Storage Solved®

HIGH-DENSITY MOBILE STORAGE

Spacesaver does exactly what our name implies — we save space. Lots of it. Our High-Density Mobile Storage Systems can deliver up to three times the storage capacity of conventional filing and shelving in the same amount of floor space. And at half the cost.

By mounting storage cabinets or shelving on wheeled carriages that travel on rails, wasted space created by fixed aisles can be eliminated, freeing up valuable floor space for other, more productive uses — including additional storage.

The versatility of Spacesaver High-Density Mobile Systems makes it possible to mount virtually any type of storage housing on our mobile carriages, including your existing shelving and cabinets. No other storage solution is as cost-effective or space-efficient. Regardless of size and weight, our systems can store virtually anything in less floor space.

Spacesaver is the recognized industry leader in high-density mobile storage, with more installations than all other manufacturers combined. We have designed systems to fit almost every situation. Drawing on this vast experience, we provide customers with a storage solution that is custom-configured to meet their specific needs.

Conventional stationary lateral files, shelving and storage cabinets require fixed aisles that waste space.

Spacesaver High-Density Mobile Storage Systems eliminate all but one movable aisle, in most cases saving 50% of your floor space for other productive uses.

Plus, Spacesaver High-Density Mobile Systems allow you to double the storage capacity of your existing space.

FRAMEWRX™ STORAGE SYSTEMS

The most adaptable storage system available. Our highly modular, fully flexible FrameWRX storage system was designed specifically for the healthcare market but we are finding many more uses for it in other markets as well. Bins, trays and pegs hang on its innovative rail system (EZ Rail™) to maximize storage and optimize work space. The FrameWRX storage system can be changed easily and quickly when storage needs change. An optional mobile feature is offered to further increase storage density.

PERSONAL AND EVIDENCE LOCKERS

Spacesaver offers a solid lock on the secure storage needs of public safety and law enforcement organizations everywhere. Spacesaver is now the only company that can provide a comprehensive, customized storage solution — secured from collar to conviction.

Our evidence lockers provide the utmost security and integrity of evidence preservation and retrieval. With our versatile personal storage lockers and gun lockers, we provide the highest level of storage security of any competitive products.

WHY SPACESAVER?

Our extensive network of local Area Contractors provides experience and competency that others simply do not. From architectural constraints and building codes to system design and floor-loading, we have the expertise to handle every issue and customer concern.
