

State Floor Care

STATE EXCELLENCE WOOD FLOOR SEALER

State Excellence is specially formulated with the latest polymer technology to provide superior durability and shine to all types of wood floors with minimal maintenance.

Care for Work Environments®

State Floor Care

STATE EXCELLENCE

LATEST TECHNOLOGY:

State Excellence uses a special water-based acrylic silicone hybrid polymer, which is the latest technology specifically designed for the heavy use and traffic common to gymnasiums and racquet ball courts. It maintains its durability and superior shine all while being VOC compliant.

EASY TO MAINTAIN:

State Excellence can be used to provide complete coating from bare wood, or is compatible on a wide variety of other types of wood floor sealers. Simply prepare the floor as recommended and top coat for a great, fresh appearance. A quick scrub and recoat can be done in a day, saving costly downtime instead of completely stripping and applying an oil-modified, urethane wood finish. This is the new wave of finished wood floor care.

DIRECTIONS FOR USE:

Please review label and MSDS for all product directions, precautions and first aid information prior to using this product.

1. Dust mop or sweep floor. Scrape or remove gum or other debris.
2. Dry abrade the floor with 100 grit screens and a 175 rpm swing machine.

3. Tack the floor with water and clean towels to remove all residue.
4. Apply with a lightweight T-Bar or lambswool applicator.
5. Apply 3-5 coats of finish until the desired appearance is achieved. Allow 2-4 hours of drying in between coats.
6. Allow floor to cure 24-48 hours before opening to moderate traffic.
7. Allow a minimum of 72 hours before opening to regular traffic.

TECHNICAL DATA:

Appearance: Milky emulsion

Odor: mild

pH: 8.1

Flashpoint: None at 200°F

Stability: Minimum 1 year

Solids content: 25 - 30%

Slip Resistance: Minimum 0.5 as tested by ASTM D-2047

Removal: Use State's Thick Strip
