S2 – Tactical Shield

The **S2 Tactical Shield** is designed and manufactured in the USA according to strict quality guidelines using state-of-the-art manufacturing equipment and processes. Built to exceed military and law enforcement standards the S2 Tactical is top-of-the-line when it comes to weight, performance, and cost. FRS Shields are designed to withstand ballistic and shrapnel threats of all types based on level of protection.

Ballistic Shields can be used in a variety of operations from First Response Active Shooter to full Tactical Operations and are versatile to help improve chances of high velocity handgun (IIIA) and rifle threats (III) when deployed by operators from military, law enforcement and other security personnel. Covert Armor S2 Shields are designed for safety, coverage, protection, maneuverability and tactical advantage. The ambidextrous lightweight handle allows use of either arm with various grip options, enhancing tactical movements and longer use without fatigue. S2 Shields are designed with the operator in mind when it comes to a quick and reliable solution for tactical operations.

Design:

The S2 Tactical Shield is NIJ 0108.01 independently tested and is designed to defeat Level IIIA (.357 Sig FMJ & 44 Mag SJHP) threats from handgun rounds (IIIA), and/or Level III (7.62x51mm NATO M80 Ball threats from rifle rounds (III). The S2 is an UHMWPE based material layup.
