TERMS AND CONDITIONS

GENERAL

All orders must be made in writing; faxed to 704.462.2672, mailed to: HLC 7514 West NC #10 Hwy Vale NC 28168 or emailed to info@hlc-usa.com.

Possession of this price list does not constitute an offer to sell.

Orders can only be received from Authorized HLC Dealers.

Prices shown in this price list are subject to change without notice. Should a typographical error be found HLC reserves the right to make changes.

All dimensions shown in this price list are approximate and subject to variation.

TERMS

NET 30 DAYS. Please make payments for HLC invoices to HLC. All new account orders must be submitted to HLC for approval. HLC suggests current financial information for new customers to accompany their initial order to avoid approval delays. Allow two to three weeks for the credit approval process.

A 50% deposit payable to HLC with your first order will expedite your shipment while credit is being established. All custom orders will require a 50% deposit payable to HLC with the order.

ACKNOWLEDGEMENTS

Order acknowledgments will be made for each order and will indicate final production specifications. Buyers should check acknowledgments to be sure that all order details are correct. Orders will not be acknowledged or entered for production until all specification information is complete. Accepted orders are subject to terms and conditions set forth in this price list and on our acknowledgment. This supersedes any variance in terms and conditions on buyer's purchase order.

HLC is not liable for any delays or failure to deliver or perform due to fires floods accidents transportation difficulties failure due to delay of sources of supply acts of God or any other causes of like or unlike nature beyond HLC's control.

WAREHOUSING

As production space is at a premium orders will be shipped when completed. Any date other than such date must be approved by the factory. If an order is required to be warehoused due to buyer's request a charge will be levied for such (chairs and ottomans - \$20 list per week lounge chairs love seats and sofas - \$45 list per week). All orders being warehoused will be invoiced at normal time of shipping and paid for under normal terms and conditions. Failure of such could affect credit line.

PRODUCT SPECIFICATIONS

DESIGN

HLC reserves the right to make changes in design or construction detail without notice; therefore if it is desired that an order match an order previously shipped it must be clearly stated on your purchase order.

MODIFICATIONS/CUSTOMS

HLC has the ability to modify existing products and/or manufacture custom products. Please contact factory for information. This includes OEM Products Frames and Parts.

CANCELLATION

Any order cancelled after it has been placed into production will be subject to a cancellation charge. This charge will be determined by HLC based upon where the order is in production at time of cancellation request.

HLC will make every effort to meet acknowledged shipping dates. However failure to meet such a date is not cause for cancellation.

WARRANTY

HLC warrants to the original buyer that each piece of HLC product will be free from defects in workmanship given normal use and care for ten years of single shift service except where noted in this price list.

HLC assumes no responsibility for improper assembly modification abuse alteration negligent use or unauthorized repair work by the buyer.

This warranty does not cover: damage caused by a carrier; C.O.M. or C.O.L; gas cylinder-pneumatic lifts casters and mechanisms beyond the OEM warranty; color grain or texture of woods and other covering materials due to natural variations over which HLC has no control.

HLC does not offer warranty on textiles beyond what is offered by the supplier.

HLC will either replace or repair at our option any parts of the product found to be defective within the terms of warranty. Such is the buyer's sole remedy. HLC shall not be liable for consequential or incidental damage to persons or property.

Except as stated herein HLC makes no expressed or implied warranties of merchantability or fitness of any HLC product for any particular purpose.

All non-standard HLC products have a one year limited warranty. All repair charges must be authorized in writing by HLC for warranty work. Only after receipt of repair bill from party performing repairs will a credit or reimbursement take place.

Do not return any merchandise without written permission from HLC. Only warranted product will be considered.

Light finishes tend to highlight rather than mask the natural characteristics and color variation of wood which are not considered defects by HLC. Likewise leather is characterized by variation in color from hide to hide and within hides and should be expected. Healed scars scratches insect bites and wrinkles are not considered defects in the leather.

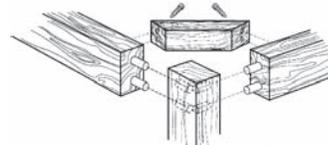

WARNING

Direct sunlight can fade finishes leathers and upholstery; and can dry out leather and degrade some vinyl covers. HLC cannot control nor be held responsible for sunlight damage.

All non-standard HLC products have a one year limited warranty. Custom orders require a 50% deposit at time of order placement.

FRAME CONSTRUCTION

HLC's frame plant produces frames under rigid specifications. Kiln dried hardwood lumber is used with extra thick (5/4 size min.) rails doubled doweled and corner blocked for maximum strength. All corner blocks are screwed or stapled to insure strength.

Typical Frame Joint

PRODUCT SPECIFICATIONS

SPRING AND SEAT CONSTRUCTION

HLC's primary spring and seat construction is the eight-way hand tied system. When eight-way construction is not possible due to design HLC will use an appropriate seat construction based on industry standards.

- **Eight-Way Hand Tied System**

The best spring construction available when chair design allows. Provides comfort and long life by utilizing double coil springs tied to each other and frame rails. This allows springs to move only in a vertical motion and distribute weight load equally to chair rails.

Materials

- Eight and nine gauge solid carbon steel double coil springs.
- 100% waxed #6 nylon string.
- Eight knots per coil at top.
- Paper lined steel fastener secures coil to bottom.
- 54 strands/inch #650 Woven Poly Propex bottom.
- 7/8" steel nails attach strings to rails.
- System covered with FLW Polywoven material.

- **Rubber Webbing System**

Simple spring construction for Contemporary and Transitional seating that require very thin scaled designs. Provides comfort and strength by attaching rubber webbing from the front rail to the back rail and across seat from side rails.

Materials

- Ultraflex Type #550 rubber webbing 2" wide with 20% stretch load
- #10 steel staples attach webbing to frame rails.

- **No Sag System**

The best spring construction for designs that do not allow for eight way hand tied system. Used on most Contemporary and Transitional style seating and as a cost savings on Traditional style seating. Provides comfort and strength by using sinuous wire springs that are connected to front and back rails. These springs are then held together by a coated wire clipped to each spring.

Materials

- Eight and ten gauge sinuous wire springs in continuous 2" wide loops. These springs are spread 4" on center across seat.
- Coated stabilizing wire.
- System covered with FLW Polywoven material.

- **Foam Over Propex**

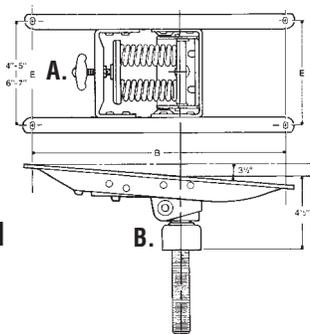

Simple seat construction for Contemporary and Transitional seating that require very thin scaled designs. Provides comfort and strength by attaching Polywoven propex material to all four side rails then covering with foam.

Materials

- #650 woven poly propex with 54 strands per sq. inch
- 500 7/16" steel staples attach propex to rails.

MECHANISMS

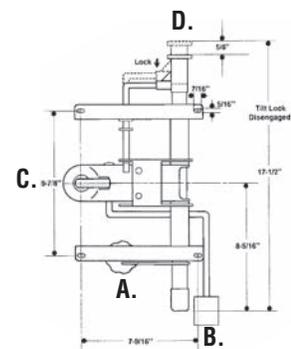

- **Manual Swivel Tilt Control** - Used for medium and large fixed back tilting chairs this spring control employs a low fulcrum and a dual "floating spring" concept to ensure both a balanced and stable ride throughout the full tilting range. Nylon contacts rubber cushion shock absorbers and self-lubricating fiberglass reinforced nylon bearings provide for long lasting quality.

Typical Swivel Tilt Control

- Adjustments:** A. Tilt tension control knob
B. Manual height adjustment

- **Knee Tilt Controls** - Used for fixed back tilting chairs the forward positioning of the fulcrum permits the chair to tilt back from the front edge. This results in minimum vertical knee movement alleviates upward thigh pressure and improves access to lower desk areas. Its streamlined design and construction exceeds ANSI/BIFMA standards and offers permanently lubricated reinforced nylon bearings. This mechanism is offered with either mechanical or pneumatic height adjustment.

Typical Knee Tilt Control

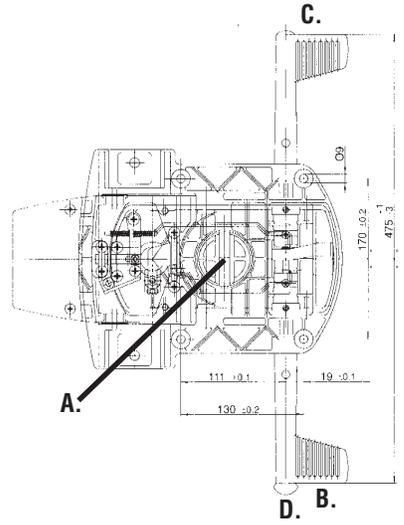

- Adjustments:** A. Tilt tension control knob
B. Pneumatic height adjustment lever
C. Manual height adjustment
D. Tilt lock push/pull rod

PRODUCT SPECIFICATIONS

MECHANISMS (continued)

- Synchronous Tilt Control** - Used for all two piece seat and back tilting chairs. This state of the art mechanism allows the user to be supported while making natural body movements and shifts during everyday office activities. This mechanism features independent seat and back movement in a 2 to 1 ratio seven locking positions back rest “shock resistant” safety function and a 5° forward tilt with lock for ergonomically correct keyboard posture.

- Adjustments:**
- A. Tilt tension control knob
 - B. Pneumatic height adjustment lever
 - C. Tilt lock control lever
 - D. Forward tilt push/pull button

BASES

Bases B through L are constructed with solid steel understructures and solid hardwood base caps. Bases M and N are cast aluminum with a powder coated finish. Base P is cast fiberglass reinforced nylon. Most bases are interchangeable but may result in different seat heights than those listed for a particular style. To select a non-standard base subtract the list price of the standard base and add the list price of the base selected. Clearly indicate all non-standard base styles on your purchase order and double-check your acknowledgement for accuracy.

B – \$225

N - Brushed – \$125

P – \$65

PRODUCT SPECIFICATIONS

FINISHES

HLC has eight key steps in the finishing process. These steps and the use of a catalyzed lacquer provide all products with a high quality long lasting finish. The steps are as follows:

1. Primary Machine Sand 100-120 Grit
2. Secondary Hand Sand 150-220 Grit
3. Apply Stain
4. Apply Sealer
5. Sand 280 Grit
6. Apply First Coats of Catalyzed Lacquer
7. Sand 320 Grit
8. Apply Second Coats of Catalyzed Lacquer

HLC applies the finishes listed below to exposed maple hardwood. If a different species of wood is required please contact the factory for price and availability.

Standard Finishes

Mahogany	Cherry
Walnut	Light Cherry
Black	Natural Maple
P. Mahogany	Pecan*
Oak	Kona

Satin finish available at no up-charge — please specify.

Light Finishes

HLC offers several light finishes and custom matches many. These finishes do not hide or mask the natural characteristics of the wood. Both dealer and customer should understand that the natural characteristics of the wood will be a characteristic of the product. Natural characteristics of the product include the natural discoloration of the wood substance and color variations in glued up stock. These natural characteristics are not considered defects by HLC and therefore will not warrant replacement or repair.

Custom Finishes

HLC will match other manufacturers' finishes. Please submit a sample with your purchase order. HLC will have sole discretion concerning the correctness of the match unless an approval sample is requested and approved. The charge for an approval sample is \$100 list per request.

The beauty of wood is the result of natural variations in color and grain. Since no two trees are exactly alike all woods may vary in color, grain configuration and stain acceptance. Therefore even though veneers and solids are carefully selected an exact matching of color and grain cannot be guaranteed.

Laminates

Kensington Maple	Windsor Mahogany
Biltmore Cherry	Hampton Walnut
Empire Mahogany	Cocobana

WELT GUARDS

A 10" long clear Polyvinyl welt guard is standard on all Traditional Executive Swivel Chairs. Please note on order if guard should be deleted.

COMBINATIONS/CONTRASTING WELTS

For contrasting welts or contrasting fabrics please add \$20.00 list/chair \$30.00 list/loveseat and \$40.00 list/sofa. If a combination of covers from any HLC Textile Alliance Partner is used on any item the cost is computed by using the highest grade of the cover combination.

FIRE RETARDANT CODES

Most products are manufactured to meet California Technical Bulletin 117. HLC can manufacture its product with components which should allow the product to meet California Technical Bulletin 133 Requirements. Please contact the factory for pricing. Should certification be required customer is responsible for cost of sample and testing fees.

CUSHION TIE STRAPS

For tie straps which prevent lounge cushions from being easily removed add \$40.00 list/chair \$120.00 list/loveseat and \$160 list/sofa.

LUMBAR BACKS

Additional lumbar support is available on many products. Please consult product pricing pages or the factory for availability and charge.

LEATHER

No two pieces of leather furniture are exactly the same. Color variations and distinctive natural markings make each piece of leather furniture unique.

Color variation is a natural occurrence with pure aniline dyed top grain leathers. In the dyeing process no pigments are used. Each hide absorbs "color" in varying amounts based on individual cell structure so even areas within the same hide may vary in color.

Color variation is an inherent quality of the antiquing process in hand antiqued leather.

Healed scars scratches insect bites and wrinkles provide yet another dimension of individuality to leather. All of the above are natural characteristics of leather and are not considered defects by HLC.

CUSTOMER'S OWN MATERIAL

CUSTOMER'S OWN MATERIAL (C.O.M)

All items are available with material furnished by the purchaser and should be priced in grade A. Yardage requirements listed in our price list are based on 54" wide plain material. Generally additional yardage is required if striped or patterned material is used if pattern requires matching or if width of materials is less than 54" wide. **HLC strongly recommends a sample of the C.O.M. material be submitted for review and approval prior to ordering. We can take no responsibility for tailoring wearability or application of C.O.M. covers.**

TEXTILE GRADING

COM should be priced in Grade "A". COL should be priced in Grade "C". COM COL and all leather grades are noted in header above each products zoned pricing.

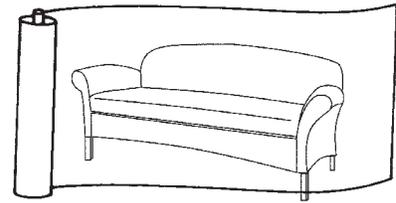

C.O.M CHART

Though every effort has been made to estimate excess yardage required for stripes and matches HLC takes no responsibility where additional material must be ordered. HLC will supply yardage requirements for large quantities revisions and special match upon request.

Refer to the following guideline when figuring C.O.M. requirements:

		Railroaded					
Fabric Width	Plain Fabric	Repeat					
		1-5"	6-9"	10-13"	14-20"	21-27"	28-34"
54"	0%	+10%	+15%	+20%	+25%	+30%	+35%
50"	+15%	+15%	+20%	+25%	+30%	+35%	+40%
48"	+20%	+20%	+25%	+30%	+35%	+40%	+45%

"Railroad" or "Top to Selvage"

		Up The Roll					
Fabric Width	Plain Fabric	Repeat					
		1-5"	6-9"	10-13"	14-20"	21-27"	28-34"
54"	0%	+15%	+18%	+25%	+30%	+35%	+40%
50"	+15%	+20%	+25%	+30%	+35%	+40%	+45%
48"	+20%	+25%	+30%	+35%	+40%	+45%	+50%

Up the Roll

ALL C.O.M.'s AND C.O.L.'s

In absence of specific written instructions accompanying the order fabrics will be cut seamed and applied at HLC's discretion and at customer's risk. While HLC inspects fabrics for mill imperfections some are difficult to recognize. HLC cannot be responsible for defects color inaccuracies dye lot variations/flaws and suggests that our customer inspect fabrics before furnishing them to the factory. HLC will make a concentrated effort to control C.O.M. and C.O.L. materials. It is not HLC's responsibility to police the receipt of C.O.M. and C.O.L. material in order to meet delivery deadlines and we assume that customers are aware of any undue delay in the delivery of their C.O.M. and C.O.L. materials. All C.O.M. and C.O.L. must be clearly tagged with customer name/Purchase Order Number/Product Number.

HLC LEATHER PROGRAMS

BASIC

Basic Leather offers both quality and function at a value price. Basic leather is aniline dyed with an embossed natural pebble grain to create a uniform appearance. Basic has a very soft hand and a tremendous cutting area that is superior to other corrected leathers. An ideal choice for high volume/high traffic applications.

FUNDAMENTAL

Fundamental leather is for those looking for the ultimate in a promotional leather. Fundamental offers a smooth tight embossed grain and an extremely soft supple hand that is most often found in more expensive leathers. With a full pigmented top coat for protection and a wide variety of color options, Fundamental is a good choice for any application.

HAMPTON

Hampton is a lightly corrected leather with a small natural embossed grain. Produced using superior European hides, Hampton offers a very soft and supple hand. An excellent leather value, Hampton is a preferred choice of upholstery clients and specifiers in office, hospitality and other commercial markets.

SIGNATURE ANTIQUE

Signature Antique Leather is the result of craftsmanship nurtured through generations. Skilled craftsmen hand wipe these leathers to allow a darker color to penetrate the furrows of the hide. All hand antiqued leathers are top grain aniline dyed with a protective breathable finish and very suitable for today's traditional interiors.

SIGNATURE PREMIUM LEATHERS (PASSPORT)

The flagship leather of our line, Passport is a full grain, aniline dyed leather with a light protective breathable finish which, through a special process, has a smooth, tight grain while retaining a subtle hand. Utilizing only the choices hides from Switzerland and Germany, Passport's gorgeous look, hand and color palette make it the premier choice of designers, architects and manufacturers.

HLC Environmental Policy

HLC's environmental effort begins by designing and building durable products backed by a ten year warranty. This is a goal aimed at preserving natural resources. It means our products limit the “dispose and repurchase” cycle that constantly burdens our environment with used and wasted furniture.

The safety of employees the community and environmental factors are also considered in the design of products and all production processes. HLC's two manufacturing facilities function in full compliance with all applicable EPA and OSHA regulations.

HLC identifies the environmental aspects of its business activities manufacturing operations products and services and then strives to prevent or reduce environmental impacts within our control including application of the best available technology and management practices.

HLC's Environmental Policy and Goals include:

- Hardwoods from suppliers who practice conservation and reforestation programs not utilizing wood species from endangered rain forests
- Parts manufactured by approved suppliers who apply modern technologies that are not harmful to the environment
- Solid maple frame construction which is free of formaldehyde often used by others utilizing plywood in their construction
- Technology that maximizes the best and highest quality yield
- Chemicals and adhesives that are formulated to meet or exceed environmental standards
- Alternate packaging methods such as blanket wrapping to reduce use of cardboard packaging
- Transportation management system that contracts with trucking lines who efficiently time shipments to ensure as full as possible shipments to conserve energy
- Maximize use of recyclable packaging materials
- Many recycled materials in the operation of the administrative promotional and financial activities that occur in the operation of HLC's daily business

HLC also employs processes and materials that prevent reduce or minimize pollution. This includes control mechanisms material substitution efficient use of resources and recycling.

HLC will continually explore creative responsible ways to do business and manufacture products so as to better preserve our natural resources and protect the environment for future generations.
