Ecologically Responsible Manufacturing

Egan Visual purchases veneer, hardwoods, MDF and particle board that is harvested from responsibly managed forests as designated by the Forest Stewardship Council, and are analyzed for optimum material usage. More information on the FSC can be found by visiting www.fsc.org.

Egan's ongoing commitment to environmental protection is based on seven basic fundamentals. These fundamentals are rigidly adhered to and monitored by the company's Environmental, Health and Safety Committee to gauge their environmental impact.

- Manufacturing process control
- Material selection
- Sustainable material sourcing
- Air quality
- Recyclable opportunities
- Supplier adherence
- Employee well being

Recent improvements include GREENGUARD Certification of our product line. The GREENGUARD certification program assures that products designed for use in indoor spaces meet strict chemical emissions limits, which contribute to the creation of healthier interiors. GREENGUARD certified products are suitable for use in environments where children spend significant periods of time studying, playing or residing.

Egan reduces emissions through the use of low emission

coatings and water based coatings. These coatings are applied in automated environments that eliminate over spray and minimize waste. "Sealed system" environments heat cure the finish to eliminate "open air" dry time.

Air quality testing is performed on a regular basis.

Programs reduce waste as well as divert recyclable material to the appropriate recycling sites. Recyclable corrugated paper is primarily used for product shipping.

Packaging methods are continuously reviewed and redesigned to reduce excess.

Products delivered locally are blanket wrapped to reduce excess packaging waste. Direct shipments from Egan's plant are generally skidded and stretch wrapped with corner protection to minimize the amount of packaging material used.

Egan's head office and factory reduce waste by implementing recycling programs. Throughout the facilities there are receptacles for paper, glass and aluminum. Other measures Egan takes to be environmentally conscious are the proper disposal of hazardous wastes.

Employee staffed committees oversee all aspects of adherence and report to Senior Management.

Programs

Instant Ship Program

Instant Ship, In Stock— Quantities up to six (6) are available on two day lead time. Product is shipped within two business days. Availability indicated by code and price in **RED**. Delivery subject to receipt of written order and inventory levels at time of order. For critical orders please confirm by calling 1-800-263-2387.

Freight Included

Freight Included Policy

Qualifying orders ship freight prepaid as a single piece. Any unqualified orders will have freight charges added to the invoice. Any products that can be shipped via parcel service are exempt from the minimum order of \$1 100 list. Parcel service availability is indicated with a 'thumbs-up' (👍) icon after the applicable product code.

Volume

Volume Order Packaging

Many Egan products are ordered in large quantities. Where possible such orders will be packaged in a manner that reduces packaging materials. Stretch wrapped directly on a skid and similar methods allow for substantial reduction in excess packaging waste.

Watch Video

Installation Support

Egan Visual products are well designed and intended for long lasting use in demanding environments when professionally installed.

Installation

Egan Visual offers a variety of support tools for the professional installer, including training videos, samples, and technical support (Call Customer Service).

Egan Visual does not warrant the installation of products (see Terms & Conditions).

LEED Support

In support of projects subject to the U.S. Green Building Council LEED green building rating system, Environmental Data Sheets are available for Egan Visual products. Egan Visual has certified LEED Green Associates on staff to assist with your LEED requirements. Available online at www.egan.com.

ISO9001:2008 and ISO14001:2004 Documentation

Egan Visual has been certified to have established, documented, implemented, and maintain a Quality Management System as well as an Environmental Management System, and is registered to the ISO9001:2008 and ISO14001:2004 standards respectively. Copies of these certifications required to support your project documentation are available online at www.egan.com.

Dimension Presentation Boards: Dimension Board

Clean contemporary design and Egan Versa Presentation Surface™ combine to create a low gloss, dry-erase board and non-reflective projection surface in one product. The Dimension board sets a new standard for design features and practical performance. Built to contribute to LEED objectives. Available in White (WH) graffiti-resistant or Natural Edge (NA) clear coat option to reveal the board's sustainable fiberboard construction.

One inch thick, the board features a recessed hanger system for flush or float mounting. Board sizes and shapes can be customized to suit your installation requirements.

DP

Dimension Presentation Board—does not accept magnetic accessories

Code	Dimensions	Price	EganINK

Freight charges may apply on orders under \$1 100 list, see Terms and Conditions for details.

Dimension Presentation Boards: LINXX

The Egan Dimension Presentation Board may be specified in linked configurations with large (1 1/2") or small (1/8") radius outside corner details. Create a massive presentation surface that is easy and economical to install. Specify panels up to 48" x 96" vertical or horizontal. White graffiti-resistant edge finish only. Guaranteed-to-clean and great for projection, LINXX is built to contribute to your LEED objectives. Dimension LINXX panels are position-specific due to the design of the interlocking mechanisms. Each LINXX installation requires a minimum of one (1) OL and one (1) OR panel. Installation will accommodate 0, 1, or more of the IB panels. Panels must be of a consistent height. LINXX is compatible with Dimension Tackable Wings. Egan Dimension products cannot be field-cut for any reason, including site features such as outlets and switches. BLOXX and STAXX configurations are available under Custom Response Program.

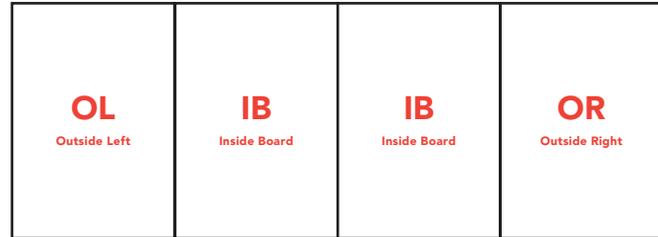

EVS Surface

LINXX Presentation Boards

Code	Dimensions	Segment
DP	24" w x 36" h x 1" d	\$490
DP	48" w x 36" h x 1" d	\$625
DP	48" w x 48" h x 1" d	\$690

DP	96" w x 48" h x 1" d	\$1 090

LINXX Presentation Boards configuration - does not accept magnetic accessories

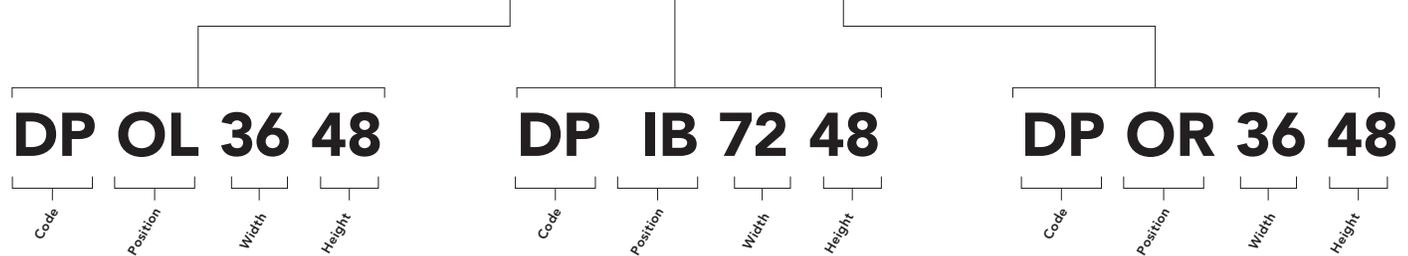

Identify each position with OL (Outside Left), IB (Inside Board) or OR (Outside Right) as required.

- Wall to wall installations should allow 1 1/2" on either side for installation assembly.
- Large/small corner selection only available on the outside corners of the final configuration.
- White (WH) graffiti-resistant edge finish only.

How To Order This Product:

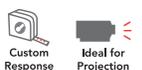

Custom Sizes:

Select next larger size and add \$42 list

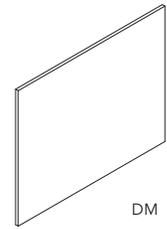

Specify each linked segment starting from left to right. Include model code and size code. For example: **DPOL3648 + DPIB7248 + DPOR3648** results in an overall size of 144" w x 48" h.

- Ships with Dimension Mounting Cleats, link connector(s)
- Other configurations are available. Call Customer Service for more detail.
- Freight charges may apply on orders under \$1 100 list, see Terms and Conditions for details.

Dimension Presentation Boards: Dimension Stele™

Since ancient times people have used the stele to communicate great ideas. The same has been said of the Egan Dimension board since Egan invented the monolithic presentation board category. Egan now presents Dimension Stele, featuring all the benefits of the Dimension board (guaranteed to clean, projection compatible, monolithic construction with vanishing edge) with a new twist - it's magnet compatible. Thanks to its steel substrate below the EVS™, Dimension Stele can handle magnetic attachments from edge to edge. For added functionality, be sure to specify optional EganGrip.

Dimension Stele (DM)

Code	Dimensions	Price
DM4836	48"w x 36"h x 1"d	\$980
DM4848	48"w x 48"h x 1"d	\$1 030
DM6048	60"w x 48"h x 1"d	\$1 120
DM7248	72"w x 48"h x 1"d	\$1 190
DM7748	77"w x 48"h x 1"d	\$1 290
DM9648	96"w x 48"h x 1"d	\$1 340

Edge Color

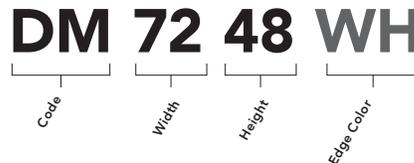

Code	Description
NA	Natural
WH	White

Product must be ordered to mount portrait or landscape, cannot be reoriented in the field.

- Dimension Mounting cleats included for Flush Mount Installation.
- Dimension Board size 7748 is optimized for 16:10 projection aspect ratio.
- Egan offers a variety of pentrays: Egan Anodized Aluminum Pentray (ACDT12 - ACDT96) is recommended.
- Also available as STAXX and BLOXX configurations under Custom Response Program.

- Freight charges may apply on orders under \$1 100 list, see Terms and Conditions for details.

Dimension Presentation Board: Dimension Slim Design

Introduced in 2010, Dimension series of EVS™ Presentation Boards continues the expectation of a warp-free construction, and uses a sustainable recycled honeycomb/fiberboard combination. Light weight and only 1/4" thick, the Dimension Slim Design makes a great impression. EganINK™ letters, lines and graphics offer limitless design options. Mounted on raised stanchions, Dimension Slim stands about an inch off the wall. Ideal for dry-erase and projection. Available in White (WH) graffiti-resistant or Natural Edge (NA) clear coat option to reveal the board's sustainable fiberboard construction.

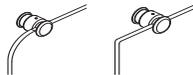

Dimension Frameless Slim Design Presentation Board—does not accept magnetic accessories

Dimension Presentation Boards: Tackable Wings

Dimension Tackable Wings are available in two distinct tackable surface options; standard tackable Egan Fabric or Egan EcoTack™ included, or upcharge from Maharam Synergy Program. Both options feature a warp-free 3/8" tackable construction, factory-mounted on a 3/4" lightweight, recycled honeycomb core board, for an overall thickness of 1 1/8". Note: When installed beside a Dimension Presentation Board the tackable surface is 1/8" above the EVS™ surface. Sizes listed below are shipped ready for installation in either portrait or landscape orientation. Both are available in Small Corner radius (1/8") or Large Corner radius (1 1/2") designs, with a Natural, White, or Custom Color edge on the board.

Markerboards: Aluminum Frame

Egan Markerboards feature EVS™ surface or EganBoard Porcelain framed in clear anodized aluminum eased-curve or precision square mitered corners. Guaranteed-to-clean and never warp. Compatible with curved or square corner frame Tackboards (MDTB).

When specifying, it is important to notice that EVS and EganBoard Porcelain are designed with slightly different shades of white. When installed side-by-side, the difference in hue is noticeable. See the Egan Color and Finish Guide for details.

Aluminum frame markerboards in square corner only are also available with a full length integrated aluminum marker tray (MFTE/MFTM).

²Unit price: Porcelain Aluminum Frame Markerboard, square corner only, with Full Length Aluminum Marker Tray (MFTM).

Markerboards: Aluminum Frame

Mount Options: Wall Mount Bracket: **W** Top Bracket: **T** System Mount: **S**

Top Mount brackets are universal and can be easily adjusted to accommodate any workstation panel measuring from 1 3/4" to 2 3/4" thick. Adjustable by 1/8" increments. Due to weight restraints, 72", 77" and 96" w x 48" h boards are not available with Top Bracket or System Mount. Brackets are aluminum with a clear anodized finish. Custom colors are not available on the brackets. Plastic protective sleeves are included to assure no damage is caused to the system. For panels greater than 2 3/4" thick, contact Customer Service.

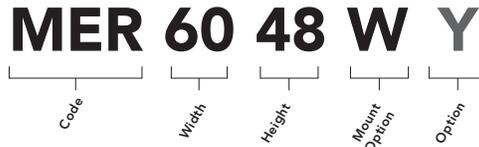

How To Order This Product:

Custom Sizes:

Select next larger size and add \$42 list.

Custom Color:

Set up, per color \$130
 Additional cost each item \$32

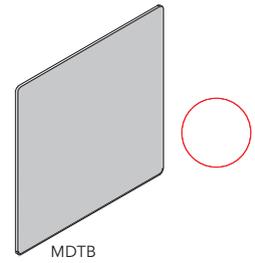

- Ships with mounting bracket (as specified), an EganCloth, 16" w x 1 5/8" d plastic marker tray that slides over the aluminum frame, four dry erase markers, assorted colors.
- Freight charges apply on orders under \$1 100 list. Parcel Service items (📦), ship 'Freight Included'.
- Instant Ship products are identified by combining codes indicated in **RED**.

Tackboards: Aluminum Frame

Egan Tackboards feature tackable standard EganFabric panels in aluminum frames with an eased curve or precision square mitered corner. Designed to complement Egan Aluminum Frame markerboards.

Markerboards: Linked Aluminum Frame

Featuring high-performance EVS or EganBoard Porcelain and aluminum frames with either eased-curve or precision square mitered corners. Link any combination of Linked Markerboards and Tackboards to create a superior quality communication wall 24"–96" high. When specifying, it is important to notice that EVS and EganBoard Porcelain are designed with slightly different shades of white. When installed side-by-side, the difference in hue is noticeable. See the Egan Color and Finish Guide for details.

IE, IM, IT

Both EVS and Porcelain Linked markerboards accept magnetic accessories.

Markerboards: EganMosaic™

EganMosaic brings you the high design flexibility of individual tesserae coming together as a user reconfigurable collaboration wall.

EganMosaic is one of the most powerful, visually versatile and appealing surfaces available. The designer specifies a bespoke tile combination with dry erase space, tackable surface, magnet, custom graphics, and more, configured into a mosaic of workspaces, signage, wayfinding, note posting, whiteboard ideation, and even sound absorption.

16"x16" and 16"x32" tiles can be oriented landscape or portrait, and moved easily. Justified or staggered columns and rows of varying or uniform length, for infinite reconfiguration.

Egan Glass Markerboards

■ EganAero™ featuring

- Pristine legibility
- Ultra thin standoff profile
- No hassle magnetic installation
- Modern and post modern visual substrates

■ GlassWrite™

- Clear or Frosted, 6mm
- Stanchion mount
- Up to 10 feet wide

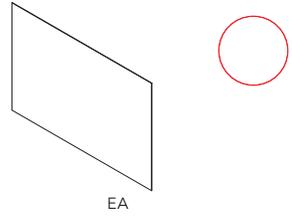

■ GlassWrite™ MAG

- Magnet-compatible
- Stanchion or cleat (float) mount
- White or colors

Glass Markerboards: EganAero™

EganAero is the world's best glass markerboard featuring Corning® Gorilla Glass®. EganAero is, simply put, the world's thinnest, lightest, toughest, clearest glass markerboard. Along with its pristine surface and stunning, sleek profile (with a wall standoff roughly the thickness of a coin), EganAero brings functional benefits not found in any other markerboard. Writing on conventional glass results in messy, shadow-strewn outcomes. Writing on EganAero is a joyful exercise in precision, and yields crisp, clear legible results. EganAero is also easy to install, easy to move, and easy to uninstall. Rare earth magnet compatible.

EganAero features glass thinness of 1mm, with an installed standoff profile from the wall of only 2mm (0.085"), including installation magnet. One easy-to-install magnetic mount is included in the base price.

EganAero (EA)

Glass Markerboards: GlassWrite™

GlassWrite Markerboards are 1/4" (6mm) thick tempered glass frosted on the back side, or can be specified 'clear.' Go above and beyond with custom graphics available through our EganINK program (Frosted glass only). Dimension GlassWrite Markerboards are frameless tempered glass dry-erase Presentation Boards with polished edges.

Our updated glass markerboards line features frosted and back painted glass. With frosted glass markerboards, wall color shows through for an unobtrusive yet highly effective visual communication. EganINK can be specified on frosted glass markerboards to really communicate your message or sponsor your brand. Back painted GlassWrite markerboards are perceived as high-end, powerful communication tools among the design community.

Glass Markerboards: GlassWrite™ MAG

GlassWrite Markerboards are 4mm thick tempered glass, bonded to steel. These dry-erase guaranteed-to-clean markerboards are available in standard back-painted white or optional custom color to match the style of your collaboration environment. In addition, the GlassWrite MAG Markerboard is rare earth magnet compatible. Egan GlassWrite MAG Markerboards feature low-iron tempered safety glass (PPG Starphire® and Pilkington OptiWhite®) for high optical clarity, high light transmission, and reduced tint. Glass thickness is 5/32", overall product thickness is slightly greater.

Egan Versa Presentation Surfaces™: VersaPRO®

Egan VersaPRO high performance EVS dry-erase surface is designed for quick and easy installation by qualified installers, and is manufactured from similar materials to VersaJOT. Optional EganSystem Track framing is recommended. Volume pricing is available. Note: VersaPRO installation surfaces require specific surface conditions be met.

VersaPRO is offered in rolls or sheets in high tack self adhesive or Customer's Own Glue (COG) prepared. All edges are straight cut. No custom shape options are available. VersaPRO can be imprinted with EganINK on 48" or 54" width and 1'-400' lengths. Note: continuous patterns over 10' may have design restrictions. Please contact Customer Service for further details.

Installation Adhesive Options (choose one)

Manufacturer is not responsible for installation.

Adhesive Option

PSA-High	COG
H	G

Pressure Sensitive Adhesive (PSA) installation is very quick and permits instant use of the product. PSA installations should be limited to 20' length or less and will not be cut on site or seamed. **High tack adhesive (H)** is suitable for painted and primed dry-wall applications.

Customers Own Glue (COG) installation is able to meet high expectation fit and finish when installed by a professional wallcovering specialist or qualified installer using customer's own wallcovering adhesive. The surface will be available for use after the installer supplied adhesive fully cures, typically 24 hours or as indicated by the manufacturer. This solution is recommended where the installation may be cut on site and or seamed for a wall to wall-floor to ceiling installation.

VersaPRO installation surfaces require specific installation surface conditions be met.

See installation instructions and videos online at www.egan.com. The manufacturer is not responsible for installation.

Specifying VersaPRO

VersaPRO-H

Pressure sensitive adhesive installation, offered in pre-cut sheets or custom lengths. Max size 54" x 400' VersaPRO-H is great for simple single piece installations.

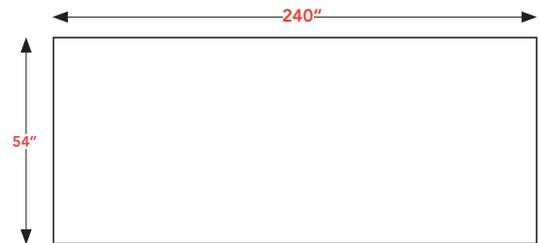

VersaPRO-G

Professional wall covering adhesive installation, offered in pre-cut sheets or custom lengths. Max size 54" x 400 feet VersaPRO-G is the choice where high expectation fit and finish is required in a floor to ceiling/wall to wall installation (note: visible seams to be expected). Unlike VersaPRO-H which must be installed exactly in position, VersaPRO-G utilizes a customer supplied wet adhesive that provides workable drying time and fitting around details like electrical fixtures.

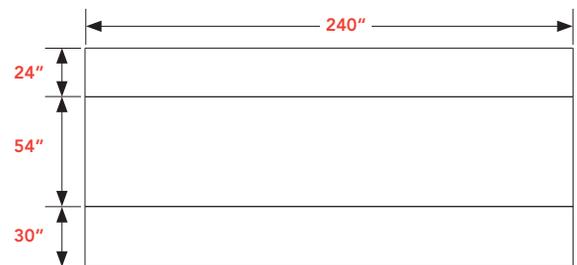

For wallcovering fit and finish and full wall to ceiling, VersaPRO-G is offered in rolls or sheets. All edges are straight cut (factory slitting is available, custom shape options are not available).

VersaPRO can be imprinted with EganINK on heights: 48" or 54" lengths: 1 foot - 400 feet

Note: EganINK continuous patterns over 10 feet may have design restrictions. Please contact Customer Service for further details.

VersaPRO-H VP24054WG

VersaPRO-G

Top) VP24024WG
Middle) VP24054WG
Bottom) VP24030WG

Note: Factory edges only butted together for seams.

Egan Versa Presentation Surfaces™: VersaPRO®

For Versa Surface up to 54" x 84", please see VersaJOT. Egan VersaPRO is available in large formats, suitable for resurfacing large areas of wall, glass, metal, and chalkboard. Egan warrants the VersaPRO product only, as outlined in our Terms & Conditions. Installation and the installation environment are out of Egan's control and not warranted by Egan in any circumstance.

Sale Restriction

VersaPRO requires professional installation and the sale of products on this page is therefore limited to cases where a professional installer has been named for the project. Any dealer can purchase VersaPRO with a professional installer of their choice named on their purchase order. The installer is an independent contractor that you can engage directly for your project and they will warrant your installation directly.

Egan Visual offers a variety of support tools for the professional installer, including training videos, samples, and a toll-free number for the Versa Surfaces pro desk. Fee-based Egan factory installer support and training is also available.

Egan Versa Presentation Surfaces™: VersaJOT

Designed for quick and easy installation, this amazing pressure sensitive adhesive, dry-erase product applies to most finished surfaces in seconds. VersaJOT is offered in units precisely cut to Customers Own Art patterns (COA). VersaJOT pieces are custom-shape, precision CNC cut from a 54" wide roll on an 84" long bed, and are applied with high-adhesive glue. Volume pricing is available.

Specifying VersaJOT

- A. Height
- B. Width
- C. Corner Radius**
- D. Notch Inset Horizontal
- E. Notch Inset Vertical
- F. Notch Width
- G. Notch Corner Radius**
- H. Knock-out Inset Horizontal
- I. Knock-out Inset Vertical
- J. Knock-out Diameter

VersaJOT is cut to your specifications for your custom requirement. Exact measurements are required.

** 1/4" radius corners are standard unless specified otherwise. Minimum radius corner is 1/8".

Customer's Own Art

Egan Visual is pleased to accept **COA** patterns prepared in suitable vector file formats: AutoCad (**DWG** or **DXF**), Adobe Illustrator (**EPS** or **AI**), Corel Draw (**EPS** or **CDR**) to Encapsulated Postscript (**EPS**). Egan Visual will execute designs exactly as provided. Suitable vector files contain mathematical shapes. Embedding or "copying-and-pasting" a raster image such as a **BMP, PSD, JPG, GIF, or PNG** into a vector file is not suitable and will be subject to engineering charges. All VersaJOT orders are customized. Egan Visual does not accept responsibility for errors in customer instructions. Submitting a purchase order with a suitable vector file for VersaJot release Egan Visual from responsibility for specification errors discovered upon installation.

VersaJOT

VersaJOT is offered on a linear foot basis. The example below will help you calculate your VersaJOT price, with or without EganINK. For an accurate quote, call Egan Customer Service.

VersaJOT @ 54" wide roll

LFT	Price/LFT
7-49	\$83
50-99	\$74
100+	\$66

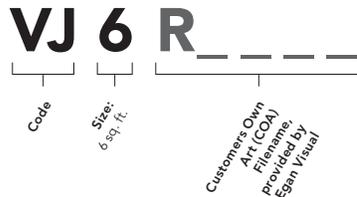

• 7 linear feet is the minimum order size

VersaJOT @ 54" wide roll with EganINK

LFT	Price/LFT
7-49	\$130
50-99	\$122
100+	\$113

• 7 linear feet is the minimum order size

How To Order This Product:

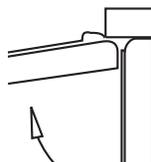

- One knock-out shape provided at no charge. Additional knock-outs, add \$130 per sized pattern.
- Engineering charges of \$130 minimum will be applied to orders with incorrect file format.
- Maximum dimensions are 54" x 84". VersaJOT has a thickness of 0.050".
- Minimum corner radius 1/8". Egan guarantees +/- 1/16" accuracy overall.
- Square footage to be taken from gross material requirement for final pattern.
- A self adhesive compact marker tray kit (VJCC) is available.
- Add 1" to both Width and Height when specifying EganINK square footage.

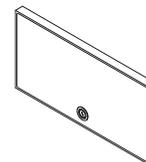

Installation Guidelines for VersaMAG and VersaJOT

Edge Overhang: Measure VersaMAG/VersaJOT to inset especially on rounded corners. Example "A" will cause VersaJOT to peel off. Example "B" is a good inset from the edge.

Clearance Required: Allow for clearance on moving surfaces. The hutch door in this example does not have enough clearance (1/16"), causing an obstruction at the hinge area.

Specify VersaJOT with a 1/8" inset around edges and locks to ensure a good fit. VersaMAG is NOT available with notches or cut outs.

Egan Versa Presentation Surfaces™: VersaMAG

Egan Versa Presentation Surface (EVS) is a unique solution for combined dry-erase and projection situations. The guaranteed-to-clean dry-erase surface is second to none in performance and visual appeal. The matte-white, low gloss surface reduces glare and functions as a superb projection surface. EVS products are available in flexible formats: VersaMAG, VersaJOT, VersaPRO-H and -G.

Magnetic installation, offered in popular sizes for file cabinets or custom shaped. EVS is applied to a magnet, and comes in custom sizes and shapes, up to a maximum of 42" x 84". VersaMAG is ideal for smaller locations where a metal surface can be upgraded for dry-erase use. EganINK adds branding and increases functionality.

Run Standard

(SM - Standard Run Pricing)

EganSystem

■ EganSystem 202

- Markerboards and tackboards
- Track compatible

■ EganSystem Office

- Track mounted
- Markerboards and tackboards
- Shelving
- Storage cabinets

■ EganSystem Track

- SystemTrack - designed by Egan, up to 4 boards deep
- GripTrack
- TackRail track
- Upper and lower options

■ VersaBoard

- Incredibly light weight
- Double-sided EVS™ surface: reversible and reorientable
- SystemTrack compatible
- Track option for adhesive mount on glass

EganSystem 202: Upper Track Options

EganSystem offers track components for optimum communication flexibility and simplicity all in one product line. The discrete linear track is wall mounted at 81" high. EganSystem components are then easily suspended from the track. End caps are included. EganSystem Upper Track is designed to work with a wide variety of track mounted products including markerboards, tackboards, projection surfaces, shelving and cabinets.

SystemTrack

(ST)

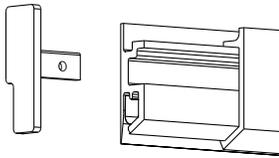

Code	Finish	Dimensions	Price
EMST96	EganMetallic	96" (8ft.) lengths	\$106

ESMT120CL	Charcoal	120" (10ft.) lengths	\$1 365
ESMT120PY	Putty	120" (10ft.) lengths	\$1 365

- One track is mounted to the wall and three additional tracks are mounted on the MultiTrack assembly.
- Ships with 9 clear, impact-resistant bumper guides that attach to the bottom frame of the boards to act as a spacer. When optional EganSystem boards are lined up in front of each other, the spacer prevents movement when using the front panel.
- These products are not compatible with MultiTrack due to size restrictions: EVPR, ESR, EMTBFC, ESSH, ESOC, EMSCR, ASCRTSRPS.
- Egan MultiTrack may be factory cut to specific lengths. Contact Customer Service for details.

VersaPRO Trim Option by EganSystem

(EWWT, left/right)

VersaPRO

EganSystem Trim Option for VersaPRO installations

EganSystem Track is an ideal frame for VersaPRO presentation surface installations.

Horizontal runs of EganSystem Track install top and bottom and are complemented by vertical trim on the sides to complete the frame. Egan also encourages properly installed third party framing to match the existing decor.

Code	Description	Price
EWWT54	54" vertical trim for use with EganSystem Track. (left/right pair). Field cut for 48" installations. An ideal frame for VersaPRO.	\$106

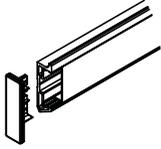

- For Custom Color, add 15%. \$130 minimum.
- Freight charges apply on orders under \$1 100 list. Parcel Service items (📦), ship 'Freight Included', see Table of Contents.
- Instant Ship products are identified by combining codes indicated in **RED**.

EganSystem 202: Upper Track Options

Egan Tack rail presents the opportunity to specify a tackable rail infill, permitting you to affix maps, photos, memos and more. This allows materials to be attached to the rail with the use of pins or tacks. A variety of tackable material colors are available as infill options or infill can also be installed in a convex orientation for a smooth, non-tackable finish.

Glass Mount (AVBG)

Magnetic Mount (AVBM)

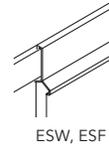

Glass Mount	Description	Dimensions	Price
AVBG37 👍	Adhesive-backed 37" and 49" lengths of EganMetallic SystemTrack designed to support lightweight VersaBoards on glass windows, walls, or any smooth surface that will not accommodate a fastener. VersaBoard not included. EganSystem 202 and EganSystem Office products are too heavy for this application. VersaBoard requires Track Mount AVBT corners.	37" lengths	\$74
AVBG49 👍		49" lengths	\$85
Magnetic Mount	Description	Dimensions	Price
AVBM37 👍	Magnetic backed 37" and 49" lengths of EganMetallic SystemTrack designed to support lightweight VersaBoards on metal-surfaced panel systems, partitions or file cabinets. VersaBoard not included. EVS and EganBoard Porcelain system boards are too heavy for this application. VersaBoard requires Track Mount AVBT corners.	37" lengths	\$90
AVBM49 👍		49" lengths	\$110

Note: These two unusual track options are designed for use with lightweight Track Mount VersaBoards ONLY and are restricted to a maximum 7 lb. weight load. EganSystem 202 and EganSystem Office products are too heavy for this application.

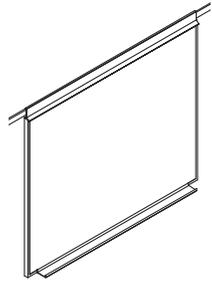

EganSystem Office: Markerboards and Tackboards

EganSystem Office is a unique track solution featuring markerboards, tackboards, shelving and cabinets. The system is designed with a continuous track hanger that runs across the width of the product, evenly distributing weight to safely support shelves and cabinets. The hanger slides easily across the track for quick, simple re-configuration. With GripTrack and Security Locks, products are prevented from unwanted movement. The entire line is ideal for office environments, providing utility on the wall, without compromising floor space.

Egan Presentation Cabinets: Etex

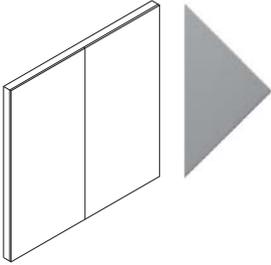

Choose high-performance EVS™ or EganBoard Porcelain, housed in a full featured Etex Color Cabinet. Etex coatings are impregnated with polystyrene particles. This provides a very durable finish. Etex has a slight texture, hides fingerprints, and is easily maintained. Cabinet interiors are equipped with tackable EganFabric panel(s) and a flipchart with tearbar which may be suspended from either door. Ships with a mounting bracket, an EganCloth, and four dry-erase markers, assorted colors.

Egan Presentation Cabinets: VersaCabinet

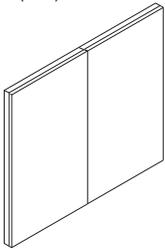

VersaCabinet is a complete revisit of the original Presentation Cabinet that Egan Visual introduced over 40 years ago. Designed to handle modern applications like data projection, this product also meets the highest design aesthetics. Featuring EVS in 77" w x 48" h (16:10 format) or 60" w x 48" h and 48" w x 42" h surfaces for dry-erase and projection applications. Cabinet interiors are equipped with tackable EganFabric panel(s) and a flipchart with tearbar which may be suspended from either door. Ships with a mounting bracket, an EganCloth, and four dry-erase markers, assorted colors. Offered with Wood, Etex or Custom Color doors.

- See the Egan Color and Finish Guide for details.

Classic wood veneers are small heart, center book matched and sealed with a durable open grain silk matt finish. Modern veneers are engineered, straight grain veneers designed to complement the contemporary wood designs found in today's office furniture.

Many Modern veneers selections are available through our Custom Response Program, contact Customer Service for specific details at 800-263-2387. Occasional cleaning with any household furniture polish will maintain this finish like new for many years.

Egan Mobiles: Egan FreeBoard™

FreeBoard™ brings impromptu collaboration with a new take on the presentation board. FreeBoard is reconfigurable from a single board leaning on the wall into a freestanding polygon collaboration tower, and back again-without tools. Free of installation hassles, FreeBoard leans true with no fixtures, and permits temporary or long term presentation board use without interfering with the existing design aesthetic - no wallmount hardware needed. Lightweight and portable; one person moves it freely. FreeBoard features EVS surface for guaranteed-to-clean dry erase performance.

Egan OpenOffice: Egan Mezzanine™

Egan Mezzanine instantly brings increased real estate, provides organization space, and divides space in a way that permits collaboration, all in one nonpermanent installation. Your existing open office desks and tables are enhanced to the designer's specification, with a broad range of customizations. The basic Mezzanine structure is available in a 3- or 4-post configuration, each in two standard depths. Standardization ends there. Mezzanine 4-post remains an 'open divider' for binders, books, or accessories. The 3-post may be configured with a space divider infill, separating work areas with either side being magnetic-compatible EVS, or Tackable fabric.

Egan OpenOffice: EganONE Dekke™

The EganONE Dekke™ starts with all the functionality of the EganONE Pro Cart and becomes a lectern-capable, standing-height collaboration center for small group impromptu sessions. Professional grade construction: Etex finish, robust and clean clear anodized aluminum verticals, laser-cut steel feet, and industrial strength, total-lock casters featuring a 220-lb weight rating per wheel.

Cabinet and drawer storage areas for binders, samples, and documents. Highly mobile, with its 4" diameter profiled wheels rolling easily across floor seams, small ridges, breaks, cables, elevator gaps, and other floor surface elements found in the modern or post-industrial workspace.

Technology capable: accommodates standard and short throw projectors. Inside, find industry-standard AV/IT rack mounts. Additionally, the second or third decks can accommodate a laptop or keyboard as required. Front and back access doors provide easy access to equipment.

How To Order This Product:

Egan OpenOffice: EganSolo™

EganSolo™ solves an emerging problem in today's open office: the smartphone. Many modern phones don't cope well with the rising ambient noise levels, and EganSolo becomes a simple, modern haven to easily step into while on the phone. Tests have shown that EganSolo, which cuts sound levels to 10-15dB, lets you hear better and permits you to be heard more clearly by the party on the other end, inhibiting others from overhearing the conversation. Available in a range of Etex body colors and the full range of Egan and Maharam fabrics. EganSolo includes a small shelf for note taking, and the fabric panels are tack compatible.

Egan Lecterns: TecTern™ S2

The popular TecTern series takes inspiration from the highly customizable 202 series instruction lecterns, bringing high functionality in a contemporary design and modest footprint. TecTern S2 features the size-class of TecTern TWO, but introduces a base and crown that can be specified to your needs. Highly tech friendly, beginning with space for an optional finger touch monitor, laptop, or audience-facing monitor for digital logo or agenda display. Tech is accessible with front and back access panels. Up top, a sliding reveal on S2TM model offers additional document or note space, available simultaneously with monitor use. At the side, slide out the integrated visualizer deck for comprehensive presentations. Specify from an array of optional finishes and accessories.

How To Order This Product:

Egan Lecterns: TecTern™ III

TecTern III brings a decidedly modern and sleek aesthetic to the Egan technology lectern series. With soaring lines and swooping expanses of clean space, TecTern III makes an intelligent statement about the presenter and the presentation. Interactive presentations are easy, with a fully-integrated interactive flat panel - finger touch control that even guest presenters can use, because it connects to the PC with no drivers to install.

Egan Lecterns: Egan SIO™

Egan SIO extends the modern lectern series with a highly practical, highly customizable unit. Giving the room a slightly modern look, available in all Egan standard Etex colors (with options), Egan SIO has a distinct look with everything nested neatly between two gables. In base configuration, Egan SIO offers plenty of workspace on its flat, bordered surface, with room for a laptop on its standard pull-out shelf. Egan SIO features ample storage underneath and includes base leveling feet. Egan SIO ships CKD unless otherwise specified.

Egan Lecterns: 202 EganLectern

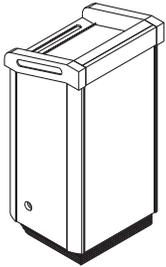

The Classic 'Front of House' lectern updated with the 202 Collection design. Aluminum extrusions frame your choice of real wood veneer or durable Etex finish. Lockable storage and wiring grommets for field set-up of laptops, tablets and microphone. A 17° angled surface with a lip on the bottom is suitable for reference notes. Two casters on the presenter's side assure the lectern can only be moved by tipping the unit onto the casters (prevents 'run-away' when you lean on the lectern).

S2LF

Durable Letters, Lines and Graphics

EganINK gives you the flexibility to make whiteboard concepts that really communicate your message, sponsor your brand or coach your team. Visit www.egan.com for more information and ideas. EganINK is \$10.00 per square foot based on the actual dimension of the board specified not the size of the art to be printed. One customer modification on acknowledgement. Additional modifications to customer supplied art work will be subject to engineering costs of \$233.

Purpose Specific Templates

EganINK is ideal for branded markerboards for healthcare, business, education and promotions. The potential for premium and incentive product opportunities is limited only by your imagination giving you the flexibility to make whiteboard concepts that really communicate.

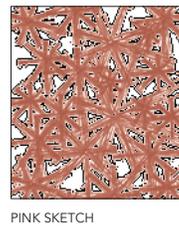

Grid Patterns

GlassWrite™ plus EganINK™

Let the light shine in! Exclusive to Egan Visual the GlassWrite Mobiles and GlassWrite Markerboards product lines may be specified with full color continuous tone graphics printed in the interior layer of a tempered, frost glass markerboard.

Custom Design

Notation guides

Enhance your creative by including lines or grids. Designs may be considered in two forms: guides and signage.

- A** ————— Guides are used to assist in drawing or writing neatly. These lines are to assist the user and not expected to be seen by viewers from a distance of more than 10 feet.
- B** - - - - -
- C** —————
- D** - - - - - Lines A-D are suitable for guides
- E** E is PermaGrid

- F** —————
 - G** —————
 - H** —————
 - I** —————
- Signage must be clearly seen by viewers who may require visibility of the information from a distance of 20 feet or more.
- Lines F-I are suitable for signage

TIP: Hold this page at a distance of 10' - 20' to understand legibility and size as it relates to your custom EganINK design.

Raster Graphics

A raster graphic contains a grid of individual dots (pixels) of color.

Egan Recommends: Vectors - 100% size as with fonts outlined and no placed raster images below the above raster specifications.

Vector Graphics

A vector graphic contains curves and lines that are described using mathematical equations.

Egan Recommends: Always supply raster images at a minimum of 200 dpi resolution at 100% reproduction size.

Typeface Selection

The minimum size and maximum black density recommended for EganINK reproduction is demonstrated in the guide at the right. Your text will appear as shown or larger if desired. Text smaller than shown should be considered unreadable from a distance greater than 10 feet.

For additional technical information on how to supply EganINK files, please download the specifier's guide at www.egan.com.

Platforms and Capabilities

Custom Response

Custom Response Program

The Custom Response Program is designed to encourage specialized product development. Our manufacturing systems provide for variations and custom solutions. Working with initial direction from designers and clients, Egan will develop solutions that work within the Egan manufacturing process. **This makes the program ideal for those clients who require a single run of a substantial number of products and/or where there is an ongoing need.** Opportunities for complete product design where volume is available are also encouraged.

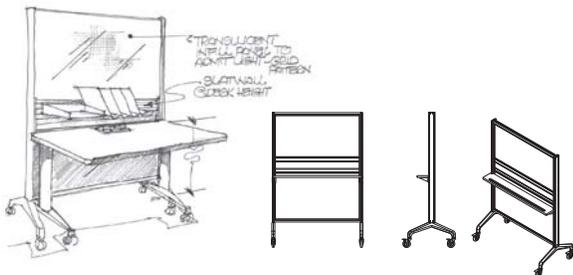

- Pricing and delivery is based on individual requirements.
- Contact your local Egan Representative with your product needs.
- Our CAD specialists understand high-quality cabinetry and can quickly evaluate Custom Response Program requests.
- Working with initial direction from designers and clients, Egan will then research and develop solutions that will work within the Egan manufacturing process. This makes the program ideal for those clients who require a single run of a substantial number of products and/or, where there is an ongoing need. Opportunities for complete product design where volume is available are also encouraged.
- Pricing and delivery is based on individual requirements.

Custom Shape

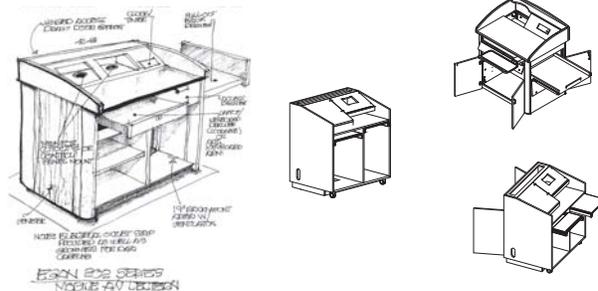

Example: V-Series Customizing

Customer's Own Panel with customer's slat wall installed 30" from the floor to match desk height.

Example: University Lecture Command Console

42" wide, with monitor and room control touchscreen and AV racking. A popular variation of the S2IM.

maharam EganFabric Program

EganFabric

Egan has a synergy program with Maharam Fabrics. From a library of thousands of fabrics, Egan factory tests and approves tackable textile designs in three quality grades. See the Egan Color and Finish Guide for grade "A" selections. Grades "B" and "C" are fashion driven and subject to frequent change, please visit www.egan.com for the most current listing. Each fabric piece is 54" wide and ideally suited to Egan's manufacturing specifications.

Fabric Samples:

Contact Maharam directly at 1-800-645-3943 or visit www.maharam.com for samples or memos for presentation. For your convenience, digital representations are available on the Egan web site, at www.egan.com.

Flammability

Maharam textiles meet all appropriate flammability requirements (further details available, please contact Maharam):

- California Bulletin #117
- Compatible with California Bulletin #133
- Tunnel Test surface ratings
- Class I UFAC

To place an order please specify:

1. The Maharam fabric number, including color, dye lot (if applicable), name. For example: Maharam Medium Raven 463490-001
2. Based on this information, you can build the Egan product code, including finish and option codes, followed by the EganFabric Program textile code as shown below:

Please see Customers' Own Material (COM) section for detailed information regarding special fabric handling. Visit www.egan.com for further details on COM and Egan Fabric Program.

EcoTack

Egan EcoTack™

Egan EcoTack is a unique tackable panel that is an environmentally-friendly choice, providing LEED credit support. Standard colors: EganMetallic (EM), EganFabric Beige (EB). Custom colors: Call to enquire. Available on select products

- 42% recycled content, and 100% recyclable polyester
- Class A fire retardant under ASTM E 84
- Sound-absorptive with a Noise Reduction Coefficient (NRC) of 0.80

CE2 A 6048 MP FL 463490-001

VersaCabinet	Body Finish: Clear Anodized	Size: 60" w x 48" h x 31" d	Door Finish: Maple Veneer	Options: 2nd Flipchart, Lock	Maharam Fabric Pattern: Medium	Description: Raven

Wood Lecterns

How to Estimate Custom Logo

Carved Engraving Design Estimation

Costs are based on time, complexity and number of colors. To estimate the cost of a carved engraving, follow these steps:

Note: This is a production line process where multiple unit orders will be more cost efficient.

Egan Custom Engraving Estimates:

Set up per order:	\$430
Engraving:	\$85
Each color:	\$80
	<u>\$595</u>

Example with 202 EganLectern S2LF

S2LF List \$2 070

Setup (list) \$430

Engraving	\$85
Color (Blue)	\$80
Color (Red)	\$80
	<u>\$245</u>

First Custom Logo S2LF \$2 745

Second Custom Logo S2LF \$2 315

Orders of 5 or more may benefit from factory efficiency's and lower costs. Please contact our Customer Service department.

Artwork Requirements

Submit vector-based art created in a design program compatible with the import of graphics/logos into AutoCad Software (such as Adobe Illustrator or Corel Draw).

Note: Pasting a pixel (bitmap) image into a vector program is not acceptable. Scanning of original art will be accepted only provided it is of "Camera Ready" quality, and may incur a digitizing cost of \$200.

Customer's
Own Material

Customer's Own Material (COM)

All Egan Tackable fabric components may be ordered with Egan Fabric Program textiles or with customer-supplied fabrics. Customer's Own Material (COM) handling is priced as \$100 list per order. The cost of textile and delivery are additional costs that are not included in Egan pricing. It is the customer's responsibility to determine if the fabric is appropriate for the application specified and that it meets applicable codes and regulations.

Egan reserves the right to reject fabrics that, in our opinion, would create unsatisfactory results on the intended application with our normal manufacturing methods.

If it is established that the textile selected will compromise the quality or integrity of Egan products, customers are contacted to discuss these concerns.

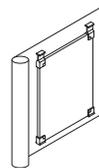

Egan does not accept responsibility for unsatisfactory results, overall appearance, fabric defects, flammability, normal durability, color fastness or any other quality issue after installation, beyond normal Egan quality standards.

At Egan Visual, we strive to craft superior results. Visit www.egan.com for further details on COM and Egan's Fabric Program.

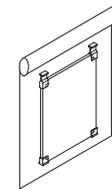

The following requirements are designed to produce the clarity of intention our craftspeople require.

COM Specification for Tackable Panels

1. Customer/Company Name
2. Contact name and phone or email
3. Egan product code, correctly specified
4. Fabric sample—indicate face side, direction supplying a sample securely fastened to order
5. Customer purchase order correctly indicated
6. Fabric manufacturer, fabric name, color, code and dye lot
7. Fabric requirements fully specified, including (but not limited to) horizontal/vertical direction, pattern matching, railroading, pattern repeats, reversibility.

Cut across the roll
(known as 'railroading')

Cut up the roll
(typical or normal direction)

8. Visit www.egan.com for product guides to assist with this process.
9. All COM must be sent prepaid to:
Egan Visual Inc.
Attention: COM Receiver
300 Hanlan Road
Woodbridge, ON L4L 3P6 Canada
10. Label instructions securely applied to COM

Platforms and Capabilities

Custom Stain Wood Finishes

Egan encourages custom stain applications. Egan endeavors to manufacture as consistent a wood finish as possible. For this reason, we have facilities to allow for manufacture of dimensioned moldings and veneer lay-up. Our finishing system is automated and ensures that the proper amount of stain and lacquer is sprayed on each cabinet. However, as wood is a natural product, each log will vary in color and appearance. Egan's skilled carpenters match doors and components to enhance the natural and variable beauty of real wood.

All veneers are small heart, center book matched and finished in a fast curing two component lacquer which provides a durable, open-grain silk-matte finish. Veneer is 1/64–1/32 of an inch. Occasional cleaning with any household furniture polish will maintain this finish like new for many years. Customer is responsible for the suitability of the final product.

Ordering Custom Stain

1. Provide sample species (Oak, Cherry, Mahogany, Maple and Walnut) with stain applied, where possible please provide details of stain manufacture, product number, and application details so our crafts people can reproduce as accurately as possible within Egan's normal manufacturing process.
2. Egan will produce a sample for review.
3. Egan will require signed approvals with PO.
4. Natural variations are to be expected and are not Egan's responsibility.

Unfinished Wood Products

Unfinished Wood Products may be ordered as by specifying:

- Specific wood species required
- TAG: Ship to customer unfinished.

There is no change in price, as there is actually additional preparation work required. Any complaint regarding the quality of a unit must be registered prior to any finish work being performed.

Note: Presentation Cabinets with tackable fabric panel on the inside of each door on any unfinished unit is supplied with paper wrapped around it to protect the fabric from stain during the finishing process. The paper should be carefully removed by cutting around the perimeter with an appropriate blade.

Freight Damage Policy

Report Damage Immediately

All goods are shipped FOB Egan Visual (see Terms & Conditions). However in the event of freight damage we can assist your receiver with the claim. The legal responsibility of Egan Visual Inc. ceases when it turns the shipment over to a common carrier. The buyer has the sole obligation of seeking recourse against the carrier. All freight is given to the carrier and signed for in good condition. It is the responsibility of the receiver to sign for the goods in the presence of the carrier and note the condition in which they are received. Freight claims should be filled with the carrier.

Follow these procedures immediately upon receipt of shipment:

1. You must inspect the freight at the time of delivery and NOTE all damages on the Bill of Lading/Delivery Receipt (P.O.D.). If there is obvious and severe damage, receiver has a right to refuse delivery. Receiver also has a duty to mitigate the loss, however. For example, you should only refuse affected product.
2. Upon discovery of the damages, the receiver must immediately report the damages to the appropriate CARRIER contact, asking for immediate inspection and request inspection report.
3. The notification of damages must be followed up in writing by fax or e-mail.
4. Unpack and inspect. Check your contents within 3 days. If the shipment was delivered without noted damage but has CONCEALED DAMAGE, receiver typically has a very limited time to report it to the carrier and request a 'concealed damage inspection'.
5. Tag and keep any packaging in which damaged goods are received in its original conditions.
6. Contact Customer Service to initiate a Support Case and make arrangements for replacement product.

Custom Color Volume Orders

Products bearing this badge are finished in an automated environment and have a list price indicated for the application of our Custom Color Program for a quantity of 1–5 pieces. When ordering 6 or more of any of these items, the economies of scale permit us to extend a one-time set-up fee of \$490 to the order. On higher volumes the set up charge may be waived.

Customer's Own Panel (COP)

C.O.P. (Customer's Own Panel) requirements for V-Series Mobile products may be coordinated through our Customer Service Department. Contact Customer Service for specific details at 1-800-263-2387.

Custom Color

Product categories bearing this badge may be specified in any solid color of your choice. Egan uses polymer coatings which may be specified in custom colors. Our color engineers are comfortable with most color specifying tools including Pantone Matching System™, Wilsonart® solid color, matte-finish laminates samples and customer supplied samples.

To Order:

1. Specify Matching System Type
2. Specify Matching System ID number
3. Where applicable provide appropriate sample
4. Provide Egan product code
5. Number of units ordered

Egan will match the laminate specified as closely as our formulating process allows. There is a per order upcharge unless indicated. Also refer to 'Custom Color Volumes', discussed below.

ADA Compliant and Universal Design

The Americans with Disabilities Act establishes precise guidelines to ensure facility design, and the products used within it are barrier-free. Any product bearing the ADA logo in the Egan catalogue, meets this criteria. Products have been designed to accommodate use from a wheelchair, paying close attention to interior clearances and distance to controls or switches.

Egan Standard Terms & Conditions

Egan Visual Standard Terms & Conditions 2013 are subject to change without notice. All specifications, pricing, and other information is believed to be accurate at the time of publication (E&OE) but subject to change without notice. Prices herein are valid in the United States only and are stated in USD. Possession of this document does not constitute an offer to sell.

Freight Terms

United States orders are F.O.B. Buffalo, NY (14150-0888) or Woodbridge, ON, Canada. Freight is prepaid and allows for normal ground transportation within the 48 contiguous states. A minimum order of \$1 100 for the freight to be prepaid is applicable. Air Freight, Accessorial Charges such as: deliver to limited access site (mines prisons, military, schools and hospitals), blanket wrapped, inside deliveries, will calls, call before and special delivery beyond dock-to-dock delivery will be quoted and invoiced. Egan Visual's responsibility ceases when it turns the shipment over to the carrier.

Financial Terms

Terms are "prepayment with order" unless otherwise pre-approved, in writing, in advance, by Egan Visual. For such pre-approved accounts, the following shall apply: Orders are binding only upon acceptance by the executive office of Egan Visual. Orders accepted by Egan Visual shall be subject to the Terms and Conditions set forth in its Acknowledgment and Invoice, notwithstanding any variance in terms and conditions set forth in the buyer's order forms. Orders are subject to limit or withdrawal of credit at any time. Minimum order value is \$100.00 list.

The approved purchaser will be invoiced for the goods as they are shipped and payment is due thirty (30) days from the date of invoice. Late penalties will be charged on overdue invoices. Orders are payable in US funds and do not include taxes or installation. All orders accepted are subject to prices prevailing at time of shipment.

Specification Changes

Specifications published are nominal and believed to be accurate at the time of publication. The right to affect, change, or discontinue models at any time without prior notice remains the right of Egan Visual. This right to change applies to catalog contents, price lists, fabric or finishes, as well as details and dimensions.

Change Orders

Egan Visual's 'Order Acknowledgment' is final and binding and any subsequent change is subject to Egan's ability to secure materials and labor. Egan Visual reserves the right to increase the acknowledged price, if such a change warrants any extra charge.

Packing and Crating Charges

All products are shipped via common carrier, and are normally shipped one unit per cardboard container. Packaging charges are included in the prices, unless otherwise stated (e.g. glass).

Cancellations

The cancellation of orders before production has begun is governed by Egan Visual's ability to conform, and a service fee may be imposed at its discretion. Once production has begun, neither standard or custom orders are subject to change or cancellation.

Shipping

Egan Visual reserves the right to ship by what is in its opinion the best method. Egan Visual is not responsible for delay, failure to deliver due to strikes lockouts, fires, floods, storms, acts of God or other causes beyond its control.

Storage

Orders will ship in accordance with Egan Visual's acknowledged shipping dates. If customers cannot accept delivery on this date, Egan Visual reserves the right to arrange storage at the customer's risk and expense.

Defects and Shortages

All claims must be reported in the first thirty (30) days after delivery of goods. Egan Visual assumes no responsibility for misuse or abuse.

Limited Warranty

Egan Visual warrants to the original purchaser, that for the stated warranty term of 5 years, Egan Visual will repair or replace any Egan Visual product which is found to be defective in material or workmanship. The decision regarding defect, and to repair or replace, will be at the sole discretion of Egan Visual.

This warranty is intended to cover all Egan Visual products. EVS and Porcelain writing surfaces are subject to the same warranty provisions but the term of the warranty for these surfaces will be extended from 5 years to a limited 10 year warranty. Excluded from this warranty are some electrical devices and lift mechanisms which are supplied to Egan Visual by outside suppliers. These devices are subject to the manufacturers own warranty. This Egan Visual warranty is also subject to the limitations and exclusions which follow. Egan Visual products are designed to be installation-ready, however installation and the installation environment are out of Egan's control and therefore installation is not warranted

by Egan in any circumstance. Egan offers free installation support: see page 2.

Limitations and Exclusions

Egan Visual feels that its warranty is quite strong, but there are some limits to the Warranty which follow.

Failure to Follow Installation/Care Instructions

IMPORTANT. READ AND UNDERSTAND ALL INSTALLATION, USE, AND MAINTENANCE INSTRUCTIONS THAT YOU HAVE RECEIVED WITH YOUR NEW EGAN VISUAL PRODUCT.

Failure to do so may void this warranty. Before attempting to deviate from our instructions in any way please contact Egan Visual beforehand. If in doubt as to how to install any of our products please contact the Egan Visual dealer you purchased the product from or contact our customer service department immediately for help.

Implied Warranties

EGAN VISUAL MAKES NO IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE. THESE AND ALL OTHER IMPLIED WARRANTIES ARE SPECIFICALLY DISCLAIMED BY EGAN VISUAL. By "implied warranties" Egan Visual means warranties that are sometimes implied to have been given by the seller even though they are not set out in writing. The warranty as stated in this document is the complete and only warranty upon this product.

Place of Purchase

This warranty protects you only when you purchase your Egan Visual product from a qualified Egan Visual Dealer. You must have proof of purchase in order for this warranty to apply.

Improper Care, Conditions and Use

Egan Visual products are superbly constructed and will last many years in normal use. In spite of this, our products do require some routine maintenance and careful cleaning. Please take care to treat your Egan Visual products like the fine products that they are. Proper care and use are essential to preserving your rights under this warranty. Egan Visual will not repair or replace your products if improper maintenance or improper use causes damage. This warranty does not apply if your Egan Visual product is damaged by the use of non approved detergents, abrasives or other harsh cleaning agents. This warranty will not apply if inferior markers or brushes are used on the writing surface. For best results always use quality ketone based markers, Egan brand markers and cloths are recommended. If marker suitability is in question, please call our customer service center at 905-851-2826 before using the product for the first time. Always be sure to test a cleaning product in an inconspicuous area before cleaning any of our wood finishes.

Accidents or Abuse

This warranty does not cover damage to Egan Visual product resulting from negligence, abuse or accidents: including burns, cuts, scratches, tears, scuffs, kinks, watermarks, paint, abrasive chemicals, permanent marker damage, or indentations. Conditions after leaving our facility are often beyond our control. Egan Visual is not responsible for freight or shipping damage, damage due to harsh environments or Acts of God.

Product Modification

Any product modification or alterations by dealer, consumer, or other parties not authorized by Egan Visual will void this warranty.

10 Year Warranty (EVS and Porcelain writing surfaces)

Egan Visual offers a limited 10 year warranty, from the date of invoice, for all of its EVS and porcelain writing surfaces. This warranty does not cover damage to writing surface resulting from negligence, abuse or accidents: including burns, scratches, scuffs, kinks, paint, abrasive chemicals, permanent marker damage, damage from inferior quality dry-erase markers or indentations. Conditions after leaving our facility are always beyond our control. Egan Visual is not responsible for freight or shipping damage, damage due to harsh environments or Acts of God. It should be noted that porcelain is not guaranteed to be an effective projection screen under any situation. While Egan Visuals low-gloss porcelain is the best in the industry, it is not a replacement for a proper projection surface.

Consequential or Incidental Damages

EGAN VISUAL WILL NOT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES. Any loss, expense, or damage incurred in replacing any suspected defective Egan Visual product will not be reimbursed. The warranty of this product is limited to the replacement or repair of the Egan Visual product itself. Under no circumstances will the manufacturer be held responsible for incidental damages, repairs, labor or other costs incurred in removal or return of suspected defective Egan Visual product.

Returns

Merchandise may not be returned without Egan Visual's prior written consent. If returned within 30 days, and by agreement, a restocking and repacking charge will be deducted from the credit note in addition to any expense for reconditioning that may be necessary. Return transportation must be prepaid, packed in the original packaging.

Purchase Order Requirements for Expedited Order Processing

Egan Visual strives to offer quality products at a great price. We value your decision to place your orders with us. In order to promptly acknowledge your orders we need you to supply sufficient and correct information. Please review the guide below.
