# U-Series®

General Information

## GENERAL INFORMATION

U-Series® is an active and accessible storage collection designed to augment KI Systems offerings and provide more relevant and cost-effective workstations for applications within each of KI's vertical markets.

The U-Series® collection includes lateral files, freestanding, mobile and worksurface-supporting pedestals, double pedestals, credenzas, wardrobe tower cabinet units, wardrobe tower side-access bookcase units, overheads, and related accessories. Nominal and actual dimensions are listed with each item to the nearest 1/16 inch.

All U-Series storage models meet or exceed ANSI/BIFMA X5.9-2004 standards.

## CONSTRUCTION AND STANDARD FEATURES

All U-Series® storage units are constructed of steel. Box and file drawers feature smooth riding, ball-bearing slides. Box drawers feature a three-quarter travel. File drawers feature a full extension. Units feature ADA-compliant nickel-plated loop pulls.

### Glides

Freestanding pedestals feature non-adjustable glides which allow units to match the height of mobile units. Credenzas feature 1-1/2" glides with 1" adjustment range. Worksurface-supporting pedestals, double pedestals, and wardrobe towers feature 2-1/2" glides with a 1" adjustment range.

### Locks

Locks are standard on all units. The lock is a high-security double-bit type. The double-bit lock offers superior security when compared to a single-bit lock. Units are standard with random keys in a range of 994 different numbers. Specific keying combinations

are available at no additional charge. This information must be included with the order. Locks can be master keyed. Please see the accessories section of this price book for order information on master keys, extractor (core-removal) keys, key blanks, cut keys, and core and key sets.

All locks have removable and interchangeable plugs. This feature provides for onsite custom keying. Units can be supplied with the lock plugs installed or shipped separately. To install or remove lock plugs a unique key is required. This key is the extractor (core removal) key and can be found in the accessories section of this price book. Contact Customer Service to order lock accessories. To order plugs for field installation, specify "lock plugs not installed" on order. Order must specify total quantity of specific key-numbered locks.

Example: 30 plugs:  
3 keyed alike  
10 keyed alike  
17 keyed alike

### Paint

All inside and outside shell and front surfaces are electrostatically powder coated. Colors are listed in the Color Addendum.

### Lateral Files

Lateral files are offered with 12" drawers and receding doors, in three widths: 30", 36", and 42". Refer to pricelist for standard configurations. Uprights and top and bottom reinforcements are welded into rigid boxframe. Seamless back and top feature reinforced corners.

### Pedestals

Mobile, freestanding and worksurface supporting units are offered in box/box/file and file/file drawer configurations. Mobile units are also available in a box/file configuration. Pedestals are shipped

for front-to-back letter-sized filing. Pencil tray, if desired, is specified separately. Worksurface-supporting pedestals are used to support worksurfaces in panel-wrapped applications. Cantilevers or other supports are not required at the end of a worksurface supported by a pedestal, but finishing brackets may be specified to fill the space between the back of the pedestal and a panel if desired.

A counterbalance weight is included in file/file mobile and freestanding units for stability. A counterbalance weight may be required in worksurface supporting file/file pedestals depending on the desk configuration.

### Double-Wide Pedestals

Worksurface-supporting double wide pedestals are used to support worksurfaces in panel-wrapped applications. Units feature two 12" drawers with side-to-side hanging folder bars. Double wide pedestals may be specified at return conditions but not be specified in place of panel returns.

### Credenzas

Each freestanding credenza features a single sliding door with lock that spans approximately half of the width of the credenza. Bottom shelf is sufficiently sized to hold binders. Top shelf is non-adjustable. Bottom of unit features adjustable glides.

### Wardrobe Towers

Wardrobe towers are stand-alone storage units. Wardrobe/cabinet units feature a pedestal in file/file or box/box/file configuration, a full vertical height wardrobe with coat hook, and a storage cabinet with an adjustable shelf.

Wardrobe/side-access bookcase units feature a pedestal in file/file or box/box/file configuration, a full vertical height wardrobe with coat hook, and an open bookcase with one adjustable shelf. Pedestal aesthetic matches wardrobe pedestal.

The handedness of a wardrobe tower is determined by the location of the wardrobe unit. A right unit features the wardrobe on the right side of the unit.

### Sliding Door Overhead and Underhead Storage

Overhead and underhead units each feature a single sliding door with lock. Door spans approximately half the width of the unit. Slide mechanism uses four wheeled rollers. Units are sufficiently sized to house upright standard binders.

## Model Numbering System

Each character in the basic model number corresponds to a specific unit feature.

How to Build a Model Number

Example: U-Series Pedestal

ULP	24	W	BBF
ULP	Product name	U-Series Pedestal	
24	Cabinet depth	24" deep

## HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The ☐ indicates that a choice is required.

- The absence of the ☐ indicates that no choice is required.

- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

## HOW TO BUILD A MODEL NUMBER

**A** Select basic model.

**B** Select unit and drawer color.  
Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

**C** Select counterbalance weight.  
**CBW** - With Counterbalance  
**NOCBW** - No Counterbalance  
See pricing column for counterbalance weight upcharge.

**D** Select key option.  
**KS** - Key standard  
**NLC** - No lock core  
**KA** - Key alike

**E** Select pull style.  
**USP** - U-Series Pull (Standard)  
**CZP** - Connection Zone Pull

## INFORMATION

### Folder Bars

Files are configured for side-to-side media storage. For alternative configurations, see the General Information section.

### Height

All dimensions shown include 1/8" allowance for glides in recessed position.

### Accessories

See accessory section for accessories that can be ordered separately.

### Weights

Figures provided are approximate and reflect packaged product without additional accessories.
