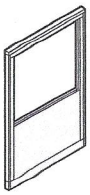
Half-Glass, Half-Fabric Transparent Panels



Tip: If you want the panel fabric to match the fabric on change-of-height panel connectors, power poles, cable poles, or fillers, check to see that the fabric you want is available on that product before you specify the panel fabric. Some fabrics are not available because they are not suitable for wrapping thin pieces.

**Tip: For most fabrics, fabric application is standard in the warp horizontal direction.*
▶ See *Specification Guidelines for Vertical Fabric Applications,* page 400, for details on these exceptions.
Warp vertical is available as an option.

Tip: 80"H fabric-covered end trims are available in the warp vertical application only. If they are specified, be sure to select vertical application on the panel surfaces.
