

X5

STATE OF
THE ART
SLIDING
STORAGE
SYSTEM

Unique Features

Newly designed Brake System is easier to lock and unlock. Holds unit firmly in place while loading or unloading.

24" and 18" shelving units can be used on the same track.

Before and After

This typical storage room shows an inefficient use of the space with stationary racks.

Two rows of X5 Heavy Duty shelving were installed side by side, leaving one aisle and gaining over 100% more storage area.

X5 is easy to specify

How to order X5 using the Track Length Worksheet

- 1. Measure the size of the room you want to maximize.
- 2. Find your total room length by feet or inches on the chart. Use the closest size **under** your total room length.
- 3. Read across to see how many 18" D or 24" D shelving units will fit in that length. The chart automatically allows for "creepage"* and one aisle of 36" (If you will have more than 8 units, you may wish to allow more aisle space between them by removing one shelving unit for every 7-8 units).
- 4. Continue across chart to see how many of each size track sets you will need in addition to the set of SFRT100 End Tracks.
- 5. Select the shelf length that will work in your space (36", 48", 60", 72"). Remember, sets of tracks can be placed next to each other for maximum storage capability.
- 6. Decide on the number of **shelves** per unit that you will need.
- 7. See parts list and order: size and number of shelves; size and number of posts (4 per unit); size and number of roller assemblies (to match size and number of units), and size and number of tracks (as determined by the worksheet).
- 8. Consider any accessories to customize your **X5**.

* Creepage is the extra space that comes in between the units and between the end units and the bumpers on the ends of the tracks.

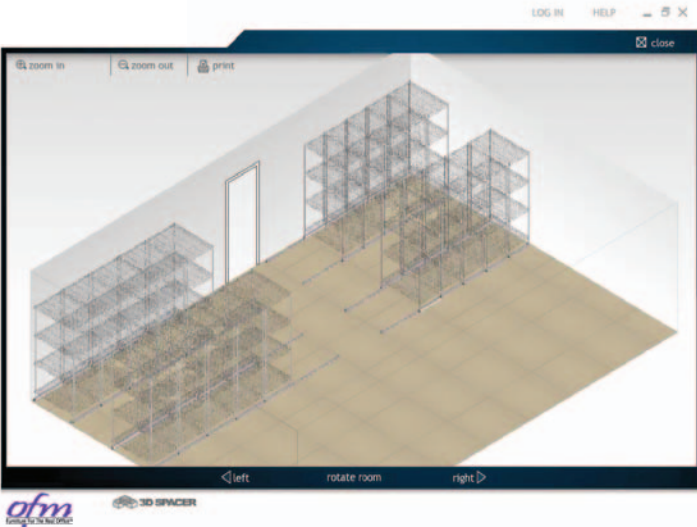

| Total Track Length (inches) | Total Track Length (feet) | 18" Deep Units | | | 24" Deep Units | | | Number of SMT100 Middle Track Sets (each piece 39 1/2") | Number of SMT50 Middle Track Sets (each piece 19 1/2") |

We can help you plan a room of X5

X5 is now on 20-20 & Visual Impressions. We will use this technology to help you maximize your space! Simply fax or email us a line drawing of your room and we will design a storage system that will optimize your available area.

We can show you a 3D or 2D view, a list of parts and a price quote.

A revolutionary idea for storage

Increase your storage space by 40-70%! The **X⁵** movable steel shelving system recovers wasted floor space by turning aisles into more storage area. Shelving units slide effortlessly on our exclusive patented track system.

Chrome-plated shelves are made of 2, 5, and 7 gauge steel; the posts are 19 gauge steel. Each shelf supports up to 800 lbs. evenly distributed.

Easy to use and customize

No tools are required to assemble **X⁵**. The tracks are not bolted down, and are completely modular.

Just lay the tracks on a smooth surface and you are ready to go. This makes **X⁵** easy to customize, reposition or expand. This design allows for retrieval of contents from both sides.

Safety features of the X⁵

A “step on/flip up” safety brake comes with each roller assembly, allowing users to lock units into place while loading and retrieving.

Open wire design allows sprinkler system penetration and maximizes visibility and airflow for your sensitive items.

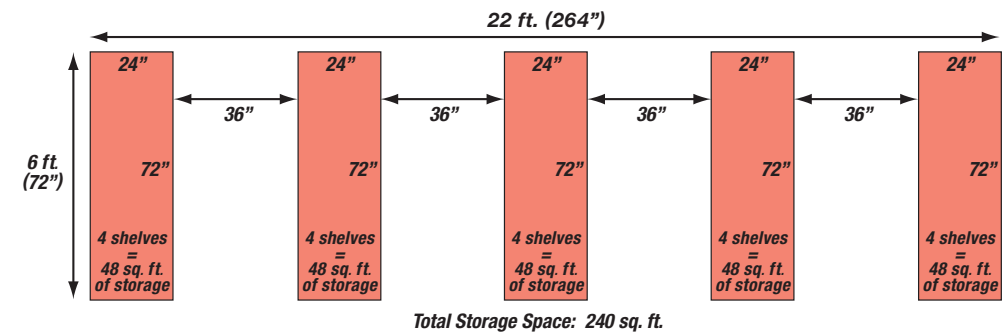

X⁵ is distributed in the U.S. exclusively by OFM.

Sliding Shelves Save Space!

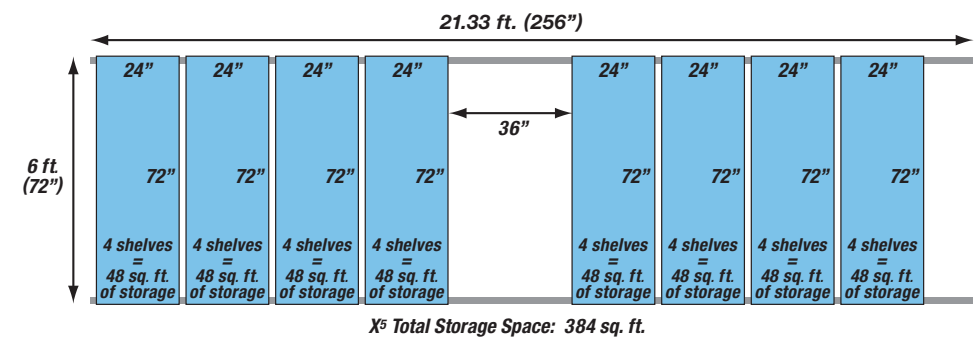

Standard storage methods require an aisle between each stationary storage unit, using up valuable floor space.

This example of five units with 4 shelves each would yield 240 square feet of storage.

Standard Storage

Optimized Storage with X⁵

X⁵ sliding storage on tracks, increases usable space 40 to 70% by converting aisles into more storage area.

Using the same square footage, the example above would yield 384 square feet of storage.

An Increase of 60%!

X⁵ Lite

If you need to save space and have light weight items, **X⁵ Lite** is a great option. Get the benefits of a sliding shelf system at an affordable price.

Black or silver painted shelves and posts support up to 300 lbs. evenly distributed. Available in 36" and 48" widths. Common configurations include metal track system and 3, 4, 5, or 6 complete 4 shelf units. (Five units shown here)

Home Use

Do you dream of organizing the basement or having more room in the garage? No need to build an addition—just order **X⁵ Lite**!

School Sports Equipment

Make the most of the space you have. Access units from both sides to distribute equipment faster and spend more time at practice.

Office Supplies

Maximize the use of any small storage area and keep day to day supplies organized and handy.

Wire Shelving Units include:

4 shelves, 4 posts, adjustable glides, and shelf mounting clips plus 4 hooks for linking units together.

Wire Shelving features:

No tools assembly, shelf heights assemble in 1" increments, 300 lbs. capacity per shelf.

Accessories:

4" PVC Casters (2 regular and 2 locking), S-Hooks (set of 12).

Shelving Extras:

All **X⁵** Accessories are compatible with Wire Shelving Units. Extra shelves available for all sizes (sold in sets of 2).

Wire Shelving Units:

36" W x 72" H x 18" D
48" W x 72" H x 18" D

36" W x 72" H x 24" D
48" W x 72" H x 24" D

Shown with casters (optional)

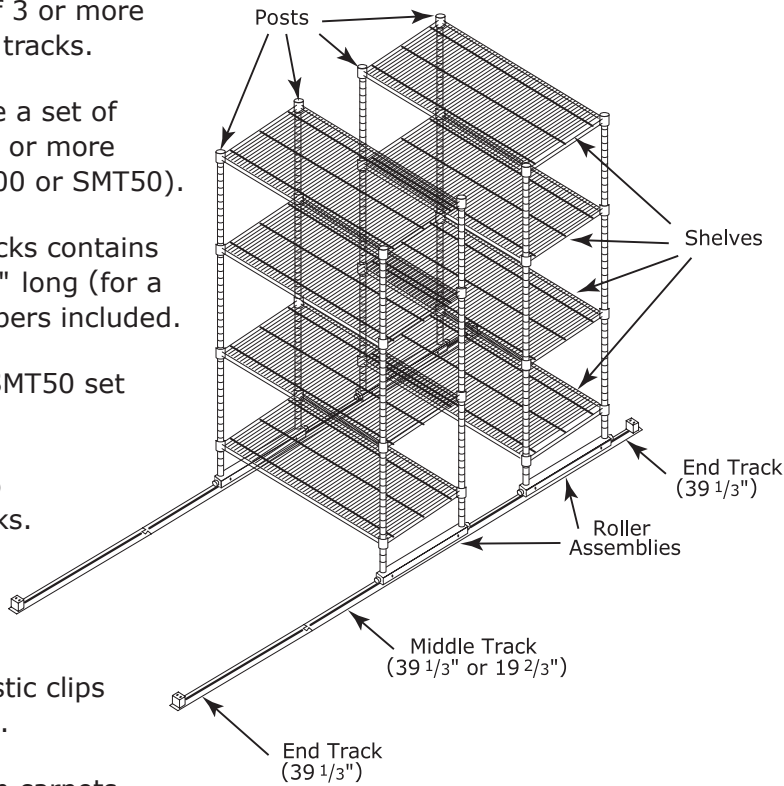

Shown with extra shelves (optional)

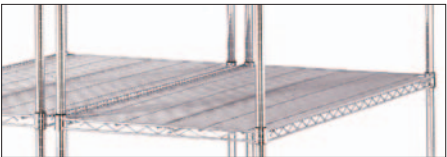

X⁵ and X⁵ Lite System Features

- An **X⁵** installation consists of 3 or more **X⁵** units that roll on a set of tracks.
- Each set of tracks must have a set of End Tracks (SFRT100) and 1 or more sets of Middle Tracks (SMT100 or SMT50).
- One set of SFRT100 End Tracks contains 4 pieces. Each piece is 39 1/3" long (for a total length of 78 2/3"), bumpers included.
- Each SMT100 (39 1/3") and SMT50 set (19 2/3") contains 2 pieces.
- A set of rollers is required to mount each unit on the tracks.
- The roller size should match the shelf depth.
- Each shelf comes with 4 plastic clips (enough to mount the shelf).
- Not recommended for use on carpets.

X⁵ Limited Lifetime Warranty

OFM hereby warrants that the X⁵ products distributed by it shall be free of all defects in original material and workmanship for the life of the product under normal use. This warranty does not apply to normal wear and tear, or damage resulting from shipment, storage, alteration, unauthorized repair, infestation, misuse, abuse, accident, neglect, acts of God, natural causes, exceeding listed capacities, and/or failure to provide reasonable and necessary regular maintenance. Within the specified periods of this warranty, OFM agrees upon OFM's option, to repair or replace at no further cost to the buyer any portion of the subject products which prove to be defective in material or workmanship, provided that the buyer gives written notice within thirty (30) days of all such claim defects and proof of purchase is provided. OFM has the option to examine any and all parts claimed to be defective prior to repairing or replacing said parts.

This expressed warranty is exclusive of all other warranties, expressed or implied, including without limitation and implied warranty or merchantability or of fitness for a particular purpose. OFM shall be liable under this warranty only for the cost, or, at its option, the replacement or repair of defective products. All incidental or consequential damages which may arise, including but not limited to, business losses, personal damage and third party liabilities are hereby expressly excluded.
