

RT LONDON®

Furniture Solutions

Welcome to RT London.

Many of the setting shots you will see in this catalogue are photographs of actual installations from across the United States. It's real product - planned, specified and purchased from RT London to create appealing, effective environments.

In our sales process we often use renderings as an important tool to communicate how our settings will look to our customers, but for this catalogue we decided to show you as much of the real thing as possible. What you will see on the following pages is authentic, quality RT London product in environments that are lived in every day.

Our vision is to be the best in
the eyes of the customer.

Scan to watch our company overview video
or view at www.rtlondon.com/about/videos/

American-made.

From the initial design to the final stitch of upholstery, choose products made in the United States.

Customer-inspired design.

We do more than appreciate your input— we build from it.

Sustainable approach.

We're committed to a responsible approach—reducing waste, lowering emissions and using recycled content.

Service experience.

From finish choices to visualizing your new space, to installation, gain from our experienced team.

Life-cycle value.

Our warranty is built upon relevant products that stand the test of time.

Company strength.

Financial strength and stability — it supports and sustains all of our customer relationships.

Our commitment to the future of our environment
means doing all we can—**today.**

Performance Measures

Our practice in reducing energy consumption, emissions, and waste includes a monitoring program to measure Volatile Organic Compound (VOC) emissions from our finishing operations.

Recycled Content

Our EPP certified MDF & ECC certified engineered core panels are made using 100% pre-consumer recycled and recovered wood fiber, saving trees and avoiding the use of landfills.

Air Quality

We are compliant with the California Air Resources Board (CARB) Initiative, which eliminates the use of added formaldehyde in sheet goods.

LEED Participation

LEED Certified, RT London seeks to improve performance metrics for: energy savings, water efficiency, CO2 emissions, and indoor environmental air quality.

Certified BioFlex Upholstery Foam

To help reduce our reliance on petroleum, our upholstered furniture utilizes polyols from soy plants—a natural, renewable resource that won't deplete the ozone.

Sustainable Forestry Initiative

Using Sustainable Forestry Initiative (SFI) Certified wood products for our casegoods helps protect precious natural resources.

customproducts

Custom can mean a lot of things. At RT London, it means tailoring solutions to fit your specific needs.

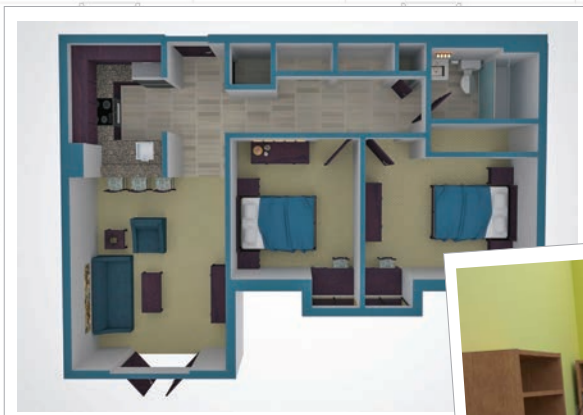

designservices

We're here to help make your project a success. Turn to RT London for interior design expertise. Our experienced staff can help you plan a space from the initial sketch to the final color swatch.

Benefit from our comprehensive array of design services, including:

Space Planning, Fabric and Finish Selection, Floor Plans, Design Sketches, 3D Renderings, Color & Material Boards and Whole Room Packages

installationservices

Once you've selected products for your project, our job is not complete. Our extensive experience has brought us to place a significant emphasis on building, shipping, and installing your project complete and on-time.

Using RT London to coordinate and install your project is the right choice. We review the delivery schedule with you to make sure everyone's expectations are aligned. Our goal is to coordinate the delivery and plan the installation to ensure the completion of your project exceeds your expectations.

Lounge

Baxter

integrated power

Technology has become an important part of our everyday life, but keeping components charged can create challenges.

Integrated power is an option available with several products to provide easy and convenient access to power, whenever you need it.

Power solution includes 2 outlets and 4 USB charging ports. The USB ports will charge smart phones, iPods, e-book readers etc. Use the outlets to charge iPads and laptops. If charging via USB for iPads is desired, it can be ordered through the custom process.

Utilizes patented "Spill-Proof Technology" which allows the power unit to be mounted flush and ensure user safety even if liquid is spilled.

Powered by a simple 3-prong plug and 10' cord to any 15-amp building receptacle. If a hard-wired connection is required, we can provide that solution at an up charge through the custom process.

tables

29 4-Posted | Somerset | Sherwood
Spartan | Zeus | Rambo

30 Westwood | Traverse | Hugo | Lucy

31 Arts & Crafts | Shaker | Walloon
Torch | Cascade | Ross | Bluto

4-posted

Sturdy, solid wood posts make this table strong and durable, yet simple and classic for long-lasting value.

Somerset

Engineered for flexibility, this simple metal post leg table lends itself to any setting.

Sherwood

Solid and strong. 1 1/2" thick hardwood veneer plywood legs with unique interlocking construction and laminate top. It's tough to find a more durable table. Trestle and X-base shown.

Spartan

Versatile and affordable table series. Available in a variety of top shapes and sizes with X and T base options.

Zeus

An incredibly strong yet gracefully proportioned cast-iron base. Available in a variety of top shapes and sizes with X and T base options.

Rambo

Rambo offers a clean look that can handle anything that comes its way. Available in a variety of top and base shapes, sizes and colors.

Tables

Westwood

Solid wood construction and clean lines provide a sophisticated look for living areas.

Sofa Table

Coffee Table

End Table

Traverse

A contemporary mixed-material design, this table line enables a progressive look throughout all areas of a project.

Coffee Table

End Table

Pub-Height Table

Hugo

Clean, linear design of Hugo tables, along with simple storage, provides function to any lounge setting.

Coffee Table

End Table

Credenza

Lucy

Streamlined design and modern style makes Lucy tables a great choice for any contemporary room setting. Foot feet also available.

Coffee Table

End Table

Arts & Crafts

Hand-crafted Mission style. A sturdy choice with eye appeal. Solid hardwood support frame with slat detailing and cut-back legs. Additional sizes available.

Coffee Table

Shaker

The perfect balance between classic style and contemporary lines. Shaker tables are at home anywhere and feature a lower shelf for extra storage. Additional sizes available.

Coffee Table

Walloon

A circular occasional table with four metal legs and a metal trim ring provide a simple elegance with outstanding durability. Additional sizes available.

End Table

Torch

Torch occasional tables cleverly combine metal bases with laminate or wood tops. Its sharp angles evoke a more traditional feel. Additional sizes available.

End Table

Cascade

A common choice when there's a need for occasional tables. Solid hardwood square post legs and rails. Nicely detailed solid hardwood edge on a laminate top. Additional sizes available.

End Table

Ross

Straightforward design. The simplicity of Ross makes it a great choice for any setting. Additional sizes available.

End Table

Bluto

Style meets durability, making it the perfect addition to any lounge setting. Additional sizes available.

chairs

- 33 Iris | Mojo II | Amanda | Atoll | Mia
- 34 Artisan | Melissa Anne | Jill | Atlantis | Siren
- 35 Chloe | Wood Melissa | Masque | Strata
- 36 Student | Tango | Series 95 | Rowdy | InFlex
- 37 Acton | Anytime | Relay | Census

Iris

The simplicity of the molded plywood shell and steel frame combine to create a versatile chair that is well suited for almost any environment.

Mojo II

Gracefully tapered legs distinguish this Euro-inspired shell chair. Chairs stack up to seven high, depending on the back design.

Amanda

Create a custom look by incorporating different cutout and upholstery treatments into chair backs.

Atoll

Atoll encompasses a variety of leg designs. Available in steel or aluminum.

Mia

Mia's ample seat allows for a wide range of custom upholstery applications.

Chairs

Artisan

Artisan’s scale is perfect for smaller spaces.
Customizable back.

Melissa Anne

This chair line offers extensive options to fit a variety
of applications.

Jill

Jill offers an ample seat with a curved back.

Atlantis

Engineered to be strong, yet lightweight. The all-aluminum
models can be used outdoors.

Siren

Straightforward style makes Siren a versatile
choice. The all-aluminum models are ideal for
outdoor use.

Chloe

Defines any room it's in - from reception areas and executive suites to hotel rooms, libraries and cafés.

Wood Melissa

Continuity without conformity. The beauty of Melissa lies in the many looks available including an upholstered or wood seat.

Masque

The elegant lines and generous proportions of Masque are perfect for reception and dining applications.

Strata

With its layered wood and upholstery, Strata is equally inviting from the front or the back.

Chairs

Student

A proven performer over the years with 1" hardwood veneer plywood. Side frames are a single piece. No joints. Glue and dowel construction and metal-to-metal fasteners on back for easy field replacement of upholstery.

Tango

Subtle curves on back and seat. Side frames are single pieces from 1" hardwood veneer plywood. Seats and back are field replaceable.

Series 95

Complete solid hardwood chair in a style that is always acceptable.

Rowdy

Rowdy is a high density stacker. Simplicity at its best.

InFlex

InFlex has multiple options with a polypropylene shell, flex back and metal frame. All adding up to provide a comfortable, yet stylish sit.

Acton

The perfect solution for any meeting of the minds. Acton offers comfort and flexibility for your seating needs.

Anytime

The multi-purpose Anytime chair is ideal for environments where seating flexibility is a must.

Relay

High performance, low maintenance and lasting comfort. Relay is flexible, durable and well-suited for many environments.

Census

The simple adjustments of Census make it just the right chair for any desk or group space.

our adjustable bed story

Our beds have slightly different features and looks, but all have been designed to work effectively with each of our Room Solution lines.

The ability to change bed deck heights without tools, combined with the industry’s most durable method of attaching rails to posts, are key features that make adjustable bed solutions from RT London an informed choice.

Griffin stands alone with basic features at a value-based price point. Tool Free, Breton, Essix and Maxwell are a “family” of bed solutions, sharing a common deck, rail, and pin channel architecture. This allows interchangeability of bed decks between these lines, providing extended value beyond the original purchase price.

For beds, it’s all about choice and durability. That’s real value from RT London.

Eight Heights.
Breton mounts at eight different heights. (Breton Bed with decorative rail shown)

Eleven Heights.
Griffin, Tool Free, Essix and Maxwell mount at eleven different heights. (Tool Free Bed with decorative rail shown)

Griffin

Our simplest bed provides a durable solution at a low price point. Modified mortise and tenon construction along with stand alone accessories makes Griffin a very competitive bed.

Lofted

Bunked

Tool Free

Our original adjustable height bed made of solid wood, has stood the test of time.

Lofted

Bunked

Breton

The modified mortise and tenon construction of this bed solution, combined with the durability of solid wood posts with a captured pin channel offers you the best of both worlds.

Lofted

Bunked

Essix

The strength of extruded aluminum posts, combined with the strength of metal-to-metal connections on all headboards puts Essix in an elite class.

Lofted

Bunked

Maxwell

You will not find a stronger bed. Powder coat steel rails with a modified mortise and tenon construction give the Maxwell bed a distinct advantage over the competition.

Lofted

Bunked
