Codification

Located under each product is the specification code that explains what information needs to be inserted to complete the order. The specification code is normally divided into 2 zones : Under the section “Specify” you must fill in all the required fields, the “Option” section gives you the opportunity to add extra details to each

SPECIFY

Series	Code	Finish	Contour	Mold.	Concave	Grain	Fabric	Drawers	Pulls	Metal	Leg	Glass	Grommet	Mod.	Lock	Key

OPTIONS

SPECIFY

- 1 Series**
Identify your choice of series, two possible choices: **PH1** (Phase 1, 1⁹/₁₆” surfaces), or **PH2** (Phase 2, 1³/₁₆” surfaces). You can see the definition of these series on page 5.
- 2 Code**
Indicate the chosen product code. The code is made of characters that describe the product (identification, dimensions, orientation and position of pedestal).
- 3 Finish**
Identify the finish of the wood components of the product. Refer to page 5 for details and page 2 to visualize the finishes.
- 4 Contour**
Specify the number of sides with edge molding. Refer to page 5 for details.
- 5 Molding (Mold.)**
Identify the type of molding to be installed on the sides of the surface. Refer to page 5 for details and to visualize the moldings.
- 6 Concave**
Specify which sides of the surface need a concave edge. Refer to page 6 for details.
- 7 Woodgrain (Grain)**
Identify the direction of the woodgrain (worksurface). Refer to page 6 for details.
- 8 Fabric**
Identify the choice of fabric (tackboard), offered in two grades. Refer to page 99 to select from grade 1 or 2 and/or from the Artopex panel fabric color card to see the complete line of fabrics offered.
- 9 Drawers**
Identify the finish for the 3” drawer front on certain units. Refer to page 6 for the details and page 2 to visualize the finishes.
- 10 Pulls**
Identify the pull style. Refer to page 7 for details and to visualize the different types of pulls available.
- 11 Metal**
Identify the color on certain metal components (legs, supports for the floating surfaces, etc.). Refer to the product description for the codes.

SPECIFY (cont'd)

- 12 Leg**
Identify the surface supporting leg (connecting tables), this finish can be either “metal” or “wood”, refer to the description of the product. The wood leg finish matches the table.
- 13 Glass**
Identify the type of glass for the glassed doors on certain storage units, clear glass (**VC**) or frosted glass (**VG**).

OPTIONS

- 14 Grommet**
If requested, add a grommet to the desks, where the option is available. Refer to page 7, and in the description of the products, for the details of this option.
- 15 Modesty Panel (Mod.)**
If requested, identify the design of the modesty panel option on the furniture, where this option is available. Refer to page 7, along with the descriptions of the products, for the details of this option.
- 16 Lock**
If requested, identify additional lock(s) on the furniture, where it is available. Refer to page 8, along with the descriptions of the products, for the details of this option.
- 17 Keyed-alike (Key)**
If requested, identify the keyed-alike option on the furniture, where this is available. Refer to page 8, along with the descriptions of the products, for the details of this option.

PHASE

The Phase collection is composed of two distinct series, Phase 1 and Phase 2. The two main differences between them is the thickness of the work surfaces and the choice of edge molding. The grid below illustrates these differences.

Series	Surface Thickness	Molding Choices	Pull Choices	Finish Choices
Phase 1	1 9/16"	8	7	18
Phase 2	1 3/16"	3	7	18

Furniture Construction

The work surfaces, the storage tops, the sides, the backs and the drawer fronts have a high quality laminate core and are covered in wood veneer (3-ply construction). The veneer is reworked with several stages of finishing (sanding, varnish etc).

The contour of the surfaces (edge molding) is manufactured in solid wood, with the same finish as the surface. The pedestal frames are made of laminate core covered in wood veneer on both sides. The interior of the drawers are made of genuine maple.

All of the furniture is equipped with adjustable levelling glides, except for the bridges (assembled during installation). The height of the work surfaces is 29 3/16" (Phase 1) and 28 13/16" (Phase 2) unless otherwise indicated.

Wood Finishes

The Phase 1 and 2 series both have the same finishes for the wood components. The finishes are available in 4 wood species (cherry, oak, maple and walnut). See page 2 to visualize these finishes.

Natural Cherry	WC85	Natural Maple	WM78
Light Cherry	WC80	Bronze Maple	WM72
Medium Cherry	WC82	Ruby Maple	WM74
Classic Cherry	WC83	Imperial Walnut	WW14
Dark Cherry	WC84	Burgundy Walnut	WW37
Natural Oak	WK00	Mahogany finish on Walnut	WW36
Mellow Oak	WK09	Espresso Walnut	WW16
Harvest Oak	WK10	Ebonized Walnut	WW20
Mahogany finish on Oak	WK12		
Ebonized Oak	WK38		

Contour of work surfaces

The work surfaces are equipped with edge molding on certain sides. The "Contour" code identifies the number of edge moldings present, along with their positions around the surface.

Choice of configurations:
(To be specified in the codification)

Unique configuration:
(Illustrated in the product title)

The Phase 1 series requires the choice of the quantity of edge moldings to be used, four types of edge moldings (K, N, R or S) are available. If two pieces of furniture are positioned side by side, then it must be indicated that certain sides come without the edge moldings (see the example at right).

Moldings

The Phase 1 and 2 series have a choice of different edge moldings, Phase 1 has eight, whereas Phase 2 has three. These edge moldings have the same finish as the work surfaces.

Choosing certain edge moldings creates restrictions on the adjacent furniture. Refer to the description in the price list and the explanation of the **Concave Moldings** at the beginning of this document.

L Molding

X Molding

Y Molding

The illustration below permits the visualization of the sides where the edge moldings (K, N, R and S) are found on the left storage. The choice of one or the other configuration is based on the type of installation required. **IMPORTANT:** Two edge moldings of type K, N, R or S are not recommended for side-by-side use.

This configuration is
not recommended
(gap is apparent
between the units)

Recommended
configuration

Concave Profile (Phase 1 only)

To allow for a return to be attached to an adjoining desk that has the K, N, R or S edge molding, the return must have a CONCAVE profile. This profile allows for the edge of the return to fit properly with the desk edge. Refer to the information specified in each product specification.

(convergent tables)

Woodgrain on the surfaces

The woodgrain is generally positioned parallel to the longest side of the surface. The sides (end panels), pedestals, modesty panel, doors and drawer fronts have a vertical woodgrain. Certain exceptions apply, refer to information specific to the product.

- DESKS and CREDENZAS

Fabric (Tackboards)

All of the Artopex panel fabrics are available and can be used for tackboards. Page 99 shows Grades 1 and 2. To see all of the grades refer to the current Artopex panel fabric cards.

For C.O.M. (furnished by the dealer), consult Artopex customer service for more details.

3" Drawer specification

It is possible to order certain storage units with 2 color finishes. The second finish ("Drawer") only affects the 3" H drawer fronts.

Pulls

Phase 1 and 2 series both have the same selection of pulls. They are offered with either a black or silver finish (except for the “Traditional” pull, which is offered in antique bronze only).

Contemporary
CN (black) or **CA** (silver)

Bar
DN (black) or **DA** (silver)

Waterfall
AN (black) or **AA** (silver)

Traditional
TB (antique bronze)

On certain storage units, pulls are positioned vertically. When one of these units is specified with “Traditional” pulls, the vertically positioned pulls are automatically replaced by the “Lob” style in antique bronze (see photo at left). The “Lob” pulls cannot be specified as these are only specified on a vertical placement (except for the pigeonhole with drawers).

Certain storage units with 3” drawers are equipped with “Button” styled pulls. The finish of these pulls (black or silver) is automatically selected when the finish for the other pulls on the unit is selected. In the case of the pigeonhole with drawers, specify the “Button” pull finish, see product description for the codes.

“Floating” Surface Desks

The “floating” surface desks have a 25/8” gap between the surface and the storage part of the desk. These surfaces are supported by 3” dia. metal cylinders over pedestals and 1” dia. metal cylinders over modesty panels. Cylinders are offered in black (**5067**) or silver (**5069**).

Grommets

The grommets in the Phase series (2½” diameter, black plastic), are installed on the work surface and/or the modesty panel. Certain units have factory-installed grommets whereas on others the option is offered for one or more for a supplement of \$55 list each. Refer to the product description for more details.

Modesty Panel

The desks, bridges and credenzas are equipped with a full-height modesty (back), and can in certain cases, be replaced with either a shorter, curved, arched or superimposed modesty panel. Returns with integrated storage units are not equipped with a modesty panel but it is possible, as an option, to order either a full-height or shorter modesty panel.

If a different modesty is requested, it is important to specify the code in the codification line. Refer to the information specific to each product for availability.

FULL-HEIGHT

Modesty installed by default on the majority of the desks, credenzas etc.

UP SHORTER MODESTY

10” high modesty. Available on bridges, returns and credenzas.

UA ARCHED MODESTY

Modesty with an arched cut, 4” high space at the center of arc. Available when indicated, \$75 option.

UC CURVED MODESTY

Full-height rounded modesty. Available when indicated, \$250 option.

UO SUPERIMPOSED MODESTY

Modesty is 19” high and is positioned in front of the pedestals.

UF FULL-HEIGHT MODESTY (RETURNS)

Full-height modesty, available when indicated, \$185 option.

UP SHORTER MODESTY (RETURNS)

10” high modesty, available when indicated, \$185 option.

Convergent tables

The convergent tables (“D” and “P” tables, etc.) with a modesty panel, are equipped with a metal leg (black or silver), or with a wood leg (same finish as the unit, add \$192 list for the wood), and are equipped with a levelling glide offering height adjustment of 1½”. The modesty panel has the same finish as the other components of the unit. Units with full-height modestys are constructed with a curved wood modesty panel.

Metal or wood leg with 10” wood modesty.

Full-height modesty, all wood.

Storage Unit Finishes

It is possible to order certain storage units with 2 finishes. The second finish is for the 3 drawers that are 3" high in this category. The back of the hutch is the same color as the rest of the unit. Refer to the product description for all of the details. The casters, accessories, interior structural components, mechanisms, along with the locks, are available only in black.

Height of Storage Units

- The pedestals and lateral storage units without surfaces slide underneath the work surface and are equipped with anchoring brackets. The mobile pedestals (with casters) can also be positioned underneath a 29" high surface.
- When positioned beside a combination credenza/hutch, the 66" H. storage unit is the same height as the 38" H. hutch. The 71" H. storage unit is level with the 42" H. hutch. Please note: work surfaces for these products must all be the same thickness: either 1³/₁₆" or 1⁹/₁₆".

Pulls

The pedestals (attached, freestanding or mobile), storage units and filing cabinets along with the pre-assembled desks come with pulls. It is necessary to specify the style when ordering (refer to the choices on page 7).

Locks

All desks and units with file drawers are offered with a locking system in a black finish. For the units without locks (ex: hutches, wall mounted hutches with doors and certain storage units), it is possible to add locks (L) with an upcharge. Refer to the description of the product for more details.

Keyed-Alike

The option to key-alike product is available on the units with locks, without an upcharge. The relevant products must be grouped together by office and assigned a sequence of codes. Assign **K01** to the first office, **K02** to the second office etc. Unless specified otherwise, the locks will be installed in the factory with a key number associated to code **K**____. Please note: this key number varies with each separate order placed. It is essential to specify the key number inscribed on the lock when ordering additional keys.

Drawer Slides

Drawers of storage units are equipped with full-extension progressive drawer slides constructed with ball bearings. Total extension is between 16" and 20". The load capacity for the drawers (pedestals and storage units) is 100 pounds for the 6" box, and 150 pounds for the 12" file. The lateral file drawers have a 150 pound capacity. All drawer slides comply with BIFMA standards.

Interlock

"Interlock" is a locking mechanism allowing one drawer to open at a time. This eliminates tipping of a unit. Refer to the description of each product.

Accessories

All storage units that have at least one 6" drawer have a pencil tray included.

Filing bars are included in all 12" drawers. Refer to product description for more details.

Clearance under doors of the hutch

In order to accommodate computer screens, it is important to know that the space available under the doors is 21".

Integrated pigeonhole

Some 42" H. hutches are equipped with a pigeonhole unit that is visible. Other 42" H. hutches have adjustable shelving.

Wiring accessibility for hutches

Hutches are constructed with an opening equipped with a removable cap (black, 1¹/₂" diameter) this allows for the wire of the tasklight (attached under the shelf) to fit through.

Hutch dimensions

Hutches are also available in a width that is 2" less than the work surface on which the hutch is placed. This must be specified when K, N, R or S edge molding is specified on at least one of the sides of the storage unit that the hutch is placed upon (credenza).

Shelves

Storage units and bookcases are equipped with adjustable shelves. The shelves have the same finish as the units but with a 3/4" thickness. On certain units it is possible to order additional shelves (3/4" or 1¹/₈"), contact Artopex Customer Service for more details.

Packaging

The majority of our products are delivered pre-assembled, packed in cartons and do not require additional assembly, apart from levelling glides and pulls. Knock-down products are identified with this symbol **KD**.

Hardware

Knock-down products are delivered with all of the necessary hardware (connectors, cleats, screws, etc.). Returns, bridges and other products that attach to an adjacent surface are delivered with all hardware necessary to the installation.

Codification examples

Here are several examples of c

Double Pedestal Rectangular Desk with "Floating" Surface 36" X 72"

Support Finishes

Specify the support finish for the "floating" surface, black (5067) or silver (5069).

Hutch size

This hutch is 2" shorter to allow for it to be placed upon a credenza equipped on at least one of the two sides with a K, N, R or S edge molding (Phase 1).

Surface Contour

The desk is equipped with an edge molding on 3 sides of the surface (contour code 3).

The return is equipped with edge moldings on 2 of the 4 sides of the surface (contour code 2).

The credenza is equipped with edge moldings on 3 of the 4 sides of the surface (contour code 3)

Woodgrain Direction

Longitudinal woodgrain (S) is illustrated, but crossgrain (C) can also be specified for returns 54" or less.

Concave Profile

To ensure that it is compatible with the desk edge, this return has a concave profile on right, code CR.

Modesty Panel

This desk is equipped with a curved modesty panel, code UC.

OPTIONS

Series	Code	Finish	Contour	Molding	Pulls	Grom.	Lock	Key
PH								

Specify **Series** : PH1 (surfaces 1⁹/₁₆") or PH2 (surfaces 1³/₁₆"), see p.5.

Code : Consult the product code above.

Finish : Refer to finish choices on p.5.

Contour (for PH1) : Specify the number of sides with edge molding, see codes near product illustration, see p.5 as well.

Molding : Specify molding type, see p.5.

Pulls : Pulls included, specify model, see p.7.

Options **Grommet** : Optional grommet can be installed at left (GL), in center (GC) or at right (GR), add \$55 each, see p.7.

Lock : Lock not included on doors (crenzas with door cabinets). To add a lock on doors (black finish), add (L), add \$86.

Key : For keyed-alike option assign code K01 to the parts of the first office, K02 to the parts of the second office and so on and so forth in order to group parts with identical keys. Option offered without charge, see p.8.

Prices and Payment

All prices shown in this price list are suggested retail prices and are subject to change without notice. Prices do not include installation and shipping costs. Taxes are extra. These prices are guaranteed for 30 days from the date of quotation and are firm and final after acceptance of the order. Orders are invoiced at the time of shipment. Terms of payment are net 30 days from date of invoice. Any products sold by Artopex shall remain its property until fully paid in cash. In the event that the purchaser defaults in the payment of any sum due to Artopex, or in the event the purchaser's financial condition becomes unsatisfactory to Artopex, Artopex reserves the right upon notice to the purchaser, to defer or discontinue shipment of any goods or, to refuse any order until such time as the default is corrected or the purchaser provides assurance of payment to Artopex.

Orders

Artopex requires that all orders be submitted in writing to avoid errors and/or duplication. The purchaser is responsible to submit complete orders. Incomplete or incorrect orders (finish colors missing...) will be processed upon reception of the complete information and normal production lead-time will be applied from the date that the complete information is received.

Acknowledgments

Orders will be acknowledged with Artopex acknowledgement forms governing the transaction. The details appearing on this acknowledgment will describe the items to be shipped to the purchaser and the ready to ship date (not the actual shipping date). It is the purchaser's responsibility to verify that the acknowledgment information is correct. If not, the purchaser must notify Artopex within 48 hours in writing. Failure to provide corrections within 48 hours could be subject to extra charges (see Changes and Cancellations).

Changes and Cancellations

Order cancellations or changes are subject to acceptance by Artopex. Special order items and fabric-covered items (standard or COM fabrics) already in production are not subject to change or cancellation under any circumstances.

A) Modifications : Standard product already in production will be subject to a 25% modification surcharge. Changes to the shipping date must be taken into consideration.

B) Cancellations : Artopex reserves the right to invoice the purchaser for any items already in production at the cancellation date and for lost profit on the remaining items.

Storage

Artopex reserves the right to invoice the purchaser for storage charges in specific cases.

Shipping

A) Prices are F.O.B. factory, collect.

B) Artopex will choose the carrier unless otherwise specified by the purchaser. Goods will be handed over to the common carrier in good condition; Artopex liability ceases at this point. Deliveries will be done at the purchaser's unloading dock. The purchaser should have an unloading dock able to accommodate 53' trailers and must supply the unloading personnel.

C) Claims : Artopex is not responsible for damage that occurs in transit or in storage. It is the purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier. Failure to provide an adequate description of the lost items or damages to the carrier could result in the carrier's refusal to honor the charges. It is the purchaser's responsibility to obtain information on the carrier's claim policies and to send any claims to the carrier. For other policies, contact Customer Service.

D) It is the purchaser's responsibility to file any claims even if the order has been shipped directly to the client.

Return of Goods

A) No merchandise may be returned without Artopex written consent and shipping instructions. If this procedure is not followed, the merchandise will not be accepted by the factory and will be reshipped collect without further notice.

B) Goods must be returned properly packaged and all boxes must be clearly marked with the authorization number.

C) Return of items authorized by Artopex are subject to a charge of 25% plus freight (and customs, if applicable) and repair costs.

Product Specifications

Artopex reserves the right to modify the specifications of products, materials, design or accessories without notice.

Artopex also reserves the right to cease production of any product at any time. The products, accessories, materials and finishes as described in the price list prevail over the content of brochures or folders. The weights and volumes shown on the price lists include packaging and are approximations.

Warranty on wood products

Standard Desk warrants products found defective due to defects in materials or workmanship within ten (10) years from date of shipment. Standard Desk, at its option, will repair or replace same. This warranty does not apply to damage or defects resulting from negligence, misuse, alteration, improper installation, improper cleaning or accidents. Standard Desk's sole determination will be final in all matters concerning the condition of the merchandise, the cause or nature of the defect or damage and the necessity or manner of repair. Standard Desk does not warrant fading or color change as they are deemed natural occurrences.

Artopex Lifetime Warranty

Artopex warrants its products are free of defects in design, material and workmanship for as long as the original purchaser owns them.

If written notice of the defect is given to Artopex within the applicable warranty period, Artopex will repair or replace with comparable product, at Artopex's choice, without charge to the original purchaser, any part or product shipped after July 1, 2001, which fails under normal use as a result of such defect.

This warranty provides limits on the following products :

- Electrical components, are warranted for (10) ten years from date of delivery.
- Artopex fabrics are warranted for (5) five years from date of delivery.
- Moving and high wear parts such as covering materials/finishes, glides, slides, user-adjustable worksurface mechanisms, are warranted for (5) five years of single shift usage from date of delivery.
- Non-standard specials, are warranted for (1) one year from date of delivery.

This warranty does not extend to :

- Customer's Own Material (COM) or finishes applied to Artopex products,
- ballast and light bulbs,
- products which have been modified or have not been installed or used according to Artopex application and installation guidelines.

On products warranted for a specified number of years of single shift usage, the warranty period will be reduced in a pro-rata manner when the products are used in a manner that exceeds the equivalent of a single shift forty (40) hour work week.

This warranty is the Customer's sole remedy for product defect. This warranty does not cover damage by a carrier in transit. Artopex makes no warranties, including the implied warranties of merchantability or fitness for a particular purpose, other than the expressed warranties contained herein. There are no other warranties express or implied. Artopex shall not be liable for consequential or incidental damages arising from any product defect.
