The Powerful Choice For Optimizing Mail Center Management

When it comes to meeting your most demanding mailing needs, nothing delivers like the Neopost IN-700 Series. Available in two models, the IN-700 and IN-750 are true representations of our next generation mailing systems.

The sleek and modern design depicts clean lines and bold edges while maintaining the Neopost commitment to build and ship products in the most ecological manner. With the IN-700 Series, you get access to a growing suite of services and apps to improve postal, parcel and related digital communications.

Experience Full IM®pb Benefits!

Neopost offers two online shipping solutions that meet the latest Intelligent Mail® Package Barcode (IM®pb) requirements. Based on your shipping volumes, NeoShip and EMS provide the tools you need to create compliant labels and optimize savings.

Maximize Control of Shipping and Mailing Operations

Neopost's optional EMS software offers a host of tools to manage costs, streamline operations and help build and maintain customer relationships. This technology can analyze your company's mail and shipping operations, pinpoint incorrect addresses and lost packages, identify where money is being wasted, as well as offer new methods for increasing efficiency with respect to mail processing operations and account chargeback. EMS offers:

- Rate shopping (available on EMS multi-carrier only)
- Address correction and validation services
- Work ahead
- Scan & drop
- A comprehensive reporting package

Environmental Commitment

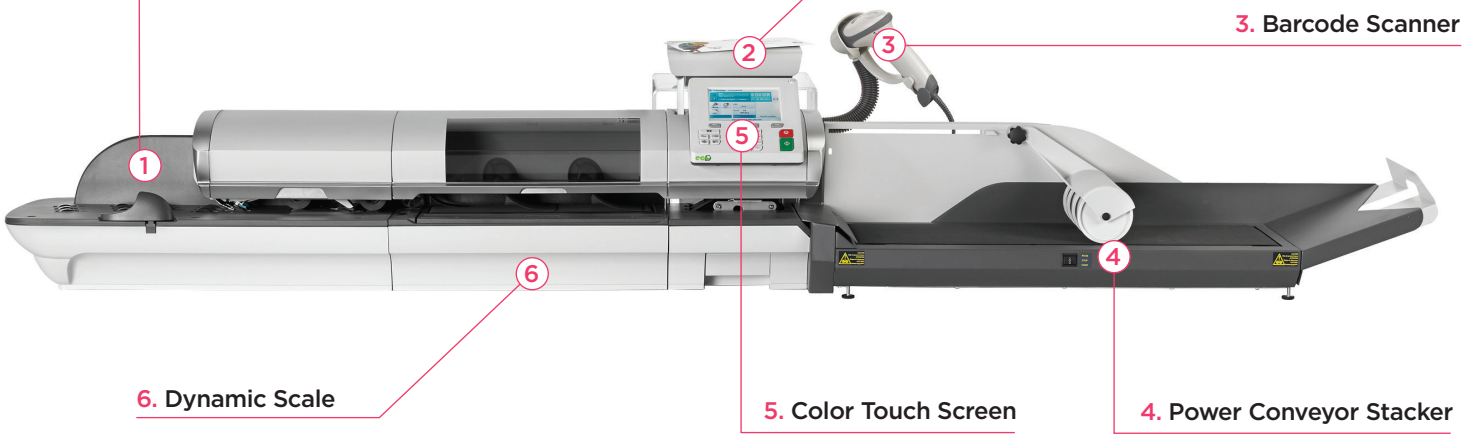
The IN-700 Series carries Neopost's Eco-Label which aims to provide a clear and consistent set of environmental performance criteria used in the design phase of our products.

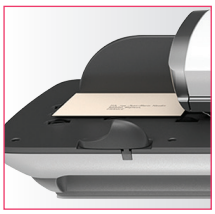
How We Reduce Our Environmental Footprint:

- Neopost limits the machine weight and the amount of raw materials used for production.
- The volume of our packaging is kept to a minimum and is 100% cardboard and recyclable.
- Packaging for the IN-700 Series represents less than 20% of the total weight of the packed product.
- The user-friendly sleep mode helps reduce energy consumption.
- We develop our products to ensure a minimum recyclability rate of 75%.

The IN-700 Series is compliant with environmental Regulations and ENERGY STAR

Performance and Productivity





1. Mixed Mail Feeder

Eliminate hand sorting by size or weight. Self-aligning rollers prevent jams or misprints. The 700 Series is among the strongest performers in the market, processing up to 140 lpm (IN-700) and 175 lpm (IN-750).

4. Power Conveyor Stacker

Keep mail flowing to achieve maximum throughput by reducing the number of starts and stops.

2. Weighing Platform

10, 30 or 70 lb. platforms handle even the heaviest parcels and oversized packages with ease. Add differential weighing to reduce manual processing and handling.

5. Color Touch Screen

Enhance operations and minimize keystrokes with an easy-to-read color touch screen. Large, descriptive prompts and menu keys make navigation a breeze. The Rate Wizard provides concise steb-by-step instructions, making USPS rate selection easy.

3. Barcode Scanner

Save time and eliminate errors using a barcode scanner for department/account entry and processing USPS® Extra Services.

6. Dynamic Scale

Accurately weighs, rates and classifies mail at speeds up to 75 lpm (IN-700) and 110 lpm (IN-750). Reliable sensors detect dimensions to ensure compliance to USPS Shape-Based Pricing requirements.

Specifications	
Processing speed (batch) IN-700	Up to 140 lpm
Processing speed (batch) IN-750	Up to 175 lpm (postcard)
Dynamic weighing speed IN-700	Up to 75 lpm
Dynamic weighing speed IN-750	Up to 110 lpm (postcard)
Envelope minimum	3.5″ x 5″
