

# D-STROY®

THE ULTIMATE ODOR DESTROYER,  
STAIN REMOVER & DRAIN MAINTAINER

CARE FOR WORK ENVIRONMENTS®

# D-STROY®

## THE ULTIMATE ODOR DESTROYER, STAIN REMOVER & DRAIN MAINTAINER

### SAFE, BIOLOGICAL POWER

D-Stroy's unique formula harnesses the power of live bacteria to digest and eliminate organic waste. These powerful bacteria produce trillions of enzymes which break down organic matter such as proteins, carbohydrates, cellulose, fats, oils, and greases which are the principal causes of odors, stains and drain clogs. The bacteria then digests the broken down waste completely and multiply to continue eliminating stains, odors, and drain clogs.

In addition to its biological action, D-Stroy contains our patented SE-500™ odor neutralizing additive which eliminates odors rather than just masking them. D-Stroy's formula is completely safe for users and all facility areas. It contains no acids, alkalis or solvents and is non-corrosive and non-toxic.

### KEEPS DRAINS FREE-FLOWING & SMELLING FRESH

D-Stroy provides preventive maintenance to all types of drains. Its powerful blend of bacteria breaks down and digests organic debris such as fats, oils, greases, uric acid and crystals, soap scum, and hair. Regular use of D-Stroy keeps waste from accumulating in the pipe and causing blockages. D-Stroy also eliminates the foul odors associated with drains. Use with State's DR-2000 automated drain pump for an effective 24/7 preventive drain maintenance program.

### ELIMINATES STAINS AND ODORS

D-Stroy can be used in every facility area to eliminate stains and odors. Simply spray where odors persist and let the biological action, fragrance and SE-500™ work to destroy even the toughest smells. Perfect for restrooms where uric crystals build up around toilets and urinals as well as near garbage cans where accumulated waste causes odors. Use D-Stroy on stained carpets and linens to clean blood, makeup, urine and other organic stains.

### APPLICATIONS

The applications for D-Stroy are unlimited, but common application areas are:

- Animal Cages
- Bar Sinks
- Carpeting
- Dishwasher Drains
- Drains
- Dumpsters
- Floor Drains
- Garbage Disposals
- Grease Traps
- Laundry Drains
- Locker Rooms
- Portable Toilets
- Septic Tanks
- Showers
- Toilets/Urinals
- Bus & Plane Toilets

### TECHNICAL DATA

Appearance: Milky, emulsified liquid

Available Fragrances: Original, Morning Fresh™, Apple Orchard

pH: 7.0-8.5

Temperature Stability Range: 55°F-100°F for optimum performance

Bacterial Count: Over 50 billion per quart

Bacterial Pathways: Aerobic and facultative anaerobic

Stability: Minimum one year
