The Falcon Advantage

CAST IRON BASES: DURABLE AND ENVIRONMENTALLY SOUND

- Made from 98% recycled grey iron.
- Solid cast iron (not hollow), makes the base plates dent proof.
- Multiple glide options designed to meet all flooring requirements.
- Bases are drilled and tapped for glides. We do not use glide inserts which can easily break.
- J-Series steel bases offer fully welded construction; perfect for use in high abuse or extra heavy table tops such as stone.
- Proven track record of 51 years, the longest in the industry.

BASE FINISHES: STRONG, SAFE, AND BEAUTIFUL

- Environmentally responsible, blended epoxy and polyester based powdercoat.
- Unique phosphate washing system allows powdercoat to permanently adhere to base withstanding years of use.
- Heavy nickel undercoat is used before the plating process. This important step creates our high-quality finish..

TABLE TOPS: CRAFTSMANSHIP AND DESIGN

- 45lb high-density recycled engineered core provides durability.
- Use of phenolic backing sheet prevents delamination, warping, and surface deflection.
- Mortise and tenon wood edges are durable, while minimizing dirt grabbing gaps.
- High quality finish, consisting of one sealer and two conversion varnish top coats, creates a beautiful and durable matte finish.
- Turn your vision into reality™. We are able to manufacture any size or shape table with multiple non-standard material options.

Why Choose a Falcon Booth?

VALUE

Built with the most durable raw materials, with decades of proven performance.

AVAILABILITY

Built in a furniture factory, with solid craftsmanship, our booths will sit comfortably and last for many years.

CUSTOM CAPABILITIES

In addition to our broad line of standard styles, we offer full custom capabilities, built to your specifications.

VERSATILITY

Our booths can be used in a range of applications, including: restaurants, dining facilities, lobbies, student unions, or anywhere comfortable community seating is needed.

M592

WHAT ARE THE MOST POPULAR BOOTH APPLICATIONS AND WHY?

Cafeterias

- Booth seating allows teams of people to relax during lunch and coffee breaks, in a comfortable environment.
- Booths create the “un office” cafeteria that attracts people to the space, versus leaving the employee to fight the lunch rush at a crowded restaurant. This will increase team building and productivity.
- Booths are a great value. You can often increase the seating density of a dining room without making it feel like a “mess hall”
- Booths provide fixed seating, which will not allow users to rearrange the furniture during the day, leaving a mess or creating a safety risk.

Public Space and Lobbies

- Often thought of as custom lounge furniture, our products are “built to size” allowing for outstanding space utilization.
- Efficient and cost effective, booths provide the ability to fill corners and awkward room sizes and shapes.

Hospitals

- Booths promote privacy for families and staff, enabling sensitive conversations to be conducted in confidence.
- Cafeterias that feel like restaurants help drive traffic to this profitable service area.

Libraries

- Allows groups of students to join together, promoting social interaction, as well as group study.
- Makes going to the library more comfortable for the student.

WHAT ARE THE MOST POPULAR OPTIONS?

- **Wipe out channels** are often added so that crumbs do not fall behind the seat pad.
- **Fabric treatments**, such as vertical channels and headrolls, allow booths to mix fabrics, creating unique textures and contrasts.

Basic Upholstered Back Treatments

Deep Bun Tufts

Deep Diamond Tufting

Headroll

Horizontal Channel Tufts

Deep Vertical Channel Tufts

Plain Roll Border

Plain With Nail Trim

Wipeout Channel

Optional crumb trough, available in wood, vinyl, or laminate, depending on booth construction

WHO CAN HELP WITH FIELD DIMENSIONS AND INSTALLATIONS?

- **We can!** We can measure a project for you. If it has curved walls or unusual corners just call us and we can add this service to our quotation. In addition, each member of our sales team is trained to guide you through this process.
- **Installation is easy.** We carton each booth so that it arrives at the job site in good condition. Once on sight, most people just place them in the room. You can attach to the floor and we have instructions for this process. However that is generally not required.
