**THE ONLY ITEMS AVAILABLE UNDER THE
PANEL SYSTEMS CONTRACT IS PANEL SYSTEMS
FURNITURE!**

***Other items may be available, but can **NOT** be purchased using the Panel Systems Contract.

The image shows a close-up, slightly angled view of a modern office cubicle. The cubicle walls are a light grey color with a fine, woven texture. They are separated by thin, dark grey vertical and horizontal dividers. In the background, the top of an orange upholstered chair is visible. The lighting is soft and even, highlighting the textures of the materials. The overall aesthetic is clean, professional, and functional.

Allsteel®

Concensys®

The Concensys choice.

Backed by Allsteel's Lifetime Warranty and manufactured to strict environmental standards, the Concensys panel system unifies the essential elements of systems furniture in one high-value, best-in-class package. In a complicated world, Concensys is intentionally simple.

ABOVE AND COVER: 6' X 7' WORKSTATIONS

Panel fabric: Tasanee Birch Laminate (edge): Muslin (Loft) Paint: Fossil
Seating upholstery: Tria® 2 Harvest Frame finish: Black

Stronger

Looking for a furniture solution built to last? With durable all-metal construction and factory-welded components that arrive fully assembled, the Concensys panel system is engineered to retain its structural integrity through multiple reconfigurations and extended use.

Faster

Need to get your office up and running quickly? Our standard shipping program averages three weeks or less with orders arriving to you complete and on time. If your schedule is really aggressive, choose the Express Solutions® five-day quick-ship program for expedited delivery.

Friendlier

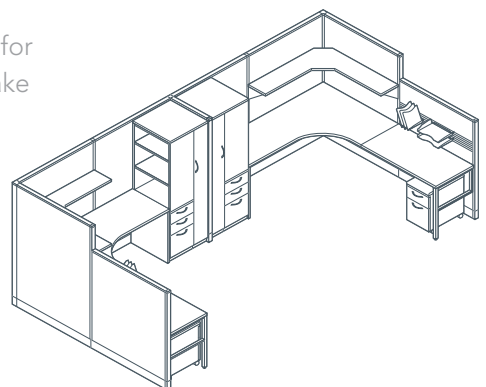

Want an intuitive furniture system designed with your long-term needs in mind? Concensys is easy to specify, order, use, and reuse. To give your workspace real character, surfaces come in a range of fabrics, finishes, and material selections.

Build on your best asset.

Position your employees to perform at their productive best in an open, collaborative environment. Using Concensys as the foundation of your office, you'll promote staff interaction in the comfort of an efficient and flexible workspace.

Concensys is built to perform the day it arrives and keeps performing for years to come. Steel panel frames and metal trim and connections make sure Concensys lasts as long as your workplace needs it.

8' X 8' WORKSTATIONS

Panel fabric: Tempest Gold Rush **Laminate (edge):** Whitestone (Muslin)
Paint: Gunmetal Metallic **Seating upholstery:** Brisa® Ash (COM), Brisa Butterscotch (COM)
Frame finish: Mineral Grey

Personal towers optimize your available space. Adjustable shelving and file storage help clear the worksurface, and the wardrobe provides storage for coats and personal effects.

With Extensions™ organizational tools, you can put all your active files and desk accessories within arm's reach, and arrange and rearrange to respond to changing workflow.

Relate® seating combines several innovative technologies that offer active ergonomics and superior support. Relate gives you more comfort and more control.

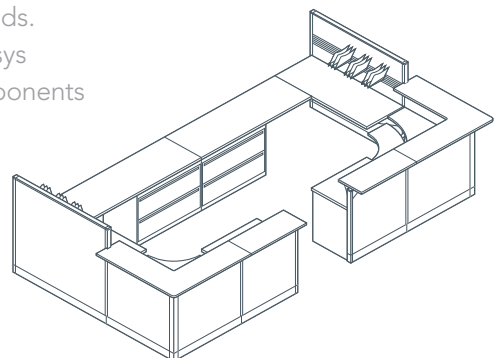

Concensys is designed to be durable for many years of use and reuse, which benefits the environment by saving raw materials required to make new products. Concensys is an SCS Indoor Advantage™ Gold certified product.

Warm up the welcome of any office setting.

Administrative support areas should be inviting and productive. With Concensys, you can create an efficient, flexible, and highly versatile office where visitors receive a friendly greeting, and plenty of tasks get completed, too.

Allsteel incorporates customer feedback into a process of continuous product improvement, allowing Concensys to keep up with your office demands. Concensys enhancements and additions retrofit to existing Concensys products, giving you peace of mind that you can add and reuse components as your needs change over time.

8' X 8'6" WORKSTATIONS

Panel fabric: Etch Woodcut **Laminate (edge):** Shaker Cherry (Carob), Whitestone (Muslin)
Paint: Muslin **Seating upholstery:** Whisper™ Cinnamon **Frame finish:** Black

A transaction countertop easily turns a typical administrative workspace into a reception area, creating a natural space for interaction and conversation.

Corner workspaces have optional fully integrated articulating keyboard platforms for maximum comfort.

Concensys workspaces feature a low-formaldehyde backer on the underside, improving office air quality.

Trooper® seating offers an unmatched combination of strength, comfort, and ergonomic controls for a wide range of workers in a wide range of office environments.

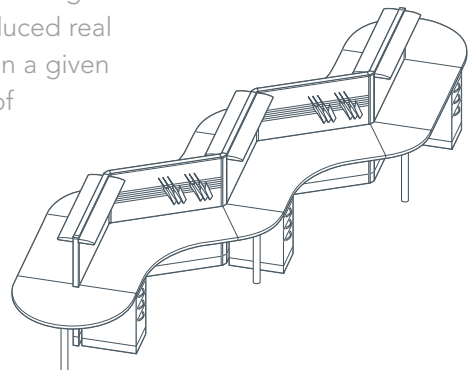

Flexibility is factored in.

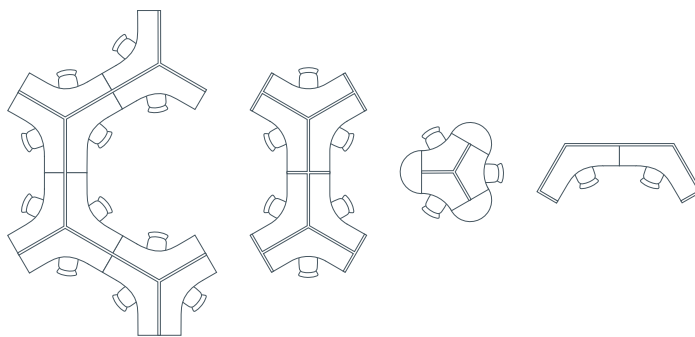

Whether you work in a government office, nonprofit organization, small business, or major corporation, Concensys provides multiple design options with one product line.

120-degree planning offers functionality and space savings for facilities managers who want to accommodate existing interior architecture and realize reduced real estate costs. This setup accommodates up to 25% more workstations in a given space compared to 90-degree connections. Besides varying the look of the office, the organic layout fosters teamwork.

3' X 6' WORKSTATIONS

Panel fabric: Lucy Neutra **Laminate (edge):** Whitestone (Muslin)
Paint: Champagne Metallic, Muslin **Seating upholstery:** Brisa Waylan (COM), Chord Umber
Mesh carrier (mesh): Charblack (Carbon) **Frame finish:** Charblack

A typical Concensys workstation features 29% pre-consumer and 15% post-consumer recycled content and is easily disassembled for post-use recyclability.

Make storage a matter of personal choice by choosing from a full selection of lateral files, pedestals, overhead cabinets, personal towers, and more.

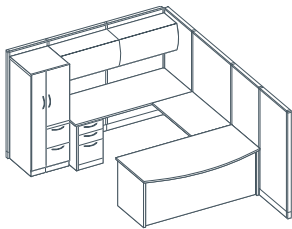

Concensys 120-degree workstations improve the flow of communication and provide privacy in an open-plan environment. Set at a lower height, the panels also enable a healthy distribution of air and light.

Cadence® Freestanding Desking: Free to be what you make it.

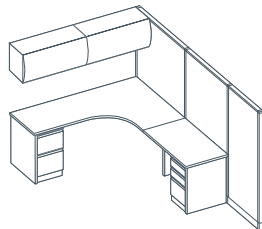

Cadence furniture brings all the laminates, finishes, and paints of the Concensys panel-based offering to a private office setting. It even uses many Concensys components, so you can simplify your inventory management by using common parts.

Just like Concensys, this freestanding desking features all-metal construction, configures easily, and provides plenty of workstation design and storage options. Using Cadence with the panel-based system allows you to furnish the entire office, from the front door to the corner office.

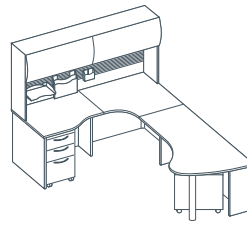

Systems integration

Cadence works in combination with Concensys panels, extending the functionality of both product lines.

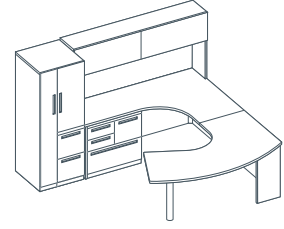

Highly adaptable

Make the most of building architecture by using an existing wall to create a semi-private workspace.

Space utilization

Multiple worksurface shapes offer unlimited design potential for using space creatively and efficiently.

Team interaction

Design flexibility allows you to create personal workspace and team collaboration in the same office.

Concensys and Cadence can support companies seeking LEED® for Commercial Interiors certification. Cadence is an SCS Indoor Advantage Gold certified product.

6' X 9'6" WORKSTATION

Laminate (edge): Natural Maple (Warm Beige) **Paint:** Gunmetal Metallic
Tackboard fabric: Propeller Dusk
Seating upholstery: Chatterbox Mineral, Tria 2 Metal **Frame finish:** Mineral Grey

Merge® tables and Relate side chairs promote productivity beyond the desk. Whether for impromptu meetings or a change of scenery, they encourage teaming and collaboration.

Choose a desk-mounted hutch for extra storage above the worksurface. Then, add an integrated tackboard and tool rail, and see how small tools make a big difference.

Set yourself apart.

Concensys lets you customize your environment with finishing touches that give your hard-working panel system substance and style. From drawer pulls to storage fronts, top trim to worksurface edges, Concensys features thoughtful, functional details.

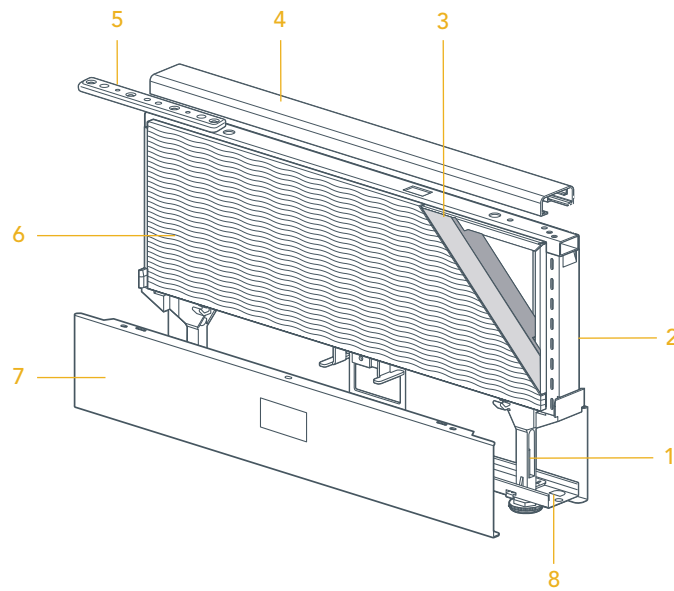

Consider your overhead storage options. Above, from top to bottom: radius, radius mesh, flat door, and a non-intrusive receding door (not shown). Radius and radius mesh fronts available with an arch pull and easy-assist door.

Top trim can contribute to the design statement. Above, from top to bottom: cableway, low-profile painted, and low-profile wood.

Drawers offer an added hint of design with a variety of pull styles. Above, from top to bottom: integral, arch, and beveled pulls. Square pull also available.

1. Internal panel leg with leveler
2. Welded steel frame
3. Sound-absorbing fiberglass surrounding both sides of a center core
4. Metal top trim
5. Metal panel-to-panel connector
6. Fabric
7. Metal base cover
8. Metal lay-in cabling tray

A strong selection any way you look at it.

Concensys gives you solid construction, thanks to robust engineering and high-quality materials. It reliably does the job it was designed to do, day after day, year after year. Concensys is built to last as long as you need it; we back this commitment with Allsteel's Lifetime Warranty.

Worksurface edges are finished with either a slightly radius or flat profile.

The underside of high-pressure laminate worksurfaces has threaded metal inserts for easy alignment and reconfiguration and a steel reinforcement channel that helps prevent bowing and warping.

Optional technology panels let you distribute power and data to the worksurface. You retain access for upgrades or maintenance with an easily removable cover.
