

Degreerz

OVEN AND STOVE CLEANER

CLEANS AND BRIGHTENS

The scouring power of De°greerz effectively cleans warm or cold ovens. De°greerz also works great on stoves, broilers, barbecue grills, hoods, rotisseries, burners, drip pans, and skillets. It can be used safely and effectively on porcelain, ceramic, glass, stainless steel and steel surfaces.

QUICK CLEANING ACTION

De°greerz cuts through tough, baked-on food and grease with ease. Just spray on and allow to work 5-10 minutes on warm ovens (150°F-200°F), and 10-20 minutes on cold ovens. Use a scrubbing pad to hasten action and remove tough deposits.

SUPERIOR CLINGING ACTION

De°greerz's thick formula clings to surfaces to dissolve debris and make clean up easy. The special formula stays wet longer for better lubrication during scrubbing and removal.

THICK CITRUS-SCENTED FORMULA

De°greerz, with its pleasant lemon fragrance, works hard without the harsh odor found in other oven and stove cleaners.

AEROSOL OR PUMP CONVENIENCE

De°greerz is available in a convenient aerosol or quart bottle to best fit your needs. Both offer the same great cleaning ability and give superior performance. They contain no fluorocarbons and meet California and Federal VOC content requirements.

De-greez

DIRECTIONS FOR USE

1. Shake can well and frequently.
2. Protect floor with newspapers. Do not allow De-greez to come in contact with any painted surfaces.
3. Always wear rubber gloves and safety glasses.
4. If you prefer to clean a warm oven, preheat oven to 200°F. Turn oven off.
5. Always be sure sprayer is pointed away from face, skin, and eyes.
6. Spray a liberal, even coating on surface to be cleaned.
7. On a warm oven allow De-greez to work for 5 to 10 minutes. Use a scouring pad to hasten action and remove tough deposits. On a cold oven, allow 10 to 20 min.
8. Wipe off the surface with a damp cloth or sponge. Repeat application on heavily encrusted spots, if necessary.
9. Before using the oven, rinse all surfaces with potable water.
10. Remove oven racks and clean with De-greez. Use a scouring pad to remove baked-on food deposits. Rinse with clean water and replace in oven.
11. After cleaning, PREHEAT oven for 10 minutes before use.

NOTE: Recommended for use only on porcelain, enamel, stainless steel, iron, certain chrome fixtures, ceramic and glass surfaces. Do not apply on exterior oven areas or surfaces of aluminum and chrome trim, baked enamel, copper-tone, painted areas, linoleum, or plastic. Keep spray out of gas pilot light and off of electric connections, light switches, bulbs, and receptacles. Do not spray when oven is turned on.

Please review label and MSDS for all product directions, precautions and first aid information.

TECHNICAL DATA

QUART

Appearance: Opaque, light amber

Weight per gallon: 9.6 lbs/gal

pH: > 13.0

Flashpoint (Quart Product): Greater than 212°F

Odor: Lemon fragrance

Foaming Power: Excellent

VOC Content: 3.25%

Biodegradable Detergents: Present

Viscosity: 700-800 cps

Rinseability: Excellent

Shelf Life: Minimum 1 year

Stability: Stable at all temperatures

Emulsion power against grease: Excellent

Penetrating power against baked-on foods: Excellent

AUTHORIZATIONS: Meets the requirement for use in Federally inspected meat and poultry plants.

AEROSOL

Appearance: White foam

Weight per gallon: 10.0 lbs/gal

pH: > 12.5-13.5

Flame extension (aerosol product): Less than 18"

VOC Content: 5.0%

AUTHORIZATIONS: Meets the requirement for use in Federally inspected meat and poultry plants.
