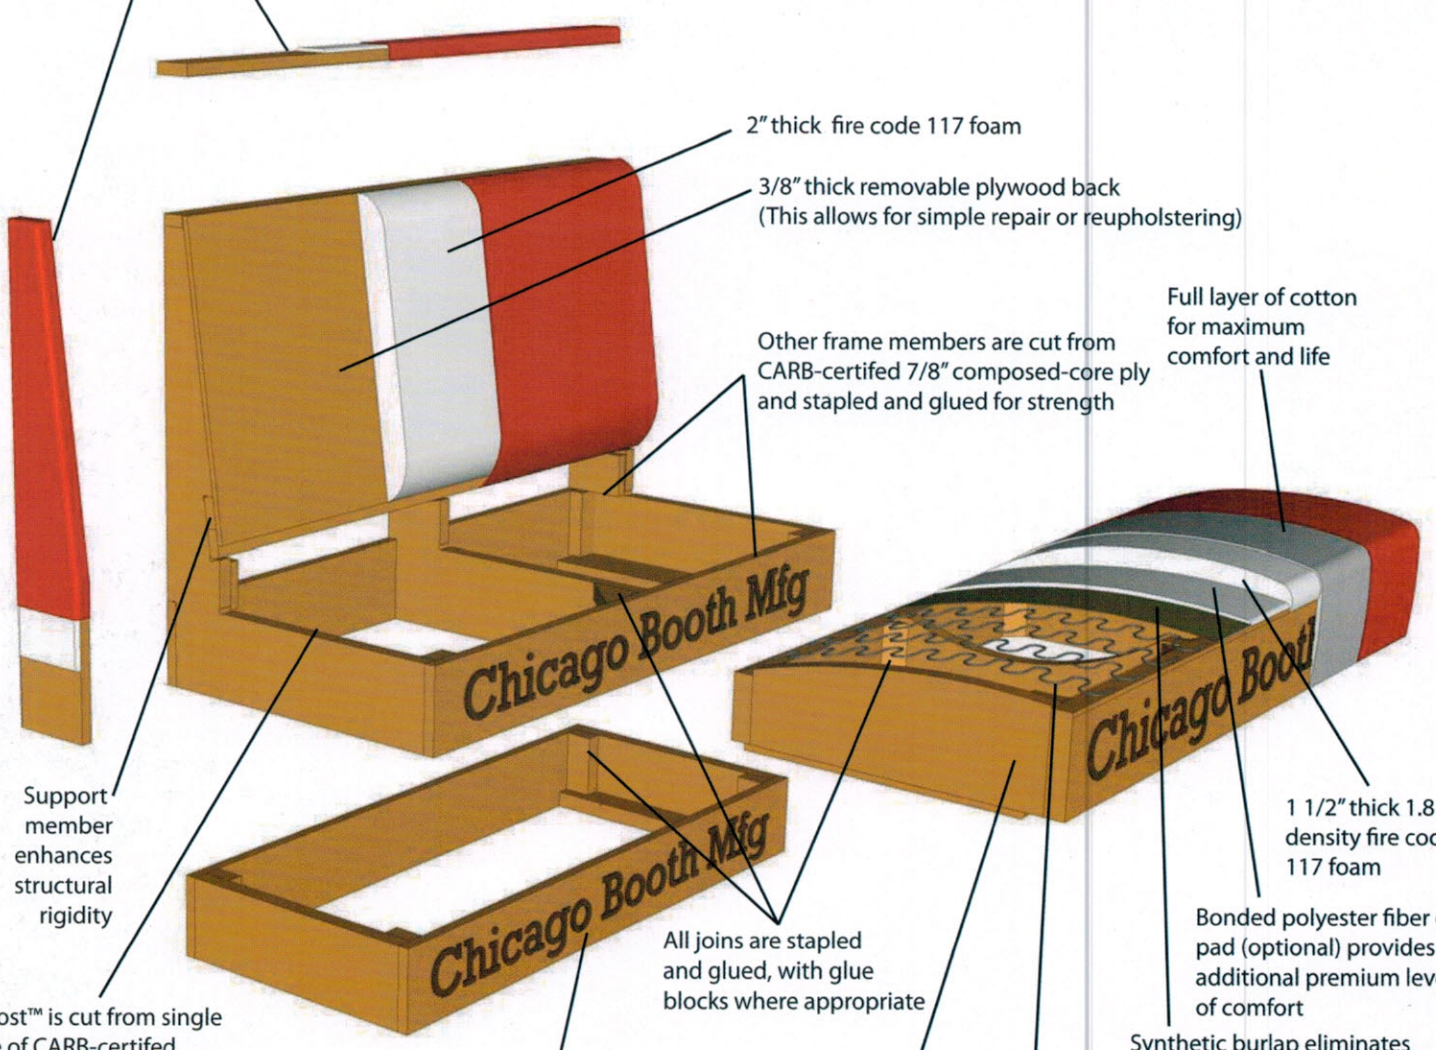
CHICAGO BOOTH MFG

Why Chicago Booth?

Because it's what's on the inside that matters.

This cutaway shows some of what we put into our Ambassador Model, and is typical of most of our other models. It's <u>not</u> typical for products from most others, however. Ask us... we would love to talk about the long-term value you get from the Chicago Booth Difference!



Removable seat and back trims solid 3/4" plywood and panels are wrapped with foam then upholstered completely separate from the Unipost™ frame

2" thick fire code 117 foam

3/8" thick removable plywood back (This allows for simple repair or reupholstering)

Other frame members are cut from CARB-certifed 7/8" composed-core ply and stapled and glued for strength

Full layer of cotton for maximum comfort and life

Support member enhances structural rigidity

1 1/2" thick 1.8 high density fire code 117 foam

Bonded polyester fiber deck pad (optional) provides an additional premium level of comfort

Unipost™ is cut from single piece of CARB-certifed 7/8" composed-core plywood (This eliminates a joint that can fail over time in many booth designs - this avoids diner discomfort and potential booth usability)

All joins are stapled and glued, with glue blocks where appropriate

Synthetic burlap eliminates spring telegraphing and is not susceptible to mildew or rot

Solid composed-core plywood seat frame

Separate bottom base can be repositioned to allow for baseboards or flush install

Extreme long life 8 gauge sinuous seat springs are pneumatically attached with a double staple procedure into the reinforced composed-core plywood seat frame. These springs are then connected with metal link connectors to form an unparalleled web of comfort and support (connectors not shown)

All booths and tabletops are proudly made in the USA

Chicago Booth Mfg Inc.

Custom Creations - II

Although we make a lot of furniture, we're making it ourselves, one piece at a time. And we're happy to make **whatever you can dream up**. If you would like to help complete the look of your establishment with furnishings that can't be found anywhere else, please give us a call. We can help you do it!

Circle Booths - Chicago

The Chicago circle booth below has a removable upholstered spring seat and crumb strip, and a wood top base without molding. The back is biscuit-tufted and removable for simple material recovery. It has a few custom elements: extra-thick curved solid wood top trim flush with solid wood side trim, corner fillers that are recessed wood rather than full, and no crumb strip (usually standard for this booth). The corner radius is our standard radius (which is tighter for a bit more seat space), but can also be made in a true (circular) radius. Single booths, double booths, and banquettes in this style are also available. The other pictures below some other possibilities; please see our Circle Booths Q&A for more details.

Options

Height:	36", 42", 48" or custom
Length & Depth:	Made to order
Back:	Plain, headrest, channels, diamond-tuft, biscuit-tuft, pulled buttons, beadboard, plywood
Seat:	Traditional (squared-off), welt or topseam join
Crumb strip:	Standard (upholstered)
Trim:	Upholstered or wood, edges rounded or eased
Top base:	Wood or laminate
Molding:	Standard or premium
Wood:	Oak, Cherry, Ash, Birch, Maple, other
Stain:	Our standard or custom
Finish:	Satin, Semi-gloss, Gloss
Materials:	Thousands available on *chicagobooth.com*
Corner:	Standard (tighter) or true (circular) radius, Full or drop filler (see Q&A sheet for details)
