

Paoli LLC Limited Lifetime Warranty

Paoli LLC warrants its products to be free from defects in material and workmanship for as long as the original purchaser owns them.

Paoli LLC will, at its discretion, repair or replace with comparable product, free of charge, any Paoli LLC product or component manufactured after April 17, 2016 that fails under normal commercial office use.

The warranty is subject to the following provisions:

Limitations involving materials and components

Some natural variations occurring in wood, leather and other natural materials are inherent to their character and not considered defects. Paoli LLC does not warrant the color-fastness or matching of colors, grains, textures of these materials. Additionally a customer own material (COM) selected by, and used at the request of a user is not warranted.

The material and components listed below are covered according to the following schedule from the date of sale:

- Veneer and Laminate finishes are - Twelve Years
- Seating wood frame - Twelve Years
- Seating controls and electrical components (lamps and ballasts are not covered) - Ten Years
- Glides, pneumatic cylinders, casters and polymer based components, foam - Five Years
- Upholstery fabric - Three Year

Seating Usage

Normal commercial office use for seating is defined as the equivalent of a single shift, forty (40) hour work week. Paoli LLC product used in excess of a single shift will be prorated for warranty purposes.

Exclusions

This warranty does not apply to:

- Normal wear and tear over the course of ownership
- Modifications or attachments not approved by Paoli LLC

TERMS AND CONDITIONS

FREIGHT

1. Delivery will be made to the acknowledged ship to address unless notification of address change is received ten (10) working days prior to the scheduled ship date. Any address changes received by the driver on arrival will be billed as an additional stop and additional charges may apply.

2. Paoli shipments are scheduled for dock-to-dock delivery and do not include inside delivery, uncartoning or set up. If desired, arrangements for inside delivery must be made, and approved, when the order is placed, and will have a corresponding fee of 7% of list price of the order, with a minimum charge of \$75.00. Requests for uncartoning and set up will be coordinated with a Paoli Dealer with applicable charges applied to the order.

3. The ability for drop shipments is available. Please contact your customer service representative for information on criteria and fees associated with this service. If delivery is scheduled to a location other than the dealer's single dealer location, Paoli must be provided with the name and telephone number of the person to contact at the delivery address. Personnel and facilities for receiving and unloading a semi-tractor trailer must be provided by the dealer. Drivers are not permitted to unload items by themselves. Delays caused by customer's inability to accept or unload merchandise at the destination specified on the order will be billed to the dealer at the rate of \$50.00 per hour.

4. Freight charges for orders that do not qualify for free freight based on the Customer's Performance Level, will be charged a minimum of \$80.00 or 3% of total order at List, whichever is greater.

ORDERING

All orders are subject to approval and acceptance by Paoli. Any term or condition (including standard, printed language) contained in a Customer's purchase order (or other form used by the Customer to order goods) which is different from, in addition to, or inconsistent with in any way, Paoli's standard terms and conditions contained in this document or in any document referred to in the document ("Terms and Conditions", as the same may be amended and republished from time to time at the sole discretion of Paoli), shall be of no force or effect whatsoever. By placing an order with Paoli, whether written, verbal, Electronic Data Interchange (EDI) or by e-commerce, the Customer agrees that the transaction shall be governed by the current Terms and Conditions of Paoli, as of the acknowledgement date of the order. The warranty for any product of Paoli shall be the effective written warranty of Paoli as found in Paoli's pricer, as of the acknowledgement date of the order requesting such product.

Sales of Paoli's products are made only on Paoli's standard Terms and Conditions. Paoli's standard Terms and Conditions may be modified or supplemented only by a separate written document signed by Paoli's authorized personnel at Paoli's headquarters.

Possession of Paoli pricers or sales and pricing literature does not constitute an offer to sell.

Paoli tries to comply with reasonable special instructions on orders if those instructions do not conflict with Paoli's Terms and Conditions and do not involve additional costs.

All Dealer and Wholesaler orders for Paoli are to be sent to Paoli Customer Support Center in Orleans, IN, by fax to: 800-888-5817.

Submitting An Order

- Paoli brand products will be accepted on an order.
- Standard colors and finishes are detailed in current Paoli sales literature and pricers.
- The Customer must provide correct information on all orders when ordering. This includes (e.g., complete model number, finishes, colors, options, quantity, and any special instructions regarding directions to a drop ship site, special equipment needed to complete shipment such as a small trailer or special delivery hours). Failure to provide complete and accurate information could result in order entry delays.
- Orders can only be processed when they are complete and correct; incomplete orders may be returned.
- If a bid quotation or other special pricing applies, such information should be clearly stated on the order and any applicable bid number or contract number must be referenced in order to ensure proper pricing.

- The order should identify a contact person by name and phone number for any clarification that might be necessary.

Accepted orders will be acknowledged in writing or email with approximate shipping dates. Payments should be made to Paoli, or its assignee, as designated on Paoli's invoice.

PHONE ORDERS

Paoli requires written confirmation of all orders submitted by phone. When confirming a previously placed phone order, including product, parts and replacement pieces, it must bear the word "CONFIRMING" prominently and have exactly the same purchase order number and information as placed via phone.

CREDIT

Goods ordered by customers who have no previous credit rating may not be accepted unless prior arrangements are made with the Paoli Credit Department.

CREDIT LIMITS

The credit limit is the maximum credit available on a current account, which is defined as open accounts receivable and orders available for production. Paoli will review payment history and updated financial information on a periodic basis and will adjust credit limits accordingly.

CREDIT HOLD

Invoices are considered past due if unpaid within terms stated on the invoice. Accounts whose unpaid balances extend beyond the invoice due date may be placed on credit hold (which could result in shipping delays for existing and new orders). Conditions for continued shipments will be contingent upon mutually acceptable agreement regarding payment of the overdue balance. Accounts whose balances exceed the credit limit may also be placed on credit hold. Additional shipments may be made on a prepaid basis, upon mutual agreement, until payment is received to reduce the account balance below the credit limit.

Accounts whose balances extend beyond 90 days past due, without a mutually agreed upon and functioning payment schedule, may be placed with a third party for collection purposes. Paoli will attempt notification by telephone or mail prior to taking this action. At this point, all actions will be handled by Paoli's third party. Once an account has been placed with a collection agency, purchases of any additional merchandise will not be allowed until the account balance, any accumulated finance charges, and collection costs incurred by Paoli are paid in full.

SHIPPING TIME

Production takes approximately 4-6 weeks after receipt of order and approval of credit. If delivery is needed by a specific date, this must be indicated on the order. If this date cannot be met, the customer will be notified of alternate delivery dates.

ACKNOWLEDGEMENTS

Paoli sends acknowledgements on all orders. It is the responsibility of the customer to review the acknowledgement and report any discrepancies immediately.

CHANGES AND/OR CANCELLATIONS

All cancellations or changes are subject to Paoli approval. Cancellations will not be accepted after an order has been scheduled for final production.

PRODUCT SPECIALS

Paoli, at its own discretion, may modify its standard products to meet specific needs.

List prices contained in published pricers are for standard catalog items only. Changes or alterations to catalog items other than those listed as catalog options are subject to additional charges. Prices will be furnished upon request. Direct all requests to Paoli Customer Support Center.

CUSTOMER'S OWN MATERIAL (COM) POLICY INFORMATION

Paoli does not assume responsibility for the durability or tailoring quality of COM fabric. All COM fabric must be shipped to Paoli prepaid and marked with your company's name, order number and special instructions (e.g. direction of stripes, railroad etc.). COM fabric received without identification may delay the order significantly.

Fabrics less than 54 inches in width are not accepted. Materials should be sent to the factory for pre-approval for upholstery use before an order is accepted. COM pricing applies to one type of fabric being used on one style chair. Customers must specify on their order if it is to be pattern matched. If directional material is sent, the Dealer must note the direction that it should be applied.

COM ORDERING REQUIREMENTS

A copy of the fabric vendor's acknowledgement must be submitted with customer purchase order. The order will be on hold until the vendor's acknowledgement is received.

COM Yardage Requirements for manufacturing are found with product style in Paoli price lists. This is based on generic 54" material. Extra fabric is required to match any pattern with matching repeats. Additionally, there are charges, by product type, for hand cutting and matching fabrics (i.e., stripes, railroading, etc.). These are:

Chair (Side or Swivel)	\$45.00 ea.
Settee	\$60.00 ea.
Sofa	\$75.00 ea.

COMBO FABRICS
Highest grade plus \$75.00

To calculate COM yardage, use the chart below as a guide and add appropriate amounts to the generic yardage requirements listed in the pricer.

Fabric		2"-14"	15"-27"	28"-36"
Width	Generic Yardage	repeat	repeat	repeat
54"		+ 20%	+ 35%	+ 40%

Leather quality can vary depending on the size of the hides. Larger hides (50 to 60 sq ft) tend to be higher quality and yield. Smaller hides (40 to 50 sq ft) tend to have more quality issues that may cause smaller yields, requiring the need for additional hides to be ordered.

Paoli Inc cannot take responsibility for the need to order additional COL due to quality issues and related small material yields.

Modifications to Standard Product

- Requests for special modifications to Paoli standard products require engineering evaluations, product safety review and pricing prior to approval.
- Requests for modified products should be directed to Paoli's Customer Support Center.

UPS Shipping Address: 201 E. Martin St.
Orleans, IN 47452

SHIPPING

Paoli ships all merchandise, whether shipping collect, prepaid/charge or delivered, FOB shipping point. Ownership and the responsibility of the merchandise becomes that of the customer upon delivery to the freight company.

Paoli paid freight is dock-to-dock and does not include inside delivery or installation. All shipments are FOB shipping point with freight prepaid to one destination in the continental United States. Shipments outside the contiguous United States are prepaid to point of embarkation.

Paoli reserves the right to select the carrier and routing, but will attempt to accommodate requests for preferred carriers, if there are no additional costs or charges to Paoli.

DAMAGED PRODUCT

All products are carefully inspected and packed by trained members before leaving the facility. The transportation company assumes complete responsibility, when the bill of lading is signed, for delivering the product to the customer in good condition. Customers should protect themselves by assuring that the extent of any damage or shortage has been noted on the delivery sheet. Concealed damage should be reported to Paoli Customer Support Center as soon as discovered and no later than 10 days from receipt of shipment.

If concealed damage is discovered after delivery, request inspection from the delivering carrier AT ONCE and save all packing materials until inspection is made. Paoli will be happy to assist in filing a claim with the transportation company by providing additional copies of documents, as needed, but the claim must originate from the customer, the consignee.

STORAGE

Storage charges may be incurred if delivery is delayed by customer.

REPAIR CHARGES

Prior authorization must be obtained from Paoli before repairs are made. Quotes should be sent to Paoli's Customer Support Center for approval before proceeding. Once repairs are complete, send a receipt for approved repairs to Paoli LLC Customer Support Center and credit will be issued.

RETURNS

Return shipments are not accepted unless specifically authorized by Paoli on a Returned Goods Authorization form furnished by Paoli LLC Customer Support Center. Merchandise must be returned in original shipping cartons, with proper inner packing and is subject to inspection upon return, before acceptance. All returns must be made within 30 days after a Return Goods Authorization is issued.

Requests for returns due to Paoli error must be made within 30 days of receipt of erroneous shipment.

Requests for returns due to reasons other than Paoli error, if approved, are subject to a processing fee of up to 45% of the invoiced amount and must be forwarded with transportation charges prepaid. All returns must be made within 30 days after a Return Goods Authorization is issued.

Returns are not authorized or accepted from Alaska or Hawaii due to transportation costs and travel wear.

Credit will not be allowed on any items returned without Paoli's written consent or on any merchandise that is not in resalable condition.

FLAME RETARDANT FOAM

All seating styles are manufactured with foam meeting the standards contained in the following specification:

- California Technical Bulletin 117-2013 Section D, Part II
- UFAC Voluntary Standards
- ASTM D-1692
- FMVSS 302
- UL 94

California Technical Bulletin 117 (TB 117 or CAL 117) is an open-flame test for components that are used in the manufacturing of furniture.

CAL 117 determines the resistance of certain components to flame propagation when tested with a small open-flame ignition source.

Different sections of CAL 117 pertain to different components, such as; Upholstery Fabric, Dust Covers, Fiber Filing Materials, & Foam.

Other Offerings: If requirements dictate use of CMHR (construction modified high resiliency) or other specific type foams, please contact factory for quote and availability.

CALIFORNIA 133 CERTIFICATION

California Technical Bulletin 133 (TB 133 or CAL 133) is a full scale fire test for furniture manufactured for use in certain public buildings.

CAL 133 is specific to the fabric that is used in conjunction with certain frames and flame barrier. Thickness of the flame barrier may affect the lay of upholstery and cause some wrinkles. In some chairs, it may also affect the 'sit' of the seat and back.

CAL 133 outlines the method and technique to which the units should be tested. Beyond that it leaves classifications of furniture and fabric to the discretion of the manufacturer.

When ordering seating that is CAL 133 certified, select units that have "FC" at the end of the model number, i.e., P-1751FC. These models are built with CAL 117 foam and can be upholstered with an approved covering.

Paoli has tested several fabrics/leathers with successful results. The following fabrics/leathers have been tested and are CAL 133 certified (see individual products for CAL 133 list price upcharge and availability).

GRADED IN FABRIC INFORMATION

For your convenience in ordering chairs with Graded In Program fabrics, the selection of fabrics has been listed alphabetically with the appropriate pricing grade. To determine the price of a particular chair with the Graded In Program fabric of your choice, determine the fabric price group and refer to the appropriate price column listed by the chair model.

NOTE: Directional covers, such as stripes, patterns and plaids may not meet your satisfaction due to contoured shapes and tufting of some models. Should you require such a selection, we will upholster as perfect as possible, but such orders are not subject to return. If in doubt, contact your customer service representative prior to placing the order.

Graded In Program FABRIC SAMPLES. If you need additional samples for presentation, contact

Momentum Fabrics at 800-366-6839

CHAIR MEASUREMENTS

The following is a description of how Paoli determines the measurements for its chairs.

- Seat Height:** A three pound weight is placed on the front edge of seat. The measurement is taken from the floor to the bottom of the weight. Tilt swivels are measured from their lowest position.
- Arm Height:** Measured from the floor to top edge of arm. Measurement taken from the front of arm when the arm goes down from the front to back. Measurement taken at mid-point when arm goes up from front to back.
- Inside Width:** Distance between arms typically measured at mid-point.
- Inside Depth:** Distance measured from inside edge lower back to front edge of seat.
- Inside Height:** Distance measured from seat where it meets the inside back to top edge of back.
- Outside Width:** Distance measured at widest point of chair.
- Outside Depth:** With the outside back of chair against the wall, the distance from the wall to the front edge of seat.
- Outside Height:** Distance from floor to top edge of back.

~ IMPORTANT: The fabric information provided was the most current information available at the time this price list was printed. Contact your Customer Service Team before finalizing any orders to check availability.

Quick Reference - Ordering Guidelines

Each current price list is laid out with a guide for specifying on the bottom or side of each page. You can continue to fax in your orders to customer service @ 800-888-5817. You will need all of the options specified, per model/line on your order. This will allow a clean order to be entered in our system and for you to receive an acknowledgement (via fax or email) with a shipping date. If you need help with specifying a model, please call Paoli Customer Support at 1-800-457-7415.

Here are the steps to follow when beginning to specify products.

1. Select the model/series
2. Select wood finish (if applicable)
3. Select fabric pattern and color (if applicable)

How to specify wood seating:

1. Choose Base Model
P-1601
2. Select Wood Finish
see page VI
P-1601.129.
3. Select Fabric Grade
Specify Pattern (First 3 Digits)
see pages VII - XIV
Specify Color (Last 2 Digits)
P-1601.129.212
P-1601.129.21218

How to specify non-wood seating:

1. Choose Base Model
P-1741
2. Select Fabric Grade
Specify Pattern (First 3 Digits)
see pages VII - XIV
Specify Color (Last 2 Digits)
P-1741.110
P-1741.11016

This is an example of how to specify a seating product. Some items will have different options that need specified. Please notice the "Specify....." line listed for each individual item.

Paoli Customer Support: 1-800-457-7415

Fax orders to: 1-800-888-5817

Control Functions

Task Control Tilt:

Examples - P-1783

Application – Two piece swivel tilt office seating requiring separate seat and back mounting capability with a tension adjustable mechanism.

Description – 3-position twist lever at front of seat allows separate seat tilt angles. Gas version only.

Features – Paddles control wide range of chair tilt, height adjustment and separate back angle adjustments.

Knee-Tilt / Forward Pivot Swivel Tilt:

Examples - P-392-K

Application – Fixed back office seating that requires a tension adjustable mechanism. It also offers a reduced front seat rise with a separate gas lift, tilt lock and tension control.

Description – Pivot point is located at the front of the control, which allows the user's feet to stay in contact with the floor. Gas version is standard for most chairs.

Features – Paddles are provided for height and tilt lock and a hand wheel is used for tension adjustments.

Knee-Tilt / Mid-Pivot Tilt:

Examples - P-1752 (KTL option)

Application – Fixed back office seating requiring a tension adjustable mechanism that offers reduced front edge rise with gas lift and tilt lock options.

Description – Gas version only.

Standard / Conventional Swivel Tilt:

Examples - P-392

Application – Fixed back office seating requiring swivel tilt mechanism

Description – Pivot point on tilt control is very close to the center of the mechanism. Gas cylinder for height adjustment.

Features – Dual function lever to activate the gas lift and tilt lock functions. Tension is controlled with hand wheel.

Synchro / Forward Pivot Tilt:

Examples - P-1741 (SYN option)

Application – Two-piece swivel tilt office seating requiring separate seat and back mounting capability with a tension adjustable mechanism.

Description – The unique mechanism configuration takes full advantage of synchronized ratio geometry and successfully combines the benefits gained from a forward-bias pivot location. Gas version only.

4 SQUARE

Product Features

Frame Construction - Select furniture grade interlocking plywood. All joints are glued and reinforced with mechanical fasteners for greater durability.

Seat - High density foam with one ounce dacron topper.

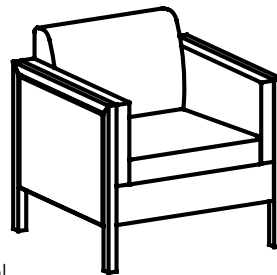

Back - High density foam with one ounce dacron topper.

Upholstered using foam that complies with CAL117

Wood Frame Arms - Select hardwood frame on furniture grade plywood with upholstered inside panel. Available with upholstered or finished wood outside panel.

Metal Frame Arms - Steel frame with alloy powdercoat finish on furniture grade plywood frame with upholstered inside panel. Available with upholstered or finished wood outside panel.

Feet - Nylon glides.

Four Square **Metal** Model (P-2751) with upholstered panels are certified by SCS-IAQ-01880.

ADJOIN**Product Features**

Frame - Select furniture grade interlocking plywood. All joints are glued and reinforced with mechanical fasteners for greater durability.

Seat - High density foam (CAL 117) with one ounce Dacron fiber on top of sinuous spring seat suspension for maximum comfort

Back - High density foam (CAL 117) with one ounce dacron topper

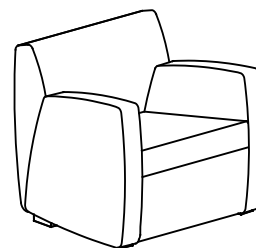

Arms - Select furniture grade interlocking plywood upholstered with foam wrap and tailored upholstery

Feet - Select furniture grade hardwood with a catalyzed varnish finish. Nylon glides

Optional Tablet Arm - Pivoting tablet arm incorporates select grade hardwood veneer on composite wood substrate

Optional Casters - Caster option includes casters on the front of the chair only. Option also includes molded plastic hand grips providing easy chair handling

Meets or exceeds ANSI / BIFMA performance standards

Product Features

Frame is constructed of welded 11 gauge High Strength Low Alloy Steel tubing for lasting durability.

Seat - Upholstered models feature 1" Maximum Resiliency foam for maximum comfort. Finished wood seat models are constructed of molded engineered finish grade plywood.

Back - Upholstered back models feature ½" high density foam wrapped over molded furniture grade plywood for maximum comfort. Available in either ¾ upholstered or fully upholstered backs. Finished wood back models are constructed of molded engineered finish grade plywood allowing for various design details. They are available in 4 unique designs that are contoured for comfort. Logo or insignia etched and laser cut backs are available upon special request.

Upholstered using foam that complies with CAL117.

Wood arm models incorporated steam bent furniture grade European Beech. Urethane arm models are constructed of steel reinforced molded urethane that provide comfort and durability. The Resilient arm surface protects arms and desk. Urethane arm with wood cap insert models are constructed of steel reinforced molded urethane and steam bent furniture grade European Beech that provide comfort and durability. The Resilient arm surface protects arms and desk.

Wood arm/seat models feature catalyzed varnish finish that provides enhanced stain and mar resistance.

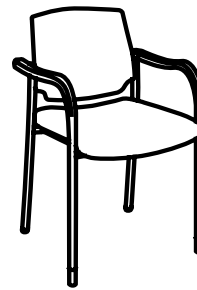

Metal frame is available in powder coat finishes.

Black plastic foot models incorporate molded nylon glides. Wood foot models consists of furniture grade European Beech wood feet on the front legs and molded nylon glides on the back legs. Caster models feature 45mm dual wheel casters.

Available in stacking versions that allow them to be stacked up to 10 high (**P-999 stacking cart - see page SG63**).

Meets or exceeds ANSI/BIFMA performance standards

Certified by SCS-IAQ-02065.

CO | HO Lounge Product Features

Seat/Back - Molded high density foam over a molded plywood seat structure. Upholstered using dual-apex stitch sewing detail; or, molded high density foam with exposed finished wood back

Foam - Complies with CAL 117-2013

Base - Four star polished die-cast aluminum

Glides - Black all-surface nylon glide

Mount - Features fixed polished decorative mount

Fixed Auto-Return Cylinder - For easy self-centering

Optional Tablet Arm - Optional Tablet Arm - Dual 360 degree rotating tablet arm. Thermofoil MDF for increased durability. Available in three colors.

Meets or exceeds ANSI/BIFMA performance standards

CORINTH

Product Features

Frame Construction - Select furniture grade interlocking plywood and furniture grade structural hardwood frame using double doweled construction and reinforced with corner blocks. All joints are glued, stapled and screwed in place for greater durability.

Seat - 3" high density foam with one ounce of Dacron over a woven matrix suspension for maximum comfort. Seat consists of integral cushion(s).

Back - 2½" high density foam with one ounce Dacron over a woven matrix suspension for maximum comfort.

Upholstered using foam that complies with CAL117

Arms - Select furniture grade interlocking plywood and hardwood frame using double doweled construction and reinforced with corner blocks. All joints are glued, stapled and screwed for greater durability. Includes 1½" high density foam wrap with tailored upholstery.

Feet - Select furniture grade hardwood. Includes nylon glides.

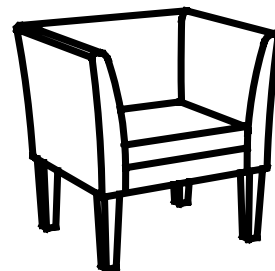

Catalyzed varnish finish provides enhanced stain and mar resistance

Meets or exceeds ANSI/BIFMA standards

For coordinating tables, see Alynn Tables, page SG9

For coordinating bench with no arms, see Unison, page SG74

Certified by SCS-IAQ-01880.

DIVERGE Product Features

Seat - Molded high density foam over a molded plywood seat structure. Upholstered using top stitch sewing detail.

Foam - Complies with CAL 117.

Back - Composite frame combines molded high density foam with a reinforced steel frame that provides maximum comfort and strength. Upholstered using top stitch sewing detail.

Optional Fixed Aluminum Loop Arms, Adjustable Arms &

Cantilever Aluminum Arms - Include a molded urethane arm cap with resilient surfaces that protect the arm and work surface. Both height & width are adjustable on adjustable arms

Optional Wood Loop Arms - Select furniture grade structural hardwood w/catalyzed varnish finish.

Optional Bases - Plastic - Five star molded engineered, glass filled nylon base for stability. Metal - Five star polished die cast aluminum. Wood - Five star structural steel frame w/select finished grade hardwood caps.

Optional Standard Controls - Features swivel tilt control with tilt tension, swivel and tilt lock.

Optional Synchro Controls - Features tilt control with side mounted tilt tension and multi-position tilt lock for maximum ergonomic comfort and adjustability.

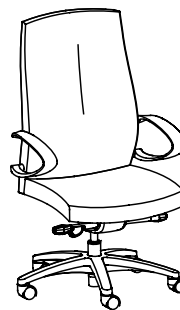

Optional Synchro Seat Slider - Features tilt control with side mounted tilt tension and multi-position tilt lock. Integrated seat slider allows seat depth to be adjusted front to back.

Optional Knee Tilt Controls - Features tilt control with tilt tension, swivel and tilt lock.

Pneumatic Cylinder - For easy height adjustment.

Meets or exceeds ANSI / BIFMA performance standards

Product Features

Frame - Structural steel under-frame provides strength.

Seat - Molded high density foam with half ounce fiber topper on a matrix suspension provides enhanced comfort. Upholstered with top stitch sewing detail

Foam - Complies with CAL 117

Back - Molded high density foam with a half ounce fiber topper reinforced with an over molded steel frame that provides enhanced comfort and strength

Wood Arms - Select furniture grade structural hardwood with catalyzed varnish finish (models P-1762 & P-1763)

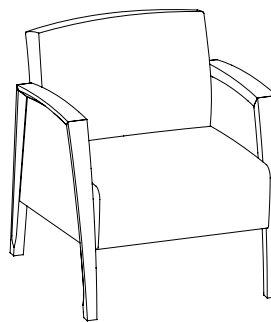

Upholstered Arms - Select furniture grade interlocking plywood upholstered with foam wrap and tailored upholstery (models P-1765 & P-1766)

Feet - Nylon glides (models P-1762 & P-1763)

Metal Legs - Polished cast aluminum (models P-1765 & P-1766)

Optional Tablet Arm: Pivoting 3/4" thermofoil MDF core tablet arm with option of three colors. (P-1765 & P-1766)

Meets or exceeds ANSI / BIFMA performance standards

FIESTA GUEST**Product Features**

Select finished grade hardwood frame using double or triple doweled construction and reinforced with corner blocks. All joints are glued, stapled and screwed in place for greater durability.

Seat - 2" high density foam on top of a woven seat suspension for maximum comfort.

Back - Upholstered back models feature 1" high density foam over polypropylene webbing for maximum comfort.

Decorative wood back insert models are constructed of molded engineered finish grade plywood allowing various design details. Logo or insignia etched and laser cut backs are available upon special request.

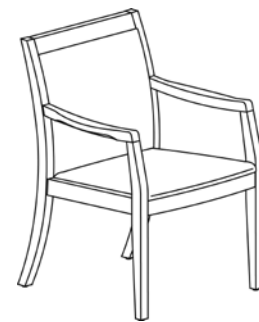

Upholstered using foam that complies with CAL117.

Catalyzed varnish finish provides enhanced stain and mar resistance.

Nylon glides.

Special Features: All models incorporate Wall Saver feature

Certified by SCS-IAQ-02065.

FIRE**Product Features**

60mm dual open wheel casters

Five Star Molded Engineered Nylon Base or Polished Aluminum for Stability

Pneumatic cylinder for easy height adjustment

Offers a Standard Control, Synchro Control or a Task Control to meet all office needs.

Synchronous Tilt control includes side mounted tilt tension and multi-position tilt
lock for maximum ergonomic comfort and adjustability

Construction - Molded engineered ergonomic plywood seat.

Upholstered using foam that complies with CAL117.

Seat - 3" Maximum Resiliency foam for maximum comfort

Back - Mesh back models feature a unique woven breathable mesh fabric creating a comfort back pocket and a
floating lumbar support. Available in Black mesh. Standard adjustable back on all models.

Upholstered back models feature ergonomically contoured reflex core foam with fiber topper.

Standard adjustable back on all models

Arms - Loop arms models feature a steel reinforced molded urethane that provides comfort and durability.
Resilient arm surface protects arms and desk.

Adjustable Arm Models feature height & width adjustment

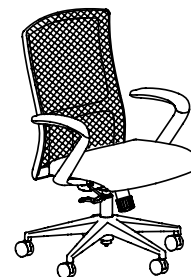

Fixed Polish Aluminum Arms with urethane arm pad.

Steel reinforced molded urethane arm caps provide comfort and durability. Resilient arm surface protects arms
and desk.

Meets or exceeds ANSI/BIFMA performance standard

Certified by SCS-IAQ-01880.

Share Space Product Features

Frame - constructed of welded high strength low alloy steel with durable powder coat finish tubing for lasting durability with polished aluminum alloy joints and a durable engineered urethane flex joint.

Seat - upholstered with contoured 2" maximum resiliency foam for maximum comfort and a tailored upholstered look. Seat incorporates a flip up design for compact nesting.

Back - constructed of an engineered plastic with a unique woven breathable mesh fabric creating a comfort pocket and uses a unique flex joint attachment for additional comfort and flex.

Arm version - uses engineered durable plastic arms attached to polished Aluminum Alloy posts which create a flip up arm design for compact nesting.

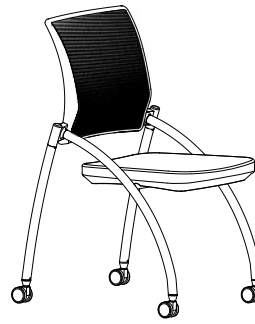

Uses black open wheel all surface casters for easy mobility.

Upholstered using foam that complies with CAL117.

Seat - 2½" Maximum Resiliency foam for maximum comfort

Upholstered using foam that complies with CAL117.

Fixed Back - Features composite steel and laminated wood frame with ergonomically responsive woven web matrix with dacron topper. Upholstered using a stretch sleeve upholstery technique. Available with plain or channeled upholstery detail. Outback is upholstered.

Fixed Loop Arms - Polished Diecast Aluminum Loop Arms include a molded urethane arm cap with resilient surfaces that protect the arm and work surfaces.

Adjustable Arms - Feature height and width adjustment and incorporate molded urethane arm caps with resilient surfaces that protect the arms and work surfaces.

Bases -

Plastic: Five star molded engineered, glass filled nylon base for stability.

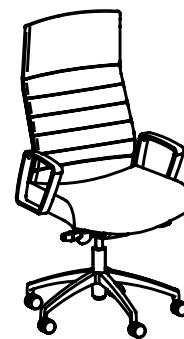

Metal: Five star polished die cast aluminum.

Standard Controls - Feature swivel tilt control with tilt tension, swivel and tilt lock.

Synchro Control - Feature tilt control with side mounted tilt tension and multi-position tilt lock for maximum ergonomic comfort and adjustability.

Pneumatic Cylinder - For easy height adjustment

Meets or exceeds ANSI/BIFMA performance standard

Tahoe Product Features

Legs: Select grade solid hardwood.

Tops (options):

When wood top option is chosen, the top wood rim finish matches the top finish.

When non-wood top option is chosen, the top wood rim matches the chassis finish.

Wood Top: Reverse diamond sketch face wood veneer on 1½" particle board with select grade solid hardwood external band edge.

Glass Top: ¾" Back painted (black or white options) on ¾" particle board with ⅝" select grade solid hardwood external band edge.

Quartz Top: ¾" (nominal) quartz stone inlay (black or white options) on ¾" particle board with ⅝" select grade solid hardwood external band edge.

Round & Square Wood Shelf: Genuine flat sliced, slip matched maple veneer each side of ¾" particle board or medium density fiber board.

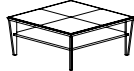

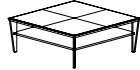

Round shelf - edges are self edge profile with MDF Rim.
Square shelf - edges are self edge profile, Veneer Edge Band.

Feet: Includes nylon guides.

Meets or exceeds ANSI / BIFMA performance standards

How to order Unison Tandem collection

Unison Tandem Seating Series are functional and versatile to fit a wide range of seating needs.

Points to assist in specifying ganging configurations:

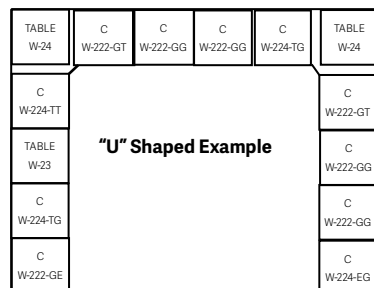

Specifying is done from the seated position, left to right.

The first letter after the model # denotes chair left side seated option, and the second letter denotes chair right side seated option.

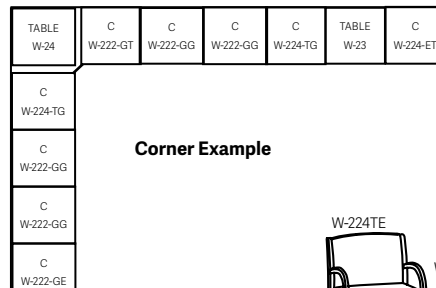

There are three possible letter designations to denote how the chair is used in the layout.

- **E = End.** "E" is used to either begin or end a configuration, and denotes nothing will attach on that side of the chair.
- **T = Table.** "T" denotes the chair will connect to a table.
- **G = Gang.** "G" denotes the chair will connect to another chair.

Layout drawing must be included with your order. This will enable us to confirm the correctness of the model numbers used.

WHITNEY**Product Features**

Frame Construction - Select finished grade hardwood frame and engineered structural lumber using double or triple doweled construction and reinforced with corner blocks. All joints are glued, stapled and screwed in place for greater durability.

Seat - 4" high density foam with one ounce of Dacron wrap on top of a coil spring seat suspension for maximum comfort. Seat consists of a reversible loose cushion and are vented on the back side.

Back - 2 1/2" high density foam over poly cotton on top of a sinuous spring seat suspension for maximum comfort.

P-751, P-751-W, P-752, P-752-W, P-753, P-753-W

Back is diamond hand tufted.

Upholstered using foam that complies with CAL117

Arms - Furniture grade structural hardwood frame covered with 1" high density foam wrap and tailored upholstery
Nylon glides.

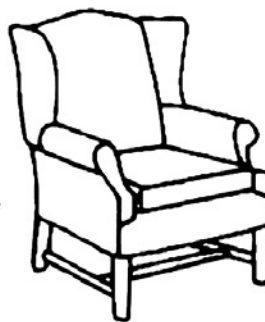

Catalyzed varnish finish provides enhanced stain and mar resistance

Standard models feature burnished brass trim nails for a unique styling detail.

-W models indicates no trim nails.

Meets or exceeds ANSI/BIFMA performance standards

Certified by SCS-IAQ-01880.
