# Shipping Guidelines & Quick Ship Program

In an effort to enhance our service to our customers, we are revising our lead times. The guide below offers a simple way to determine the lead time of any given configuration of our seating options. By standardizing our lead times, we are able to deliver products swiftly to our customers and offer certainty about the turnaround time for their orders.

All configurations follow fabric lead times. If two textiles are selected that have different lead times, the lead time for the order will be dictated by the textile with the longest lead time. For example, if you select Pinstripe mesh and Ginkgo, the lead time for your chair(s) will be six weeks.

LEAD TIME	FABRIC	MAXIMUM ORDER QUANTITY*
4 weeks	Wave Vellum Monofilament Stripe Pinstripe Dash	150 chairs
6 weeks	Silver Check Lotus Squiggle Ginkgo All Leathers Bridget Stripe Promessa Catena Sensuede	100 chairs

\*For any amount over the maximum, please contact your local rep to confirm the lead times.

# *freedom*<sup>®</sup>

With Freedom, the knobs, levers and locks of current-generation task chairs have been replaced by intelligent mechanisms that automatically support the body as it moves from task to task. By minimizing the need for manual controls, Freedom maximizes natural, spontaneous movement, which is essential for a healthy body and a comfortable day's work.

Freedom's many features can be enjoyed with virtually no effort.

# *freedom*® Features & Characteristics

## **DYNAMIC HEADREST**

- Position-sensitive headrest moves into place when you recline and out of the way when you sit upright
- 5" vertical adjustment to fit all users
- Moves in the natural arc of head/neck for perfect support through range of recline
- Contoured to cradle the head and neck in comfort

## **SELF-ADJUSTING RECLINE**

- Intelligent counter-balance recline mechanism automatically provides the right amount of support through the full range of recline motion, regardless of user size and weight
- No tension springs to adjust
- No recline locks to set / release
- During recline, the angle between torso and legs opens up for better body function
- User maintains near-constant eye level during recline

## **PIVOTING BACKREST**

- Extra motion of the backrest during recline automatically adjusts to the changing needs of the spine
- Provides up to 1" additional lumbar support when needed

## **SYNCHRONOUS ARMRESTS**

- Revolutionary armrests move in tandem to eliminate uneven arm positioning
- Natural lift and release action for immediate repositioning without buttons or locks
- 6" range of vertical motion to accommodate all users and tasks
- Can be positioned below thigh level for close to table or desk work
- Attached to backrest so arms stay in same relation to body during recline
- Duron arm pad for durability and comfort

## **CUSHIONS**

- Carefully sculpted to match body contours
- Increased contact area reduces pressure points
- Modular for easy replacement
- Molded polyurethane foam cushions
- Optional arm pads and seat have top layer of Technogel®
- Upholstered with a variety of materials customized to the unique form of the cushion

## **GEL SEAT CUSHION**

- Non-degradable, non-compressible Technogel® layer on top of foam core
- Provides maximum pressure distribution
- Offers unmatched, long-term comfort

## **CYLINDER OPTIONS**

- Provides seat height range that accommodates 95% of the population
- Low cylinder for small users
- Tall cylinder for very tall users
- High cylinder with foot ring
- Extra-high cylinder with foot ring (Saddle seat only)

## **External Frame and OPTIONAL Base UPGRADE**

- Die-cast aluminum with fused plastic coating or polished aluminum finish

## **CASTER OPTIONS**

- 2.5" soft double-wheel casters for hard floors
- Non-rolling glides for fixed-location use
- 2.5" locking casters

## *Diffrient smart™*

Ideal for any designed environment, Diffrient Smart features aesthetics that are as minimal visually as the chair is functional. And, with its signature weight-sensitive recline, body-fitting Form-Sensing Mesh Technology and unique tri-panel backrest, Diffrient Smart adapts to every user, every time. Diffrient Smart is also available in the Plus version for a wider seat and with support for up to 400lbs.

### BODY FIT

Size adjustable to fit more than 95% of the population

### CUSHION PAN, BACK FRAME, FIVE-ARM BASE

Injection-molded, structural, integral color plastics

### EXTERNAL FRAME

Die-cast aluminum with powder coating

### FIREPROOFING

CAL 133-approved: optional fireproof barrier between textile and foam

### SELF-ADJUSTING RECLINE

- Intelligent counter-balance recline mechanism automatically provides the right amount of support through the full range of recline motion, regardless of user size and weight
- No tension springs to adjust
- No recline locks to set/release
- During recline, the angle between torso and legs opens up for better body function
- User maintains near-constant eye level during recline

### PIVOTING BACKREST

- Extra motion of the backrest during recline automatically adjusts to the changing needs of the spine
- Provides additional lumbar support as needed

### FORM-SENSING MESH

- Tri-panel, non-stretch mesh construction creates body-fitting contours and self-adjusting lumbar support for a customized fit
- No external lumbar devices to adjust, break or lose
- Low-abrasion mesh protects clothing
- Modular for easy replacement

### ARMREST OPTIONS

- Armless
- Fixed armrests
- Height-adjustable armrests with 5" range of adjustment
- 4D height-adjustable armrests with adjustable armpads (standard on Diffrient Smart Plus)

### CONTOURED CUSHIONS

- Carefully sculpted to match body contours
- Increased contact area reduces pressure points
- Modular for easy replacement
- 2" thick cushions on Diffrient Smart with a 19.25" seat width
- 3" thick cushions on Diffrient Smart Plus with a 22" seat width
- Glueless cushions mean less usage of materials for a more environmentally friendly solution

### CYLINDER

- Standard cylinder provides seat height range that accommodates 95% of the population
- Optional low cylinder for small users
- Optional high cylinder for very tall users

### BASE

- Plastic base (standard on Diffrient Smart)
- Aluminum base (standard on Diffrient Smart Plus)

### CASTER OPTIONS

- Standard 3" casters for carpeted floors
- Optional soft casters for hard floors
- Optional non-rolling glides for fixed location use

# Diffrient smart™ Specifications

# *Liberty*<sup>®</sup>

Liberty, with Form-Sensing Mesh Technology, is unlike any mesh chair you've seen or experienced. With its tri-panel construction, Liberty has the body-fitting contours that single-panel stretch mesh chairs simply can't achieve. And it offers perfect lumbar support for everyone, without external devices or manual adjustments. Liberty's mesh back is formed by combining three panels of non-stretch mesh in the same way a tailor combines multiple pieces of material to form a shirt. So its contours are custom-made to both fit and support the human body in unprecedented comfort.

### BODY FIT

Size adjustable to fit more than 95% of the population

### CUSHION PAN, BACK FRAME, FIVE-ARM BASE

Injection-molded, structural, integral color plastics.

Optional stainless steel caps on base

### EXTERNAL FRAME

Die-cast aluminum with fused plastic coating or polished aluminum finish

### FIREPROOFING

CAL 133-approved: optional fireproof barrier between textile and foam

### SELF-ADJUSTING RECLINE

- Intelligent counter-balance recline mechanism automatically provides the right amount of support through the full range of recline motion, regardless of user size and weight
- No tension springs to adjust
- No recline locks to set/release
- During recline, the angle between torso and legs opens up for better body function
- User maintains near-constant eye level during recline

### PIVOTING BACKREST

- Extra motion of the backrest during recline automatically adjusts to the changing needs of the spine
- Provides additional lumbar support as needed

### ARMREST OPTIONS

- Armless
- Fixed armrests
- Height-adjustable armrests with 5" range of adjustment
- Armpad Options: Standard Flexible Duron or Duron with Gel for optimal comfort

### FORM-SENSING MESH

- Tri-panel, non-stretch mesh construction creates body-fitting contours and self-adjusting lumbar support for a customized fit
- No external lumbar devices to adjust, break or lose
- Low-abrasion mesh protects clothing
- Modular for easy replacement

### CONTOURED CUSHIONS

- Carefully sculpted to match body contours
- Increased contact area reduces pressure points
- Modular for easy replacement
- Glueless cushions mean less usage of materials for a more environmentally friendly solution

### CYLINDER

- Standard cylinder provides seat height range that accommodates 95% of the population
- Optional low cylinder for small users
- Optional tall cylinder for very tall users
- Optional high cylinder with foot ring

### OPTIONAL FOOT RING

- Polished finish
- Height-adjustable

### CASTER OPTIONS

- Standard 3" casters for carpeted floors
- Optional soft casters for hard floors
- Optional non-rolling glides for fixed location use

## *Diffrient world<sup>®</sup>*

Diffrient World marks Humanscale's first foray into all-mesh task seating. Like its mesh-backed forerunner, Liberty, Diffrient World's tri-panel backrest hugs the body to provide tailor-made lumbar support, while its mesh seat eliminates contact stress under the thighs. But Diffrient World's major innovation is its mechanism-free recline action, which leverages two parts of the chair's frame, the user's body weight, and the laws of physics to provide automatic and balanced support throughout the full range of recline. No chair is more intuitive, creating the ultimate user-friendly sitting experience.

## Features & Characteristics

### BODY FIT

Size adjustable to fit more than 95% of the population

### CUSHION PAN, BACK FRAME, FIVE-ARM BASE

Non-stretch, tri-panel mesh back. Non-stretch mesh seat. Optional upholstered polyurethane foam seat cushion

### EXTERNAL FRAME

Injection-molded, structural, integral color glass-filled Nylon 6

### FIREPROOFING

CAL 133-approved option available

### SELF-ADJUSTING RECLINE

- Intelligent counter-balance recline mechanism automatically provides the right amount of support through the full range of recline motion, regardless of user size and weight
- No tension springs to adjust
- No recline locks to set/release
- During recline, the angle between torso and legs opens up for better body function
- User maintains near-constant eye level during recline

### PIVOTING BACKREST

- Extra motion of the backrest during recline automatically adjusts to the changing needs of the spine
- Provides additional lumbar support as needed

### ARMREST OPTIONS

- Armless, Fixed armrests or Height-adjustable armrests with 3.2" range of adjustment

### ARM PAD OPTIONS

- Flexible Duron or Matching textile-covered arm pad

### FORM-SENSING MESH

- Tri-panel, non-stretch mesh construction creates body-fitting contours and self-adjusting lumbar support for a customized fit
- No external lumbar devices to adjust, break or lose
- Low-abrasion mesh protects clothing
- Modular for easy replacement

### NON-STRETCH MESH SEAT

- Automatically sculpts to match body contours
- Cradles the body in flexible, breathable mesh
- Frameless front edge eliminates contact stress under the thighs

### CYLINDER

- Standard cylinder provides seat height range that accommodates 95% of users
- Optional low cylinder for small users
- Optional tall cylinder for very tall users
- Optional high cylinder with foot ring

### CASTER OPTIONS

- Standard 3" (76mm) hard casters
- Optional non-rolling glides for fixed location use
- Optional soft casters for hard floors

CODE	DESCRIPTION	MEASUREMENT
a	seat depth (from face of lumbar to front of seat)	15.70"-18.25"

# *ballo*™

A fun sitting solution, Ballo is a multipurpose stool that is ideal for a wide range of environments. Designed by Don Chadwick, it reinvents the exercise ball, with a design that is appropriate for workplace settings while offering easier storage. Promoting short-term, active sitting, Ballo also encourages low intensity physical activity and helps to reduce sedentary behavior.

### AIR-FILLED TOP AND BOTTOM DOMES

- The top and bottom non-slip, dimpled air domes are made from a thermoplastic vulcanizate (TPV) material, rather than PVC that is the industry standard and can off-gas.

### LIGHTWEIGHT

- Lightweight at just 13.5 pounds and with cleverly designed hand holds, Ballo can be easily moved from space to space.

### HANDLE HOLDS

- Ballo comes with handle holds for easy portability.

### CENTRAL COLUMN

- Ballo's cone and spool column made out of polypropylene

### BODY FIT

- Air-filled, non-slip dimpled domes shape to the body and provide a comfortable sitting experience.

### SAFE AND COMPACT

- Counterweighted base ensures Ballo remains upright for stable movement and convenient storage.

### DURABLE AND ECO-FRIENDLY

- Ballo is made from eco-friendly, easy-clean and durable TPV materials which can be configured in various hues to add color to any space.
- Innovative spool-shaped central column is made from strong, long-lasting polypropylene and designed with clean lines to offer a modern aesthetic.

# *cinto*®

Appropriate for a wide range of commercial and residential environments, Cinto sets a new standard for ergonomic stackable seating through unique design and manufacturing innovations. Spanish for "belt," Cinto features a floating backrest that is attached to the chair's frame via a flexible belt, allowing it to move with the body to provide recline and automatic lumbar support. For cool seated comfort, air vents on the backrest and seat pan enable air circulation.

## BACKREST HANDLE

- Provides easy transport

## FLEXIBLE BACKREST

- Attached to the chair's frame via a flexible belt, the floating backrest bends and adjusts with the sitter
- Flexibility of backrest creates virtual pivot point for automatic lumbar support
- No adjustments required

## ARMREST OPTIONS

- Armless
- Fixed arms

## VENTED SEAT PAN AND BACKREST

- Promotes air circulation and prevents "hot spots"

## STACKABILITY

- Freestanding Cintos stack six chairs high
- Up to 15 chairs can be stacked on the optional Cinto Dolly

## BASE OPTIONS

- Sled base
- Four legs on glides
- Four legs on casters

## WEIGHT

- 9 lbs. Armless chair
- 10 lbs. Fixed-Arm chair

## CINTO DOLLY EMPTY

- Height 44"

# Textiles

The cushions on all Humanscale chairs utilize advanced technology developed primarily for the sportswear and sporting goods industries. In a single step, a high-tech molding process combines the textile, foam or Technogel®, and plastic support shell into a single, modular unit which can be attached to our seating with four screws. Because of this advanced process, the textiles used on the cushions are as unique as the rest of the chair, and satisfy requirements more demanding than typical upholstery textiles.

## TEXTILES

### WAVE

Textile Code: W	Textile Grade: 1	Code	Color
Developed initially for sportswear, Wave responds to the unique form and production requirements of Humanscale seating. This four-way stretch fabric exceeds all contract interior testing requirements for heavy-duty upholstery. The colors of Wave are taken from the phenomenal hues found in nature.		101	Black
		102	Graphite
		104	Smoke
		201	Dark Brown
		213	Rattan
		402	Loden
		415	Sage
		502	Blue
		507	Navy
		601	Ultraviolet
		714	Poppy
		803	Cayenne

### SQUIGGLE

Textile Codes:	Textile Grade: 0	Code	Color
<b>Vertical: S</b> <b>Horizontal: G</b> Composed of 100% recycled polyester, Squiggle offers an innovative weave structure to create a modern organic wave pattern resembling ripples of water. This environmentally sound textile may be applied either horizontally or vertically to Humanscale seating.		106	Ash
		208	Chocolate
		262	Sand
		275	Espresso
		507	Navy

### SENSUEDE

Textile Code: D	Textile Grade: 3	Code	Color
Offering style and performance, Sensuede was developed to be the best and most luxurious engineered suede available. The silky feel is the result of recycled microfibers that are breathable, extra-strong, and resistant to most stains and wrinkles.		111	Ebony
		115	Pewter
		208	Chocolate
		305	Goldenrod
		406	Olive
		411	Pear
		517	Persian
		712	Oxblood

### LOTUS

Textile Code: K	Textile Grade: 1	Code	Color
Water repellant and easy to clean, Lotus is an ideal textile for the healthcare and hospitality environments. Its polyurethane finish with nylon backing boasts a soft texture that is pleasant to the touch while offering exceptional durability.		101	Black
		128	White
		158	Shale
		182	Hematite
		2C4	Umber
		281	Walnut
		302	Ochre
		459	Verdant
		507	Navy
		603	Plum
		608	Crocus
		624	Eggplant
		757	Earth Red
		758	Lucky Red

### VELLUM

Textile Code: V	Textile Grade: 1	Code	Color
Constructed of a simple weave using a blend of nylon, Cordura and elastic yarn, this textile offers a pleasing texture and extreme durability. Because of the Cordura content, this four-way stretch woven textile performs to the rigors of the most demanding environments. The color palette includes brights, classics, and neutrals.		101	Black
		102	Graphite
		106	Ash
		114	Light Gray
		202	Seal
		211	Beech
		212	Mahogany
		404	Moss
		407	Grass
		414	Greenwood
		507	Navy
		607	Periwinkle
		713	Pomegranate

### GINKGO

Textile Code: F	Textile Grade: 2	Code	Color
Composed of 90% Wool, Ginkgo offers a pleasing texture and durability. Its subtle and elegant pattern makes this textile appropriate for a variety of environments. Ginkgo comes in vibrant and saturated colors, expanding the scope of Human-scale's upholstery line.		101	Black
		197	Charcoal
		281	Walnut
		315	Wheat
		463	Green
		507	Navy
		556	Storm
		568	Horizon
		816	Harvest Orange

### PROMESSA

Textile Code: E	Textile Grade: 3	Code	Color
This Ultraleather textile from Ultrafabrics is environmentally friendly, wipeable and antimicrobial, and ideally suited to healthcare, hospitality and industrial applications. Made without PVC, Promessa has a pebbled, highly textured finish that will work beautifully in a wide variety of environments. Colors:		111	Ebony
		158	Shale
		215	Horsehair
		219	Fields
		224	Cashmere
		245	Bronze
		255	Leather
		518	Atlantic

### BRIDGET STRIPE

Textile Codes:	Textile Grade: 2	Code	Color
<b>Vertical: B</b> <b>Horizontal: H</b> Composed primarily of renewable merino wool, Bridget Stripe offers a five-color 50-stripe pattern with shifting color sequence that creates an undisrupted movement across the surface of the fabric. Boasting exceptional durability for a wool textile, Bridget Stripe may be applied either horizontally or vertically to Humanscale seating.		104	Smoke
		266	Kohl

## LEATHERS

### VICENZA

	Code	Color
<b>Textile Code: Z      Leather Grade: 0</b>	101	Black
A lightly corrected, aniline-dyed leather	201	Dark Brown
produced from European hides, Vicenza	214	Saddle
receives a special retannage which	506	Night Blue
enriches the leather and tightens the grain.		
A breathable protective finish offers		
durability and comfort.		

### BIZON

	Code	Color
<b>Textile Code: Q      Leather Grade: 1</b>	111	Black
The innovative line of supple Bizon	458	Terra
leathers has a thick, rich grain with ex-	429	Miso
cellent light fastness. Bizon offers a plain		
pigmented finish with exceptional strain		
protection and a very soft touch.		

### Leather Stitching Options

	Code	Color
Choose a stitch color to match or	V	Vanilla
contrast your choice of leather.	M	Midnight
	N	Noir
	C	Coffee
	E	Espresso
	O	Oak
	T	Tan
	A	Cocoa

### CERVO

	Code	Color
<b>Textile Code: R      Leather Grade: 3</b>	1A7	Sasso Nero
Cervo is thicker than the other leathers	2F0	Mantefalcone
in our collection. Specialized milling	2E8	Aveto
adds additional character providing a soft		
pebble grain texture unmatched by any		
other leather in its class.		

## MESH

### MONOFILAMENT STRIPE

	Code	Color
<b>Mesh Code: M</b>	10	Black
Using only monofilament yarns that are thin and strong, a simple but classic stripe pattern is achieved through weave structure and yarn placement. This pattern has slight elasticity but terrific memory.	11	Carbon
	14	Platinum
	41	Green
	51	Atlantic
	81	Amber

### SILVER CHECK

	Code	Color
<b>Mesh Code: C</b>	12	Alloy
This unique translucent pattern is achieved using monofilament and a silver-plated yarn spun with polyester at its core. More than simply an aesthetic choice, the silver-plated yarn gives the textile flexibility and strength.	32	Topaz

### PINSTRIPLE

	Code	Color
<b>Mesh Code: N</b>	01	White
Designed specifically to work with the Diffrient World Chair, this lightweight fabric provides the strength and support of a much heavier mesh by using two different monofilament stretch yarns to provide proper support.	02	Silver
	03	Graphite
	10	Black
	34	Cadmium Yellow
	43	Citron
	58	Cyan
	74	Crimson

## TEXTILE PURCHASE PROGRAM

All Humanscale textiles (with the exception of Leather, Sensuede, Promessa) are available for purchase by the linear yard. The prices below are net (standard discounts do not apply). A \$20 cut charge will apply to each order. Please see your Humanscale representative for more information.

Wave	\$35/yard (61" width)
Monofilament Stripe	\$60/yard (50" width)
Vellum	\$45/yard (50" width)
Silver Check	\$70/yard (53" width)
Squiggle	\$25/yard (54" width)
Bridget Stripe	\$55/yard (55" width)
Lotus	\$36/yard (54" width)
Ginkgo	\$75/yard (51" width)
Dash	\$75/yard (48" width)
Pinstripe	\$65/yard (48" width)
Catena	\$60/yard (52" width)

### CATENA

	Code	Color
<b>Mesh Code: J</b>	10	Black
Catena's dense and rich hues are inspired by the vibrant spice markets of India. When used as a backrest textile, this proprietary non-stretch mesh provides a customized lumbar support through its tri-panel patented design that fits the user like a tailored shirt.	35	Bayberry
	50	Cornflower
	1A	Poppy Seed
	1B	Caraway

### DASH

	Code	Color
<b>Mesh Code: A</b>	14	Platinum
Designed to resemble embroidery floss, Dash is stronger, more responsive, lighter weight and uses less material than most mesh textiles. It gives the user support, comfort and ease of movement, while meeting Humanscale's seating requirements.	19	Zinc

## CUSTOM COLORS

### Textiles:

Most Humanscale textiles are available in any customer-specified color. Delivery time frames for custom color orders will depend on color approval. A surcharge of \$50 per chair will apply to custom color orders. The minimum order quantity for these fabrics are as follows:

### Vellum, Wave, Lotus, Ginkgo:

Freedom Task + Headrest	200 chairs
Liberty Task	400 chairs
Diffrient Smart	400 chairs
Freedom Saddle	400 chairs
Freedom Pony Saddle	600 chairs

### Non-Stocked Colors:

Vicenza, Cervo, Sensuede, and Promessa can be ordered in any color standard to these textile lines, even if it isn't stocked by Humanscale. Ordering any non-stocked color may impact the lead time for delivery. The minimum order quantity for these fabrics are as follows:

### Sensuede, Promessa:

Freedom Task + Headrest	50 chairs
Liberty Task	100 chairs
Diffrient Smart	100 chairs
Freedom Saddle	100 chairs
Freedom Pony Saddle	150 chairs

### Vicenza, Bizon, Cervo:

Freedom Task + Headrest	10 chairs
Liberty Task	20 chairs
Diffrient Smart	20 chairs
Freedom Saddle	20 chairs
Freedom Pony Saddle	20 chairs

# Lighting

Task lighting is an integral part of the ergonomic workstation, and each of Humanscale's task lights provides exceptional levels of bright, comfortable light. Yielding both ergonomic and economic benefits, Humanscale's comprehensive lighting line fits any needs, whether you desire performance, efficiency, ease of use, or all of the above.

# M/Connect

The M/Connect USB 3.0, dual-video docking station is a unique innovation that merges ergonomics and technology. Available with Humanscale's M2, M8, and M/Flex monitor arms, M/Connect gives easy access to user ports and conceals IT ports to eliminate cable clutter. The monitor arm dock improves comfort, health, and productivity while offering instant use of all devices through DisplayLink®'s universal Plug and Display™ connection. M/Connect is at the heart of the effortlessly connected, active workspace.

# Monitor Arms

Flat panel monitors are transforming the landscape of both home and corporate offices, but their greatest advantage is that they can be easily mounted to an adjustable arm. Featuring effortless adjustment, extreme stability and sleek looks, all of Humanscale's monitor arms allow you to get the most out of your flat panel monitor investment. They provide almost effortless adjustment and create significant space savings. In addition, an adjustable arm allows the monitor to be moved out of the way to create extra desk space for non-computer-related work.

# Sit-Stand

Recent research suggests that movement is vital to health. As the pioneer of a healthier, more active workplace, Humanscale has designed innovative sit/stand solutions that encourage users to alternate postures. Ultimately, these products allow users to adopt a healthy and balanced level of activity as they work.

## WORK SURFACE DIMENSIONS

Depth and width dimension is nominal. Depths are 1" less than stated to provide a 1" gap between the work surface and panel. Widths are 1" less than stated to provide a 1/2" gap on each side of the work surface. The gaps are to facilitate cable management, monitor arms and pinch points in either a panel or open plan work station environment.

## LAMINATE WORK SURFACES

Our high pressure compact environmentally-friendly polypropylene laminate is laminated to either a 3/4" thick particleboard or a 3/4" MDF (medium-density-fibreboard) depending on the edge detail selected. Both work surfaces have a heavy duty back (bottom layer) which is a very thin layer of phenolic. This stops any potential warping. All of our work surfaces are **formaldehyde-free** and manufactured from **FSC (forest stewardship council) certified wood**.

## LAMINATE WORK SURFACE EDGE DETAIL

Our laminate work surfaces are available in either a flat edge or knife edge. We use a technology called "laser edge banding" on our rectangular work surfaces which allows for a completely seamless edge between the work surface and the edge detail. This not only leaves a good clean edge but also stops any bacteria penetrating the wood. All our edge banding is finished in a coordinating color.

FLAT EDGE

KNIFE EDGE

## Step 3: Select Your Float Electric Accessories

SEE PAGE 63 TO SELECT YOUR FLOAT ELECTRIC ACCESSORIES

### MONITOR MOUNT

Choose between a single or dual monitor mount

It can accommodate a monitor up to 24"

The single/dual monitor mount has a height adjustment of 5"

### COLOR

Choose between black with gray trim or white with gray trim to match QuickStand into any working environment

### PLATFORM

The height adjustable platform is available in either a small or large platform for varying work surface depths

The size of the small platform is: 28" wide x 11" deep (for a 24" to 29" deep work surface)

The size of the large platform is: 28" wide x 17" deep (for a 30" to 36" deep work surface)

The small and large platforms both have a height adjustment of 18"

Quickstand, black, heavy mount assembly with large platform and crossbar

# QuickStand•Lite™ Features & Specifications

Humanscale's QuickStand Lite transforms any fixed-height desk into an active one. Its minimalist aesthetic complements any office environment and supports a variety of hardware. An adjustable keyboard and monitor arm platform provides exceptional stability while typing. An innovative counterbalance mechanism enables users to transition from sitting to standing positions with ease and encourages more movement—creating a truly active workspace.

- Main assembly holds single or dual monitors up to 25 lbs. of weight and can be easily converted to either configuration
- Designed to accommodate users of varying heights with 20" of total height range and 5.5" of vertical monitor adjustment
- Effortless functionality and flexibility allows user to adjust QuickStand Lite as needed to encourage movement and collaboration
- The lightweight QuickStand Lite has a minimal footprint and can be attached to any fixed-height desk

# Access Rail

The Access Rail is a virtually infinitely configurable rail system that adds space to any desk or workstation, creates better organization of desktop tools, and improves the user's access to and interaction with those tools for better working comfort. It is designed for use in PACS environments, NOCS, Command and Control Centers, 911 Centers and wherever multiple monitors are used or desktop space is limited. The Access Rail is also ideal for benching applications.

# Ergo Tools

A key component of an ergonomic workstation, a well-designed articulating keyboard system works in conjunction with a monitor arm and task chair to promote healthy, comfortable posture. Humanscale keyboard supports lightly bring the work to you, allowing you to sit back in your chair while providing serious protection from carpal tunnel syndrome, neck and back pain, and other musculoskeletal issues.

# Best-Selling Keyboard Systems

With advanced technology, award-winning designs and hundreds of options, Humanscale has remained the market leader in keyboard supports for 10 years running. We pioneered intuitive adjustability and eliminated knee obstruction. And these best-sellers remain several steps ahead of the pack.

**All keyboard systems are available to ship within 72 hours.**

# Build Your Keyboard System Product Code

## STEP 1: MECHANISM OPTIONS

	<p><b>6G</b> (Black), <b>6GW</b> (White) \$255</p> <p>Humanscale's most advanced keyboard mechanism to date, the 6G provides intuitive ergonomic adjustability and unmatched styling.</p> <p>7" height adjustment (1.75" above track to 5.25" below track) Comes standard with 21.625" track</p>		<p><b>5G</b> (Black), <b>5GV</b> (Platinum) \$270</p> <p>The world's best-selling keyboard mechanism, the 5G combines easy dial-a-tilt and height adjustability with the strongest arm on the market.</p> <p>6.25" height adjustment (1.25" above track to 5" below track) Comes standard with 21.625" track</p>
	<p><b>6FB</b> (Black), <b>6FW</b> (White) \$175</p> <p>Designed exclusively for the Float, the 6F incorporates simple dial-a-tilt adjustability and modern styling ideal for all height-adjustable tables.</p> <p>No height adjustment Only for use with height-adjustable tables</p>		<p><b>5GSM</b> (Black), <b>5GSV</b> (Platinum) \$270</p> <p>The 5G Short Mechanism provides 5G functionality with a shorter arm for small workstations and tight spaces.</p> <p>4" height adjustment (0.5" above track to 3.5" below track) Comes standard with 18" track</p>
	<p><b>4G</b> \$375</p> <p>The 4G represents revolutionary keyboard technology with simple dial-a-tilt keyboard angle adjustability.</p> <p>6.25" height adjustment (1.25" above track to 5" below track) Comes standard with 21.625" track</p>		<p><b>5GAD</b> \$335</p> <p>The 5G Above Desk mechanism provides 5G functionality with a longer arm for use above the work surface.</p> <p>13.5" height adjustment (7.5" above track to 6" below track) Comes standard with 27" track</p>
	<p><b>2G</b> \$240</p> <p>The original standard bearer, the 2G offers independent height and tilt adjustment and unmatched stability.</p> <p>6.25" height adjustment (1.25" above track to 5" below track) Comes standard with 21.625" track</p>		<p><b>4GAD</b> \$335</p> <p>The 4G Above Desk mechanism provides 4G functionality with a longer arm for use above the work surface.</p> <p>11.5" height adjustment (8.5" above track to 3" below track) Comes standard with 27" track</p>
	<p><b>KM</b> \$220</p> <p>The Standard Pre-Set Tilt Arm offers total knee clearance, knob-free adjustment and 0° tilt.</p> <p>6.25" height adjustment (1.25" above track to 5" below track) Comes standard with 21.625" track</p>		<p><b>LS</b> \$86</p> <p>The Lateral Slider allows the platform to be adjusted left or right a total of 8" for optimal keyboard positioning. It can be ordered with any keyboard mechanism by indicating "LS" after the mechanism code (e.g., 6GLS or 6GWLS).</p>
