The District reserves the right to utilize anti-sniping procedures for reverse auctions. Anti-sniping is a tool that automatically extends the bid time for a reverse auction by five (5) minutes if a vendor places a bid in the final five (5) minutes of the reverse auction. The anti-sniping effect will auto extend the reverse auction bid time any time a bid is placed in the last five (5) minutes of the reverse auction and can auto extend the reverse auction multiple times until the bidding on the reverse auction ends.

Complete specifications and bid information may be obtained by contacting Sharon Larry at the Pearl River Valley Water Supply District at the above address or 601-856-6574. Official bid documents can also be downloaded from Central Bidding at [www.centralbidding.com](http://www.centralbidding.com).
