

FLEXWING MOWERS

FLEX. ABILITY.

HOW YOU GET **THE JOB DONE.**

*At Diamond Mowers, we are constantly on the job—the job of crafting American-made, heavy-duty products that make your tough jobs easier, your long jobs shorter and all of your jobs safer. Demand the Best. **DEMAND DIAMOND.***

FLEXWING:

Going above and beyond the rest.

Our Diamond Flexwing Mower line sets the bar high for engineering, durability and just plain get-the-job-done-rightness. Our Flexwing Mowers are the easy answer to the question of working large and undulated areas. You'll cut smoothly in one pass via our spring-suspended, walking-tandem axles in 10', 12' or 15' widths. Flexwing Mowers are the effective solution to rapid start-ups with a design that simply and quickly mounts to your tractor's drawbar—ready to roll in minutes.

*Demand Efficiency. **Demand Diamond.***

FLEXWING MOWERS

FLEXING OUR ENGINEERING MUSCLE.

Diamond Flexwings are also flexible with your choice of PTO or hydraulic.

The hydraulic version features the ability to turn decks on and off independently of one another—**smart.**

Hydraulic models automatically shut down a section of the mower when a wing is folded up—**safe.**

Our PTO version includes super heavy-duty gear/splitter boxes that dominate in the toughness department—**solid.**

Demand Power. Demand Diamond.

THERE ARE NO "LITTLE THINGS" ON DIAMOND MOWERS, BUT THERE ARE SERIOUS DETAILS:

- Diamond's proprietary Tri-Hex disc covered by an unprecedented 5-year warranty
- Constructed of 10-gauge, high impact-resistant steel.
Using a high-test, impact resistant material allows Diamond to use a thinner steel that results in a deck 37% stronger than our competitors.
- Forged blades with 6-1/2" overlap are 1/2" x 4" x 20" 360° swinging, single-edged, brush or grass suction knives
- Blades attach to disc with hexagonal blade bolts castle nuts and roll pins.
Other manufacturers use bolts with a keyway, but the Diamond design increases the load-bearing surface by more than 3,000%.
- Grease-able hitch reduces wear and extends life
- Standard double row of chain guard laced with cable to prevent flying debris
- Standard laminated solid tires or optional airplane tires
- Replaceable skid shoes
- Rated at 200 hp, our gear boxes are 14% stronger than our competitors
- Walking tandem axles keep the mower running smooth in rough terrain
- Phasing cylinders to eliminate mechanical links between the center decks and wings, therefore increasing durability

YOU KNOW AND DIAMOND KNOWS.

You know the difference between stopping and finishing. You know the difference between putting in time and putting in effort. You know the difference between Diamond Mowers and all the rest.

Demand Exceptional. Demand Diamond.
