This versatile line provides different looks through choice of pulls and exposed or concealed fasteners. RH Series offers all the options, looks and convenience you'll ever need.

RH Series

Room Solutions

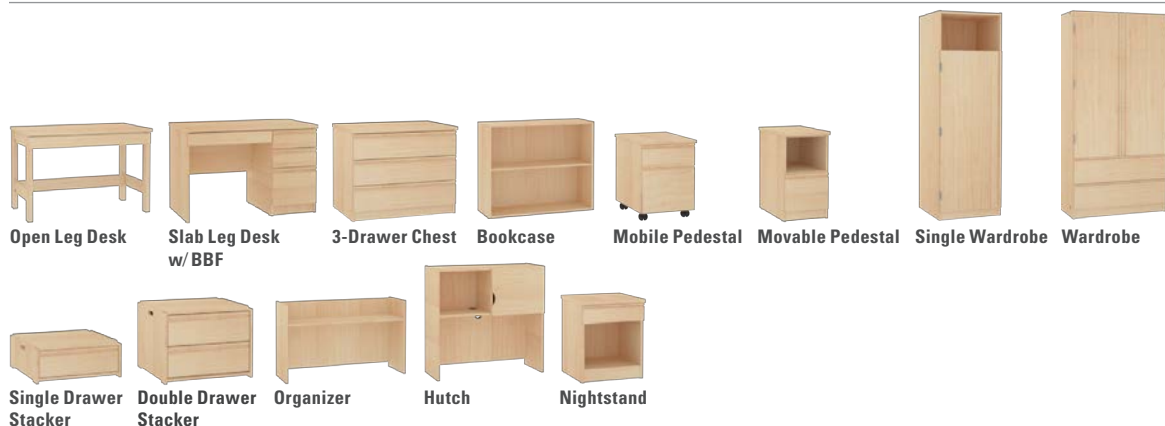

RH Series

features

- Constructed using hardwood veneer plywood panels.
- Glue and dowel or dry-fit construction method. The "dry-fit" construction method uses exposed metal-to-metal fasteners and allows components to be easily replaced in the field without having to invest in an entirely new unit.
- Aesthetic choices. Solid hardwood drawer fronts feature two integral pull choices or an aluminum bar pull for a more contemporary look.
- Dovetail or dowel drawer box construction with removable drawer front, waterproof vinyl bottom and open to 3/4 of their depth.
- Expansive line of desk and storage pieces with a streamlined look to blend with any of our Bed Solutions.

Fabric & Custom Finish Options

If our standard surface materials don't offer what you are looking for, we've made it easy to customize a solution.

CSM Fabrics

Customer Specified Material. Still looking for the perfect fabric? We've made graded in easy. Simply let your sales representative or Customer Service know what fabric you would like on your furniture and we will grade it in. Pricing will vary depending on the fabric cost. Once fabric is approved, we handle procuring the necessary yardage for your furniture. CSM fabrics are applied across the roll, unless otherwise specified.

COM Fabrics

Customer's Own Material. Contact Customer Service to arrange your own fabric on our lounge and seating products. We can provide you with the yardage that is required and you have fabric shipped directly to one of our manufacturing plants. We ask that a sample be sent to us so we can make sure it will work on our lounge or seating products. Once the fabric has been approved, we will notify you that we can proceed with accepting your fabric and producing your order. For COM pricing, use the Price Grade 1 upgrade. COM fabrics are applied across the roll, unless otherwise specified.

CAL 133

California Technical Bulletin 133. CAL133 is a standard for public buildings or public assembly areas that have areas containing 10 or more pieces of seating. Most of our products can be modified to comply with CAL 133 requirements. Contact Customer Service for pricing and approved CAL133 products.

Custom Finishes

Our standard wood and laminate finishes offer a wide variety, however we offer custom finishes to meet the design needs of our customers. Contact Customer Service to discuss our custom finish capabilities.

Additional information regarding CSM & COM Fabrics

Fabrics are applied across the roll [warp horizontal or railroaded are other commonly used terms] unless otherwise specified. Upholstering furniture across the roll allows no seams on sofa backs, settee backs and other larger pieces. Fabric direction varies on samples from textile companies. We encourage you to contact the textile manufacturer for clarification to ensure your furniture gets upholstered how you intended.

Please note, additional yardage may be required based on fabric repeat, pattern, width of role and upholstery direction. Once fabric is selected, Customer Service can determine if additional yardage will be required.
