beam assembly with removable inner panels

Media Sharing Tables.
Turnkey integrated solutions.

Concurrence Media Sharing Tables support collaboration and facilitate highly interactive meetings. Designed as furniture, not rolling AV racks, all wires, cabling, and technology is neatly hidden between panels and inside the structural trough under the table top.

Video Sharing technology is simple to use. After connecting to your computer, simply press the button on the "Show Me" cable to take control of the display. It's fast and easy with no password or special software required.

Choose what you need: 2, 4, or 6 HDMI "Show Me" cables; single or dual monitors; seated or standing height; with a single or double mast; storage; segmented trim. A wide variety of top shapes, sizes, edges and finishes are available to meet your requirements.

VS tables are one order from one source without the need for an outside technology integrator. Decide on your table specifications, add the technology, and we can even include a Samsung commercial grade monitor. Plug it in and everything works. We've made it simple, and your teams will thank you.

Conference table power and data.
Let us design a solution for you.

We make it easy to choose the right Power/Data assembly, assuring you have a highly functional yet cost effective solution. With a little bit of planning, connecting a table or a training room can be simple – usually without the added complexity and expense of a technology integrator. Listed below are planning tips to help assure an impressive, productive installation.

Step 1 – Determine the number of power outlets needed.
Based on the size of the table and type of space, determine how many users might need power.

Step 2 – Determine the number and type of datacom connections needed.
Which systems require physical connections? If the room or facility has a wireless network, fewer will be needed.

Conference Table Solutions

|	Product	# Power Outlets	# Datacom Ports	Datacom Options	Key Features and Description
	Alexander Linear, Double-sided	4, 6 or 8	4 or 6	▲	*Modern long rectangular shape aesthetics with pop-up doors. Two 10' cords.*
Best Seller	Ellora, Double-sided	4, 6 or 8	4 or 6	▲	*Aesthetics. Flush fit door with cable drop space. Available with pre-wired dual charging USBs in one or more Datacom ports. Daisy-Chaining is optional.*
	Oasis 30"	12	4 Multi-option Plates	●	*The most substantial solution for conference applications. Retracting doors.*
Best Seller	Oasis 15"	6	2 Multi-option Plates	●	*Great flexibility. Retracting doors flush with surface. 9' power cord.*
	Alexander, Double-sided	4 or 6	4 or 6	▲	*Modern aesthetics with pop-up doors. Two 10' cords.*
	Flip-n-Go	2	1 Multi-option Plate	●	*Popular choice for multiple mobile table applications. Flush-fit doors with cable drop space. Convenience Outlet on bottom. 6' or 9' power cord. Includes 15A 125V circuit breaker for overload protection.*
Specialty	Foundation Trough Kit	3-27	1-9 Multi-option Plates	●	*Doors lay flat when open. Power Data varies by table size.*
Specialty	CHI, NYC, SF	See Price List or contact quotes@enwork.com			
Floor	Rialto	2, 4, or 6	NA	NA	*Modular and portable floor power solution to get power from wall to center of room. Includes two data cable routing channels. 108" with 36" extensions available. 6' power cord.*

Training and Teaming Table power and data. We've got you covered.

Step 3 – Determine which Power/Data unit best fits your requirements.
Use the Conference and Training/Teaming charts as well as the detailed descriptions in the Price List to compare capabilities and features.

Data Options – Each unit is marked with an ▲ or ● to identify the category of datacom options available.

Step 4 – Determine the location and orientation of the Power/Data units in the table top.
The position of units in a table affects both user access and the ease with which power and data can be routed into the table.

Step 5 – Don't forget to order accessories
Cable Grippers, Cable Managers, and other accessories help keep all the wires and cables organized and out of sight. Available options are shown on the next page.
