The best choice in business printing

Whether you own a business, run an office, manage IT, or lead procurement, HP delivers a wide variety of devices to help you get work done.

Quality

Proven quality and reliability from the printer brand you trust.

Performance

Blazing fast print speeds and stunning output quality.

Design

Stylish, innovative products delivering efficient, cost-effective results.

World's most secure¹

Unparalleled security plus manageability, workflow, and mobile solutions.

Services

From standard warranties to a fully managed fleet, HP services keep your business printing.

Find the product line to best match your business printing needs

HP OfficeJet Pro

Affordable, professional color—big performance in a compact package for small business.

1 to 5 users

Up to 11 x 17 in (A3)
Up to 500-sheet input

Lower
operating costs

Professional
document quality

Essential security and
management features

Fast
printing speeds

HP PageWide

Breakthrough value for HP's fastest speeds,² best energy efficiency,³ and professional color.

3 to 15 users

Up to 11 x 17 in (A3)
Up to 4,650-sheet input
Staple, collation

HP's lowest
operating costs²

Professional
document quality

Essential and advanced security
and management features

HP's fastest
printing speeds

HP LaserJet

Leading laser performance with premium color and HP's best value for black-and-white printing.

1 to 25+ users

Up to 11 x 17 in (A3)
Up to 4,600-sheet input
Staple, collation, hole punch,
booklet

Low
operating costs

Professional plus premium
document quality

Essential and advanced security
and management features

Faster
printing speeds

Buyer's Laboratory LLC named HP Inc. the **Most Reliable Printer and MFP Brand** for 2018–2021. BLI's newest award is based on lab-tested reliability data from 2012 to 2018, honoring the vendor whose product line surpasses the rest.

HP Workpath apps

Streamline your digitization workflows—right from your MFP. The Workpath library of apps offers hyper-localized, use-specific modules without the costly and complex traditional development process. User experiences are closer to mobile app experiences, and apps can be customized for your needs.

Choose from a broad portfolio of HP printers, MFPs, and all-in-ones that help simplify the way work gets done. Rely on cost-effective, dependable devices from the world's #1 printer vendor.⁴

Ease of use. HP devices just work—with intuitive user interfaces and sleek, simple designs that fit right into your office environment. Installation is quick, with no product assembly required.

Stunning print quality at blazing fast speeds. Consistent, excellent output will make your business shine. HP LaserJets deliver crisp, clean text and print-shop quality color. HP OfficeJet and PageWide devices produce professional color documents that resist fading, water, and highlighter smears⁵—for a low cost per page.

Great value. HP devices are solidly built and reliable for the long haul, with competitive purchase prices and low operation costs. Some devices offer high-capacity cartridges for even more affordable printing.

Simple mobile print solutions.⁶ Many HP devices are Mopria-certified for easy, touch-free printing from your smartphone, tablet, or laptop without the need for a special app or software.⁷ Some products come with peer-to-peer Wi-Fi Direct® printing and touch-to-print (NFC) technology,⁸ and you can add these capabilities to many existing devices with mobile printing accessories. HP Roam for Business and HP JetAdvantage Secure Print allow users to securely send print jobs to a queue and release them at any enabled office printer by using a mobile app or a proximity card through HP JetAdvantage Secure Print.^{9,10}

World's most secure printing.¹ HP Pro and Enterprise devices offer a variety of embedded security features and optional solutions to protect hardware and safeguard data. Defend your network with self-healing technologies that guard against complex security threats. Apply efficient, fleet-wide security policies to protect all your HP print devices with optional HP JetAdvantage Security Manager.¹¹

Innovative HP JetAdvantage Workflow Solutions. Capture, store, access, and deliver the content you need—all while helping to reduce costs. The robust image-preview feature and Quick Sets on HP Enterprise MFPs save time. Zoom in and inspect scanned jobs, and add, delete, reorder, or rotate pages. Simply and easily launch complicated workflows to a variety of destinations.

Versatile HP JetAdvantage Management Solutions. Many HP Pro products and all Enterprise products are supported by HP Web Jetadmin (WJA).¹² Improve fleet uptime by centrally monitoring and controlling devices—and assess and optimize usage with a variety of reporting tools. For simple one-to-one device management, use the HP Embedded Web Server (EWS). The HP Universal Print Driver (UPD) makes it easy to connect and print.¹³

Features to help reduce environmental impact. Many HP devices are ENERGY STAR® certified and include energy-saving features such as Instant-On Technology and Auto-On/Auto-Off Technology.¹⁴ Because HP OfficeJet and PageWide products have no fuser, they typically have low energy consumption.

Select the right device

The right imaging and printing product can save you time and help cut costs. Yet with all of the available HP devices, how do you choose? See [page 5](#) for questions to help you select devices for a home office. See [page 12](#) for questions to help you choose devices for small or medium office or branch office. See [page 22](#) for questions to ask when choosing enterprise-class devices.

How to select the right device for employees who work from home

When choosing HP devices to use at home, there are several factors to consider.

TYPE OF DOCUMENTS

Mono

or

Color

FUNCTION

Printer

or

MFP/AiO

SECURITY

Pro

or

Enterprise

What type of documents will your employees working from home print?

- Consider the recommended monthly page volume (RMPV) and which employees may print at higher volumes than their colleagues¹⁵
- HP OfficeJet devices deliver professional, everyday document quality at a low cost-per-page
- HP Neverstop Laser and monochrome LaserJets offer HP's best value for black-only prints
- HP Color LaserJets deliver print-shop quality output for impressive color marketing and sales materials

What print capabilities do your employees need?

- If they only need a compact printer, choose an HP OfficeJet, LaserJet Pro, or Neverstop Laser printer
- If you're looking for scanning, copying, and faxing capabilities in a single device with a small footprint, select a multifunction product (MFP) or all-in-one (AiO)
- Devices with an easy-access USB offer quick printing from or scanning to a thumb drive
- Devices with control panel business apps allow users to view and print directly from the web
- HP OfficeJet Pro all-in-ones and LaserJet MFPs support core workflows, such as scanning to email or network folders—and some products support optional workflow solutions such as HP Quick Forms, HP Scan to Cloud, and cloud storage such as Google Docs™ or Box.net
- Devices that support mobile printing let your employees easily print from a smartphone or tablet

Do they need to securely print documents from either a desktop or mobile device?

- Consider printers that support HP Roam for Business, which encrypts data from print jobs both in transit and at rest, while also monitoring your company-provided printers
- For a solution that addresses your company's printing ecosystem across multiple locations, HP JetAdvantage Secure Print and Insights provides cost-effective, cloud-native, secure printing combined with powerful insights into your print environment

What kind of management and security support does your organization need?

- Networked devices can be individually managed via the HP Embedded Web Server (EWS)
- HP Pro printers and MFPs are a good fit for lightly managed environments, offering essential management of core features via HP Web Jetadmin (WJA)¹²
- For fleet management and remote management of core configuration and security options, choose a device that's supported by HP WJA at the essential level¹²
- All Enterprise and some Pro devices are supported by HP Universal Print Driver¹³
- HP LaserJet Enterprise MFPs support users who require enterprise-level solutions, and they offer robust security features along with advanced fleet monitoring, management, and reporting

Detailed benefits comparison

The tables on the next several pages provide a quick overview of the HP OfficeJet, LaserJet, and Neverstop Laser products recommended for employees working from home in your region. Single-function printers start on [page 6](#), with all-in-ones and MFPs starting on [page 9](#). For information about devices recommended for small offices, please see [pages 12–21](#). For information about devices recommended for enterprise environments, please see [pages 22–31](#). See [pages 32–37](#) for at-a-glance summaries of all currently available products.

How to select the right device for your small office

When choosing an HP device for a small or medium office or branch office, start by answering the following questions.

USERS

1-5 users

or

3-10 users

TYPE OF DOCUMENTS

Mono

or

Color

FUNCTION

Printer

or

MFP/AiO

SPECIALTY DEVICES

Wide-format

or

Mobile

How many users will print how many pages each month? Consider:

- The recommended number of users
- The recommended monthly page volume (RMPV)¹⁵
- The device's listed print speeds

What kinds of documents do you primarily print?

- HP OfficeJet devices deliver professional everyday document quality at a low cost-per-page
- PageWide devices offer professional everyday documents at HP's lowest print operating costs,² along with faster print speeds² and less energy use³ than in-class laser printers
- HP LaserJets deliver print-shop-quality output for impressive color marketing materials
- Monochrome LaserJets offer HP's best value for black-only prints
- Letter/A4 devices support a variety of standard paper sizes; wide-format devices support documents up to tabloid/A3
- HP OfficeJet Mobile printers and all-in-ones are compact and lightweight for easy printing or scanning on the go

Do you need to scan, copy, or fax? Do you require document workflow or storage solutions?

- If you only need to print, choose an HP OfficeJet, PageWide, or LaserJet printer
- If you're looking for scanning, copying, and faxing capabilities, you need a multifunction product (MFP) or all-in-one (AiO)
- Devices with control panel business apps allow you to view and print directly from the web
- HP OfficeJet Pro all-in-ones and LaserJet or PageWide Pro MFPs support core workflows, such as scanning to email or network folders—and some products support optional workflow solutions such as HP Quick Forms, HP Scan to Cloud, and eStorage such as Google Docs™ or Box.net

Do you need to share the device?

- Most HP devices offer Ethernet or wireless networking
- Devices that support mobile printing let users print from their smartphone or tablet—easily print from a Mopria-certified device;⁷ print on the go with HP ePrint;¹⁹ print from an iPad®, iPhone®, or iPod touch® with Apple® AirPrint®;²⁰ choose Wi-Fi Direct, NFC touch-to-print, or Bluetooth® Low Energy for secure peer-to-peer wireless printing without connecting to the network;⁸ or with HP Roam for Business, submit while on the go, then release at any enabled office printer using your mobile device⁹
- Devices with an easy-access USB offer quick printing from or scanning to a thumb drive

What kind of management and security support do you require?

- Networked devices can be individually managed via the HP Embedded Web Server (EWS)
- If you require remote management of core configuration and security options, choose a device that's supported by HP Web Jetadmin at the essential level¹²

Detailed benefits comparison

The tables on the next several pages provide a quick overview of the HP OfficeJet, PageWide, and LaserJet products recommended for a small or medium office or branch office in your region. Single-function printers start on [page 13](#), with all-in-ones and MFPs starting on [page 16](#). Find wide-format devices on [page 20](#) and devices designed to be portable on [page 21](#). For information about devices recommended for enterprise environments, please see [pages 22–31](#). See [pages 32–37](#) for at-a-glance summaries of all currently available products.

USERS

TYPE OF DOCUMENTS

FUNCTION

MANAGEMENT

Consider devices designed for 3–10 users

Many of the HP OfficeJet, PageWide, and LaserJet Pro devices listed on [pages 15 and 18–19](#) are an excellent choice for small work teams or for remote branches in enterprise environments. They offer Pro level security and manageability at an affordable price.

How to select the right device for your enterprise

When choosing an imaging and printing product for your company's large work team, workgroup, or department, you should consider some additional questions.

How many users will print how many pages each month? Consider:

- The recommended number of users
- The recommended monthly page volume (RMPV)¹⁵

What kinds of documents do you primarily print?

- HP PageWide devices offer HP's lowest print operating costs² and best energy efficiency,³ while delivering professional everyday document quality at HP's fastest speeds²
- HP LaserJets deliver leading laser performance, with print-shop-quality output for impressive color marketing materials
- Monochrome LaserJets offer HP's best value for black-only prints
- Letter/A4 devices support a variety of standard paper sizes; wide-format devices support documents up to tabloid/A3
- Enterprise finishing options may include mailboxes, stapling, hole-punching, or booklet-making

How sophisticated are your workflow needs?

- If you only need to print, choose an HP OfficeJet, PageWide, or LaserJet printer
- HP Pro MFPs support core workflows, such as scanning to email or network folders
- Enterprise MFPs offer more send-to destinations, Quick Sets for launching one-touch workflows, and superb image preview and enhancement on a large, color touchscreen
- Flow MFPs have more advanced scanning, processing, and routing capabilities

What level of IT management integration do you require?

- HP Enterprise devices fit best in IT-managed environments, with advanced security controls like user authentication and PIN-enabled printing; HP OXP-enabled integration for hundreds of available partner solutions; advanced HP Web Jetadmin support for fleet management, monitoring, and reporting;¹² and upgradeable HP FutureSmart firmware²²
- HP Pro printers and MFPs are a good fit for lightly managed environments such as branch offices, offering essential management of core features via HP WJA
- All Enterprise and some Pro devices are supported by HP Universal Print Driver¹³

Meet your team's needs with the right type of device

HP LaserJet Pro printers and MFPs: Reliable and easy to use, these laser devices deliver print-shop-quality color documents, with LaserJet Pro MFPs offering the core workflow features many small work teams need. Some are supported by HP UPD and have essential configuration, security, and monitoring features that can be managed through HP WJA.

HP PageWide Pro printers and MFPs: These devices offer the lowest total cost of ownership in their class,² along with essential support for HP WJA, UPD, and some solutions. PageWide Pro MFPs add core workflow features. Plus, the HP PageWide Pro series offers faster speeds,² and lower energy consumption than in-class laser printers.³

HP LaserJet Enterprise printers and MFPs: These workhorse devices support all HP enterprise solutions and offer robust security options along with advanced fleet monitoring, management, and reporting. Choose a LaserJet Enterprise MFP for enhanced workflow features—including embedded scan to Microsoft® SharePoint® on the latest models.

HP PageWide Enterprise printers and MFPs: These devices deliver the lowest print operating costs.² Get enterprise manageability, security, and extensibility, along with faster speeds (General Office mode),² and best-in-class energy efficiency.³ PageWide Enterprise MFPs offer enhanced workflow features.

HP LaserJet and PageWide Enterprise Flow MFPs: Streamline workflows with built-in optical character recognition (OCR); fast two-sided, single-pass scanning; HP EveryPage to avoid missed pages; a pull-out external keyboard for easy data entry; and a host of other features.

 Up to 45/46 ppm black and color
 Up to 4,100 sheets

1. HP's most advanced embedded security features are available on HP Managed and Enterprise devices with HP FutureSmart firmware 4.5 or above. Claim based on HP review of 2019 published features of competitive in-class printers. Only HP offers a combination of security features to automatically detect, stop, and recover from attacks with a self-healing reboot, in alignment with NIST SP 800-193 guidelines for device cyber resiliency. For a list of compatible products, visit hp.com/go/PrintersThatProtect. For more information, visit hp.com/go/PrinterSecurityClaims.
2. HP internal testing and analysis.
3. Energy claim based on TEC data reported on energystar.gov as of February 2018. Data normalized to determine energy efficiency of in-class color laser printers and MFP with print speeds between 20 and 80 ppm as of February 2018. Subject to device settings. Actual results may vary.
4. Based on 2019 Q1 shipments in the IDC Worldwide Quarterly Hardcopy Peripherals Tracker®, 2019 Q1 Release. Includes shipments of all (inkjet printers, laser printers, copiers, and multifunction devices, including production units) commercial printer and laser segments defined by IDC.
5. Fade resistance based on paper-industry predictions for acid-free papers and Original HP inks; colorant stability data at room temperature based on similar systems tested per ISO 11798 and ISO 18909. Water resistance based on HP internal testing, using paper with the ColorLok® logo. For details, see hp.com/go/printpermanence.
6. Local printing requires mobile device and printer to be on the same network or have a direct wireless connection. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. App or software and HP ePrint account registration may also be required. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See hp.com/go/mobileprinting for more details.
7. Mopria-certified HP printer and mobile device must be connected to the same wireless network or have a direct wireless connection. Performance is dependent on physical environment and distance from the wireless access point. Wireless operations are compatible with 2.4 GHz routers only.
8. For Wi-Fi Direct® printing, mobile device needs to be connected directly to the Wi-Fi signal of a Wi-Fi Direct-supported MFP or printer prior to printing. Depending on mobile device, an app or driver may also be required. For touch-to-print, mobile device must support NFC-enabled printing. For more information, see hp.com/go/mobileprinting.
9. Subscription or accessory may be required. For more information, visit hp.com/go/roam. To enable HP Roam, some devices may require firmware to be upgraded and an optional accessory to add Bluetooth Low Energy (BLE) beaconing capabilities. Customer can purchase the HP Jetdirect 3100w BLE/NFC/Wireless accessory or the RadBeacon USB.
10. HP JetAdvantage Secure Print works with most network-connected printers and MFPs. On-device authentication requires HP FutureSmart firmware 4.8 or newer. Supported card readers include X3D03A (HP USB Universal Card Reader) and Y7C05A (HP HIP2 Keystroke Reader). Internet connection required. For more information, see hp.com/go/jetadvantagesecureprint.
11. HP JetAdvantage Security Manager must be purchased separately. To learn more, please visit hp.com/go/SecurityManager.
12. HP Web Jetadmin is available for download at no additional charge at hp.com/go/wja. HP Web Jetadmin offers different levels of device support: HP essential fleet management with a core set of fleet management features for distributed enterprise such as branch offices or teleworker environments, and HP advanced fleet management with a comprehensive set of enterprise configuration features and management capabilities.
13. HP Universal Print Driver is available for download at no additional charge at hp.com/go/upd.
14. HP Auto-On/Auto-Off Technology capabilities subject to printer and settings; may require a firmware upgrade.
15. HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.
16. Measured using ISO/IEC 24734 Office Suite and Feature Tests, excludes first set of test documents. For more information, see hp.com/go/printerclaims. Exact speed varies depending on the system configuration, software application, driver, document complexity, media size, media orientation, and media type. HP High Speed may require firmware upgrade to enable.
17. OfficeJet ink cartridges: average based on ISO/IEC 24711 or HP testing methodology and continuous printing. PageWide cartridges: average color composite (C/M/Y) and black declared yields based on ISO/IEC 24711 and continuous printing. LaserJet print cartridges: declared yield value in accordance with ISO/IEC 19752. Actual yield varies considerably based on content of printed pages and other factors. For details, see hp.com/go/learnaboutsups.
18. Standard and maximum input capacities may vary by model. Maximum input capacity may require purchase of optional paper tray.
19. Printer requires HP ePrint account registration. App or software may be required. Wireless operations are compatible with 2.4 GHz operations only. Learn more at hp.com/go/mobileprinting.
20. Supports the following devices running iOS 4.2 or later: iPad, iPad 2, iPhone (3GS or later), iPod touch (third generation or later). Works with HP's AirPrint-enabled printers and requires the printer be connected to the same network as your iOS device. Wireless performance is dependent on physical environment and distance from the access point.
21. The HP Color LaserJet Pro MFP M479dw model is only available in Canada.
22. HP FutureSmart firmware is available on most HP Enterprise printers and MFPs. Some features enabled by future HP FutureSmart upgrades may not be available on older devices if, for example, physical product characteristics limit the functionality of the new feature.
23. Some solutions require download or additional purchase. Learn more at hp.com/go/printingsolutions.
