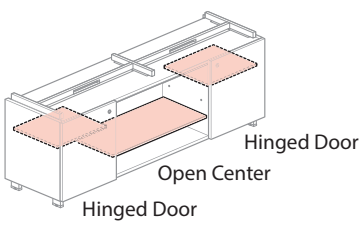
Double Sliding Doors Base Unit



Triple Width Base Units







Brackets

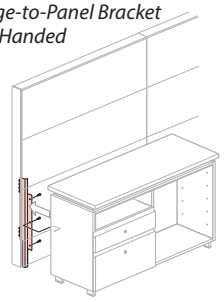
Storage-to-Panel Bracket

Separately specified Storage-to-Panel Bracket is required for the following application:

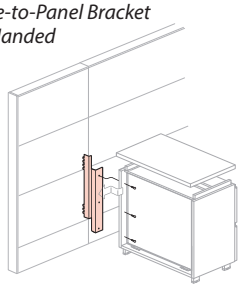
- To attach a Base Unit to a systems panel. Specify bracket to match height of Base Unit; 17" height for One-high, 23" height for One and One-Half high, and 29" height for Two-high.
- Specify a systems application specific bracket for Compose, PREMISE or UniGroup application.

☑ **Separately Specified as needed.**

Parallel to Panel Storage-to-Panel Bracket Right Handed



Perpendicular to Panel Storage-to-Panel Bracket Right Handed



Note

- Storage-to-Panel Bracket on a Two-High Base Unit provides Group A Panel Floor Support.
- Storage-to-Panel Bracket on a One-and-One-Half high Base Unit provides Group B Panel Floor Support.
- Storage-to-Panel Bracket on a One-High Base Unit secures storage to panel.
- Must be planned on-modular.

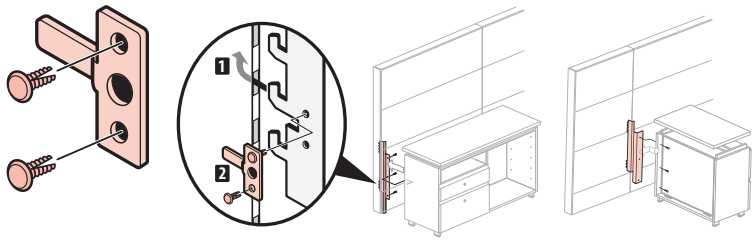
Adaptable Anti-Dislodgement Clip Kit

Separately specified Adaptable Anti-Dislodgement Clip Kit is required for the following application:

- An Adaptable Anti-Dislodgment Clip Kit used with a Beside Storage-to-Panel bracket locks the bracket into the panel frame. Used together they may potentially replace a return panel in some panel applications.

☑ **Separately Specified as needed.**

Adaptable Anti-Dislodgement Clip Kit



Note

- Adaptable Anti-Dislodgement Clip Kit is for use with a **Two-High** Beside Base Unit and a separately specified Storage-to-Panel bracket.

Desk-to-Storage Bracket

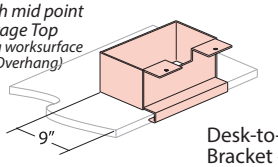
Separately specified Desk-to-Storage Bracket is required for the following application:

- In a One and One-Half high storage based planning model (Base Units function as application spine): Reside Worksurfaces are located perpendicular to the storage spine.
- Desk-to-Storage Bracket attaches to the front or back of One and One-Half Base Unit providing Beside Base Unit and Reside Worksurface required support.

☑ **Separately Specified as needed**

Half Cover – 9"

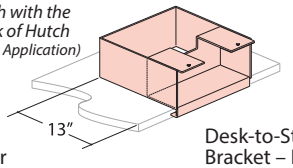
Aligns with mid point of Storage Top (for floating worksurface with 9" Overhang)



Desk-to-Storage Bracket – Half Cover ZUBG-29_ _-PNHC

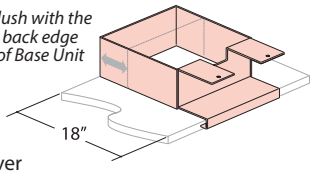
Full Cover –13"

Flush with the back of Hutch (Hutch Application)



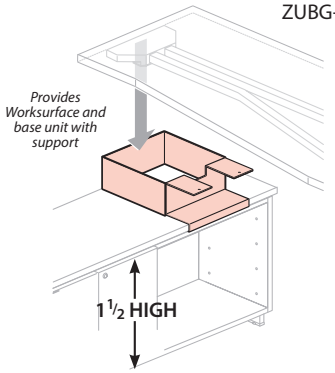
Full Cover – 18"

Flush with the back edge of Base Unit



Desk-to-Storage Bracket – Full Cover ZUBG-29_ _-PNFC

Provides Worksurface and base unit with support



Note

The Half Cover or Full Cover Desk-to-Storage Bracket product specification options allow the floating worksurface overhang dimension to be 9", 13" or 18".

Half Cover Option: The half cover results in the end of the worksurface to align mid point of the Base Unit depth resulting in a 9" floating worksurface overhang.

Full Cover Option: The cover is multifunctional and offers two planning options. In the 18" deep position the full cover aligns the end of the floating worksurface to be flush with the back edge of Base Unit with no overhang or the 13" deep position is used in Hutch application to position the floating worksurface adjacent to the back of the Hutch.

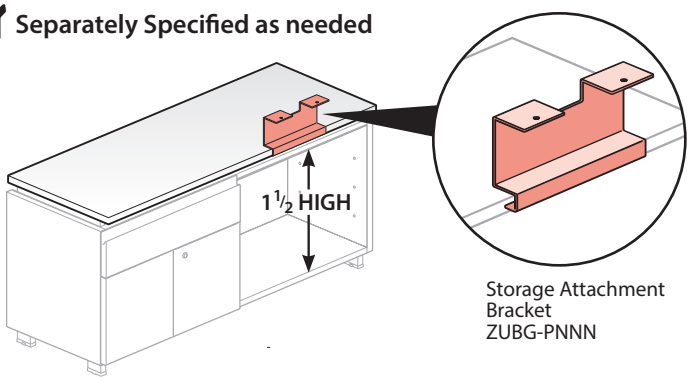
Brackets

Storage Attachment Bracket

Separately specified Storage Attachment Bracket is required for the following applications:

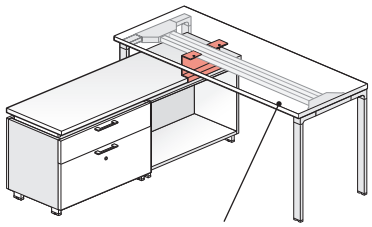
- To support a One and One-Half high Base Unit with drawer(s).
- Storage Attachment Bracket attaches to front or back of One and One-Half high Base Unit providing required support.

☑ **Separately Specified as needed**



Storage Attachment Bracket
ZUBG-PNNN

- **Provides support for Base Units with drawers.**
- **Does not provide support to the worksurface.**



Freestanding Reside Desk with (4) Straight Legs.

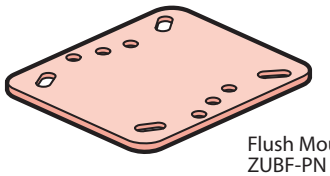
Note
- Storage Attachment Bracket does not provide Reside Worksurface support.
- In a benching application with One and One-Half Base Units perpendicular to a 24" depth worksurface the Base Unit must be located 6" for the back of the Worksurface to accommodate the Storage Attachment Bracket. This guideline applies to a 24" deep Worksurface, only.

Flush Mount Plate

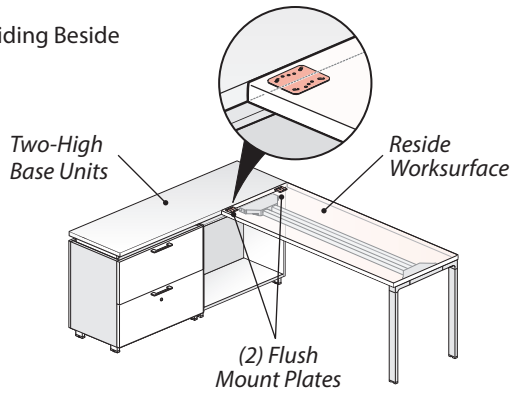
Separately specified Flush Mount Plates are required for the following application:

- In a Two-High Storage Based Planning Model (Base Units function as application spine): Reside Worksurfaces are located perpendicular to the storage spine.
- Two Flush Mount Plates attach to the top of a two-high Base Unit providing Beside Base Unit and Reside Worksurface required support.

☑ **Separately Specified as needed**



Flush Mount Plate
ZUBF-PN

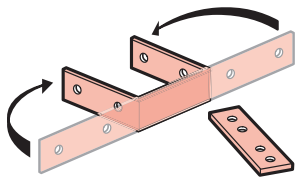


Note
- Reside Return Worksurfaces cannot be attached to a Beside Base Unit; applies to all Base Unit heights.

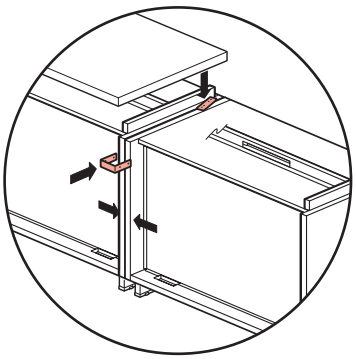
Ganging Bracket Kit

- Ganging Bracket Kit includes two brackets, one for in-line storage planning model and one flat bracket for back to back planning Model.
- Gangs two Base Units together back to back or in-line.

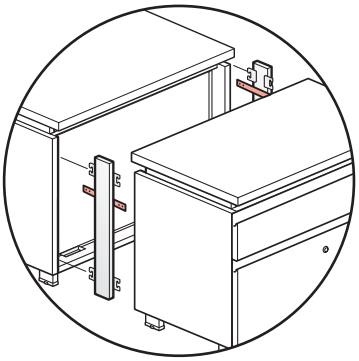
☑ **Separately Specified as needed**



Flush Mount Plate
QAGB



In-Line
Planning Model



Back-to-Back
Planning Model

Electrical Components

POWER IN

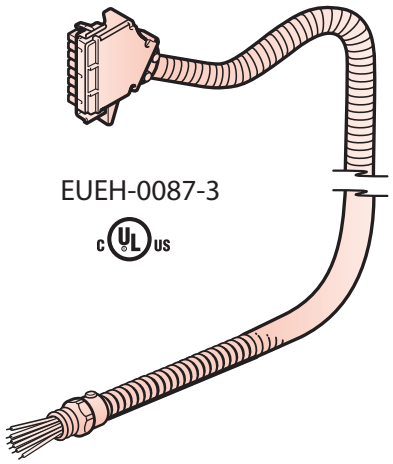
Infeed Harness

IN: Power to Beside Storage

The Infeed Harness is used to transition building wiring to modular power within the furniture. One end is hardwired to the building wiring and the modular end snaps into the Power Distribution Assembly (PDA) in the furniture. This connection may be used to bring power in from the base.

Specification Tips

- For use with 30"– 72" (762mm–1829mm) wide power components.
- Modular connector plugs into receptacle or power connector site on PDA.



POWER LOCATIONS

Infeed Harness Application

Internal Power Base AI Base Feed

IN: Power to Beside Storage

These modules are used to make plug-and-play connections between Power Base AI under floor modular power and Power Base modular power in furniture.

Specification Tips

- For use with 30"–72" wide power components.
- Can only be connected to Power Base AI underfloor power system.
- Black split tubing may be field supplied to cover any galvanized metal conduit.
- Attaches at receptacle or power connector site in PDA and to a Power Base AI underfloor power system.

Electrical Components

POWER IN

Base Feed Module: Architectural Concealed Hardwire Connection

IN: Power to Beside Storage

The module is used to transition building wiring to modular power within the furniture. The module's junction box is mounted to the furniture and its modular connector snaps into the power distribution assembly (PDA).

Specification Tips

- Attaches to PDA on Beside Storage Base Units 42" and wider.
- Attaches to the side on 30" and 36" wide Base Units that are 1½ high or 2 high.
- Modular connector plugs into a receptacle site on PDA.
- Conforms to New York City Electrical Code.

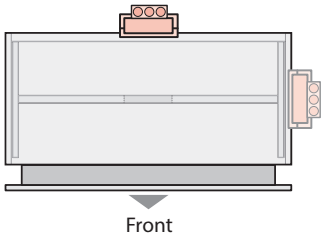
EQAG-0000-PT

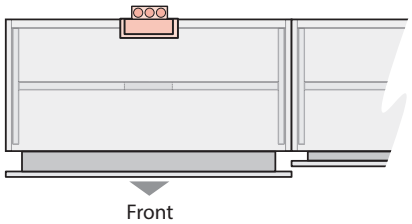
Do



For a Single Sided Storage application, the top feed mount may attach to the back of the Base Unit or to the side of the Base Unit at an end-of-run condition.

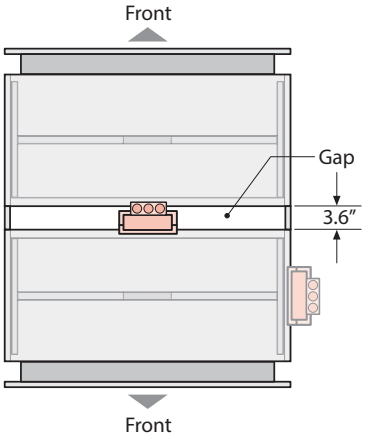
Note: If using Belong screens and/or rails allow for proper space allocation to accommodate the top feed.

Do



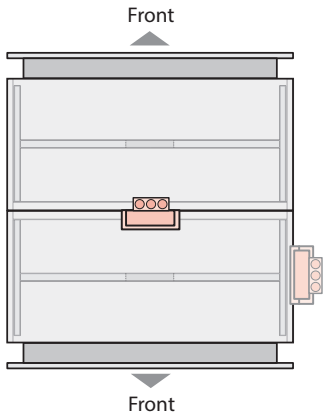
If the Top Feed is attached to a Storage Top with the use of a Top Feed Grommet and the Top Feed Pole. More than one Base Unit must be ganged together when the Top Feed is attached to the Storage Top.

Do



In a Double Sided storage application with a 3.6″ gap, the top feed may attach to the back of the Base Unit or to the side of the Base Unit at an end-of-run condition.

Do



In a Double Sided storage application with no gap, the top feed may attach to the top of the Storage Top with a separately specified Grommet and at the end-of-run condition.

Note: If using Belong Screens and/or Rails allow for proper space allocation to accommodate the Floor Mount Top Feed.

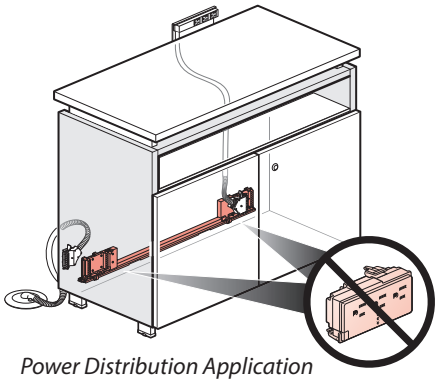
Electrical Components

POWER THROUGH

Power Distribution Assembly (PDA)

THROUGH: Power Distribution

A Power Distribution Assembly (PDA) is used to distribute power through the furniture. The PDA is used to connect electrical components such as in-feeds, jumpers, and power taps. The PDA has eight connection sites for the purpose of attaching these components. Receptacles cannot be attached to a PDA in a Beside Storage Base Unit, instead Power Taps should be utilized to access power.



Power Distribution Application

Specification Tips

- For use with 30"–72" (762mm–1829mm) wide Beside Storage Base Units.
- Match PDA width to storage width.
- One PDA cannot span multiple Base Units.
- Specify appropriate jumper when spanning power between powered storage or powered worksurfaces.
- A non-powered storage Base Unit can be powered with the addition of the Power Distribution Assembly (PDA).
- 24" wide Base Units do not accept power. A 76" Jumper must be used to pass power through a 24" Base Unit located between two powered Base Units in an in-line application.

Jumpers – Power Connectors

THROUGH: Power Distribution

These connectors are used to span power between Power Distribution Assemblies mounted in Beside Storage Base Units and/or between powered units (desk to desk / storage to storage / desk to storage / storage to desk). A Power Distribution Assembly (PDA) is separately specified to match the size of each storage unit.

Specification Tips

- Connectors cannot be coupled together.
- Jumpers are sized specific to the application.
- Jumpers can be used to pass through non-powered Base Units.
- A 76" jumper must be used to pass power through a 24" Base Unit located between two powered Base Units in an in-line application.

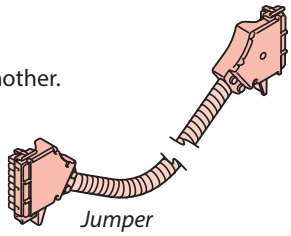
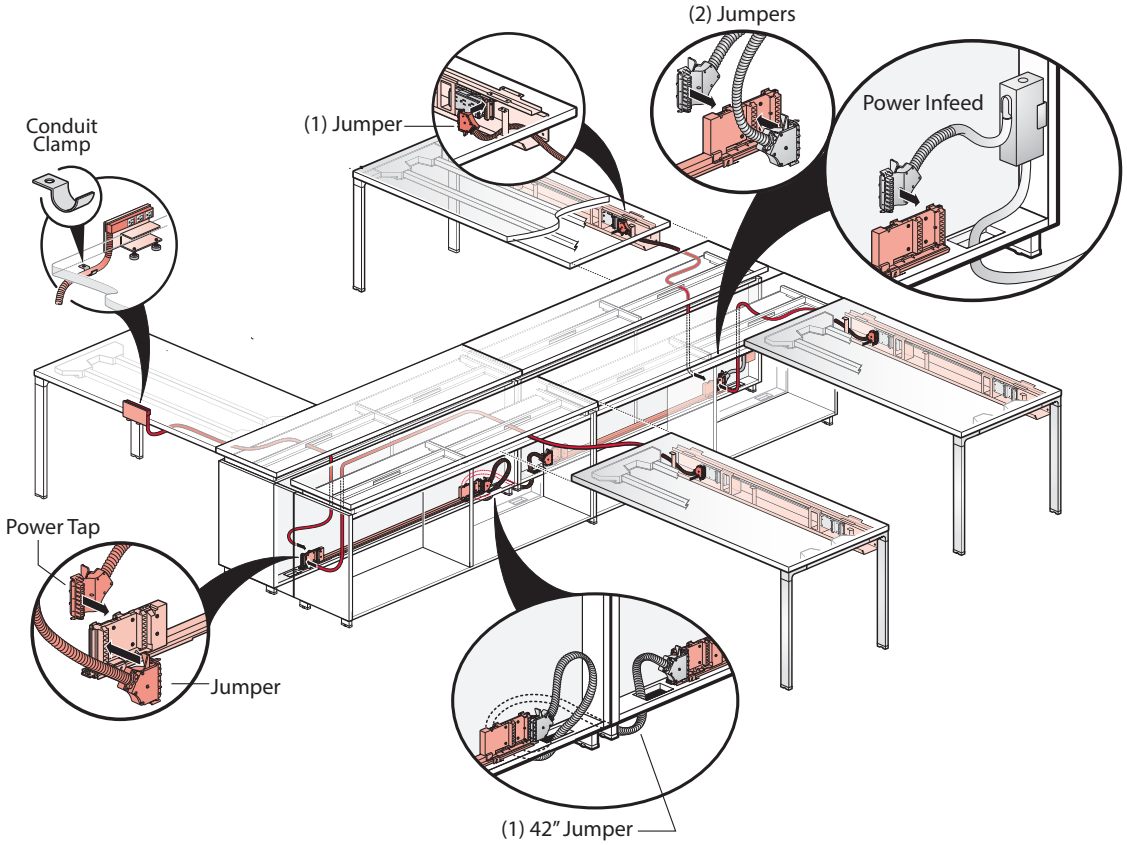
POWER THROUGH

Jumper – Application Guidelines

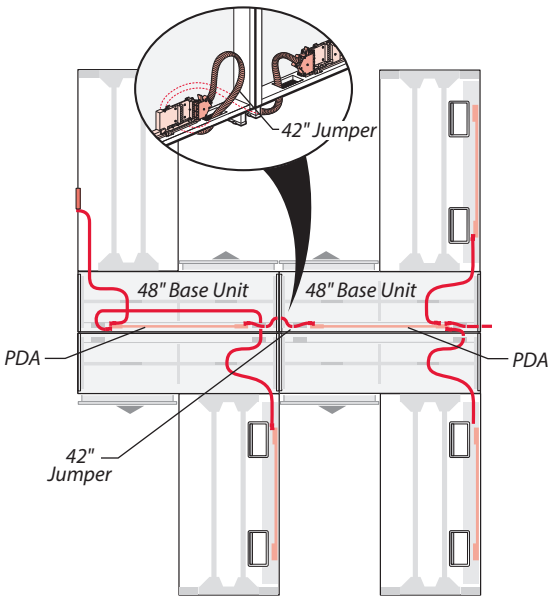
THROUGH: Power Distribution

- Separately specified Jumpers are used to distribute power from one powered storage unit to another.
- Jumper length for in-line Base Units with single sided access is 42".

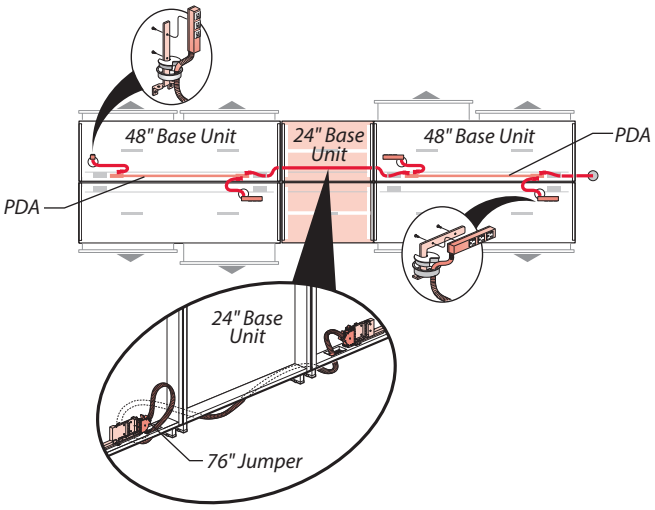




A 42" Jumper must be used to pass power between 48" Base Units in an in-line application.



24" wide Base Units do not accept power. A 76" Jumper must be used to pass power through a 24" Base Unit located between two powered Base Units in an in-line application.



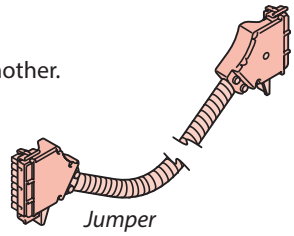
Electrical Components

POWER THROUGH

Jumper – Application Guidelines

THROUGH: Power Distribution

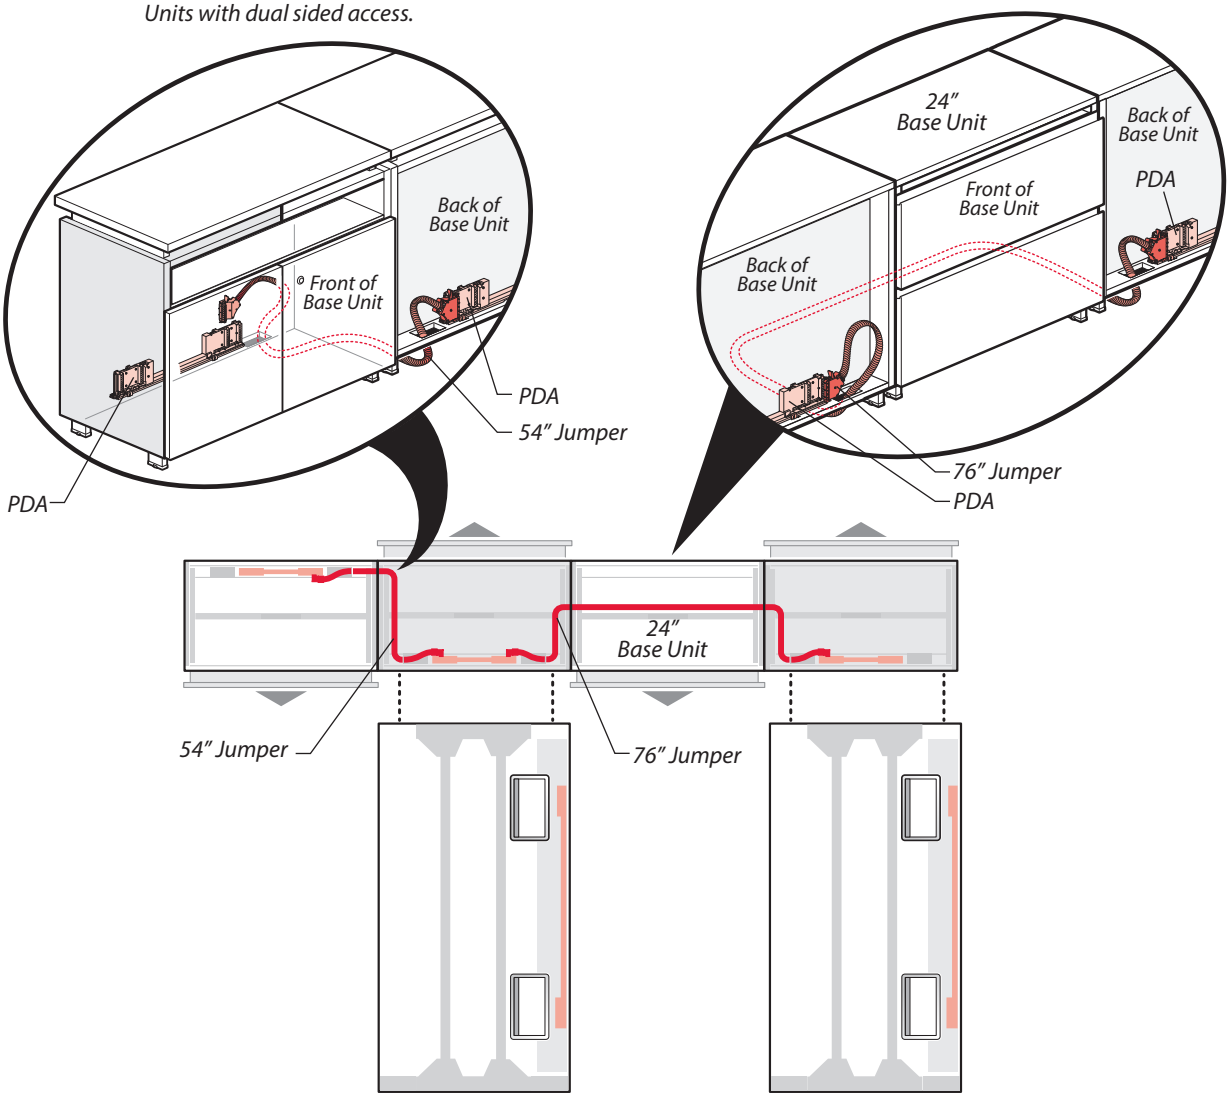
- Separately specified jumpers are used to distribute power from one powered storage unit to another.
- Jumper length for in-line Base Units with dual sided access is 54".
- Jumper length to pass power through a 24" Non-Powered Base Unit located between two powered Base Units in an in-line application is 76".



Recommended Jumper Lengths for dual sided in-line Base Units Applications:

*A **54" Jumper** must be used to pass power through in-line Base Units with dual sided access.*

24" wide Base Units do not accept power. A 76" Jumper must be used to pass power through a 24" Base Unit located between two powered Base Units in an in-line application.



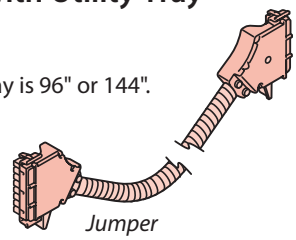
Electrical Components

POWER THROUGH

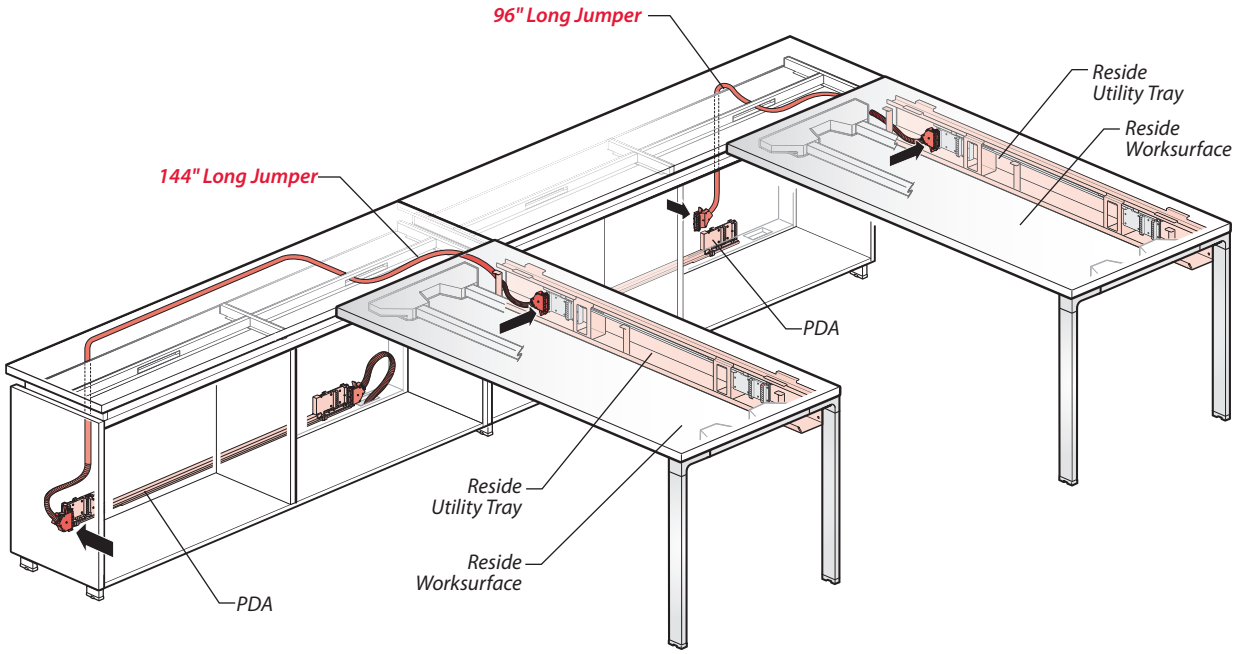
Calculating Jumper Length – Beside Storage to Reside Worksurface with Utility Tray

THROUGH: Power Distribution

Jumper length run from a 1½ High and 2 High Base Units to a Reside Worksurface with Utility Tray is 96" or 144".



Recommended Jumper Lengths for routing power from Beside Base Units with PDAs to Reside Worksurfaces with powered Utility Trays:



Electrical Components

POWER OUT

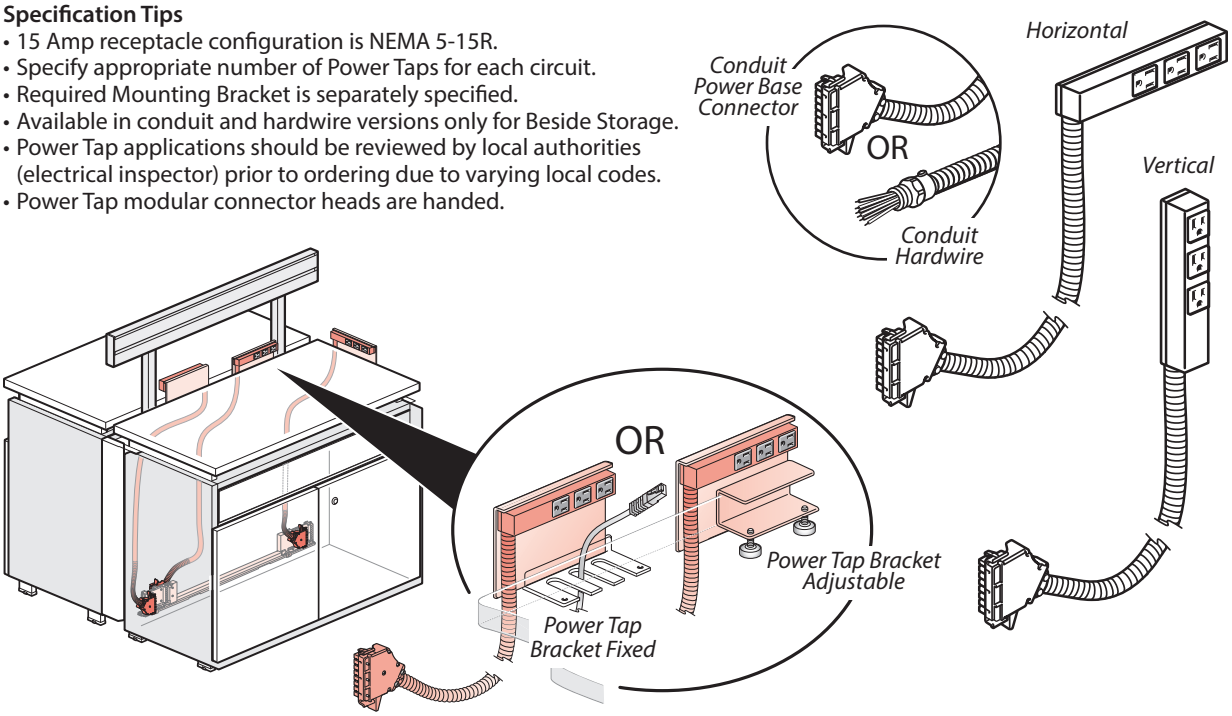
Power Taps

OUT: Receptacle Access

- Power Taps provide three 15A receptacle outlets in a housing that can attach to a separately specified Power Tap Bracket. Power Tap Brackets can be mounted through Storage Tops with grommets, to the back edge of a single sided storage application or in a double storage applications with 2.8" and 5.1" Filler Panels without Stanchion Kits.

Specification Tips

- 15 Amp receptacle configuration is NEMA 5-15R.
- Specify appropriate number of Power Taps for each circuit.
- Required Mounting Bracket is separately specified.
- Available in conduit and hardwire versions only for Beside Storage.
- Power Tap applications should be reviewed by local authorities (electrical inspector) prior to ordering due to varying local codes.
- Power Tap modular connector heads are handed.



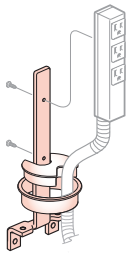
Power Tap Brackets

ACCESSORIES: Wire Management

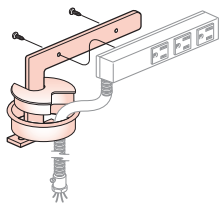
- Power Taps require a separately specified Power Tap Brackets to attach to Beside Storage Base Units.
- Power Tap Bracket types – with Grommet (Vertical and Horizontal), Fixed, or Adjustable

Power Tap Brackets With Grommet – Vertical / Horizontal

- Power Tap Bracket with Grommet – Horizontal and Vertical are specified for:
  - Single sided storage applications with or without Stanchion Kits.
  - Double sided storage applications with or without Stanchion Kits.
- Power Tap Bracket with Grommet – Horizontal mounts to Beside Storage Top through field installed grommet. Horizontal Power Tap required.
- Power Tap Bracket with Grommet – Vertical mounts to Beside Storage Top through field installed grommet. Vertical Power Tap required.
- Always use Power Tap Bracket with Grommet if Stanchion Kit(s) block access to back edge of Storage Top(s).



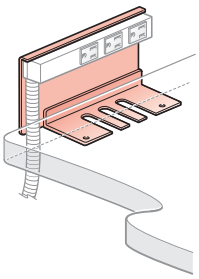
Power Tap Bracket with Grommet – Vertical



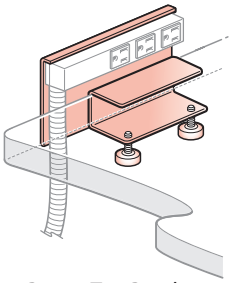
Power Tap Bracket with Grommet – Horizontal

Power Tap Brackets – Fixed / Adjustable

- Power Tap Bracket – Fixed and Adjustable are specified for:
  - Single sided storage applications.
  - Double sided storage applications with 2.8" and 5.1" Filler Panels without Stanchion Kits.
- Power Tap Bracket – Fixed and Adjustable mount to back edge of Storage Top(s). Horizontal Power Tap required.
- Power Tap applications should be reviewed by local authorities (electrical inspector) prior to ordering due to varying local codes.



Power Tap Bracket Fixed



Power Tap Bracket Adjustable

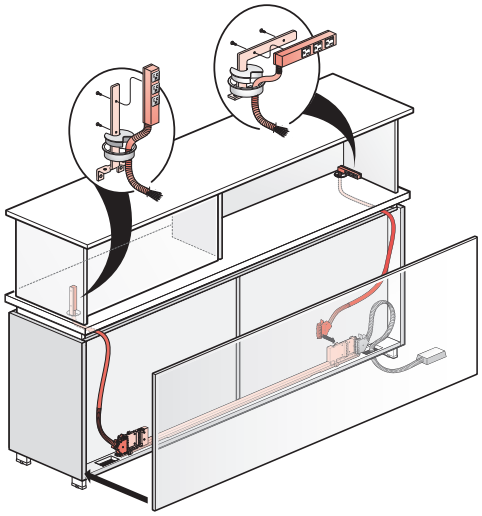
Electrical Components

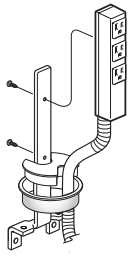
POWER OUT

Power Tap and Power Tap Bracket Guidelines

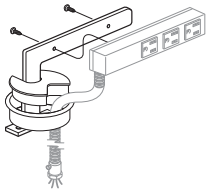
OUT: Receptacle Access – Power Tap and Power Tap Bracket Guidelines

Do For power access in Beside Storage applications with stanchions only the Power Tap (vertical or horizontal) and corresponding Power Tap Bracket with Grommet (vertical or horizontal) can be used.



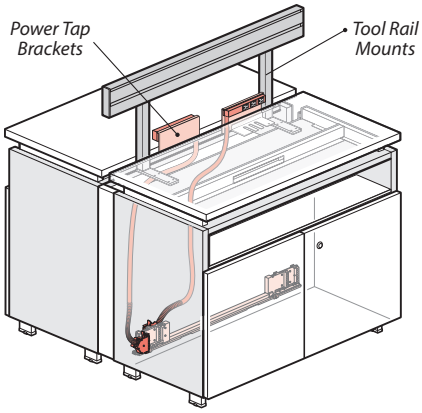


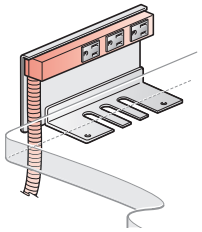
Power Tap – Vertical and Power Tap Bracket with Grommet – Vertical



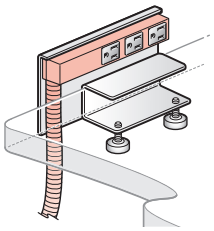
Power Tap – Horizontal and Power Tap Bracket with Grommet – Horizontal

Do When planning with Power Tap Brackets in benching or desking and storage based applications make certain that there are no clearance or mounting issues with other Electrical Components, Tool Rail Mounts, Center or Back Screen Mounts or Worksurface Support Components.



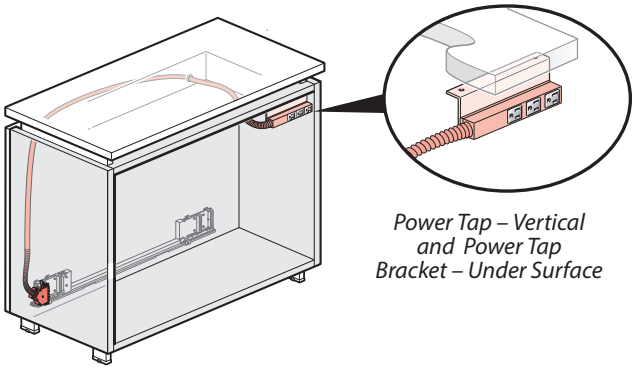


Power Tap – Horizontal and Power Tap Bracket Fixed

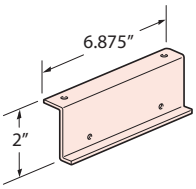


Power Tap – Horizontal and Power Tap Bracket Adjustable

Do The Power Tap – Vertical and the Power Tap Bracket – Under Surface may be used to access power inside Base Units.



Power Tap – Vertical and Power Tap Bracket – Under Surface



Power Tap Bracket – Under Surface

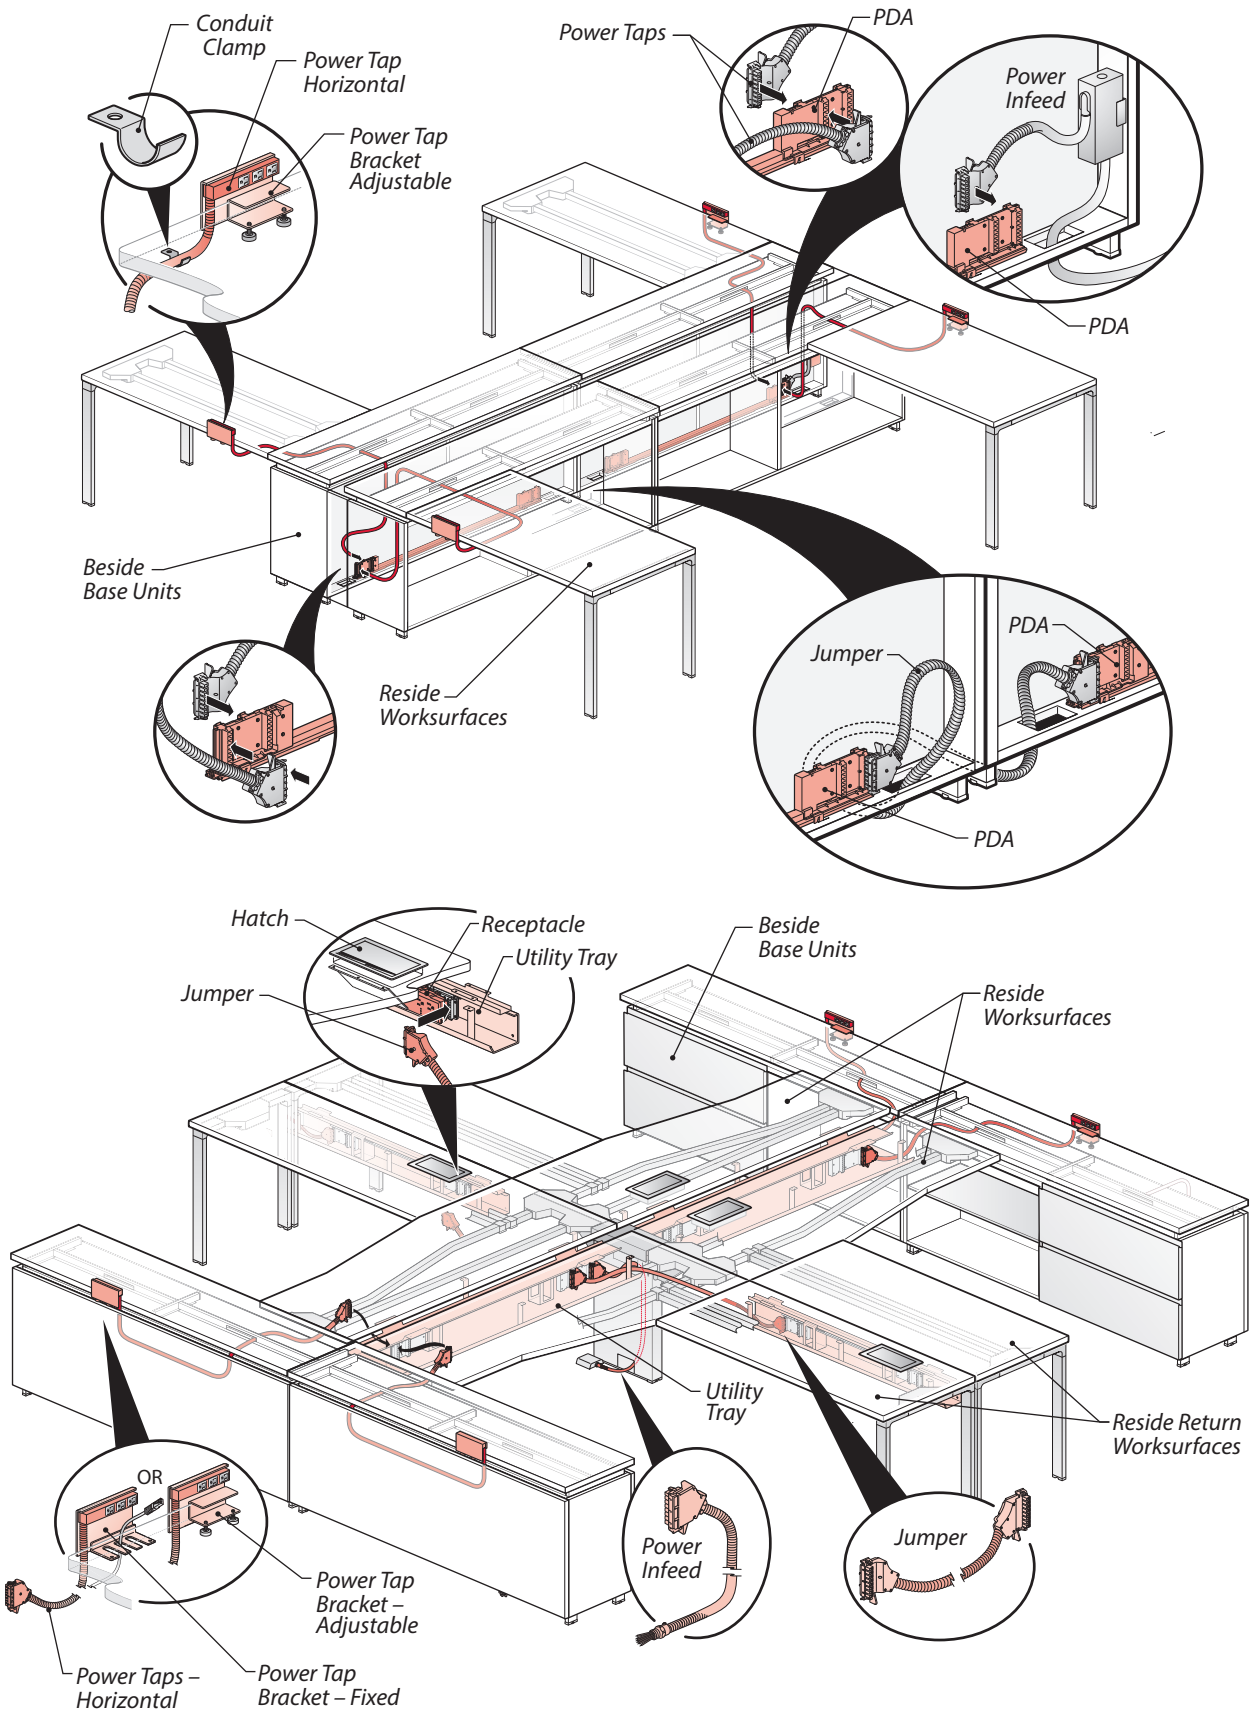
Typical Conduit Routing For Beside Storage / Reside Desking Applications



Stanchion Kits

Configurations

- Stanchion Kits are available in six heights 10", 11", 12", 15", 16", 18".
- Widths are determined per kit type, 24", 30", 36", 42" 48", 54", 60", 66", and 72".
- The Stanchion configuration determines the amount of enclosure and the inclusion of accessory slots for Belong accessories.

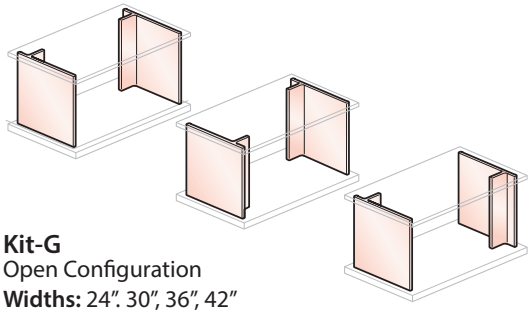
Catalog logic drives the **Stanchion configuration**. Configurations can be open, partially enclosed or fully enclosed. Each configuration is available with or without a division.

Catalog Logic:

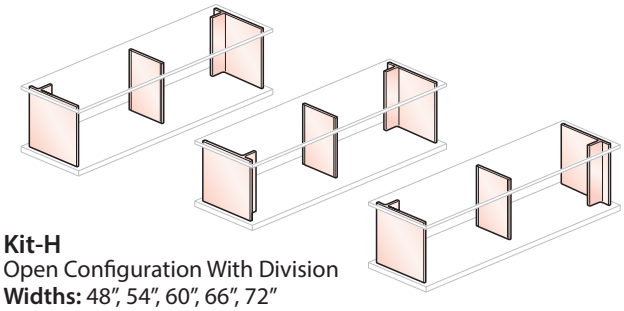
Product/Catalog Number:
QUSS-1036-PEA
Configuration

G – Open
H – Open with Division
M – Partial Enclosure
N – Partial Enclosure with Division
P – Full Enclosure
Q – Full Enclosure with Division

Open Configuration – Stanchion Kits:



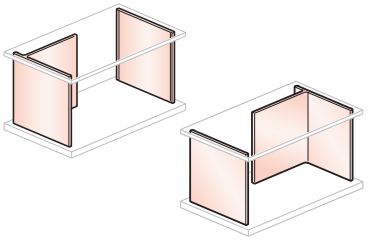
Kit-G
Open Configuration
Widths: 24". 30", 36", 42"



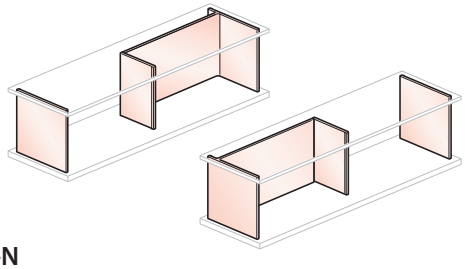
Kit-H
Open Configuration With Division
Widths: 48", 54", 60", 66", 72"

Note — Open configuration Stanchion Kits (Kit-G and Kit-H) are not available with accessory slots.

Partial Enclosure Configuration – Stanchion Kits:



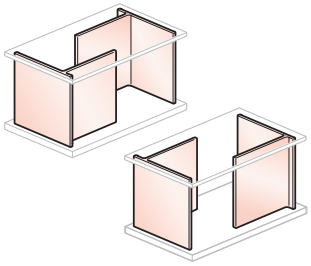
Kit-M
Partial Enclosure Configuration
Widths: 24". 30", 36", 42"



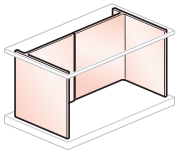
Kit-N
Partial Enclosure Configuration With Division
Widths: 48", 54", 60", 66", 72"

Note — Partial enclosure configuration Stanchion Kits (Kit-M and Kit-N) are available with or without accessory slots. Refer to price list for details.

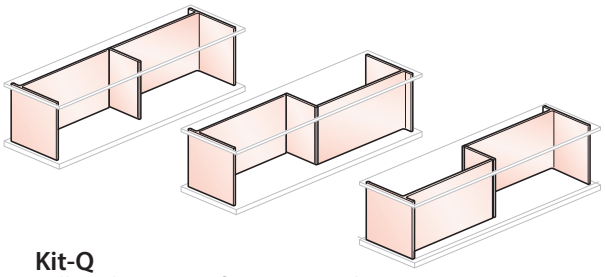
Full Enclosure Configurations – Stanchion Kits:



Kit-P (Mirror Image Application)
Full Enclosure Configuration
Widths: 24", 30", 36", 42", 48", 54", 60", 66", 72"



Kit-P (In-line Application)
Full Enclosure Configuration
Widths: 24", 30", 36", 42"



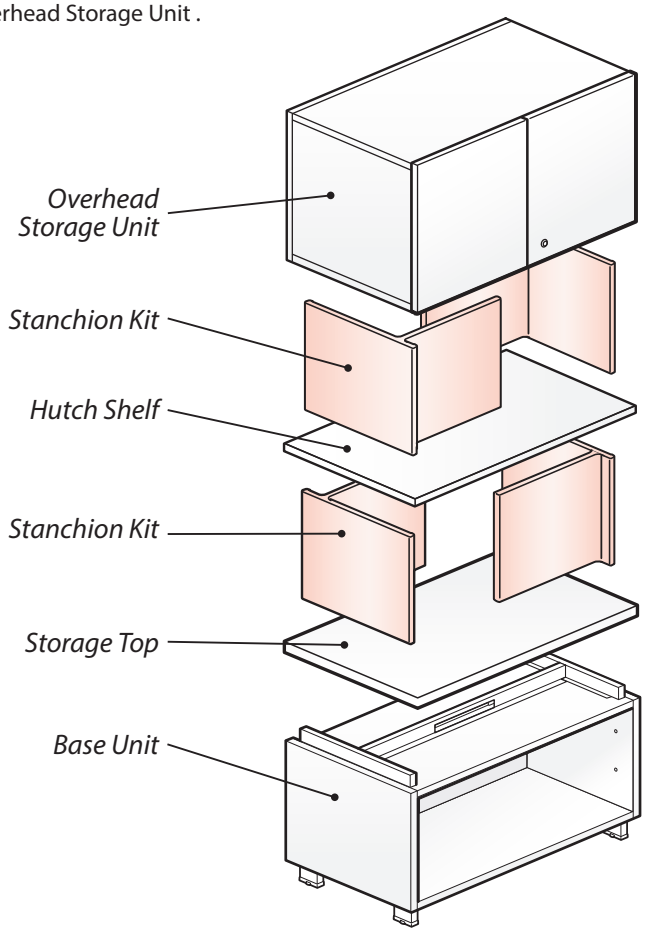
Kit-Q
Full Enclosure Configuration With Division
Widths: 48", 54", 60", 66", 72"

Note
- Stanchion Kit P can be applied in an in-line condition up to 42". Greater than 42" requires the product to be installed in a mirror image application only.
- Full enclosure configuration Stanchion Kits (Kit-P and Kit-Q) are available with or without accessory slots. Refer to price list for details.

Stanchion Kits

Application Guidelines

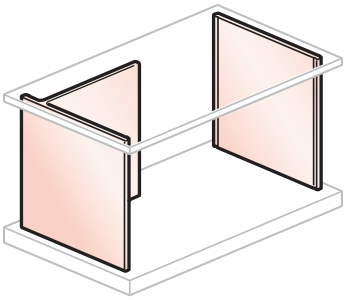
Stanchion Kit applications consist of separately specified components: Base Unit, Storage Top, Stanchion Kit and Hutch Shelf or Overhead Storage Unit .



- Stanchion Kits include vertical Stanchion panels and attachment hardware
- All kits have a left and a right Stanchion. Select kits have a center Stanchion.
- Stanchion Kits are for use on Base Units with Storage Top, only.
- Hutch Shelf , Stanchion Kits and Overhead Storage Unit applications must not exceed 58" in height.

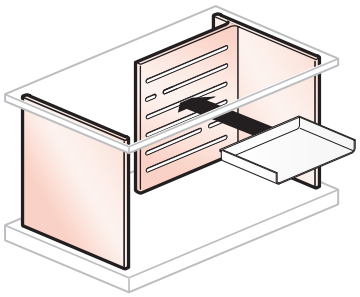
Accessory Slot Functionality

- Stanchion Kits slots may be specified for user side access or access on both sides.
- For accessory slot functionality per Stanchion Kit type refer to the price list for detailed product offering.
- Belong tools may be separately specified for Stanchion Kits if specified with accessory slots.



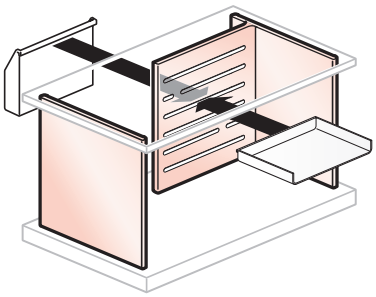
No Accessory Slots

- Not for use with Belong accessories.



User Side Accessory Slots

- For use with separately specified Belong accessories.
- Right hand Stanchion is shown with user sided accessory slot option. Provides single user accessory access.



Both Sided Accessory Slots

- For use with separately specified Belong accessories.
- Right hand Stanchion is shown with both sided accessory slot option. Provides dual user accessory access.

Note Verify Stanchion height will accommodate needed accessories and tools.

Stanchion Kits

Specifying Accessory Slot Functionality

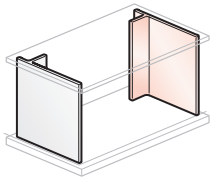
- Stanchion Kits with the accessory slot functionality offer multiple slot locations ranging from left side, right side or both sides.
- Slots may be specified for user side access or access on both sides.
- For available width and accessory functionality refer to the price list for detailed product offering.

Catalog Logic:

Product/Catalog Number:
QUSS-1036-PE(A)
Accessory Functionality

Catalog logic drives **accessory slot** location for fully enclosed (kit-P and kit-Q) and partially enclosed (kit-N and kit-M) Stanchion Kit configurations. Open configurations (kit-H and kit-G) are not available with accessory slots.

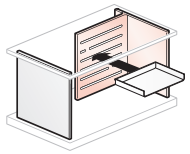
Open Configuration – Kit-H and Kit-G



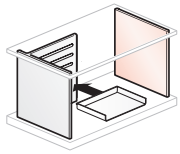
N No Slots

Note: Open configuration Stanchion Kits (Kit-G and Kit-H) are not available with accessory slots.

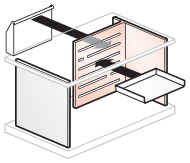
Partial Enclosure Configuration – Kit-N and Kit-M



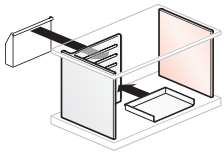
A User sided accessory slot for right hand Stanchion.



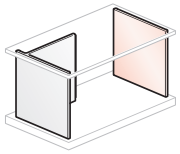
B User sided accessory slot for left hand Stanchion.



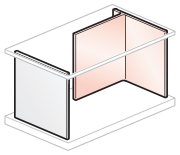
D Both side accessory slot for right hand Stanchion.



E Both side accessory slot for left hand Stanchion.

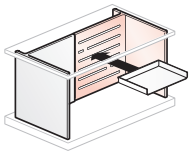


L No accessory slot for left hand Stanchion.

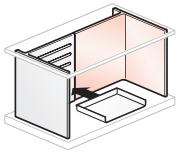


R No accessory slot for right hand Stanchion.

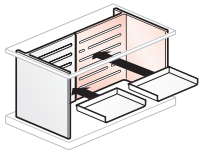
Full Enclosure Configuration – Kit-P and Kit-Q



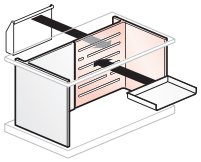
A User sided accessory slot for right hand Stanchion.



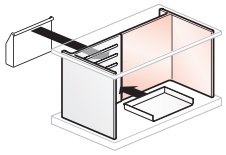
B User sided accessory slot for left hand Stanchion.



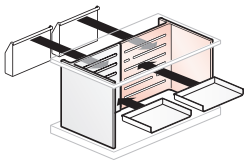
C User sided accessory slot for right and left hand Stanchion.



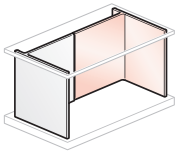
D Both side accessory slot for right hand Stanchion.



E Both side accessory slot for left hand Stanchion.



F Both sided accessory slot for right and left hand Stanchion.



N No Slots

Tip
- Back panel determines handedness of accessory slot functionality.
- Installation drawings must depict Stanchion Kit orientation and color selection to ensure design intent.

Stanchion Kits

Accessory Slot Dimensions – 24" Wide Stanchions

• Stanchion Accessory Slots may be used to accommodate separately specified Belong hanging accessories.

Belong Hanging Accessories – Dimensions

Paper Tray – Landscape

• May be mounted on Stanchion Accessory Slots larger than **12 ¾"** wide.

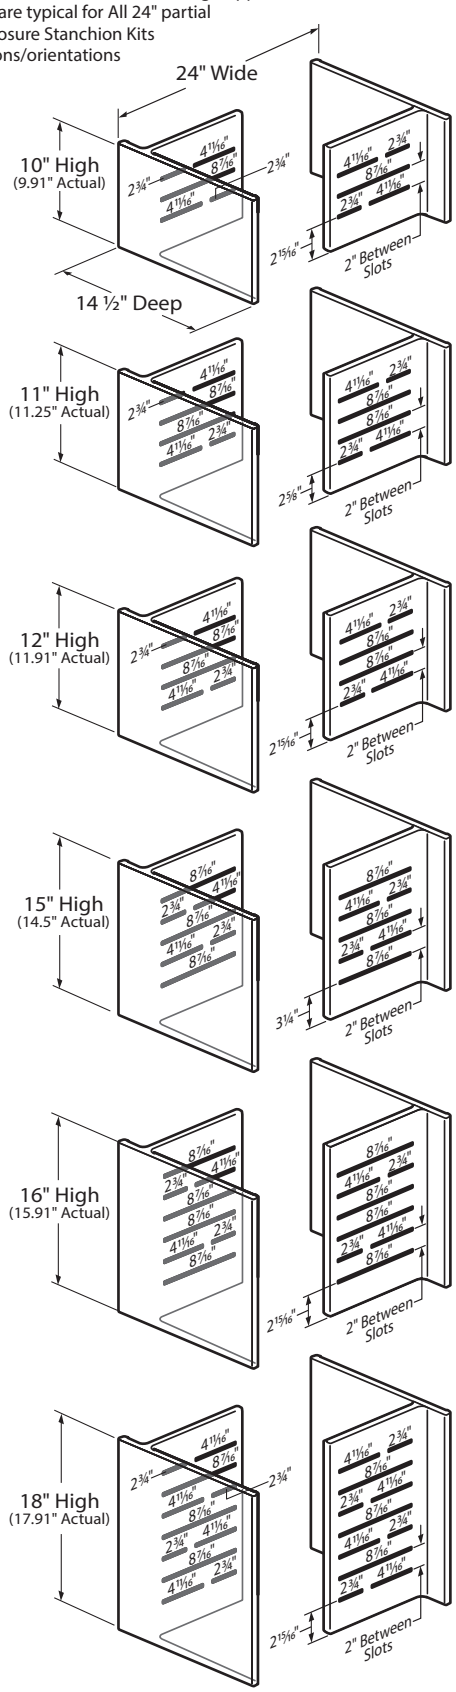
24" Wide Stanchions –

• Stanchion Kit-P shown with Mirror Image Application
• Dimensions are typical for All 24" partial and full enclosure Stanchion Kits (configurations/orientations may vary).



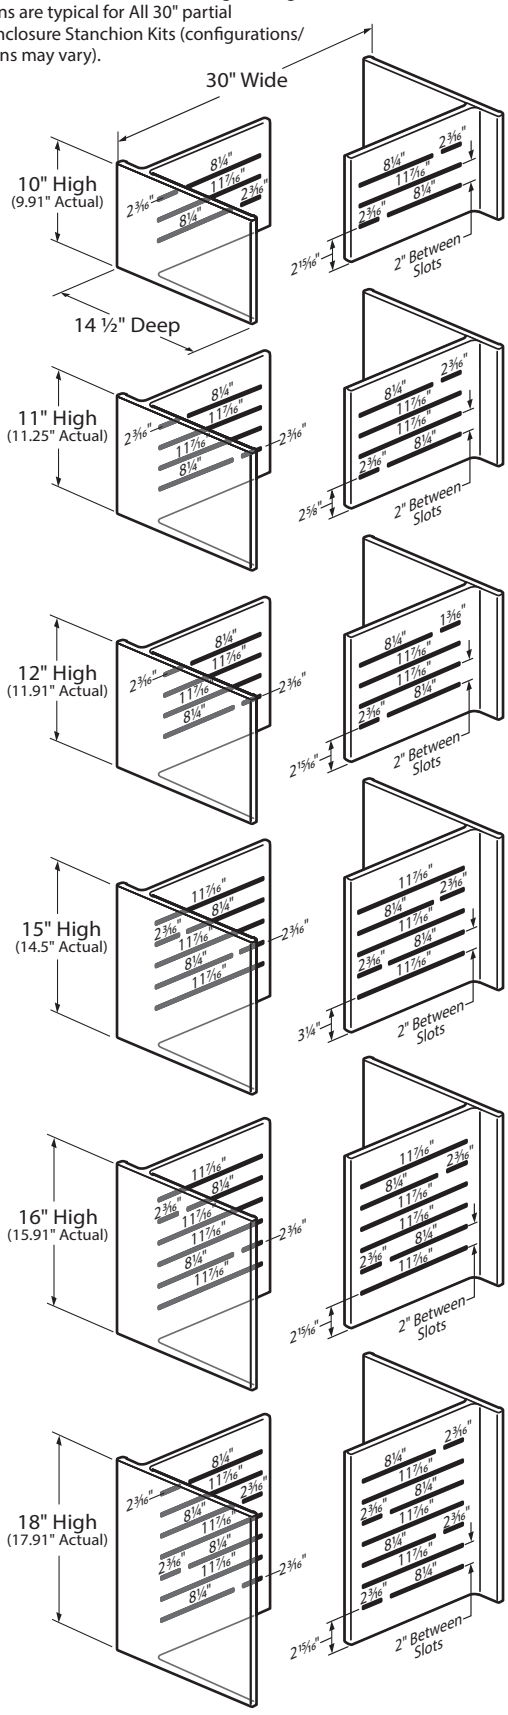
Stanchion Kits

Accessory Slot Dimensions – 30" and 46" Wide Stanchions

• Stanchion Accessory Slots may be used to accommodate separately specified Belong hanging accessories.

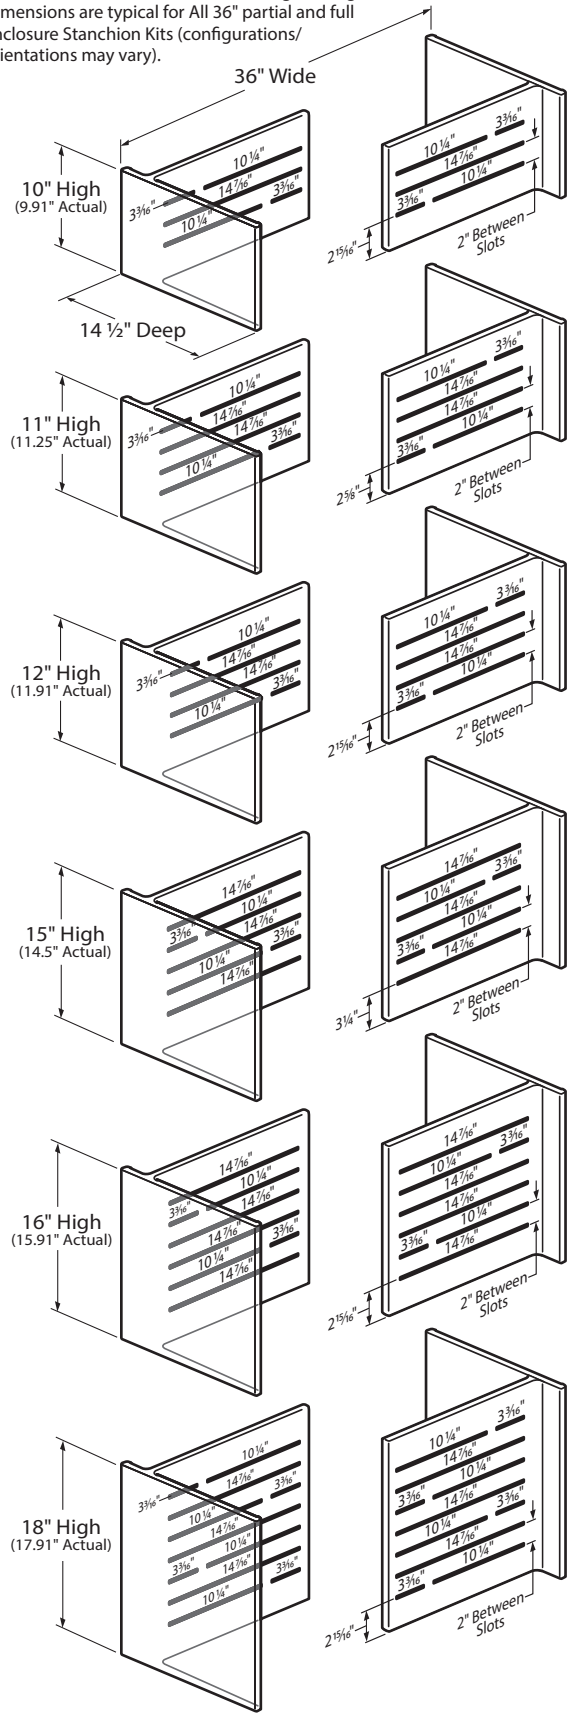
30" Wide Stanchions –

- Stanchion Kit-P shown with Mirror Image Configuration.
- Dimensions are typical for All 30" partial and full enclosure Stanchion Kits (configurations/ orientations may vary).



36" Wide Stanchions –

- Stanchion Kit-P shown with Mirror Image Configuration.
- Dimensions are typical for All 36" partial and full enclosure Stanchion Kits (configurations/ orientations may vary).



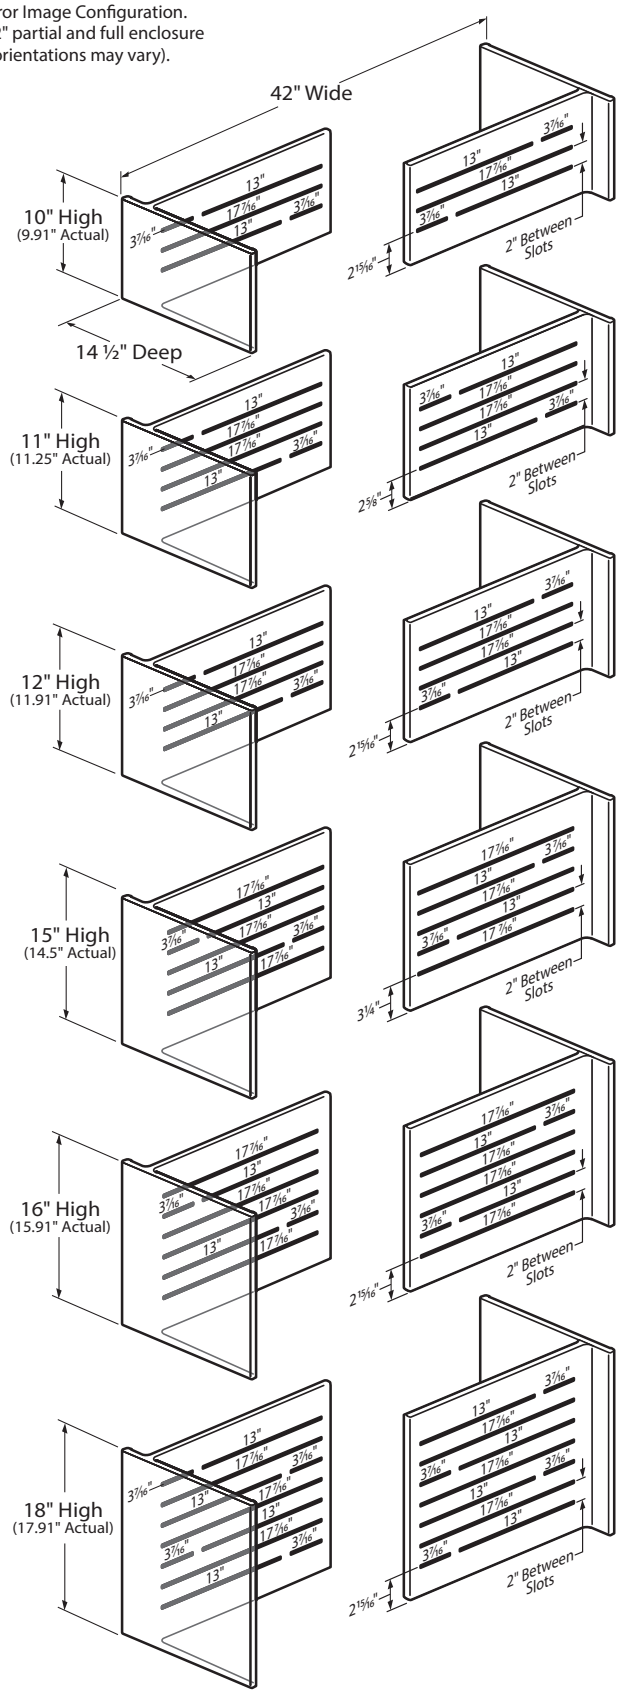
Stanchion Kits

Accessory Slot Dimensions – 42" Wide Stanchions

• Stanchion Accessory Slots may be used to accommodate separately specified Belong hanging accessories.

42" Wide Stanchions –

- Stanchion Kit-P shown with Mirror Image Configuration.
- Dimensions are typical for All 42" partial and full enclosure Stanchion Kits (configurations/orientations may vary).



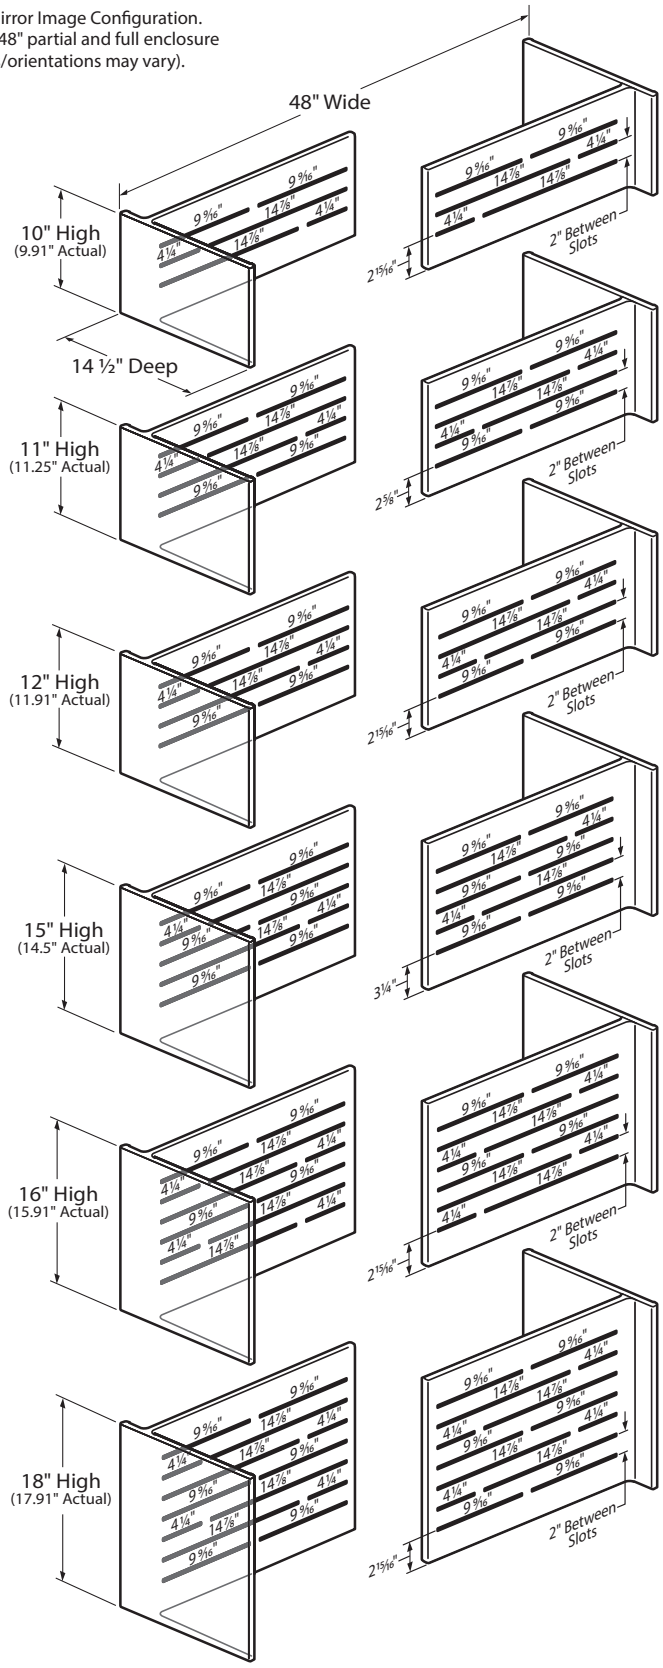
Stanchion Kits

Accessory Slot Dimensions – 48" Wide Stanchions

• Stanchion Accessory Slots may be used to accommodate separately specified Belong hanging accessories.

48" Wide Stanchions –

- Stanchion Kit-P shown with Mirror Image Configuration.
- Dimensions are typical for All 48" partial and full enclosure Stanchion Kits (configurations/orientations may vary).



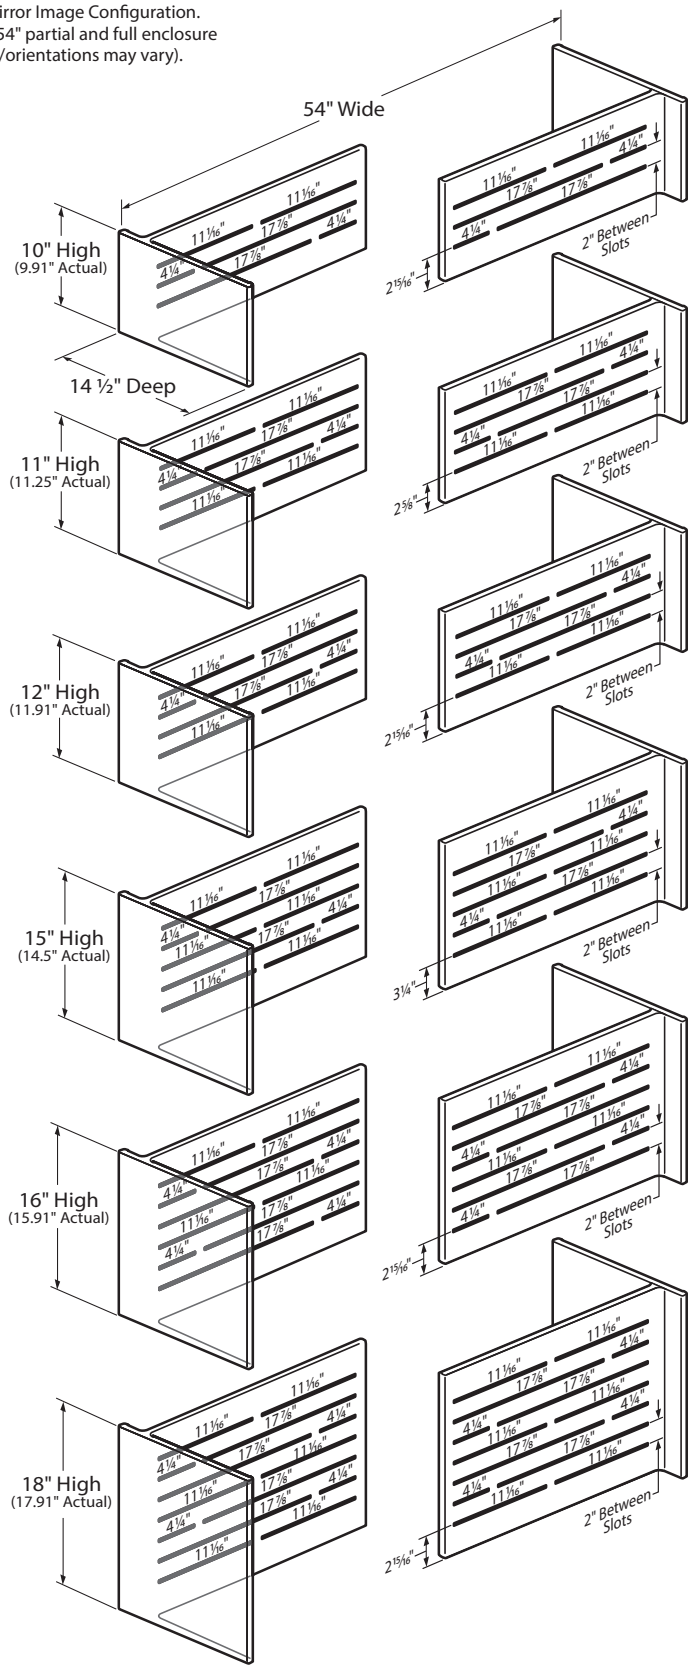
Stanchion Kits

Accessory Slot Dimensions – 54" Wide Stanchions

• Stanchion Accessory Slots may be used to accommodate separately specified Belong hanging accessories.

54" Wide Stanchions –

- Stanchion Kit-P shown with Mirror Image Configuration.
- Dimensions are typical for All 54" partial and full enclosure Stanchion Kits (configurations/orientations may vary).



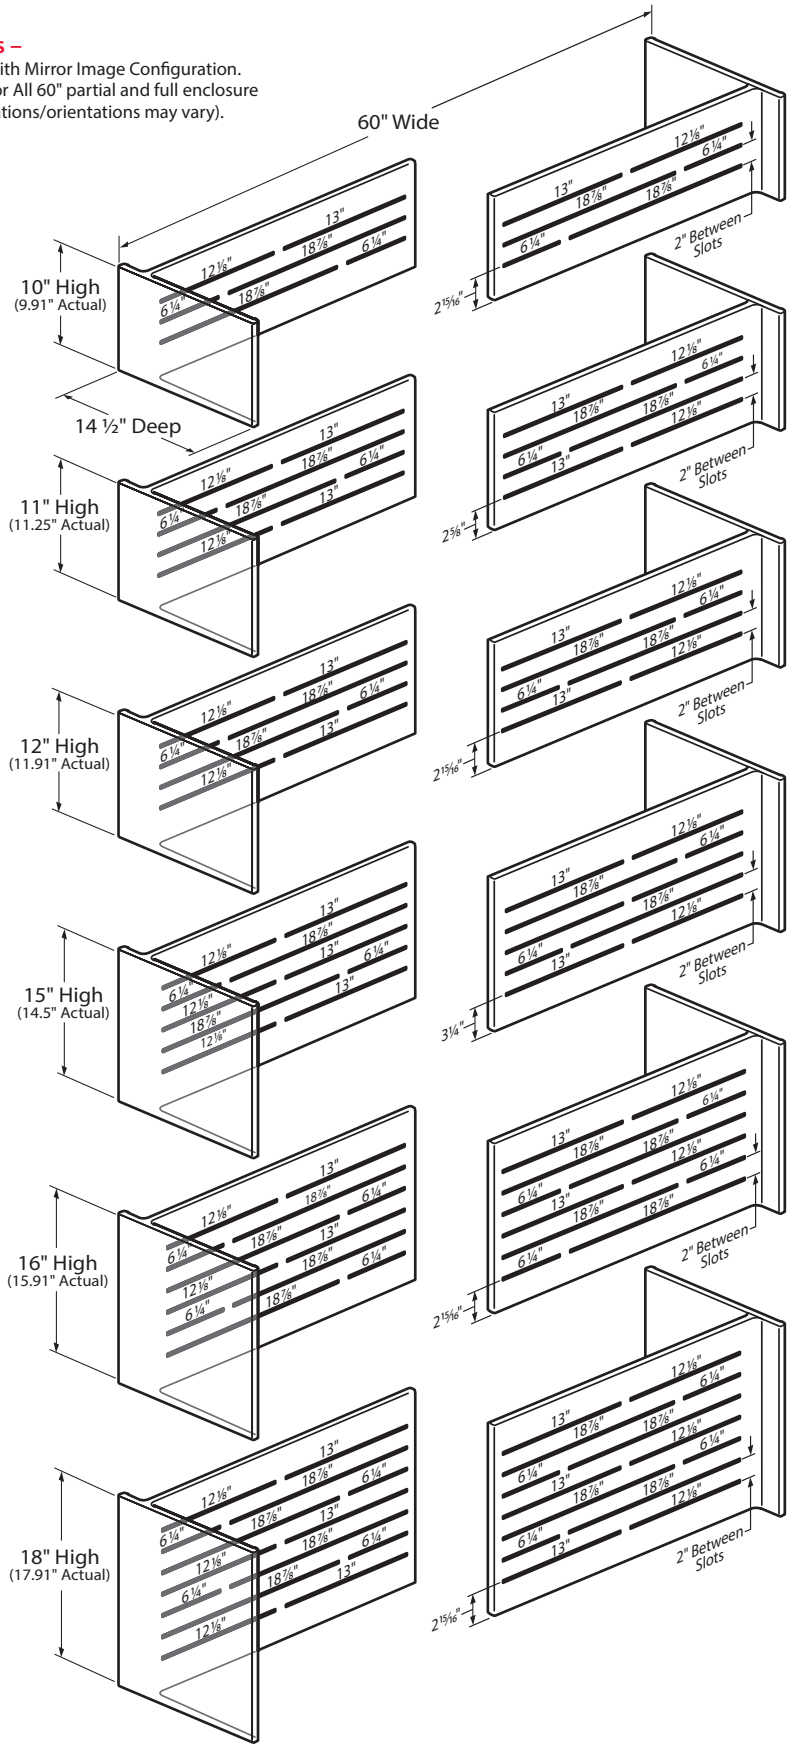
Stanchion Kits

Accessory Slot Dimensions – 60" Wide Stanchions

• Stanchion Accessory Slots may be used to accommodate separately specified Belong hanging accessories.

60" Wide Stanchions –

- Stanchion Kit-P shown with Mirror Image Configuration.
- Dimensions are typical for All 60" partial and full enclosure Stanchion Kits (configurations/orientations may vary).



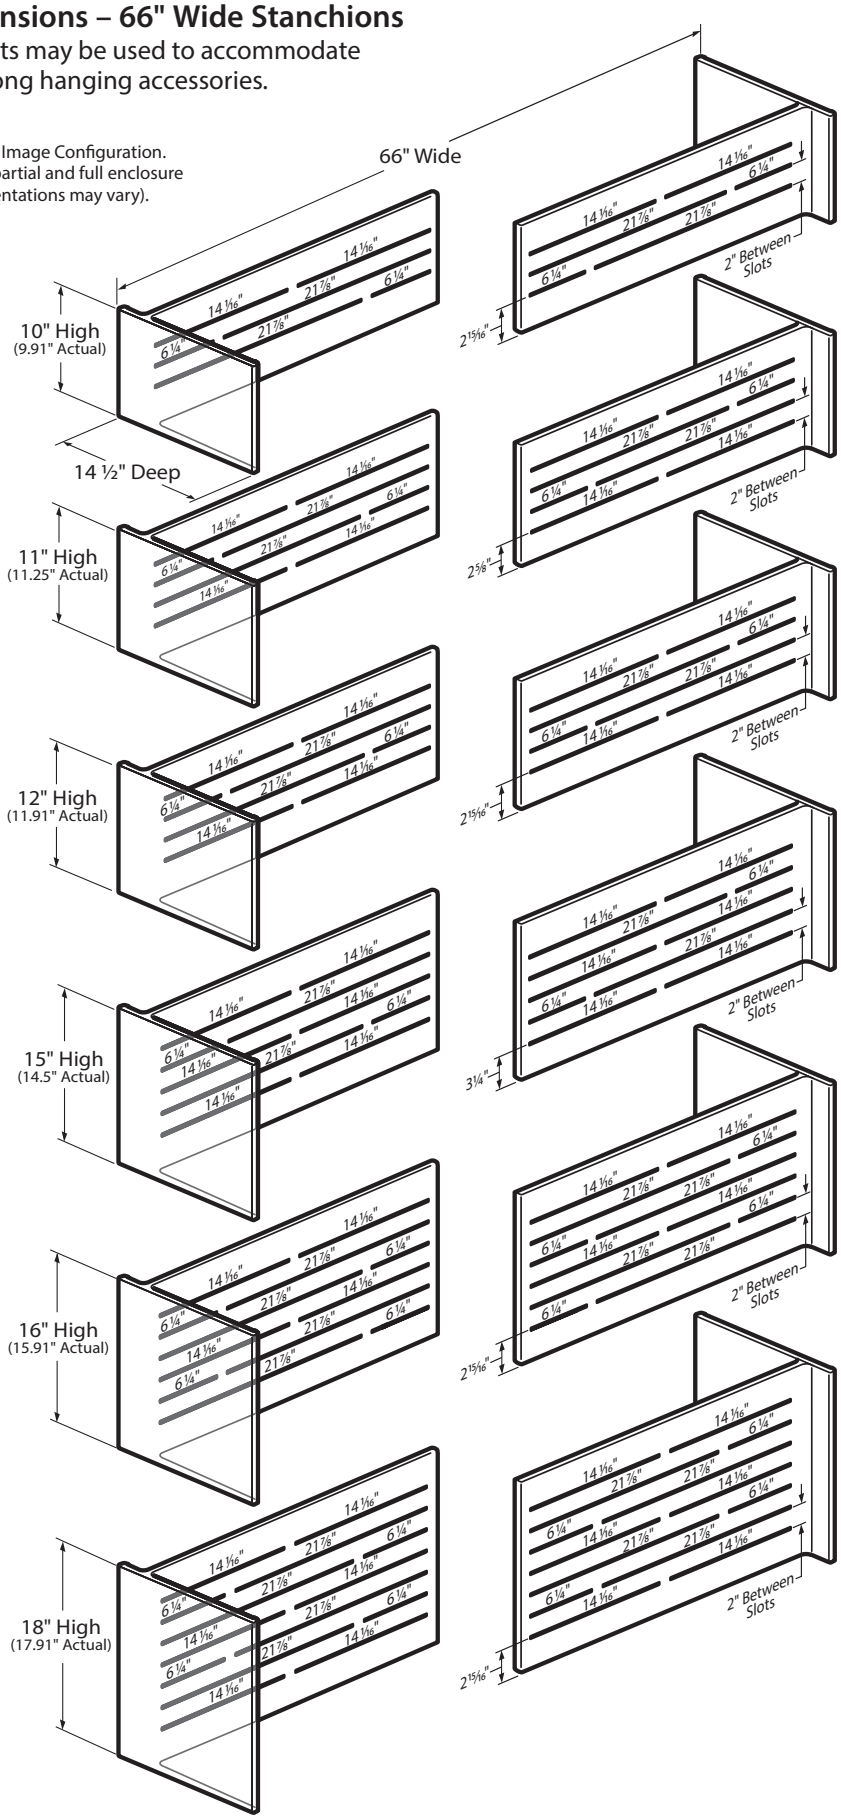
Stanchion Kits

Accessory Slot Dimensions – 66" Wide Stanchions

- Stanchion Accessory Slots may be used to accommodate separately specified Belong hanging accessories.

66" Wide Stanchions –

- Stanchion Kit-P shown with Mirror Image Configuration.
- Dimensions are typical for All 66" partial and full enclosure Stanchion Kits (configurations/orientations may vary).



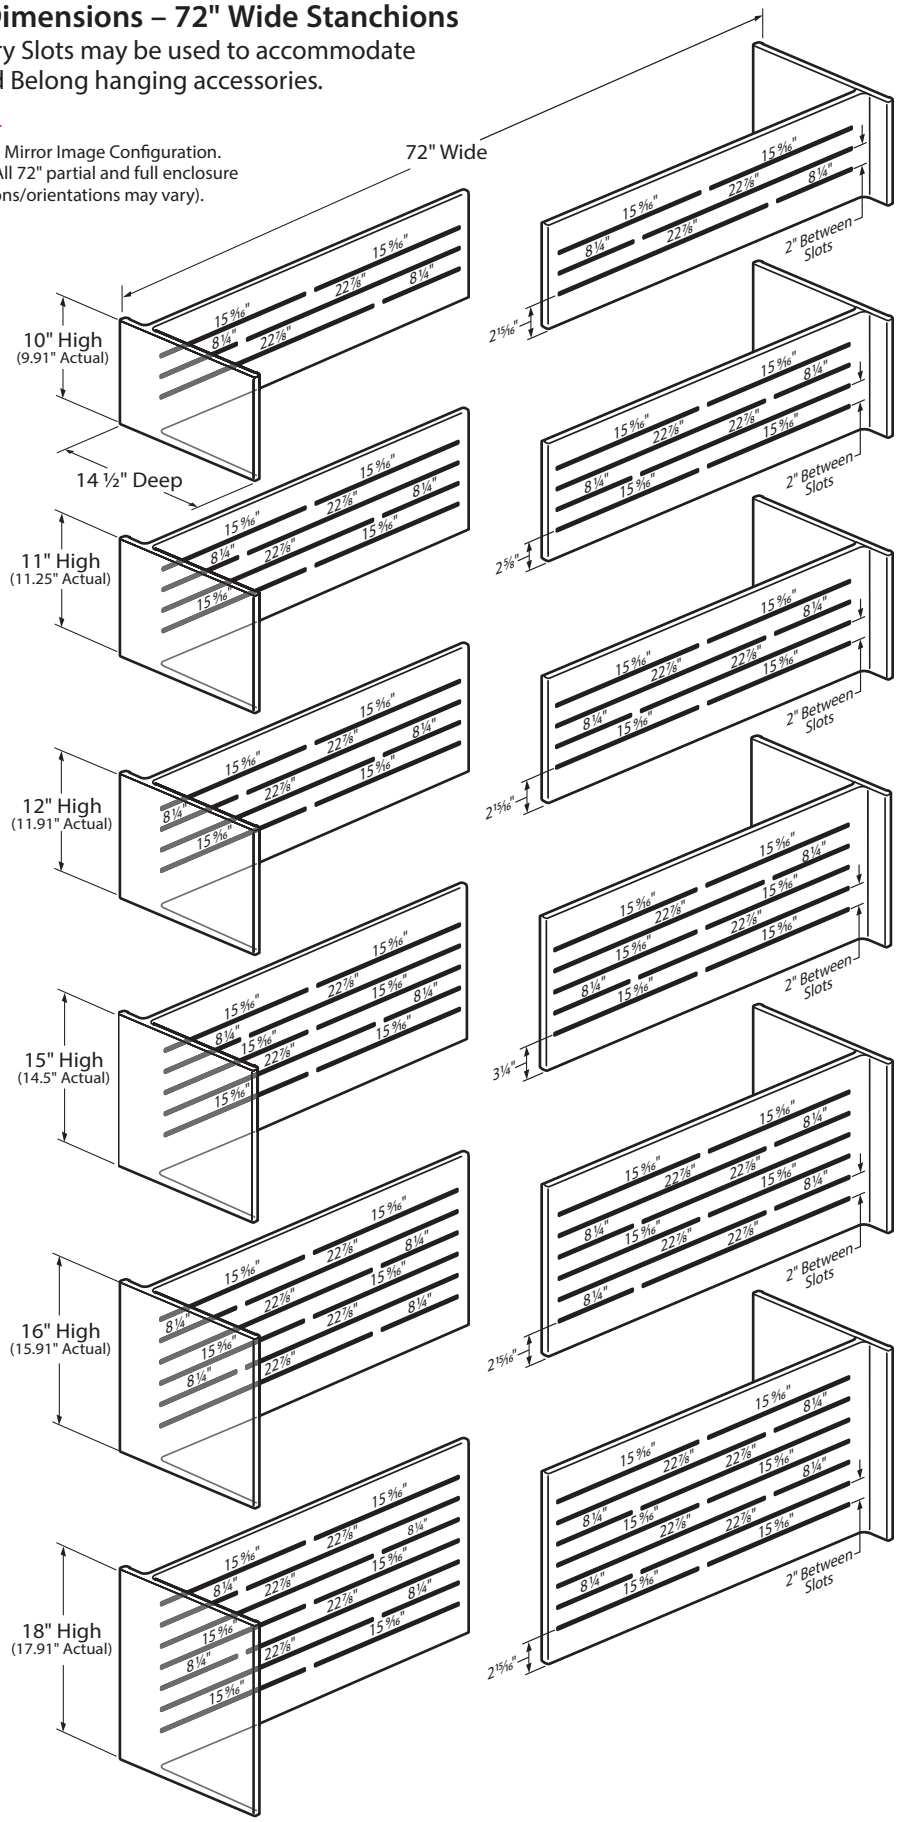
Stanchion Kits

Accessory Slot Dimensions – 72" Wide Stanchions

- Stanchion Accessory Slots may be used to accommodate separately specified Belong hanging accessories.

72" Wide Stanchions –

- Stanchion Kit-P shown with Mirror Image Configuration.
- Dimensions are typical for All 72" partial and full enclosure Stanchion Kits (configurations/orientations may vary).



Stanchion Kits

Designing with Stanchion Kits – Orientation Options

- Stanchion Kits may be field orientated as needed for single or dual users.
- Orientation of the Stanchion Kit is installation dependent; no additional hardware is required.
- In the illustration below Stanchion Kit P is shown less than 48″ wide in three possible user orientations.

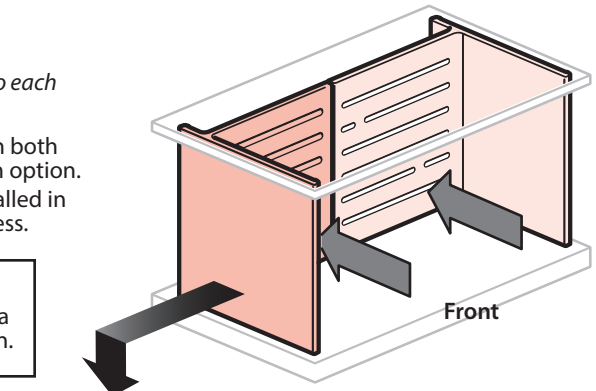
Stanchion Kit Orientation Options (Installation dependent)

Single User Access

Both back panels of Left and Right Stanchions are adjacent or in-line to each other for single user access.

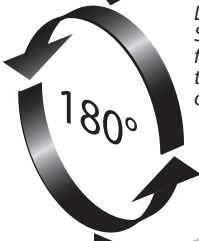
- Left hand Stanchion. Shown with both sided accessory slot specification option.
- Back panel of left Stanchion installed in back position for single user access.

Stanchion Kit-P Widths:
- 24″-42″ accommodate a single sided application.



- Right hand Stanchion. Shown with both sided accessory slot specification option.
- Back panel of right Stanchion Installed in back position for single user access.

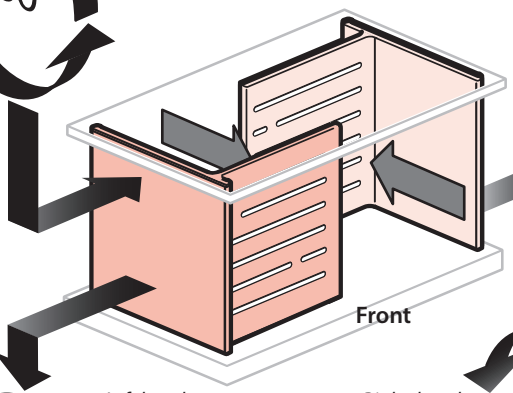
Left hand Stanchion is flip-flopped 180° to switch user orientation.



Dual User Access

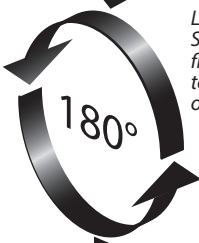
- Back panel of left Stanchion installed in opposite position as right hand Stanchion for dual user access.

Stanchion Kit-P Widths:
- 24″-72″ accommodate a dual sided application.



- Back panel of right Stanchion installed in opposite position as left Stanchion for dual user access.

Left hand Stanchion is flip-flopped 180° to switch user orientation.

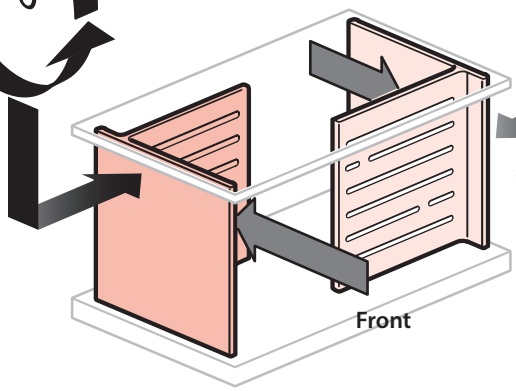


Right hand Stanchion is flip-flopped 180° to switch user orientation.

Dual User Access

- Back panel of left Stanchion installed in opposite position as right hand Stanchion for dual user access.

Stanchion Kit-P Widths:
- 24″-72″ accommodate a dual sided application.



- Back panel of right Stanchion installed in opposite position as left Stanchion for dual user access.

Tip **Installation drawings must depict Stanchion Kit orientation and color selection to ensure design intent.**

Stanchion Kits

Specification Sequence For Stanchion Kit Paint Color

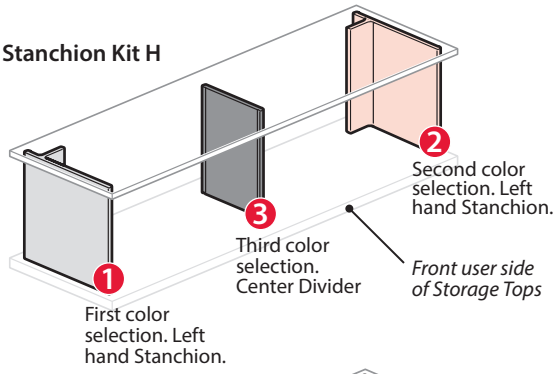
- Stanchion Kits are painted metal.
- Paint color specification sequence is shown below.

To Order, Specify:
Product Number
1. Painted Color **Stanchion Left**
2. Painted Color **Stanchion Right**
3. Painted Color **Center Divider**

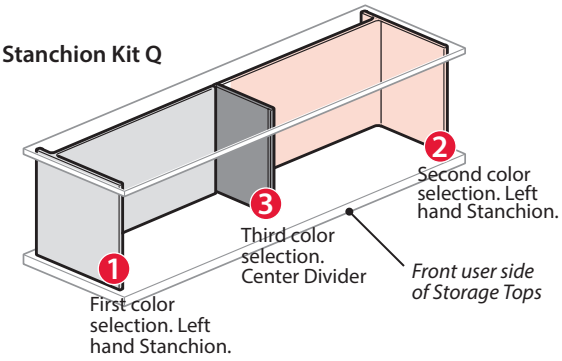
Single User Access

Both back panels of Left and Right Stanchions are adjacent or in-line to each other for single user access.

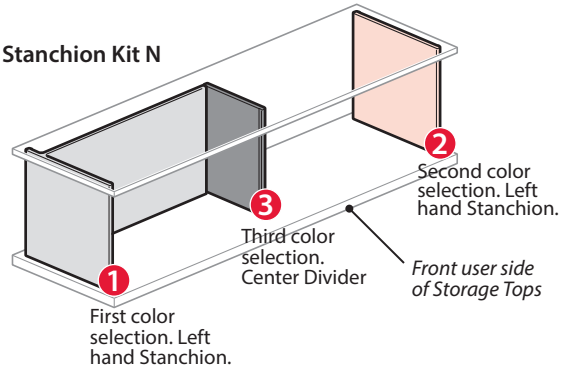
Stanchion Kit H



Stanchion Kit Q



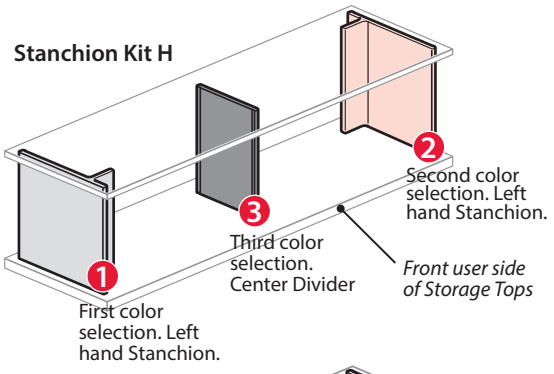
Stanchion Kit N



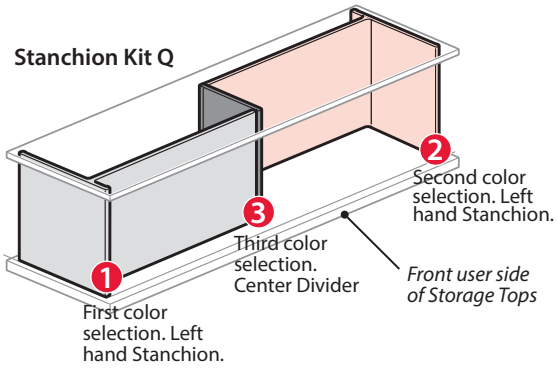
Dual User Access

Back panel of left Stanchion installed in opposite position as right hand Stanchion for dual user access.

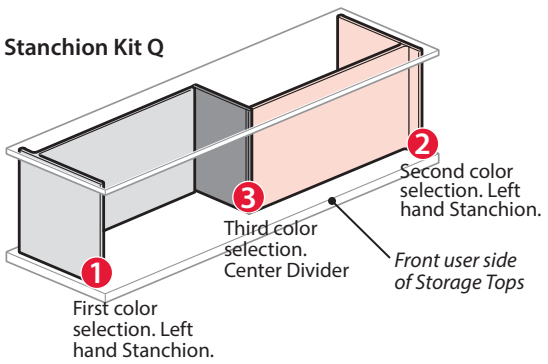
Stanchion Kit H



Stanchion Kit Q



Stanchion Kit Q



Tip **Installation drawings must depict Stanchion Kit orientation and color selection to ensure design intent.**

Note Paint color selections 1, 2 and 3 may be the same color or each one may be different color.

Hutch Shelf

- Hutch Shelf is available in laminate or wood.
- Laminate Hutch Shelf includes a 1mm edgeband on all sides.
- Wood Hutch Shelf includes a 0.6mm edgeband on all sides.
- The Hutch Shelf is installed on top of a separately specified Stanchion Kit to create a Hutch application.
- Hutch Shelf widths correspond with the Stanchion Kit widths.
- Hutch Shelf width must match the Stanchion Kit width; **may not span side-by-side Stanchion Kits.**
- Hutch Shelf adds ¾" to the Stanchion Kit height.
- Hutch Shelf is not required when using Overhead Storage Unit.
- Shelves 48" or wider can only be used with Stanchion Kits H, N, P and Q.
- The overall height of a Hutch application must not exceed 58".
- Separately specified Adaptable LED light may be attached to underside of Hutch Shelf.

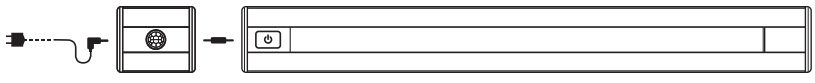
Combination 9	2	1	0	0
Combination 10	2	0	1	0
Combination 11	2	0	0	1
Combination 12	2	0	0	0
Combination 13	1	2	0	0
Combination 14	1	1	1	0
Combination 15	1	0	1	0
Combination 16	1	0	0	1
Combination 17	0	2	0	0
Combination 18	0	1	1	0
Combination 19	0	0	2	0

Reed Premier Occupancy Sensor

The Occupancy Sensor can be added to control single or multiple daisy chained Reed Premier LED Task Lights. The Occupancy Sensor is set to turn off after 30 minutes of no detection and will turn back on after detection.

Occupancy Sensor Mounting

The occupancy sensor connects to the task light with a 1" connector (shown) or daisy chain cords. The occupancy sensor comes standard with both magnetic and screw mounting options.



Power → Sensor → Connector → Fixture

Cannot deviate from this sequence

Product Application – Beside Storage

Product Application – Beside Storage

Storage Attachment Guidelines – Planning Model Overview

For Base Unit attachment planning purposes there are two functional categories The first functional type is a Base Unit with drawers; includes box or file drawers. The second functional type is all other Base Unit configurations; includes open, single and double sliding doors and hinged doors. For double or triple Base Units configured with an open, slider or hinged door portion and a box or lateral drawer portion default to the drawer portion of the Base Unit to apply attachment guidelines.

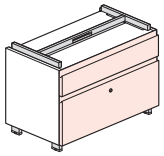
- All Beside Base Units with a box or file drawer must be attached.
- Beside Base Unit 42" wide or less must be attached.
- Beside Base Unit 48" wide or greater without a box or lateral drawer may be freestanding.

Type A Base Units – Any Base Unit CONTAINING box drawers or file drawers.

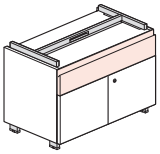
Functional Base Unit TYPE

A

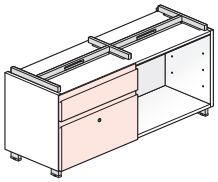
Must Be ATTACHED – All widths



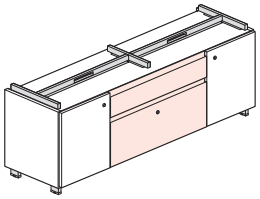
Any Single Width with File Drawer



Any Single Width with Box Drawer



Double Width with Box or File Drawer



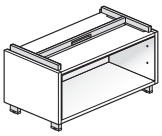
Triple Width with Box or File Drawer

TYPE B Base Units – Any Base Unit NOT CONTAINING box drawers or file drawers.

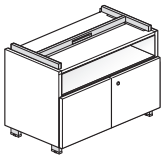
Functional Base Unit TYPE

B

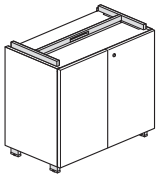
Must Be ATTACHED – Widths of 42" or Less



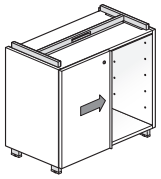
Single Width Open Under 42"



Single Width Hinged Doors Under 42"

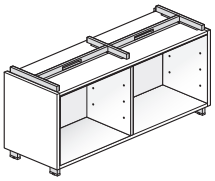


Single Width Hinged Doors Under 42"

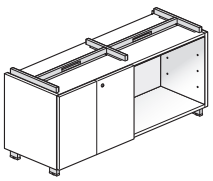


Single Width Sliding Door Under 42"

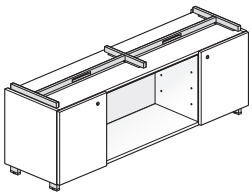
May Be FREESTANDING – Widths of 48" or Greater



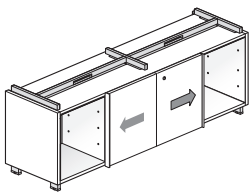
Double Width Open Over 48"



Double Width Hinged Doors Over 48"



Triple Width Hinged Doors Over 48"



Triple Width Sliding Door Over 48"

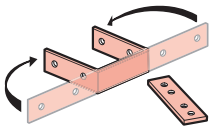
Product Application – Beside Storage

Storage Attachment Guidelines – Planning Model Overview

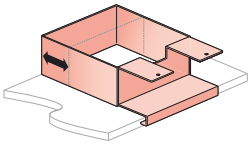
There are several attachment options for Beside Base Units. Attachment options include Ganging Bracket Kit, Storage Attachment Bracket, Desk-to-Storage Bracket, Flush Mount Plate and Storage-to-Panel Bracket.

In addition to type A and B functional Base Units the Base Unit height and planning models are key factors in determining valid attachment options. Base Unit Planning Model Overview shown below:

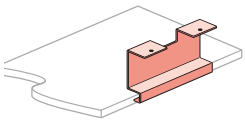
Base Unit Attachment Options:



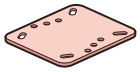
Ganging Bracket Kit



Desk-to-Storage Bracket



Storage Attachment Bracket



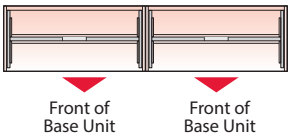
Flush Mount Plate

Storage-to-Panel Bracket

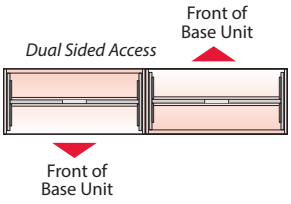
In-Line Base Units – Planning Models:

Two Base Units:

Single Sided Access

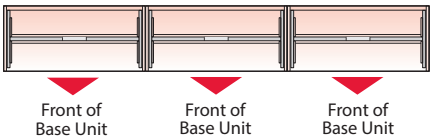


Dual Sided Access

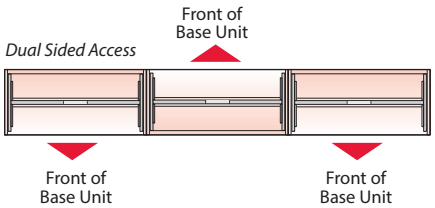


Three Base Units:

Single Sided Access

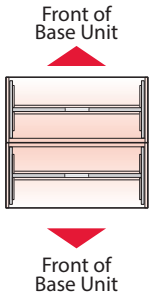


Dual Sided Access



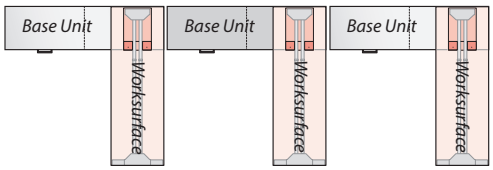
Back-To-Back Base Units – Planning Model:

Back-To-Back Base Units:

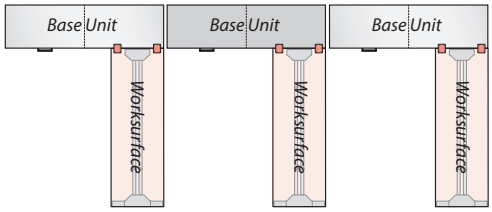


Storage Based – Planning Model – With Beside Base Units

One-and-One-Half High Base Units

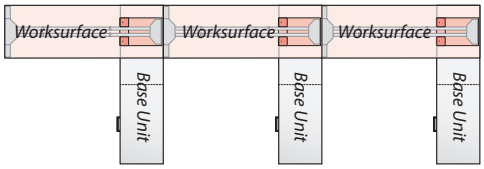


Two High Base Units

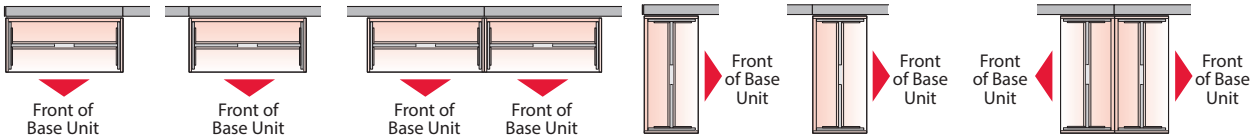


Reside Benching With Beside Base Units – Planning Model

One-and-One-Half High Base Unit

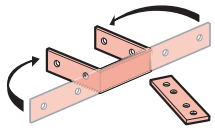


Panel Systems With Beside Base Unit – Planning Model



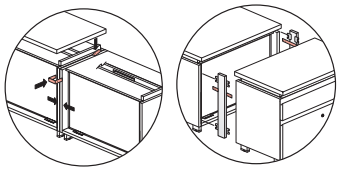
Product Application – Beside Storage

Storage Attachment Guidelines – In-Line and Back-to-Back Storage Planning Models – Ganging Bracket Kit



Ganging Bracket Kit

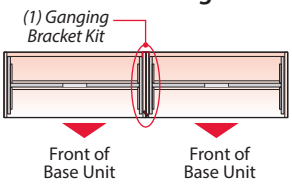
Refer to the chart below to determine which Base Units may be used with the Ganging Bracket Kit for attachment purposes. The chart applies to single, double and triple Base Units. For double or triple Base Units configured with an open, slider door or hinged door portion and a box or lateral drawer portion default to the drawer portion of the Base Unit to apply application guidelines.



In-Line Planning Model | *Back-to-Back Planning Model*

In-Line Planning Model

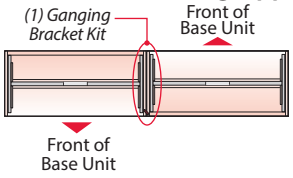
Two Base Units –Facing Same Direction



- Both Base Units may be the same or a combination of Single, Double or Triple Base Units.
- If both Base Units are type B; they may be different heights.

Base Unit Functional Type	1 High (17" High*)	1 1/2 High (23" High*)	2 High (29" High*)
A-A	NO	NO	NO
B-B	YES	YES	YES
A-B or B-A	YES	NO	NO

Two Base Units – Facing Opposite Direction

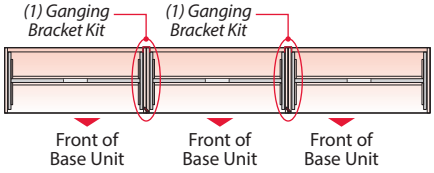


- Both Base Units may be the same or a combination of Single, Double or Triple Base Units.
- Both Base Units must be the same height.

Base Unit Functional Type	1 High (17" High*)	1 1/2 High (23" High*)	2 High (29" High*)
A-A	YES	NO	NO
B-B	YES	YES	YES
A-B or B-A	YES	NO	NO

Note Apply guidelines for longer file banks with multiples of two Base Units.

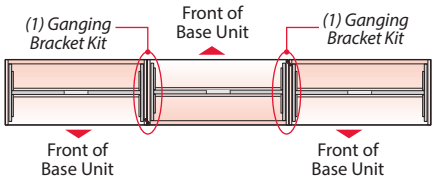
Three Base Units – Facing Same Direction



- Both Base Units may be the same or a combination of Single, Double or Triple Base Units.

Base Unit Functional Type	1 High (17" High*)	1 1/2 High (23" High*)	2 High (29" High*)
A-A-A	NO	NO	NO
B-B-B	YES	YES	YES
A-A-B, A-B-A, B-A-A	NO	NO	NO
B-B-A, B-A-B, A-B-B	YES	NO	NO

Three Base Units – Facing Opposite Direction



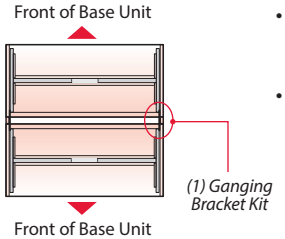
- Both Base Units may be the same or a combination of Single, Double or Triple Base Units.
- Both Base Units must be the same height.

Base Unit Functional Type	1 High (17" High*)	1 1/2 High (23" High*)	2 High (29" High*)
A-A-A	NO	NO	NO
B-B-B	YES	YES	YES
A-A-B, A-B-A, B-A-A	NO	NO	NO
B-B-A, B-A-B, A-B-B	YES	NO	NO

Note Apply guidelines for longer file banks with multiples of three Base Units.

Back-to-Back Planning Model

Back-To-Back Base Units – Facing Opposite Direction



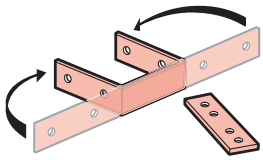
- Both Base Units may be single, double or triple height Base Units.
- If both units are Type A; they may have different drawer configurations.

Base Unit Functional Type	1 High (17" High*)	1 1/2 High (23" High*)	2 High (29" High*)
A-A	YES	YES	YES
B-B	YES	YES	YES
A-B or B-A	YES	YES	YES

* Reflects finished height; Base Unit with separately specified Storage Top

Product Application – Beside Storage

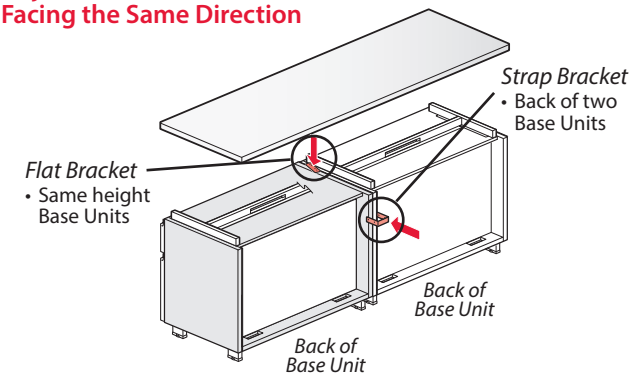
Storage Attachment Guidelines – Ganging Bracket Kit Application Guidelines



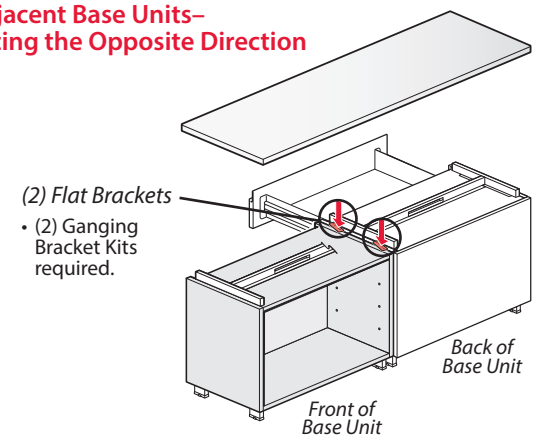
Ganging Bracket Kit
QAGB

- The Beside ganging bracket kit includes two brackets. Used to gang Base Units together for increased rigidity.
- The Strap Bracket attaches adjacent side edges of vertical end panels. Strap Bracket is supplied flat and is bent in the field to U-Shape for certain applications.
- The Flat Bracket attaches adjacent top edges of vertical end panels.
- Adjacent Base Units facing the same direction require (1) Ganging Bracket Kit in a storage based planning application with an attached perpendicular Reside Worksurface.
- Adjacent Base Units facing opposite directions require (2) Ganging Bracket Kits in a storage based planning application with an attached perpendicular Reside Worksurface. (2) Two Flat Brackets attached at the top of the Base Units are required for ganging.
- Guideline applies to both type A Base Units with drawer(s) and type B Base Units without drawer(s).

Adjacent Base Units– Facing the Same Direction

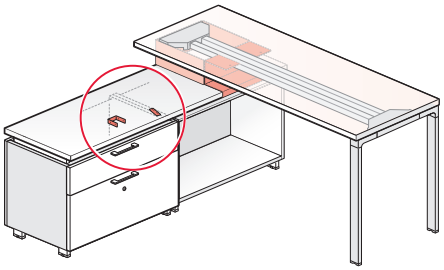


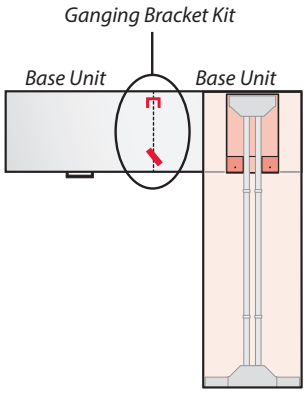
Adjacent Base Units– Facing the Opposite Direction



Desk-To-Storage Bracket Application –

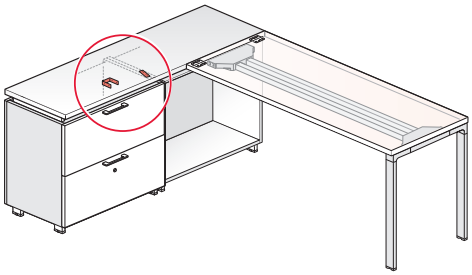
One and One-Half High Base Units with attached perpendicular Reside worksurface

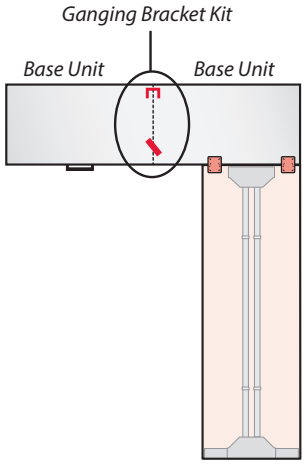




Flush Mount Plate Application –

Two High Base Units – with attached perpendicular Reside worksurface



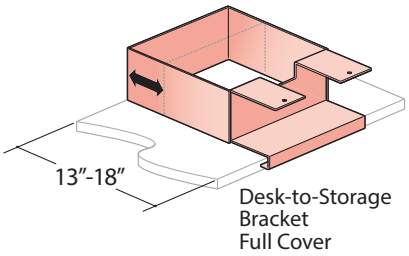


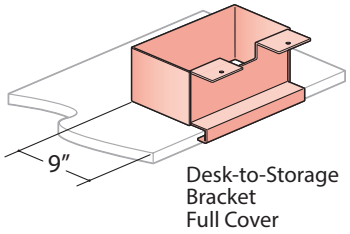
Product Application – Beside Storage

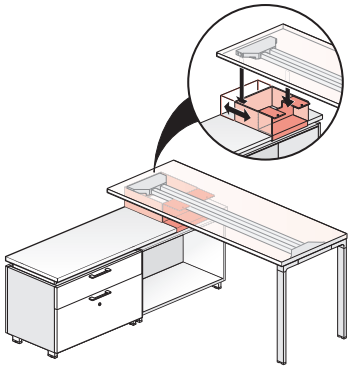
Storage Attachment Guidelines – Desk-to-Storage Bracket / Storage Attachment Bracket

Desk-to-Storage Bracket

- For use with One-and-One Half High Base Units, only
- Used to support a worksurface. Also provides support to a Beside Base Unit.







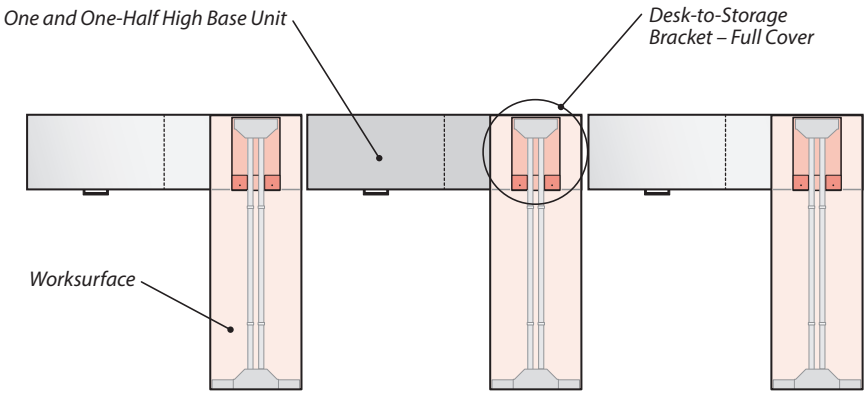
Note

- All Beside Base Units with a box or lateral drawer(s) must be attached for support purposes. Base Units without drawers which are 42" wide or less must also be attached for support purposes.

Do

Storage Based Planning Model

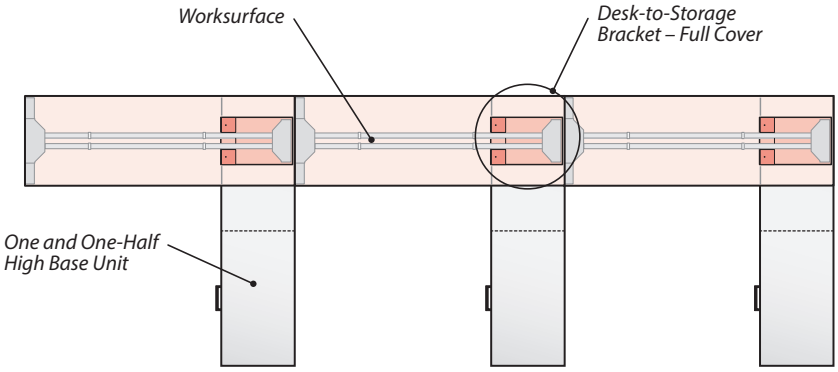
- Desk-to-Storage Bracket – provides support to Worksurfaces and One and One-Half High Base Units.



Do

Reside Benching Planning Model

- Desk-to-Storage Bracket – provides support to Worksurfaces and One and One-Half High Base Unit.

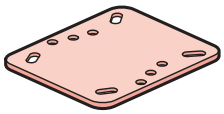


Product Application – Beside Storage

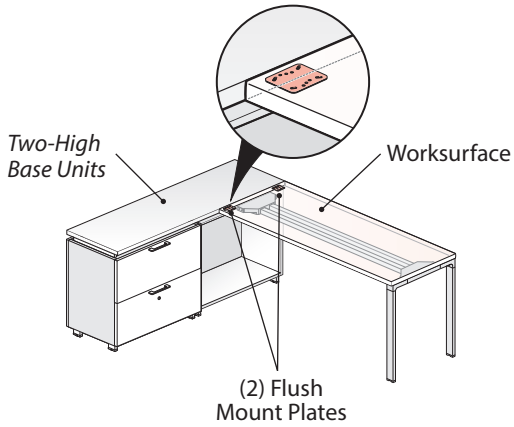
Storage Attachment Guidelines – Flush Mount Plate

Desk-to-Storage Bracket

- For use with Two-high Base Units, only
- Flush Mount Plates attached to a two-high Beside Base Unit provides floor support to one end of a worksurface and also provides support to a Beside Base Unit.
- Flush Mount Plates may be located anywhere along the front or back edge of a two-high Base Unit.
- The Flush Mount Plates attach to the underside of the Beside Storage Top and worksurface.



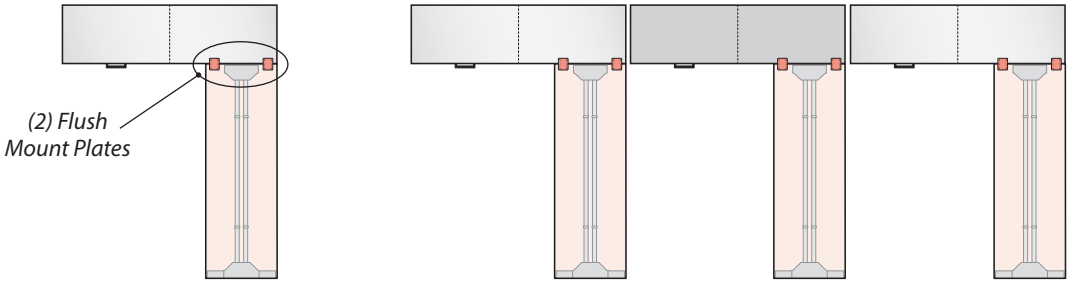
Flush Mount Plate ZUBF-PN



Do

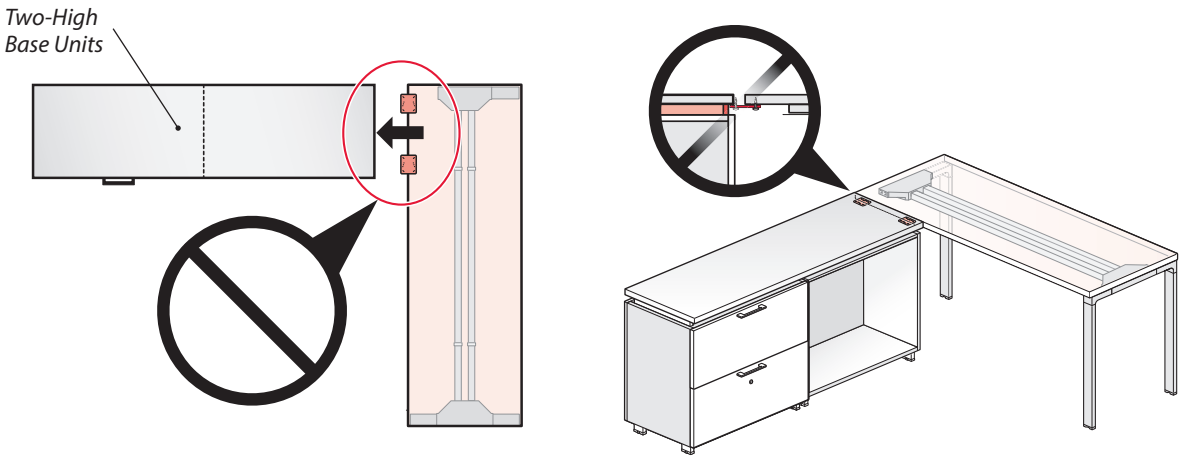
Storage Based Planning Model

- Flush Mount Plate – provides support to worksurfaces and Two-High Base Units.



Don't

- The Base Unit spacer prohibits the Flush Mount Plate from attaching to the side of the Base Unit.



Note

- A quantity of (2) Flush Mount Plates are required to support one end of the Worksurface.

Tip

- For Flush Mount applications with the Base Units perpendicular to a Reside Worksurface, the open section of a Base Unit must be located beneath the Reside Worksurface or the back of the Base Unit if it has all drawers or doors. This is recommended for clearance reasons as the Reside structural beam interferes with opening the drawer/door in a flush mount application.

Product Application – Beside Storage

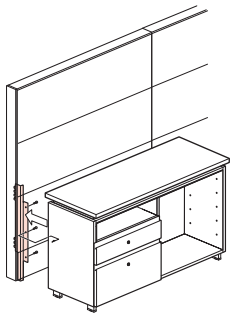
Storage Attachment Guidelines – Panel Systems and Base Units

Beside Base Unit integrated with panel system.

Storage-to-Panel Bracket

- Attaches One-High, One and One-Half High and Two-High Base Units to systems panel slots.
- Specify a systems specific bracket for Compose, PREMISE or UniGroup applications.
- Storage-To-Panel Bracket used with a Beside Base Unit provides various degrees of panel support. Refer to the appropriate panel system Specification Guide for application guidelines.
- Additional support variables include which panel system and if the Storage-to-Panel Bracket is being used with a separately specified Adaptable Anti-Dislodgement Clip Kit. Refer to the appropriate panel system Specification Guide for application guidelines.

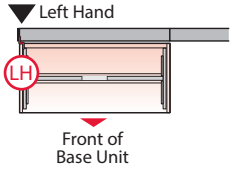
Storage To Panel Bracket – Parallel Planning Model – *One or Two Base Units*



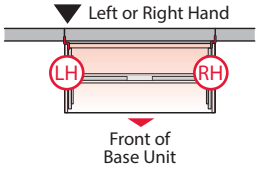
Parallel to Panel
Storage-to-Panel-Bracket – Left Hand

Do

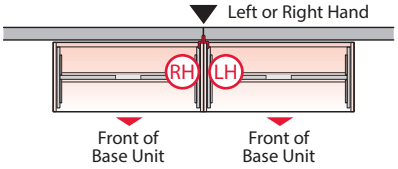
End-of-Run Panel
(1) Storage-to-Panel Bracket



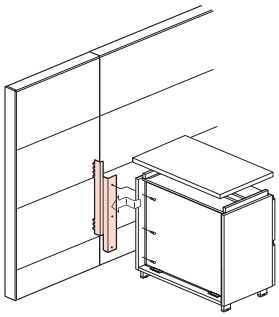
In-Line Panels
(1) Storage-to-Panel Bracket



In-Line Panels
(2) Storage-to-Panel Brackets



Storage To Panel Bracket – Perpendicular Planning Model – *One or Two Base Units*



Perpendicular to Panel
Storage-to-Panel-Bracket

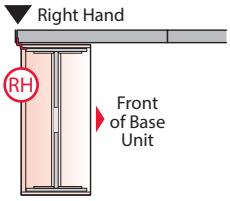
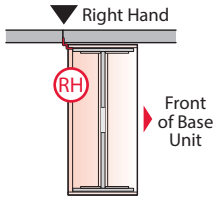
Do

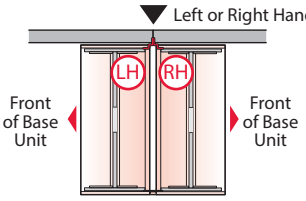
End-of-Run Panel
(1) Storage-to-Panel Bracket



In-Line Panels
(1) Storage-to-Panel Bracket

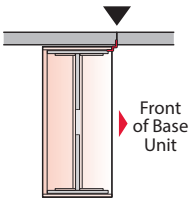


In-Line Panels
(2) Storage-to-Panel Brackets

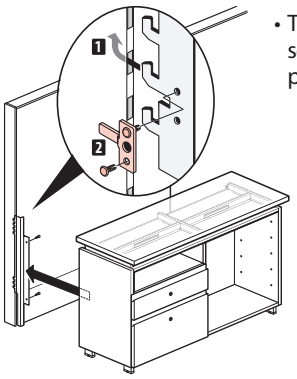


Don't

Storage-to-Panel Bracket may not attach to the front of a Base Unit.



Adaptable Anti-Dislodgement Clip Kit with a Storage-To-Panel Bracket attaching a Two High Beside Base Unit parallel or perpendicular to a Panel Run.

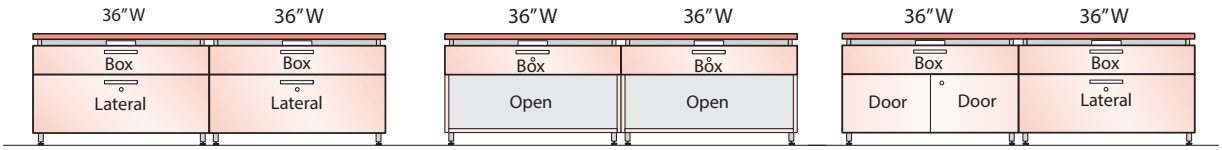


- Two High Beside Base Unit, Storage-to-Panel Brackets and the Adaptable Anti-Dislodgment Clip Kit are separately specified. Used together they provide anti-dislodgement support. Refer to the appropriate panel system Specification Guide for application guidelines.

Product Application – Beside Storage

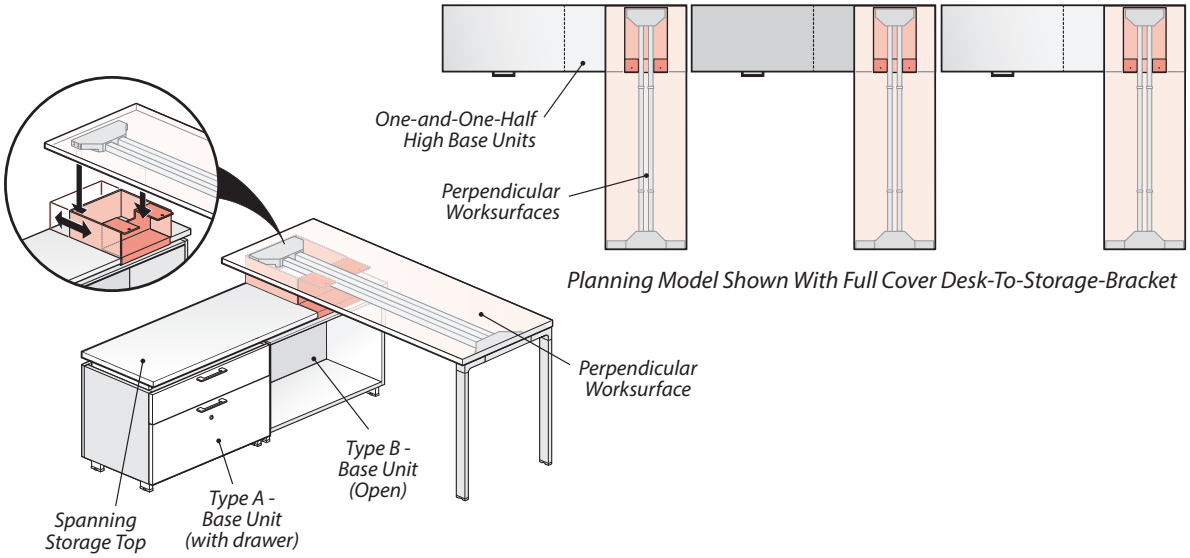
Storage Based Planning With Attached Perpendicular Worksurface – Application Guidelines

- A perpendicular Reside Worksurfaces requires a separately specified support bracket(s).
- Type A Base Unit with drawer(s) must be supported by a perpendicular Reside worksurface attached to a spanning Storage Top.
- **72 combined inches of Type A Base Unit with drawer(s) is the maximum allowed per perpendicular worksurface. The combined inches is the overall width of multiple in-line Base Units with drawers.**

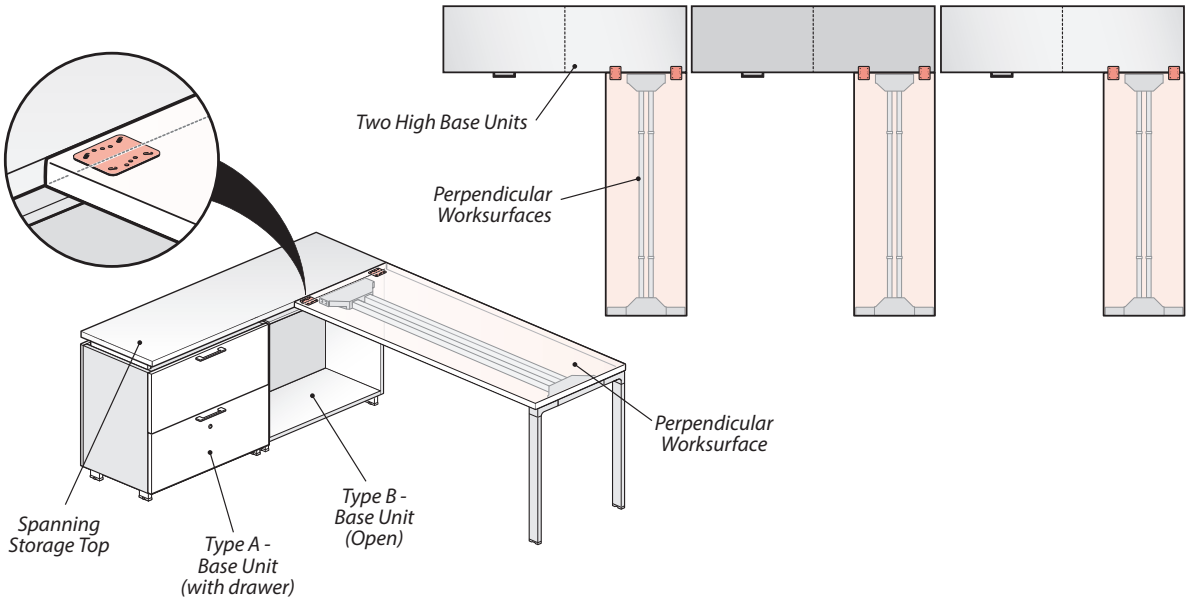


Perpendicular Worksurface requires separately specified Support Bracket(s).

One-and-One-Half High Base Units With Perpendicular Reside Worksurface Support Bracket – Desk-to-Storage Bracket (Full or Half Cover)



Two High Base Unit With Perpendicular Reside Worksurface Support Bracket – (2) Two Flush Mount Plates



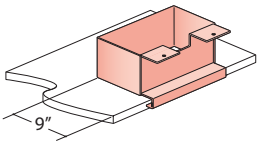
Product Application – Beside Storage

Storage Based Planning With Attached Perpendicular Worksurface – Desk-To-Storage Bracket Application Guidelines

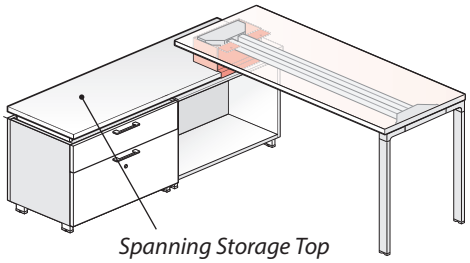
- The Desk-to-Storage Bracket attached to a one-and-one-half high Beside Base Unit provides floor support to one end of a Reside worksurface.
- Available in several depths to correspond with the Reside worksurface depths.
- The Desk-to-Storage Bracket has two cover options; half or full cover to accommodate multiple applications.
- Catalog number includes the Desk-to-Storage Bracket with the user specified cover option.
- Desk-to-Storage Bracket must be installed on the centerline of the Reside Worksurface to enclose the Central Block and Support Beams.

Desk-to-Storage Bracket – Half Cover

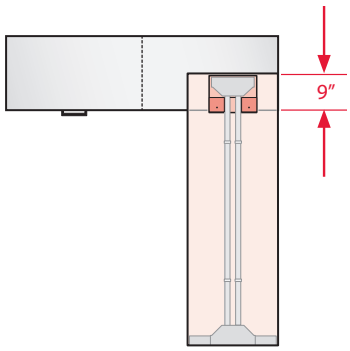
- Half cover provides a 9" overlap between the Reside Worksurface and the Beside Base Unit.



ZUBG-29 _ _- PNHC
Worksurface Depth



Spanning Storage Top
- Must attach to a Reside worksurface
- Must span Type A Base Unit(s)

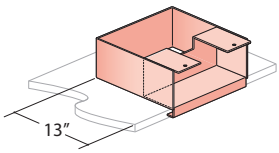


Tip
- The Beside Storage Attachment Bracket is not for use in this application; it does not provide proper Worksurface support.

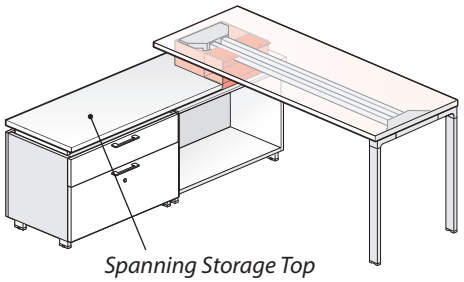
Note
- If a utility tray is utilized in the above application it must be 6" less than the width of the Reside Worksurface.
- Do not specify a Hatch cutout above the Desk-to-Storage Bracket; it will not be accessible.

Desk-to-Storage Bracket – Full Cover

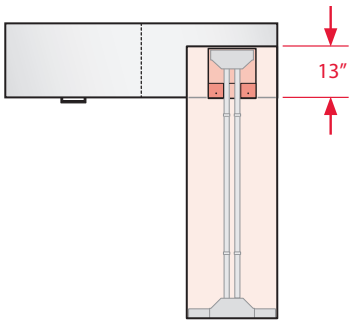
- Full cover provides a 13" or 18" overlap between the Reside Worksurface and the Beside Base Unit.

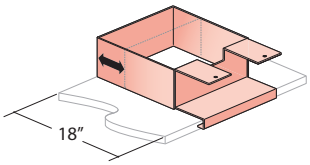


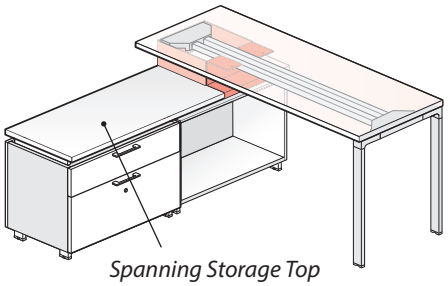
ZUBG-29 _ _- PNFC
Worksurface Depth



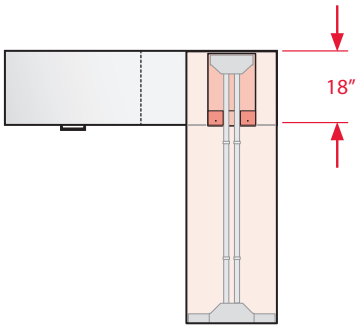
Spanning Storage Top
- Must attach to a Reside worksurface
- Must span Type A Base Unit(s)







Spanning Storage Top
- Must attach to a Reside worksurface
- Must span Type A Base Unit(s)

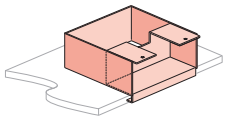


Tip
- The Beside Storage Attachment Bracket is not for use in this application; it does not provide proper worksurface support.
- The Wedge worksurface is not for use with the Desk-to-Storage Bracket with Full Cover.

Note
- If a Utility Tray is utilized in the above application length must be reduced to accommodate attachment to storage.
- Do not specify a Hatch cutout above the Desk-to-Storage Bracket; it will not be accessible.

Product Application – Beside Storage

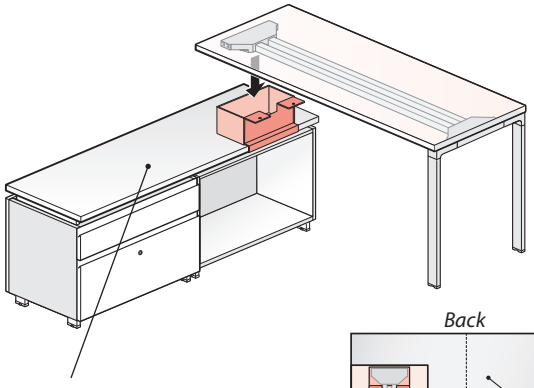
Storage Based Planning With Attached Perpendicular Worksurface – Desk-To-Storage Bracket Application Guidelines



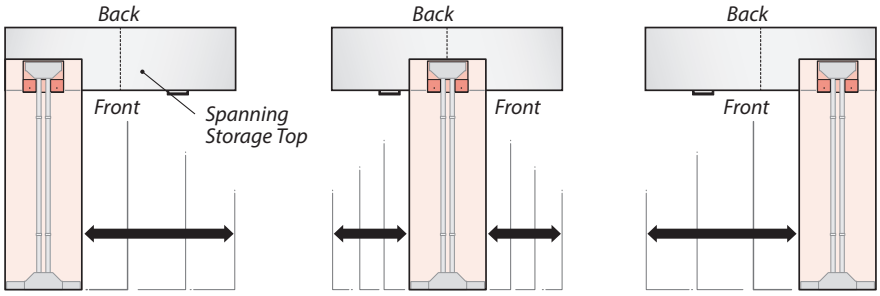
- The Desk-to-Storage Bracket with half or full cover may be located anywhere along the front or back edge of a One-and-One-Half High Base Unit.
- The Desk-to-Storage bracket attaches to the edge of the Beside Storage Top and to the underside of the Reside worksurface.

Desk-to-Storage Bracket

Desk-to-Storage Bracket – Attachment to FRONT of Beside Base Unit

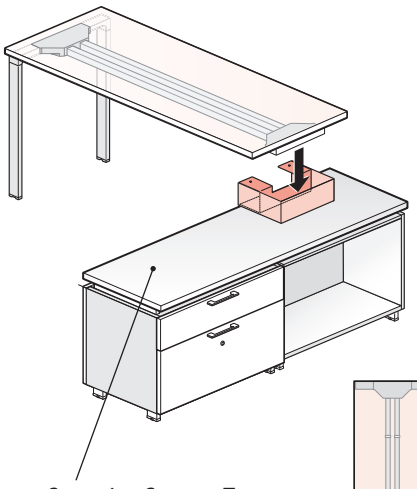


Spanning Storage Top
- Must attach to a Reside worksurface
- Must span Type A Base Unit

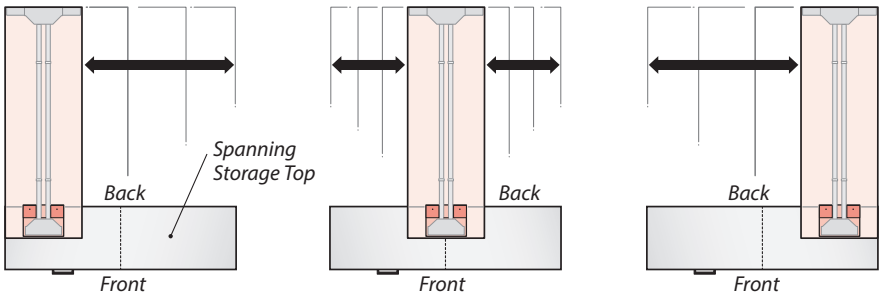


Desk-to-Storage Bracket – Attachment to BACK of Beside Base Unit

- Bracket does not interfere with the finished back.



Spanning Storage Top
- Must attach to a Reside worksurface
- Must span Type A Base Unit

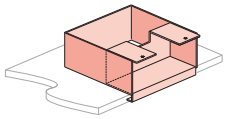


Notes

- Locating the Desk-to-Storage Bracket above a drawer in a One and One-Half High application limits drawer accessibility.
- Do not attach perpendicular worksurfaces to the side(s) of a Base Unit.

Product Application – Beside Storage

Storage Based Planning With Attached Perpendicular Worksurface – Desk-to-Storage Bracket Application Guidelines

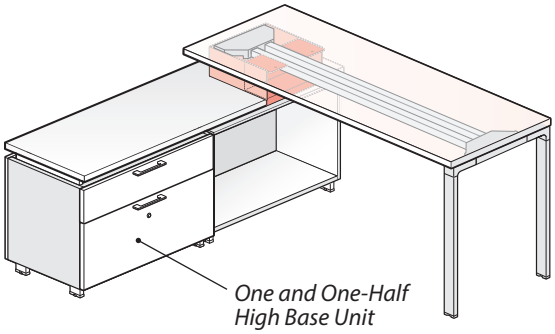


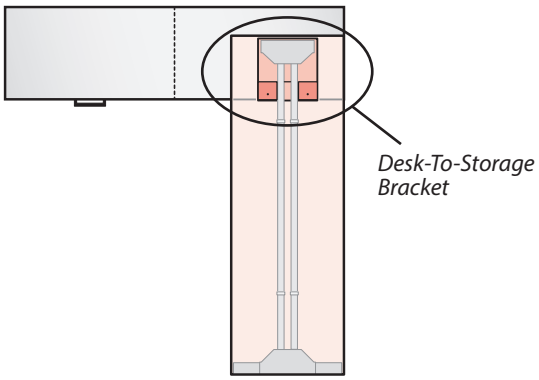
Desk-to-Storage Bracket

- The Desk-to-Storage Bracket attached to one and one-half high Beside Base Unit to provides floor support to one end of a perpendicular Reside Worksurface.
- Desk-to-Storage Brackets may be located anywhere along the front or back edge of a one and one-half high Base Unit.
- The Desk-to-Storage Bracket attaches to the underside of the Beside Storage Top and Reside Worksurface.

Do

- Desk-to-Storage Bracket must be installed on the centerline of the Reside Worksurface to enclose the Central Block and Support Beams.



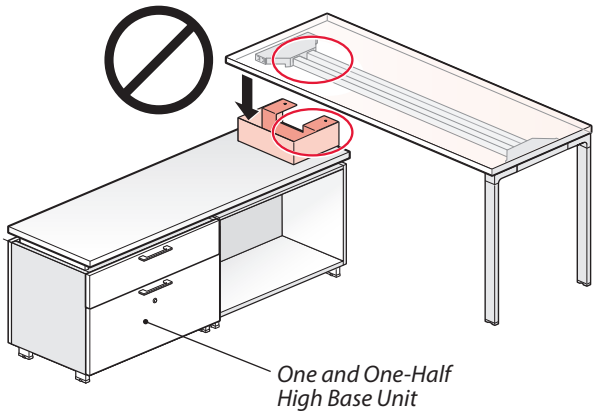


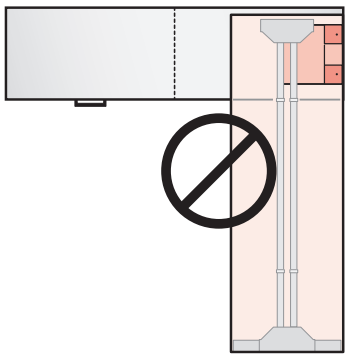
Tip

- Type A Base Units adjacent to Reside Worksurfaces must not have a drawer in the top location of the Base Unit to avoid interference with opening and using the drawer.

Don't

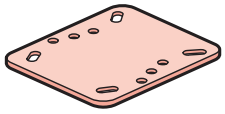
- The Base Unit Spacer prohibits the Desk-to-Storage Bracket from attaching to the side of the Base Unit.
- This configuration prevents nesting Worksurface Central Block and Support Beams in the Desk-To-Storage Bracket.





Product Application – Beside Storage

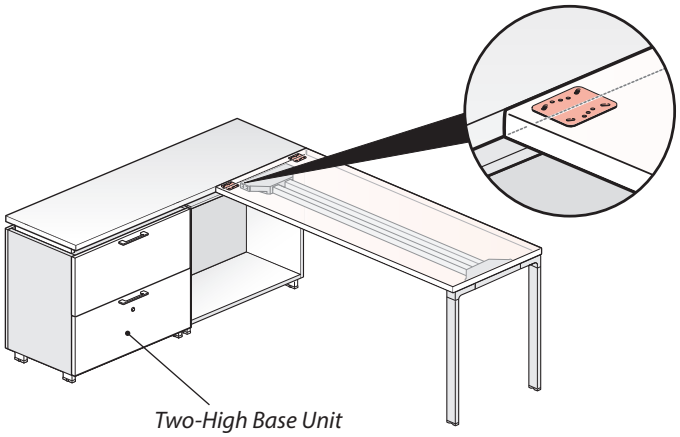
Storage Based Planning With Attached Perpendicular Worksurface – Flush-Mount Plate Application Guidelines

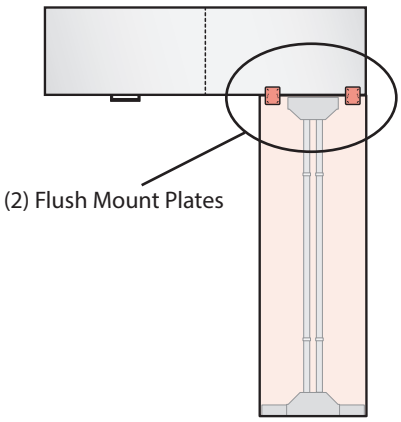


Flush Mount Plate
ZUBF-PN

- Flush mount plates attached to a two-high Beside Base Unit provides floor support to one end of a Reside worksurface.
- Flush Mount Plates may be located anywhere along the front or back edge of a two-high Base Unit.
- The Flush Mount Plates attach to the underside of the Beside Storage Top and Reside worksurface.

Do — Flush Mount Plates– Reside Worksurface attachment to the FRONT of Beside Base Unit



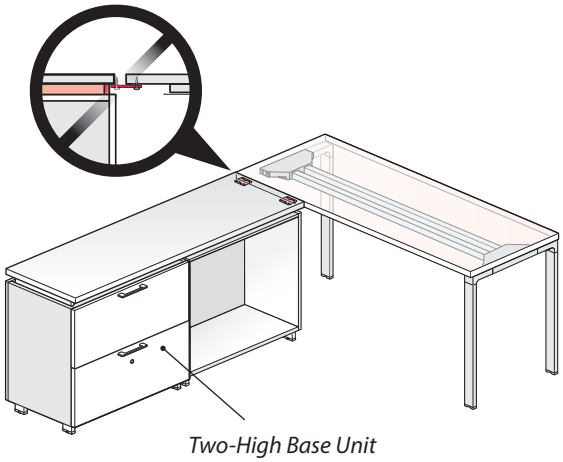


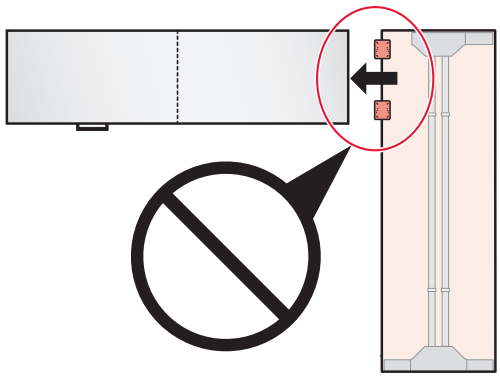
Note
- A quantity of (2) Flush Mount plates are required to support one end of the worksurface.

Tip
- For Flush Mount applications with the Base Unit perpendicular to a Reside Worksurface, the open section of a Base Unit must be located beneath the Reside Worksurface or the back of the Base Unit if it has all drawers or doors. This is recommended for clearance reasons as the Reside structural beam interferes with opening the drawer/door in a flush mount application.

Don't — Flush Mount Plates– Reside Worksurface attachment to the SIDE of Beside Base Unit

- The Base unit spacer prohibits the flush mount plate from attaching to the side of the Base Unit.





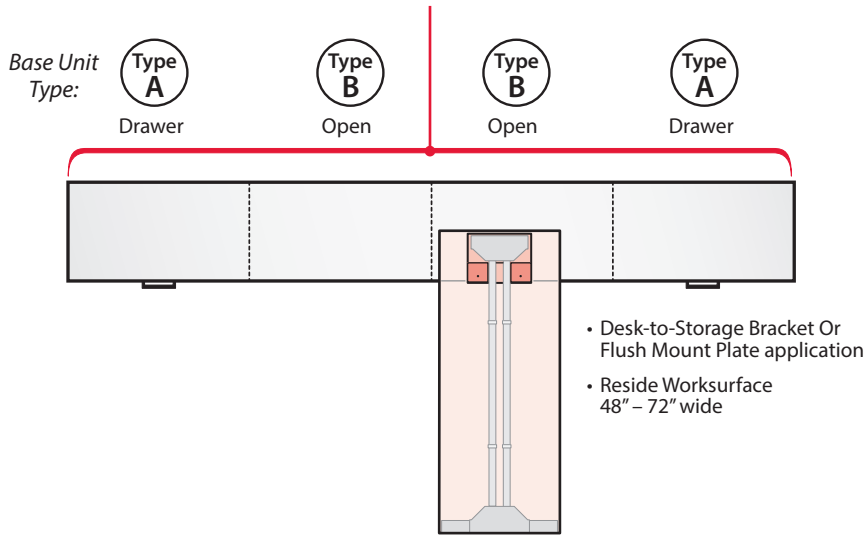
Product Application – Beside Storage

Storage Based Planning With Attached Perpendicular Worksurface – Mixed Type A and Type B Base Unit Applications

- Type A Base Units with drawer(s) must be supported by a perpendicular Reside Worksurface attached to a spanning Storage Top.
- The perpendicular Worksurface attached to a spanning Storage Top is required to support the drawer Base Units.
- The Storage Top must span the open Base Units to provide the drawer Base Units the required support.

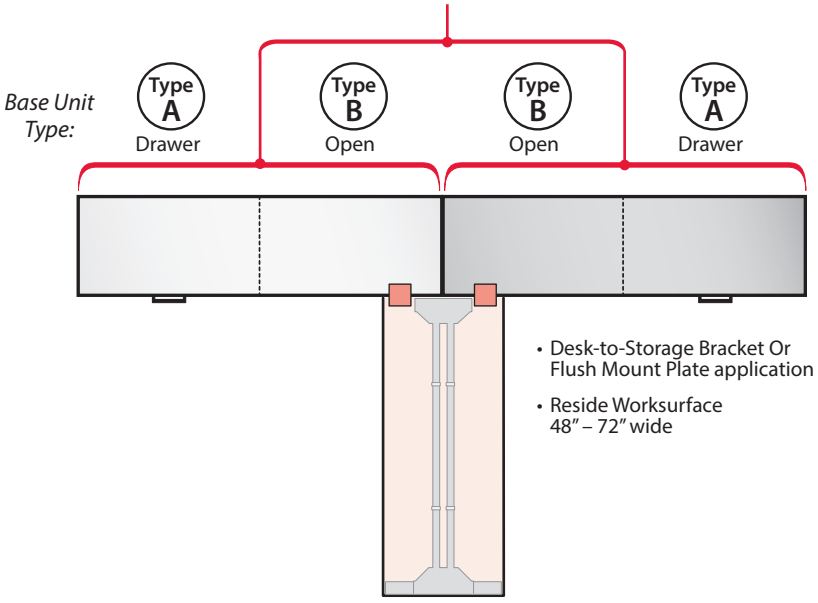
One Spanning Storage Top – Application 1

(1) Spanning Storage Top
- Must attach to a Reside Worksurface
- Must span Type A Base Units



Two Spanning Storage Tops – Application 2

(2) Spanning Storage Tops
- Must attach to a Reside Worksurface
- Must span Type A Base Units



Tip

- For Desk-To-Storage Bracket applications using One and One-Half High Base Units, Type A Base Units adjacent to Reside Worksurfaces must not have a drawer in the top location of the Base Unit to avoid interference with opening and using the drawer.
- For Flush Mount applications with Two-High Base Units, the open section of a Base Unit must be located beneath the Reside Worksurface or the back of the Base Unit if it has all drawers or doors. This is recommended for clearance reasons as the Reside structural beam interferes with opening the drawer/door in a flush mount application.

Note

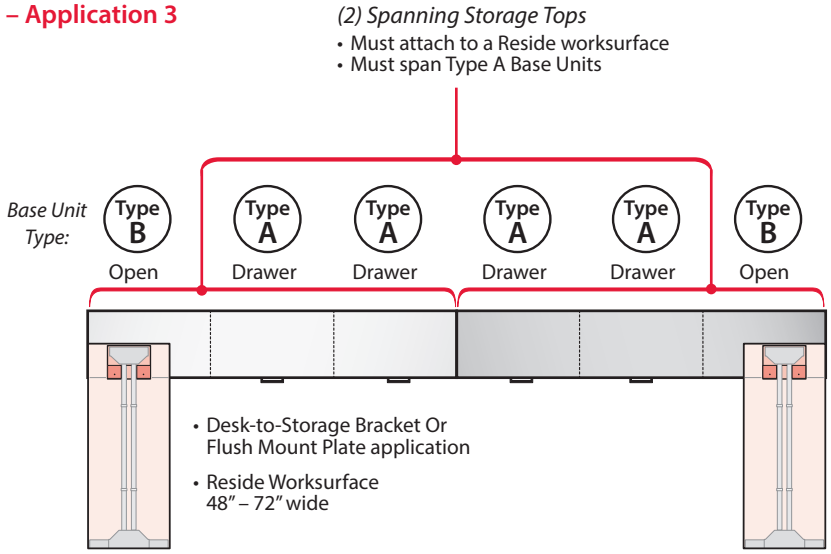
- Both of these applications require (3) Ganging Bracket Kits for proper support and load.
- 120" is the widest Storage Top available for a Beside Base Unit application without additional support.
- Worksurfaces may be located anywhere along front or back edge of the Storage Top.

Product Application – Beside Storage

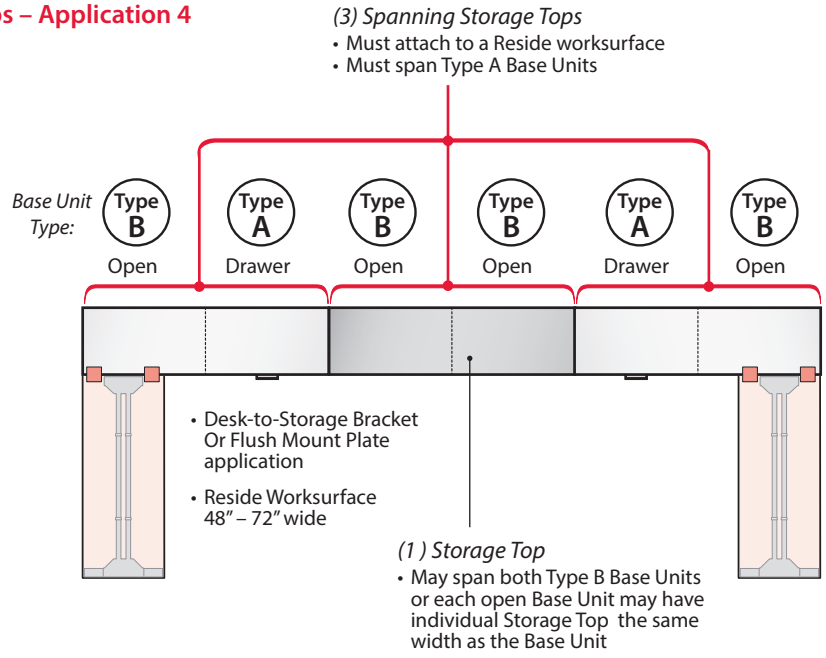
Storage Based Planning With Attached Perpendicular Worksurface – Mixed Type A and Type B Base Unit Applications

- **Type A Base Unit with drawer(s) must be supported by a Reside perpendicular worksurface attached to a spanning Storage Top. (Continued)**

Two Spanning Storage Tops – Application 3



Three Spanning Storage Tops – Application 4



Tip

- Type A Base Units adjacent to Reside Worksurfaces must not have a drawer or hinged doors in the top location of the Base Unit to avoid interference with opening and using the drawers or hinged doors.

Note

- Both of these applications require (5) Ganging Bracket Kits for proper support and load.
- 120" is the widest Storage Top available for Beside Base Unit applications.
- Worksurfaces may be located anywhere along the front edge of the Storage Top.

Product Application – Beside Storage

Storage Based Planning With Attached Perpendicular Worksurface – Application Guidelines For Type A Base Units

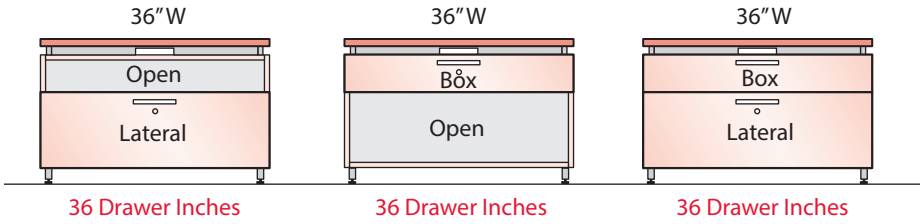
- 72 combined drawer inches of Type A Base Unit with drawer(s) is the maximum allowed per perpendicular worksurface.
- The combined drawer inches is the overall width of multiple in-line Base Units with drawers.

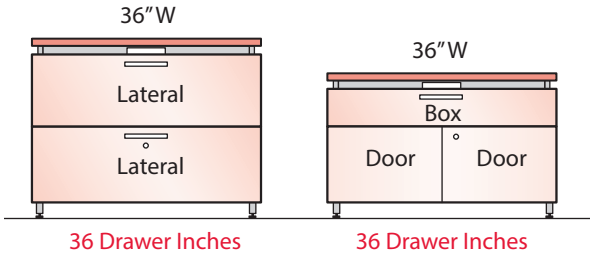
Calculating Inches Of Drawer Units

EXAMPLES:

36" Wide Single Base Units

- Each of the Base Units shown below have 36 drawer inches.

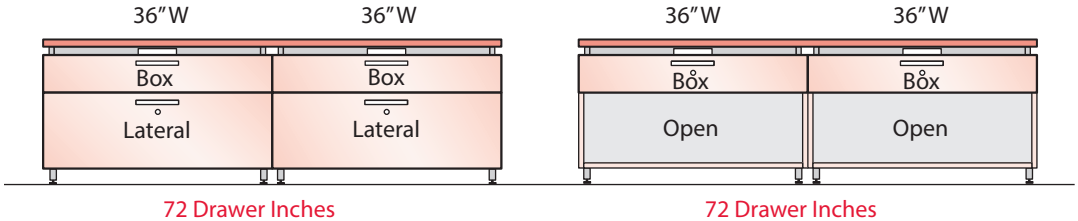


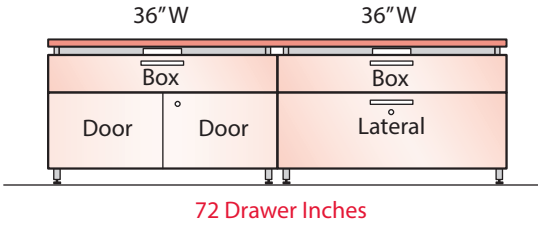


- All One and One-Half High and Two High Base Units with drawers must be attached to a Reside perpendicular worksurface.
- Each of the above examples requires a perpendicular Reside Worksurface attached to a Storage Top for proper support.

Two 36" Wide Single Base Units

- Each of the Base Unit applications shown below have 72 drawer inches:





- 72" is the maximum combined drawer inches allowed per perpendicular worksurface.
- Each of the above examples require a perpendicular Reside worksurface attached to a spanning Storage Top for proper support.
- A Ganging Bracket Kit is also required for additional support between Base Units.

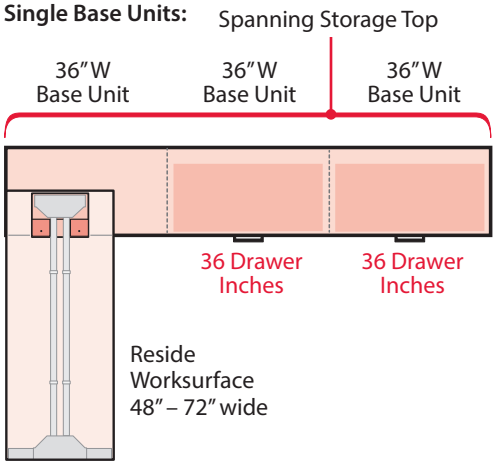
Product Application – Beside Storage

Storage Based Planning With Attached Perpendicular Worksurface – Application Guidelines For Mixed Type A and Type B Base Units

• Each application option shown below has 72 combined drawer inches.

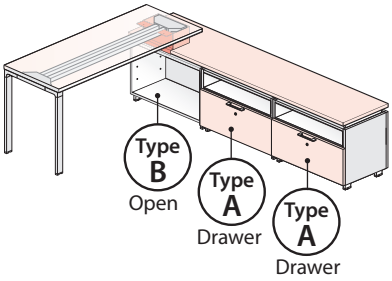
Mix Of Base Units / Type A And Type B Base Unit Applications

Single Base Units:



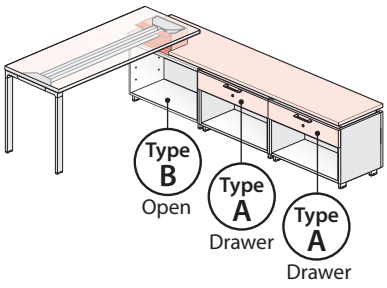
One And One-Half High Base Units With Drawers:

• (2) 36"W Base Units with lateral drawer



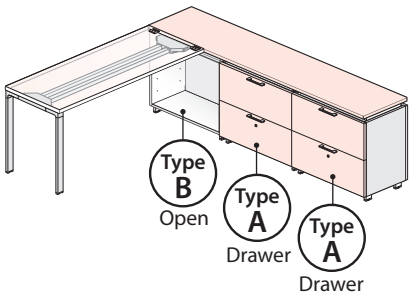
One And One-Half High Base Units With Drawers:

• (2) 36"W Base Units with box drawer

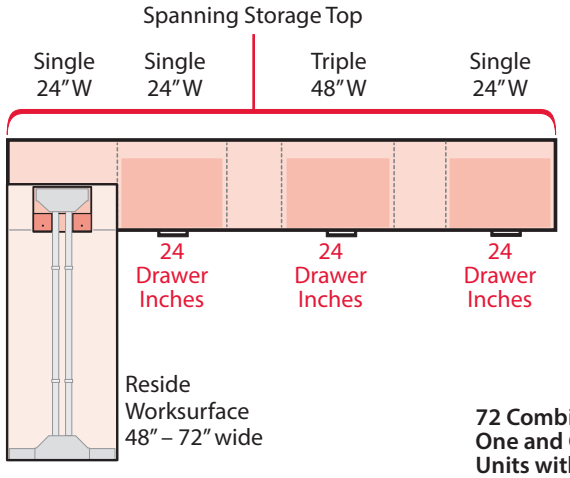


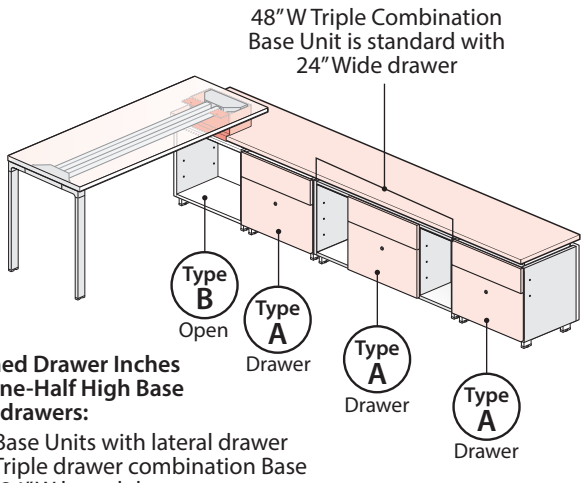
Two High Base Units With Drawers:

• (2) 36"W Base Units with lateral drawers



Single and Triple Base Units:





72 Combined Drawer Inches One and One-Half High Base Units with drawers:

• (2) 24"W Base Units with lateral drawer
• (1) 48"W Triple drawer combination Base Unit with 24"W lateral drawer

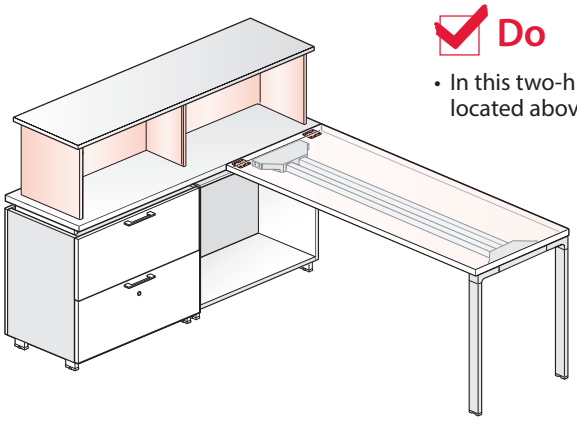
Note • Same guidelines apply to Reside worksurfaces attached to two-high Base Units with Flush Mount Plates.

Product Application – Beside Storage

Storage Based Planning With Attached Perpendicular Worksurface – Worksurface Interference with Base Unit Drawers / Hinged Doors

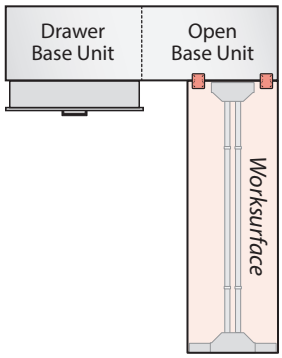
In a two-high storage spine application with attached Worksurfaces, plan around potential drawer or door interference.

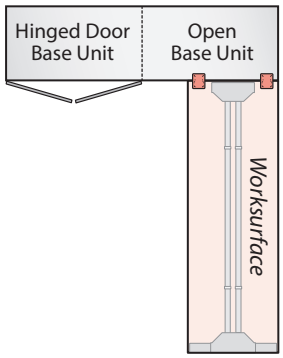
- Base Units with hinged doors or storage drawers in the top position do not have the required clear access to open due to the structural beams beneath the Reside Worksurface. To avoid interference do not locate a storage drawer or hinged door directly beneath the flush mount attached Reside Worksurface.

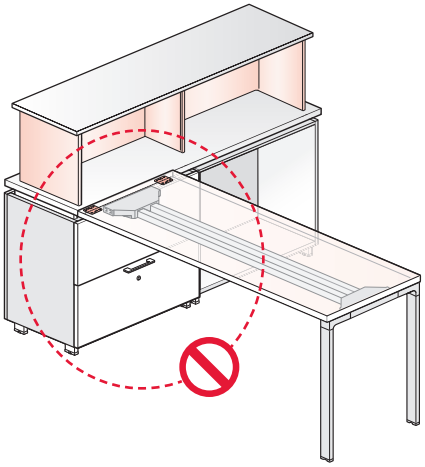


Do

- In this two-high storage based planning application the Reside Worksurface is located above an open storage unit allowing for a functional storage application.

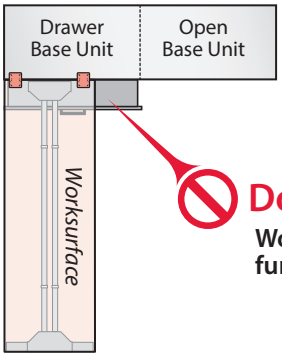






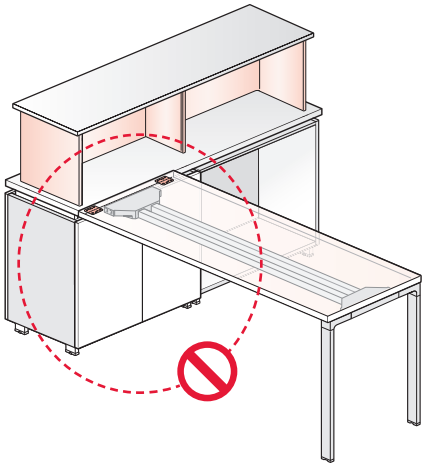
Don't

- The Reside Worksurface is located above a Beside Base Unit with a file drawer in the top position.
- The worksurface interferes with the functionality of the drawer and prevents it from opening.



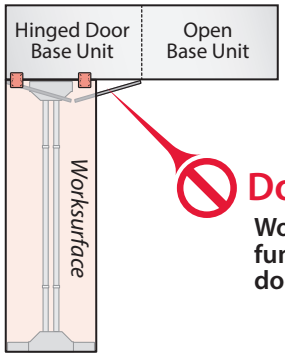
Don't

Worksurface interferes with functionality of the drawer.



Don't

- The Worksurface is located directly above a Base Unit with hinged doors.
- The worksurface interferes with the functionality of the hinged doors and prevents them from opening.



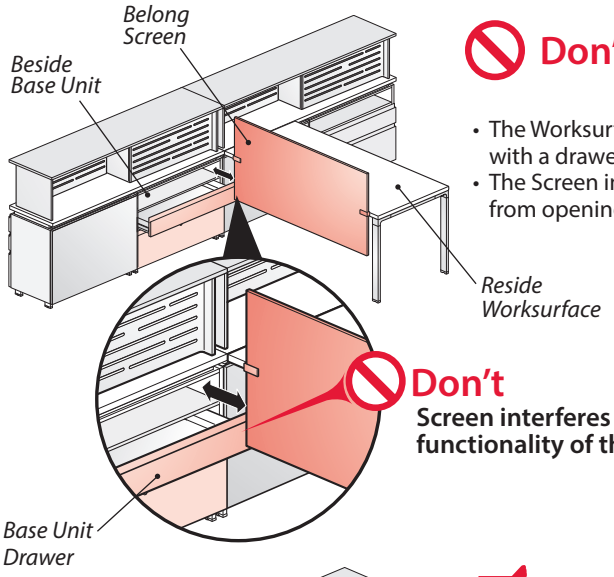
Don't

Worksurface interferes with functionality of the hinged doors.

Product Application – Beside Storage

Storage Based Planning With Attached Perpendicular Worksurface – Screen Interference with Base Unit Drawers

In storage spine applications with attached Worksurfaces with Screens, plan around potential drawer interference with the Screen.

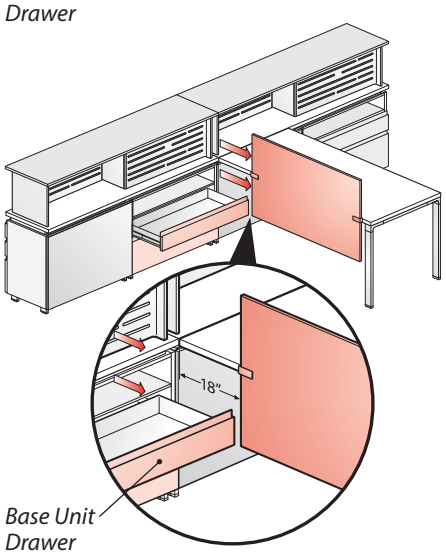


Don't

- The Worksurface and the Screen are mounted adjacent to a Beside Base Unit with a drawer.
- The Screen interferes with the functionality of the drawer and prevents it from opening.

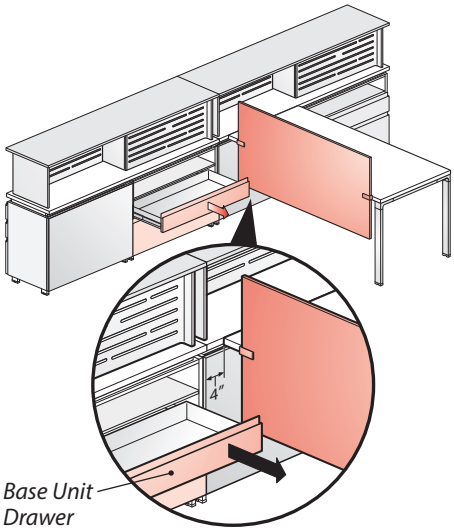
Don't

Screen interferes with functionality of the drawer.



Do

- In storage spine applications with attached Worksurfaces with Screens, specify the Screen 18" shorter than the Worksurface width. Position the Screen on the Worksurface allowing the drawer to fully open.

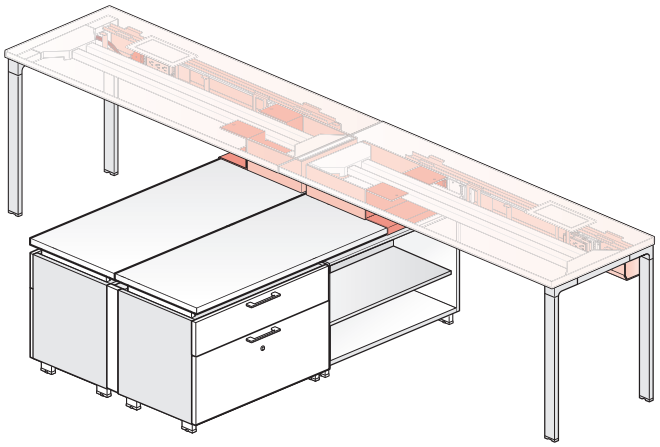


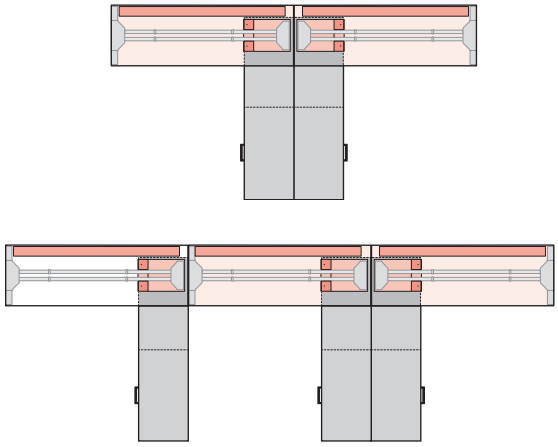
Do

- In storage spine applications with attached Worksurfaces with Screens mount the Worksurface a minimum of 4" from the drawer to allow adequate clearance with the Screen for the drawer to open.

Product Application – Beside Storage

Application Overview – Storage Based Planning with Single Sided Rectilinear Benching





Simple Specification:

- Rectilinear Worksurface(s) specified with hatch cutouts.
- Infeed used to access building power (uses two power connectors or any receptacle location on Power Distribution Assembly).
- Powered Utility Tray specified to match worksurface width(s) and Single Utility Tray Cover.
- Jumper(s) to continue power from one Powered Utility Tray to the next Receptacles specified for power access.

Desking/Benching – Worksurfaces, Legs and Brackets

Worksurface:

Product Application – Beside Storage

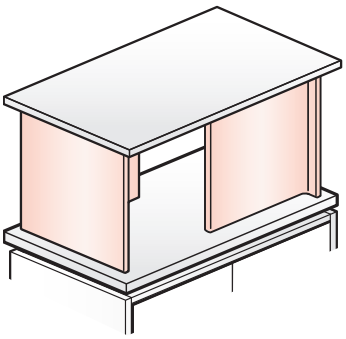
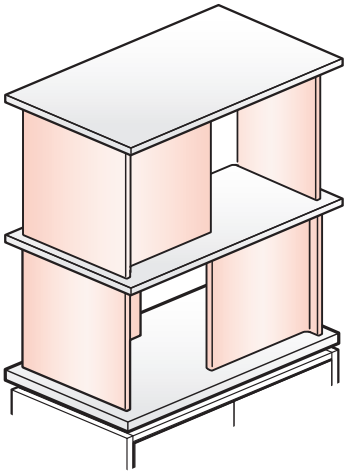
Stanchion Kits – Vertical Planning Models

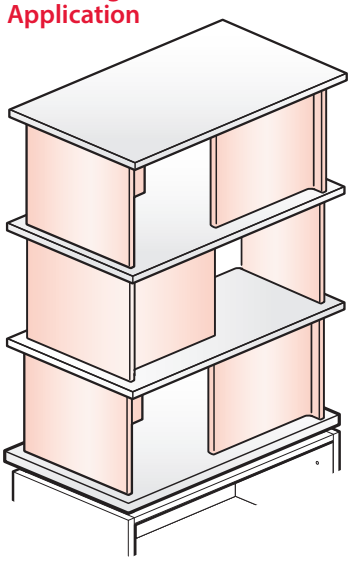
One-High Hutch Application



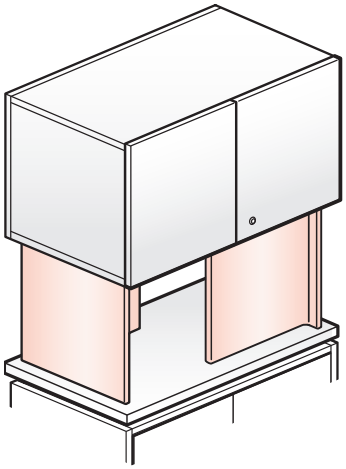
Two-High Hutch Application



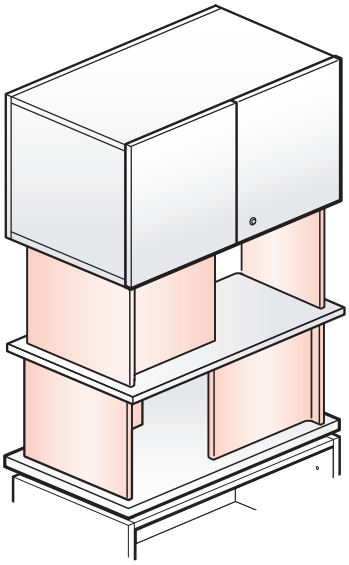
Three-High Hutch Application



One-High Stanchion Mounted Overhead Storage Unit application



Two-High Stanchion Mounted Overhead Storage Unit application



Note The storage components shown above are available in multiple configurations and sizes; refer to the Beside Price List for options.

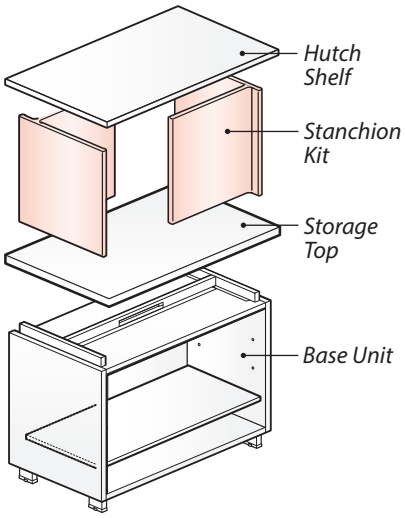
Tip
- Hutch applications and/or Stanchion Mounted Overhead Storage Unit applications with Beside Base Unit may not exceed 58" high.
- A Beside Overhead Storage Unit may be center mounted above a Compose, PREMISE or UniGroup panel; may not exceed 66" high.

Product Application – Beside Storage

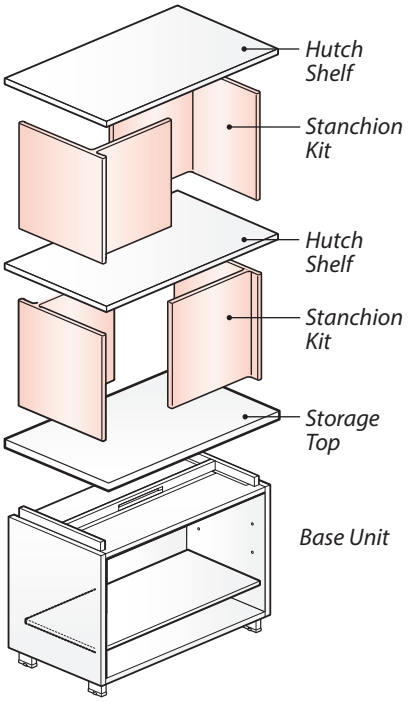
Stanchion Kits – Hutch Applications

- A Beside Storage Top is a separately specified component which is required above a Beside Storage Unit.
- A separately specified Hutch Shelf encloses the top of the Stanchion Kit creating a Hutch Application.
- **A maximum of three Stanchion Kits are allowed in a Hutch application; two-high and three-high Stanchion Kit applications may not exceed 58" high including Base Unit.**

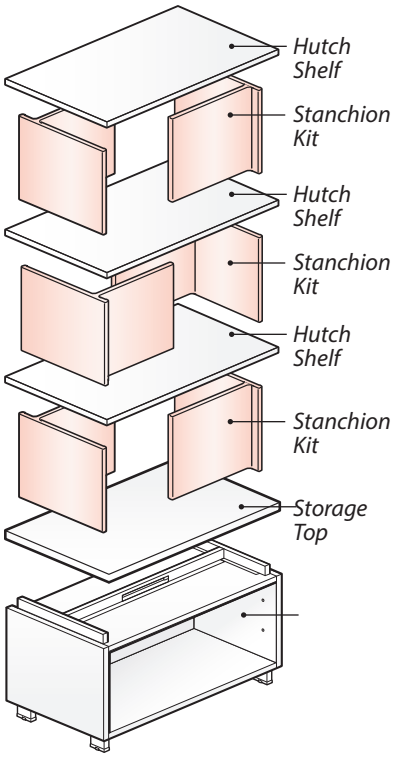
One-High Hutch Application



Two-High Hutch Application



Three-High Hutch Application

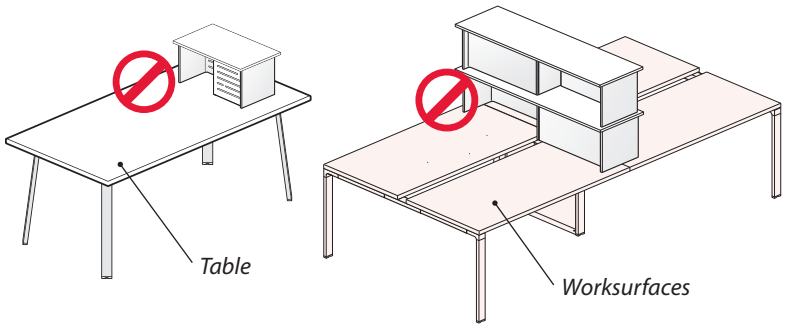


Do

- Hutch applications consist of separately specified components: Base Unit, Storage Top, Stanchion Kit and Hutch Shelf.
- Hutch applications must be under 58" in height.
- Stanchion Kits may be located one above another with a Hutch Shelf between Stanchion Kits and at the top of the upmost Stanchion Kit.
- Hutch Shelf width must match the Stanchion Kit width.
- A Stanchion Kit may span multiple Base Units if the Base Units have a single spanning Storage Top.

Don't

- Stanchions are not for use on top of a Reside Table or Desking Worksurface or Return.
- Hutch is not for use on an panel mounted Adaptable Worksurface.
- Hutch Shelf may not span side-by-side Stanchion Kits.
- Hutch applications may not exceed 58" in height.



Tip

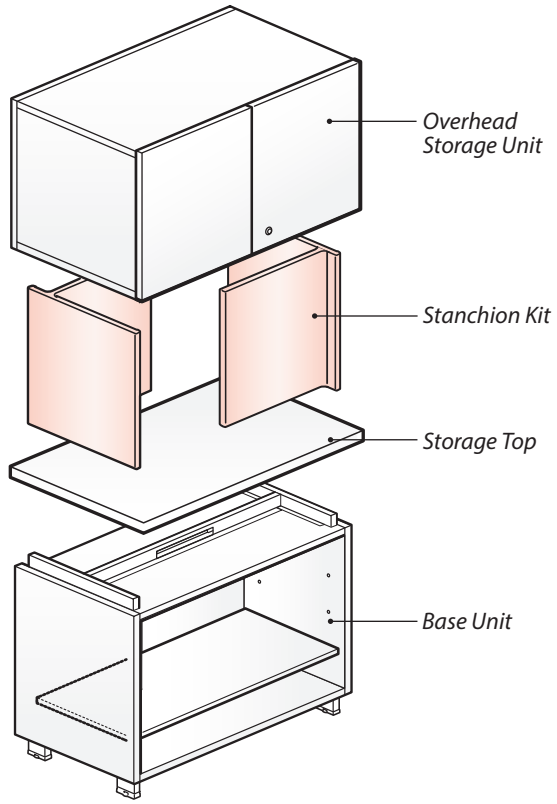
- Hutch applications and/or Stanchion Mounted Overhead Storage Unit applications with Beside Base Unit may not exceed 58" high.
- A Beside Overhead Storage Unit may be center mounted above a Compose, PREMISE or UniGroup panel; may not exceed 66" high.

Product Application – Beside Storage

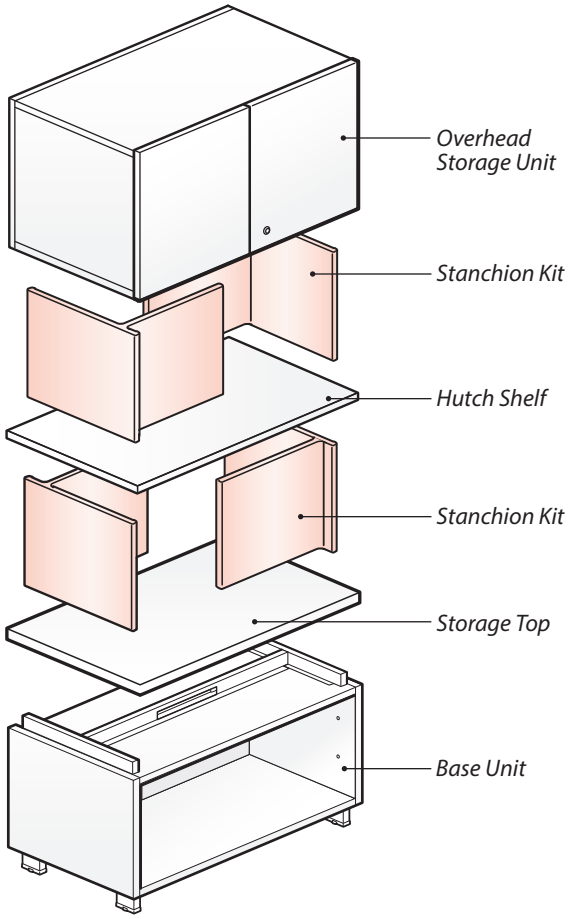
Stanchion Kits – Stanchion Mounted Overhead Storage Unit Applications

- A Beside Storage Top is a separately specified component which is required above a Beside Base Unit in a Stanchion Kit application.
- A Beside Overhead Storage Unit may be located above a Stanchion Kit creating a Stanchion Mounted Overhead Storage Unit application.
- **A maximum of two Stanchion Kits are allowed in a Stanchion Mounted Overhead Storage Unit application; may not exceed 58" high including Base Unit.**
- In a two-high Stanchion Mounted Overhead Storage Unit application a separately specified Hutch Shelf is required between Stanchion Kits.
- A Hutch Shelf not required between the Stanchion Kit and the Beside Overhead Storage Unit.

One-High Stanchion Mounted Overhead Storage Unit Application



Two-High Stanchion Mounted Overhead Storage Unit Application



Do

- Separately specify Stanchion Kit (hardware included), Storage Top and Base Unit.
- Separately specify Adaptable Task Light and/or LED Light for use with Stanchion mounted OSU.
- Overhead Storage Units (OSU) may be attached above separately specified Stanchion Kits and at the top of the upmost Stanchion Kit.

Don't

- Hutch applications not to exceed 58" in height
- Beside OSU cannot be freestanding
- Beside OSU cannot be mounted to a Reside table, worksurface or Return Worksurface.

Note

- The storage components shown above are available in multiple configurations and sizes; refer to the Beside Price List for options.
- Hutch Shelf is not required between the Stanchion Kit and the Overhead Storage Unit.

Tip

- Hutch applications and/or Stanchion Mounted Overhead Storage Unit applications with Beside Base Unit may not exceed 58" high.
- A Beside Overhead Storage Unit may be center mounted above a Compose PREMISE or UniGroup panel; may not exceed 66" high.

Product Application – Beside Storage

Six Easy Steps – Designing A Hutch Application

Step 1 **Beside Base Unit –**
Beside Base Unit is used to support a Stanchion Kit.
Note: Stanchion Kits are not for use on desking Worksurfaces/Return Worksurfaces, panel mounted Adaptable Worksurfaces, or Desk Shells.

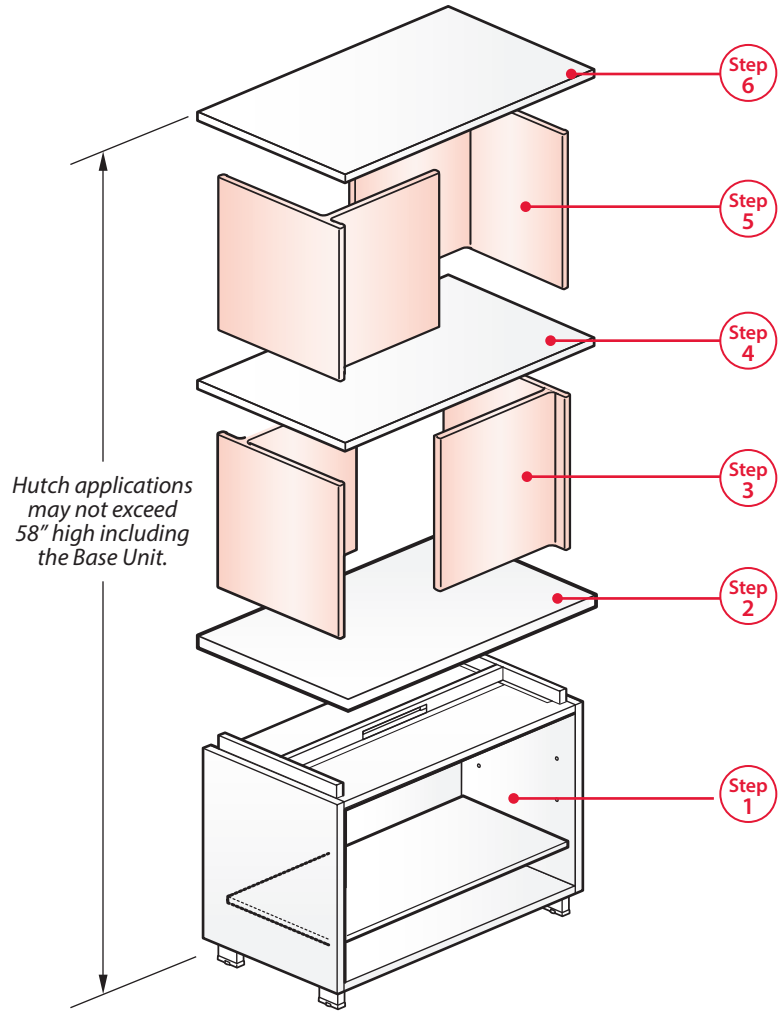
Step 2 **Beside Storage Top –** (required; separately specify)
A separately specified Beside Storage Top is a required component above a Beside Base Unit.

Step 3 **Beside Stanchion Kit –** (located in a one-high position)
A Beside Stanchion Kit may be used above a Beside Base Unit with Storage Top for additional vertical storage. Available in multiple configurations and sizes.

Step 4 **Beside Hutch Shelf –** (required; separately specify)
A separately specified 3/4" thick Hutch Shelf encloses the top of the Stanchion Kit creating a Hutch Application. When stacking Stanchion Kits above one another a Hutch Shelf is required between Stanchion Kits.
Note: Beside Hutch Shelf must be the same nominal width as the Stanchion Kit.

Step 5 **Beside Stanchion Kit –** (located in two-high position)
A Beside Stanchion Kit may be used above one another for additional vertical storage.

Step 6 **Beside Hutch Shelf –** (required; separately specify)
A Hutch Shelf is required at the top of a Stanchion Kit to stabilize the vertical panels.
Note: Beside Hutch Shelf must be the same nominal width as the Stanchion Kit.



Note Refer to the following pages for additional planning models for specific Stanchion Kit / Hutch application guidelines.

Product Application – Beside Storage

Six Easy Steps –Designing A Stanchion Kit Mounted Overhead Storage Unit Application

Step 1 **Beside Base Unit –**
Beside Base Unit is used to support a Stanchion Kit.
Note: Stanchion Kits are not for use on desking Worksurfaces/Return Worksurfaces, panel mounted Adaptable Worksurfaces, or Desk Shells.

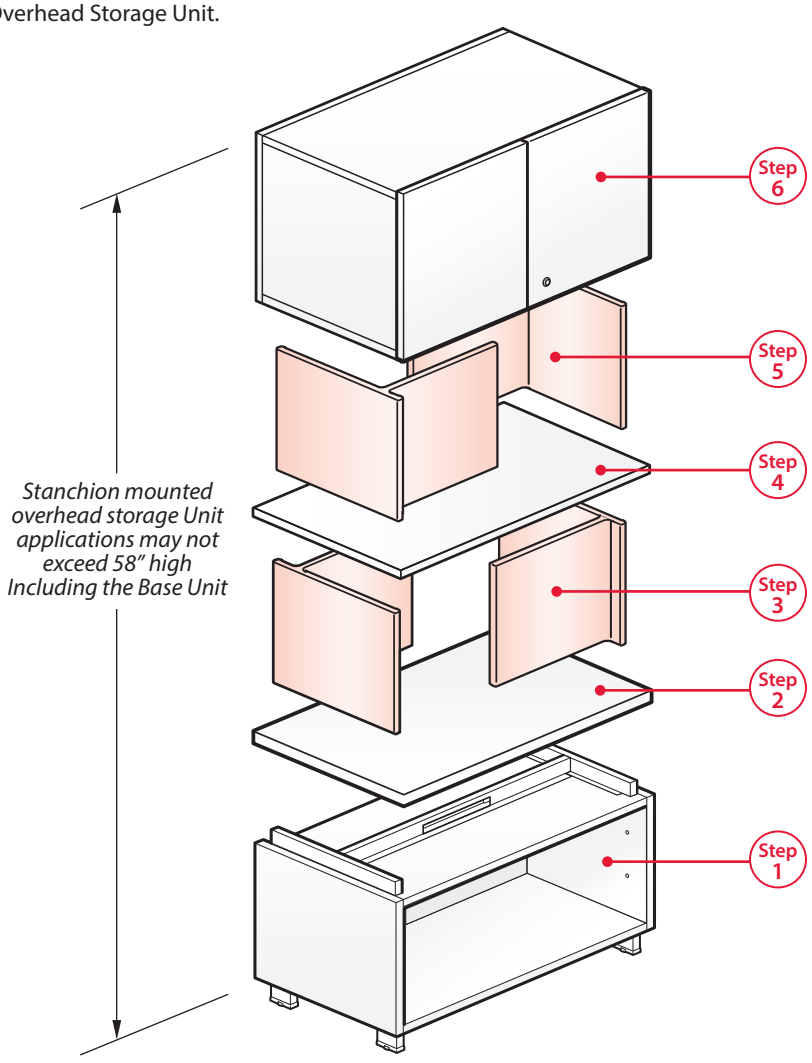
Step 2 **Beside Storage Top –** (required; separately specify)
A separately specified Beside Storage Top is a required component above a Beside Base Unit.

Step 3 **Beside Stanchion Kit –** (located in a one-high position)
A Beside Stanchion Kit may be used above a Beside Base Unit with Storage Top for additional vertical storage. Available in multiple configurations and sizes.

Step 4 **Beside Hutch Shelf –** (required; separately specify)
A separately specified 3/4" thick Hutch Shelf encloses the top of the Stanchion Kit creating a Hutch Application. When stacking Stanchion Kits above one another a Hutch Shelf is required between Stanchion Kits.
Note: Beside Hutch Shelf must be the same nominal width as the Stanchion Kit.

Step 5 **Beside Stanchion Kit –** (located in two-high position)
A Beside Stanchion Kit may be used above one another for additional vertical storage.

Step 6 **Beside Overhead Storage Unit –** (required; separately specify)
A separately specified Overhead Storage Unit encloses the top of the Stanchion Kit creating a Hutch Application. The Overhead Storage Unit is installed above the above a Stanchion Kit; a Hutch Shelf is not required below the Overhead Storage Unit.



Note Refer to the following pages for additional planning models for specific Stanchion Kit / Hutch application guidelines.

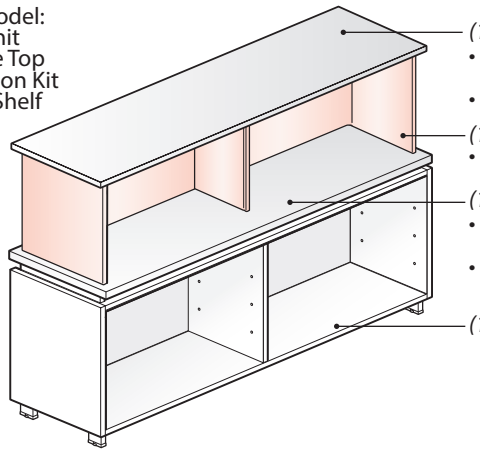
Product Application – Beside Storage

Storage Based Planning – One-High Hutch Applications

Do

Application 1-A
- (1) Stanchion Kit – same nominal width as (1) Base Unit and Storage Top.

Planning Model:
- (1) Base Unit
- (1) Storage Top
- (1) Stanchion Kit
- (1) Hutch Shelf



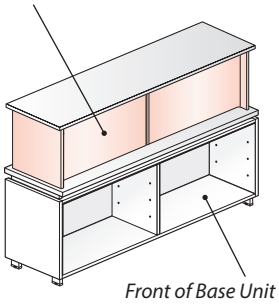
(1) Hutch Shelf
- Must be same nominal width as the Stanchion Kit.
- Required; separately specified.

(1) Stanchion Kit
- Same nominal width as Base Unit.

(1) Storage Top
- Must be same nominal width as the Base Unit.
- Required; separately specified.

(1) Base Unit

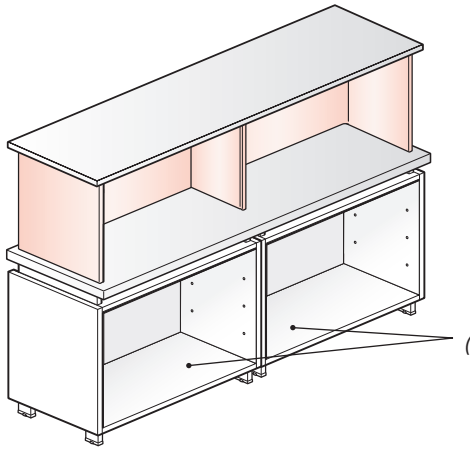
Application Alternative:
- The Stanchion Kit and the Base Unit may face in the same or opposite direction.



Same application as above with the following exceptions:

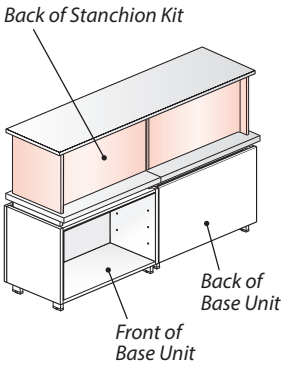
Do

Application 1-B
- (1) Storage Top spans (2) Base Units



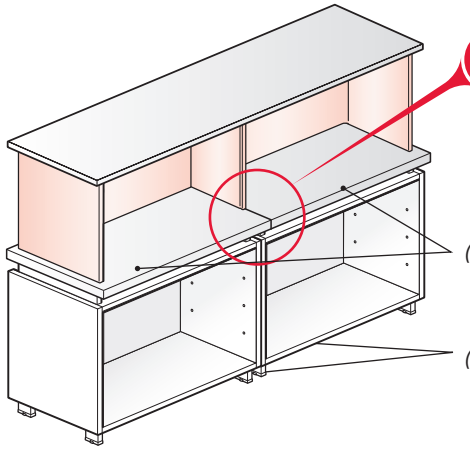
(2) Base Units

Application Alternative:
- The Stanchion Kit and the Base Units may face in the same or opposite directions.



Don't

Application 1-C – Not a valid application with two Storage Tops.
- (2) Base Units and (2) Storage Tops – each Storage Top has the same nominal width as each Base Unit.



Don't

A Stanchion Kit may not span multiple Storage Tops. The Stanchion Kit vertical panel located in the center may not be installed at the seam of two side-by-side Beside Storage Tops.

(2) Storage Tops

(2) Base Units

Note
- A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip
- The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
- A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

Product Application – Beside Storage

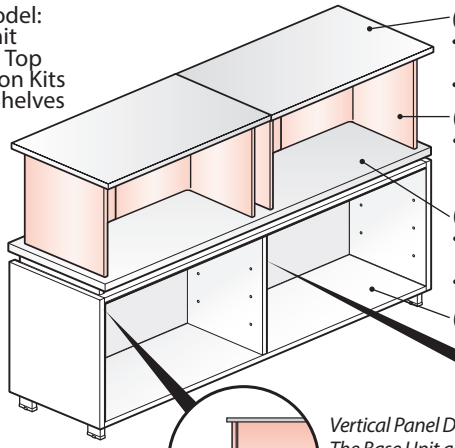
Storage Based Planning – One-High Hutch Applications

Do

Application 2-A

• (2) Stanchion Kits – half the nominal width of the Base Unit and the Storage Top.

Planning Model:
• (1) Base Unit
• (1) Storage Top
• (2) Stanchion Kits
• (2) Hutch Shelves



(2) Hutch Shelves
• Each Hutch Shelf Must be the same nominal width as each Stanchion Kit.
• Required; separately specified.

(2) Stanchion Kits
• The combined nominal width of the Stanchion Kits equal the Base Unit nominal width.

(1) Storage Top
• Must be same nominal width as the Base Unit.
• Required; separately specified.

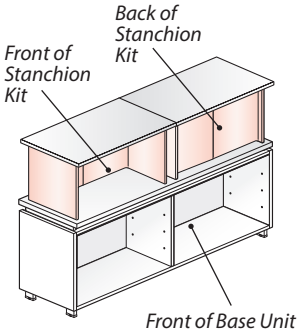
(1) Base Unit

Vertical Panel Detail: The Base Unit and Stanchion Kit vertical panels align with one another.

There is a 2" gap between the vertical panels in a side-by-side Stanchion Kit or Hutch application.

Application Alternative:

• The Stanchion Kits and the Base Unit may face in the same or opposite directions.

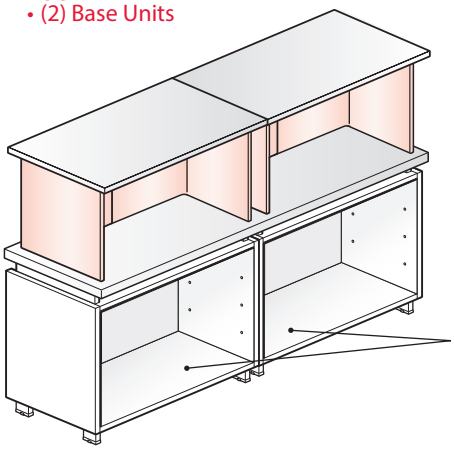


Same application as above with the following exceptions:

Do

Application 2-B

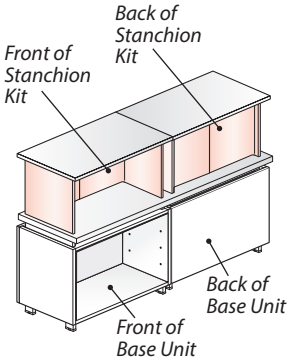
• (2) Base Units



(2) Base Units

Application Alternative:

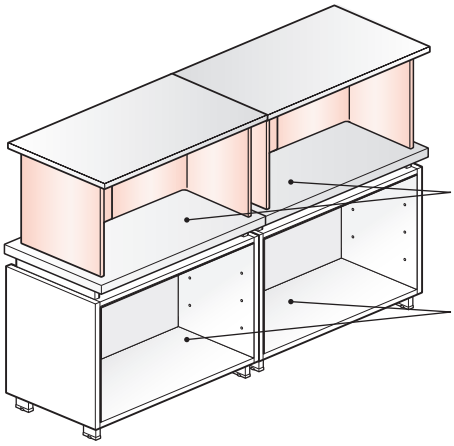
• The Stanchion Kits and the Base Units may face in the same or opposite directions.



Do

Application 2-C

• (2) Base Units and (2) Storage Tops

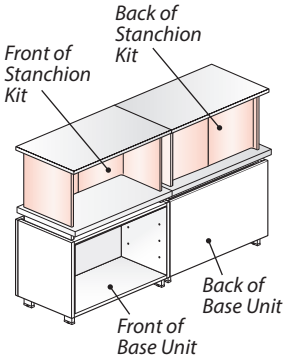


(2) Storage Tops
• Must be same nominal width as each Base Unit.

(2) Base Units

Application Alternative:

• The Stanchion Kits and the Base Units may face in the same or opposite directions.



Note • A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip • The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
• A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

Product Application – Beside Storage

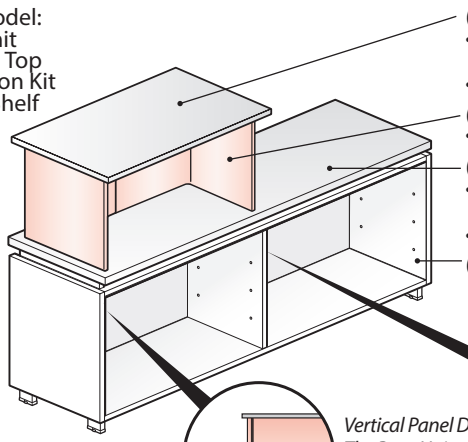
Storage Based Planning – One-High Hutch Applications

Do

Application 3-A

• (1) Stanchion Kit – half the nominal width of the Base Unit and the Storage Top.

Planning Model:
• (1) Base Unit
• (1) Storage Top
• (1) Stanchion Kit
• (1) Hutch Shelf

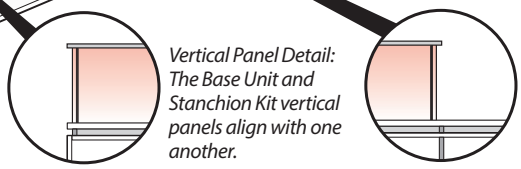


(1) Hutch Shelf
• Must be same nominal width as the Stanchion Kit.
• Required; separately specified.

(1) Stanchion Kit
• Half the nominal width as Base Unit.

(1) Storage Top
• Must be same nominal width as the Base Unit.
• Required; separately specified.

(1) Base Unit

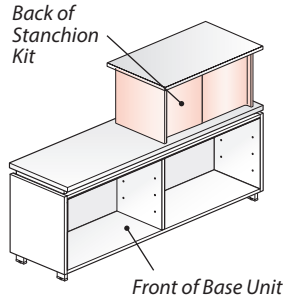


Vertical Panel Detail: The Base Unit and Stanchion Kit vertical panels align with one another.

Vertical Panel Detail: The Base Unit and Stanchion Kit vertical panels are off-set due to fastener interference with the spacer.

Application Alternative:

• The Stanchion Kit and the Base Unit may face in the same or opposite directions.

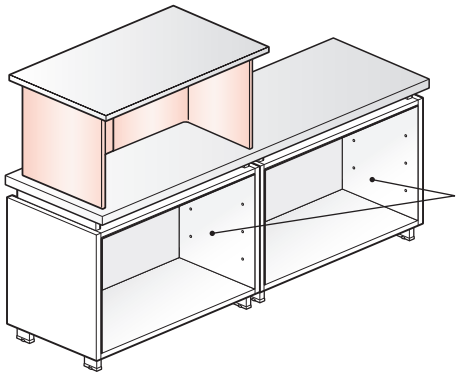


Same application as above with the following exceptions:

Do

Application 3-B

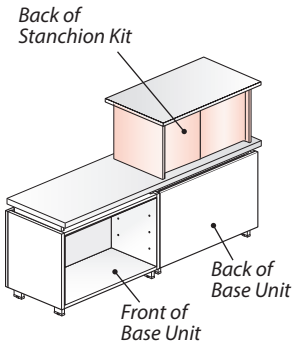
• (2) Base Units



(2) Base Units

Application Alternative:

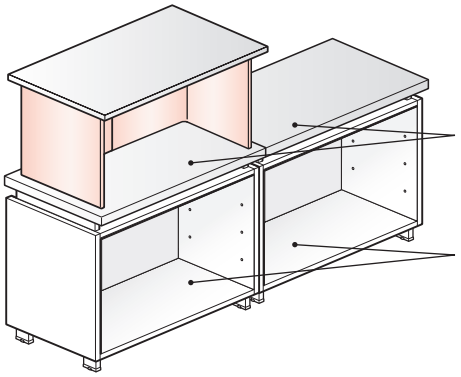
• The Stanchion Kit and the Base Units may face in the same or opposite directions.



Do

Application 3-C

• (2) Base Units and (2) Storage Tops

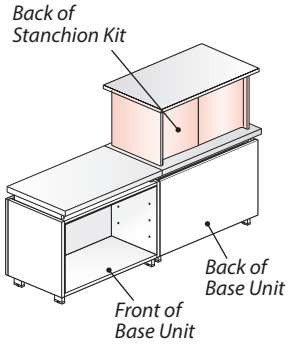


(2) Storage Tops
• Must be same nominal width as each Base Unit.

(2) Base Units

Application Alternative:

• The Stanchion Kit and the Base Units may face in the same or opposite directions.



Note • A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip
• The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
• A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

Product Application – Beside Storage

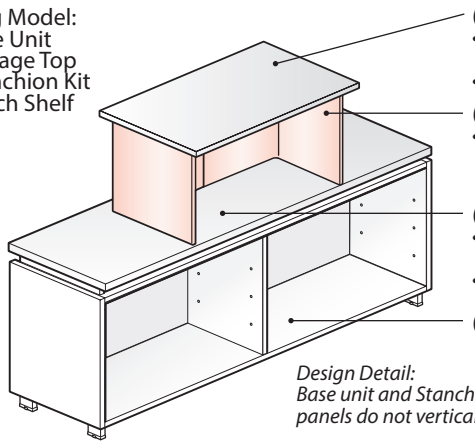
Storage Based Planning – One-High Hutch Applications

Do

Application 4-A / Off-Modular

• (1) Stanchion Kit – half the nominal width of the Base Unit and the Storage Top.

Planning Model:
• (1) Base Unit
• (1) Storage Top
• (1) Stanchion Kit
• (1) Hutch Shelf



(1) Hutch Shelf
• Must be same nominal width as the Stanchion Kit.
• Required; separately specified.

(1) Stanchion Kit
• Half the nominal width as the Base Unit; Stanchion Kit is centered on the Base Unit.

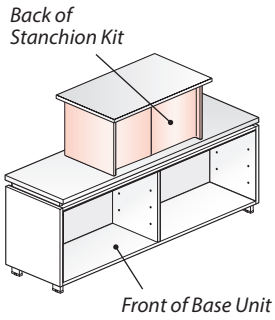
(1) Storage Top
• Must be same nominal width as the Base Unit.
• Required; separately specified.

(1) Base Unit

Design Detail:
Base unit and Stanchion Kit vertical panels do not vertically align.

Application Alternative:

• The Stanchion Kit and the Base Unit may face in the same or opposite directions.

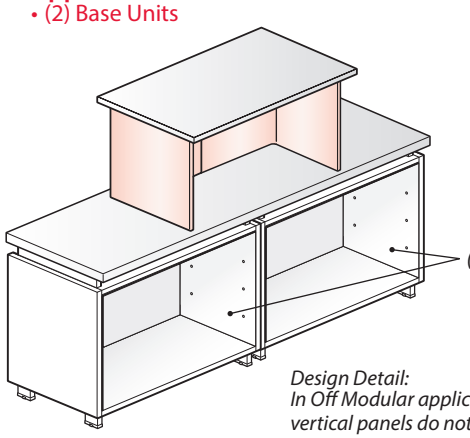


Same Application as above with the following exceptions:

Do

Application 4-B / Off-Modular

• (2) Base Units

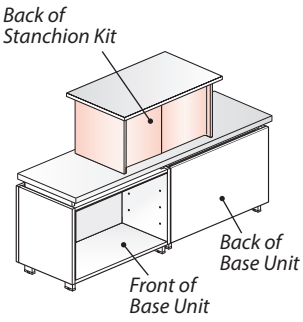


(2) Base Units

Design Detail:
In Off Modular applications the Base Unit and Stanchion Kit vertical panels do not visually align with each other.

Application Alternative:

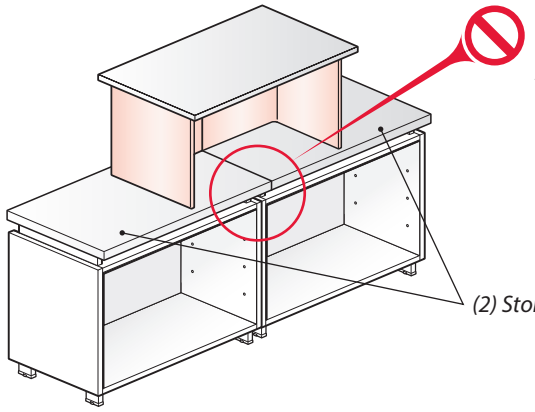
• The Stanchion Kit and the Base Units may face in the same or opposite directions.



Don't

Application 4-C / Off-Modular – Not a valid application with two Storage Tops.

• (2) Base Units and (2) Storage Tops



Don't

A Stanchion Kit may not span multiple Storage Tops.

(2) Storage Tops

Note • A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip • The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
• A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

Product Application – Beside Storage

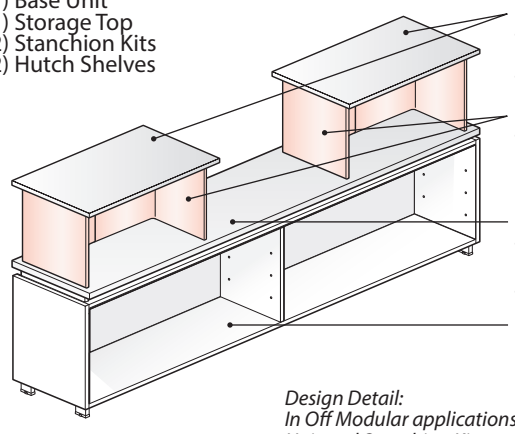
Storage Based Planning – One-High Hutch Applications

Do

Application 5-A / Off-Modular

- (2) Stanchion Kits – The combined nominal width of the Stanchion Kits are less than the Base Unit nominal width.
- Stanchion Kits are located at each end of the Base Unit.

Planning Model:
- (1) Base Unit
- (1) Storage Top
- (2) Stanchion Kits
- (2) Hutch Shelves



(2) Hutch Shelves
- Must be same nominal width as the Stanchion Kit.
- Required; separately specified.

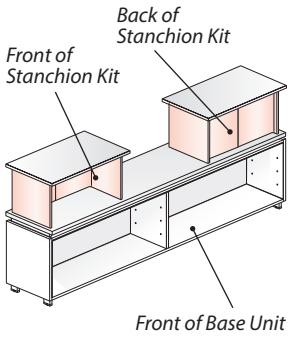
(2) Stanchion Kits
- The combined nominal width of the Stanchion Kits is less than the Base Unit nominal width.

(1) Storage Top
- Must be the same nominal width as Base Unit.
- Required; separately specify.

(1) Base Unit

Design Detail:
In Off Modular applications the Base Unit and Stanchion Kit vertical panels do not visually align with each other.

Application Alternative:
- The Stanchion Kits and the Base Unit may face in the same or opposite directions.

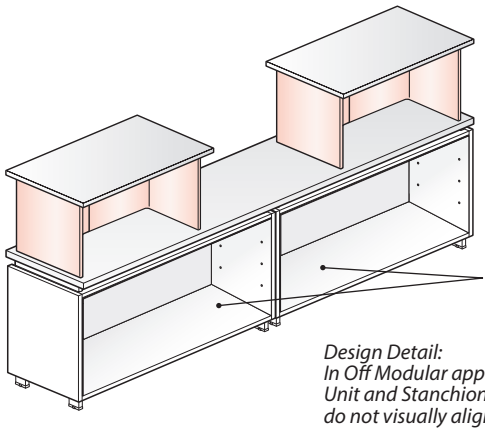


Same as Application 5A with the following exceptions:

Do

Application 5-B / Off-Modular

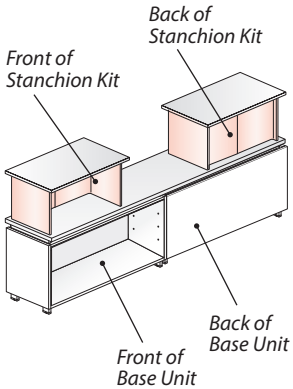
- (2) Base Units



(2) Base Units

Design Detail:
In Off Modular applications the Base Unit and Stanchion Kit vertical panels do not visually align with each other.

Application Alternative:
- The Stanchion Kits and the Base Units may face in the same or opposite directions.



Note • A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip
- The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
- A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

Product Application – Beside Storage

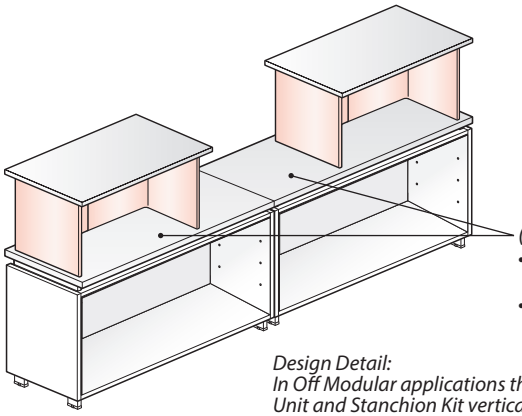
Storage Based Planning – One-High Hutch Applications

Same as Application 5A with the following exceptions:

Do

Application 5-C / Off-Modular

- (2) Base Units and (2) Storage Tops with the same nominal width.

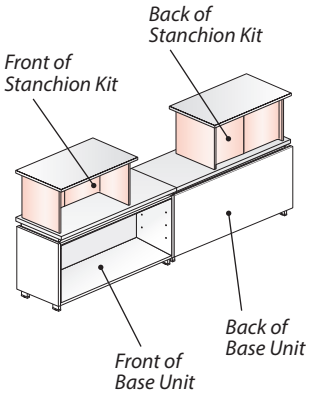


(2) Storage Tops
- The same nominal width as each Base Units.
- required; separately specify.

Design Detail:
In Off Modular applications the Base Unit and Stanchion Kit vertical panels do not visually align with each other.

Application Alternative:

- The Stanchion Kits and the Base Units may face in the same or opposite directions.

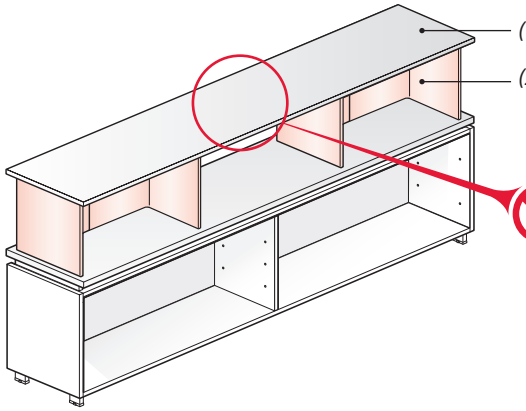


Same as Application 5A with the following exceptions:

Don't

Application 5-D / Off-Modular

- (1) Hutch Shelf spans (2) Stanchion Kits.



(1) Hutch Shelf

(2) Stanchion Kits

Don't

A Hutch Shelf may not span multiple Stanchion Kits

Note
- A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip
- The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
- A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

Product Application – Beside Storage

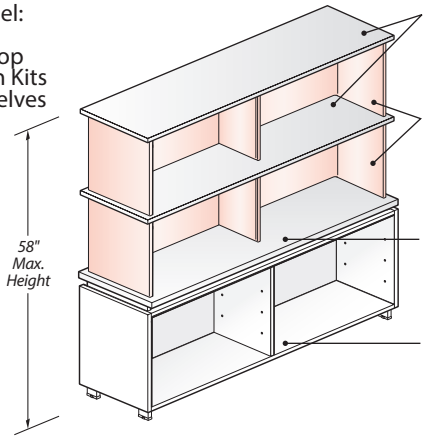
Storage Based Planning – Two-High Hutch Applications

Do

Application 6-A

- (2) Stanchion Kits in a stacked application above (1) Base Unit – each Stanchion Kit is the same nominal width as the Base Unit.

Planning Model:
- (1) Base Unit
- (1) Storage Top
- (2) Stanchion Kits
- (2) Hutch Shelves



(2) Hutch Shelves
- Each Hutch Shelf must be the same nominal width as the Stanchion Kit
- Required; separately specify.

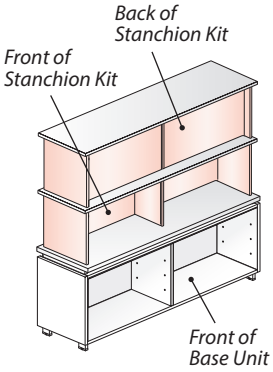
(2) Stanchion Kits
- Each Stanchion Kit is the same nominal width as the Base Unit.
- Stanchion Kits are facing the same direction.

(1) Storage Top
- Must be the same nominal width as the Base Unit.
- required; separately specify.

(1) Base Unit

Application Alternative:

- The Stanchion Kits and the Base Unit may face in the same or opposite directions.

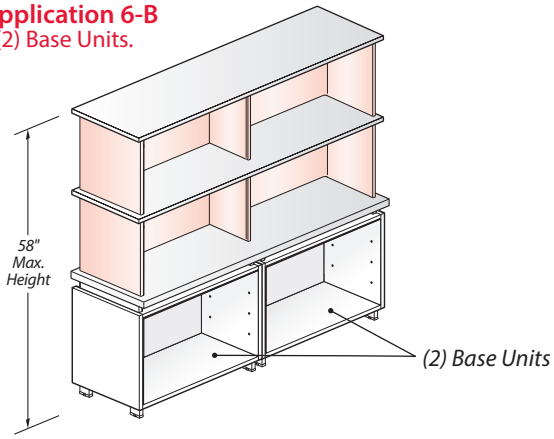


Same application as above with the following exceptions:

Do

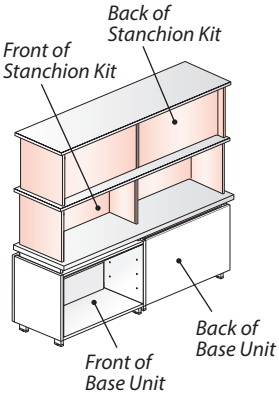
Application 6-B

- (2) Base Units.



Application Alternative:

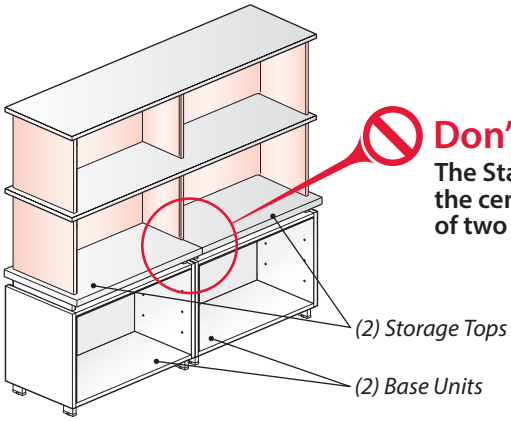
- The Stanchion Kits and the Base Units may face in the same or opposite directions.



Don't

Application 6-C

- (2) Storage Tops and (2) Base Units – Storage Tops are same nominal width as each Base Unit.



Don't

The Stanchion Kit vertical panel located in the center may not be installed at the seam of two side-by-side Beside Storage Tops.

Note
- A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip
- The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
- A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

Product Application – Beside Storage

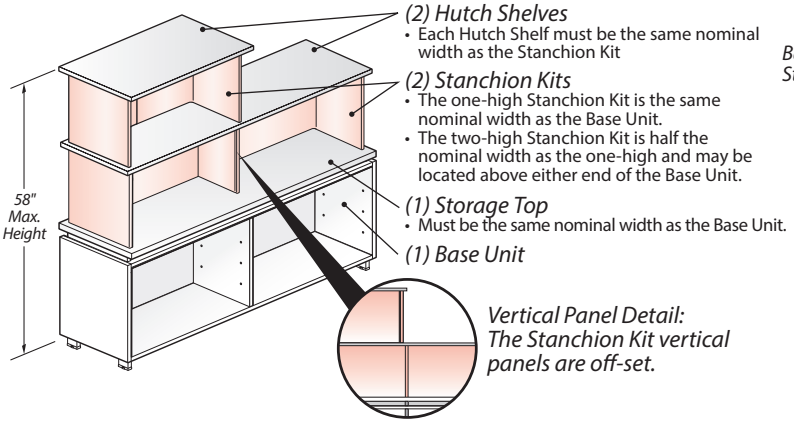
Storage Based Planning – Two-High Hutch Applications

Do

Application 7-A

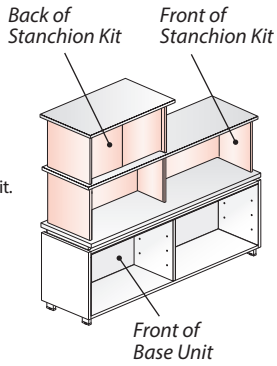
- (2) Stanchion Kits in a stacked application
- The one-high Stanchion Kit is the same nominal width as the Base Unit. The two-high Stanchion Kit is half the nominal width as the one-high Stanchion Kit and may be located above either end of the Base Unit.

Planning Model:
- (1) Base Unit
- (1) Storage Top
- (2) Stanchion Kits
- (2) Hutch Shelves



Application Alternative:

- The Stanchion Kits and the Base Unit may face in the same or opposite directions.

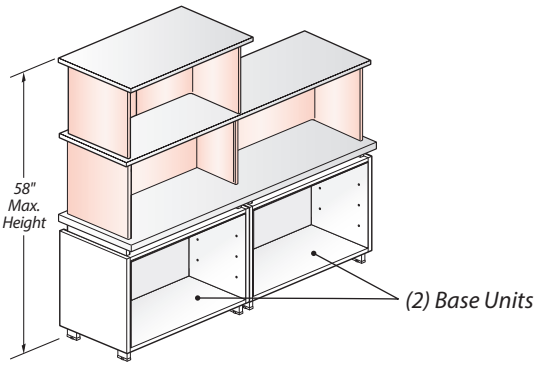


Same application as above with the following exceptions:

Do

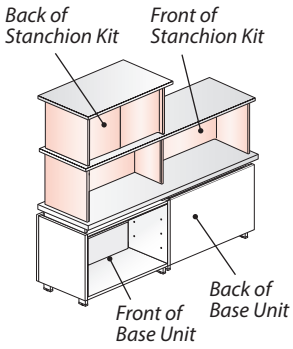
Application 7-B

- (2) Base Units



Application Alternative:

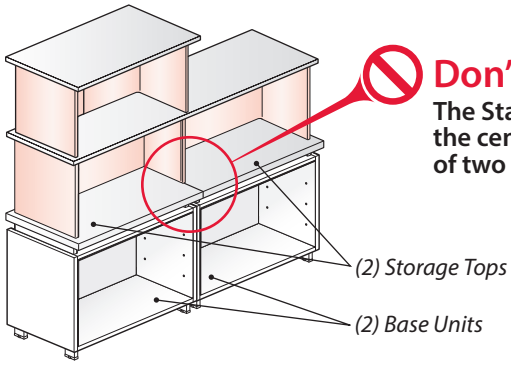
- The Stanchion Kits and the Base Units may face in the same or opposite directions.



Don't

Application 7-C

- (2) Storage Tops and (2) Base Units – each Storage Top is the same nominal width as each Base Unit.



Don't

The Stanchion Kit vertical panel located in the center may not be installed at the seam of two side-by-side Beside Storage Tops.

Note
- A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip
- The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
- A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

Product Application – Beside Storage

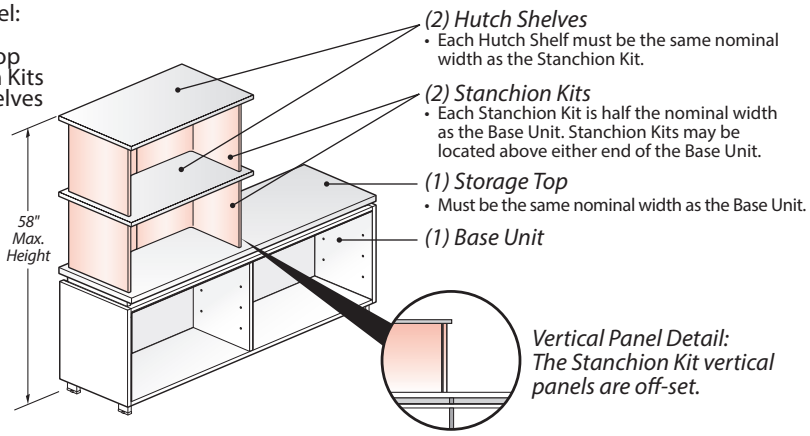
Storage Based Planning – Two-High Hutch Applications

Do

Application 8-A

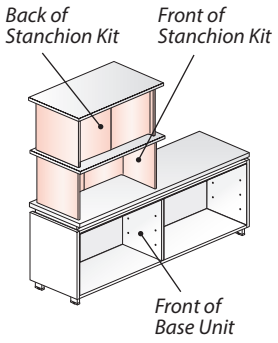
- (2) Stanchion Kits in a stacked application – Each Stanchion Kit is half the nominal width as the Base Unit.
- Stanchion Kits may be located above either end of the Base Unit.

Planning Model:
- (1) Base Unit
- (1) Storage Top
- (2) Stanchion Kits
- (2) Hutch Shelves



Application Alternative:

- The Stanchion Kits and the Base Unit may face in the same or opposite directions.

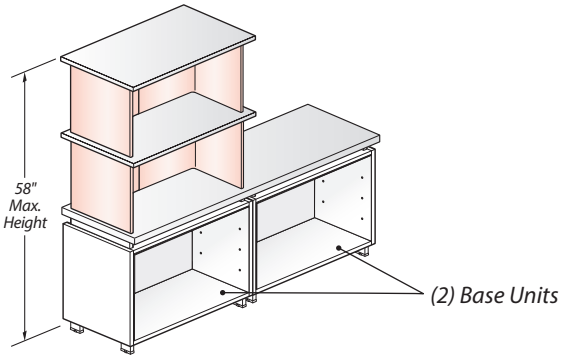


Same application as above with the following exceptions:

Do

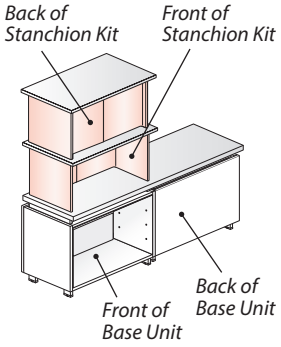
Application 8-B

- (2) Base Units



Application Alternative:

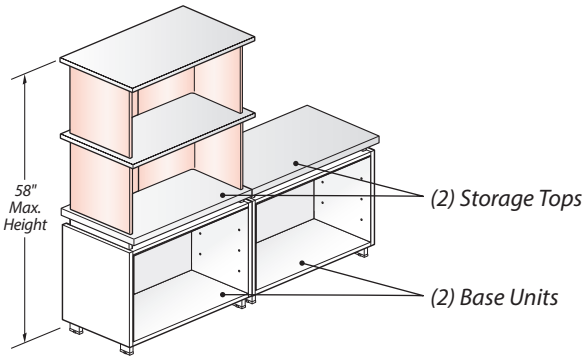
- The Stanchion Kits and the Base Units may face in the same or opposite directions.



Do

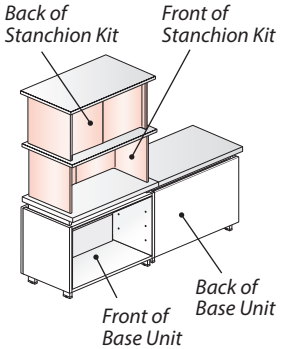
Application 8-C

- (2) Storage Tops and (2) Base Units – each Storage Top is the same nominal width as each Base Unit.



Application Alternative:

- The Stanchion Kits and the Base Units may face in the same or opposite directions.



Note
- A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip
- The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
- A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

Product Application – Beside Storage

Storage Based Planning – Two-High Hutch Applications

Do

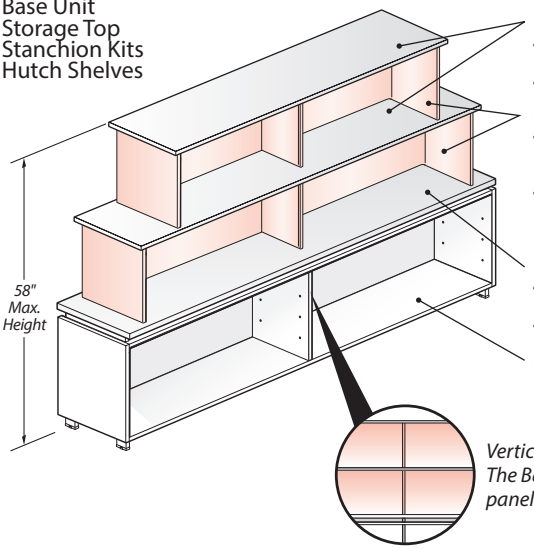
Application 9-A / Off-Modular Tiered

- (2) Stanchion Kits in a tiered stacked application – the one-high Stanchion Kit may be 6" less than the Base Unit width.
- The two-high Stanchion Kit may be 12" less than the one-high Stanchion Kit width.

Application Alternative:

- The Stanchion Kits and the Base Unit may face in the same or opposite directions.

Planning Model:
- (1) Base Unit
- (1) Storage Top
- (2) Stanchion Kits
- (2) Hutch Shelves



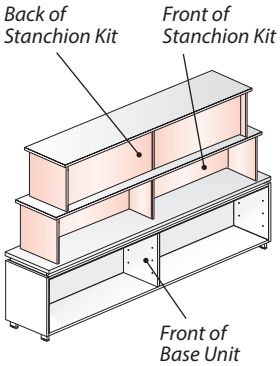
(2) Hutch Shelves
- Each Hutch Shelf must be the same nominal width as the Stanchion Kit.
- Required; separately specify.

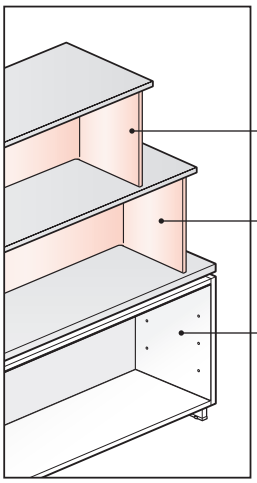
(2) Stanchion Kits
- The two-high Stanchion Kit may be a maximum of 12" less than the width of the one-high Stanchion Kit.
- The one-high Stanchion Kit may be a maximum of 6" less than the width of the Base Unit.

(1) Storage Top
- Must be the same nominal width as the Base Unit.
- Required; separately specify.

(1) Base Unit

Vertical Panel Detail:
The Base Unit and Stanchion Kit vertical panels align with one another.





Tiered Width - Example:

54" wide – Two-High Stanchion Kit
- Maximum of 12" less than the width of the one-high Stanchion Kit.

66" wide – One-High Stanchion Kit
- Maximum of 6" less than the width of the Base Unit.

72" wide – Base Unit

Note
- A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip
- The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
- A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

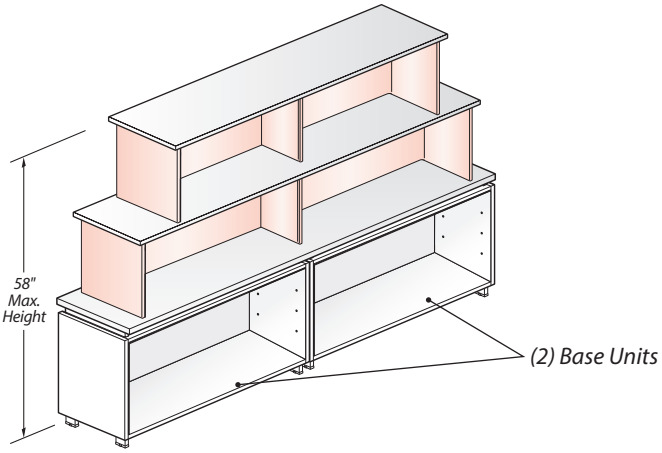
Product Application – Beside Storage

Storage Based Planning – Two-High Hutch Applications

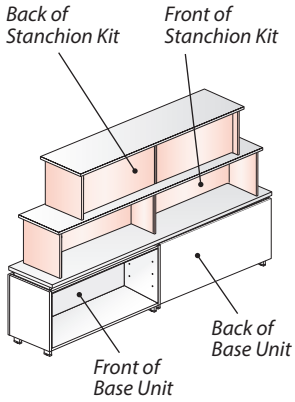
Same as Application 9-A with the following exceptions:

Do

Application 9-B / Off-Modular Tiered
- (2) Base Units

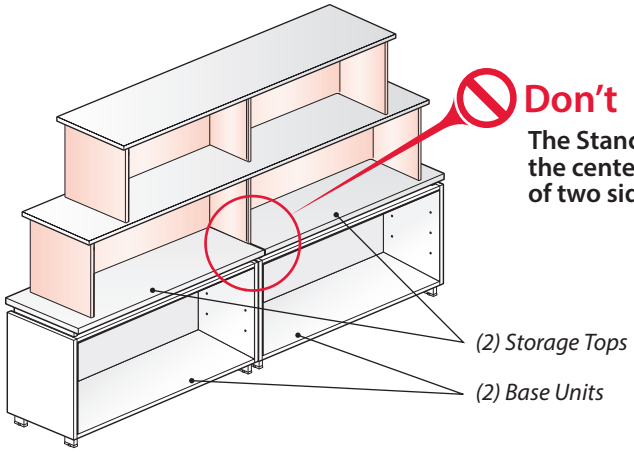


Application Alternative:
- The Stanchion Kits and the Base Units may face in the same or opposite directions.



Don't

Application 9-C / Off-Modular Tiered
- (2) Storage Tops and (2) Base Units – each Storage Top is the same nominal width as each Base Unit.



Don't

The Stanchion Kit vertical panel located in the center may not be installed at the seam of two side-by-side Beside Storage Tops.

Note
- A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip
- The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
- A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

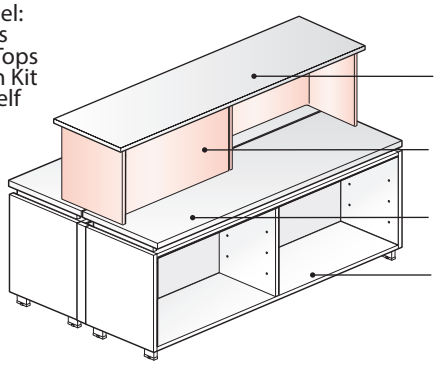
Product Application – Beside Storage

Storage Based Planning – Back-To-Back Base Units Hutch Applications

Do

Application 10-A
- (1) Stanchion Kit - Center Mounted on the back-to-back Base Units without Screens or Tool Rails.
- Stanchion Kit user access may be in the same or opposite directions.

Planning Model:
- (2) Base Units
- (2) Storage Tops
- (1) Stanchion Kit
- (1) Hutch Shelf



Stanchion Kits may be mounted centerline of the back-to-back Base Units. On-module and off-modular Stanchion Kit application guidelines apply to center mounted conditions.

(1) Hutch Shelves
- Each Hutch Shelf must be the same nominal width as the Stanchion Kit

(1) Stanchion Kit
- The one-high Stanchion Kit is the same nominal width as the Base Unit.

(2) Storage Tops
- Must be the same nominal width as the Base Unit.

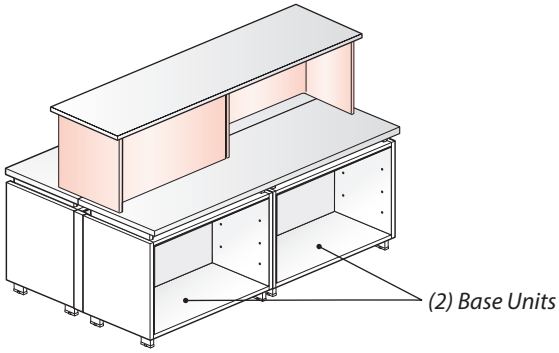
(2) Base Units

Planning Model for center mounted Stanchion Kits:
- The guidelines for on-module and off-module; one and two high Stanchion Kit applications in the previous pages apply to a center mounted Stanchion Kit condition.

Same application as above with the following exceptions:

Do

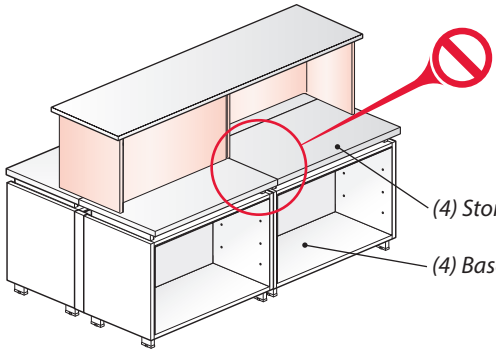
Application 10-B
- (4) Base Units



(2) Base Units

Don't

Application 10-C
- (4) Base Units and (4) Storage Tops – each Storage Top is the same nominal width as each Base Unit.



Don't

The Stanchion Kit vertical panel located in the center may not be installed at the seam of two side-by-side Beside Storage Tops.

(4) Storage Tops

(4) Base Units

Note
- A Stanchion Kit with the same nominal width as the Storage Top includes an installation template; installation requires field drilling.

Tip
- The combined height of the Base Unit, Storage Top, Stanchion Kits, and Hutch Top(s) may not exceed a maximum height of 58".
- A Hutch Shelf encloses the top of a Stanchion Kit creating a hutch application.

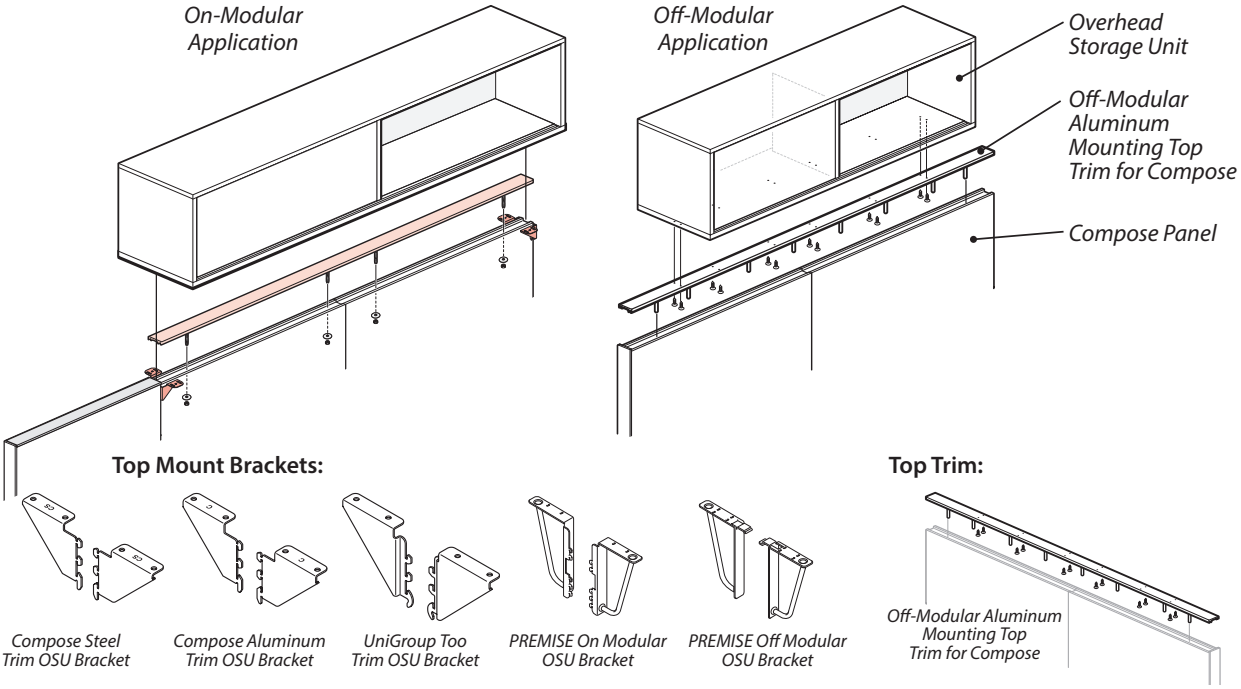
Product Application – Beside Storage

Application Overview – Panel Mounted Overhead Storage Unit (OSU)

Overhead Storage Units can be panel mounted on top of a Compose, PREMISE or UniGroup Too panel.

Panel Mounted Application

Beside Overhead Storage Units can be mounted to a Compose, PREMISE or UniGroup Too panel. The Overhead Storage Unit is always center mounted on the top of a panel.



- In a panel mounted application the Beside OSU is always center mounted on the top of a panel.
- Panel mounted Overhead Storage Units are available for an on-modular or off-modular applications with separately specified application components.
  - For an on-modular Beside OSU application (fixed condition - OSU and panel are the same width) separately specify a systems application specific mounting bracket for a Compose, PREMISE or UniGroup Too application.
  - Off-modular Beside OSU applications are only for use with Compose panel system with aluminum top trim and PREMISE panel system with grooved trim. Separately specify the off-modular top trim for Compose. Top trim includes attachment hardware. Off-modular top trim is used in place of the standard Compose top trim.
  - Compose off-modular top trim (for off-modular OSU applications) is available in full profile aluminum, only.
- The overall height of Compose panel with Beside Overhead Storage Unit must not exceed 66"

Compose Panel Mounted Beside Overhead Storage Unit (OSU) Application Guidelines

- Beside OSU must follow the existing double-sided up-mount OSU support and load guidelines shown in the Compose specification guide.
- For use on a Compose full panel frame or a full panel frame with stack frame.
- Cannot be mounted on glass panels or glass stacks.
- Recommended for use on a 50" high Compose panel configuration; not for use on panel configurations greater than 50" high.
- Two return panels are required at each OSU end-of-run condition for a balanced application; results in a 3-way panel intersection (2-way panel intersection does not offer proper support for a center mounted OSU).
- If the panel application does not have worksurfaces the return panels must be at least 18" wide.
- Return panels must be same height as OSU panel spine.
- Length of OSU panel run must not exceed 8 feet.

Do

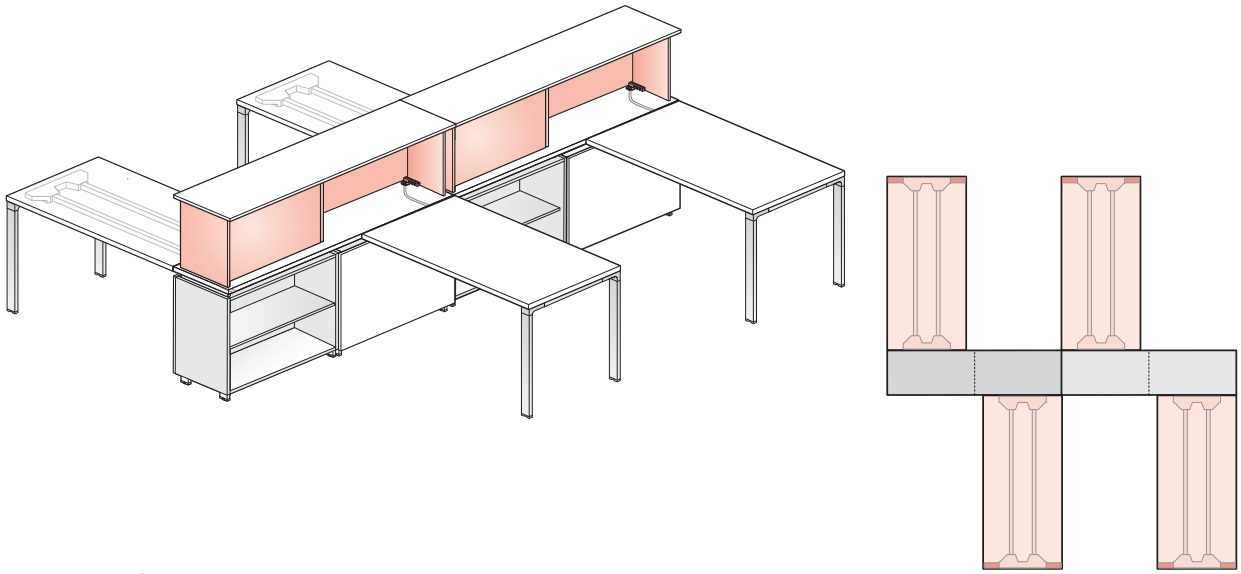
- LED light may be used in a panel mounted OSU application.
- Separately specified OSU ganging brackets are required for an on-modular and off-modular side-by-side Beside OSU application. Two brackets are required for every side-by-side OSU condition; catalog number QUUG-0000 includes one bracket.

Don't

- Adaptable Task Light cannot be used with a panel mounted Beside OSU.

Product Application – Beside Storage

Application Overview – Storage Based Desking Cluster With Single Depth Storage Spine

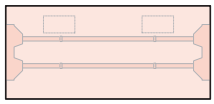


Simple Specification:

- Infeed to access building power location (uses two power connectors or any receptacle location on PDA).
- Power Distribution Assembly specified to match Base Unit width(s).
- Jumper(s) to continue power from one powered Base Unit to the next.
- Power Tap and Power Tap Bracket specified for power access

Desking – Worksurfaces, Legs and Brackets

Worksurfaces:
- *Rectangular Worksurface*

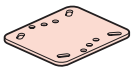


Worksurface Alternatives:
- *Articulated Transition Worksurface*
- *Wedge Worksurface*
- *Bent Worksurface*

Legs:
- *Straight Leg – Fixed*

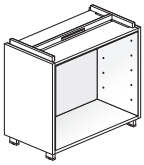
Leg Alternatives:
- *Angled Leg*
- *Adjustable Hoop Leg – Single Desk*

Bracket:
- *Flush Mount Plate*



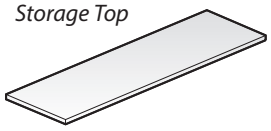
Storage – Base Units, Shelves, Brackets, Stanchions and Hutch Shelf

Base Units:
- *Open – Single Width – Two-High*

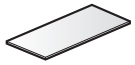


Base Unit Alternatives:
- *Open Storage with Drawer*
- *Drawer Combinations*
- *Hinged Door*
- *Hinged Door and Open Storage*
- *Hinged Door and Drawer Combination*
- *Single Sliding Door*

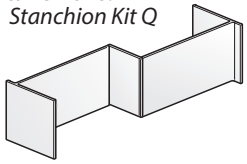
Storage Top:
- *Base Unit Storage Top*



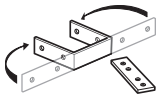
Shelf:
- *Base Unit Accessory Shelf*



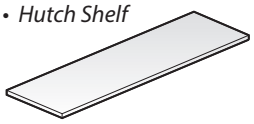
Stanchions:
- *Stanchion Kit Q*



Brackets:
- *Ganging Bracket Kit*



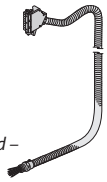
Shelf:
- *Hutch Shelf*



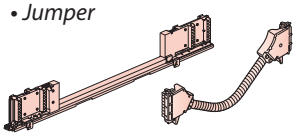
Electrical – Electrical Components and Accessories

Power In:
- *Infeed Harness*

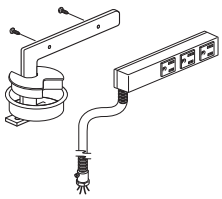
Power In Alternatives:
- *Infeed Harness*
- *Internal Power Base™ AI Base Feed*
- *Base Feed Module –*
- *Architectural Concealed – Hardwire Connection*
- *Top Feed*



Power Through:
- *PDA (Power Distribution Assembly)*
- *Jumper*



Power Out:
- *Power Tap Horizontal*
- *Power Tap Bracket with Grommet Horizontal*



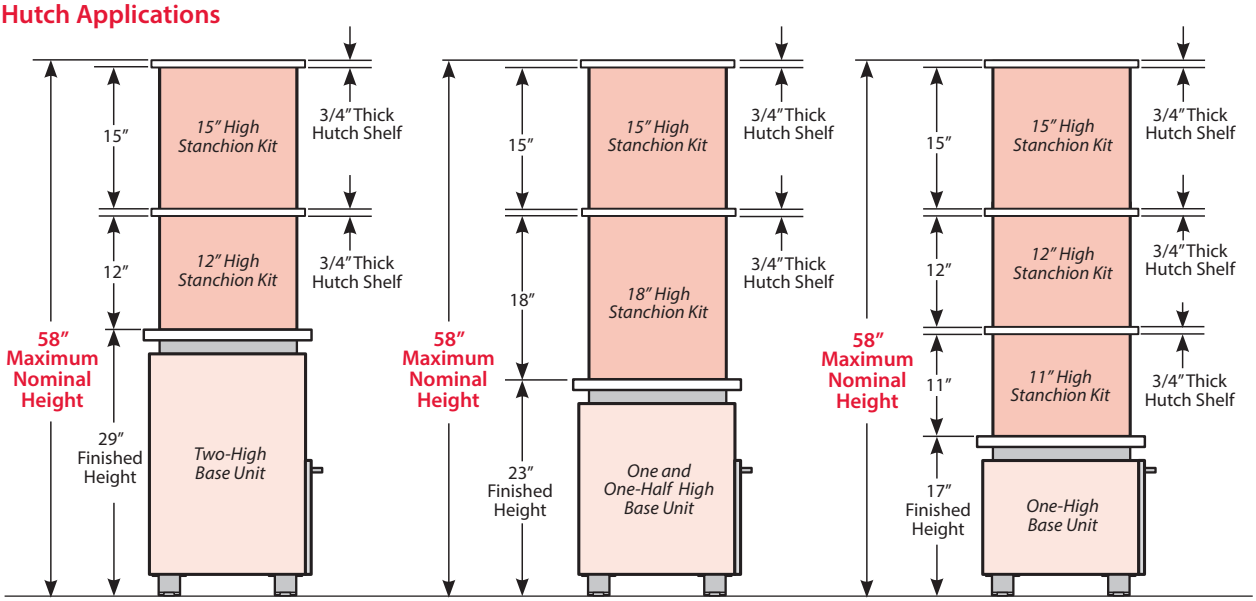
Power Out Alternatives:
- *Power Tap Vertical*
- *Power Tap Bracket with Grommet Vertical*
- *Power Tap Bracket Fixed*
- *Power Tap Bracket Adjustable*

Product Application – Critical Dimensions for Planning

Critical Dimensions for Planning - Hutch Application

- Hutch applications consist of separately specified components: Base Unit, Storage Top, Stanchion Kit and Hutch Shelf.
- Maximum stacking height with Base Units, Stanchion Kits and shelves should not exceed 58".
- Hutch shelf adds 3/4" to the Stanchion Kit height.
- Stanchion Kits are available in six heights: 10", 11", 12", 15", 16", 18".
- Base units are available three finished heights: one-high (17"), one and one-half high (23") and two high (29"). Finished height is for fully assembled Base Unit including a separately specified Storage Top.

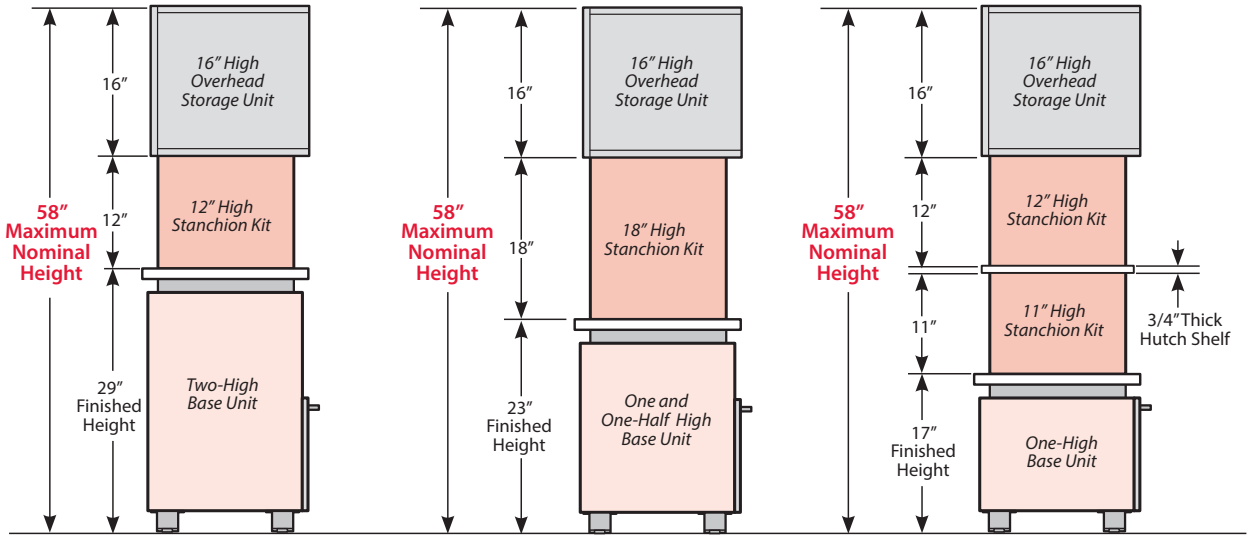
Hutch Applications



Stanchion Mounted Overhead Storage Unit Applications not to exceed 58" in height

- Stanchion Mounted Overhead Storage Unit Applications consist of separately specified components: Base Unit, Storage Top, Stanchion Kit, Hutch Shelf and Overhead Storage Unit.
- Maximum stacking height with Base Units, Stanchion Kits and shelves should not exceed 58".
- Hutch shelf adds 3/4" to the Stanchion Kit height.
- Stanchion Kits are available in six heights: 10", 11", 12", 15", 16", 18".
- Base units are available three finished heights: one-high (17"), one and one-half high (23") and two high (29"). Finished height is for fully assembled Base Unit including a separately specified Storage Top.

Stanchion Mounted Overhead Storage Unit Applications



Note

- The Base Unit finished height includes the separately specified Storage Top. Do not add the Storage Top separately to figure maximum height.
- Above nominal dimensions are shown with glides fully recessed.

Product Application – Critical Dimensions for Planning

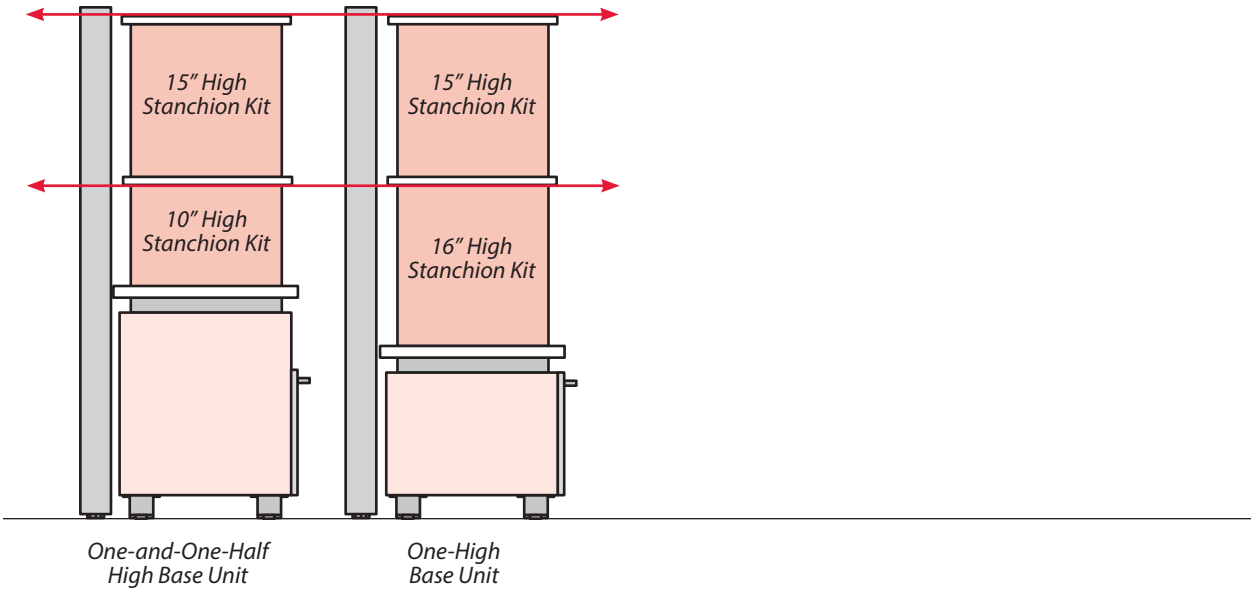
Critical Dimensions for Planning – Beside Storage Hutch with Compose Panels

Hutch & Compose Panels / Horizontal Alignment

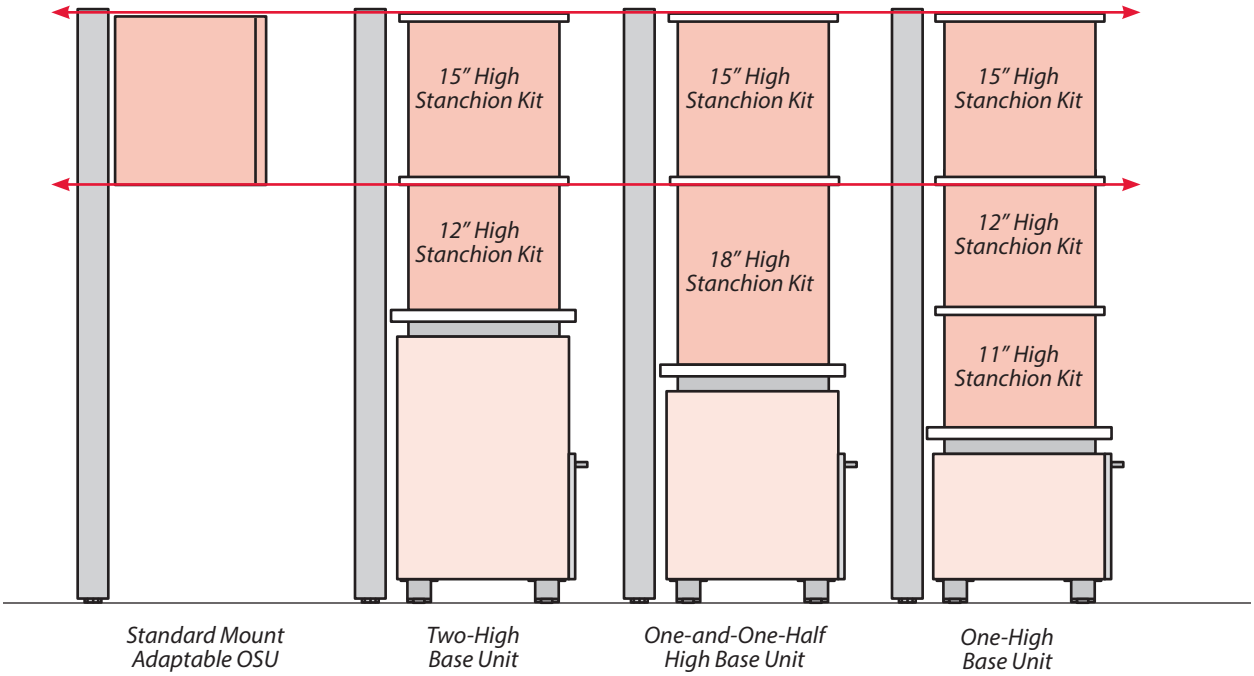
Hutch storage applications are designed to complement Compose 50″ and 58″ panel heights. Using specific height Base Units and Stanchion Kits the hutch shelves at the top of the hutch configuration result in horizontal alignment with 50″ and 58″ Compose panels. Lower hutch shelves within the hutch configuration horizontally align with each other.

- Hutch applications consist of separately specified components: Base Unit, Storage Top, Stanchion Kit(s) and Hutch Shelf(s)
- Hutch applications not to exceed 58″ in height
- Stanchion Kits may be located one above another with a Hutch Shelf between Stanchion Kits and at the top of the upmost Stanchion Kit.

50″ High Compose Panel



58″ High Compose Panel



Note

Stanchion Mounted Overhead Storage Unit and Hutch applications in a freestanding condition can be aligned with the top of a 50″ or 58″ high Compose panel. When attaching the storage to a Compose panel the storage will be elevated by ½″ causing horizontal misalignment between the top of the panel and storage application. When planning take Panel glide adjustment range and floor condition into consideration.

Technical Specifications – Beside Storage

Technical Specifications

Storage Base Unit

Base unit is constructed with wood composite end panels and an inner top with a formed steel bottom and back. End panels and inner tops are .750" (19mm) thick with a wood composite core sandwiched between two laminate skins and 0.039" (1mm) thick plastic edgeband around the perimeter. The bottom and inner back are made with 20 gauge steel with a powdercoat finish. Base units include a utility cavity for routing power and data/communication cabling at the back of each unit. This cavity can be covered by an optional back available in painted steel, laminate or wood veneer. Base units 30" to 72" wide have cut outs in the steel bottom for routing of electrical components and data/communications cables. Cutouts are 1.5", 38mm x 4", 102mm. Fixed and optional shelves are made from 22 gauge formed steel. Base units have a formed steel black powder coated spacer with access opening (with knock-out) to route power and data cabling from the storage unit to attached desk top. The spacer provides a 1.18" (30 mm) high reveal between steel top of unit and separately specified laminate or wood veneer storage unit tops. Vertical and horizontal power receptacles with three outlets can be mounted on storage unit tops in various locations. The unit is shipped assembled and support legs are field installed. The straight leg option includes glides with 1.5" height adjustment and chamfer leg option glides have 1.25" adjustment. Units are available with drawers, doors, or open storage. Open units and units with doors accept separately specified storage shelves. Doors are available in pivot/swing with self closing hinges that open to 100 degree angle or sliding doors. Units with drawers include full-extension steel ball bearing slides. Drawers and shelves can be loaded to 0.017 pounds per cubic inch of clear volume. Drawer interlock system allows only one drawer to open at a time. Drawer bottoms and backs are made with 22 gauge steel and sides are made with 20 gauge steel. Doors and drawers can be specified with or without locks. The vertically hinged and sliding doors require less than 4.8 pounds of force to operate. Doors, drawer fronts and optional backs are available in the following materials:

- Painted Steel- 11/16" (17.5 mm) thick formed with 22 gauge steel with powder coat finish.
- Laminate - 11/16" (17.5mm) thick with a wood composite core and high pressure laminate over the face and back with ABS edge band.
- Wood Veneer – 11/16" (17.5mm) thick with a wood composite core and wood veneer over the face with a balancing backer and wood veneer edge band.

Storage Tops for Base Units

Storage Tops are 1 3/16" (30.2mm) thick and are made with a wood composite core available in two core types.

- **Standard Core:** Made with an engineered composite panel with a minimum 90% wood fiber content with at least 10% post consumer and 80% pre-consumer wood fiber bonded with resin. These worksurfaces/tops are 3rd party certified compliant with GREENGUARD® and ANSI/BIFMA Standards for Low Emitting Products. The composite panel is 3rd party certified compliant with California Air Resource Board requirements for Phase 2 formaldehyde emission levels.
- **Green Core:** Made with an engineered composite panel with a minimum 90% pre-consumer wood fiber content bonded with no-added urea formaldehyde resin. These worksurfaces/tops are 3rd party certified compliant with GREENGUARD® and ANSI/BIFMA Standards for Low Emitting Products. The composite panel is 3rd party certified compliant with California Air Resource Board requirements for Phase 2 formaldehyde emission levels.

Laminate Storage Tops are balanced construction with high-pressure laminate on the top, a laminate backer on the bottom and 0.118" (3mm) radius edge band on the front and back edge with a 0.039" (1mm) thick edge band on the sides.

Wood Veneer Storage Tops are balanced construction with wood veneer on the top, a balancing backer on the bottom and a 0.118" (3mm) radius edge band on the front and back edge with a 0.028" (.7mm) thick edge band on the sides.

Technical Specifications

Hutch

Hutches are made by combining stanchions and shelves or overhead storage units. Stanchions are made with 16 gauge formed steel ends, center supports and horizontal extensions (backs). Extensions (backs) with optional integrated accessory slots are made from 13 gauge formed steel. Horizontal extensions nest into the end and center supports. Stanchions and horizontal extensions are powdercoated. Stanchions can support hutch shelves or an overhead storage unit. Shelves are made with .750" (19mm) thick wood composite material with laminate faces and 1mm thick plastic edgeband or .728" (18mm) thick wood composite material with veneer faces and matching edgeband. Pilot holes are partially drilled on the bottom side to allow multiple stanchion mounting positions by drilling through the proper hole pattern. Hutches attach to storage unit tops that are attached to Base Units.

Overhead Storage Units

Wood and Laminate Overhead Storage Units (OSU) consisting of a case that includes a top, bottom, ends, backs and a center divider for widths greater than 60" are constructed of .750", 19mm thick wood composite material with laminate faces and 1mm thick ABS edgeband or .728", 18mm thick wood composite material with veneer faces and matching edgeband. OSU's can be attached onto stanchions mounted to storage tops attached to base units. They can also be attached to Compose aluminum and wood veneer panel top caps, or to Premise and Unigroup Too panels with formed steel brackets. Units ship unassembled. Units with single sliding doors have a center divider that sections off half the unit. Sliding door units and units without doors can be specified to have a full depth opening on ½ of each face of the unit. Units are available with pivot/swing door, sliding doors or without doors. Doors can be specified with or without locks. The vertically hinged and sliding door types require less than 4.8 pounds of force to operate. Doors are available in the following materials:

- Painted Door – 11/16" (17.5mm) thick formed with 22 gauge (0.030", 0.76mm) thick steel with powder coat finish.
- Laminate Door - 11/16" (17.5mm) thick with a wood composite core and high pressure laminate over the face and back with ABS edge band.
- Wood Door – 11/16" (17.5mm) thick with a wood composite core and wood veneer over the face with a balancing backer and wood veneer edge band.

Screens

Screens attach to storage base units with powder coated aluminum "U" brackets attached to a steel plate with threaded fasteners. This bracket assembly attaches to the bottom side of storage unit tops with threaded fasteners. Fabric, Laminate and wood veneer screens are held in the "U" bracket with a threaded set screw. For glass screens a plastic gasket fits into the "U" bracket and the screens are friction fit into the plastic gasket. Screens are available in the following materials:

- Fabric screens are made with 0 .5" (12.7mm) thick non-tackable wood composite core with fabric bonded to the faces and edges and the seams covered by a plastic spline that surrounds the edge perimeter.
- Laminate screens consist of .5" (12.7mm) thick wood composite core with high pressure laminate bonded to the faces and the edges capped with a .039" (1mm) plastic edge.
- Wood Veneer screens consist of .5" (12.7mm) thick wood composite core with wood veneer bonded to the faces and edges.
- Glass screens are made with 0.240" (6mm) thick tempered safety glass eased on the top and sides with beveled corners at the top.

Tool Rail

The tool rail is made from extruded aluminum and can be attached to desks and storage with aluminum extruded posts. The rail supports monitor arms and plastic molded paper management accessories.

Technical Specifications

Electrical Distribution System

The electrical distribution system has eight-wires and can be specified with either one 3-circuit or two different types of 4-circuit wiring configurations. The system is UL listed and CUL certified (UL Mark for Canada). The overall system is PVC Free and consists of a variety of in-feeds to bring power to desks or storage. Power distribution assemblies (PDA) and flexible power jumpers/connectors route power through the furniture. The power system has 8-wires and is available in 3 or 4 circuit configurations. The 3-circuit version has 3 hot conductors, 3 neutral conductors, 1 common ground, and 1 isolated ground. The wire gauge of the 3-circuit system's conductors is 12 American Wire Gauge (AWG). The 4-circuit has two versions; one is a 2 + 2 configuration and the other is a 3 + 1, both of which have 4 hot conductors, 2 neutral conductors, 1 common ground, and 1 isolated ground. The wire gauge of the 4-circuit system's conductors is 10 AWG for the neutral conductors and 12 AWG for the hot and ground conductors. All circuits for the 3 and 4-circuit systems are rated for 20 amps at 125 volts.

- Power Taps and Receptacles are used to access power in Desks. Vertical and horizontal oriented Power Taps can connect directly to a Power Distribution Assembly (PDA) with a modular connector, directly to an outlet using the corded version, or directly to building power using the hardwire version. The Modular connector version connects to one of six locations on a PDA. The corded version is available in four lengths and consists of a black insulated cord with a three conductor NEMA 5-15P plug for connection to a standard NEMA 5-15R receptacle. The hardwire version is available in four lengths and consists of a 3/8" flexible metal conduit with three 12 AWG conductors. Power Taps are attached using a variety of separately specified brackets. Power Taps are circuit specific and available with common ground access only. Triplex receptacles are available to access power and are unique for the 3-circuit and both 4-circuit systems. They are available in 15 Amp (NEMA 5-15R) or 20 Amp (NEMA 5-20R) configurations with either common or isolated ground access. The 3-circuit 15 Amp receptacles are programmable to all three circuits. The 3-circuit 20 Amp receptacles and all 4-circuit receptacles are circuit specific.
- Power Taps are used to access power in Storage Base Units and are available in a modular and hardwire version. Both are described above.

Jumpers consist of eight conductors which are enclosed in flexible metal conduit between two plastic enclosures. Jumpers route between PDAs and are secured with safety latches. Electrical power enters PDA's attached to desk mounted utility trays or mounted to the back utility cavity of storage units through separately specified power in-feeds. Several types of in-feeds are available and allow for connection to building power from floors, columns, or the ceiling to the power system. A hardwire electrical system is also available. The desk mounted utility tray and utility cavity of storage units allow routing of data and communication cables in addition to power.

LED Task Lights

The Stand-Alone LED Task Light has a peak output of 444 Lumens/ 76 Foot Candles at 7.8 Watts. Power cord consists of a 15 Watt 24 V transformer power supply contained in a molded plug and a 9' black cord. Fixture housing is 16.4" (417mm) long x 2" (51mm) wide x 0.5" (12 mm) high.

The Starter LED Task Lights have peak outputs of 444/980/1412/1791 Lumens, 76/131/148/151 Foot Candles, and 7.8/17.6/25.9/33.6 Watts for fixture lengths of 17" (431.8mm)/31" (787.4mm)/44"(1117.6mm)/58"(1473.2mm) respectively. Power cord consists of a 60 Watt 24 V in-line brick transformer with a 12' (304.80mm) black cord. Actual fixture housings are 30.1"(764.54mm), 43.7"(1110.0mm), or 57.4" (1458 mm) long x 2" (50.8mm) wide x 0.5" (12.7mm) high.

Add-On LED Task Lights fixtures are identical to Starter LED Light fixtures but contain a 54" (1371.6mm) black interlink cord instead of a power cord. Add-On LED Task Lights are used in conjunction with Starter LED Task Lights to form a Daisy Chain configuration.

All LED light fixtures have a color temperature of 3500 and a CRI of 84. Lights employ a touch sensitive switch with touch-and-hold continuous dimming from 100% to 15% and single touch on/off power. An auto off feature on each fixture activates after 10 hours (+/- 15 minutes) of use. Mounting options include clips with screws for attachment to wood/laminate surfaces or clips with magnets for attachment to steel surfaces. Fixtures carry the ETL mark indicating conformance to UL 153 and certified to CAN/CSA C22.2 No. 9.

Technical Specifications

LED Occupancy Sensor

A passive infrared (PIR) interlink occupancy sensor can be added to single or multiple interconnected (daisy-chained) LED Task Lights. The sensor will automatically turn off the lights after 30 minutes of no detection and back on as the user re-enters the workspace. In a daisy-chain application all fixtures connected after the sensor will be controlled. Sensor is attached to LED fixtures with either a 1" (25.4mm) long end-to-end connector or an interlink cord. Sensor is 2.3"(58.4mm) long x 2" (50.8mm)wide x 0.7" (17.78mm) high.

Electronic Ballast Task Light

Task lights have an Energy Star® rated electronic ballast. They have a T8 Task lights have an Energy Star rated electronic ballast. They have a T8 3500K Tri-Phosphor Octic lamp with low mercury content and are rated for a 20,000 hour life. Lamp wattage is 13W for 24" (762mm) wide lights, 17W for 36" (914mm) wide lights, 25W for 42" (1067mm) wide lights and 32W for 54" (1372mm) wide lights. A six foot long, black, cord with three conductor plug is factory installed on right side and may be field-installed on left side of 42" (1067mm) and 54" (1372mm) units. An optional 9' cord is available. The Chicago version has a plug with an integral 3-amp resettable circuit breaker. Lights are standard with an acrylic lens featuring a pyramid shaped prism pattern that reduces reflected glare. An optional batwing lens consisting of a series of prisms that distributes light patterns to the left and right of the observer and further reduces reflective glare is available. Lights 42" (1067mm) wide and 54" (1372mm) wide can be specified for daisy chain applications allowing up to 5 lights to be powered by a single cord with plug. Lights are listed by Underwriters Laboratory for use in the United States and certified by UL to Canadian Standards. Task lights include mounting brackets for attaching under metal shelves and screws for attaching under countertops and wood/laminate components. The lights are concealed behind the front edge of steel shelves or by a separately specified skirt.

Features

- Storage units without doors include:
  –Laminate end panel and inner top.
  –Painted Steel inner back and bottom.
  –Painted Steel spacer.
- Leg Options:
  –Straight Leg (F)
  –Chamfer Leg (P)
- Glide adjustment range:
  –Straight Leg: 1.5″(38mm)
  –Chamfer Leg: 1.25″(32mm)
- Spacer:
  –1.18″(30mm) high
  –End pieces come in specified color; center spacer section black only.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- Beside base units 24″-42″(610mm-1067mm) cannot be freestanding. Units must be attached or ganged together.
- All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Beside base units 48″-72″(1219mm-1829mm) widths can be freestanding.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurface in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  –One-High = 17″(432mm)
  –One and One-Half = 23″(584mm)
  –Two-High = 29″(737mm)
- Separately specified if applicable:
  –Belong Power and communication cabling, tools, screens and tool rails.
  –Storage-to-Panel Bracket
  –Storage Attachment Bracket
  –Ganging Bracket
  –Storage Top (required)
  –Filler Panel
  –Top Filler Track
  –Finished Back (recommended when back is exposed)
  –Adjustable Shelf (not included with unit)
  –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. Reside Desking or Adaptable worksurfaces can be attached to the front or back of a Two-High Beside storage unit with separately specified flush mount plates.

Separately specified Belong base unit power components available for 30″-72″(762mm-1067mm) widths only.

Storage shelves are unique to the specific base unit configuration. Refer to shelf price list pages for appropriate shelf.

One-High units cannot accept binders.

To Order, Specify:

1) Product number, including:

❶ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

2) Case laminate color.
3) Case laminate edgeband.
4) Bottom and inset back trim.
5) Leg and spacer end trim color.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

Blade Pull (Q)

Features

- Open Storage with a drawer include:
  –Laminate end panel and inner top.
  –Painted Steel inner back and bottom.
  –Painted Steel spacer.
- Leg Options:
  –Straight Leg (F)
  –Chamfer Leg (P)
- Glide adjustment range:
  –Straight Leg: 1.5″(38mm)
  –Chamfer Leg: 1.25″(32mm)
- Spacer:
  – 1.18″(30mm) high
  –End pieces come in specified color; center spacer section black only.
- Drawer interior is black.
- Drawer front options include painted steel, laminate or wood.
- Lateral file includes a front-to-back and side-to-side filing bar.
- Full extension drawers.
- Ellipse pull available in non-metallic color only. (see finish page for pull color)
- Radius pull available in metallic colors only. (see finish page for pull color)
- J-Pull (J) matches painted steel fronts.
- J-Pull (K) or Blade Pull (Q) available on laminate or wood fronts only. Must specify color.
- Lock Options:
  –Locking (chrome only) and non-locking available.
  –One lock accommodates all drawers.
- Shelves are separately specified; not included with unit.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurfaces in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  –One-High = 17″(432mm)
  –One and One-Half = 23″(584mm)
  –Two-High = 29″(737mm)
- Separately specified if applicable:
  –Belong Power and communication cabling, tools, screens and tool rails.
  –Storage-to-Panel Bracket
  –Storage Attachment Bracket
  –Ganging Bracket
  –Storage Top (required)
  –Filler Panel
  –Top Filler Track
  –Finished Back (recommended when back is exposed)
  –Adjustable Shelf (not included with unit)
  –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. Reside Desking or Adaptable worksurfaces can be attached to the front or back of a Two-High Beside storage unit with separately specified flush mount plates.

Separately specified Belong base unit power components available for 30″-72″(372mm-1829mm) widths only.

Storage shelves are unique to the specific base unit configuration. Refer to shelf price list pages for appropriate shelf.

To Order, Specify:

Steel Drawer Front

1) Product number, including:

❶ Steel Drawer Front Option:

- **S** Steel

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Drawer front steel color.

Laminate or Wood Drawer Front

1) Product number, including:

❶ Laminate or Wood Drawer Front Option:

- **L** Laminate
- **W** Wood

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Drawer front laminate or wood color.
7) Laminate drawer front edgeband color.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

Blade Pull (Q)

Features

- Open Storage with a drawer include:
  –Laminate end panel and inner top.
  –Painted Steel inner back and bottom.
  –Painted Steel spacer.
- Leg Options:
  –Straight Leg (F)
  –Chamfer Leg (P)
- Glide adjustment range:
  –Straight Leg: 1.5″(38mm)
  –Chamfer Leg: 1.25″(32mm)
- Spacer:
  –1.18″(30mm) high
  –End pieces come in specified color; center spacer section black only.
- Drawer interior is black.
- Optional drawer front options include painted steel, laminate or wood.
- Lateral file includes a front-to-back and side-to-side filing bar.
- Full extension drawers.
- Ellipse pull available in non-metallic color only. (see finish page for pull color)
- Radius pull available in metallic colors only. (see finish page for pull color)
- J-Pull (J) matches painted steel front.
- J-Pull (K) or Blade Pull (Q) available on laminate or wood fronts only. Must specify color.
- Lock Options:
  –Locking (chrome only) and non-locking available.
  –One lock accommodates all drawers.
- Shelves are separately specified; not included with unit.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurfaces in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  –One-High = 17″(432mm)
  –One and One-Half = 23″(584mm)
  –Two-High = 29″(737mm)
- Separately specified if applicable:
  –Belong Power and communication cabling, tools, screens and tool rails.
  –Storage-to-Panel Bracket
  –Storage Attachment Bracket
  –Ganging Bracket
  –Storage Top (required)
  –Filler Panel
  –Top Filler Track
  –Finished Back (recommended when back is exposed)
  –Adjustable Shelf (not included with unit)
  –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. Reside Desking or Adaptable worksurfaces can be attached to the front or back of a Two-High Beside storage unit with separately specified flush mount plates.

Separately specified Belong base unit power components available for 30″-72″(372mm-1829mm) widths only.

Storage shelves are unique to the specific base unit configuration. Refer to shelf price list pages for appropriate shelf.

To Order, Specify:

Steel Drawer Front

1) Product number, including:

❶ Steel Drawer Front Option:

- **S** Steel

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Drawer front steel color.

Laminate or Wood Drawer Front

1) Product number, including:

❶ Laminate or Wood Drawer Front Option:

- **L** Laminate
- **W** Wood

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Drawer front laminate or wood color.
7) Laminate drawer front edgeband color.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

Blade Pull (Q)

Features

- Open Storage with a drawer include:
  –Laminate end panel and inner top.
  –Painted Steel inner back and bottom.
  –Painted Steel spacer.
- Leg Options:
  –Straight Leg (F)
  –Chamfer Leg (P)
- Glide adjustment range:
  –Straight Leg: 1.5″(38mm)
  –Chamfer Leg: 1.25″(32mm)
- Spacer:
  –1.18″(30mm) high
  –End pieces come in specified color; center spacer section black only.
- Drawer interior is black.
- Lateral file includes a front-to-back and side-to-side filing bar.
- Full extension drawers.
- Optional drawer fronts include painted steel, laminate or wood.
- Ellipse pull available in non-metallic color only. (see finish page for pull color)
- Radius pull available in metallic colors only. (see finish page for pull color)
- J-Pull (J) matches painted steel front.
- J-Pull (K) or Blade Pull (Q) available on laminate or wood fronts only. Must specify color.
- Lock Options:
  –Locking (chrome only) and non-locking available.
  –One lock accommodates all drawers.
- Shelves are separately specified; not included with unit.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurfaces in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  –One-High = 17″(432mm)
  –One and One-Half = 23″(584mm)
  –Two-High = 29″(737mm)
- Separately specified if applicable:
  –Belong Power and communication cabling, tools, screens and tool rails.
  –Storage-to-Panel Bracket
  –Storage Attachment Bracket
  –Ganging Bracket
  –Storage Top (required)
  –Filler Panel
  –Top Filler Track
  –Finished Back (recommended when back is exposed)
  –Adjustable Shelf (not included with unit)
  –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. Reside Desking or Adaptable worksurfaces can be attached to the front or back of a Two-High Beside storage unit with separately specified flush mount plates.

Separately specified Belong base unit power components available for 30″-72″(372mm-1829mm) widths only.

One-High units cannot accept binders.

To Order, Specify:

Steel Drawer Front

1) Product number, including:

❶ Steel Drawer Front Option:

- **S** Steel

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Drawer front steel color.

Laminate or Wood Drawer Front

1) Product number, including:

❶ Laminate or Wood Drawer Front Option:

- **L** Laminate
- **W** Wood

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Drawer front laminate or wood color.
7) Laminate drawer front edgeband color.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

Features

- Open Storage with a drawer include:
  –Laminate end panel and inner top.
  –Painted Steel inner back and bottom.
  –Painted Steel spacer.
- Leg Options:
  –Straight Leg (F)
  –Chamfer Leg (P)
- Glide adjustment range:
  –Straight Leg: 1.5″(38 mm)
  –Chamfer Leg: 1.25″(32mm)
- Spacer:
  –1.18″(30mm) high
  –End pieces come in specified color; center spacer section black only.
- Drawer interior is black.
- Lateral file includes a front-to-back and side-to-side filing bar.
- Full extension drawers.
- Optional drawer fronts include painted steel, laminate or wood.
- Ellipse pull available in non-metallic color only. (see finish page for pull color)
- Radius pull available in metallic colors only. (see finish page for pull color)
- J-Pull (J) matches painted steel fronts.
- J-Pull (K) or Blade Pull (Q) available on laminate or wood fronts only.
- Lock Options:
  –Locking (chrome only) and non-locking available.
  –One lock accommodates all drawers.
- Shelves are separately specified; not included with unit.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurfaces in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  –One-High = 17″(432mm)
  –One and One-Half = 23″(584mm)
  –Two-High = 29″(737mm)
- Separately specified if applicable:
  –Belong Power and communication cabling, tools, screens and tool rails.
  –Storage-to-Panel Bracket
  –Storage Attachment Bracket
  –Ganging Bracket
  –Storage Top (required)
  –Filler Panel
  –Top Filler Track
  –Finished Back (recommended when back is exposed)
  –Adjustable Shelf (not included with unit)
  –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. They can only attach to these surfaces.

Separately specified Belong base unit power components available for 30- 72″(372mm-1829mm) widths only.

Storage shelves are unique to the specific base unit configuration. Refer to shelf price list pages for appropriate shelf.

One-High units cannot accept binders.

To Order, Specify:

Steel Drawer Front

1) Product number, including:

❶ Steel Drawer Front Option:

- **S** Steel

❷ Pull Option: (side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Drawer front steel color.

Laminate or Wood Drawer Front

1) Product number, including:

❶ Laminate or Wood Drawer Front Option:

- **L** Laminate
- **W** Wood

❷ Pull Option: (side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Drawer front laminate or wood color.
7) Laminate drawer front edgeband color.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

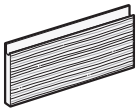
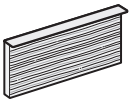
J-Pull (J)



J-Pull (K)



Blade Pull (Q)

Features

- Open Storage with a drawer include:
  –Laminate end panel and inner top.
  –Painted Steel inner back and bottom.
  –Painted Steel spacer.
- Leg Options:
  –Straight Leg (F)
  –Chamfer Leg (P)
- Glide adjustment range:
  –Straight Leg: 1.5″(38mm)
  –Chamfer Leg: 1.25″(32mm)
- Spacer:
  –1.18″(30mm) high
  –End pieces come in specified color; center spacer section black only.
- Drawer interior is black.
- Lateral file includes a front-to-back and side-to-side filing bar.
- Full extension drawers.
- Drawer front options include painted steel, laminate or wood.
- Ellipse pull available in non-metallic color only. (see finish page for pull color)
- Radius pull available in metallic colors only. (see finish page for pull color)
- J-Pull (J) matches painted steel fronts.
- J-Pull (K) or Blade Pull (Q) available on laminate or wood fronts only. Must specify color.
- Lock Options:
  –Locking (chrome only) and non-locking available.
  –One lock accommodates all drawers.
- Shelves are separately specified; not included with unit.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurfaces in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  –One-High = 17″(432mm)
  –One and One-Half = 23″(584mm)
  –Two-High = 29″(737mm)
- Separately specified if applicable:
  –Belong Power and communication cabling, tools, screens and tool rails.
  –Storage-to-Panel Bracket
  –Storage Attachment Bracket
  –Ganging Bracket
  –Storage Top (required)
  –Filler Panel
  –Top Filler Track
  –Finished Back (recommended when back is exposed)
  –Adjustable Shelf (not included with unit)
  –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. Reside Desking or Adaptable worksurfaces can be attached to the front or back of a Two-High Beside storage unit with separately specified flush mount plates.

Separately specified Belong base unit power components available for 30″-72″(372mm-1829mm) widths only.

Storage shelves are unique to the specific base unit configuration. Refer to shelf price list pages for appropriate shelf.

One-High units cannot accept binders.

To Order, Specify:

Steel Drawer Front

1) Product number, including:

❶ Steel Drawer Front Option:

- **S** Steel

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Drawer front steel color.

Laminate or Wood Drawer Front

1) Product number, including:

❶ Laminate or Wood Drawer Front Option:

- **L** Laminate
- **W** Wood

❷ Pull Option: (see side bar)

❸ Leg Option

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Drawer front laminate or wood color.
7) Laminate drawer front edgeband color.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

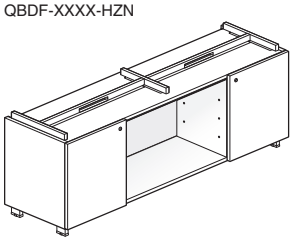
QBDF-XXXX-HZN



QBTF-XXXX-HZH

❷ Pull Styles

Ellipse (1)

Crescent (7)

Radius (2)

Linear (8)

Taper (3)

Classic (9)

Touch Latch Only (N)
(add **$26.00** list)

Features

- Hinged Door Single Base Unit include:
  –Laminate case standard with a painted steel inset back and base.
  –Full access hinges that open 100 degrees.
  –If specified right-hand door includes touch latch mechanism (free swing hinge).
  –If specified left-hand door includes full length return flange (self-closing hinge).
  –Leg and drawer options.
  –Spacer
- Ellipse pull available in non-metallic color only. (see finish page for pull color)
- Radius pull available in metallic colors only. (see finish page for pull color)
- Leg Options:
  –Straight Leg (F); requires trim color.
  –Chamfer Leg (P); requires trim color.
- Glide adjustment range:
  – Straight Leg: 1.5″(38mm)
  –Chamfer Leg: 1.25″(32mm)
- Spacer:
  –1.18″(30mm) high
  –End pieces come in specified color; center spacer section black only.
- Optional door fronts include painted, laminate or wood.
- Lock plugs:
  –Locking (chrome only) and non-locking available.
  –Single and double base units have one lock.
  –Triple base units may have more then one lock.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- Ellipse pull is not available on 12″(305mm) wide hinge doors.
- Beside base units 24″-42″(610mm-1067mm) cannot be freestanding. Units must be attached or ganged together. All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Beside base units 48″-72″(1219mm-1829mm) widths can be freestanding.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurface in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  –One-High = 17″(432mm)
  –One and One-Half = 23″(584mm)
  –Two-High = 29″(737mm)
- Separately specified if applicable:
  –Belong Power and communication cabling, tools, screens and tool rails.
  –Storage-to-Panel Bracket
  –Storage Attachment Bracket
  –Ganging Bracket
  –Storage Top (required)
  –Filler Panel
  –Top Filler Track
  –Finished Back (recommended when back is exposed)
  –Adjustable Shelf (not included with unit)
  –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. Reside Desking or Adaptable worksurfaces can be attached to the front or back of a Two-High Beside storage unit with separately specified flush mount plates.

Separately specified Belong base unit power components available for 30″-72″(372mm-1829mm) widths.

Storage shelves are unique to the specific base unit configuration. Refer to shelf price list pages for appropriate shelf.

One-High units cannot accept binders.

To Order, Specify:

Steel, Laminate or Wood Door Front

1) Product number, including:

❶ Door Front Option:

- **S** Steel
- **L** Laminate
- **W** Wood

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Material front color
7) Material front edgeband color (laminate only).

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

❷ Pull Styles

Ellipse (1)

Crescent (7)

Radius (2)

Linear (8)

Taper (3)

Classic (9)

Touch Latch Only (N)
(add **$26.00** list)

Features

- Hinged Door Single Base Unit include:
  - –Laminate case standard with a painted steel inset back and base.
  - –Full access hinges that open 100 degrees.
  - –If specified right-hand door includes touch latch mechanism (free swing hinge).
  - –If specified left-hand door includes full length return flange (self-closing hinge).
  - –Leg and drawer options.
  - –Spacer
- Ellipse pull available in non-metallic color only. (see finish page for pull color)
- Radius pull available in metallic colors only. (see finish page for pull color)
- Leg Options:
  - –Straight Leg (F); requires trim color.
  - –Chamfer Leg (P); requires trim color.
- Glide adjustment range:
  - –Straight Leg: 1.5″(38mm)
  - –Chamfer Leg: 1.25″(32mm)
- Spacer:
  - –1.18″(30mm) high
  - –End pieces come in specified color; center spacer section black only.
- Optional door fronts include painted, laminate or wood.
- Lock plugs:
  - –Locking (chrome only) and non-locking available.
  - –Single and double base units have one lock.
  - –Triple base units may have more then one lock.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- Beside base units 24″-42″(610mm-1067mm) cannot be freestanding. Units must be attached or ganged together. All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Beside base units 48″-72″(1219mm-1829mm) widths can be freestanding.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurface in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  - –One-High = 17″(432mm)
  - –One and One-Half = 23″(584mm)
  - –Two-High = 29″(737mm)
- Separately specified if applicable:
  - –Belong Power and communication cabling, tools, screens and tool rails.
  - –Storage-to-Panel Bracket
  - –Storage Attachment Bracket
  - –Ganging Bracket
  - –Storage Top (required)
  - –Filler Panel
  - –Top Filler Track
  - –Finished Back (recommended when back is exposed)
  - –Adjustable Shelf (not included with unit)
  - –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. They can only attach to these surfaces.

Separately specified Belong base unit power components available for 30″-72″(372mm-1829mm) widths.

Storage shelves are unique to the specific base unit configuration. Refer to shelf price list pages for appropriate shelf.

To Order, Specify:

Steel, Laminate or Wood Door Front

1) Product number, including:

❶ Door Front Option:

- **S** Steel
- **L** Laminate
- **W** Veneer

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back, fixed shelf trim color.
5) Pull, leg, and spacer trim color.
6) Door front color.
7) Laminate door front edgeband color.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

Features

- Hinged Door Single Base Unit include:
  –Laminate case standard with a painted steel inset back and base.
  –Full access hinges that open 100 degrees.
  –If specified right-hand door includes touch latch mechanism (free swing hinge).
  –If specified left-hand door includes full length return flange (self-closing hinge).
  –Leg and drawer options.
  –Spacer
- Ellipse pull available in non-metallic color only. (see finish page for pull color)
- Radius pull available in metallic colors only. (see finish page for pull color)
- J-Pull (J) matches painted steel fronts.
- Leg Options:
  –Straight Leg (F); requires trim color.
  –Chamfer Leg (P); requires trim color.
- Glide adjustment range:
  – Straight Leg: 1.5″(38mm)
  –Chamfer Leg: 1.25″(32mm)
- Spacer:
  –1.18″(30mm) high
  –End pieces come in specified color; center spacer section black only.
- Door front options include painted, laminate or wood.
- Lock plugs:
  –Locking (chrome only) and non-locking available.
  –Single and double base units have one lock.
  –Triple base units may have more then one lock.
- Shelves are separately specified; not included with unit.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- Beside base units 24″-42″(610mm-1067mm) cannot be freestanding. Units must be attached or ganged together. All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Beside base units 48″-72″(1219mm-1829mm) widths can be freestanding.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurface in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  –One-High = 17″(432mm)
  –One and One-Half = 23″(584mm)
  –Two-High = 29″(737mm)
- Separately specified if applicable:
  –Belong Power and communication cabling, tools, screens and tool rails.
  –Storage-to-Panel Bracket
  –Storage Attachment Bracket
  –Ganging Bracket
  –Storage Top (required)
  –Filler Panel
  –Top Filler Track
  –Finished Back (recommended when back is exposed)
  –Adjustable Shelf (not included with unit)
  –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. Reside Desking or Adaptable worksurfaces can be attached to the front or back of a Two-High Beside storage unit with separately specified flush mount plates.

Separately specified Belong base unit power components available for 30″-72″(372mm-1829mm) widths.

Storage shelves are unique to the specific base unit configuration. Refer to shelf price list pages for appropriate shelf.

One-High units cannot accept binders.

To Order, Specify:

Steel Door/Drawer Front

1) Product number, including:

❶ Door/Drawer Front Option:

- **S** Steel

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Door front color.

Laminate or Wood Door/Drawer Front

1) Product number, including:

❶ Door/Drawer Front Option:

- **L** Laminate
- **W** Wood

❷ Pull Option: (see side bar)

❸ Leg Option:

- **F** Straight Leg
- **P** Chamfer Leg, add **$80.00** list

❹ Lock Option:

- **L** Locking, add **$40.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Door front color.
7) Laminate front edgeband color.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

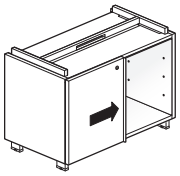
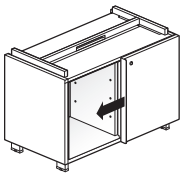
Base Unit — Single Sliding Door

Single Sliding Door



QBDF-SZN
(Proud left)



QBDF-ZTN
(Proud right)

Features

- Sliding Door include:
  –Laminate case standard with a painted steel inset back, proud door and base.
  –Legs and door options.
  –Spacer
  –Vertical pull
- Open storage dimensions:
  –One-High
  –One and One-Half High
  –Two-High
- Leg Options:
  –Straight Leg (F); requires trim color.
  –Chamfer Leg (P); requires trim color.
- Glide adjustment range:
  –Straight Leg: 1.5″(38mm)
  –Chamfer Leg: 1.25″(32mm)
- Spacer:
  –1.18″(30mm) high
  –End pieces come in specified color; center spacer section black only.
- Sliding door options include painted, laminate or wood.
- Lock Option:
  –Locking (chrome only) and non-locking available.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- Beside base units 24″-42″(610mm-1067mm) cannot be freestanding. Units must be attached or ganged together. All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Beside base units 48″-72″(1219mm-1829mm) widths can be freestanding.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurface in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  –One-High = 17″(432mm)
  –One and One-Half = 23″(584mm)
  –Two-High = 29″(737mm)
- Separately specified if applicable:
  –Belong Power and communication cabling, tools, screens and tool rails.
  –Storage-to-Panel Bracket
  –Storage Attachment Bracket
  –Ganging Bracket
  –Storage Top (required)
  –Filler Panel
  –Top Filler Track
  –Finished Back (recommended when back is exposed)
  –Adjustable Shelf (not included with unit)
  –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. Reside Desking or Adaptable worksurfaces can be attached to the front or back of a Two-High Beside storage unit with separately specified flush mount plates.

Separately specified Belong base unit power components available for 30″-72″(372mm-1829mm) widths only.

Storage shelves are unique to the specific base unit configuration. Refer to shelf price list pages for appropriate shelf.

One-High units cannot accept binders.

To Order, Specify:

Steel Door Front

1) Product number, including:

❶ Door Front Option:

S Steel

❷ Leg Option:

F Straight Leg

P Chamfer Leg, add **$80.00** list

❸ Lock Option:

L Locking, add **$40.00** list

N Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Door front color.

Laminate or Wood Door Front

1) Product number, including:

❶ Door Front Option:

L Laminate

W Wood

❷ Leg Option

F Straight Leg

P Chamfer Leg, add **$80.00** list

❸ Lock Option:

L Locking, add **$40.00** list

N Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Door front color.
7) Laminate front edgeband color.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

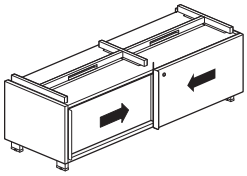
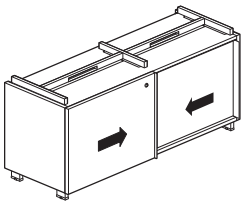
Base Unit — Double Sliding Door

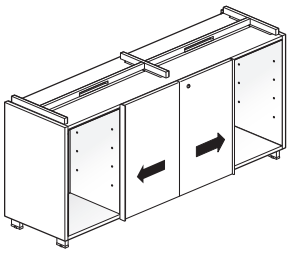
Double Sliding Door



QBDF-QNN



QBDF-PNN



QBTF-ZRZ

Features

- Sliding Door — Double and Triple include:
  –Laminate case standard with a painted steel inset back and base.
  –Leg and door options.
  –Spacer
  –Vertical Pull
- Open storage dimensions:
  –One-High
  –One and One-Half High
  –Two-High
- Leg Options:
  –Straight Leg (F); requires trim color.
  –Chamfer Leg (P); requires trim color.
- Glide adjustment range:
  – Straight Leg: 1.5″(38mm)
  –Chamfer Leg: 1.25″(32mm)
- Spacer:
  –1.18″(30mm) high
  –End pieces come in specified color; center spacer section black only.
- Sliding door options include painted, laminate or wood.
- Lock Option:
  –Locking (chrome only) and non-locking available.
- Case ships assembled. Legs require field installation.

Specification Tips

- Designed to be used with Haworth's Integrated Palette, UniGroup Too, PREMISE, Reside Desking and/or Belong Work Tools.
- Beside base units 24″-42″(610mm-1067mm) cannot be freestanding. Units must be attached or ganged together. All base units with drawers must be attached. Refer to Specification Guide for planning information.
- Beside base units 48″-72″(1219mm-1829mm) widths can be freestanding.
- Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.
- To route and access power in storage, order separately specified Belong power components.
- One and One-Half High and Two-High storage can be used to support Reside desking or Adaptable worksurface in a perpendicular configuration with separately specified brackets. Refer to Specification Guide for planning information.
- Beside base storage unit with top, spacer, base unit and legs finished heights:
  –One-High = 17″(432mm)
  –One and One-Half = 23″(584mm)
  –Two-High = 29″(737mm)
- Separately specified if applicable:
  –Belong Power and communication cabling, tools, screens and tool rails.
  –Storage-to-Panel Bracket
  –Storage Attachment Bracket
  –Ganging Bracket
  –Storage Top (required)
  –Filler Panel
  –Top Filler Track
  –Finished Back (recommended when back is exposed)
  –Adjustable Shelf (not included with unit)
  –Stack-On Hutch
- Refer to Specification Guide for planning information and actual dimensions.

Notes: Two-High storage base units are not designed to fit under Reside benching or return worksurfaces. Reside Desking or Adaptable worksurfaces can be attached to the front or back of a Two-High Beside storage unit with separately specified flush mount plates.

Separately specified Belong base unit power components available for 30″-72″(372mm-1829mm) widths only.

Storage shelves are unique to the specific base unit configuration. Refer to shelf price list pages for appropriate shelf.

One-High units cannot accept binders.

To Order, Specify:

Steel Door Front

1) Product number, including:

❶ Door Front Option:

S Steel

❷ Leg Option:

F Straight Leg

P Chamfer Leg, add **$80.00** list

❸ Lock Option:

L Locking, add **$40.00** list

N Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Door front color.

Laminate or Wood Door Front

1) Product number, including:

❶ Door Front Option:

L Laminate

W Wood

❷ Leg Option:

F Straight Leg

P Chamfer Leg, add **$80.00** list

❸ Lock Option:

L Locking, add **$40.00** list

N Non-Locking

2) Case laminate color.
3) Case laminate edgeband color.
4) Bottom, inset back and fixed shelf trim color.
5) Pull, leg and spacer trim color.
6) Door front color.
7) Laminate front edgeband color.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

Features

- Includes 1-3/16″(30mm) thick Individual Storage Top and attachment hardware.
- Available in laminate or wood veneer:
  –Laminate surface with 3mm edge- band on front and back edge; 1mm edgeband on sides.
  –Wood veneer surface with 3mm wood edgeband on front and back; 1mm wood edgeband on sides.
- For use with storage applications with inset unfinished back or separately specified proud finished back. If finished back is not specified; top will extend 3/4″(19mm) past the back of the unit.

Specification Tips

- Dimensioned for use with Beside Storage only.
- **Separately specified storage tops are required and can match the width of a single base unit or span two or more adjacent base units side by side.**
- Tops must be drilled to install field installed Powertap brackets with grommets.
- Tops must be field drilled to attach Stanchion Kits.
- Tops required on One, One and One-Half and Two-High storage units.
- Refer to Specification Guide for planning information and actual dimensions.

To Order, Specify:

1) Product number, including:

❶ **Material Option:**

- **L** Laminate
- **W** Wood

❷ **Edgeband Option:**

- **J** Edgeband
- **K** Wood Edgeband

❸ **Core Option:**

- **S** Standard
- **G** Green, add **$50.00** list

2) Laminate color.

3) Laminate edgeband color.

Finished Back

QBBK

Features

- Includes 3/4″(19mm) thick finished back and attachment hardware.
- For use with one Beside base storage unit, not designed to span multiple units.
- Field installed.

Specification Tips

- Provides a finished back panel in an exposed Beside storage back application.
- Provides a finished back in a Beside storage supported convergent worksurface application.
- Finished Back adds 3/4″(19mm) to depth of the unfinished inset back storage unit.
- Refer to Specification Guide for planning information and actual dimensions.

To Order, Specify:

1) Product number, including:

❶ **Material Option:**

- **S** Steel
- **L** Laminate
- **W** Wood

2) Steel, laminate, or wood color.

3) Laminate edgeband color.

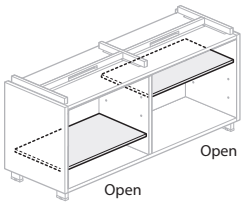
Feature
- Includes 5/8″(16mm) thick painted steel shelf and shelf pins.

Specification Tips
- Shelf is designed for use with Beside base units only.
- Open and functional interior dimensions/shelf widths are specific to Beside base unit configurations.
- Refer to Specification Guide for planning guidelines and actual dimensions.

Note: When ordering, first determine the type of unit (open or functional), the location of shelf, then determine shelf size.

To Order, Specify:
1) Product number.
2) Trim color.

Double Units — Open/Open



QASD

Base Unit Nominal Width	Shelf Actual Width	Number	Trim A	Trim B
48″(1219mm)	22.75″(578mm)	QASD-24-ONS	**$106.00**	**$119.00**
60″(1524mm)	28.75″(730mm)	QASD-30-ONS	**114.00**	**127.00**
72″(1829mm)	34.75″(883mm)	QASD-36-ONS	**122.00**	**135.00**

Feature
- Includes 5/8″(16mm) thick painted steel shelf and shelf pins.

Specification Tips
- Shelf is designed for use with Beside base units only.
- Open and functional interior dimensions/shelf widths are specific to Beside base unit configurations.
- Refer to Specification Guide for planning guidelines and actual dimensions.

Note: When ordering, first determine the type of unit (open or functional), the location of shelf, then determine shelf size.

To Order, Specify:
1) Product number.
2) Trim color.

	5.1″(130mm)	QAFF-0029-CL	**111.00**	**119.40**

Features

- Includes one non-handed, laminate filler panel and attachment hardware.
- Beside Filler Panels are used to fill the open vertical gap between back-to-back base units; available in three depths and heights to accommodate specific applications.
  - –**1.5″(38mm)** depth fills the gap between two back-to-back Beside base units with separately specified storage tops.
  - –**2.8″(71mm)** depth fills the gap between two back-to-back Beside base units with separately specified storage tops and one of the following component options: a Tool Rail, a Center Screen or a Top Feed.
  - –**5.1″(130mm)** depth fills the gap between two back-to-back Beside base units with separately specified storage tops, (2) Tools Rails and a Center Screen.

Specification Tips

- Separately specified ganging bracket required for back-to-back applications.
- Beside base unit storage with drawer applications.
- Order appropriate quantity for application.
- Not for use with finished backs.
- Refer to Specification Guide for planning information.

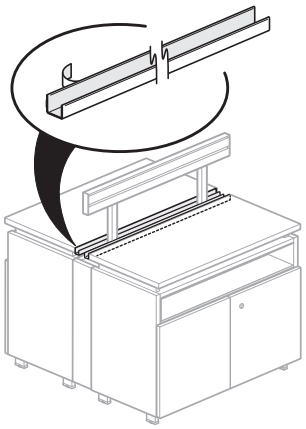
Notes: These filler panels are not a Beside base unit attachment option for storage support.

Filler panel does not gang units together. Order separately specified ganging bracket for stability.

To Order, Specify:

1) Product number.
2) Laminate color.
3) Laminate edgeband.

Top Filler Track



9060-8803

Width	Nominal Depth	Number	Price
72″(1829mm)	1″(25mm)	9060-8803	**$319.00**

Features

- Includes (6) 72″(1829mm) plastic filler tracks.
- Tracks attach to Beside storage tops in back-to-back applications when screens or tool rails are used.
- Filler track lessens, but does not fully enclose the top gap.
- Track is field cut to desired width.
- Attaches with double sided tape.
- Available in black only.

To Order, Specify:

1) Product number.
   (No finish specification required.)

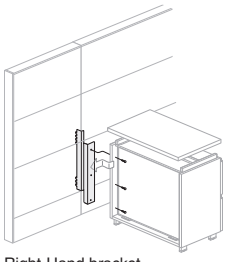
Left-Hand bracket
Parallel application
Z(_)BQ-LA



Right-Hand bracket
Perpendicular application
Z(_)BQ-RE

Features

- Includes one handed application specific attachment bracket with hardware.
- Installs in panel connector slots and attaches to the back corner of the base unit.
- Available in user specified trim colors.

Specification Tips

- Specify the bracket for use with the appropriate panel system; Compose, PREMISE or UniGroup Too, UniGroup and PLACES.
- Height of the bracket is determined by the finished height of the Beside base unit:
  –17″(432mm) high bracket is for use with a One-High base unit
  –23″(584mm) high bracket is for use with a One-and-One-Half High base unit
  –29″(737mm) high bracket is for use with a Two-High base unit
- Bracket handedness is determined by facing the front of the Beside base unit and identifying if the left or right hand side will attach to the panel.
- Bracket application is determined by the base unit in relationship to the panel run; whether the base unit is parallel or perpendicular to the panel run.
- Two High Beside Base Unit, Storage-to-Panel Bracket and the Adaptable Anti-Dislodgement Clip Kit are separately specified. Used together they provide anti-dislodgement support. Refer to the appropriate panel system Specification Guide for application guidelines.

To Order, Specify:

1) Product number, including:

❶ **Handed Option:**

- **L** Left
- **R** Right

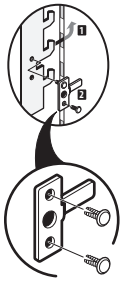
❷ **Application:**

- **A** Parallel
- **E** Perpendicular

2) Trim color.

Adaptable Anti-Dislodgement Clip Kit

	Number	Price
	ZZBC-0000	**$46.80**



ZZBC

Features

- Includes one non-handed attachment plate and two clips.
- For use with Two High Beside Base Unit with Beside Storage-to-Panel Bracket.
- Standard in black finish only.

Specification Tip

- Two High Base Unit, Storage-to-Panel Bracket and the Adaptable Anti-Dislodgement Clip Kit are separately specified. Used together they provide anti-dislodgement support. Refer to the appropriate panel system Specification Guide for application guidelines.

To Order, Specify:

1) Product number.
(No finish specification required.)

36″ Deep Desking Worksurface	24″(610mm)	ZUBG-2936-PNFC	**110.00**	**115.00**

Features

- Includes one desk-to-storage bracket with cover and attachment hardware.
- Bracket height: 5″(127mm).
- Depths are shown in nominal dimensions.
- Cover Options:
  –Half Cover depth is 9″(229mm) deep with 2″(51mm) recess.
  –Full Cover depth is adjustable from 13″-18″(330mm-457mm) deep with a 5″(127mm) recess.

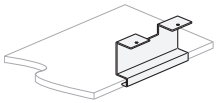
Specification Tips

- For supporting Reside desking with finished height of 29″(737mm) on Beside one and one-half high storage.
  –Half cover is used to layer Reside above the Beside storage at half depth of 9″(229mm).
  –Full cover used to layer Reside above the Beside storage inside the Beside hutch 13″(330mm) or at full depth 18″(457mm).
- Provides support for one end of Reside desking with central block.
- Desk-to-Storage bracket connects to front or back of Beside storage.
- Desk-to-Storage bracket with half cover supports floating top overhang of 9″(229mm).
- Desk-to-Storage bracket with full cover supports floating top overhang of 13″-18″(330mm-457mm).
- Refer to Specification Guide for planning information and actual dimensions.

To Order, Specify:

1) Product number.
2) Trim color.

Storage Attachment Bracket



ZUBG-PNNN

Class PT – SIN 711-2;
Discount Group IX

	12″(305mm)	ZUBG-2900-PNNN	**$60.00**	**$65.00**

Feature

- Includes one storage attachment bracket and attachment hardware.
- Bracket height 5″(127mm) with 2″(51mm) recess.

Specification Tips

- Used to attach a freestanding one and one-half high Beside storage base unit with a storage top.
- Refer to Specification Guide for planning information and actual dimensions.

Note: The storage attachment bracket does not provide Reside Worksurface Support.

To Order, Specify:

1) Produce number.
2) Trim color.

Flush Mount Plate

ZUBF-PN

Class CA – SIN 711-1;
Discount Group I

Width	Depth	Number	Price
4″(102mm)	3″(76mm)	ZUBF-0000.000-PN	**$21.63**

Features

- Includes one bracket and mounting screws.
- Standard in Charcoal finish.

Specification Tips

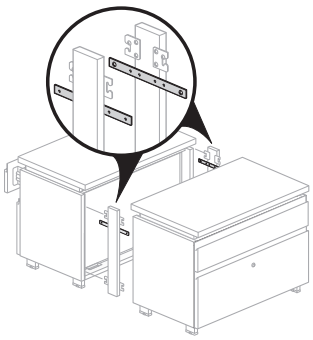
- Provides attachment for perpendicular desking worksurfaces.
- Used to attach Reside desking or Adaptable worksurface along depth side to front or back edge of Storage Top at a nominal finished height of 29″(737mm).
- Two plates are required.
- Refer to Specification Guide for planning information and actual dimensions.

To Order, Specify:

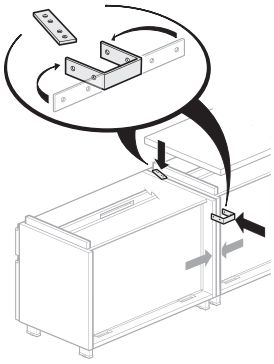
1) Product number.
(No finish specification required.)

Accessories

	Number	Price
Ganging Bracket Kit	QAGB-0000	**$20.00**



QAGB
(Two kits required for this application)



Features

- Includes one short and one long bracket and attachment hardware.
- Refer to specification guide for additional required support.
- Attaches two base units together back-to-back or in-line.
- Black only.

Specification Tips

- Provides attached storage support for two or more Beside base units in back-to-back and/or in-line applications. Refer to Specification Guide for planning information.
- **Beside Base units 24″-42″(610mm-1067mm) must be appropriately attached for storage support. Refer to Specification Guide for planning information.″**
- **All base units with drawers 24″-72″(610mm-1829mm) must be appropriately attached for storage support. Refer to Specification Guide for planning information.**
- See Specification Guide for planning requirements.

To Order, Specify:

1) Product number.
(No finish specification required.)

Features

- Includes one cushion and non-slip material.
- .75″(19mm) thick cushion is cover stitched around perimeter edges.
- Cushion is inset 0.6000″ from base unit perimeter edges.
- Cushion has a two-sided reversible surface; same fabric on both sides.

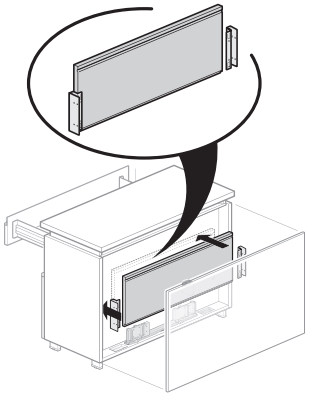
Specification Tips

- Cushion is not structural; to be used with a storage top.
- Cushion may be the same width or not as wide as the base unit.
- Patterned fabrics may not align on both sides of the cushion.

To Order, Specify:

1) Product number.
2) Fabric and color.

Counterweight



2670

Base Unit Width	Number	Price
24″(610mm) Single	2670-7001	**$383.00**

72″(1829mm) Triple	2670-7010	**165.00**

Features

- Includes counterweight and attachment hardware.
- Installs in back of base unit and allows for standard electrical applications.
- Field installed.
- Counterweights must be the same width and case type (single, double, triple) as base unit.

Specification Tip

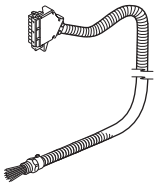
- For use with free-standing Beside base units with drawers and all units less than 48″(1219mm) wide. See Specification Guide for details.

To Order, Specify:

1) Product number.
(No finish specification required.)

Belong Electrical Components — 3-Circuit

Infeed Harness — *3-Circuit*



EUEH-0087-3

Class YA – SIN 711-2;
Discount Group XIII

Feed Length	Number	Price
87″(2210mm)	EUEH-0087-3	**$165.49**
180″(4572mm)	EUEH-00F0-3	**255.76**
300″(7620mm)	EUEH-00W0-3	**430.94**

Features

- Includes electrical harness in galvanized metal conduit and provides eight 12-gauge wires for up to three 20 amp circuits of power.
- Can be used to route power from floor to power distribution assembly.
- Can be used with a powered top feed pole to bring an additional set of three circuits into the powered component.
- Local electrician to provide secondary junction box at top of top feed pole.
- For use with components equipped with 3-circuit power.
- Attaches at any receptacle site in powered component.
- **Designed for use with Reside Desking and Beside Storage.**

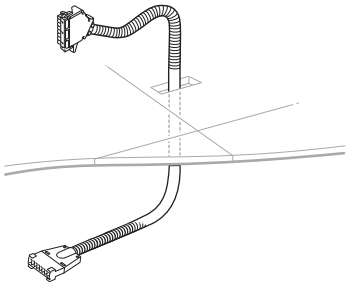
To Order, Specify:

1) Product number.
(No finish specification required.)

Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- When used with Reside desking, a vertical base feed cover is a separately specified option.
- Attaches at any receptacle site or right-hand jumper location.
- Split tubing may be field supplied separately to cover exposed galvanized metal conduit.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

Internal Power Base™ AI Base Feed — *3-Circuit*



EUEJ-0064-3F

Class SP – SIN 711-1;
Discount Group V

64″(1626mm)	EUEJ-0064-3WF	**$165.49**
144″(3658mm)	EUEJ-0144-3WF	**229.97**
300″(7620mm)	EUEJ-0300-3WF	**549.16**

Features

- Includes connector assembly which consists of one Power Base connector head, galvanized 1/2″(13mm) flexible metal conduit with eight 12-gauge wires for up to three 20-amp circuits of power, one Power Base AI connector head and a two port splitter.
- For use with components equipped with 3-circuit power.
- Attaches at any receptacle site or right-hand jumper location and to a Power Base AI underfloor power system.
- **Designed for use with Reside Desking and Beside Storage.**

To Order, Specify:

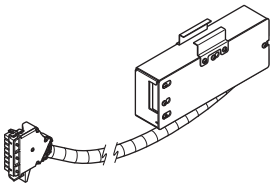
1) Product number.
(No finish specification required.)

Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- Can only be connected to 3-circuit Power Base AI underfloor power system.
- When used with Reside desking, a base feed cover is a separately specified option.
- Exposed split tubing may be field supplied separately to cover exposed galvanized metal conduit.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

Belong Electrical Components — 3-Circuit

	Number	Price
Base Feed Module — Architectural Concealed — Hardwire Connection *3-Circuit*	EUEB-0000-3HY	**$270.40**



EUEB-0000-3HY

Features

- Includes one junction box with modular connector and three 1/2″(13mm) knockouts, eight 12-gauge wires for up to three circuits of power.
- For use with components equipped with 3-circuit power.
- For floor, column or wall hardwire connections.
- Conforms to New York City electrical code.
- **Designed for use with Reside Desking and Beside Storage.**

Specification Tips

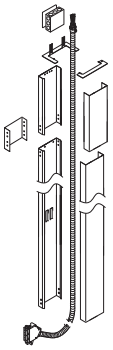
- **Not for use with power sources other than 120 volt 60 hertz.**
- For installation on components 42″(1067mm) or larger.
- Connector plugs into receptacle site on left side of desking and right side of storage.
- Connector may plug into jumper site on right side of Reside desking.
- Conduit and fittings for connection between building and junction box are supplied by local electricians.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

1) Product number.
   (No finish specification required.)

Beside Electrical Components — 3-Circuit

Top Feed — *3-Circuit* Beside Storage Only



EQET-C000-3S

Description	Ceiling Height	Pole Length	Number	Trim A	Trim B
Floor Mount Height					
3-Circuit	10′(3048mm)	138″(3505mm)	EQET-C000-3	**$783.08**	**$835.00**
	12′(3658mm)	150″(3810mm)	EQET-E400-3	**800.39**	**860.96**

Features

- Includes one 180″(4572mm) electrical harness in metal conduit, electrical box, ceiling bezel plate, pole and hardware with eight 12-gauge wires for up to three 20-amp circuits of power.
- For connection to the electrical source located in space above a drop ceiling.
- Removable cover on poles provides access to pathway.
- Top feed pole dimensions: 2.5″(64mm) x 8″(203mm).
- Harness attaches to flex connector or receptacle site location.
- **Designed for use with Beside Storage only.**

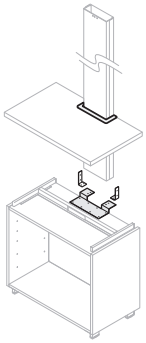
Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- Beside Storage top feed may interfere with Tool Rail or Screen applications.
- Beside Storage floor mount Top Feed mounts to floor, attaches to Beside Storage at any side and ceiling.
- Floor attachment hardware is field supplied.
- If Beside Storage is back-to-back, a minimum gap of 2.5″(63.5mm) must be provided or if no gap, separately specify Top Feed Grommet – field cutting required.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

1) Product number.
2) Trim color.

Top Feed Grommet — Beside Storage Only



EQAG-0000-PT

Number	Price
EQAG-0000-PT	**$43.26**

Features

- Includes grommet and attachment hardware.
- For use when mounting Beside Top Feed through storage top.
- **Designed for use with Beside Storage only.**

Specification Tips

- Beside storage must be attached to another Beside Storage, Reside desking, panel or a wall.
- Grommet requires field modification of storage top.
- Refer to Specification Guide for planning applications.

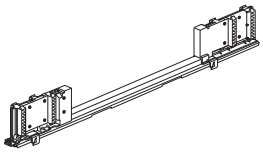
To Order, Specify:

1) Product number.
2) Trim color.

Note: **$5.41** upcharge list for Metallic and accent trim colors.

Beside/Belong Electrical Components — 3-Circuit

Power Distribution Assembly — *3-circuit or Hardwire* — Beside Storage Only



EUEP-0030-3Q

Description	Width	Number	Price
3-Circuit			
	30″(762mm)	EUEP-0030-3Q	**$38.72**
	36″(914mm)	EUEP-0036-3Q	**44.12**
	42″(1067mm)	EUEP-0042-3Q	**49.52**
	48″(1219mm)	EUEP-0048-3Q	**55.82**
	54″(1372mm)	EUEP-0054-3Q	**60.32**
	60″(1524mm)	EUEP-0060-3Q	**65.72**
	66″(1676mm)	EUEP-0066-3Q	**72.02**
	72″(1829mm)	EUEP-0072-3Q	**76.52**

Features

- Includes one power distribution assembly (PDA) and attachment hardware to attach power to Beside Storage.
- Attached to Beside Storage power and communication recessed compartment.
- Field installed.

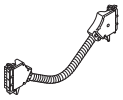
Specification Tips:

- **For use to access power or route power through Beside Storage.**
- To access power in Beside Storage, separately specify 3-circuit conduit, Power Tap and bracket.
- **Specify jumper separately.**
- **Beside Storage PDA's do not accept receptacles.**
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

1) Product number.
(No finish specification required.)

Jumpers — *3-Circuit*



EUEJ-0018-3

Actual Length	Number	Price

192″(4877mm)	EUEJ-00K2-3	**280.94**

Features

- Includes flexible metal power jumper with safety latches.
- For use with 3-circuit power components.
- Jumpers cannot be coupled together.
- Field installed.
- **Designed for use with Reside Desking and Beside Storage.**

Specification Tips:

- **Jumpers are used to connect between Power Distribution Assemblies mounted in Utility Trays and/or between Reside desking and Beside storage powered units (desk to desk/ storage to storage/desk to storage/storage to desk).**
- Beside Storage in-line applications; specify 42″(1067mm) jumper.
- Beside Storage dual sided, single row application; specify 54″(1372mm) jumper.
- Refer to Specification Guide for calculation of jumper length.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

1) Product number.
(No finish specification required.)

	2	EUET-00A8-3M3N2NS	**169.18**
	3	EUET-00A8-3M3N3NS	**169.18**

Features

- Includes Power Tap housing with three 15A receptacle outlets (NEMA 5-15R) with 3/8″(10mm) conduit and Power Base connector.
- May be used with mounting brackets to attach above or below worksurface.
- Power Base connector is used to connect to PDA in Reside Desking and Beside Storage.
- Power Tap housing with receptacles available in charcoal or graphite finish; conduit standard in black only.
- Field installed.

Specification Tips:

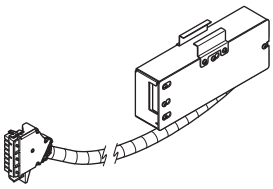
- Specify conduit length, circuit configuration and circuit access with Power Base connector.
- Specify mounting bracket separately.
  - –Fixed Bracket with three patch cord holder mounts Power Tap to edge of worksurface with mounting screws. **Horizontal Power Tap required.**
  - –Adjustable bracket mounts Power Tap to edge of worksurface with thumb screws for ease of relocation. **Horizontal Power Tap required.**
  - –Under Surface bracket mounts Power Tap under worksurface. **Vertical Power Tap required.**
- Power Tap applications should be reviewed by local authorities (electrical inspector) prior to ordering due to varying local codes.

To Order, Specify:

1) Product number.
2) Trim color.
   TR-K Charcoal
   TR-J Graphite

Belong Electrical Components — 4-Circuit (2+2 and 3+1)

Base Feed Module — Architectural Concealed Hardwire Connection — *4-Circuit* (2+2 and 3+1)



EUEB-0000-4HY

Description	Number	Price
4-Circuit (2+2)	EUEB-0000-2HY	**$270.40**
4-Circuit (3+1)	EUEB-0000-4HY	**270.40**

Features

- Includes one junction box with modular connector and three 1/2″(13mm) knockouts, with six 12-gauge and two 10-gauge wires for up to four 20-amp circuits of power.
- For use with components equipped with 4-circuit power.
- For floor, column or wall hardwire connections.
- Conforms to New York City electrical code.
- **Designed for use with Reside Desking and Beside Storage.**

Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- For installation on components 42″(1067mm) or larger.
- Connector plugs into receptacle site on left side of desking and right side of storage.
- Connector may plug into jumper site on right side of Reside desking.
- Conduit and fittings for connection between building and junction box are supplied by local electricians.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

	300″(7620mm)	EUEH-00W0-4	**447.06**

Features

- Includes electrical harness in galvanized metal conduit with six 12-gauge and two 10-gauge wires for up to four 20-amp circuits of power.
- Can be used to route power from floor to power distribution assembly.
- Can be used with a powered top feed pole to bring an additional set of four circuits into the powered components.
- Local electrician to provide secondary junction box at top of top feed pole.
- For use with 4-circuit (2+2 or 3+1) power components.
- Attaches at any receptacle site in powered component.
- **Designed for use with Reside Desking and Beside Storage.**

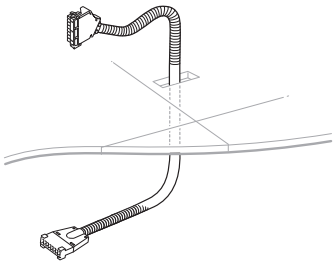
Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- When used with Beside Storage, a base feed cover is a separately specified option.
- Exposed split tubing may be field supplied separately to cover exposed galvanized metal conduit.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

1) Product number.
(No finish specification required.)

Internal Power Base™ AI Base Feed — *4-Circuit* (2+2 and 3+1)



EUEJ-0064-2F

	300″(7620mm)	EUEJ-0300-4WF	**565.28**

Features

- Includes connector assembly which consists of one Power Base connector head, galvanized 1/2″(13mm) flexible metal conduit with six 12-gauge and two 10-gauge wires for up to four 20-amp circuits of power and one Power Base AI Connector.
- For use with 4-circuit (2+2 or 3+1) power components.
- Attaches at any receptacle site and to a Power Base AI underfloor power system.
- **Designed for use with Reside Desking and Beside Storage.**

Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- Can only be connected to 4-circuit Power Base AI underfloor power system.
- When used with Reside desking, a base feed cover is a separately specified option.
- Exposed split tubing may be field supplied separately to cover exposed galvanized metal conduit.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

1) Product number.

	12′(3658mm)	150″(3810mm)	EQET-E400-4	**800.39**	**860.96**

Features

- Includes one electrical harness in metal conduit, electrical box, ceiling bezel plate, pole and hardware with six 12-gauge wires and two 10-gauge wires for up to four 20-amp circuits of power.
- For connection to the electrical source located in space above a drop ceiling.
- Removable cover on poles provides access to pathway.
- Top feed pole dimensions: 2.5″(64mm) x 8″(203mm).
- Harness attaches to flex connector location.
- **Designed for use with Beside Storage only.**

Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- Electrical harness length is 180″(4572mm) regardless of pole length.
- Beside Storage Top Feed may interfere with Tool Rail or Screen applications.
- Beside Storage floor mount Top Feed mounts to floor, attaches to Beside Storage at any side and ceiling.
- Floor attachment hardware is field supplied.
- If Beside Storage is back-to-back, a minimum gap of 2.5″(63.5mm) must be provided or if no gap, separately specify Top Feed Grommet - field cutting required.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

Features

- Includes flexible metal power jumper with safety latches.
- For use with 4-circuit (2+2 or 3+1) power components.
- Jumpers cannot be coupled together.
- Field installed.

Specification Tips

- **Jumpers are used to connect between Power Distribution Assemblies mounted in Utility Trays and/or between Reside desking and Beside storage powered units (desk to desk/ storage to storage/desk to storage/storage to desk).**
- Beside Storage in-line applications; specify 42″(1067mm) jumper.
- Beside Storage dual sided, single row application; specify 54″(1372mm) jumper.
- Refer to Specification Guide for calculation of jumper length.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

1) Product number.
   (No finish specification required.)

Belong Electrical Components — 4-Circuit (2+2 and 3+1)

Power Tap — 4-Circuit (2+2 and 3+1) Horizontal

	3	EUET-00A8-4M3N3NL	**169.18**
	4	EUET-00A8-4M3N4NL	**169.18**

Features

- Includes Power Tap housing with three 15A receptacle outlets (NEMA 5-15R) with 3/8″(10mm) conduit and Power Base connector.
- May be used with mounting brackets to attach above or below worksurface.
- Power Tap housing with receptacles available in charcoal or graphite finish; conduit standard in black only.
- Field installed.

Specification Tips

- Power Base connector is used to connect to PDA in Reside Desking and Beside Storage.
- Specify conduit length, circuit configuration and circuit access with Power Base connector.
- Specify mounting bracket separately.
  - –Fixed Bracket with three patch cord holder mounts Power Tap to edge of worksurface with mounting screws. **Horizontal Power Tap required.**
  - –Adjustable bracket mounts Power Tap to edge of worksurface with thumb screws for ease of relocation. **Horizontal Power Tap required.**
- Power Tap applications should be reviewed by local authorities (electrical inspector) prior to ordering due to varying local codes.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

1) Product number.
2) Trim color.
   TR-K Charcoal
   TR-J Graphite

Belong Electrical Components — 4-Circuit (2+2 and 3+1)

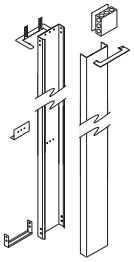
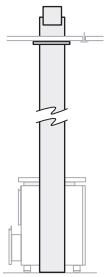
Beside Electrical Components — Hardwire

Top Feed — Hardwire Beside Storage Only





Floor Mount

EQET-C000-C

Floor Mount	Ceiling Height	Pole Length	Number	Trim A	Trim B
Hardwire	10′(3048mm)	138″(3505mm)	EQET-C000-C	**$275.81**	**$327.73**
	12′(3658mm)	150″(3810mm)	EQET-E400-C	**293.12**	**353.69**

Features

- Includes one electrical box, ceiling bezel plate, pole and hardware.
- For connection to the electrical source located in space above a drop ceiling.
- For routing and cabling capacities, refer to Specification Guide.
- Removable cover on poles provides access to pathway.
- Top feed pole dimensions: 2.5″(64mm) x 8″(203mm).
- **Designed for use with Beside Storage only.**

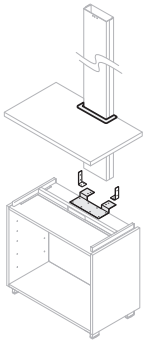
Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- Beside Storage Top Feed may interfere with Tool Rail or Screen applications.
- Beside Storage floor mount Top Feed mounts to floor, attaches to Beside Storage at any side and ceiling.
- Floor attachment hardwire is field installed.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

1) Product number.
2) Trim color.

Top Feed Grommet — Beside Storage Only



EQAG-0000-PT

Number	Price
EQAG-0000-PT	**$43.26**

Features

- Includes grommet and attachment hardware.
- For use when mounting Beside Top Feed through storage top.
- **Designed for use with Beside Storage only.**

Specification Tips

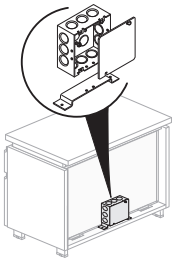
- Beside storage must be attached to additional Beside Storage, Reside desking, panel or a wall.
- Grommet requires field modification of storage top.
- Refer to Specification Guide for planning applications.

To Order, Specify:

1) Product number.
2) Trim color.

Note: **$5.41** upcharge list for Metallic and accent trim colors.

Hardwire Kit — Beside Storage Only



EQEP-0000-C

Number	Price
EQEP-0000-C	**$118.97**

Features

- Includes one electrical box with nine 1/2″(13mm) knockouts, blank cover plate and mounting hardware.
- Attaches to Beside Storage recessed compartment sidewall.
- Field installed.
- **Designed for use with Beside Storage only.**

Specification Tips

- For use with Hardwire Power Taps for electrical connection.
- **Not intended for mounting of receptacles.**
- **Wiring, fittings and conduit are field supplied.**

To Order, Specify:

1) Product number.
2) Trim color.

Belong Electrical Components — Hardwire

15′(4572mm)	1	EUET-00J0-CM3N1NS	**205.54**

Features

- Includes Power Tap with three 15A receptacle outlets (MEMA 5-15) with conduit and conduit fitting.
- May be used with mounting brackets to attach above or below worksurface.
- Hardwire option for connection to field wired junction box with 1/2″(13mm) knockout.
- Power Tap housing with receptacles available in charcoal or graphite finish; conduit standard in black only.

Specification Tips

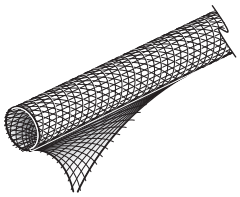
- **Specify mounting bracket separately.**
  - –Fixed Bracket with three patch cord holder mounts Power Tap to edge of worksurface with mounting screws. **Horizontal Power Tap required.**
  - –Adjustable bracket mounts Power Tap to edge of worksurface with thumb screws for ease of relocation. **Horizontal Power Tap required.**
  - –Under Surface bracket mounts Power Tap under worksurface. **Vertical Power Tap required.**
- For use with 120 volt 60 hertz power source only.
- Power Tap applications should be reviewed by local authorities (electrical inspector) prior to ordering due to varying local codes.

To Order, Specify:

1) Product number.
2) Trim color.
   TR-K Charcoal
   TR-J Graphite

Beside/Belong Electrical Components

Cord Manager — Mesh



EUAW-0000-NHS

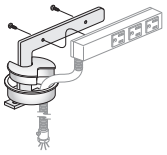
Diameter	Length	Number	Price
1″(25mm)	100′(30480mm)	EUAW-0000-NHS	**$621.92**
2″(51mm)	50′(15240mm)	EUAW-0000-NHL	**621.92**

Features
- Includes flexible mesh cord manager.
- Standard in black.
- Field cut to length.

Specification Tips
- Wraps around and manages power cords and data cables.
- Refer to Specification Guide for planning guidelines.

To Order, Specify:
1) Product number.
(No finish specification required.)

Power Tap Bracket with Grommet — Beside Storage Only



ZUAP-0000-PGH

Description	Number	Price
Fixed Grommet — Horizontal	ZUAP-0000-PGH	**$85.45**
Fixed Grommet — Vertical	ZUAP-0000-PGV	**90.86**

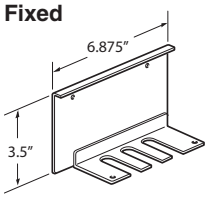
Features
- Includes one Power Tap bracket, grommet with cover and mounting hardware.
- Horizontal bracket mounts to Beside Storage Top through field installed grommet. Horizontal Power Tap required.
- Vertical bracket mounts to Beside Storage Top through field installed grommet. Vertical Power Tap required.

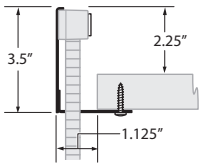
Specification Tips
- **Designed for use with 1 3/16″(30mm) thick tops.**
- Power Tap applications should be reviewed by local authorities (electrical inspector) prior to ordering due to varying local codes.
- Power Tap Bracket with grommet can only be used with 3-Circuit, 4-Circuit and Hardwired power taps.

To Order, Specify:
1) Product number.
2) Trim color.

Note: **$5.41** upcharge list for Metallic and accent trim colors.

Power Tap Bracket — Fixed





ZUAP-0000-PFD

Fixed	ZUAP-0000-PFD	**$37.86**

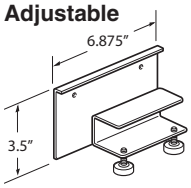
Features
- Includes one Power Tap mounting bracket and mounting hardware.
- Fixed Bracket mounts Power Tap to edge of worksurface with mounting screws.
- Fixed bracket accommodates three patch cords.
- **Horizontal Power Tap required.**

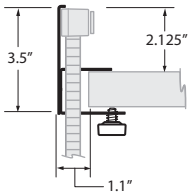
Specification Tips
- **Accommodates 1 3/16″(30mm) thick tops.**
- Power Tap applications should be reviewed by local authorities (electrical inspector) prior to ordering due to varying local codes.
- **Not compatible with the Power Tap-Corded shipped prior to July 2013.**

To Order, Specify:
1) Product number.
2) Trim color.

Note: **$5.41** upcharge list for Metallic and accent trim colors.

Power Tap Bracket — Adjustable





ZUAP-0000-PAN

Adjustable	ZUAP-0000-PAN	**$53.00**

Features
- Includes one Power Tap mounting bracket and mounting hardware.
- Adjustable bracket mounts Power Tap to back edge of worksurface with thumb screws for ease of relocation.
- **Horizontal Power Tap required.**

Specification Tips
- **Accommodates 1 3/16″(30mm) thick tops.**
- Adjustable Power Tap Bracket may interfere with Tool Rail or Screen application.
- Power Tap applications should be reviewed by local authorities (electrical inspector) prior to ordering due to varying local codes.
- **Not compatible with the Power Tap-Corded shipped prior to July 2013.**

To Order, Specify:
1) Product number.
2) Trim color.

Note: **$5.41** upcharge list for Metallic and accent trim colors.

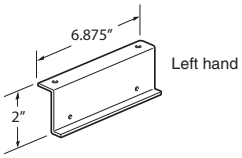
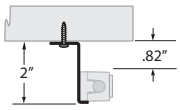
Power Tap Bracket — Under Surface



Right hand



ZUAP-0000-PUR

Class YA – SIN 711-2
Discount Group XIII

Description	Number	Price
Under Surface — Right-hand	ZUAP-0000-PUR	**$37.86**
Under Surface — Left-hand	ZUAP-0000-PUL	**43.27**

Features

- Includes one Power Tap mounting bracket and mounting hardware.
- Under Surface bracket mounts Power Tap under worksurface.
- **Vertical Power Tap required.**

Specification Tips

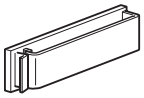
- Under surface bracket may be used on top of worksurface in restricted reach (ADA) applications. Mounting screws will deface top of worksurface.
- Power Tap applications should be reviewed by local authorities (electrical inspector) prior to ordering due to varying local codes.
- **Not compatible with the Power Tap-Corded shipped prior to July 2013.**

To Order, Specify:

1) Product number.
2) Trim color.

Note: **$5.41** upcharge list for Metallic and accent trim colors.

Vertical Cable Guide



NECG-V

Class FA – SIN 711-1
Discount Group XI

Height	Depth	Width	Number	Price
3/4″	1/2″	3″	NECG-V	**$50.24**

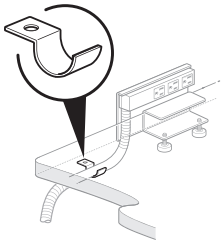
Features

- Includes package of twelve cable guides.
- Manages communication cables.
- Self-adhesive back attaches to the top or bottom of horizontal surface.
- Standard in gray trim color only.
- Refer to Specification Guide for cable capacity.

To Order, Specify:

1) Product number.
(No finish specification required.)

Conduit Clamp



EUAM-0000

Class YA – SIN 711-2
Discount Group XIII

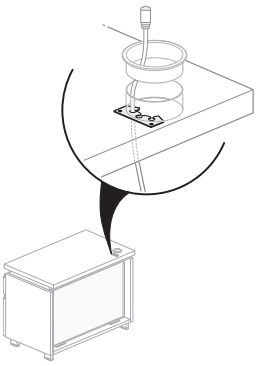
EUAM-0000		**$54.08**

Features

- Includes 25 clamps and 25 screws.
- For managing Power Tap cord or conduit under horizontal surfaces.

Beside Electrical Components

Patch Cord Data Holder Bracket — Beside Storage Only



EQAD-0000-GD

Class YA – SIN 711-2
Discount Group XIII

Number	Price
EUAD-0000-GD	**$19.47**

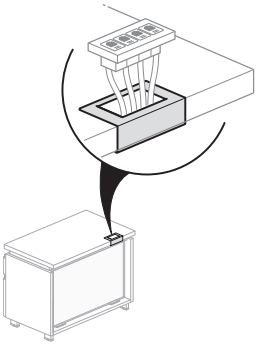
Features
- Includes bracket and attachment hardware.
- Designed for use with grommet and sidewall mounting bracket for holding up to three patch cords.
- Designed for use with patch cords having a diameter of 0.16″(4mm) to 0.20″(5mm).

Specification Tips
- Mounts to underside of Beside Storage Top.
- Sidewall bracket for holding up to three patch cords.
- Field supplied.
- Refer to Specification Guide for planning applications.

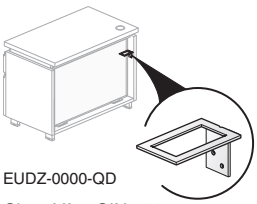
To Order, Specify:
1) Product number.
2) Trim color.

Note: **$5.41** upcharge list for Metallic and accent trim colors.

Modular Furniture Telecommunication Opening — Beside Storage Only



EUDZ-0000-WDD



EUDZ-0000-QD

Class YA – SIN 711-2
Discount Group XIII

Description	Number	Price
Storage — Top Mount	EUDZ-0000-WD	**$32.45**
Storage — Sidewall Mount	EUDZ-0000-QD	**32.45**

Features
- Includes bracket and attachment hardware.
- Provides a 1.38″(35mm) x 2.71″(69mm) opening for field supplied modular furniture telecommunication faceplate.
- Storage sidewall bracket mounts Beside Storage recessed compartment sidewall.
- Storage top bracket mounts to back edge of Beside Storage Top.

Specification Tips
- Sidewall storage bracket may interfere with base feed module.
- Coordination of data and power with installation of double sided Beside Storage is recommended.
- Sidewall bracket data patch cords should be available during installation.
- Top mount Modular Furniture Telecommunication requires field modification.
- Field supplied face plate and patch cord.
- Refer to Specification Guide for planning applications.

To Order, Specify:
1) Product number.
2) Trim color.

Note: **$5.41** upcharge list for Metallic and accent trim colors.

TrueNet® Patch Cord — Cat 5eT

DPC-5

Class DT – SIN 711-99
Discount Group XVI

Length	Description	Color	Number	Price
4′(1.22m)	RJ45, TrueNet Patch Cord — Cat 5eT	Blue	DPC-4-5U	**$10.07**

QUSS

Features

- Includes stanchions and attachment hardware.
- For use with a single base unit or multiple units of matching widths in a side-by-side application.
- Field assembled and installed.

Specification Tips

- User side is the inset side.
- Stanchion kits with separately specified shelves create a hutch which is designed to be used with a Beside base unit.
- A single stanchion kit can be used to support a Beside overhead storage unit. The combination of the Beside base unit, Stanchion kit and Overhead Storage or hutch shelf not to exceed 58″(1473mm).
- Binder Storage minimum height 15″(381mm).
- Refer to accessory price pages for stanchion height minimum requirement.
- Stanchion kits G and M not available at widths greater than 42″(1067mm).
- Shelf must match width of stanchion kit.
- Stanchion kits can be configured into multiple configurations.
- Refer to Specification Guide for planning information and actual dimensions.

To Order, Specify:

1) Product number.
2) Painted color Stanchion left.
3) Painted color Stanchion right.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

Features

- Includes thick stanchions and attachment hardware.
- For use with a single base unit or multiple units of matching widths in a side-by-side application.
- Field assembled and installed.

Specification Tips

- User side is the inset side.
- Stanchion kits with separately specified shelves create a hutch which is designed to be used with a Beside base unit.
- A single stanchion kit can be used to support a Beside overhead storage unit. The combination of the Beside base unit, Stanchion kit and Overhead Storage or hutch shelf not to exceed 58″(1473mm).
- Binder Storage minimum height 15″(381mm).
- Refer to accessory price pages for stanchion height minimum requirement.
- Stanchion kits G and M not available in widths greater than 42″(1067mm).
- Shelf must match width of stanchion kit,
- Stanchion kits can be configured into multiple configurations.
- Refer to Specification Guide for planning information and actual dimensions.

To Order, Specify:

1) Product number.
2) Painted color Stanchion left.
3) Painted color Stanchion right.
4) Painted color Center Divider (for widths 48″(1219mm) and higher).

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

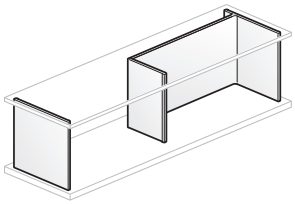
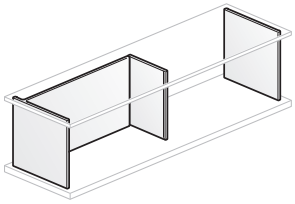
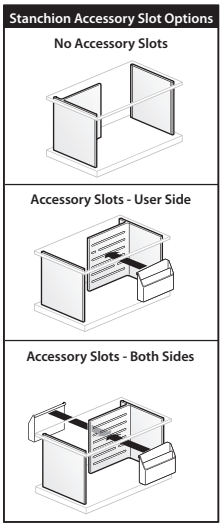
Stanchion Kit — N

Stanchion Kit — N





QUSS



Features

- Includes stanchions and attachment hardware.
- For use with a single base unit or multiple base units of matching widths in a side-by-side application.
- Accessory Functionality:
  - –**A** User sided accessory slot for right hand stanchion.
  - –**B** User sided accessory slot for left hand stanchion.
  - –**D** Both side accessory slot for right hand stanchion.
  - –**E** Both side accessory slot for left hand stanchion.
  - –**L** No accessory left.
  - –**R** No accessory right.
- Field assembled and installed.

Specification Tips

- User side is the inset side.
- Stanchion kits with separately specified shelves create a hutch which is designed to be used with a Beside base unit.
- A single stanchion kit can be used to support a Beside overhead storage unit. The combination of the Beside base unit, Stanchion kit and Overhead Storage or hutch shelf not to exceed 58″(1473mm).
- Binder Storage minimum height 15″(381mm).
- Refer to accessory price pages for stanchion height minimum requirement.
- Stanchion kits not available in widths greater than 72″(1829mm).
- Shelf must match width of the stanchion kit.
- Stanchion kits can be configured into multiple configurations.
- Refer to Specification Guide for planning information and actual dimensions.

To Order, Specify:

1) Product number, including:

❶ Accessory Slots Options:

User Side

- **A** Right-Hand Stanchion
- **B** Left-Hand Stanchion

Both Sides

- **D** Right-Hand Stanchion
- **E** Left-Hand Stanchion

No Accessory Slot

- **R** Right-Hand Stanchion
- **L** Left-Hand Stanchion

2) Painted color Stanchion Left.

3) Painted color Stanchion Right.

4) Painted color Center Divider (for widths 48″(1219mm) and higher).

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

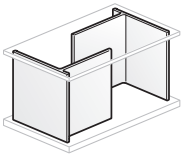
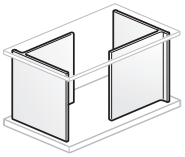
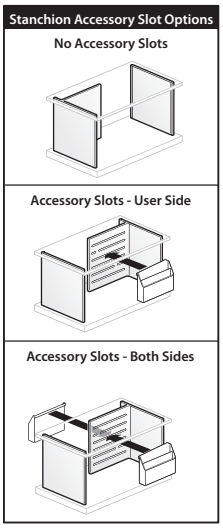
Stanchion Kit — P

Stanchion Kit — P





QUSS



Features

- Includes stanchions and attachment hardware.
- For use with a single base unit or multiple base units of matching widths in a side-by-side application.
- Accessory Functionality:
  - –**A** User sided accessory slot for right hand stanchion.
  - –**B** User sided accessory slot for left hand stanchion.
  - –**C** User sided accessory slot for right and left hand stanchion.
  - –**D** Both side accessory slot for right hand stanchion.
  - –**E** Both side accessory slot for left hand stanchion.
  - –**F** Both side accessory slot for right and left hand stanchion.
  - –**N** No slots.
- Field assembled and installed.

Specification Tips

- User side is the inset side.
- Stanchion kits with separately specified shelves create a hutch which is designed to be used with a Beside base unit.
- A single stanchion kit can be used to support a Beside overhead storage unit. The combination of the Beside base unit, Stanchion kit and Overhead Storage or hutch shelf not to exceed 58″(1473mm).
- Binder Storage minimum height 15″(381mm).
- Refer to accessory price pages for stanchion height minimum requirement.
- Stanchion kits not available in widths greater than 72″(1829mm).
- Shelf must match width of the stanchion kit.
- Stanchion kits can be configured into multiple configurations.
- Refer to Specification Guide for planning information and actual dimensions.
- Stanchion Kit P can be applied in an in-line condition up to 42″(1067mm). Greater than 42″(1067mm) requires the product to be installed in a mirror image application.

To Order, Specify:

1) Product number, including:

❶ Accessory Slots Options:

User Side

- **A** Right-Hand Stanchion
- **B** Left-Hand Stanchion
- **C** Right and Left Hand Stanchion

Both Sides

- **D** Right-Hand Stanchion
- **E** Left-Hand Stanchion
- **F** Right and Left Hand Stanchion

No Accessory Slot

- **N** No Slot

2) Painted color Stanchion Left.

3) Painted color Stanchion Right.

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

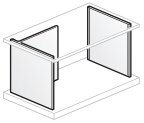
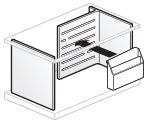
Stanchion Accessory Slot Options

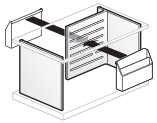
No Accessory Slots



Accessory Slots - User Side



Accessory Slots - Both Sides



Features

- Includes stanchions and attachment hardware.
- For use with a single base unit or multiple base units of matching widths in a side-by-side application.
- Accessory Functionality:
  - –**A** User sided accessory slot for right hand stanchion.
  - –**B** User sided accessory slot for left hand stanchion.
  - –**C** User side accessory slot for right and left hand stanchion.
  - –**D** Both side accessory slot for right hand stanchion.
  - –**E** Both side accessory slot for left hand stanchion.
  - –**F** Both side accessory slot for right and left hand stanchion.
  - –**N** No slots.
- Field assembled and installed.

Specification Tips

- User side is the inset side.
- Stanchion kits with separately specified shelves create a hutch which is designed to be used with a Beside base unit.
- A single stanchion kit can be used to support a Beside overhead storage unit. The combination of the Beside base unit, Stanchion kit and Overhead Storage or hutch shelf not to exceed 58″(1473mm).
- Binder Storage minimum height 15″(381mm).
- Refer to accessory price pages for stanchion height minimum requirement.
- Stanchion kits not available in widths greater than 72″(1829mm).
- Shelf must match width of the stanchion kit.
- Stanchion kits can be configured into multiple configurations.
- Refer to Specification Guide for planning information and actual dimensions.

To Order, Specify:

1) Product number, including:

❶ **Accessory Slots Options:**

User Side

- **A** Right-Hand Stanchion
- **B** Left-Hand Stanchion
- **C** Right and Left Hand Stanchion

Both Sides

- **D** Right-Hand Stanchion
- **E** Left-Hand Stanchion
- **F** Right and Left Hand Stanchion

No Accessory Slot

- **N** No Slot

2) Painted color Stanchion Left.

3) Painted color Stanchion Right.

4) Painted color Center Divider (for widths 48″(1219mm) and higher).

Note: For mixed surface grades, pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

Features

- Includes one 3/4″(19mm) shelf.
- Available in:
  - –Laminate with 3mm edgeband on user edge and 1mm on sides and back.
  - –Wood with 3mm edgeband on user edge with 1mm edgeband on sides and back.

Specification Tips

- For use with Beside Product only.
- Hutch application can be created with one stanchion and one shelf. Maximum stacking with base units, stanchion kits and shelves not to exceed 58″(1473mm).
- Shelves require separately specified stanchion kits.
- Shelves are not used in combination with a stanchion and a overhead.
- Shelves 48″(1219mm) or wider can only be used with Stanchion kits H, N, P and Q.
- Shelf must match width of stanchion kit.
- Separately specified Adaptable LED task light is designed to be attached to the underside of a hutch shelf.

To Order, Specify:

1) Product number, including:

❶ **Shelf Surface:**

- **L** Laminate
- **W** Wood

2) Laminate or Wood finish color.

3) Laminate edgeband color.

Feature

- Includes one overhead storage unit.

Specification Tips

- Overhead Storage Unit can be stanchion mounted on Beside Base Units or top mounted on a system panel; cannot be wall mounted.
- When designing with separately specified stanchion kit no shelves required directly under overhead.
- Maximum stacking with a base unit, a stanchion kit and an overhead unit not to exceed 58″(1473mm). Maximum stacking with a panel and an overhead storage unit not of exceed 66″(1676mm).
- Accepts separately specified lighting.
- Doors are not designed to be retrofitted.
- Separately specified if applicable:
  –Stanchion Kit (hardware included)
  –Panel attachment hardware
- Beside overhead storage unit can be off-modular mounted on separately specified Compose aluminum top trim (UZCC) and PREMISE (QNGB-0000-PZ).

Note: Attachment hardware is application specific. See Specification Guide.

To Order, Specify:

1) Product number, including:

❶ **Case Surface Option:**

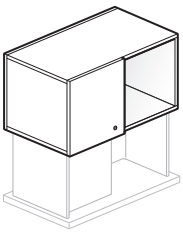
- **L** Laminate
- **W** Wood

2) Laminate or wood finish color.

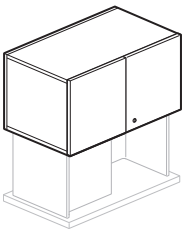
3) Laminate edgeband color.

Overhead Storage Unit — Hinged Doors — Laminate Case

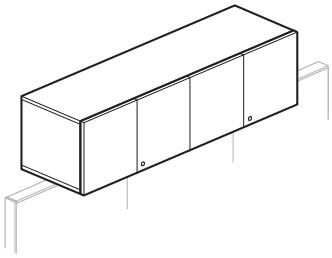
Single Sided



QUS1-XXXX-AXXNX
(Hinged Door left/Open Right)



QUS1-XXXX-CXXNX
(Full Hinged Doors)



QUS1-XXXX-CXXNX
(Full Hinged Doors)

Features

- Includes overhead unit with laminate case and hinged doors (steel, laminate or wood with touch latch).
- Hinged doors require field assembly.
- Locking (chrome only) and non-locking options available; refer to Lock Program Price List.

Specification Tips

- Overhead Storage Unit can be stanchion mounted on Beside Base Units or top mounted on a system panel; cannot be wall mounted.
- When designing with separately specified stanchion kits no shelves required directly under overhead.
- Maximum stacking with a base unit, a stanchion kit and an overhead unit not to exceed 58″(1473mm). Maximum stacking with a panel and an overhead storage unit not of exceed 66″(1676mm).
- Accepts separately specified lighting.
- Doors are not designed to be retrofitted.
- Separately specified if applicable:
  –Stanchion Kit (hardware included)
  –Panel attachment hardware
- Beside overhead storage unit can be off-modular mounted on separately specified Compose aluminum top trim (UZCC) and PREMISE (QNGB-0000-PZ).

Notes: Attachment hardware is application specific. See Specification Guide.

24″-42″(610mm-1067mm) Full hinge units have two doors and one lock if specified.

48″-72″(1219mm-1829mm) Full hinge units have four doors and two locks if specified.

To Order, Specify:

1) Product number, including:

❶ Door Material Option:

- **S** Steel
- **L** Laminate
- **W** Wood

❷ Lock Option:

- **L** Locking, add **$69.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case edgeband trim color.
4) Door material front color.
5) Door material front edgeband color with touch latch (laminate only).

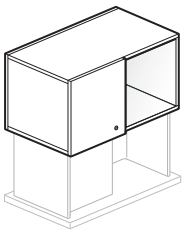
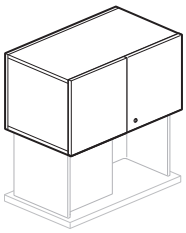
Overhead Storage Unit — Hinged Doors — Wood Case

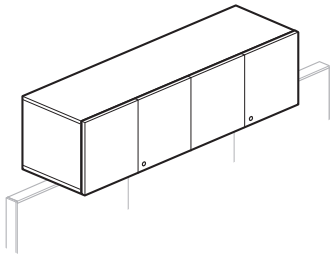
Single Sided



QUS1-XXXX-AXXNX
(Hinged Door left/Open Right)



QUS1-XXXX-CXXNX
(Full Hinged Doors)



QUS1-XXXX-CXXNX
(Full Hinged Doors)

Features

- Includes overhead unit with wood case and hinged doors (steel, laminate or wood with touch latch).
- Hinged doors require field assembly.
- Locking (chrome only) and non-locking options available; refer to Lock Program Price List.

Specification Tips

- Overhead Storage Unit can be stanchion mounted on Beside Base Units or top mounted on a system panel; cannot be wall mounted.
- When designing with separately specified stanchion kits no shelves required directly under overhead.
- Maximum stacking with a base unit, a stanchion kit and an overhead unit not to exceed 58″(1473mm). Maximum stacking with a panel and an overhead storage unit not of exceed 66″(1676mm).
- Accepts separately specified lighting.
- Doors are not designed to be retrofitted.
- Separately specified if applicable:
  –Stanchion Kit (hardware included)
  –Panel attachment hardware
- Beside overhead storage unit can be off-modular mounted on separately specified Compose aluminum top trim (UZCC) and PREMISE (QNGB-0000-PZ).

Notes: Attachment hardware is application specific. See Specification Guide.

24″-42″(610mm-1067mm) Full hinge units have two doors and one lock if specified.

48″-72″(1219mm-1829mm) Full hinge units have four doors and two locks if specified.

To Order, Specify:

1) Product number, including:

❶ Door Material Option:

- **S** Steel
- **L** Laminate
- **W** Wood

❷ Lock Option:

- **L** Locking, add **$69.00** list
- **N** Non-Locking

2) Case wood finish.

3) Door material front color.

4) Door material front edgeband color with touch latch (laminate only).

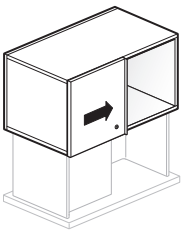
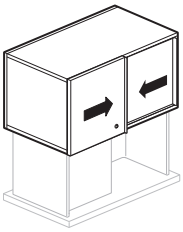
Overhead Storage Unit — Sliding Doors — Laminate Case

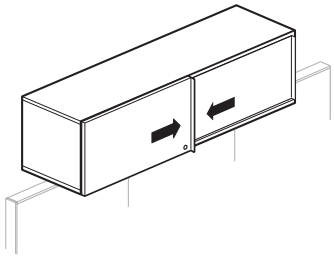
Single Sided



QUS1-XXXX-EXXVX
(When in the locked position, door is on left side of unit)



QUS1-XXXX-GXXVX
(Proud side door is in the left position - stanchion mounted)



QUS1-XXXX-GXXVX
(Proud side door is in the left position - panel mounted)

Features

- Includes overhead unit with laminate case and sliding door (steel, laminate or wood).
- Sliding doors require field assembly.
- Locking (chrome only) and non-locking options available; refer to Lock Program Price List.

Specification Tips

- Overhead Storage Unit can be stanchion mounted on Beside Base Units or top mounted on a system panel; cannot be wall mounted.
- When designing with separately specified stanchion kits no shelves required directly under overhead.
- Maximum stacking with a base unit, a stanchion kit and an overhead unit not to exceed 58″(1473mm). Maximum stacking with a panel and an overhead storage unit not of exceed 66″(1676mm).
- Accepts separately specified lighting.
- Doors are not designed to be retrofitted.
- Separately specified if applicable:
  –Stanchion Kit (hardware included)
  –Panel attachment hardware
- Beside overhead storage unit can be off-modular mounted on separately specified Compose aluminum top trim (UZCC) and PREMISE (QNGB-0000-PZ).

Note: Attachment hardware is application specific. See Specification Guide.

To Order, Specify:

1) Product number, including:

❶ Door Material Option:

- **S** Steel
- **L** Laminate
- **W** Wood

❷ Lock Option:

- **L** Locking, add **$69.00** list
- **N** Non-Locking

2) Case laminate color.
3) Case edgeband trim color.
4) Door material front color.
5) Door material front edgeband color (laminate only).
6) Pull trim color.

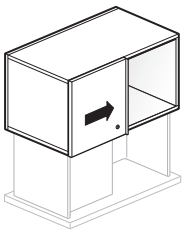
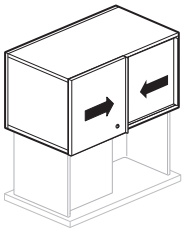
Overhead Storage Unit — Sliding Doors — Wood Case

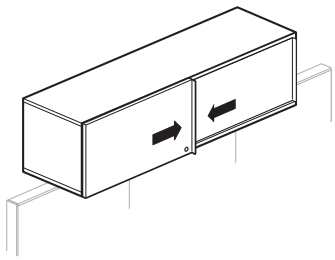
Single Sided



QUS1-XXXX-EXXVX
(When in the locked position, door is on left side of unit)



QUS1-XXXX-GXXVX
(Proud side door is in the left position - stanchion mounted)



QUS1-XXXX-GXXVX
(Proud side door is in the left position - panel mounted)

Features

- Includes overhead unit with wood case and sliding door (steel, laminate or wood).
- Sliding doors require field assembly.
- Locking (chrome only) and non-locking options available; refer to Lock Program Price List.

Specification Tips

- Overhead Storage Unit can be stanchion mounted on Beside Base Units or top mounted on a system panel; cannot be wall mounted.
- When designing with separately specified stanchion kit no shelves required directly under overhead.
- Maximum stacking with a base unit, a stanchion kit and an overhead unit not to exceed 58″(1473mm). Maximum stacking with a panel and an overhead storage unit not of exceed 66″(1676mm).
- Accepts separately specified lighting.
- Doors are not designed to be retrofitted.
- Separately specified if applicable:
  –Stanchion Kit (hardware included)
  –Panel attachment hardware
- Beside overhead storage unit can be off-modular mounted on separately specified Compose aluminum top trim (UZCC) and PREMISE (QNGB-0000-PZ).

Note: Attachment hardware is application specific. See Specification Guide.

To Order, Specify:

1) Product number, including:

❶ Door Material Option:

- **S** Steel
- **L** Laminate
- **W** Wood

❷ Lock Option:

- **L** Locking, add **$69.00** list
- **N** Non-Locking

2) Case wood color.
3) Door material front color.
4) Door material front edgeband color with touch latch (laminate only).
5) Pull trim color.

QUS2-XXXX-JXNNN
(Open right)

Features

- Includes one dual sided open overhead with laminate or wood case and an opening on each side.

Specification Tips

- Overhead Storage Unit can be stanchion mounted on Beside Base Units or top mounted on a system panel; cannot be wall mounted.
- When designing with separately specified stanchion kits no shelves required directly under overhead.
- Maximum stacking with a base unit, a stanchion kit and an overhead unit not to exceed 58″(1473mm). Maximum stacking with a panel and an overhead storage unit not of exceed 66″(1676mm).
- Accepts separately specified lighting.
- Doors are not designed to be retrofitted.
- Separately specified if applicable:
  –Stanchion Kit (hardware included)
  –Panel attachment hardware
- Beside overhead storage unit can be off-modular mounted on separately specified Compose aluminum top trim (UZCC) and PREMISE (QNGB-0000-PZ).
- Designed to be used with shared back-to-back office applications.

Note: Attachment hardware is application specific. See Specification Guide.

To Order, Specify:

1) Product number, including:

❶ **Case Surface Option:**

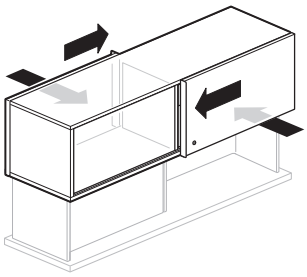
- **L** Laminate
- **W** Wood

2) Laminate or wood finish color.

3) Edgeband trim color.

Overhead Storage Unit — Sliding Doors — Laminate Case

Dual Sided



QUS2-XXXX-DXXVX
(When in a locked position,
the door is on the right side of the unit)

Features

- Includes overhead unit with laminate case and dual sliding doors (laminate, wood or steel).
- Doors are field assembled.
- Locking (chrome only) and non-locking options available; refer to Lock Program Price List.

Specification Tips

- Overhead Storage Unit can be stanchion mounted on Beside Base Units or top mounted on a system panel; cannot be wall mounted.
- When designing with separately specified stanchion kits no shelves required directly under overhead.
- Maximum stacking with a base unit, a stanchion kit and an overhead unit not to exceed 58″(1473mm). Maximum stacking with a panel and an overhead storage unit not of exceed 66″(1676mm).
- Accepts separately specified lighting.
- Doors are not designed to be retrofitted.
- Separately specified if applicable:
  –Stanchion Kit (hardware included)
  –Panel attachment hardware
- Beside overhead storage unit can be off-modular mounted on separately specified Compose aluminum top trim (UZCC) and PREMISE (QNGB-0000-PZ).
- Designed to be used with shared back-to-back office applications.

Note: Attachment hardware is application specific. See Specification Guide.

To Order, Specify:

1) Product number, including:

❶ Door Material Option:

- **L** Laminate
- **W** Wood
- **S** Steel

❷ Lock Option:

- **L** Locking, add **$69.00** list
- **N** Non-Locking

2) Case laminate finish color.
3) Case edgeband trim color.
4) Door material front color.
5) Door material front edgeband (laminate only).
6) Pull trim color.*

***Note:** **$5.00** upcharge for Metallic and accent Pull trim colors.

PREMISE — On Modular			
	QNGB-0000-PM	$205.00	$220.00

Features

- Includes brackets and attachment hardware.
- Use to center mount Beside overhead storage unit to Compose, UniGroup Too, and PREMISE Panel systems.

To Order, Specify:

1) Product number.
2) Trim color.

Specification Tips

- Order appropriate Top mount bracket.
- For trim lengths over 60″(1524mm) order two kits.
- PREMISE Off Modular and PREMISE on Modular Top Mount Bracket may be used with a monolithic panel or a stackable panel configuration.
- PREMISE Off Modular and PREMISE On Modular Top Mount Bracket **cannot** be used with 10″(254mm) stack pads or kits.
- PREMISE On Modular Top Mount Bracket installed in connector slots on same size panel or on a combination of panels which equal the width of the storage unit.
- For PREMISE Off Modular Top Mount Bracket used with a stackable panel: the panel must have a 16″(406mm) high structural fabric stack pad/kit with a structural cross bar. Structural cross bar must be at the top of the panel configuration.
- Foundation element must have a grooved cap top cap when using PREMISE Off Modular Top Mount Bracket.

  - **–Available in Brushed Aluminum, Textured White, Textured Black.**
  - –Arm rotates at Under Shelf attachment bracket.
  - –Slat Mount can be adjusted within the slat tile profiles.
  - –Flat Bracket is scratch-resistant.
  - **–Can be used on: Adaptable Upper Storage.**
- **Under Shelf Proud - Wood Casegoods:**
  - **–Available in Brushed Aluminum, Textured White, Textured Black.**
  - –Arm rotates at Under Shelf attachment bracket.
  - –Slat Mount can be adjusted within the slat tile profiles.
  - –Flat Bracket is scratch-resistant.
  - –Under Shelf Mount includes a 11″(279mm) flat bracket.
  - **–Can be used on: Wood Casegoods Vertical Storage Unit.**

To Order, Specify:

1) Product number.
2) Trim color:
   Textured White TR-L2
   Textured Black TR-L3
   Brushed Aluminum, TR-L1 add **$27.85** list

LIM Hardware

Base/Mount	Panel System	Units	Number	Price
Slat Mount Bracket		1	LLH1-0000	**$ 56.77**
Panel Mount Bracket	for PREMISE	1	LLH2-0000-N	**$ 56.77**
	for Compose	1	LLH2-0000-Z	**56.77**
	for UniGroup Too	1	LLH2-0000-E	**56.77**

Grommet Bracket		1	LLH5-0000	**29.99**
Wire Management Clips		10	LLH6-0000	**$ 71.76**

Features

- Hardware for use with LIM lights to provide additional attachment.
- Each bracket description correlates with the appropriate LIM light. Please specify accordingly.
- For use if greater user adjustment is required.
- Slat and Panel Mount available in Textured White and Textured Black.
- Under Shelf available in Textured White, Textured Black and Brushed Aluminum.
- Grommet bracket available in Textured White, Textured Black and Brushed Aluminum.
- Wire management clips are standard in White.

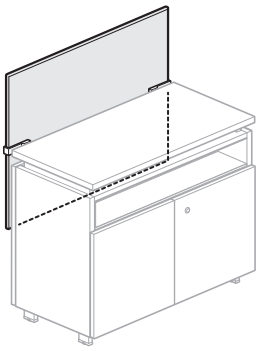
***Same brackets are used for Under Shelf Flat, Under Shelf Proud and Worksurface Mount C and Y LIM light applications.**

To Order, Specify:

1) Product number.
2) Trim color for brackets:
   Textured White TR-L2
   Textured Black TR-L3
   Brushed Aluminum, TR-L1 add **$27.85** list

Belong Screens

Screen — Back



SUFB

Features

- Includes screen and attachment hardware.
- Fabric surface is non-tackable.
- Laminate surface is high pressure laminate with 1mm edgeband.
- Wood surface is wood veneer surface with 1mm edgeband.
- Screen and brackets are field installed.

Specification Tips

- **Attaches to back of Reside Desking and most Adaptable Worksurfaces and Beside Storage.**
- **Designed for single sided applications.**
- Specify screen width to allow 12″(305mm) clearance for top feed applications.
- Screens are non-load bearing Screens can be specified to match width of component for any size.
- Screens with clear glass specified are clear above and below the Reside desking worksurface or storage unit.
- Screen mounting:
  –19″(483mm) High: 4.25″(108mm) above worksurface or Beside Lower Storage 13″(330mm) from bottom of worksurface to bottom of screen
  –27″ High: 12.25″(311mm) above worksurface; 13″(330mm) from bottom of worksurface to bottom of screen
- Screen Thickness:
  –Fabric, laminate, and wood – 0.56″(14mm)
  –Glass – 0.24″(6mm)
- Gap between screen and horizontal surface allows installation of Belong Tool Rail.
- Refer to Specification Guide for additional guidelines.

To Order, Specify:

1) Product number.
2) Surface Colors Options:
   Fabric:
   – Fabric Color
   Laminate:
   –Laminate Surface Color:
   –Edgeband trim color
   Wood:
   –Wood Finish Color
   Glass:
   –Glass Finish
   9T-1C Clear (Grade A)
   9T-E21 Satin Etched (Grade C)
3) Trim color for bracket.

Notes: **$2.08** upcharge list for Metallic and accent trim colors.

Premium laminate wood grain direction is vertical.

Belong Screens

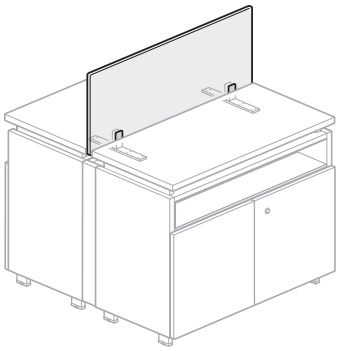
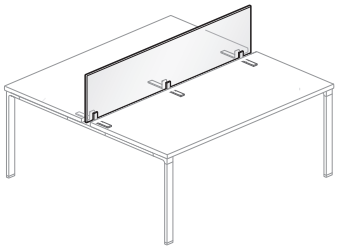
Screen — Center





SUPC

Features

- Includes screen and attachment hardware.
- Fabric surface is non-tackable.
- Laminate surface is high pressure laminate with 1mm edgeband.
- Wood surface is wood veneer surface with 1mm edgeband.
- Screen and brackets are field installed.

Specification Tips

- **Designed for center back-to-back Reside Desking worksurface and Beside Storage.**
- For ease of installation, it is required that center screen brackets are attached to only one of the two back-to-back Beside storage tops.
- Specify screen width to allow 12″(305mm) clearance for top feed applications.
- Screens can be specified to match width of component or screens can span multiple adjacent components.
- Screen Thickness:
  –Fabric, laminate, and wood – 0.56″(14mm)
  –Glass – 0.24″(6mm)
- Gap between screen and horizontal surface allows installation of Belong Tool Rail and Reside desking utility tray; 1.5″(38mm) clearance range.
- Screen is 12.25″(311mm) above worksurface top.
- Refer to Specification Guide for additional guidelines.
- Screens are designed to be used with Belong screen rail.

To Order, Specify:

1) Product number.
2) Surface Colors Options:
   Fabric:
   –Fabric Color
   Laminate:
   –Laminate Surface Color:
   –Edgeband trim color
   Wood:
   –Wood Finish Color
   Glass:
   –Glass Finish
   9T-1C Clear (Grade A)
   9T-E21 Satin Etched (Grade C)
3) Trim color for bracket.

Notes: **$2.08** upcharge list for Metallic and accent trim colors.
Premium laminate wood grain direction is vertical.

	60″(1524mm)		KUR1-1260-TMN	**421.82**	**440.20**

Features

- Includes one double sided rail with two posts, two rail end caps and attachment hardware.
- Mounts to horizontal surface to support rail tools.
- 1 3/16″(30mm) C-clamp Rail mounts on horizontal surfaces from 3/4″(19mm) to 1 3/4″(44mm) thick.
- Thru-mount Rail mounts on 1 3/16″(30mm) thick horizontal surfaces.
- Posts are 1 1/4″(32mm) thick.
- Belong Rail tools separately specified.
- Belong Work Tools or JumpStuff Slat Pad Tools may be used; separately specified.
- Rail overall height above horizontal surface: 11 13/16″(300mm).
- Distance between rail bottom and top of horizontal surface: 7 7/16″(189mm).
- Ships unassembled.

Specification Tips

- Designed for single sided Reside desking and single sided benching applications or Beside base units.
- **Not designed to be used in front of panel mounted accessories (tackboard, markerboard).**
- For ease of installation, it is required that tool rail posts are attached to Beside storage top prior to attaching storage top to base unit.
- Tool Rail supports a maximum load of 40 pounds evenly distributed on user side.
- If supporting two monitor arms (up to 13 pounds each); an additional C-clamp or thru-mount post is recommended.
- Rail may be installed off modular.
- Heavy load application; additional posts can be ordered.
- Monitor arm cannot be mounted in post positions.
- Thru-mount post can be attached flush to back edge of horizontal surface.
- C-clamp rail can be attached to panel mounted horizontal surface with notch or radius wireways without removing the horizontal surface.
- Under horizontal surface: 4″(102mm) of clearance is necessary between back of horizontal surface and adjacent component for clamp attachment.
- Gap between screen and horizontal surface allows installation of Belong Tool Rail.
- Utility tray provides clearance for installation of Belong Tool Rail.
- Refer to Specification Guide for planning rules.

Note: No more than 6″(152mm) of rail can be extended beyond outside of support.

To Order, Specify:

1) Product number.
2) Trim color for rail/post.
3) Trim color for rail end caps:
   TR-K Charcoal
   TR-J Graphite
   TR-FM Snow

2″(51mm) Thick Top				
7 1/2″(191mm)	Thru-mount	KUP1-0000-TMN	**$82.20**	**$88.69**

Features

- Includes one C-clamp or one Thru-mount Post and attachment hardware.
- Posts mount on horizontal surfaces 1 13/16″-2″(46mm-51mm) thick.
- Posts are 1 1/4″(32mm) thick.

Specification Tips

- For ease of installation, it is required that tool rail post is attached to Beside storage top prior to attaching storage top to base unit.
- Posts supports slide along rail bottom groove.
- For use with C-clamp or Thru-mount tool rail only.
- Monitor arm cannot be mounted in post position.
- Extra single posts can be ordered when additional support for monitor arms and paper management are attached to Tool Rail.
- Refer to Specification Guide for planning rules.

To Order, Specify:

1) Product number.
2) Trim color.

Belong Work Tools Mounting Rails

	66″(1676mm)	KUR1-1266-USN	**445.60**	**466.14**
	72″(1829mm)	KUR1-1272-USN	**469.38**	**489.92**
	78″(1981mm)	KUR1-1278-USN	**493.16**	**514.78**
	84″(2134mm)	KUR1-1284-USN	**516.94**	**539.64**
	90″(2286mm)	KUR1-1290-USN	**540.72**	**564.50**
	96″(2438mm)	KUR1-1296-USN	**564.50**	**589.36**

Features

- One double sided rail with two or three posts, two rail end caps and attachment brackets.
- Rails 66″-96″(1676mm-2438mm) include three posts.
- L-bracket mounts under 1 3/16″(30mm) thick horizontal surface to support rail tools on both sides.
- Belong Work Tools or JumpStuff Slat Pad Tools may be used; separately specified.
- Rail overall height above horizontal surface: 11 3/16″(284mm).
- Distance between rail bottom and top of horizontal surface: 7 7/16″(189mm).
- Post is 1 1/4″(32mm) thick.
- Ships unassembled.

Specification Tips

- **Rail with L-bracket or shared bracket mount can only be used in non-panel applications.**
- **Designed for single sided Reside desking and single sided benching applications or Beside base unit.**
- Tool Rail supports a maximum load of 40 pounds (18.14kg) evenly distributed on user side or supports two monitor arms up to 13 pounds each; additional L-bracket mount post recommended.
- For use with one Beside base unit or back-to-back base units; L-Bracket Tool Rail is double sided to accommodate Belong work tool accessories on both sides.
- For back-to-back Beside base unit applications, one or two L-Bracket tool rail(s) may be used:
  - –One L-Bracket tool rail may be used between base units which results in an aesthetically unbalanced tool rail condition. Both users share a single tool rail. L-Brackets are attached to only one of the two back-to-back Beside storage tops. (Note: KUR2-USN Under Worksurface Mount T-Bracket is not recommended for use with back-to-back base units due to installation issues.)
  - –Two back-to-back L-Bracket tool rails may be used between base units for an aesthetically balanced tool rail condition.
  - –For a single tool rail application, a 2.8″(71mm) deep filler panel may be used to fill gap between back-to-back units.
  - –For two back-to-back tool rails, a 5.1″(130mm) deep filler panel may be used to fill gap between back-to-back base units.
- Tool Rail should be specified 6″(152mm) shorter than screen if both are specified.
- Can be installed off modular.
- Under horizontal surface: 4″(102mm) of clearance is necessary between back of horizontal surface and adjacent component for flat bracket attachment.
- Heavy load application; additional posts can be ordered.
- Monitor arm cannot be mounted in post positions.
- Gap between screen and horizontal surface allows installation of Belong Tool Rail.
- Utility tray provides clearance for installation of Belong Tool Rail.
- Refer to Specification Guide for planning rules.
- Posts mount flush to back edge of horizontal surface.

Note: No more than 6″(152mm) of rail can be extended beyond outside of support.

To Order, Specify:

1) Product number.
2) Trim color for rail/post.
3) Trim color for rail end caps:
   TR-K Charcoal
   TR-J Graphite
   TR-FM Snow

Belong Work Tools Mounting Rails

	96″(2438mm)		KUR1-1296-USE	**564.50**	**589.36**

Features

- One single sided tool rail with one or two posts, one rail end cap and attachment brackets.
- Tool Rails 66″-96″ includes two posts.
- Mounts under 1 3/16″(30mm) thick horizontal surface to support rail tools.
- Belong Work Tools or JumpStuff Slat Pad Tools may be used; separately specified.
- Tool rail overall height above horizontal surface: 11 3/16″(284mm).
- Distance between tool rail bottom and top of horizontal surface: 7 7/16″(189mm).
- Post is 1 1/4″(32mm) thick.
- Ships unassembled.

Specification Tips

- **Designed for Reside Single Sided Continuous Benching or Beside continuous storage applications only.**
- **For use with another tool rail end or internal tool rail; internal benching single post must be specified.**
- **Tool Rail supports maximum of 40 pounds(18.14kg) evenly distributed on one side.**
- **For continuous benching application, two monitor arms up to 13 pounds each side, requires additional post.**
- **Tool Rail should be specified 6″ shorter than screen if both are specified.**
- Can be installed off modular.
- Under horizontal surface: 4″(102mm) of clearance is necessary between back of horizontal surface and pedestal for flat bracket attachment.
- Gap between screen and horizontal surface allows installation of Belong Tool Rail.
- Utility tray provides clearance for installation of Belong Tool Rail.
- Refer to Specification Guide for planning rules.

Note: No more than 6″(152mm) of rail can be extended beyond outside of support.

To Order, Specify:

1) Product number.
2) Trim color for tool rail/post.
3) Trim color for tool rail end cap:

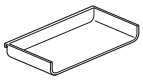
Mini Shelf

Height	Depth	Width	Number	Price
1″(25mm)	4″(102mm)	8″(203mm)	KUSH-0408-H	**$19.47**



KUSH-0408-H

Features

- Includes one plastic shelf.
- Mini shelf mounts on:
  - –Belong rail
  - –Belong slat tile
  - –Beside stanchion
  - –Open C Cubby with slots

To Order, Specify:

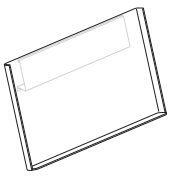
1) Product number.
2) Trim color.
   TR-K Charcoal
   TR-FM Snow

Note: Snow (TR-FM) plastic trim color is not recommended for use with painted trim colors Plaster (TR-TW) or Chalk (TR-AK). Refer to Very® Seating chainset for Snow.

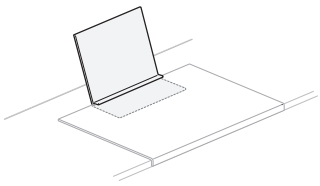
Reference Shelves

Height	Width	Description	Number	Trim A	Trim B
11 1/4″(286mm)	9 7/8″(251mm)	Reference — Small	KURS-0010-H	**$54.08**	**$59.49**
	18 1/2″(470mm)	Reference — Large	KURS-0019-H	**81.12**	**86.53**
9 7/8″(251mm)	11 5/8″(295mm)	Blotter Reference Shelf	KURS-0012-B	**$54.08**	**$59.49**

KURS-0010-H



KURS-0019-H



KURS-0012-B

Features

- Includes one metal reference shelf
- Large and small reference shelves mount on:
  - –Belong rail
  - –Belong slat tile
  - –Beside stanchion
  - –Open C Cubby with slots
- Blotter Reference Shelf slides under blotter for support.

Specification Tips

- In installed position large and small referencing shelves are 0.88″(22mm) high and 4.3″(109mm) deep.
- Reference shelf lip is 1.375″(35mm) deep.

To Order, Specify:

1) Product number.
2) Trim color.

Preferred Finishes

These surface materials were selected to support the design intent of the products.

COM Yardage Requirements

Procedure

To confirm approval of or request new approval for COM's, contact the **Haworth Inquiry Center (1.800.426.8562), or http://hub.Haworth.com, or www.haworth.com > surface collection > COM Library** to determine if the COM you have selected has already been tested and approved for use on our product.

If the fabric is approved, and the directional orientation (directional rightway, directional railroad, or non-directional) of the tested fabric has been confirmed, then refer to the appropriate column in the chart for yardage requirements.

Steps to follow to calculate fabric usage:

1) Identify product type and size.
2) Determine method in which fabric is to be cut (directional rightway, directional railroad or non-directional).
3) Determine fabric roll width.
4) Find corresponding fabric usage value from the table.
5) Calculate fabric required using the formula below:
   Fabric usage = number of units x number of sides with fabric x fabric usage (from tables) + C (constant).

Constant — Compose®, PREMISE®, PLACES® and UniGroup®

Product	C
Panels	2.5
Tackboards, Tackstrips	1.5
OSUs and Flipper Doors	1.5
LFBs and VSUs	1.5
Trim Covers (Finish Post, End of Run)	1.5
Stackable Pads	1.5
Add-ons and Wainscot Panels	1.5

Constant — RACE®

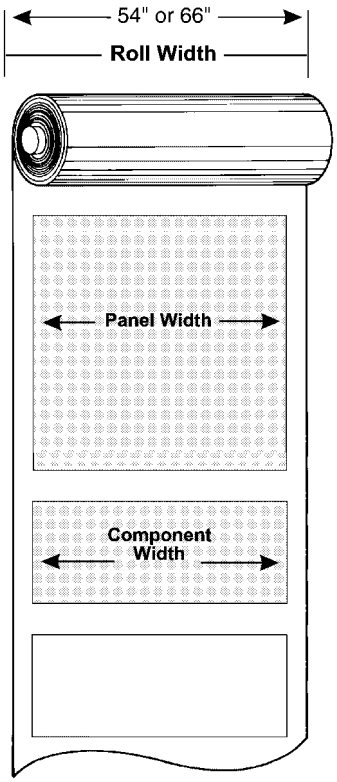
Product	C
Desktop Screens	1.5
RACE Privacy Screens*	0.0
RACE Pads	0.0

*Includes fabric for both sides. Sizes 51″-78″ include two screens.

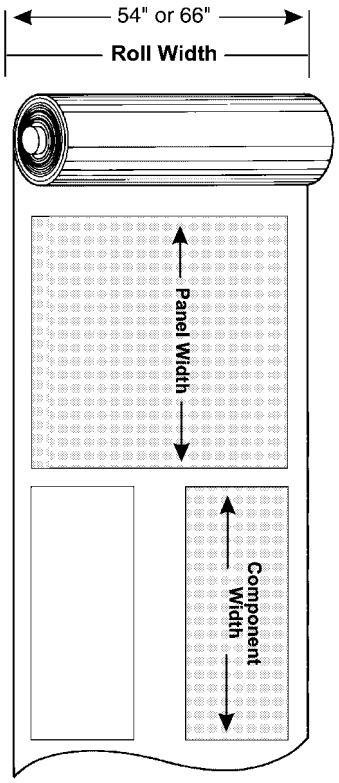
6) Repeat steps 1-5 for each product type, size and fabric.
7) Add all values together to find total number of linear yards required for the order. Add the appropriate percentage shown below to the total yardage to accommodate fabric flaws, wrinkles and other imperfections.

Up to 500 yards	Add 10%
501 to 1000 yards	Add 5%
More than 1000 yards	Add 3%

Directional Rightway:



Directional Railroad:



Non-Directional:

North American Terms of Sale

These Terms of Sale are part of a quotation, bid response, or other sales document issued by Haworth, Inc., Haworth, Ltd. ("Haworth").

These Terms of Sale do not cover products manufactured in North America shipping to non-North American countries nor do they cover products manufactured in non-North American countries shipping to North America. For those terms of sale, please contact Haworth's Global Trade and Compliance Department at 616.393.3000 or through Haworth.com.

A. Ordering Information

Haworth sells its products on the terms set forth in these standard Terms of Sale:

ORDERS MUST BE SUBMITTED IN WRITING OR ELECTRONICALLY (Lynx) AS REPRESENTED BY A VALID PURCHASE ORDER, WHICH INCLUDES PRODUCT TOTAL.

An order is not binding upon Haworth until Haworth issues an order acknowledgment to the customer (the "Customer"), which will include price information and an anticipated delivery date.

1. Order Changes/Cancellations

For Specials, Customer's Own Material (C.O.M.), finish matches, custom colors, custom products, Master lock and key orders, and RUSH orders, no changes or cancellations are allowed 24 hours after order placement. All other products require approval for changes or cancellations. A change/cancellation fee may apply. Contact Order Services for applicable charges.

Ship-to addresses changed within five (5) business days of delivery will incur fees to cover administrative costs due to re-labeling of product and/or reconsignment fees with the carrier.

Order cancellations are complete annulments of orders. Order changes are the deletion of line items or a change in size, color, quantity, ship-to address, or scope of work. There is no penalty for additions; however, any change may cause the order or the line items affected to be rescheduled. Order changes involving additional product and services which increase the value must be accompanied by an amended Purchase Order or other document as agreed.

ALL CHANGES MUST BE IN WRITING, REGARDLESS OF THE (DOLLAR) VALUE. CHANGES ARE NOT BINDING UPON HAWORTH UNTIL HAWORTH ISSUES AN ACKNOWLEDGMENT OF THE CHANGE.

2. C.O.M. (Customer's Own Material)

A Customer who requests a fabric, surface or finish material (C.O.M.) not in Haworth's standard finish offering must first confirm approval of or request new approval for the C.O.M.

Haworth will determine feasibility of the material for manufacturability. For a description of the procedure to submit C.O.M. samples, contact Haworth's Order Services department. For testing information, see the C.O.M. section of the catalog, or call Haworth Order Services.

If Haworth agrees to use the C.O.M., (1) Haworth shall have no responsibility for the condition, quality, value, performance, physical properties, or any other aspect of the C.O.M.; and (2) Haworth shall have no liability for any damages, injuries, or losses to the Customer or to any third party that shall be caused by any C.O.M., and the Customer shall hold Haworth harmless for all such liability.

3. Valid/Complete Purchase Order

The following information is required in order to process an order with Haworth:

a. Customer Information

i. **Sold To:** Legal name, complete address (if Haworth is to bill the end user, provide end user Purchase Order made out to Haworth, Inc., Haworth, Ltd.) and phone and fax number.

ii. **Ship To:** Legal name and address.

iii. **Purchase Order Number:** From the party Haworth will be billing.

iv. **Authorized Signature:** All Purchase Orders must be signed by a duly authorized representative if a signature line is present. Electronically transmitted Purchase Orders will be accepted without a signature if dealer billed and the dealer has an electronic purchase payment agreement on file.

v. **Contact Name and Phone Number:** Person Haworth should contact with any questions regarding the order.

vi. **Shipping Contact:** Name and phone number of person to be contacted regarding shipping and delivery matters.

vii. **Tagging Instructions:** This information will appear on all documentation received from Haworth including: cartons, acknowledgments, and invoices.

viii. **Price Agreement or National Sales Agreement Number**

ix. **Product Total:** Net dollars.

x. **Installation, Design, Project Management, and/or Service Fees**

b. Product Information

i. **Quantity**

ii. **Product Numbers**

iii. **Colors**

iv. **Specials:** Specify special part number for new special products.

v. **Customer's Own Material:** Order entry code, manufacturer, pattern, and color.

vi. **Approval Drawings:** An authorized signature by a duly authorized representative is required for shop drawings when applicable.

vii. A deposit may be required for custom materials.

c. Order Confirmation

All orders will be acknowledged.

B. Pricing Policies

1. Terms of Payment

Terms of payment and credit limits will be established based on financial information. Standard payment terms on open credit are net thirty (30) days from invoice date. Advance payments or other payment security may be required by Haworth. The account balance must be at or below the credit limit and current at all times (no past-due balances). Haworth reserves the right to delay or cancel any delivery to a Customer whose Haworth account balance is over the credit limit and/or past due. For walls and floors a deposit will be required.

2. Terms of Credit

Customer hereby authorizes Haworth to obtain such credit reports, financial information or other information as Haworth may request, including, without limitation, credit information from any financial institutions or others having a business relationship with the Customer. Customer hereby authorizes any credit references to answer Haworth's inquiries and provide such credit information and documentation as Haworth may request.

The Customer hereby releases and holds Haworth harmless for any inconvenience whatsoever, caused by any temporary or permanent withdrawal or restriction of credit privileges hereunder, or the enforcement of any of the provisions contained in this paragraph.

3. Past-Due Charges

Past-due balances will be increased by a maximum of 1.5% per month, or 18% annually, without forfeit of Haworth's right to immediate payment.

4. Applicable Prices

The price of any product sold to Customer by Haworth will be based upon the North American Price List (Catalog).

Prices and discounts are subject to change without notice or approval. In the event of an adjustment to pricing, National Sales Agreement (NSA) Customers will be notified in advance according to the terms of the NSA.

Applicable prices and currency exchange rates are those in effect at the time of the RECEIPT of an **ORDER**; Haworth reserves the right to use the published pricing effective at the time of shipment, if the requested delivery date is more than 120 days after the order receipt date.

North American Terms of Sale

Haworth Flooring products are sold using the North American price list in US dollars. Currency exchange rates at the time of the transaction will be used to convert the USD amount into the alternate currency. Should the currency exchange rate between the USD and alternate currency change between a quote and the receipt of an order, the alternate currency amount will also change to equal the current, equivalent USD amount.

5. C.O.M. (Customer's Own Material) Charges

Refer to appropriate Customer's Own Material (C.O.M.) form for applicable surface material charges.

6. Taxes

Haworth prices do not include customs duty, sales, use, value added or similar taxes. Any federal, state/provincial or other taxes or assessments based upon the sale or delivery of products or services sold applicable to the customer at present or later imposed by federal, state/provincial or municipal agencies, shall be added and paid by the customer. Customer is responsible for all such taxes.

NOTE: For all countries a valid sales tax exemption certificate must be approved by and on file with Haworth prior to product shipment. Otherwise, sales tax will be due and payable to Haworth when such tax is invoiced to Customer.

7. Services

If, as a result of Customer request, the Haworth dealer or Haworth subsidiary provides planning/design services, storage, project management, special handling, set-up, installation and/or other services, the Customer will be charged at the local Haworth dealer/subsidiary's prevailing rates.

8. Termination by Haworth

Haworth may immediately terminate an order upon written notice in the event bankruptcy or insolvency proceedings are instituted by or against the Customer, or the Customer is adjudicated as bankrupt, becomes insolvent, makes an assignment for the benefit of creditors, or proposes or makes any arrangements for the liquidation of its debts, or a receiver or receiver and manager is appointed with respect to all or any part of the assets of the Customer.

C. Shipping and Delivery

Haworth will have the right to determine the method of shipment and routing of product.

This section does not apply to any of Haworth's Flooring products. All Haworth Flooring products are sold freight collect.

If, for any reason, a delivery has to be made to an intermediate location (i.e. a location other than the "Ship To" location noted on the order or ultimate end user location), all handling and re-delivery costs incurred would be at the Customer's expense.

1. U.S.A. - Contiguous

All deliveries will be CPT (Carriage Paid To) (ICC Incoterms 2010) Haworth's manufacturing facilities or distribution centers. Freight charges will be prepaid by Haworth on all orders to locations within the continental United States. Customer bears all risk of loss or damage to the goods when they are placed on Haworth's means of transport.

2. U.S.A. - Non-contiguous (Alaska, Hawaii and Puerto Rico)

All deliveries will be CIF (Cost, Insurance and Freight) (ICC Incoterms 2010). Haworth's catalog prices include ocean freight and insurance to the port of the final destination. Haworth has the right to determine the carrier, method of shipment and routing. Haworth will contract with the insurer and provide minimal insurance coverage (CIF @ 110%) made payable to the Customer. Customer is responsible to obtain greater insurance if so desired.

Customer bears all risk of loss or damage to the goods when the goods are effectively at the disposal of the Customer on board the vessel at the named port of destination. Proof of delivery is a clean on board bill of lading. Customer will be responsible for all on-carriage from the receiving port to the final destination.

3. Canada

All deliveries will be DDP (Delivered Duty Paid) (ICC Incoterms 2010). Haworth's catalog prices include delivery to Customer's named place, not unloaded from any arriving means of transport. Customer bears all risk of loss or damage to the goods when they are delivered to the Customer's named facility not unloaded. Haworth will assume responsibility to file all freight claims with the carrier for any loss/damage which may occur while product is in transit, and will promptly repair or replace any damaged or lost product. Haworth requires the Customer to report all freight damage and/or loss to both the carrier and to Haworth.

NOTE: Under all delivery terms (U.S.A. and Canada), any additional expense resulting from Customer's request for expedited transportation, special services, packaging, handling, routing, and/or shipping method will be billed to Customer.

4. Mexico

All deliveries will be DAP (Delivered to Place) (ICC Incoterms 2010). Haworth's catalog prices include freight charges for normal surface transportation to a United States point of exportation within the 48 contiguous states. Haworth has the right to determine the carrier, method of shipment and routing.

Customer bears all risk of loss or damage to the goods when the goods are delivered to the named United States point of exportation. Haworth will provide customs clearance facilitation and arrangement of local delivery through an Authorized Dealer in Mexico, on a separately negotiated basis. Otherwise the Customer will be responsible for all customs clearance formalities and on-carriage from the United States point of exportation to the final destination in Mexico.

5. Delivery Dates and Delay

If Haworth cannot deliver products as scheduled due to causes beyond its reasonable control (such as casualty, labor disputes, or accident; inability to obtain necessary labor, material or transportation; or changes requested by the Customer), the delivery date will be extended to compensate for the delay as determined by Haworth.

6. Delivery Shortages and Damage

Product shortages and damage must be noted on delivery receipts at the time of delivery and reported to the carrier for correction.

Claims against Haworth for shortages, errors, or damage must be made within ten (10) days of the date of delivery or the Customer waives the right to make such a claim. Signed Bill of Ladings or Delivery Receipt must be sent in with claims. See the Haworth/Haworth Dealers Roles and Responsibilities document for further details.

7. Storage

Haworth may transfer product to storage at the Customer's risk and expense if the Customer is unable or unwilling to take delivery of product as originally scheduled. Upon such transfer to storage, the Customer assumes risk of loss. Haworth will invoice the Customer for storage fees and the Customer will make payments in accordance with Haworth's standard payment terms.

North American Terms of Sale

D. General Terms

1. Governing Law

For products purchased for delivery in the U.S. pursuant hereto, this Agreement shall be governed by and construed according to the laws of the State of Michigan. Where Products are purchased for delivery in Canada pursuant hereto, this Agreement shall be governed by and construed according to the laws of the Province of Alberta. In either case, the parties attorn to the exclusive jurisdiction of the courts of Michigan and Alberta, respectively for the purpose of hearing any disputes arising under this Agreement or with respect to any Products sold pursuant hereto, and agree that the provisions of the United Nations Convention on Contracts for the International Sale of Goods and any other provision or law which would have the effect of applying the laws of any jurisdiction other than Michigan or Alberta, as the case may be, shall be excluded.

2. Force Majeure

In the event that the performance of Customer or Haworth or its participating dealer assignee(s) would be prevented, restricted, interfered with or rendered commercially impracticable by reason of Force Majeure, then upon the giving of notice to the other parties, the party affected by the Force Majeure shall be excused from performing hereunder until the Force Majeure no longer prevents, restricts, interferes with, or renders such performance commercially impracticable.

"Force Majeure" shall mean: fire, explosion, breakdown of plant, epidemic, hailstorm, snow/ice storms en route, hurricane, tornado, cyclone, flood or power failure; war, revolution, civil or military disturbances, acts of public enemies, acts of terrorism, blockade or embargo; any law, order, proclamation, regulation, ordinance, demand or requirement of any applicable governmental authority or any subdivision, authority, or representative of any such government; labor difficulties, including without limitation, strikes, slowdowns, picketing or boycotts; or difficulties beyond Haworth's reasonable control in obtaining necessary raw materials, labor, fuels and electric power, components or facilities, and any other circumstances beyond the control of the party affected.

3. Delays by Customer

Where Haworth has not received adequate site dimensions, Product specifications, shipping information, installation particulars or other information required by Haworth to permit the efficient manufacture of any Products, or where site conditions are not in accordance with the Installation Requirements set forth, or are not otherwise suitable to permit effective and efficient installation, the manufacture and/or delivery of Products may be delayed, and such event shall constitute a delay by the Customer. When manufacture, delivery or installation is delayed by the Customer or at the Customer's request: (i) Haworth may, at its option, present the invoice for the full price of the Products to the Customer as then due and payable; (ii) the Customer shall pay to Haworth all reasonable storage, handling and other reasonable incidental expenses incurred by Haworth in connection with such delay; and (iii) the Customer shall bear all risk of loss or damage to the Products being held by Haworth for the Customer.

4. Use and Installation of Products

Haworth recommends that its products be installed by certified, qualified and approved installers according to Haworth's written installation procedures. The Customer agrees to use Haworth products properly; not to remove or alter safety devices, warnings, or operation instructions placed on products by Haworth, and to instruct employees as to the proper care and use of the products according to printed instructions.

5. Warranty

Haworth's standard North American Warranty will apply as appropriate. All product line warranty specifics are available in each catalog or upon request.

E. Services

Service requests for design, installation, relocation, storage, etc. are handled by the local Haworth dealer on a separately negotiated basis. Contact the local Haworth dealer, affiliate or area sales office for more details.

Scope of Work - Design

Customer acknowledges that the Products to be manufactured or procured by Haworth in connection with the order are or may be custom manufactured for the Customer and that Haworth may be required to perform extensive work in relation to the design and specification of such Products. Where Customer requests that Haworth create as-built drawings or make more than two material revisions to any particular Product design or specification, Customer agrees that Haworth shall be entitled to invoice Customer with respect to such additional work on the basis of Haworth's then prevailing rates for related design and specification services.

Installation Requirements

Where installation services are to be provided by Haworth, its authorized dealer or subcontractor, a document will be provided setting forth the scope of installation work to be performed (the "Scope of Work") and the price to be charged therefore. Unless otherwise specified in the scope of work, Haworth's installation services are limited to products sold by Haworth with the exception of lighting, under floor electrical and data.

General Conditions

(a) Sufficient time shall be allocated by the Customer following delivery of Products and prior to Customer's occupation of the premises to allow the installation of all Products during conventional working hours, Monday through Friday, 7:30 a.m. to 4:30 p.m. Where sufficient time is not allocated and Haworth is required or requested to perform installation work outside of such times, overtime charges shall be charged at Haworth's then prevailing rates. (b) Haworth shall be given free and exclusive access to; (i) a loading dock within 150′ of the freight elevator or hoist, which loading dock shall be of sufficient size to enable full-size tractor-trailer deliveries to the premises (where required by Haworth); (ii) a freight elevator or hoist of sufficient size and capacity to allow the efficient movement of the Products; (iii) an unobstructed and safe pathway to the area where Products are to be stored or staged; (iv) a secure storage / staging area; (v) convenient trash facilities; (vi) adequate lighting; (vii) a work site that complies with applicable health and safety legislation. Where such areas and facilities are not available, Haworth shall be entitled to bill Customer for all amounts incurred by Haworth for double-handling, product movement, lifting, hoisting, trash removal and any other resulting charges. (c) The installation site shall be free and clear of existing furniture, debris, or other obstructions (including construction in progress) and shall otherwise be in the reasonable opinion of Haworth ready for installation of the Products. Any building where Products are to be installed shall be fully closed in, dry and protected from the natural elements, with temperatures between 40°F and 90°F (4°C and 32°C) and relative humidity not to exceed 70% at all times including receipt of products, during and after installation and shall be adequately heated and/or air-conditioned. Where unusual site conditions exist which impede or prevent the normal installation of any Products, applicable extra charges shall apply at prevailing rates. (d) Haworth's installation pricing is based upon the installation occurring as one continuous delivery and installation project. Phased installation pricing shall be provided by Haworth on a case by case basis. (e) Electrical hardwiring, plumbing and mechanical work is not included and shall be the responsibility of the Customer. (f) Except as may be otherwise specifically indicated, installation pricing does not apply to projects where union labor is required. Where Haworth has provided installation pricing on the basis that non-union labor be utilized, and where Haworth is required to use union labor or it otherwise becomes impractical to use non-union labor, or where Haworth is required by law to use prevailing wages, Haworth shall be entitled to charge the Customer for any cost differential between the anticipated cost of non-union labor and the actual cost of utilizing union or prevailing wage labor. (g) Haworth shall not be responsible for obtaining permits.

North American Terms of Sale

Project / Site Conditions

Lateral load bracing is not included in the scope of Haworth's work and shall not be performed by Haworth. In areas where flooring Products are to be installed by Haworth overhead construction must be completed prior to the commencement of such work to avoid damage to the panels and finishes. The existing subfloor must be smooth, mopped clean, free of moisture, dust, dirt and debris. Once installed, the access floor must be maintained in the same manner. The subfloor must have a maximum vertical elevation deviation of 0.375″ (10mm) over a horizontal span of 10′-0″ (3m), and without discontinuities in floor slope. For greater certainty, the scope of Haworth's installation work in such areas shall not be deemed to include any work required to level such subfloor, remove protrusions, remove pre-existing floor coverings or adhesives, or any other work which is required to remedy any conditions which may impede the efficient installation of flooring. Except as may be otherwise specifically indicated in the order, installation pricing for flooring Products and the Scope of Work in relation thereto shall not include any work required to remove and replace floor panels following their initial installation to provide tradespersons or others with access to the underpanel cable management cavity. In areas where movable walls are to be installed, all flooring (including carpeting) and ceiling components (including dropped ceiling grid components) shall be fully complete and ready for the installation of the movable wall products. Further, the existing floor (or other surface on which the movable wall panels are to be installed) shall have a maximum vertical deviation of 1.25″ (30mm) and the dropped ceiling grid shall have a maximum vertical deviation of 0.375″ (10mm) from the specifications to which such movable wall panels were designed and manufactured (collectively the "Permitted Tolerances"), and shall otherwise comply with any site condition assumptions made known to Haworth prior to the manufacture of such Products (the "Site Assumptions"). Where the Permitted Tolerances or Site Assumptions are not strictly adhered to or met, additional charges may be incurred in connection with site remediation and/or the modification or remanufacture of affected movable wall products, together with all resulting shipping and labor charges at Haworth's then prevailing rates for such Products and services.

Installation Change Orders

Where Customer requests work to be performed or materials to be provided which are not contemplated in the Scope of Work, or Customer otherwise requests Products or services not contemplated in the order (collectively "Extras"), prior to providing such Extras Haworth reserves the right to require the Customer to provide and sign a written Purchase Order or Change Order acceptable to Haworth describing the Extras and the amounts to be charged therefore, and the Customer agrees to pay such charges.

Entire Agreement

The order and this Agreement (including applicable Schedules) constitute the sole agreement between the parties and supercede any prior understanding or written or oral agreements between the parties (excluding National Sales Agreements). No waiver of any of the provisions of these Standard Terms and Conditions shall be binding on Haworth unless expressly agreed in writing.

PRODUCT NON-OBSOLESCENCE AND WARRANTY POLICY

This North American Haworth Product Non-Obsolescence and Warranty Policy (the "policy") applies to products manufactured after May 8, 2015. For products manufactured before this date please refer to the policy published in the NA Price List when purchased or contact your local Authorized Haworth Dealer. All Haworth products are warranted for 24 hour / 7 day use over the length of the Applicable Warranty Period as set forth below.

Haworth, Inc. or Haworth, Ltd., (each called "Haworth") will make a good faith effort to maintain product compatibility within our various generations of integrated product platforms to provide our customers with spaces that adapt to change. Under our non-obsolescence policy, we commit to provide our customers with products of comparable function or operational characteristics for a term equal to the Applicable Warranty Period. Haworth fabrics and finishes must be updated periodically to maintain the market appeal of our products and respond to the demands and changing preferences of our customers. As a result, we or the manufacturer may discontinue some fabrics and finishes before expiration of the Applicable Warranty Period.

If a new product purchased or leased from Haworth or from an Authorized Haworth Dealer proves to be defective (as defined below) while the product is still in the possession of the initial purchaser or lessee and if they, within the Applicable Warranty Period, inform Haworth of the defect by contacting the local Authorized Haworth Dealer, then, except as provided below, Haworth will, at Haworth's option, either repair or replace the product, at Haworth's expense, or refund the purchase price of the product. Except as provided below, a product shall be considered "defective" if Haworth finds that it is defective in material or workmanship and if the defect materially impairs the use of the product to the purchaser or lessee. The applicable warranty period begins on the day the product is manufactured. If a product that the purchaser or lessee references in a notice of defect was not installed by a Haworth Certified installer and/or reconfigured by a Haworth-trained installer, then the product may not be considered defective and Haworth will not be obligated to repair or replace it or to refund its price.

PRODUCTS / APPLICABLE WARRANTY PERIOD

LIFETIME

All Haworth products are warranted for lifetime *except products, components and materials described below:*

TWELVE YEARS

All Haworth NA manufactured seating is warranted for 24/7 multiple shift use by persons up to 325 lbs and includes the framework, mechanisms, seating foam, seat & back mesh and seating glides & casters.

All wood or wood framed products.

TEN YEARS

All wall products (excluding soft close door mechanisms warranted for Two Years), electrical components (excluding Power Base™ AI, USB receptacles and workware products), electrical accessories, fixed task lighting (excluding LED lighting), adjustable keyboard pads, monitor arms and products that are at any time used in a classroom or educational environment (other than administration areas) *except as limited or described below:*

FIVE YEARS

Fabric scrims and fabrics rated Heavy Duty (A) under the Association of Contract Textiles Guidelines, leather, vertical use markerboard laminates, user-adjustable worksurface mechanisms, gel arm caps, thermofused laminates, slow close mechanisms, LED lighting, Power Base™ receptacles with USB charging outlets, electronic ballasts used in task lighting, horizontal glass or thermoplastic table assemblies and Systems Accessories.

THREE YEARS

Power Base AI Electrical products, workware™ products, Hoop products (excludes any warranty for surface damage such as scratches, dents or abrasions), plastic ultraviolet light color fastness and fabrics rated General Contract (a) under the Association of Contract Textiles Guidelines.

ONE TO FIVE YEARS*

Products that are manufactured outside North America and sold into the North American market.

ONE YEAR

Horizontal use markerboard laminate, Openest™ Plume Screens, soft palm rest, mouse pad insert and translucent edging.

Haworth "Specials" products that involve simple modification of a standard based product will be warranted for the same period as the standard catalog product it is based on. Haworth "Specials" products that deviate from standard catalog product in the form of features, construction, function, or aesthetic will be warranted for 1 year.

All software is without warranty of any kind, either expressed or implied.

All service parts are warranted for two years or the remaining balance of the assembly's original warranty period, whichever is longer.

*The Applicable Warranty Period for each such product is specified in Haworth's price list for the product.

A product will not be considered to be defective, and Haworth will not repair, or replace it or refund its price if the product (1) is a consumable product, such as a lamp; (2) is "Customer's Own Material" (i.e. material specified by the purchaser or lessee that is not a standard Haworth product offering, such as Haworth Alliance fabrics); (3) is not installed and used as recommended in Haworth's written specification, installation, care, maintenance and user guides; (4) has been otherwise misused or suffered abusive damage or (5) is a product that is manufactured by a third-party supplier from whom Haworth purchases it for resale without incorporating it into Haworth product (in which case Haworth will assign to the purchaser or lessee any warranty that the manufacturer provides), unless otherwise specified by Haworth in writing. At all times the Covered Product must have been located in a building that is (i) dry, fully closed-in and protected from the natural elements, and (ii) adequately heated, ventilated and air conditioned in order to maintain an internal temperature between 40°F and 90°F (4°C and 32°C) and relative humidity levels between 25% and 55%.

A defect in material or workmanship does not include damage to a product, or failure of a product to operate or perform properly or to maintain appearance, caused by (a) normal wear and tear; (b) an Act of God or transportation; (c) a product alteration made without Haworth's express written authorization; (d) the natural variation of color, grain or texture found in wood and leather; (e) the natural aging found in materials such as wood, fabric and leather which results in colors shifting during use; (f) dye lot variations in fabric, leather or wall covering (g) the natural patina of leather during use; (h) "puddling" of leather or faux leather; or (i) reverse crocking of dyes from clothing onto our seating materials.

EXCEPT AS STATED ABOVE, HAWORTH DOES NOT MAKE A WARRANTY AS TO ANY PRODUCT AND, IN PARTICULAR, DOES NOT MAKE A WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. Product repair or replacement or refund of the price, at Haworth's option, in accordance with this Policy, is the purchaser's or lessee's exclusive remedy for a product defect. Haworth shall not have tort liability with respect to a product, and Haworth shall not be liable for any consequential, economic, indirect, special, punitive or incidental damages arising from a product defect. Haworth shall not be liable for repair or product placement due to improper installation or any defect in materials used for installation which are not manufactured, sold or supplied by Haworth.

c UL us

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Attaches to surface with use of separately specified mounting brackets.
- Corded power module available with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA 5-15P).
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

Enhanced Power Module

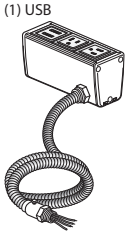
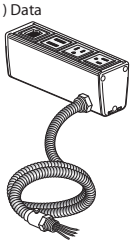
Hardwire

3-Port:
(2) Power
(1) USB



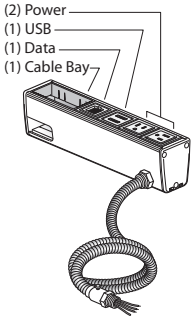
EUD1-HF0B-2010

4-Port:
(2) Power
(1) USB
(1) Data



EUD1-HF0B-2110

6-Port:
(2) Power
(1) USB
(1) Data
(1) Cable Bay



EUD1-HF0B-2112

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Attaches to surface with use of separately specified mounting brackets.
- Hardwired power module with 6′(1829mm) or 12′(3658mm) long flexible metal conduit feed, 1/2″(13mm) conduit fitting and wires for hardwire connection.
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

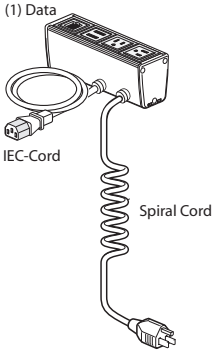
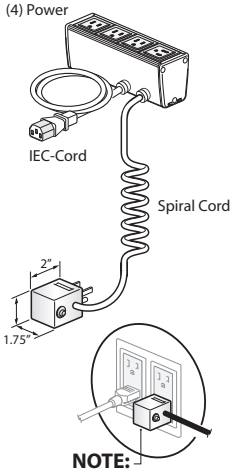
4-Port:
(2) Power
(1) USB
(1) Data



EUD1-SF0B-2110

4-Port:
(4) Power



NOTE:
Always Fused Plug when more than 3 power outlets specified.

EUD1-SF0B-4000

Features

- Includes power module with 4 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or a cable bay that can accept up to 2 pull out data/AV cables, 2′(610mm) power cord with IEC connector for motor controller and mounting hardware.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Spiral Cord includes 15 amp plug (NEMA 5-15P) and expands from 10′(3048mm) to 12′(3658mm) when stretched.
- Auxiliary power cord includes IEC connector (IEC C13) for motor controller.
- Attaches to surface with use of separately specified mounting brackets.
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- Not for use with cable chain.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

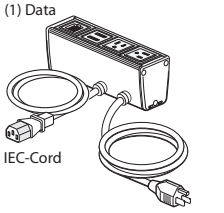
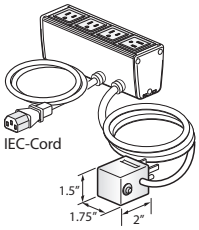
4-Port:
(2) Power
(1) USB
(1) Data



EUD1-SL0B-2110

4-Port:
(4) Power



NOTE:
Always Fused Plug when more than 3 power outlets specified.

EUD1-SL0B-4000

Features

- Includes power module with 4 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or a cable bay that can accept up to 2 pull out data/AV cables, 2′(610mm) power cord with IEC connector for motor controller and mounting hardware.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Corded power module with 15 amp - 12′(3658mm) long cord with plug (NEMA 5-15P).
- Auxiliary power cord includes IEC connector (IEC C13) for motor controller.
- Attaches to surface with use of separately specified mounting brackets.
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- Designed to be used with cable chain.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

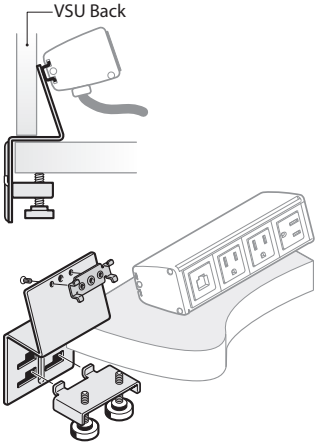
Enhanced Power Module Brackets

Above Worksurface – Adjustable



EUDB-0000-H

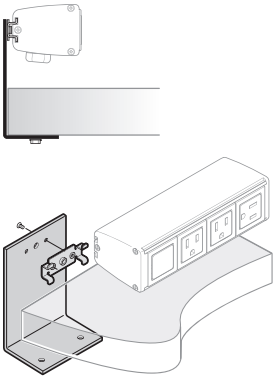
Height	Width	Length	Description	Number	Price
4″(102mm)	3 1/2″(89mm)	3 1/2″(89mm)	Black Bracket	EUDB-0000-HB	**$52.00**
			White Bracket	EUDB-0000-HW	**52.00**

Features
- Includes bracket and mounting hardware.
- For use with 3, 4 or 6 port Enhanced Power Module.
- Available in black or white.
- Mounts to back edge of 1 1/8″(29mm) to 2″(51mm) worktop.
- Not for use with a tack board.

Specification Tips
- Specify Enhanced Power Module separately.
- Requires field installation.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:
1) Product number.
(No finish specification required.)

Above Worksurface – Fixed



EUDB-0000-W

Height	Width	Length	Description	Number	Price
4 1/4″(107mm)	3″(76mm)	2″(51mm)	Black Bracket	EUDB-0000-WB	**$52.00**
			White Bracket	EUDB-0000-WW	**52.00**

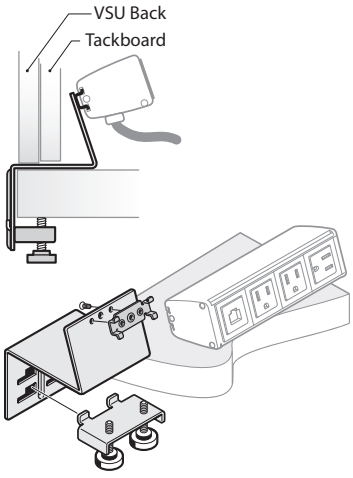
Features
- Includes bracket and mounting hardware.
- For use with 3, 4 or 6 port Enhanced Power Module.
- Available in black or white.
- Mounts under worksurface with Enhanced Power Module above worksurface.

Specification Tips
- Specify Enhanced Power Module separately.
- Requires field installation.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:
1) Product number.
(No finish specification required.)

Enhanced Power Module Brackets

Above Worksurface – Adjustable with Tackboard Offset



EUDB-0000-T

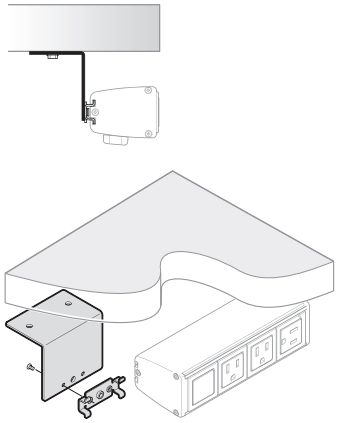
Height	Width	Length	Description	Number	Price
4″(102mm)	3 1/2″(89mm)	3 1/2″(89mm)	Black Bracket	EUDB-0000-TB	**$52.00**
			White Bracket	EUDB-0000-TW	**52.00**

Features
- Includes bracket and mounting hardware.
- For use with 3, 4 or 6 port Enhanced Power Module.
- Available in black or white.
- Mounts to back edge of 1 1/8″(29mm) to 2″(51mm) worktop when a tackboard is present.

Specification Tips
- Specify Enhanced Power Module separately.
- Requires field installation.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:
1) Product number.
(No finish specification required.)

Under Worksurface – Fixed



EUDB-0000-U

Height	Width	Length	Description	Number	Price
2″(51mm)	3″(76mm)	2 1/2″(64mm)	Black Bracket	EUDB-0000-UB	**$52.00**
			White Bracket	EUDB-0000-UW	**52.00**

Features
- Includes bracket and mounting hardware.
- For use with 3, 4 or 6 port Enhanced Power Module.
- Available in black or white.
- Mounts under worksurface with offset to accommodate most transformer plugs.

Specification Tips
- Specify Enhanced Power Module separately.
- Requires field installation.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:
1) Product number.
(No finish specification required.)

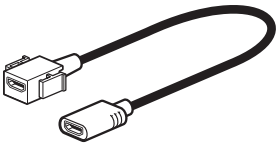
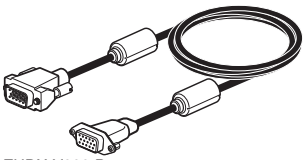
Electrical Components

Cables

Cables



EUDX-H000-B



EUDX-V000-B

EUDX-3000-B

Length	Description	Color	Number	Price
HDMI Coupler				
N/A	HDMI	Black	EUDX-H000-B	**$130.00**
N/A	HDMI	White	EUDX-H000-W	**130.00**
VGA Cable				
120″(3048mm)	VGA	Black	EUDX-V000-B	**$156.00**
	VGA	White	EUDX-V000-W	**156.00**
Audio Cable — 3.5mm				
120″(3048mm)	VGA	Black	EUDX-3000-B	**$ 36.40**
	VGA	White	EUDX-3000-W	**36.40**

Features

- Includes one black HDMI Coupler, one VGA cable or one 3.5mm mini audio cable.
- Installs in an open data port in one of the following products:
  - –Flip Top Unit
  - –Double Sided Flip Top Unit
  - –Quick Connect Power
  - –Workware Interface Module
  - –Flush Mount Module
  - –Enhanced Power Module

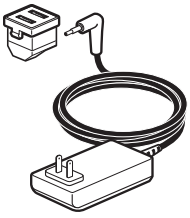
To Order, Specify:

1) Product number.
(No finish specification required.)

Specification Tips

- Provides communication between components: i.e. laptop, processor, monitor, etc.
- HDMI transmits digital video signals.
- VGA transmits analog video signals without audio.

Retrofit USB Charging Cable



EUDX-3000-B

72″(1829mm)	Black	EUDX-U000-B	**$93.60**
	White	EUDX-U000-W	**93.60**

Features

- Includes one USB charging simplex (with two USB outlets) with 72″(1829mm) cord and power supply.
- Installs in an open data port in one of the following products:
  - –Flip Top Unit
  - –Double Sided Flip Top Unit
  - –Quick Connect Power
  - –Workware Interface Module
  - –Flush Mount Module
  - –Enhanced Power Module
- USB Charging Port consists of 2 USB outlets. 1,000mA of charging power per USB outlet.

To Order, Specify:

1) Product number.
(No finish specification required.)
