H1 - ACH IIIA Helmet

The H1 ACH IIIA High Cut Helmet is designed according to the latest US Military requirements, utilizing the most advanced ballistic protection against handgun threats. The shell is composed of multi-layered Kevlar based advanced composite. The harness assembly consists of the ACH Comfort suspension system and a four point harness with a leather lined chin strap. The reduced profile enables a wider peripheral and upward field of view, for better situational awareness and unrestricted movement, and also accommodates protective goggles, night vision(NVG), and a communication system. The helmet can be fitted with ballistic or riot visors. The H1 ACH IIIA is the ideal helmet for use by ground troops, police forces and special units working in the urban Jungle.
