## TACTICAL ARMOR SOLUTIONS

The PROTECH® Tactical line of armor products include tactical vests, soft armor panels, ballistic shields, plates, helmets, face shields and more. Each product is manufactured to the highest standards and is tested to give officers the protection and the confidence they need to get the job done and return home safely. The PROTECH name sets the standard for quality and innovation across a broad range of products that have been tested and proven in the world's most demanding security environments.

# THE ADVANCED WEBLESS SYSTEM

This attachment system features forward thinking materials and technologies that take tactical carrier and plate rack products to the next level. While all PROTECH Tactical vests guarantee the best quality and next-level engineering, choose the Advanced Webless System when your mission requires a lighter, more advanced modular system.

These icons help identify the following add-on benefits of the Advanced Webless System to our most popular PROTECH® Tactical vest models.

## DURABLE / STRONG

Durable Honeywell Spectra® Composite is abrasion-resistant and offers a pull-strength greater than traditional modular webbing.

## WEBLESS

The Advanced Webless System is more flexible than traditional modular webbing making it easier to thread loaded pouches onto a tactical vest.

## LOW-PROFILE

Provides a sleeker, low-profile look by eliminating the extra layer of material sewn on to traditional modular webbing vests.

## HIGH SPEED

These advanced materials reduce weight without sacrificing coverage.

## LIGHTWEIGHT

The combination of lighter materials and reduction of sewn-on webbing makes this attachment system the most lightweight choice for the coverage level provided.

# SCALABLE ARMOR SYSTEM - SHIFT 360™

The PROTECH SHIFT 360™ is a sleek and innovative plate rack design that offers the operator ultimate scalability based on mission-specific requirements. The SHIFT 360 can be worn in its most basic form as a plate rack system with the ability to build protection by adding optional accessories to transform into a fully loaded tactical carrier.

## // WITH ACCESSORIES

- Shown with optional yoke, upper arms, M4 mag carry set, outer cummerbund, lower abdominal protector and ID patch

## SHIFT 360™

### // WITH ADVANCED WEBLESS SYSTEM

- Highest speed and most dynamic situational scalable system on the market
- Al la carte offering of optional system accessories for a multitude of custom configurations
- Ability to angle shoulder straps
- Array of complimentary optional accessories available such as: hard armor plates, ballistic belt, LT Pouch line, vest support system, etc.
