work of art!

Yeah, and the
painting's not bad
either.

Wood Seating

Wood Melissa W501

This is the one that started it all – the original, staggeringly popular Wood Melissa that inspired the stylistic evolutions on the next few pages.

W501

W501 Shown with optional wood seat

W501BS

Wood Melissa W503

Vertical slats and a more substantial top rail distinguish this Wood Melissa model from its forerunner.

W503

W503 Shown with optional wood seat

W503BS

Combine this solid-back chair with other Wood Melissa models to vary the visual landscape of your project while maintaining a “family” consistency.

Square-to-Bowed

Different shapes. Different sizes. Tall or short, fixed or folding, wood, laminate or even solid surface.

Nobody else can offer the range of tables we do – because nobody else can match our experience, expertise and execution. We make our tables right here in our Grand Rapids factory, utilizing state-of-the-art technologies under the watchful eyes of veteran furniture makers. If you want more choices, more quality and more value, you want the chair company that knows its tables.

Standard Height

Pub Height

Core Drilled/Bolt Down

Flip-Top

Folding Table

Cantilever

Occasional

We use BIFMA strength-approved, industrial-grade, low-formaldehyde particle-board for the cores in all our **lamine and veneer table tops**.

Strong, affordable, sustainably harvested maple is our standard for **solid wood tops**, but we can source and work with other species as requested. We offer a wide variety of standard wood finishes as well as premium distressed finishes and an unparalleled ability to work with custom stains.

Table **bases** are made of a high-strength, structural steel – 30% stronger than the average steel – or heavy-duty cast iron. **Columns** are heavy-wall tubes made of 14-gauge steel.

A variety of **edge profiles and materials** are available – including rapidly renewable bamboo and an earth-friendly, exceptionally durable urethane edge made with vegetable oil.

An “under-top” **purse shelf** option on pub-height tables accommodates purses, coats, cameras and more.

Our **table-flip** mechanism saves space and eases storage when tables are not in use.

Square-to-round, square-to-bowed and **square-to-rectangle** tables enhance your flexibility.

Flip-top tables with mobile casters nest compactly for space-saving storage.

Our patented **table-fold** mechanism on T-Base tables is the strongest on the market.

Roy

Table tops “float” above a painted metal frame for a contemporary aesthetic that complements Roy modular lounge furniture (pages 82-83).

ROY232218S

ROY244815RT

Nadia

With a choice of laminate, wood veneer, solid wood or solid surface table tops, Nadia is a perfect match for its namesake seating line (pages 84-89).

NAD16R 16" Round

NAD22R 22" Round

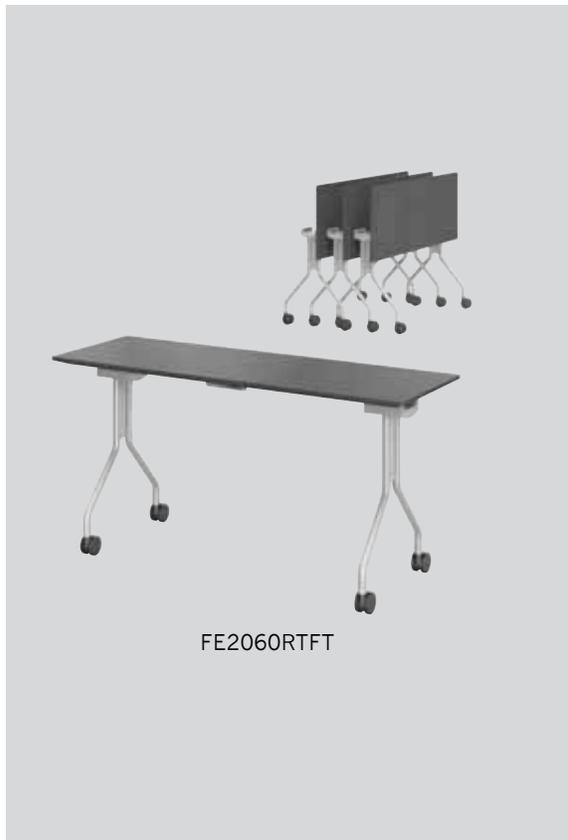

NAD22S 22" Square

NAD2242BOW 22" x 42" Bowed

Flip tops and mobile casters make Felix ideal for training room applications – with or without Felix chairs (pages 28-29).

FE2060RTFT

Mimicking the platform base of Bodie lounge seating (pages 80-81), this line includes a personal side table with an optional USB port.

Lounge At a Glance

All of our chairs and tables support interaction and communication. But the products below lend themselves to more specialized social applications – from corporate training rooms and collaborative spaces to university lounges and healthcare waiting rooms. They connect people with each other and with technology.

Roy Modular Lounge

You can create (and recreate) an endless array of contemporary lounge configurations with this chic, smart collection.

Roy's signature open back does triple duty: It opens up the design, lightening the scale of your lounge space. It eases cleaning. And it provides convenient access to the optional data/power port in the chair back.

Nadia Seating & Tables

From aesthetic choices for every taste to configuration options for every size person and group, Nadia is all about inclusion.

Nadia guest and patient seating features a patented upholstered j-bar between seat and back. That enables the back to flex with the users' movement, promoting health and comfort. Proprietary Bactiblock® technology inhibits microbial growth on wood surfaces, and many antimicrobial, moisture-repellent fabrics are available.

Four arm styles support different aesthetic goals. Wood arms are hand-sanded and hand-stained to ensure superior color clarity and exceptional grain consistency.
