Laminates

BenchWorx allows you to mix DeskMakers standard thermofuse laminates (TFL) and high-pressure laminates (HPL) to suit your design needs.

HIGH-PRESSURE LAMINATE (HPL)

Pricing shown in this price list applies only to non-premium HPL's as follows:

- *Wilsonart*: Solids, Woodgrains, and Abstracts in Matte (-60) finish,
- *Formica*: Color Portfolio, Woodgrains, and Patterns in Matte (-58) finish
- *Pionite*: Solids, Woodgrains, and Abstracts in Suede (N) finish

Call customer service for pricing for all other HPLs from the above companies, or for pricing for HPL from Arborite and Nevamar.

Additional lead times of one to six weeks required for HPL orders depending on material availability and order complexity.

Due to the engineering of BenchWorx, HPL must be combined with a standard 2mm DeskMakers PVC edgebanding. Self-edge, thin PVC, or 3mm PVC are not available.
