AARHUS

Jorge Pensi

Designed by Jorge Pensi, AARHUS is a modular seating system available upholstered or in cushioned urethane.

SANDLERSEATING

AARHUS is the ideal seating solution for airports, hospitals and a variety of waiting areas. The aesthetics of Aarhus is suitable for any contemporary office or public space.

UPHOLSTERED SEATS

FLEXIBILITY

AARHUS seats are produced with upholstered or integral polyurethane. The arms and table tops can be fitted as options.

FREEDOM

The benches allow compositions from two to six seats. Longer benches can be produced for special projects.

INTEGRAL POLYURETHANE SEATS

ADAPTABILITY

Available in a choice of bases in aluminum, steel or oak.

The benches with integral polyurethane seats are especially suitable for high traffic areas. The integral polyurethane is both comfortable and extremely resistant and hygienic. Available in black or gray as standard. Custom colors can be provided on request.

Frame is available in white finish.
Custom colors can be provided on request.

The benches with integral polyurethane seats are produced in two standard colors, black and gray. Other colors are available on request.

DESIGNER JORGE PENSI

JORGE PENSI DESIGN STUDIO was established in 1984. Since then the studio has consolidated its position as a global point of reference for contemporary design. Its minimalist and expressive designs have received numerous prizes and awards. Some of its first products, such as the Toledo chair or the Regina lamp, have since become Spanish design icons. In 1997, Jorge Pensi was awarded the National Design Prize by the Ministry of Industry and Energy and the BCD Foundation for outstanding professional achievement.

If there is one thing which defines Jorge Pensi Design Studio's products, it is their timelessness. They constantly seek a balance between poetry and realism, material and space, abstraction and emotion. The aim is to create as many sensations as possible with as few resources as possible, challenging the usual logic in order to establish whether or not it is possible to create something new.

ELEMENTS

Ramon Esteve

Designed by renowned architect Ramón Esteve, ELEMENTS is a collection of chairs, tables and sofas exhibiting asymmetrical detailing. The modular characteristics enable a variety of flexible configurations in layout and aesthetics.

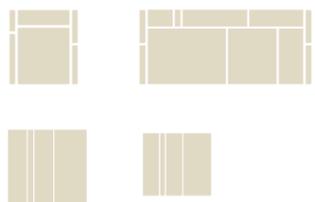

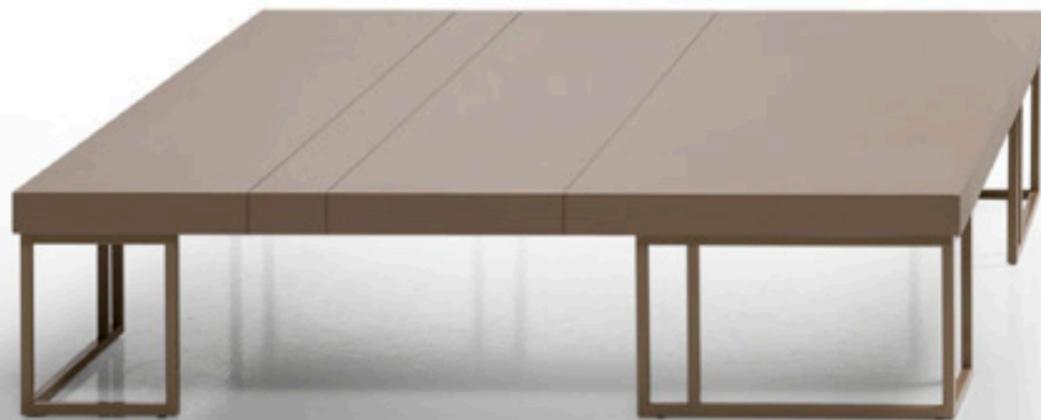

ELEMENTS collection offers a wide range of sizes and styles, from the largest sofas to the smallest armchairs complete with coffee tables. The smaller chairs, armchairs and sofas are ideal for limited spaces that require a modern and elegant appearance.

Coffee tables in a choice of sizes and finishes. Table tops can be lacquered or produced in oak veneer either natural or stained.

The armchairs with sleek and sophisticated looks can be integrated into the architecture of any space providing aesthetics and comfort.

SANDLERSEATING

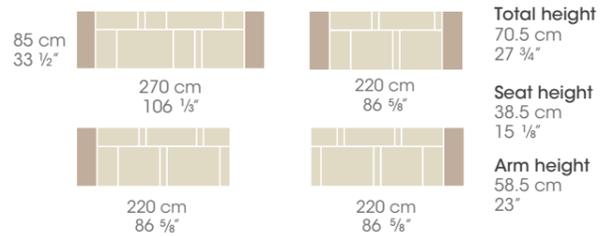

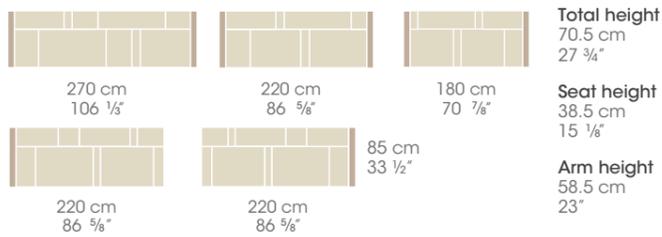

The ELEMENTS high armchairs are an original piece reaching a balance between shape and materials, function and beauty, object and context.

DESIGNED BY RAMÓN ESTEVE

Ramón Esteve is an architect by the Superior Technical School of Madrid since 1990. His portfolio includes extensive national and international experiences in public projects: medical, educational and cultural; private buildings for public use: offices, banks, play areas, interior design of hotels, restaurants and retail projects. Also to be mentioned is his work within exclusive residential housing, where his philosophy is shown in his magnitude. In the area of product design, he currently collaborates with well known prestigious brands.

Ramón Esteve is Professor of the Architecture School of University Politécnica of Valencia since 2005. He regularly gives workshops and conferences on architecture and design, and has received numerous awards for his contributions within these fields.

* The colors printed in this catalog may differ from the actual colors. Please check the colors in our swatch card or in the RAL color samples.

Art direction: Ramón Esteve Estudio de Arquitectura. Agradecemos al Centro Cultural Caixa Ontinyent el espacio para las fotografías.

PAU

PAU is an innovative approach to upholstered elements which are combined to create a variety of shapes and configurations. The collection consists of seating manufactured with and without backrests and the options of arms, tables, sofas and benches, upholstered and with wooden accents.
