CARE FOR WORK ENVIRONMENTS®

# TFragrance Burst™

## SE-500® Odor Eliminating Technology

When foul odors are particularly difficult to control, Fragrance Burst is the answer. Fragrance Burst is a metered spray system designed to handle even the most difficult odor control problems. Unlike other spray systems that simply mask foul odors, the Fragrance Burst system is based on State's SE-500® odor neutralizing additive. SE-500® binds with odor molecules to completely neutralize them. Foul odors are removed and replaced with a specially formulated scent compatible with SE-500® to provide a pleasant fragrance to your facility. Fragrance Burst is available in several fragrances to allow you to select the scent that complements the atmosphere you want to set in your facility.

## Welcome Everywhere

Fragrance Burst is designed to be used with the State's Fragrance Factory® Burst, an automated dispensing system. The system offers versatile control in an attractive package that fits any décor. The Fragrance Burst system is designed to be non-intrusive, providing invisible air quality enhancement. State's Fragrance Burst produces a dry fog burst that does not leave a residue. State's Fragrance Burst can be used in many different areas and building environments: restrooms, offices and conference rooms, lobby entryways and disposal areas.

## Air Quality Enhancement Service

State has been delivering odor control solutions for several decades. We offer several odor control strategies to meet the specific needs of your facility. Your Account Manager will review your facility with you and recommend the combination of odor control solutions that best address your complete needs.

## DIRECTIONS FOR USE

Place aerosol refill into the Fragrance Burst following the dispenser instructions. For best results, set the Fragrance Burst unit to spray every 15 minutes. One refill can controls odors and provides a pleasant atmosphere for up to 4,000 cubic feet of space. Each can contains 3,000 metered releases.

Please review label and SDS for all product directions, precautions and first aid information.

Spray setting	Days treatment per can @ 24 hr use	Application
5 min	10	For heavy odor situations
15 min	31	For most applications
30 min	62	Only for light intermittent odors

For optimum performance, replace the Fragrance Burst batteries every month.
