-------------------------	-----

APPLICATIONS

Artopex chairs satisfy all of the requirements of any office. Refer to the category descriptions below to find the specific model that will fit the task required. The grid indicates the page numbers of the seating products with their corresponding suggested uses.

Lounge

Seating used in a waiting room, lobby or executive office. Use to create an inviting environment and to reflect a corporate image. The modular collections can be used in collaborative work spaces.

Reception

Seating used in a reception area to accommodate visitors for a short period of time. The mobility of the seating products allows for greater flexibility.

Visitor

Seating generally used to accommodate a visitor at a work station. Certain models of executive chairs with a low backrest can be used as visitor seating to match the executive desk chair.

Task

Chair having an ergonomic comfort level adapted for everyday use. Ideal for clerical work stations.

Intensive use

Chair with heavy duty components providing high level of ergonomic comfort. Ideal for use on multiple work shifts. (Warranty based on forty (40) hours per week use)

Stool

Generally paired with high surface furniture. Footrest included.

Executive

Executive chair with a more distinguished look. Available in a high backrest version and can be specified with high end components.

Conference

Chair used around a conference table – mobile and comfortable, similar in appearance to an executive chair.

Training

Chair suitable for training rooms requiring frequent reorganization. Generally with a 4-legged base or a sled base allowing for storage below the seat.

Convention & Café

Lighter and stackable, this chair can be transported on an adapted cart. Optional attachments to join chairs side by side available.

GENERAL INFORMATION

FABRICS

Standard

The Artopex price list is divided into 5 grades of fabric and also includes leather. The color choices of Grades 1 and 2 as well as leather are shown and coded on the Artopex Seating Fabric Card.

Pre-graded and tested complementary fabrics

A list of complementary pre-graded and tested (by Artopex) fabrics is available at www.artopex.com. Refer to the supplier web sites to view the available choices and order samples of fabrics on this list.

C.O.M. orders

Artopex seating products can be specified with fabric supplied by the client (C.O.M. order). The base price for C.O.M. orders is equivalent to an Artopex Grade 2 fabric, the price listed in the second column of the price list (COM/Gr.2), to which the chosen options are added. The C.O.M. orders must clearly indicate the color, pattern, width of the fabric as well as the manufacturer or distributor using a form obtained from Customer Service.

Upon request by Customer Service, a 12"x12" (305 x 305mm) fabric sample must be sent pre-paid to Artopex Customer Service: ARTOPEX, 800 Vadnais, Granby, Qc, Canada, J2J 1A7. Once the sample and the order are approved, Customer Service will confirm the instructions for shipping the fabric to our plant. For C.O.M. orders, the order's delivery date is set once the fabric is received by Artopex. Artopex is not responsible for the quality and durability of any fabric not offered on our standard card.

California Technical Bulletin 133

Artopex seating products can be ordered compliant with the California Technical Bulletin 133 (CAL 133) used primarily in public buildings without sprinkler systems. In order to be compliant, the fabrics must be certified CAL 177 or CAL 133 and a fire blocking material, which prevents fire from spreading, must be installed under the fabric by Artopex.

The price is calculated as follows:

- Use the number of yards for C.O.M. fabrics in the price list and multiply by \$77 (list price) to calculate the upcharge.
- To obtain a certificate from an independent laboratory, you must pay the price of the compliant product to be tested plus a NET cost of \$775 to cover the costs of transportation, testing and the issuing of the certificate.

Contact Customer Service for CAL 133 product compliant procedures..

FINISHES

Mesh

The flexible mesh knits, "Aero Mesh", "Spacer Mesh" and "Urban Mesh", are for specific series only. The available colors can be viewed at www.artopex.com.

Plastic

A plastic color must be specified for certain models. According to the series (Headliner, Flashback or Xpresso), refer to the product description for details on the type of plastic and color choice. The colors can be viewed at www.artopex.com.

Metal

For certain series such as Lancelot Platform, Passenger and Minimax, a metal finish must be specified. Refer to the product description and view color choices on the enamel color cards 1 and 2.

Wood

A wood finish must be specified for the wood lounge seating footings and the Bahia collection, made from solid cherrywood. Refer to the "Symphony" color card, "Wood - Seating Collection" section.

For the tables in the Bahia collection, all the finishes in the "Symphony" color card are available (reconstituted wood veneer, lacquer, Soft-Touch and glass). Due to the nature of wood, colors may differ from one product to the next depending on the porosity and natural color of the wood used.

Lacquer

A lacquer finish is available on Bahia collection tables. It is an opaque white paint with a matte finish that is soft to the touch. The finish is very resistant to stains and scratches under normal office work conditions.

Soft-Touch

Soft-Touch is a material similar to leather that is available on Bahia series tables. Beige topstitching is added for a high quality finishing touch. Soft-Touch is available in black, dark brown, terra cotta or cream. Refer to the "Symphony" card to view colors.

Glass

Glass is available on Bahia series tables. It is a 6mm thick tempered glass that is polished on the edges. It is a clear glass whose exposed surface is acid treated resulting in a frosted look. The opposite side is painted white making it opaque.

PICTOGRAMS

The pictograms provide a quick reference for features of each series and are placed above the product descriptions in the price list.

Moisture-wicking fiber

Series designed with a layer of moisture-wicking fiber placed between the polyurethane foam and upholstery fabric. This layer helps to eliminate the accumulation of moisture from prolonged contact with the user's body, the seat and backrest.

Ultraflex® membrane

Series equipped with UltraFlex® technology exclusive to Artopex. It is designed with a wood or metal structure which is covered with an Ultra-Flex membrane that increases comfort and provides better ergonomics.

Various widths

Series available in more than one seat width. Applicable in lounge seating (chairs, love seats, sofas) as well as task seating (narrow, standard, large, x-large).

Ergonomic certification

Series was tested by Dr. Charles Côté, Ph.D. in Workplace Ergonomics and his team who certified that the chair distinguishes itself by its contribution to ergonomics for seated work.

Greenguard certified

Series Greenguard certified for indoor air quality in buildings. Laboratory testing certifies that the collection has very low volatile organic compound air emission levels. This certification means that the collection also meets its equivalent at BIFMA, BIFMA X7.1.

Intensive use

This series is designed with features aimed at durability providing the highest level of ergonomic comfort possible for use over multiple work shifts. According to its environment and use, certain components are recommended; contact your representative for more details.

Product delivered semi-assembled

Series packaged semi-assembled in order to minimize space for more economic and environmentally-friendly shipping.

Stackable

Chairs in this series can be stacked, one on top of the other, to facilitate storage.

Nesting

Chairs in this series can be nested, one behind the other, allowing them to be rolled as a unit to facilitate storage.

ERGONOMIC CERTIFICATION

Artopex manufactures its seating products in the best working conditions, with the highest quality materials, qualified personnel and cutting edge technology equipment.

In a review of the design of Artopex's ergonomic task chairs, an ergonomic research team from the University of Quebec completed a study, presented recommendations and then evaluated the final product.

The review resulted in the certification and recommendation of Artopex's chairs by Dr. Charles Côté, Ph.D. in Workplace Ergonomics and his team.

Certified series :

- Dotcom
- Loveflex
- Vortex
- Wingo.

These series proved notable for:

- Simple adjustments.
- Promoting good working posture.
- Minimizing fatigue by allowing for proper blood circulation.
- Providing comfort for the main body pressure points in contact with the chair.

Visit www.artopex.com for a copy of the certificate.

STRUCTURE AND MATERIALS

The Artopex chair structures vary according to the collection and the client's specification.
Refer to the information indicated in the price list for the structures available according to the model.

"Wood" structure

The wood structure can be specified for the seat and backrest. It is comprised of molded plywood covered in polyurethane foam and a moisture-wicking fiber.

"Flex" structure

The "Flex" structure can be specified for the seat and backrest. It is comprised of a tubular steel or hard wood frame covered with an Ultra-Flex® membrane and polyurethane foam and a moisture-wicking fiber.

"Canvas" structure

The "Canvas" structure can be specified for the backrest. It is comprised of a tubular steel frame on which a nylon material is attached, covered in polyurethane foam and a moisture-wicking fiber..

"Mesh" structure

The "Mesh" Structure can be specified for the backrest. It is comprised of tubular steel or molded plastic frame on which a polyester mesh material is attached.

"Plastic" structure

The polypropylene plastic or nylon structure can be specified for the backrest according to the chair model. The plastic backrest has a choice of fabric upholstered polyurethane foam cushion or incorporated mesh knit (back).

Polyurethane foam

The polyurethane foam meets the ASTM standards for high resilience on the majority of the collections to ensure a longer lifecycle. On all task series, the foam of the seat is molded to respect the maximum ergonomic specifications.

Moisture-wicking fiber

The moisture-wicking fiber placed between the polyurethane foam and upholstery fabric eliminates moisture generated from prolonged contact of the user's body, the seat and backrest.

Ultra-Flex® membrane

The UltraFlex® membrane is exclusive to Artopex. This technology allows for the even weight distribution where it comes in contact with the chair, eliminates pressure points and centers the pelvis on the chair. The structure with the UltraFlex® membrane allows for better blood circulation, better work posture and a much higher level of comfort.

Illustrations of wood and Ultra-Flex® structures.

Wood seat and backrest (WW)

Ultra-Flex® seat and backrest (FF)

BASES

5-prong bases

5-prong bases are available in two models in a black or chrome finish. The prices listed refer to a chair equipped with a 5-prong base in black nylon and an upcharge is applied if another base is chosen. Refer to the specific information for each chair model for a list of available options.

VN base

- Reinforced molded nylon tapered.
- Lightly textured black finish.
- 27" diameter.

ZN base

- Reinforced molded nylon/rounded design.
- Lightly textured black finish.
- 27" diameter.

ZC base

- Aluminum alloy rounded design.
- Polished finish.
- 27" diameter.

ZB base

- Aluminum alloy rounded design.
- Polished finish.
- Black nylon protective caps.
- 27" diameter.

VC base

- Aluminum alloy tapered.
- Polished finish.
- 27" diameter.

TN base, stool

- Reinforced molded nylon/rounded design.
- Lightly textured black finish.
- 27" diameter and 10.625" cylinder.
- 360° footrest, 20" diameter, chrome finish and height-adjustable.

TC base, stool

- Aluminum alloy rounded design.
- Polished finish.
- 27" diameter and 10.625" cylinder.
- 360° footrest, 20" diameter, chrome finish and height-adjustable.

TB base, stool

- Aluminum alloy rounded design.
- Polished finish.
- Black nylon protective caps.
- 27" diameter and 10.625" cylinder.
- 360° footrest, 20" diameter, chrome finish and height-adjustable.

Sled and 4-legged bases

Bases are specific to each collection and are painted black.

- 4-leg base option :
- casters for carpet (H)
 - casters for hard surfaces (S)
 - glides.

FOOTINGS

Lounge seating collections have their own footings. Refer to the specific information for the collection for details.

Four choices of footings are available on 5-pronged bases and on certain 4-legged bases: casters (H or S), glides or a mix of both.

"H" caster

- Casters for carpeting
 - Lightly textured black nylon
 - 2" diameter with double drum.
- * For VN and VC bases, the caster has a 2.375" diameter.

"S" caster

- Casters for hard surfaces.
 - Lightly textured black nylon.
 - 2" diameter with double drum.
 - The center of the caster is nylon covered in ultra-soft urethane for a smoother rolling motion.
- * For VN and VC bases, the caster has a 2.375" diameter

"G" glide

- Lightly textured black nylon.
 - 2" high
- * On VN and VC bases, the glide is 2.375" high.

"M" mixed

For 5-prong bases for stools (TN, TC and TB), a mixed option can be specified: 3 "H" casters and 2 "G" glides will be installed on the base.

Gas cylinder and screw column

The 10 and 20 mechanisms are equipped with a screw column (manual adjustment) with a travel of 5".

The 11, 13, 17, 21, 31, 41, 51, 61, 63 and 71 are equipped with a gas cylinder with a 5½" travel and a pressure of 300 Newton.

When the seat slide option is specified (S), the travel for the 41 and 71 mechanisms becomes 4", as with the 81 mechanism.

Back height adjustment option (option R)

This option allows a backrest adjustment of 3".

The option is available on certain mechanisms only, add "R" after the mechanism code (ex. mechanism #21 becomes #21R) and add \$25.

Seat sliding option (option S)

This option allows a front-to-back sliding seat adjustment of 2½", to adjust the seat depth. The option is available on certain mechanisms only, add "S" after the mechanism code (ex. mechanism #21 becomes #21S) and add \$55.

Not available on X-Large seat widths.

Combined options (option F)

Backrest height adjustment & sliding seat

The option is available on certain mechanisms only, add "F" after the mechanism code (ex. mechanism #21 becomes #21F) and add \$80.

Not available on X-Large seat widths.

MECHANISM SPECIFICATIONS

Mechanism 10

- 360° swivel on column axis.
- Height adjustable (screw).
- Compatible with option R, S and F.

Mechanism 11

- 360° swivel on column axis.
- Height adjustable (gas cylinder).
- Compatible with option R, S and F.

Mechanism 13 and 17

- 360° swivel on column axis.
- Height adjustable (gas cylinder).

Mechanism 20

- 360° swivel on column axis.
- Height adjustable (screw).
- Chair tilts towards back from 3° to 20° (center pivot).
- Tilt lock to one position, at 3°.
- Adjustable tilt tension.
- Compatible with option R, S and F.

Mechanism 21

- 360° swivel on column axis.
- Height adjustable (gas cylinder).
- Backward tilt from 3° to 20° (center pivot).
- Tilt lock to one position, at 3°.
- Adjustable tilt tension.
- Compatible with option R, S and F.

Mechanism 31

- 360° swivel on column axis.
- Height adjustable (gas cylinder).
- Backward tilt from 3° to 18° (center pivot).
- Adjustable tilt tension.
- Tilt lock to one position, at 3°.
- Adjustable angle on back from 86° to 121°.
- Compatible with option R, S and F.

Mechanism 41

- 360° swivel on column axis.
- Height adjustable (gas cylinder).
- Synchro tilt of seat from -1° to 10° (center pivot) and of back from 90° to 110°.
- Adjustable tilt tension.
- Tilt lock in 5 positions.
- Compatible with option R, S and F.

Mechanism 51

- 360° swivel on column axis.
- Height adjustable (gas cylinder).
- Backward tilt from 3° to 17° (center pivot).
- Adjustable tilt tension.
- Tilt lock in all positions.
- Adjustable backrest angle from 80° to 108°.
- Compatible with option R, S and F.

Mechanism 61S

- 360° swivel on column axis.
- Height adjustable (gas cylinder).
- Synchro tilt of seat from 1° to 4° (center pivot) and of backrest from 90° to 106°.
- Automatic tilt tension adjustment.
- Tilt lock in 5 positions.
- Adjustable seat depth of 2".
- Compatible with lumbar support option (L).

Mechanism 63S

- 360° swivel on column axis.
- Height adjustable (gas cylinder).
- Synchro tilt of seat from 2° to 7° (center pivot) and of backrest from 95° to 120°.
- Adjustable seat depth of 2".
- Adjustable tilt tension.
- Tilt lock in 8 positions.
- Compatible with lumbar support option (L).

Mechanism 71

- 360° swivel on column axis.
- Height adjustable (gas cylinder).
- 20° backward tilt starting from initial position adjustable between -4° to 5°.
- Adjustable tilt tension.
- Tilt lock in all positions.
- Adjustable backrest angle from 89° to 105°.
- Compatible with option R, S and F.

Mechanism 81

- 360° swivel on column axis.
- Height adjustable (gas cylinder).
- Synchro tilt of seat from -2° to 11° (front pivot) and of backrest from 85° to 105°.
- Adjustable tilt tension.
- Tilt lock in 5 positions.
- Compatible with option R.

- Reinforced steel frame covered in urethane.
- Medium firmness (4/5).
- 3" width adjustment on certain models.

FXT - Attached arms with writing tablet

- Style varies according to model.
- Firmness varies according to model.
- Not adjustable.

FD - Closed fixed arms

- Reinforced steel frame covered in urethane.
- Medium firmness (4/5).
- 3" width adjustment on certain models.

FZ - Attached arms

- Polished aluminum frame arm.
- Medium firmness (4/5).
- Armrest upholstered with the same fabric as the chair.
- Not adjustable.

ARM SPECIFICATIONS

ADJUSTABLE ARMS

AS - Adjustable arms

- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a push button.

AX - Adjustable Arms with multi-axis armrests

- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Front-to-back armrest adjustment.
- 3" width adjustment.
- Height adjustment of 3" using a lever.

AD - Adjustable arms

- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a lever.

AY - Adjustable arms with multi-axis and pivot armrests

- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Lateral and front-to-back armrest adjustment.
- Height adjustment of 3" using a lever.
- Pivot of -30° à +30°.
- 3" width adjustment on certain models.

AZ - Adjustable arms with multi-axis and pivot armrests

- Black nylon arm, polished aluminum attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 2 3/4" using a push button.
- Pivot of -30° à +30°.
- Front/back adjustment of 2".

AX and AY - lateral adjustment

AW - Adjustable arms with pivot

- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a lever.
- Pivot of -30° à +30°.
- 3" width adjustment.

AX and AY - front-to-back adjustment

AW, AY, AZ - arm pivot adjustment

AA - Adjustable generic arms

- Black nylon arm, polished aluminum attachment with urethane armrest.

- 3" width adjustment using a lever
- Other adjustments depending the model

AG - Adjustable arms

- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a lever.
- 3" width adjustment

AN - Adjustable generic arms

- Black nylon arm, nylon attachment with urethane armrest.
- Medium firmness (3/5).
- Armrest adjustment
- 3" width adjustment using a lever.
- Other adjustments depending the model

AR - Adjustable arms

- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a lever.
- 3" width adjustment

AP - Adjustable arms

- Black nylon arm, steel attachment with urethane armrest.
- Medium firmness (3/5).
- Height adjustment of 3" using a lever
- 3" width adjustment

seating

Price list

TASK

The Dotcom chair is available in four seat widths (narrow, standard, large and x-large) and four backrest heights (low, medium, director and high).

The "wood" structure is comprised of molded plywood, molded polyurethane foam and a layer of moisture-wicking fiber. The "Flex" structure is comprised of a tubular steel frame covered with an Ultra-Flex® membrane, molded foam (seat) or foam slab (back) and a layer of moisture-wicking fiber. The "Flex" seat and backrest are upholstered with removable fabric slipcovers. The seat is attached to a mechanism and connected to a 5-prong base by a gas cylinder or screw mounted column. It is also available with a sled or 4-leg base.

SPECIFICATION

1 Width - seat

on chairs with 5-prong bases

headliner

price list

The Headliner series is available in 2 backrest heights (medium and high). The high back includes a headrest.

The backrest consists of a molded plastic structure incorporating either "Urban Mesh", a plastic backrest or an upholstered cushion insert on the front, leaving the plastic frame of the backrest visible.

Height-adjustable lumbar support is available as an option on the mesh backrest. The seat is made of a molded plastic structure that integrates the seat sliding mechanism. The "waterfall" front of the seat is comprised of molded polyurethane high-density foam.

The seat is attached to the seat sliding mechanism and connected to one of the available 5-prong base models by a gas cylinder.

SPECIFICATION

The LoveFlex series is available in three backrest heights (low, medium and high).

The "wood" structure is comprised of molded plywood, molded foam and a layer of moisture-wicking fiber. The "Flex" structure is comprised of a tubular steel frame covered with an Ultra-Flex® membrane and molded foam (seat) or foam slab (backrest). The "Flex" seat and backrest are upholstered with removable fabric slipcovers. The seat is attached to a mechanism and connected to a 5-prong base by a gas cylinder or screw mounted column. It is also available with a sled or 4-leg base.

Arms : (NA) no charge, (FT, FG or FD) +\$100.

Footing : Casters (H) or (S), glides (G).

Fabric : Artopex seating fabrics.

The Vortex series is available in 3 seat widths (narrow, standard, large) and 4 backrest heights (low, medium, director and high).

The "wood" structure of the Vortex consists of 3D molded plywood, molded polyurethane foam and a layer of moisture-wicking fiber. The "Flex" structure is comprised of a tubular steel frame covered with an Ultra-Flex® membrane, molded polyurethane foam and a moisture-wicking fiber layer. The backrest and "Flex" seat are upholstered with removable fabric slipcovers. The front of the seat has a "waterfall" edge. The seat is attached to a mechanism and connected to a 5-prong base by a gas cylinder or screw mounted column. It is also available with a sled base.

SPECIFICATION

The Wingo series chair is available in 2 seat widths (standard and large) and 2 backrest heights (medium and high).

The "Flex" seat is comprised of a tubular steel frame covered with an Ultra-Flex® membrane, molded foam and a moisture-wicking fiber layer. The wood seat is molded plywood and molded polyurethane foam. The backrest consists of a tubular steel frame covered with an Ultra-Flex® membrane, molded foam and a layer of moisture-wicking fiber.

The "Flex" seat and backrest are upholstered in removable fabric slipcovers. The seat is attached to a mechanism connected to a 5-prong base by a gas cylinder or a screw mounted column. A sled or 4-leg base is also available.

Price list

LOUNGE

The Aramis series armchairs are available in 2 models: backrest and seat upholstered or backrest in polyester "Aero-Mesh" with an upholstered seat. Aramis is available with chrome legs.

The upholstered model is comprised of a tubular steel frame covered with a reinforced nylon membrane. The membrane is covered in polyurethane foam and a layer of moisture-wicking fiber. The polyester mesh model has a tubular steel frame backrest covered in polyester "Aero Mesh".

The seat has a plywood frame covered with an Ultra-Flex® membrane, high density polyurethane foam and a layer of moisture-wicking fiber.

SPECIFICATION

1 Structure

Fabric seat
Fabric back

Fabric seat
"Aero Mesh" back

2 Chrome footings

• C

3 4 Fabric 1 and Fabric 2

When ordered with the UU structure (upholstered seat & backrest), it is possible to specify different fabrics for both seat and backrest. The "Fabric 1" will be applied on the backrest and the "Fabric 2" will be applied on the seat.

• Fabric 1 - backrest

• Fabric 2 - seat

Price

Pricing will be determined by Fabric 1.

When leather is specified for Fabric 1 or Fabric 2, the price is calculated as follows :

- If Fabric 1 is leather, subtract \$175 from the price of the chair.
- If Fabric 2 is leather, add \$175 to the price of the chair.

Backrest mesh

If the chair is specified with the UE structure (mesh), only the seat's fabric (Fabric 2) must be specified. The "Aero Mesh" fabric is always black.

Fabric : Artopex seating fabrics.

The Cyrano series chairs, love seats, sofas, benches and ottomans are modular and can be placed together to form various configurations. They can then be joined using ganging brackets located under the seat. All models can be ordered with or without backrest, and with or without arms. Cyrano is available with metal "Deco" style footings from the Artopex Air Line series or with casters (1 place chairs only).

Two models are available to create curved configurations: chairs with forward-arched backs and chairs with backward-arched backs.

The backrest and the seat are made of a plywood frame covered with an Ultra-Flex® membrane, high-density polyurethane foam and a layer of moisture-wicking fiber. The arms are made of a plywood frame covered by a reinforced nylon membrane and polyurethane foam.

lancelot platform

price list

The Lancelot Platform series is modular, installed on a platform with 2 or 3 legs. Chose the base and add the desired modules to create a variety of configurations. The specified configuration will be factory-assembled with the exception of the legs.

The backrest and the seat are comprised of a plywood frame covered with an Ultra-Flex® membrane, high-density polyurethane foam and a layer of moisture-wicking fiber. The arms are made of a plywood frame covered by a reinforced nylon membrane and polyurethane foam.

The platform base is made of a 2" thick lightweight "honeycomb" panel, laminated on both sides. The legs are made of 3"x1" tubular steel, "Techno" style footings from the Artopex Air Line series.

SPECIFICATION

Product configuration

To specify, combine a base with one or more modules.

passenger / voyager-beam

price list

The Passenger and Voyager series can be specified individually or in typical configurations (single or double rows).

PASSENGER

The one-piece design consists of a tubular steel frame covered in an Ultra-Flex® membrane, high-density polyurethane foam, followed by a removable fabric cover. Molded channel where the seat and back meet.

VOYAGER

The one-piece design consists of a tubular steel frame covered in an Ultra-Flex® membrane on the backrest and a molded hardwood plywood seat. The frame is covered in high-density polyurethane foam followed by a fabric cover.

The Passenger/Voyager System structure (base) is comprised of a main beam and aluminum supports. The glides and finishing caps are made of zinc alloy, with a thermosetting powder finish. The main beam can be specified with an enamel finish; the legs and armrests can be specified in an enamel or chrome finish.

An "ottoman" model and footrest are available for both series.

IMPORTANT: This product is delivered UN-ASSEMBLED. Assembly requires the use of certain tools listed in the installation guide, included with the product.

Price list

VISITOR

Bahia is a 4-leg chair with a hardwood structure. It is offered in armchair or love seat models with a choice of upward- or downward-sloping arms.

The seat is comprised of a wood structure with an Ultra-Flex membrane, upholstered in high density polyurethane foam. The backrest is comprised of a plywood and hardwood structure, covered with a canvas, polyurethane foam and a layer of moisture-wicking fiber. A topstitching option is available on the backrest. A two-seater bench is also available.

Occasional tables are available in 2 heights. They are comprised of a hardwood structure and the surface can be specified in wood, lacquer finish, "Soft-Touch" (with topstitching) or glass. When specified with a glass top, the table's structure and surface is made of wood and a 6mm thick tempered glass is attached to the surface.

flashback beam

price list

The Flashback beam system is comprised of polypropylene plastic chairs with optional seat and backrests upholstered with polyurethane foam and fabric.

The beam structure consists of a 1½" by 3" tubular steel frame, mounted on two 2" by ¼" flat support legs painted with an electrostatic powder coating finish.

A double leg is available to join two beams together. The arms are made of 1" tubular steel with a black plastic armrests that can be attached or removed using simple tools. In the place of a seat, a 1" thick table in a choice of TFL (Thermally Fused Laminate) or HPL (High Pressure Laminate) is available as an option.

To provide flexibility in configurations and color schemes, the system is ordered separately: beam, legs, modules (seat or table) and arms.

headliner beam

price list

The Headliner beam system is comprised of polypropylene plastic chairs with optional seat and backrests upholstered with polyurethane foam and fabric.

The beam structure consists of a 1½" by 3" tubular steel frame, mounted on two 2" by ¼" flat support legs painted with an electrostatic powder coating finish.

A double leg is available to join two beams together. The arms are 1" tubular steel with a black plastic armrest that can be attached or removed using simple tools. In the place of a seat, a 1" thick table in a choice of T.F.L. (Thermally Fused Laminate) or H.P.L. (High Pressure Laminate) is available as an option.

To provide flexibility in configurations and color schemes, the system is ordered separately: beam, legs, modules (seat or table) and arms.

Prices and Payment

All prices shown in this price list are suggested retail prices and are subject to change without notice. Prices do not include installation and shipping costs. Taxes are extra. These prices are guaranteed for 30 days from the date of quotation and are firm and final after acceptance of the order. Orders are invoiced at the time of shipment. Terms of payment are net 30 days from date of invoice. Any products sold by Artopex shall remain its property until fully paid in cash. In the event that the purchaser defaults in the payment of any sum due to Artopex, or in the event the purchaser's financial condition becomes unsatisfactory to Artopex, Artopex reserves the right upon notice to the purchaser, to defer or discontinue shipment of any goods or, to refuse any order until such time as the default is corrected or the purchaser provides assurance of payment to Artopex.

Orders

Artopex requires that all orders be submitted in writing to avoid errors and/or duplication. The purchaser is responsible to submit complete orders. Incomplete or incorrect orders (finish colors missing...) will be processed upon reception of the complete information and normal production lead-time will be applied from the date that the complete information is received.

Acknowledgments

Orders will be acknowledged with Artopex acknowledgement forms governing the transaction. The details appearing on this acknowledgment will describe the items to be shipped to the purchaser and the ready to ship date (not the actual shipping date). It is the purchaser's responsibility to verify that the acknowledgment information is correct. The purchaser must notify Artopex in writing of any errors within 48 hours. Corrections after 48 hours could be subject to extra charges (see Changes and Cancellations).

Changes and Cancellations

Order cancellations or changes are subject to acceptance by Artopex. Special order items and upholstered items (standard or COM fabrics) already in production are not subject to change or cancellation under any circumstances.

A) Changes : Standard product already in production will be subject to a 25% change surcharge. Changes to the shipping date must be anticipated.

B) Cancellations : Artopex reserves the right to invoice the purchaser for any items already in production at the cancellation date and for lost profit on the remaining items.

Storage

Artopex reserves the right to invoice the purchaser for storage charges in specific cases.

Shipping

A) Prices are F.O.B. factory, collect.

B) Artopex will choose the carrier unless otherwise specified by the purchaser. Goods will be handed over to the common carrier in good condition; Artopex liability ceases at this point. Deliveries will be done at the purchaser's unloading dock. The purchaser should have an unloading dock able to accommodate 53' trailers and must supply the unloading personnel.

C) Claims : Artopex is not responsible for damage that occurs in transit or in storage. It is the purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier. Failure to provide an adequate description of the lost items or damages to the carrier could result in the carrier's refusal to honor the charges. It is the purchaser's responsibility to obtain information on the carrier's claim policies and to send any claims to the carrier. For other policies, contact Customer Service.

D) It is the purchaser's responsibility to file any claims even if the order has been shipped directly to the client.

Return of Goods

A) No merchandise may be returned without Artopex written consent and shipping instructions. If this procedure is not followed, the merchandise will not be accepted by the factory and will be reshipped collect without further notice.

B) Goods must be returned properly packaged and all boxes must be clearly marked with the authorization number.

C) Return of items authorized by Artopex are subject to a charge of 25% plus freight (and customs, if applicable) and repair costs (if required).

Product Specifications

Artopex reserves the right to modify the specifications of products, materials, design or accessories without notice.

Artopex also reserves the right to cease production of any product at any time. The products, accessories, materials and finishes as described in the price list prevail over the content of brochures or folders. The weights and volumes shown on the price lists include packaging and are approximations.

Artopex Warranty

Artopex warrants its products against material and manufacturing defects for a period of 5 years.

If written notice of the defect is given to Artopex within the applicable warranty period, Artopex will repair or replace with comparable product, at Artopex's choice, without charge to the original purchaser, any part or product shipped after July 1, 2001, which fails under normal use as a result of such defect.

Non-standard products have a warranty of 1 year from the date of delivery.

On products warranted for a specified number of years of single shift usage, the warranty period will be reduced in a pro-rata manner when the products are used in a manner that exceeds the equivalent of a single shift forty (40) hour work week. Products used 24/7 or in high traffic public spaces such as airports and hospitals are covered by the warranty for 1 year from the delivery date.

This warranty is the Customer's sole remedy for product defect. This warranty does not cover damage by a carrier in transit. Artopex makes no warranties, including the implied warranties of market value or utility for a particular purpose, other than the express warranties contained herein. There are no other warranties express or implied. Artopex shall not be liable for consequential or incidental damages arising from any product defect.

This warranty does not extend to :

- Customer's Own Material (COM) or special finishes applied to Artopex products.
- Products which have been modified or have not been installed or used according to Artopex application and installation guidelines.

*Designing, manufacturing, advising, planning
and supporting: that's the art that
distinguishes our purpose at Artopex.*
