

Gentle Fresh™

NEW!

Gentle Fresh™ Defense

Unique

Gentle Fresh is a unique liquid hand soap that transforms into foam directly from its pump.

Convenient

The special pump automatically lathers for you. It eliminates the lathering process!

Cleansing

Mild detergents, emollients and skin conditioners leave hands clean, soft, and smelling fresh.

Economical

Just one pump of Gentle Fresh per wash delivers a generous portion of rich foam to effectively clean hands.

Easy-to-Use

The pump-action 16.9 oz. bottle design makes Gentle Fresh easy to dispense.

Foaming Hand Soap

Antibacterial Defense

Triclosan® formula kills a wide variety of disease-causing bacteria, viruses and fungi on contact for the ultimate defense against germs.

Soap Factory® II

Ergonomic & ADA Compliant

A large, easy-to-use product push pad located at the top of the dispenser lets users view the amount of product being pumped into their hands, reducing over-dispensing and waste. Soap Factory II is also ADA compliant, requiring one hand and less than 5 lbs. of pressure to dispense product.

Leak-Proof Design

Soap Factory II places the dispensing pump at the top of the unit instead of the bottom, eliminating the risk of valve leakage.

Easy Product Identification

Each Soap Factory II dispenser includes a full set of product labels.

Stylish Design

Neutral color, sleek lines and a textured, non-glaring surface make this unit an attractive choice for any area of your facility.

Unique Pump System

The pump changes according to the hand cleaner you select — foam or liquid. When a bag is replaced the pump is replaced, giving you endless uses without problems.

Lock Option

Soap Factory II dispensers feature a locking option for added security in your facility.
