

Request for Proposal

2017 – 2018 E-Rate Wireless Project

Tate County School District

Notice to Bidders

Notice is hereby given to interested bidders that the Tate County School District will receive written, sealed bids until the hour of 12:00 p.m. on Friday, Feb 10th, 2017, at the Tate County School District Central office at 574 Parkway, Coldwater, MS. Bids will be opened at 3:00 p.m. on Friday, February 10th, 2017 in the Board Room or other designated area of the Tate County School District Central Office.

2017 – 2018 E-Rate Wireless Project

The Tate County School District wishes to create a wireless infrastructure to allow all schools to have 80 wireless devices connected to the network access point simultaneously in every area that is served by a wireless access point.

The capacity of the access points should allow students to conduct moderate to heavy web access for research with video streaming, such as all students being able to view a 8 - 10 minute You Tube video in HD once every hour or meet standard Questar online testing guidelines as stated in 2016. Vendor may assume that the Tate County School District has sufficient Internet bandwidth to supply the requirements above. The primary objective is to ensure that bottlenecks do not occur at the wireless access point under the specified conditions.

Proposals should include a realistic assessment of actual access points as well as cabling and other equipment necessary to support the wireless needs outlined above. Technical specifications of equipment should be provided with the proposal along with the Scope of Work describing this “turn-key” project.

The proposal must guarantee performance sufficient to fulfill the needs of the Tate County School District as requested within this RFP. After implementation of the successful vendor's proposal, if additional equipment, cabling or labor is needed, the vendor will bear all costs necessary to satisfy the requirements of this RFP. There should be no reoccurring costs for further functionality.

It is the vendor's responsibility to ensure that the equipment proposed meets the performance specifications of the manufacturer and the previously stated requirements. The Tate County School District will not release the vendor from the performance guarantee required above, because of malfunctions or defects in equipment due to manufacturer error or flaws in the equipment.

Because of the diversity of possible solutions, the Tate County School District is asking for detailed proposals to accomplish the task. Specifications will be general and minimal to allow proposals to be as innovative as possible.

All prospective vendors must complete a district walkthrough or onsite survey in order to be eligible to submit a bid. To schedule a walkthrough or onsite survey, you will need to contact Rogers Smith (see contact information below). Proposals from vendors who do not complete the onsite survey or walkthrough WILL NOT be considered.

Bids will be due at 12:00 p.m. on Friday, February 10th, 2017. For more information, contact Rogers Smith, Technology Director, via phone (662) 934-5435 or by e-mail (rsmith@tcsdms.org).

CLARIFICATION

If after the completion of this project, during normal operation of the network, the District discovers that the wireless network will not allow for the capacity required in this RFP as stated in paragraph three in page one of this document, then the vendor will be required to do whatever is necessary to meet the specifications with no additional cost to the Tate County School District.

General

Provide internal connections as specified herein.

The specifications herein are provided to convey the intent of the systems and upgrades and do not indicate every cable or component necessary for the complete system that the proposing vendor shall provide.

Prices quoted shall be all-inclusive (including all applicable taxes, shipping cost, installation of equipment, training, technical support and trash removal) and represent complete installation and integration with the existing network where necessary. Prices quoted in the vendor's response will remain in effect for a period of twelve (12) months from the time of the contract signing.

Omissions in the proposal of any provision herein described shall not be construed as to relieve the vendor of any responsibility or obligation to the complete and satisfactory delivery, operation and support of any services.

Should the vendor have questions or find discrepancies in, or omissions from this RFP, or shall be in doubt to its meaning, the vendor shall at once notify Tate County School District. All questions should be addressed to Rogers Smith as outlined below. The preferred mode of contact is via email.

Rogers Smith
Technology Director
Tate County School District
574 Parkway
Coldwater, MS 38618
rsmith@tcsdms.org
662-562-5861 (office)
662-934-5435 (cell)

Questions must be submitted to the email address rsmith@tcsdms.org. If a response is not received within 24 hours, it is the responsibility of the respondent to call Rogers Smith at 662-562-5861 (office) or 662-934-5435 (cell) to confirm receipt of the message.

All questions and responses will be posted immediately on the District's E-Rate Procurement page at www.tatecountyschools.org. It is the sole responsibility of the respondent to visit this page prior to bid submission to ensure they have the latest information. Any modifications or clarifications will be posted as an addendum on the Tate County School District website. Addendums may also be requested by email from any respondents after the walkthrough is completed.

BID SUBMISSION INSTRUCTIONS

Bids will be opened at 3:00 p.m. on Friday, February 10th, 2017, in the board room or other designated area in the Tate County School District Central office at 574 Parkway, Coldwater, MS. Bids must be submitted in a sealed envelope clearly marked as follows:

“2017 – 2018 E-Rate Wireless Project”

Envelopes not so marked will remain sealed.

The Tate County School District Board of Trustees or Superintendent reserves the right to reject any and/or all bids and waive any informalities.

The first page showing in the bid submission packet must be Attachment A so the total bid price may be easily seen for the bid tabulation. Failure to comply may result in bid disqualification.

Bids must include the following:

Attachment A Completed and Signed by the bidder.

(THIS PAGE MUST BE THE FIRST PAGE IN THE BID SUBMISSION DOCUMENTATION)

Attachment B Completed.

“Tate County E-Rate Wireless Project” should be clearly marked on the face of the envelope as well as the opening date of February 10th, 2017.

It is the sole responsibility of the respondents to ensure their responses arrive in a timely manner. Late arrivals will be rejected. The Tate County School District is not responsible for delays of any commercial carrier or delays incurred by the respondents. Oral, telephone, or telegraphic bids will not be considered. Signatures on the proposals shall be in longhand and executed by a principal duly authorized by the vendor to make a contract.

Certificate of Responsibility

- A. Each Bidder submitting a bid in excess of \$50,000 on public projects must show on his bid and on the face of the envelope containing the bid, his Certificate of Responsibility Number, as required by Section 31-3-5 and 31-3-21 (latest edition) Mississippi Code of 1972. If the bid does not exceed the amount of \$50,000 on public projects, a notation so stating must appear on the face of the envelope.
When multiple contractors submit a joint venture bid in excess of \$50,000.00 on public projects, a Joint Venture Certificate of Responsibility Number is required on the bid and face of the envelope. If the Joint Venture has not Joint Venture Certificate of Responsibility number, then each member of the Joint Venture must indicate their individual Certificate of Responsibility numbers on the bid and on the face of the envelope.
- B. Each subcontractor who's Subcontract exceeds \$50,000 on public projects shall have a Certificate of Responsibility Number, as required by Section 31-3-15 and 31-3-21 (latest version), Mississippi Code.
- C. No bid will be opened, considered or accepted unless the above information is given as specified. Sufficient evidence that said Certificate of Responsibility has been issued and is in

effect at the time of receiving bids must be submitted when required by the Owner. Likewise, it shall be the responsibility of the Prime Contractor to require a Certificate of Responsibility Number from any subcontractor where applicable.

Evaluation Methodology

The Tate County School District Board of Trustees or Superintendent will award a contract based on the vendor submission that best meets the needs of the school system with regard to the current Technology Plan, future growth, RFP specifications, and not necessarily the lowest price even though price will be the priority factor. Due to the nature and diversity of the proposals, a significant amount of time may be required to determine which proposal provides the best option for The District. The possibility is that the best option will involve district purchased equipment that may or may not be E-Rate eligible or may or may not be part of this proposal could significantly delay the evaluation process. The evaluation process will not be complete until The District has determined the best proposal based on all factors.

The following factors will be considered when evaluating responses:

- Price of goods and services.
- Preference will be given for prior positive experience with the Vendor.
- Preference will be given to Mississippi based vendors.
- Preference will be given for vendors proposing the use of AP devices in which the AP manufacture offers a limited lifetime warranty on the access points with replacement within 10 days.
- Preference will be given for vendors whose product requires no recurring costs for future functionality.

Financing

This project will be funded from E-Rate Funds. This project is subject to funding availability and contingent upon E-Rate funding.

Vendor Qualifications

The Tate County School District may make such investigations as deemed necessary to determine the ability of the bidder or subcontractors or suppliers to perform the work, and the bidder shall furnish to the Tate County School District all such information and data for this purpose as the Tate County School District may request. The Tate County School District reserves the right to reject any bid if the evidence submitted by or investigation of such Bidder fails to satisfy the Tate County School District that such bidder is properly qualified to carry out the obligations of the contract and/or to complete the work contemplated therein within the time required.

The bidder is specifically advised that any person, firm or other party to whom it proposes to award a subcontract or purchase order under this contract must be acceptable to the Tate County School District.

The successful vendor (contractor) must have or be certified with the following:

- Be able to supply all products and services.

- Be an authorized dealer in the State of Mississippi for all products.
- Have current liability insurance and workers compensation insurance (please enclose a copy of each with your bid).
- Provide the documentation of the vendor's wireless, switching and cabling certifications.
- Participate in the mandatory walkthrough. Any bid submitted by a vendor who does not complete the mandatory walkthrough will be returned unopened. There will be no exceptions.

Disqualification of Bidder

The Tate County School District reserves the right to award to other than the lower bidder when, in the judgment of the district administration, it is in the best interest of the district do so. A Bidder may be disqualified for such reasons as:

- A. Bidder's failure to comply with requirements regarding Certificate of Responsibility.
- B. Bidder's failure to sign Bidder's Proposal Form or to otherwise properly complete the Proposal Form.
- C. Bidder's failure to complete the mandatory Pre-bid onsite walkthrough.
- D. Bidder being in litigation with the Tate County School District.
- E. Bidder having defaulted on a previous contract.
- F. Bidder having preformed unsatisfactorily on a previous contract, including but not limited to the Bidder's failure to fulfill the warranty obligations of a previous contract with the Tate County School District.
- G. Bidder's failure to include documentation for required certifications and authorizations.

The above is not an inclusive list.

Objective:

Tate County School District's objective is for vendors to propose a solution that will meet the criteria of allowing at least 80 WiFi devices connected to a single access point which will then allow students to conduct moderate to heavy web access for research with video streaming, such as all students being able to view a 8 - 10 minute You Tube video in HD once every hour or meet standard Questar online testing guidelines (whichever requires more bandwidth). Should the bidding propose a solution that does not meet the specifications listed below, the vendor must provide sufficient documentation that the District's objective will be met with their solution.

Equipment & Installation Specification

Cabling for Access Points:

All cable and cabling components including jacks and patch panels used in this proposal will be minimum Category 6 rated if installed by the vendor. If any existing cabling is used, it must be minimum CAT5e or better.

The amount needed will be determined by the vendors proposed number of access points

- Bid must include cabling and all necessary components (patch cables, patch panels, jacks and mounts, crimp ends, etc.).
- Bid must include cost of labor and installation.
- Cabling must be neatly ran and connected to the wall via J-hooks in ceiling and may not lay directly on ceiling tiles.
- When cabling runs outside of the building it must be placed in EMT conduit and attached to walkways.
- Vendor may use existing equipment such as raceways and J hooks if desired.
- It is preferred to have the access points mounted down the hallways. Access points may be mounted in the classrooms if the situation requires it, but reason must be stated in the bid.

Wireless Infrastructure:

Wireless access points and applicable software.

Access Points

- Must support 802.11n at 2.4GHz and 5GHz. Must be capable of 802.11ac Wave 2.
- Preference will be given if the manufacture offers a limited lifetime warranty.
- Must use enterprise-class radios for maximum RF performance and coverage.
- Must support rogue access point detection and denial of service attack protection.
- Must support management frame protection.
- Must support coverage for legacy 802.11b/g clients.
- Must support client load-balancing across frequencies in mixed client environments.
- Must support multicast video delivery across WLAN.
- Must overcome outside interference (Bluetooth, microwaves, etc.).
- Must support radio resource monitoring, dynamic channel assignment, and interference detection.
- Bid must include cost of configuration and installation and 8 hours of training on configuration and maintenance for the Tate County School District's IT Department.
- Bid must include the cost of taking out existing access points. The existing wiring may be used, but if a wall mounted access point (such as the Aruba 205H) is taken out, a suitable plate with Cat6 connections must be installed.
- The Tate County School District uses an Airwave server for management and monitoring the existing wireless network and Aruba access points in the district office. It is preferred that the proposed system be able to utilize the existing server hardware and software. If a proposal cannot use this, then bid must include the hardware and software needed to replicate this functionality in all locations including the district office.
- Any new wiring that vendor installs will be of a standard color specified by the District. Standard colors include blue, yellow, green, black, etc.
- Vendor must include a heat map for the proposed system.
- Gymnasiums are to be considered an active classroom.

Other Considerations

Vendor installed Patch Panels and Cabling

- Any cables run by the vendor will be terminated into a patch panel on one end and in a wall mounted full box jack on the other.
- If current cables are used, the vendor will be allowed to use the same cable and patch panels regardless of the rating category.
- Wireless systems must have the ability to be centrally managed and to allow for guests to connect to the wireless points. The system must be able to support multiple VLANs and multiple SSIDs.
- Vendor must provide all MDF and IDF closets that have access point terminations with a UPS with minimum specs of 1000W (or equivalent VA ratings). All UPS devices should be able to be monitored and managed from the network.
- All access points will be mapped and labeled and the name and MAC address be labeled on the AP so visual inspections can be performed by looking up at the AP.

Current Equipment

Switches

1. The Tate County School District network is made up of HP managed switches. All ports are 1000Mbps minimum. All interswitch connections within the same cabinet must be made with stacking cables where applicable. The District will NOT accept connecting switches via ethernet cables in the regular RJ45 ports.
2. All campus MDF closets and the Main IDF closet at Strayhorn Elementary will need a 48 port PoE+ Hp/Aruba 2900 series switch (or equivalent). This switch will need to be stacked with the existing infrastructure. With the exception of Coldwater Attendance Center, all switches are HP Procurve 2900 series. The Coldwater Attendance Center has Hp Procurve 2500 series (There is a separate RFP to replace the switches at Coldwater Attendance Center).
3. Any VLAN configurations proposed in this project necessary to meet the requirements must be configured completely by the vendor using the existing switches. The Tate County School District uses a flat network and will provide any needed information to the vendor to comply with existing infrastructure.

Classroom Counts

- Strayhorn High School has 30 Classrooms and 4 Other Areas
- Strayhorn Elementary has 30 Classrooms and 4 Other Areas
- Coldwater Attendance Center has 24 Classrooms and 6 Other Areas
- District Office and bus shop will not be included in this RFP.
- Independence High School has 28 Classrooms and 6 Other areas
- East Tate Elementary has 48 Classrooms and 6 other areas
- Votech has 7 Classrooms and 4 Other Areas

(General Floor plans will be available at the walkthrough. Onsite walkthroughs will identify building materials, existing cabling, etc. Vendors will be responsible for taking any needed measurements during the walkthrough.)

Current Network Bandwidth and WAN Configuration

- Each building in the Tate County School District is presently connected to the District Office via a Metro-E lines provided by AT&T. (This is subject to be upgraded in the near future.)
- Servers and centralized devices are located on the building sites and at the Central Office. Each site has a several switch cabinets and a main demark area. Details will be given at the onsite survey or walkthrough.
- Currently, the District has a 250 Mbps Internet connection that services the entire district which connects at Central Office. Traffic from the Internet is firewalled, filtered and regulated by devices located at the school sites. (This is subject to be upgraded in the near future.)

E-Rate

This proposal request is for services to be subsidized under the Universal Services E-Rate Program for Schools and Libraries. No purchase order will be issued, no installation will occur and no services will be provided until approval of the form 471 application that is issued as a result of the proposals being submitted in response to this request.

Right to Reject

The Tate County School District reserves the right to accept or reject all proposals or sections thereof when the rejection is in the best interest of the school system. The Tate County School District reserves the right to award without further discussion. Therefore, responses should be submitted initially with the most favorable terms the vendor proposes. The Tate County School District reserves the right to reject the proposal of a vendor who has previously failed to perform properly or completed on time contracts and to reject the proposal of any vendor who in the opinion of the Tate County School District Board of Trustee or Superintendent, is not in a position to adequately perform the contract. The Tate County School District Board of Trustees or Superintendent reserves the right to reject any and all proposals any part or parts of a proposal, waive any technicalities/informalities, increase or reduce quantities, make modifications or specifications, and award any or the entire contract in a manner that is in the best interest of the Tate County School District. Contracts will be awarded to the vendor submitting the proposal determined to be in the best interests of the Tate County School District.

ATTACHMENT B

Vendor Required Documentation

- Specifications for the proposed hardware.
- Vendor shall provide a written summary of their proposal as well as drawings of all sites labeled with the location of the each access point being proposed and the path of the access points' cabling to each network closet. Vendor will verify if the District has enough available switch ports and/or patch panel ports in each closet for their proposed solution.
- Current liability insurance and workers compensation insurance.
- Documentation of the vendor's wireless, switching and cabling certifications.
- Three K-12 wireless references.
- Must include a detailed Scope of Work describing this "turnkey" project.
