Product Overview

CONNECTSUITE E-CERTIFY

An electronic Certified Mail™ solution that vastly improves process efficiency

Key Capabilities

- Multi-user, web-based software that streamlines the preparation & management of Certified Mail™

- Easy-to-use interface & process flow enables users to send Certified Mail™ in a fraction of the time

- Prepare one mail piece at a time or upload multiple addresses for batch processing

- No forms to handwrite and no labels or Return Receipt™ cards to apply to envelopes

- Saves $1.15 per letter by providing a USPS® digital signature in place of the "green card"

- Centralized tracking & reporting for all sent items – find signatures with ease and incredible efficiency

- Digital archiving eliminates the need to store paper receipts and keep them organized

- Generates USPS® form 3877 (Firm Mailing Book) if round dating/proof of mailing is desired

Product Overview

AIMS

Powerful mailroom operations and performance tracking with closed loop verification

Key Capabilities

- Real-time monitoring of mail jobs run on Quadient folder-inserters that enables ultra-robust reporting

- Records point-to-point document movements through the folder-inserter and into the envelope

- Verifies, in real time, that documents belonging together are enveloped correctly

- Identifies any incomplete mail pieces resulting from human error or machine stoppage

- Creates a reprint file & verifies replacement documents are processed accurately & completely

- Allows operators to manually complete a mail piece by scanning its barcode

- Logs and stores the full assembly history of all mail pieces in each job

- Furnishes definitive proof that each and every mail piece was accurately assembled

- Historical job data is instantly accessible for the lifetime of your subscription

- Ensures optimal compliance fulfillment and customer privacy protection
