VALUABLE ATTRIBUTES

- Lifetime Warranty
- Integrated power and data management in the spine of the product.
- Integrated power and data management systems -UL listed power options in 3 and 4 circuit systems. 3-Phase (3 circuit) is the standard. Please Let us know if you require 4 circuits.
- Power can easily be integrated from the floor, wall, or ceiling)with the addition of the Elite power pole).
- Benching works seamlessly with G-connect credenzas in order to create a “benching” design.
- Our Benching is the perfect alternative to Panel Systems and other open plan products when space and budget are limited, but style, function, and budget cannot be sacrificed.
- Continuity of finishes and textures with all other Gebesa products including Panel Systems.
- Ever-evolving design and innovation to meet the growing and changing needs of the modern workspace.
- Additional modules can be added to existing stations to meet your needs as your company and needs grow.
- Storage options include: freestanding, mobile pedestals, and benches with storage.
- Screens and modesty panels in a large variety of sizes, finishes, and textures to provide a measure of privacy in an open plan environment.

Technical data

Finishes & Surfaces

- Work surfaces (1 1/8”), drawer fronts (1/2”) and door fronts (1/2”) are available with 3mm perfect match edge banding
- 15 Thermal fused finishes with perfect match edge banding
- 11 High Pressure Laminate finishes with perfect match edge banding
- 5 Veneer finishes
- All standard powder coat finishes available for bases and steel structure.

Structure

- Legs available In two options; O legs and Post Legs (Post legs may be installed at standing height).
- Central legs have doors for easy access when base feeding power and data.
- Scallops are standard on all flip doors for access to wire management ducts.
- Soft close hinges on flip doors eliminate slamming.

Storage

A multitude of storage options are available from all other Gebesa lines to compliment the Benching line. Mobile Pedestals from the Urban collection have been added to this price list for your convenience. Step Down Credenzas from the G-connect standard series have been added as well. If you need more options, feel free to consult your dealer or a WOFD customer service representative to be certain that items will be compatible.

Wiring Capabilities

Benching utilizes the Byrne product line. Power and data are fed through the central channel and is totally encapsulated to create a clean and functional look.

Power & Data Management Features

The Benching line from Gebesa features a raceway down the spine for power and data. The 3 ¼" track features preinstalled clips that will accommodate either 3 or 4 circuit power. Our 3 circuit system will be specified as the default, but if you need the 4 circuit, just let your sales associate know. The raceway also features ample space for data and networking cables. All of these are closed in for a clean and refined look by easily removable access panels with knockouts for easy reconfiguration of power and data within the units. Power may be brought in from the floor through any of the central legs; the wall straight into the raceway; or via power poles and directly into the raceway. If utilizing power poles, be sure to let your sales associate know the height of the ceiling where the stations will be installed

Recommended power system

POWER CONNECTION & ACCESSORIES

BYRNE

Phase 3 System Power

The Phase 3 System by Byrne is the perfect compliment to our Benching Systems lines. With UL listing, 10 year Warranty (that is double the industry standard) and \$16,000,000.00 in liability coverage for electrical components alone, you can rest assured that your power system is going to be reliable and safe for the life of your use.

Wire Diagram for 3-Keying

- 5 wires, 3 circuits, 20 amps each
- 13 duplex receptacles per circuit, 39 duplex receptacles per hardwire infeed
- Easy to specify, install & reconfigure
- Modular, snap-together connections assure quality install
- UL recognized (UL1286) as an Office Furnishing Component
- Mounting is backwards compatible with other systems

Duplex Receptacles

- BE52426-3-C-1-CC (black) or -WW (white) \$32
- BE52426-3-C-2-CC (black) or -WW (white) \$32
- BE52426-3-C-3-CC (black) or -WW (white) \$32

Single blocks

- BE52413-3-2-24 24" BLOCK \$51

3-Way Connector

- BE52418 Y CONNECTOR \$32

Power entry

- BE52490-3-72 72" POWER ENTRY \$171
- BE52490-3-144 144" POWER ENTRY \$287

*sizes up to 160" available upon request

2-way Adjustable Jumpers (Panel pass-through)

- BE52463-3-30 Jumper, 30" Length \$133
- BE53288-3-24 Jumper 24" Length \$108

Elite Pole

Steel floor to ceiling Power Pole (3.25" x 3.25")

Will accommodate two power in feed & 32 data cables
10" increments
\$59

Elite Power Pole Flange

Is recommended for use at the Ceiling Power Pole entry

\$19

When ordering Elite power pole for Benching tables, poles will come standard with a knock-out placed in line with table leg knock-out

ORDERING INSTRUCTIONS & FINISHES

Step (1) Indicate the chosen items part number(s)

Step (2) Determine if the item is directional. Then to specify a side, use "RGT" for a Right and "LFT" for a Left.

Step (3) Add the letter "F" then the worksurface(s) and/or drawer fronts finish code. If the item ordered does not have a front or surface, such as an "O" Leg, then skip this step. A (F) will not need to be specified.

Step (4) Add the letter "R" then the casegood(s) body finish code.

Cushions

Indicate cushion part number and then add the fabric code to the end. EXAMPLE: GBG01120THP18

Mobile Pedistals with Cushions

Specify the mobile pedestal code. Indicate the body finish (R) and then add the fabric code to the end. EXAMPLE: GBU300R33THP11

Screens

When ordering MDF, Laminate or Fabric covered tackable screens, indicate the screen part number and then add the MDF, Laminate or Fabric code to the end. EXAMPLE: GAM835UV21

Acrylic Screens

The acrylic screens are only available in Frosted Acrylic. When ordering Acrylic Screens, it is not necessary to indicate an additional code for the Acrylic material. Only the screen part number must be specified.

LTL Orders less than \$1,500 Net:	\$100 Surcharge*	\$125 Surcharge*	\$175 Surcharge*	\$250 Surcharge* + 15% Net Order

* Orders above \$50,000 net in Zones 1, 2 and 3 may be subject to a waived or reduced freight fee. For inquires contact WOFD customer service or your WOFD sales representative.

FREIGHT PROGRAM EXCLUSIONS:

Small parcel orders less than \$1500 net such as single chairs will be sent UPS and actual freight will be billed to the customer. This will only be considered if appropriate to ship the item UPS and if the UPS fee is less than the Zone surcharge.

Deliveries under \$30,000 net to New York area codes ending in: -100, -101, -102, -103, -118, or -119 will incur \$100 fee added to the Zone 4 program.

Deliveries under \$30,000 net to the District of Columbia (DC) will incur \$100 additional fee added to Zone 3 program.

Due to their excessive weight and or cubes, work surface-only orders and orders consisting of 12 or more lateral files (2, 3 and 4 drawer) will be excluded from all freight programs. A freight quote will be provided for these orders and the actual freight will be billed to the customer.

LTL and Truck load additional services such as Lift-gate, inside delivery, residential delivery, limited access etc are an additional fee and will be charged to the customer. These services must be specified at order submission. Service charges will vary depending on the service type and the carrier. For service charge inquires please contact WOFD customer service. WOFD will not incur the costs for unforeseen issues neglected by the purchaser, including those previously stated as well as re-consignment fees, re-delivery fees and any other charge that may have been handled with complete information about the delivery location.

LTL Delivery appointments generally add 1 business day to standard transit times and can incur additional charges depending on the carrier. Truckloads may be scheduled without additional fees or transit times. Because of delivery delays beyond the carriers control such as weather, accidents, construction ect delivery appts should be expected to arrive within a 4 hour period from appt time. Please make sure appropriate measures are taken by receiving to insure detention fees are not incurred. WOFD will not take responsibility for delays due to weather, accidents, construction and any other factor beyond our control.

Please note: for LTL deliveries allow 15 minutes waiting and unload time. Dedicated (truckload) deliveries allow 2 hours waiting and unload time. After the allotted time, the customer will be responsible for any detention fees. It's recommended having a receiving dock with a height of at least 10' and a pallet jack or fork lift available at the time of delivery.

CLAIMS AND RESPONSIBILITY

Any shipments received with visible carton damage or shortages must be noted as "damaged" or "short" on the bill of lading and signed by the receiving agent, as well as the carrier. The damaged cartons should then be inspected immediately to determine if there is product damage. If there is obvious product damage to the shipment upon receipt, refuse the shipment and note on the bill of lading "damaged and refused" before signing. An inspection of the contents of all cartons immediately upon arrival is recommended. WOFD must be notified within 5 working days after product is delivered if any shortages or damages were found (including concealed damage that does not become apparent until the product is unpacked). Failure to note shortages and damages on the bill of lading and/or failure to notify WOFD within 5 working days after shipment receipt constitutes a waiver of claim. Freight claims for third party and/or collect shipments are the responsibility of the customer. Contact Customer Support at 800-288-9633 if shipment is not received within 10 days of shipment.
