Folding chairs - Tablet Arm

## • 7417 UWT

Folding tablet arm chair with upholstered seat and back Available left or right handed.

Tablet arm chairs can be linked with Y-35 clamps.

# Quality Features

---

## Options & Accessories

# Double rolled Steel Frame Quality Features

The double rolled steel frame with its inherent flex can withstand the most demanding audiences whether it be a pop concert or sporting event.

- **Frame Design**

Sandler's X-Frame folding chair is one of the most widely used designs in indoor arenas and venues throughout the world. The unique double rolled steel frame gives the chair an inherent flexibility offering unparalleled strength and stability.

- **Chair Feet**

High specification chair feet feature non-marring rubber cushions over u-shaped steel glide along with tension grip to avoid unintentional removal.

- **Self Levelling**

The inherent flexibility of Sandler's double rolled steel frame compensates for uneven floor surfaces.

- **Guaranteed**

All Sandler double rolled steel chair frames are guaranteed for ten years.

# Frame Linking

- **IBR Interbracket**  
Chairs are linked as closely as possible to minimise row lengths.

- **SBR Spacer Bracket**  
Chairs are linked with an additional 25 mm of space.

- **SB1**  
Meets European safety specifications where 50 cm centre to centre dimensions are required.

- **Polyfold Linking**  
Integral linking device avoids using loose linking clips.

Sandler Seating's unique interbracket linking system allows linking of chairs in perfect alignment.

Interbracket linking devices are welded as an integral part of the chair. Complies with all safety regulations for places of public assembly.

# Armchair Linking

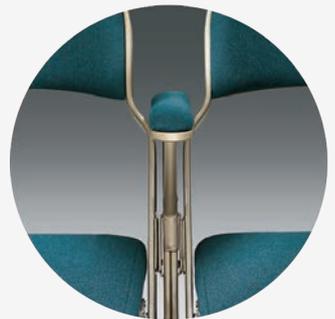

Continuous floor bars allows rows to be linked together temporarily, offering complete flexibility in seating layouts.

Floor fixing is secured with optional retaining holes drilled through chair leg.

- **Hoop and Slot**  
Arm chairs can also be linked with the Hoop and Slot system welded to the armrest.

- **Interbracket Arms**  
Interbracket arms can be linked between chairs to form rows of spacious arm chairs.

- **Y-35 Clamps**  
Tablet armchairs can be linked with Y-35 Clamps.

## Interbracket Arms and Tip-up Seats

Safe, simple and secure end of row arm locks to chair with Allen key screw.

Tip-up seat allows easier entry or exit between rows.

Chairs are available with automatic or manual tip-up function.

Tip-up models have optional underseat numbering facility.

# Options & Accessories

- Detachable Book Rack  
Convenient detachable book rack.

Magnetic seat and row letters or numbers.

- Sponsor Panels  
Add temporary sponsor panels to generate advertising revenue.

Space-saving underseat book rack folds with chair.

- Embroidered Seats and Backs  
Embroidered seats and backs can be produced to customer's specifications.
